**UTILITIES REVIEW**

The Hernando County Utilities Department does not currently supply water or wastewater service to this parcel. Water and wastewater service are not available to this parcel. HCUD has no objection to the requested zoning change from C1 to PDP(GC) with C2 use to allow a secured outdoor storage facility.

**FIRE SAFETY REVIEW**

The Fire Prevention Manager has reviewed the petitioner's request and has identified the following requirements upon site development:

- Hernando County may require secure access boxes for structures with restricted entry. All boxes must be installed in an accessible location and comply with UL 1037 standards to ensure emergency personnel can enter the site without delay.

**ENGINEERING REVIEW**

The subject site is located at the Northwest Corner of Citrus Way and Centralia Road. The County Engineer has reviewed the petitioner's request and has the following comments:

- This property contains a small area of Flood Zone "AE, (El.128.6)" in the SE corner. Development within floodplain requires specific permitting and mitigation.
- The gate opening is to be set back from the edge of pavement 1 ½ times the length of the longest proposed vehicle to regularly use the gate.
- Stacking, standing, or parking on Centralia Drive is not permitted.
- Project is required to improve April Drive to Major Local/Commercial Road standards. Refer to Hernando County Facility Design Guideline IV-06. Pave as depicted on site plan.
- Provide sidewalks along both Centralia Road and Citrus Way for the entire length of property frontage, as shown on site plan and both roadways are Collector roadways.
- The site plan requests the use of compacted 57 rock for use parking lot material, this is a deviation from Hernando County Standards, an Administrative Design Variance must be requested to the County Engineer for the use of this material. Refer to Hernando County Facility Design Guidelines page I-13 for procedure.
- Site Development permitting is required to meet the Hernando County Facility Design Guidelines requirements for commercial development, which includes drainage calculations and Southwest Florida Water Management District Environmental Resource Permitting.
