**1. Brief statement of the request or problem:** FlaWARN (Florida's Water-Wastewater Agency Response Network) is a formalized system of "utilities helping utilities" to address mutual aid during emergency situations. Its intent is to provide a secure web-based data bank of available resources and a mutual aid agreement to help reduce red tape in times of emergency. The program is organized and maintained by the University of Florida's TREEO Center. All participating utilities are asked to sign the attached mutual aid agreement. The signed agreement on file at TREEO should facilitate planning and prioritizing in an emergency.

**2. Discussion of the implications, possible impact, and concerns, if not apparent from the preceding information:** The intent is to facilitate both giving and receiving mutual aid following an emergency event.

**3. Time considerations and their significance:** Normal processing time.

**4. Factual background:**

**5. List and/or attach all related documents and known authorities (ie. Statute, ordinance, resolution, BOCC action, administrative code, legal case, contract, lease, letter, memorandum, prior legal opinion, any and all backup material).** Other FlaWARN website information.

**6. Other (e.g., prior legal assistance on this or a related matter; names of other interested or opposing parties including their counsel; any other information the County Attorney's Office should be aware of).**
