APPLICATION NARRATIVE

RAIN DANCER, LLC & EVERGREEN PARTNERS, LLC

PARCEL KEY 01317685

General

The subject site, consisting of approximately 9.3 acres, lies within section/township/range 32/23/18 and is located on the north side of County Line Road, the south side of Quality Drive, approximately one mile east of Seven Hills Drive. The property is identified by the Hernando County Property Appraiser as Parcel Key 01317685. See Figure 1 for the aerial view and location of the site.

Figure 1. Aerial and location map

Zoning and Land Use

The property has a Commercial land use designation on Hernando County's Future Land Use Map (See Figure 2).

Figure 2 - Current Land Use Designation Parcel Key 01317685

The property is presently zoned Planned Development Project/General Commercial (PDP/GC) and approved for C-2 uses with Mini warehouses and outdoor storage. See Figure 3 for the current zoning on the site.

Figure 3-Current Zoning Map Parcel Key 01317685

The following table identifies adjacent zoning classification and their designation in the comprehensive plan's future land use map.

	Zoning	Land Use/FLUM	Property Use
North	PDP/SF and PDP/SU	Residential and Public Facilities	Residential (Wellington at 7 Hills), school (Suncoast Elementary)
South	NA	NA	Pasco County
East	Congregate Care Facility	Commercial	Congregate Care Facility
West	PDP/GHC	Commercial	Commercial Development

Request

The request is for a master plan modification to retain the already approved PDP/GC (General Commercial) zoning with specific C-2 Uses and add additional C-2 and special exception uses and change the zoning category to Combined Planned Development (CPDP).

Project Description

The property is retaining its previously approved PDP/GC (General Commercial) C-1 uses and specific C-2 uses across the site. The size of the property and location along County Line Road make it attractive for a variety of different uses, ranging from highway commercial to medical facilities. Additionally, a reverse frontage road (Quality Drive) already exists along the property's northern boundary. The size and location of the property will allow up to three commercial sites along County Line Road (Area 1) and a 5-acre parcel to the north (Area 2) that would be attractive for a number of uses, including already approved self-storage or outdoor storage uses, medical offices, congregate care or a commercial flex building complex. An internal access drive or cross access agreements would provide all uses on site to have access to/from Quality Drive. Additional right of way will be provided along County Line Road as determined by the County Engineer and all access points will be designed to meet County Standards. The total project nonresidential square footage will not exceed 155,000 square feet.

The project site is cleared and vacant. The sand soils are conducive for development and stormwater retention. There are no wetlands on the property and only a small corner of the site is within the 100 year floodplain. Hernando County utilities are available. The property has direct access to both County Line Road and Quality Drive, which serves as a reverse frontage road leading to a signal at Mariner Boulevard.

Additional Uses Requested

The following additional C-2 Uses in Area 1 along County Line Road are requested:

- Mini warehouses (previously approved and requested in Area 1 & Area 2)
- Outdoor RV/boat storage (previously approved and requested in Area 1 & Area 2)
- Drive-in restaurants
- Tire and automotive accessory establishments
- Automotive specialty establishments
- Automobile service establishments exceeding 4 bays (excludes body shops)
- Veterinary clinics and hospital establishments
- Alcoholic beverage dispensation

In Area 2 along Quality Drive the following Special Exception Uses are requested:

- Congregate Care facilities
- Hospitals (requested in Area 1 & Area 2 due to the number of acres required)

Project History

The project was previously approved by the Board of County Commissioner (Resolution 2021-157) on September 14, 2021, as Planned Development Project/General Commercial (PDP/GC) with specific C-2 uses for Mini warehouses and outdoor storage with deviations (H 21-36) . The associated master plan included the following uses and intensity:

- 3 phases
- Phase 1 approved for 110,00 square feet of Mini warehouse
- Phase 2 approved for 15,000 square feet of Mini warehouse and outdoor storage of 48 RV/boat spaces
- Phase 3 approved for 3 commercial outparcels at 30,000 square feet with all allowable uses under the C-1 District
- A 75 foot setback along County Line Road (deviation from 125 feet)
- A rear setback of 25 feet (deviation from 35 feet)

The approved Resolution 2021-157 for H21-36, the minutes, associated performance conditions and approved master plan are provided in Attachment 1 to this narrative.

The applicant requested the Board of County Commissioners approve a master plan modification on August 27, 2024 (H24-17). The modifications were not approved; however, the Board of County Commissioners re-approved the original request and master plan. Therefore, the original master plan remains effective.

