THIS ADDENDUM BY SIGNATURE AT THE BOTTOM OF
THIS ADDENDUM IN THE SPACES PROVIDED AND

TO ALL PLAN HOLDERS:

The following changes, additions and/or deletions are hereby made a part of the Contract Documents for the **TELCOM DRIVE AND TECHNOLOGY DRIVE ROADWAY EXTENSION**, located in Hernando County, as fully and completely as if the same were fully set forth therein:

A. CLARIFICATIONS

1. Question In reference to the above project, I am requesting clarification if the County would allow for the implementation of Thick Lifts (Section 125-8.4) beginning at the concrete pipe springline. As established in ASCE Standard 15, ASTM C1479, and AASHTO LRFD Bridge Construction Specifications, the structural embedment for concrete pipe is required up to the springline. Above the springline is considered overfill and does not contribute to the concrete pipe structural embedment nor is it a factor in the structural design. Enabling the use of thicker lifts at the springline, as allowed in Section 125 per the adjacent embankment, would improve the installation efficiency, particularly for larger diameters (e.g., 42-inch RCP) while still allowing for density inspection.

Answer: The project was Engineered without the implementation of Thick Lifts therefore the bidders shall bid the project without the use of Thick Lifts.

2. Question: The contract time of 120 calendar days seems quite aggressive for the base contract work being bid considering the utility testing and acceptance criteria within the roadway project. Would the Owner consider adding another 60 calendar days for the base bid?

Answer: The contract time will remain as indicated in the specifications. The contract time from NTP it shall be 120 calendar days to Substantial Completion and an additional 30 calendar days from Substantial Completion to Final Completion.

3. Question: Will additional contract time be granted if the Owner awards the base bid and the additive bid as shown in the schedule of values?

Answer: The contract time will remain as indicated in the specifications. The contract time from NTP shall be 120 calendar days to Substantial Completion and a additional 30 calendar days from Substantial Completion to Final Completion.

- 4. Question: On sheet C-04 TYPICAL ROADWAY SECTION DETAILS: The Typical Road Section under pavement requirements Shoulder = 4' wide sod over 6" of stabilized LBR 40. There is a bid item for 12 Stabilization in the roadway sections of the bid documents but no item for 6" shoulder stabilization. There is also no breakout for shoulder sod. Is it the County's intent that this item be added to the overall sod cost?

Answer: Sheet C-04 TYPICAL ROADWAY SECTION DETAILS: The Typical Road Section under requirements, shoulder indicates trying to convey the 12" of stabilized LBR 40 extends out from edge of pavement 6". Shoulder sod is included with ROW Sod (Item 47 (Base Bid), Item 93 (Additive Bid)).

- 5. Question: It was brought up at the prebid that the Contractor would be responsible for the Gopher Tortoise relocation yet there is no bid item. The pricing will vary after a tortoise survey is done. How is it possible to ask the Contractor to establish pricing for this item without the tortoise survey information?

Answer: The Contractor is not responsible for the Gopher Tortoise relocation. Brooksville - Tampa Regional Airport will be responsible for Gopher Tortoise relocation and permit fee's associated Gopher Tortoise relocation.

- 6. Question: Does the excess fill material become the property of the Contractor or is it mandatory that the Contractor relocate excess fill material to the stockpile area?

Answer: Brooksville - Tampa Bay Regional has no use for excess fill material therefore is it the Contractor's responsibility to remove and dispose of said excess fill material.

- 7. Question: 120 Days to substantial is not enough time. Can days be added to this project?

Answer: Please see response to question 3.

- 8. Question: Is the excess dirt staying on the airport's property, per the note on plan sheet C-06?

Answer: Please see response to question 6.

Subject: 20-CG0116/DK Telcom Drive and Technology Drive Roadway Extension - clarification

Diane,

In explanation of how Line 64 on Addendum 6 Bid Form – 2nd Revision got changed from a quantity of 10,000 to a quantity of 1,000. All I can honestly say is that while reconstructing the bid sheets to an excel format so that the bid sheets could be totaled and rechecked as various pricing was received from subcontractors and suppliers and was applied to the bid I had a typographical error that was not picked up during proof reading.

Thanks,
