SECTION III
REQUEST FOR QUALIFICATIONS
FOR
DESIGN-BUILD OF LOCKHART WATER TREATMENT PLANT EXPANSION PROJECT
RFQ No. 21-R00076/PH

1. PURPOSE AND OVERVIEW:

1.1 **General:** Hernando County (County) is moving towards developing larger, regional water treatment facilities to meet the needs of new developments throughout the County. One of these new developments is being built near the Lockhart Water Treatment Plant (WTP). It is the County's intent to expand the Lockhart WTP into a regional facility to meet future growth needs.

Currently, the Lockhart WTP does not meet anticipated Fire Flow Demands south of the facility where a new planned community is being developed. This development location has a higher elevation than what the existing well pump was designed for and reportedly creates a pressure differential within the existing system between the north and south service areas. A new High Service Pump Station (HSP) is being proposed to meet the immediate development demands as well as future growth within the surrounding areas. Operating in conjunction with three (3) existing Pressure Sustaining Valves to help maintain proper system pressures, the HSP will be supplied by a new 2-million gallon (MG) pre-stressed concrete Ground Storage Tank (GST), which will be filled via two (2) existing onsite wells. It will be important to note that the proposed site layout shall include plans for a future, second 2-MG GST.

1.2 **Project Objectives:** This Request for Qualifications (RFQ) has been issued to obtain qualified design-build teams for the design and construction of improvements to the Lockhart WTP as described in the scope of work below to meet the necessary system demands and pressures required for future County developments.

1.3 **Scope of Work:** The anticipated scope of work generally includes the design and construction of, but is not necessarily limited to:

- Subsurface utility engineering
- Geotechnical engineering and testing
- Surveying
- 2 MG pre-stressed concrete GST
- New HSP
- New onsite power generator with whole-plant capacity
- New Sodium Hypochlorite Injection, Mixing, Instrumentation and Controls
- New Sodium Hypochlorite Storage Tank
- New Site-Built Structure for HSP and Chemical Feed/Storage System
- New Trilby Crossing well and associated well piping, electrical, instrumentation and controls, and appurtenances
- New Pipeline from the proposed Trilby Crossing wellhead to the Lockhart WTP proposed GST
- SCADA programming and integration for wellfield and HSP operations
- Electrical, safety, flood resiliency, structural rehabilitation, minor equipment and appurtenances improvements, generally in the existing Well No. 1 structure
- Permitting

1.4 **Reference Documents (for informational purposes only):** The Well No. 2 Design (performed by Coastal Engineering Associates, Inc.), Existing Well Information, Permits, Existing Survey, Water Quality Data, and Existing Hydropneumatic Tank Drawings are available for a general reference for interested offerors at: <https://mckimcreed.sharepoint.com/sites/teams/water/LockhartWTP>. Interested Offerors should contact the County at 352-540-6626 for Username and Password information.

It is important to note that some of the work reflected on the design documents has already been completed or is currently under construction. A more definitive scope of work description will be provided in the Design Criteria Package (DCP) that will be included with the Step 2 – RFP.

1.5 **Estimated Budget:** The estimated budget for the Scope of Work referenced in Section 1.3 is currently \$4,650,000.00.

Do not communicate about the Project or the Procurement with any other County employees, representatives, or consultants. Communication with other County employees, representatives or consultants regarding the Procurement may cause the firm involved to be disqualified from submitting under this Procurement. Any verified allegation that a responding Offeror or Design-Build Team Member or an agent or consultant of the foregoing has made such contact or attempted to influence the evaluation, ranking, and/or selection of short-listed Offerors may be the cause for the County to disqualify the Offeror

Such designations will not necessarily be conclusive, and Offerors may be required to justify why such material should not, upon written request, be disclosed by the County under the applicable public records act. The County will endeavor to provide at least two (2) business days' notice of a public records request for material submitted pursuant to this Procurement. Offeror must respond to the notice in writing with any objection to the production of the documents within two (2) business days of receipt of the notice. All costs incurred by the Offerors associated with any public records request are the responsibility of the Offeror.

