MEMORANDUM

Date: July 27, 2022

To: Toni Brady, Chief Procurement Officer and Purchasing Manager

From: Brad Smith, HCUD Senior Project Manager

CC: Gordon Onderdonk P.E., Director of Utilities

CC: Richard C. Kirby IV P.E., HCUD Engineering Division Manager

Re: Single Source Memo for Verano Subdivision to Wellington Subdivision 8 Inch Water Main Interconnect

Hernando County Utilities Department (HCUD) is requesting to direct select Deeb Construction and Development Company to install a new 8-inch water main interconnect. This interconnect was noted as a critical system need for the Wellington Subdivision during the current water master plan finalized in 2021. Currently there is a new Subdivision with permit approval to be constructed between the Wellington and County Line rd. called Verano. Deeb is familiar with what is being constructed since they are also the site contractor for Verano. This interconnect will be done during the current construction which will result in efficiency and cost savings for HCUD. HCUD has a great working relationship with Deeb and a great amount of confidence the job will benefit all parties involved. Please see the attached estimate from Deeb. A Memorandum of Understanding between HCUD and the Wellington has been executed by both parties.

Brad Smith
Senior Project Manager