Consistency with the Comprehensive Plan

The site is consistent with the following Goals, Objectives and Strategies of the Hernando County 2040 Comprehensive Plan.

Future Land Use Element

Commercial Category Mapping Criteria: The Commercial Category includes commercial corridors along U.S. 19 and S.R. 50 and designated commercial nodes at intersections of arterial and/or collector roads intended primarily for commercial development with a wide variety of uses.

Map Interpretation Guidance: Areas considered to have a Commercial Category designation but not shown on the Future Land Use Map include neighborhood commercial and specialty commercial uses as described in this Plan, commercial approved as part of mixed use developments, commercial designated by planned development districts, the infill development of existing commercial areas, commercial areas extending from designated commercial nodes, and pre-existing commercially developed and designated areas.

Strategy 1.04A(6): The Commercial Category provides for commercial uses including products and services along major corridors and at roadway intersections to serve residents and visitors on both a localized and regionalized basis. The Commercial Category recognizes existing commercial use corridors along U.S. Highway 19 and State Route 50 and existing and planned commercial nodes at intersections of arterial and/or collector roads. The Commercial Category includes small unmapped existing commercial properties. The

Commercial Category also recognizes the ability to designate infill parcels for commercial use lying in proximity to and between, but not necessarily contiguous to, other existing commercially designated properties. Publicly owned lands along the commercial use corridors that are made available for surplus may be considered to have a Commercial designation, if the agency proceeds through the Comprehensive Plan Amendment process to amend the future land use map, in accordance with Section 163.3184, F.S.

Commercial Category

Objective 1.04G: The Commercial Category allows primarily retail, office, and commercial service uses with an overall average gross floor area ratio of 0.35 but also includes limited industrial, recreational and institutional uses. Residential and mixed uses may be allowed subject to locational criteria and performance standards.

Commercial Nodes

Strategy 1.04G(2): Commercial development as mapped by the Future Land Use Map is intended to create and identify functional nodes that conveniently serve the supporting population without compromising the integrity of residential areas. Commercial nodes: a. are located at the intersections of roads having collector status or greater; b. recognize concentrations of existing commercial development; c. are generally less than 100 acres in size within the Adjusted Urbanized Area of the County; d. are generally less than 60 acres in size outside of or on the fringe of the Adjusted Urbanized Area of the County; e. may be located in Centers or Corridors pursuant to the related strategies

Analysis: The site is designated Commercial by the Hernando County 2040 Future Land Use Map and is located in a commercial node.

Site Conditions

Utilities

The subject site is within the service boundaries of the Hernando County Utilities Department. HCUD has both sewer and potable water in the vicinity of the project and the project will connect to County Water and Sewer. If required, the applicant will enter into a

utilities service agreement with HCUD to ensure the timing of connection to those facilities and/or conduct any required engineering study to identify any infrastructure capacity needs.

Drainage

Zoning and Land Use

The property has a Commercial land use designation on Hernando County's Future Land Use Map (See Figure 2).

Figure 2 - Current Land Use Designation Parcel Key 01317685

The property is presently zoned Planned Development Project/General Commercial (PDP/GC) and approved for C-2 uses with Mini warehouses and outdoor storage. See Figure 3 for the current zoning on the site.

Figure 3-Current Zoning Map Parcel Key 01317685

The following table identifies adjacent zoning classification and their designation in the comprehensive plan's future land use map.

	Zoning	Land Use/FLUM	Property Use

Request

The request is for a master plan modification to retain the already approved PDP/GC (General Commercial) zoning with specific C-2 Uses and add additional C-2 and special exception uses and change the zoning category to Combined Planned Development (CPDP).

Project Description

The property is retaining its previously approved PDP/GC (General Commercial) C-1 uses and specific C-2 uses across the site. The size of the property and location along County Line Road make it attractive for a variety of different uses, ranging from highway commercial to medical facilities. Additionally, a reverse frontage road (Quality Drive) already exists along the property's northern boundary. The size and location of the property will allow up to three commercial sites along County Line Road (Area 1) and a 5-acre parcel to the north (Area 2) that would be attractive for a number of uses, including already approved self-storage or outdoor storage uses, medical offices, congregate care or a commercial flex building complex. An internal access drive or cross access agreements would provide all uses on site to have access to/from Quality Drive. Additional right of way will be provided along County Line Road as determined by the County Engineer and all access points will be designed to meet County Standards. The total project nonresidential square footage will not exceed 155,000 square feet.

