What kind of help do businesses need?

- Finding land or buildings for future operations
- Assisting with workforce needs
- Help with permitting, building, zoning

- Assisting with training/education needs
- Connections to business resources

A healthy and vibrant local economy depends on the well-being of a community's existing businesses. This is why our goal is to help businesses succeed and grow in Hernando County.

Businesses benefit from community support to help solve problems that would cause them to fail or relocate to a different community.

Citizens benefit from having local job opportunities with a range of employers, types of jobs and industries.

The community benefits from a stable tax base, business engagement, vitality and local pride.
