HERNANDO COUNTY SCHOOL DISTRICT CONCURRENCY DEFICIT SUMMARY REPORT

July 16, 2025

INTRODUCTION

According to a recent Redfin report¹, while median home prices in Hernando County are up 4.0% compared to last year, the number of homes sold has decreased by 6.3%. Despite the cooling market, however, plans for residential development in Hernando County have continued marching forward, seemingly undeterred. As school concurrency applications continue to arrive in a steady stream, the pressure on school capacity available for future developments has reached a tipping point.

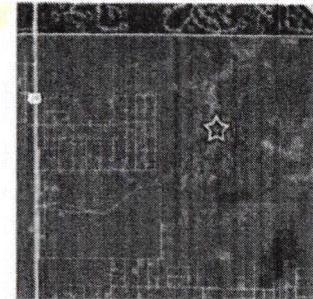

In the past 12 months, district staff have received 30 school concurrency applications for developments with various housing types including single family, duplex/villa, multifamily, and townhomes. The combined total of 9,354 dwelling units in these 30 developments is expected to generate 2,563 students. (1,026 ES, 743 MS, and 794 HS). Factoring in current enrollment and capacity reserved for previously approved developments, adequate capacity has typically been available – until recently. This report summarizes the 11 developments for which there is currently at least some capacity deficit for the number of students expected to be generated by each development.