4.2.1.1 To cancel the Procurement process and reject any and all SOQs and/or Proposals;

4.2.1.2 To waive any informality or irregularity;

- 13.12.1 Firm is advised that the County has entered into an agreement with U.S. Immigration and Customs Enforcement (ICE) wherein the County will, in part, seek to promote the principles of ethical business conduct, prevent the knowing hiring of unauthorized workers through self-governance, and encourage voluntary reporting of the discovery of unauthorized workers to ICE (the IMAGE Agreement). Accordingly, by submitting your SOQ, Firm represents and warrants (a) that the Firm is in compliance with all applicable federal, state and local laws, including, but not limited to, the laws

related to the requirement of an employer to verify an employee's eligibility to work in the United States, (b) that all of the Firm employees are legally eligible to work in the United States, and (c) that the Firm has actively and affirmatively verified such eligibility utilizing the Federal Government's Employment Verification Eligibility Form (I-9 Form).

- 13.12.2 A mere allegation of Firm's intent to use and/or current use of unauthorized workers may not be a basis to delay the County's award of a Contract to the Firm unless such an allegation has been determined to be factual by ICE pursuant to an investigation conducted by ICE prior to the date the Contract is scheduled to be awarded by the County.
- 13.12.3 Legitimate claims of the Firm's use of unauthorized workers must be reported to both of the following agencies:
- 13.12.3.1 The County's Purchasing and Contracts Department at (352) 754-4020: and
 - 13.12.3.2 ICE (Immigration and Customs Enforcement) at 1-866-DHS-2-ICE
- 13.12.4 In the event it is discovered that the Firm's employees are not legally eligible to work in the United States, then the County may, in its sole discretion, demand that the Firm cure this deficiency within a specified time frame, and/or immediately terminate the Contract without any cost or penalty to the County, and/or debar the Firm from bidding on all County Contracts for a period up to twenty-four (24) months, and/or take any and all legal action deemed necessary and appropriate.
- 13.12.5 Firm is required to incorporate the following IMAGE Best Practices into its business and, when practicable, incorporate verification requirements into its agreements with Sub-Contractors:
- 13.12.5.1 Use the Department of Homeland Security employment eligibility verification program (E-Verify) to verify the employment eligibility of all new hires.
 - 13.12.5.2 Use the Social Security Number Verification Service and make good faith effort to correct and verify the names and Social Security numbers of the current workforce.
 - 13.12.5.3 Establish a written hiring and employment eligibility verification policy.
 - 13.12.5.4 Establish an internal compliance and training program related to the hiring and employment verification process, to include, but not limited to, completion of Form I-9, how to detect fraudulent use of documents in the verification process, and how to use E-Verify and the Social Security Number Verification Service.
 - 13.12.5.5 Require the Form I-9 and E-Verify process to be conducted only by individuals who received appropriate training and include secondary review as of each employee's verification to minimize the potential for a single individual to subvert the process.
 - 13.12.5.6 Arrange for annual Form I-9 audits by an external auditing firm or a trained employee not otherwise involved in the Form I-9 process.
 - 13.12.5.7 Establish a procedure to report to ICE credible information of suspected criminal misconduct in the employment eligibility verification process.
 - 13.12.5.8 Establish a program to assess Sub-Contractors' compliance with employment eligibility verification requirements. Encourage Firms to incorporate the IMAGE Best Practices contained in this Article and, when practicable, incorporate the verification requirements in Sub-Contractor agreements.
 - 13.12.5.9 Establish a protocol for responding to letters received from Federal and State government agencies indicating that there is a discrepancy between the agency's information and the information provided by the employer or employee; for example, "no match" letters received from the Social Security Administration.

13.12.5.10 Establish a tip line mechanism (inbox, e-mail, etc.) for employees to report activity relating to the employment of unauthorized workers, and a protocol for responding to employee tips.

13.12.5.11 Establish and maintain appropriate policies, practices, and safeguards against use of the verification process for unlawful discrimination, and to ensure that U.S. Citizens and authorized workers do not face discrimination with respect to hiring, firing, recruitment or referral for a fee because of citizenship status or national origin.

SECTION 2: OVERVIEW OF PROJECT

2.1 General

Hernando County (County) is moving towards developing larger, regional water treatment facilities to meet the needs of new developments throughout the County. One of these new developments is being built near the Lockhart Water Treatment Plant (WTP). It is the County's intent to expand the Lockhart WTP into a regional facility to meet future growth needs.

