Fran,

I added the Seminole Cty. ITB to open gov. I don't have the Seminole Cty BOCC award, see pdf signature pg. 21+22 (attached), would that work? It states it was BOCC approved at their March 23, 2023 meeting, If not I will have to ask for it.

I checked the COI and its good until 1/1/24.

The requested BOCC approval at this time is only the method of procurement (this contract), we do not have any current projects that are ready, but depending on completion date of a separate project at the Jail, we have one that can be done this FY23, it is estimated at \$140,000.

Below are estimated amounts for projects that are planned in the future. Most of these projects are pretty comprehensive, meaning they are almost always over \$35,000 anyway so we will be going to the BOCC again for approval at that time.

FY24:

Government Center & Courthouse exterior waterproofing, sealing and painting project - \$525,000

FY25:

Records Storage exterior waterproofing, sealing and painting project - \$75,000

Sheriff's Office exterior waterproofing, sealing and painting project - \$100,000

Thanks
