Persuant to the sale of this property, the lender of the buyer required a survey to be performed. The results of the survey showed that the property, specifically the building itself, was somehow originally allowed to be constructed within a utility easement on both sides of the structure. Both the west and east ends of the building are 6" into the Utility easement. We are requesting the vacation of this current easement to allow the new owners to purchase the property without being encumbered with with any violation of county easements. The building has been in existence over 40 years and is shown to have been built in 1982 as per the property Appraiser .