Currently, the Lockhart WTP does not meet anticipated Fire Flow Demands south of the facility where a new planned community is scheduled to be developed. This development location has a higher elevation than what the existing well pump was reportedly designed for and reportedly creates a pressure differential within the existing system between the north and south service areas. For this reason, a new High Service Pump Station (HSP) is required to meet the south distribution demands along with a Pressure Sustaining Valve (PSV) to be installed on the north distribution to maintain proper system pressures in the south service area. The two (2) onsite wells (only one currently in service) will pump to a new 2-million gallon (MG) pre-stressed concrete Ground Storage Tank (GST) to supply flow to the HSP. It will be important to note that the proposed site layout shall include plans for a future, second 2-MG GST.

2.2 Project Objectives

This Request for Qualifications (RFQ) has been issued to obtain qualified design-build teams for the final design and construction of improvements to the Lockhart WTP as described in the project description and scope of work below to meet the necessary system demands and pressures required for future County developments.

2.3 Scope of Work

The anticipated scope of work generally includes the design and construction of, but is not necessarily limited to:

- Subsurface utility engineering
- Geotechnical engineering and testing
- Surveying
- 2 MG pre-stressed concrete GST
- New HSP
- New onsite power generator with whole-plant capacity
- New Sodium Hypochlorite Injection, Mixing, Instrumentation and Controls
- New Sodium Hypochlorite Storage Tank
- New Pressure Sustaining Valve
- New Canopy Structure for HSP and Chemical Feed/Storage System
- Electrical, safety, flood resiliency, structural rehabilitation, minor equipment and appurtenances improvements, generally in the existing Well #1 structure
- Permitting

The Well #2 Design (Coastal Engineering), Existing Well Information, Permits, Existing Survey, Water Quality Data, and Existing Hydropneumatic Tank Drawings are available for a general reference for interested offerors at: <ftp://01171DCP:ACCESS@ftp.mckimcreed.com>. Interested proposers should contact the County at 352-540-6626 or phall@hernandocounty.us for Username and Password information.

It is important to note that some of the work reflected on the design documents have already been completed or is currently under construction. A more definitive scope of work description will be provided in the Design Criteria Package (DCP) that will be included with the Step 2 – RFP.

2.4 Estimated Budget

The estimated budget for the Scope of Work referenced in Section 2.3 and as further set forth in Attachment A is currently \$4,000,000.

Any materials requested to be treated as confidential documents, proprietary information, or trade secrets must be clearly identified and readily separable from the balance of the SOQ or Proposal. The Owner will endeavor to provide at least two (2) Business Days' notice of a public records request for material submitted pursuant to this Procurement. Offerors must respond to the notice in writing with any objection to the production of the documents within two (2) Business Days of receipt of the notice. Such approval or disapproval shall not be unreasonably exercised.

3.3 Outline of the Procurement Process

3.3.1 Request for Qualifications (RFQ).

- a. This RFQ invites firms to submit SOQs describing in detail their technical, management, and financial qualifications to design, permit, construct, commission, and close out the Project. The issuance of this RFQ is the first phase of the Procurement process.
- b. Offerors will submit their SOQ and other deliverables required pursuant to this Procurement at the time and in the manner set forth in this RFQ and any Addenda. The Owner will not consider SOQ or other deliverables that are submitted after the Time set forth in the RFQ. Offerors are solely responsible for making sure that the Owner receives the SOQ in a timely fashion.
- c. The Owner will evaluate the information submitted by each Offeror to 1) determine whether the Offeror meets the mandatory minimum requirements and 2) evaluate the SOQ provided by each Offeror pursuant to the evaluation system described below. Any Offeror who fails to meet the mandatory minimum requirements set forth in this SOQ will be deemed non-responsive and will not be considered further by the Owner in this Procurement.
- d. All SOQ will be evaluated in accordance solely with the criteria established in the RFQ and any Addenda issued thereto. The evaluation criteria are listed below, including the relative weight or importance given to each criterion.
- e. Not more than three responsive and responsible firms will be selected as Short-Listed Offerors. Only those firms that have been short-listed will be invited to submit a Proposal in response to the RFP.
- f. The results of the SOQ evaluations *will not* be carried forward and included in the final evaluation and selection.
- g. Design-Build Team Members and individual Key Team Members will be used as a basis for selection. Once shortlisted, neither the Offeror nor Team Members that are submitted to the Owner as part of the SOQ or Proposal may substitute a listed consultant, subconsultant or subcontractor, or any individual listed as a Key Team Member; however, a change to any submitted Team Member or Key Team Member will result in re-evaluation and may result in a change to the evaluation and ranking of the Offeror.

