Hi Chris,

The proposed connection of the seawall areas (shown in the below image) would qualify for an exemption from SWFWMD. If the County would like to formally receive an exemption, the fee would be \$100 however as it is an exempt activity, it is not required to apply.

Also, the County ownership extends past the seawall as this is a manmade island, so I do not believe we would need to worry about getting an MHWL survey.

TY, Carla.

Hi Carla,

Hope you're doing well! It looks like this would qualify for a regulatory exemption pursuant to 62-330.051(12)(b), F.A.C. and 403.813(1)(o), F.S. However, this is most likely on state lands (project looks to be within the Nature Coast AP) so the proprietary authorization would depend on where the MHWL is located. I would recommend getting that surveyed prior to applying for an exemption.

Thank you!

Hi Nikki,

I'm hoping you can help me. I reached out to DEP regarding a seawall question, and they told me it is within SWFWMD's jurisdiction. Please see the below emails.

Would you please let me know if the proposed seawall connection (between two seawalls) will qualify as an exemption. If you need additional information, just let me know.

TY, Carla.

Hi Carla,

After looking into this further, it appears the park does not have boating/docking related activities, and as such would be reviewed by SWFWMD.

Please let me know if you have any questions.

Best,

Hi Jessica,

The County would like to connect existing seawalls at our Pine Island park to reduce the loss of beach sand. The areas of potential work are noted in the below aerial (red line). As this would be construction of seawalls in other surface waters between and adjoining existing seawalls at both ends in accordance with Section 403.813(1)(o), F.S., please confirm this activity would be exempt per section 62-330.051(12)(c), F.A.C.
