CAUTION: This email originated from outside the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good Morning Fran,

Thank you for your inquiry. This bid does not have a fully executed contract. We use purchase orders for this particular bid and a contract was not required. If there is any other documentation you need, please let me know and I can get that to you today.

Negotiating the pricing is not an option when piggybacking our bid so you are correct in not finding documentation supporting this option.

Please let me know if you have further questions and what I can provide to help you.

Happy Friday 😊

Good afternoon Mary,

Our Fire and Rescue Department is interested in piggybacking on your EMS Medical Supplies Contract. I was able to locate most of the information I need; however, the 107-page document available on your website does not appear to be the fully executed contract. Several pages are either blank or contain incomplete documentation from the awarded vendors.

Could you please provide the fully executed contracts for the three awarded vendors, along with the proposals they submitted?

Additionally, our department is exploring the possibility of negotiating the pricing percentages. Upon review, I did not find any provisions in the ITB that allow for pricing negotiations by outside entities. As I am not entirely familiar with your documentation, I wanted to confirm whether such flexibility exists and ensure I haven't overlooked anything.

Thank you for your time and assistance.

Fran Hallet