The project site is cleared and vacant. The sand soils are conducive for development and stormwater retention. There are no wetlands on the property and only a small corner of the site is within the 100 year floodplain. Hernando County utilities are available. The property has direct access to both County Line Road and Quality Drive, which serves as a reverse frontage road leading to a signal at Mariner Boulevard.

Additional Uses Requested

The following additional C-2 Uses in Area 1 along County Line Road are requested:

- Mini warehouses (previously approved and requested in Area 1 & Area 2)
- Outdoor RV/boat storage (previously approved and requested in Area 1 & Area 2)
- Drive-in restaurants
- Tire and automotive accessory establishments
- Automotive specialty establishments
- Automobile service establishments exceeding 4 bays (excludes body shops)
- Veterinary clinics and hospital establishments
- Alcoholic beverage dispensation

In Area 2 along Quality Drive the following Special Exception Uses are requested:

- Congregate Care facilities
- Hospitals (requested in Area 1 & Area 2 due to the number of acres required)

Project History

The project was previously approved by the Board of County Commissioner (Resolution 2021-157) on September 14, 2021, as Planned Development Project/General Commercial (PDP/GC) with specific C-2 uses for Mini warehouses and outdoor storage with deviations (H 21-36) . The associated master plan included the following uses and intensity:

- 3 phases
- Phase 1 approved for 110,00 square feet of Mini warehouse
- Phase 2 approved for 15,000 square feet of Mini warehouse and outdoor storage of 48 RV/boat spaces
- Phase 3 approved for 3 commercial outparcels at 30,000 square feet with all allowable uses under the C-1 District
- A 75 foot setback along County Line Road (deviation from 125 feet)
- A rear setback of 25 feet (deviation from 35 feet)

The approved Resolution 2021-157 for H21-36, the minutes, associated performance conditions and approved master plan are provided in Attachment 1 to this narrative.

The applicant requested the Board of County Commissioners approve a master plan modification on August 27, 2024 (H24-17). The modifications were not approved; however, the Board of County Commissioners re-approved the original request and master plan. Therefore, the original master plan remains effective.

The site is consistent with the following Goals, Objectives and Strategies of the Hernando County 2040 Comprehensive Plan.

Future Land Use Element

Commercial Category Mapping Criteria: The Commercial Category includes commercial corridors along U.S. 19 and S.R. 50 and designated commercial nodes at intersections of arterial and/or collector roads intended primarily for commercial development with a wide variety of uses.

Map Interpretation Guidance: Areas considered to have a Commercial Category designation but not shown on the Future Land Use Map include neighborhood commercial and specialty commercial uses as described in this Plan, commercial approved as part of mixed use developments, commercial designated by planned development districts, the infill development of existing commercial areas, commercial areas extending from designated commercial nodes, and pre-existing commercially developed and designated areas.

Strategy 1.04A(6): The Commercial Category provides for commercial uses including products and services along major corridors and at roadway intersections to serve residents and visitors on both a localized and regionalized basis. The Commercial Category recognizes existing commercial use corridors along U.S. Highway 19 and State Route 50 and existing and planned commercial nodes at intersections of arterial and/or collector roads. The Commercial Category includes small unmapped existing commercial properties. The

Commercial Category also recognizes the ability to designate infill parcels for commercial use lying in proximity to and between, but not necessarily contiguous to, other existing commercially designated properties. Publicly owned lands along the commercial use corridors that are made available for surplus may be considered to have a Commercial designation, if the agency proceeds through the Comprehensive Plan Amendment process to amend the future land use map, in accordance with Section 163.3184, F.S.

Commercial Category

Objective 1.04G: The Commercial Category allows primarily retail, office, and commercial service uses with an overall average gross floor area ratio of 0.35 but also includes limited industrial, recreational and institutional uses. Residential and mixed uses may be allowed subject to locational criteria and performance standards.

Commercial Nodes

Strategy 1.04G(2): Commercial development as mapped by the Future Land Use Map is intended to create and identify functional nodes that conveniently serve the supporting population without compromising the integrity of residential areas. Commercial nodes: a. are located at the intersections of roads having collector status or greater; b. recognize concentrations of existing commercial development; c. are generally less than 100 acres in size within the Adjusted Urbanized Area of the County; d. are generally less than 60 acres in size outside of or on the fringe of the Adjusted Urbanized Area of the County; e. may be located in Centers or Corridors pursuant to the related strategies

Analysis: The site is designated Commercial by the Hernando County 2040 Future Land Use Map and is located in a commercial node.