3.3.2 Request for Proposal (RFP), Confidential Individual Meetings & Selection Process

- a. The Owner will issue the RFP to the Short-Listed Offerors. The RFP will further explain the evaluation criteria, Proprietary Meetings, and other elements of the RFP process.
- b. Prior to the submission date for Proposals, written questions will be accepted as defined in the RFP.

- c. The Owner will conduct a *mandatory* Site Walk Through with all Short-Listed Offerors.
- d. A Short-Listed Offeror may submit suggested proposed changes to the Contract provisions or Alternative Technical Concepts no later than the date set forth in the Schedule. The Owner, at its sole discretion, may revise the RFP, the contract provisions, and/or program documents and issue an Addendum to all Short-Listed Offerors.
- e. Short Listed Offerors will submit a Technical Proposal and Price Proposal in accordance with the Procurement schedule.
- f. The Price Proposal will be submitted in a separate *distinctly marked and sealed envelope* from the Technical Proposal.
- g. The Owner will establish an RFP Evaluation Committee to review and evaluate the Technical Proposal. The RFP Evaluation Committee may be the same as the RFQ Evaluation Committee. The RFP Evaluation Committee will evaluate the Proposals in accordance with the published evaluation criteria.
- h. At its sole discretion, the Owner may ask written questions of Offerors, seek written clarifications, and conduct discussions with Offerors on Proposals.
- i. The Owner will provide written notification to all Short-Listed Offerors of the selection decision and make a selection summary available to all Offerors at the conclusion of the Procurement.
- j. By submitting a Proposal pursuant to the RFP, the Offeror represents and warrants that it will enter into the contract provided by the Owner subject to the terms set forth in its Proposal.

3.3.3 Price Proposal (Step 2)

Short Listed Offerors will submit a Price Proposal pursuant to the instructions set forth in the RFP. For the evaluation and selection of design-build firms during the Step 2 process, a rating system will be utilized by the County’s evaluation panel to score and rank each proposal. The scoring criteria for the Step 2 process will be generally as follows:

Criteria	Maximum Points
1. Approach to Project	40 Points
2. Technical Information and Drawings	30 Points
3. Guaranteed Maximum Price	30 Points
TOTAL POSSIBLE POINTS	
	100 Points

3.3.4 Evaluation and Ranking of Offerors

In the evaluation and ranking of Offerors, the Owner will consider the qualifications information submitted in the SOQ, as well as the meetings with the Offerors, with respect to the evaluation criteria set forth in the RFQ (Step 1) and RFP (Step 2). The result of the evaluation will be a comparative ranking of Offerors.

For the purpose of selecting and evaluating Offerors in Step 1 of the selection process, the evaluation criteria will be given the following relative weights:

Criteria	Maximum Points
1. Ability of Design-Build Team Personnel	30 Points
2. Experience with Similar Projects	40 Points
3. Location of the Team	10 Points
4. Resource Availability and Ability to Meet Schedule and Budget	20 Points

BOND TERMS AND CONDITIONS

1 Binding Effect. The Design-Builder and Surety, jointly and severally, bind themselves, their heirs, executors, administrators, successors and assigns to the Owner for the performance of the Design-Build Agreement, which is incorporated herein by reference.

2 Intent of Bond. If the Design-Builder performs its obligations under the Design-Build Agreement, then the Surety's obligations under this Bond are null and void, except to participate in meetings as provided in Section 4.

3 Waiver of Notice. The Surety hereby waives notice of changes to the Design-Build Agreement, including changes within the general scope, or of time or price, or to related subcontracts or purchase orders.

4 Owner's Obligations. If there is no default in Owner's obligations under the Design-Build Agreement, then the Surety's obligation under this Bond shall arise after the following steps have been taken by Owner, as a condition precedent to a Bond claim:

4.1 The Owner has first provided written notice to the Design-Builder and Surety at the addresses listed on page 1 of this Bond, that Owner is considering declaring the Design-Builder in default and has requested and attempted to arrange a meeting with the Design-Builder and Surety, to be held not later than fourteen (14) days after receipt of Owner's notice, to discuss methods of performing the Design-Builder's obligations under the Design-Build Agreement. If the Owner, Design-Builder and Surety agree, the Design-Builder shall be allowed a reasonable time to perform its obligations under the Design-Build Agreement, but such an agreement shall not waive the Owner's right, if any, subsequently to declare the Design-Builder in default;

4.2 The Owner declares the Design-Builder to be in default, terminates the Design-Build Agreement and notifies the Surety in writing; and

4.3 The Owner has agreed to pay the balance remaining under the Design-Build Agreement (i.e., the total amount payable by the Owner to the Design-Builder thereunder less amounts properly paid by the Owner to the Design-Builder, the "Contract Balance") to:

.1 The Surety, in accordance with the terms of the Design-Build Agreement; or

.2 Another design-builder selected pursuant to Section 5.3 to perform the remaining obligations under the Design-Build Agreement.

