Subject: Annual Habitat Letter

Dear Mr. Rogers, County Administrator:

The Southwest Florida Water Management District's (District) mission is to protect water resources, minimize flood risks, and ensure the public's water needs are met. The District's responsibilities can be grouped under four general areas which form our core mission: water supply, water quality, natural systems and flood protection.

This letter specially addresses our goal for the natural systems area of responsibility. As outlined in our Strategic Plan, the goal for natural systems is to preserve, protect and restore natural systems to support their natural hydrologic and ecologic functions.

As described in Governing Board Policy Annual Habitat Letter, the District is providing elected officials and administrations updated information regarding permitted wetland impacts, mitigation and habitat restoration activities within the District's boundaries. The restoration efforts by our staff and partners tie directly to our natural systems goal.

Since 1984, the District has seen 11,099 acres of wetlands habitat impacted through District permits. During this same period, the District, through projects or permit requirements, has restored or created 47,860 acres of wetlands and adjacent upland habitat; a net gain of 36,761 acres (see chart enclosed).

In Hernando County, during the same time, there have been 75 acres of impacts while 1,605 acres of wetland and adjacent upland habitats have been restored or created. This accomplishment is an example of the importance of preserving these systems to support their natural hydrologic and ecologic functions.

We invite you to read more about our initiatives in our Strategic Plan available on our webpage, WaterMatters.org

Sincerely,

Brian Armstrong, P.G.
Executive Director

Enclosure: Habitat Chart

2023 Total Habitat Restored

Southwest Florida Water Management District

County	Since 1984 Total Permanently Impacted Acres Through ERP Permitting (Approximately)	Since 1984 Total Acres Restored Through District Efforts (Approximately)
Charlotte	373.5	1,913.6
Citrus	72.5	2,129.7
DeSoto	276.5	1,023.9
Hardee	111.3	91.6
Hernando	73.9	1,476.0
Highlands	62.4	133.4
Hillsborough	1,922.7	7,977.9
Lake	97.5	436.3
Levy	4.9	-
Manatee	820.7	3,158.6
Marion	23.0	1,377.1
Pasco	2,041.2	9,807.2
Pinellas	498.8	2,502.1
Polk	2,790.9	7,783.5
Sarasota	1,062.5	3,348.5
Sumter	358.8	2,589.3
Grand Total	10,591	45,749
	Net Habitat Restoration Gained Within the District	35,158
