---

Katrina,

The reasoning for this Change Order is due to the ever-increasing inflow and infiltration that the Hernando Beach community is experiencing. Our Operations team has noticed that this area is in need of rehabilitation and grouting/coating the manholes and pump stations will greatly reduce the I&I issues. I believe that coating and grouting these manholes/pump stations will be a cost-effective way to achieve this goal. The quote that we received is reasonable and still within budget for this project. Hydro-Klean LLC has shown that they are competent and able to perform the job per Hernando County Utilities Specifications.
