Charlie's **PLUMBING, INC.**

321 West Jefferson Street • Brooksville, FL 34601
Phone 352/754-8400 • Fax 352/754-8669
Statewide 1-800-495-3307

2/14/2024

My name is Charles Jorgensen and I own Charlies Plumbing, Inc. which has been in business since October 1992.

We employ 13 employees including 11 plumbers and 2 office staff for your needs.

We are located at 321 West Jefferson Street in Brooksville and own the property.

We have an excavator and all equipment needed for plumbing jobs.

We have never experienced any lost time from accidents or workers compensation and/or occupational Health and Safety Act in the past 3 years.

We have never failed to complete and awarded project within the specified time period

We are not involved in any litigations or arbitration.

We have never filed for bankruptcy.

We are licensed and insured in the state of Florida as a plumbing contractor.

Unless it is of a subterranean nature, we normally do not require a sub-contractor, however we maintain an excellent relationship with sub-contractors.

We are located in central Florida and are accessible to all of Hernando County and Pasco but can and will travel.

I have attached a copy of our Florida contractor license.

TITAN

Project #1: Water System – Grand Canyon NP, AZ

The project location spans from the wastewater treatment plant (WWTP) near the north end to the Grand Canyon Lodge towards the south. We have performed work within the WWTP area, administration area, campground area, employee dining rooms area, the main road, and the Lodge area, and we are pleased to inform you of the progress we have made so far.

Our work has included portions of the 83-year old potable water underground distribution system, such as water mains, sub-mains, service laterals, and select fire hydrants. We have also installed new pipes, including drains, fittings, and valves.

It's worth noting that the North Rim entrance near the WWTP elevation is 8,320 feet above sea level, while the Grand Canyon Lodge is 8,220 feet above sea level, with access via Highway 67.

We have worked hard to ensure that the project is effective and efficient, and we are committed to completing it to the highest standards possible.

TITAN's Role: Our Construction Management Team consisted of:

- ✓ Project Manager
- ✓ Construction Quality Control Manager
- ✓ Site Safety & Health Officer

Project #2: Shoreline Wells – Katherin Landing, AZ

Project consisted of sitework, clearing grubbing and trenchwork. Shoreline wells The project entails the replacement of an already existing and failing culvert system. The scope of work will include demolition of the existing structure, utilities such as water and sewer line detection and relocation, clearing and grubbing of the work area, grading to ensure proper drainage, fill and compaction of the site, and haul off any excess spoils. The entire project will be executed in compliance with the latest industry standards to ensure a safe and long-lasting result. Wells were installed throughout the area. Trenching was being conducted and 15 miles of waterline were installed. Numerous static water line tests were conducted. Coordination between the National Park Service and the public was essential to ensure safety.

TITAN's Role: Our Construction Management Team consisted of:

- ✓ Construction Quality Control Manager
- ✓ Site Safety & Health Officer
- ✓ Project Scheduler
