UUCiP Neighborhood Community Center

11.18.2024

The Unitarian Universalist Church in the Pines requests approval for a Special Exception Use Permit to develop a Place of Public Assembly within the Residential Zoning District.

The site is currently vacant, and is currently being used for outdoor cook-outs. The proposed development will include constructing a 3,475 GSF one-story neighborhood community center, with the potential for a ± 700 GSF addition on the west side of the site in the future as generally depicted on the site plan.

The hours of operation are expected to be seven days a week for a small staff plus visitors. Meetings of congregational members using available parking only are expected two to three times a week including Sunday. Outdoor events such as cook-outs are possible and would be similar to what has been occurring on the undeveloped parcel over the past two years.

The parking area will be pervious, constructed of rock with a limestone base or crushed concrete with accessible parking and accessible path constructed of concrete. The proposal includes 24 parking spaces, meeting the required parking capacity for the proposed use and building size.

Signage is possible but, shall be applied for under permit. Special events or displays would follow county ordinance requirements as applicable however, no specific event has been envisioned for this property due to the size of the church, services offered and available parking area.

A refuse container location has been sited on the plan for future use if needed however, the church intends to use the smaller residential style blue roll-out containers due to the minimal refuse production expected.
