CAPACITY ANALYSIS The Hernando County School District Level of Service (LOS) is 100% of permanent school capacity.

At the elementary school level, sufficient capacity is not currently available in the assigned Concurrency Service Area (CSA) of Winding Waters K-8. However, capacity is available in the adjacent CSAs of Pine Grove ES and West Hernando MS.

At the high school level, sufficient capacity is currently available in the assigned CSA of Weeki Wachee HS.

COMMENT This analysis represents a non-binding determination of capacity.

A formal application for School Concurrency and a formal *Finding of Available School Capacity* should be submitted to the School District no less than thirty (30) days prior to submission for approval of a site plan, conditional plat, or functional equivalent. The administrative fee for this application is \$500.00. Should the School District then find sufficient capacity neither exists, nor is anticipated to exist within three (3) years from the issuance of such approval, the School District will require, as a condition of any such approval, a Capacity Improvement Agreement or a Proportionate Share Mitigation Agreement with the School Board, to offset the demand for public school facilities created by the proposed development.

We appreciate the opportunity to provide comments on the zoning amendment petition for this proposed residential development. Please let me know if you have any questions or comments.
