NARRATIVE – WILLIAMS REALTY AND INVESTMENTS, INC.

Proposal

This is a 38.4 acre parcel that is zoned Agricultural (AG). The property is located within the I-75/SR 50 PDD. The property has historically been used for sand excavation, but that use has been discontinued. The owner desires to install and operate a concrete batch plant on the western boundary of its property. We are requesting a rezoning to PDP(GC) with a specific C-4 use for a batch plant.

Access to the subject is from Power Line Road to the south. Zoning to the north and west is AG, to the east is PDP(SF) and to the south is Pasco County.

The buffers and setbacks for the project shall be as shown by the site plan, to wit: a 100' setback on the west and north and a 900' setback on the south and a 1037' setback on the east. It is anticipated the operating hours will be Monday through Saturday, 7:00 a.m. – 6:00 p.m.

Site and Environmental Characteristics

Most of the site has historically been used as a sand mine. The western part designated for the batch plant is secluded from the remainder of the site.

The entire site is within Zone X and does not lie within a flood zone. All surface water will be properly permitted and drained to approved drainage retention areas. There are no wetlands or water features.

There are no known endangered or protected species on site.

Site Plan and Impact to Public Facilities

The proposed site plan is attached. The only buildings and improvements are as shown on the site plan. No deviations are requested. The existing roadway network is capable of accommodating the requested use, and there will not be upgrades to signals or roadway network due to this site's traffic volume.

Water and sewer are not available to the site. Private well and septic will serve the site.

Conclusion

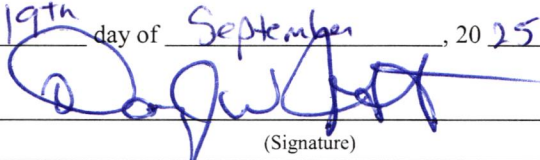

This rezoning to PDP(GC) with a specific C-4 use for a batch plant is consistent with the County's comprehensive plan and is compatible with the surrounding land uses. We request approval of this rezoning as stated above.
