DEAR County HERNANDO Board of Commissioners,
20 North MAIN STREET Brooksville.

The community I as a multifamily home owner has significantly developed an insignificant property priority in ways of support for section eight housing. Over 6 years it's reasonably difficult as many had given valuable personal and necessary, below value items at their homes. In consideration for newer residents here, it became the ever undiminished providing legitimacy to whole families. These families were humanitarian uninvolved, vets, fire fighters, nurses, and police officers. These many discussions I have no individual disrespect and partial involvement. Suppose differences put on our waste removal payments enlarges many losses in health care, that sends higher medical bills, I am supporting and live with my kid, 31, almost to the point of leukemia cancer developed. Added, he could evaluate disease through skin tests on his body, I cannot afford a few drinks of alcohol to employ my stomach from retching at this news of raising the rates. I have to buy 2 bags of dog food at the beginning of each month since in out of money shortly into the month, I'm on a fixed disability check. Multifamily and single family dwellings 12 years or as much, since early honest, payed 44.00 even in 325,000 homes, Are they providing purposely living in greatness medical conditions.

until were sucking the everything we own for government
dismissal and everyone is supported by section eight,
the below convincing, as most if telling we need
entity financial support to our water bills, and finally
I consider your thoughts distraught saying be
considerate. Not only is my kid medically ill,
myself is killing it to keep my and strengthen my
health. I further figure constantly as the street
of my yard gets worse from poop, my inacastoe
has no ever answer, our community accepted
so many new home owners of alot of nationalities.
Such effort were practiced for artists,
relocated families during storms damage and
low income section eight. How is it a 300,000
residence 12 years prior to 2024 only paid
44.00 and 2024 your asking a residence
at 34,000 to pay 98.00

My breif concern to you.

Dept of Solid Waste

Dear Sir/Mam,

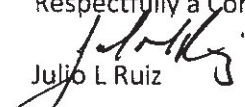

In reference to your undated letter concerning the imposition/collection of solid waste disposal, I personally didn't have idea or knowledge that this was being collected through our taxes. We already pay for our trash pickup and solid waste pickup through Republic Waste Services.

Very seldom do we use your dumping grounds. I suspect that you also charge a fee to Republic Services. If so, Then I also suspect double dipping.

At any rate, I am opposed to this imposition/collection. I suggest charging a fee at the gate/entrance to the dumping grounds instead of placing a burden to the tax payer.

Please provide me a copy of Section 197.3632 of the Florida Statutes.

Respectfully a Cordially

Gentlemen:

I have received a notice of a proposed solid waste disposal assessment stating a single family residential would be \$104.40.

I am a widow residing in Brookridge Community in Brooksville. My income consist of just Social Security. Currently I am charged \$45.66 by Republic Services for a 2 day pick up. There are many times I do not put out my trash barrel due to lack of garbage, I am not alone as many seniors living alone do not accumulate a lot of trash. A increase of \$104.40 would make a big dent in my income as in other seniors.

I would like to suggest the following:

- (1) Give Seniors in low income a discount
- (2) Adjust pick up to just once a week at discount price to Seniors who don't need a 2 day pick up

I would appreciate introducing the above suggestions at the July 9th hearing.

Sincerely,

Mary Di Bartolo

Attention Board of County Commissioners,

I **oppose** the imposition of forcing Hernando county residents, who have their own means of legally disposing of trash, to pay for a service they might not need or want. Many counties, including unincorporated portions of Pinellas county, have private trash companies that compete for service and those who wish to use it can, and those who wish to dispose of their trash via other means can opt out.

This imposition is another government outreach. We should have the right not to pay for another service we do not want. Hernando County and the Board of Commissioners should find ways to cut unnecessary costs, and to budget according to the income you have, instead of using taxation to make your budget work. That is how I am cutting my costs, by finding means to dispose of my trash and saving my hard-earned dollars.

RE: Increase solid waste disposal

To Whom It May Concern:

Please consider the burden this increase will be doing to the elderly on a fixed income. I for one, am a widow with only my SSI income, and a huge mortgage on my home.

Since I live alone and am in my 80's I do not eat a lot, therefore garbage is at a minimum. I only leave my trash can out once a week, and sometimes, only put the can out every other week. I feel it is wrong & unfair that I

have to pay for other larger families. And I am unable to get any assistance due to owning my home, even though I have a large mortgage and insurance.

I am going to go to this meeting and hope it's not in vain.

Old, but still a taxpayer ↵