5 Surety's Obligations. When Owner has satisfied the conditions of Section 4, the Surety shall promptly take one of the following actions, at the Surety's expense:

5.1 Arrange for the Design-Builder to perform and complete the remaining obligations under the Design-Build Agreement, with consent of Owner;

5.2 Undertake to perform and complete the remaining obligations under the Design-Build Agreement itself, through its agents or through independent contractors;

5.3 Obtain bids or negotiated proposals from qualified design-builders acceptable to Owner for a contract for performance and completion of the Design-Build Agreement, arrange for a contract to be prepared for execution by Owner and a design-builder selected with Owner's concurrence, to be secured by performance and payment bonds equivalent to those for the Design-Build Agreement, issued by a qualified surety. The Surety shall: a. make available as Work progresses sufficient funds to pay the cost of completion of the Design-Build Agreement; and, b. pay to Owner the amount of damages as described in Section 7;

5.4 Waive its right to complete the Work under Sections 5.2 or 5.3, and reimburse the Owner the amount of its reasonable costs to complete the Work; or

5.5 Deny liability, in whole or in part, and notify the Owner in writing, citing reasons therefor.

6 Owner's Rights. If the Surety does not proceed as provided in Section 5 with reasonable promptness, the Surety shall be deemed to be in default on this Bond seven (7) days after receipt of an additional written notice from the Owner to the Surety demanding that the Surety perform its obligations under this Bond and stating that the Owner shall be entitled to enforce any remedy available to the Owner. If the Surety proceeds as provided in Section 5.4, and the Owner refuses the payment, or the Surety has denied liability, in whole or in part, under Section 5.5, the Owner shall be entitled without further notice to enforce any remedy available to it.

7 Damages Covered. In any event, the Surety's obligations to the Owner, and the Owner's obligations to the Surety, shall not be greater than those of the Owner and Design-Builder to each other, respectively, under the Design-Build Agreement. Subject to commitment by Owner to payment of the Contract Balance, the Surety is obligated without duplication for:

7.1 The responsibilities of Design-Builder for correction of defective Work and completion of the Project;

7.2 Additional legal, design professional and delay costs resulting from Design-Builder's default, and resulting from the actions or failure to act of Surety under Section 5; and

7.3 Liquidated damages, or if no liquidated damages are specified in the Design-Build Agreement, actual damages caused by delayed performance or non-performance of Design-Builder.

8 Bond Liability. If the Surety elects to act under Sections 5.1, 5.3 or 5.4, the Surety's total liability shall not exceed the Bond Amount.

8.1 The Surety shall not be liable to the Owner or others for obligations of the Design-Builder that are unrelated to the Design-Build Agreement, and the Contract Balance shall not be reduced or set off on account of any such unrelated obligations.

9 Beneficiaries. No right of action shall accrue on this Bond to any person or entity other than Owner or its heirs, executors, administrators, or successors, unless some other party is named in this Bond as a dual obligee.

10 Dispute Resolution. All disputes related to this Bond shall be instituted in any court of competent jurisdiction in the location in which the Project is located and shall be commenced within two (2) years after: a. the Owner declares the Design-Builder in default under Section 4.2; or, b. Substantial Completion of the Project, whichever occurs first. If the provisions of this Section 10 are prohibited by law, the minimum period of limitation available to sureties in the jurisdiction in which the Project is located shall be applicable.

10.1 In the event of bankruptcy of the Design-Builder, the Surety agrees that the Design-Builder is not a necessary or indispensable party to any legal action by Owner against Surety to enforce the Surety's obligations under this Bond.

11 Notice. Unless otherwise noted below, written notice under this Bond to Surety, Owner or Design-Builder shall be mailed or delivered electronically or by hard mail to the contact information shown on page 1.

13 Warranty Obligation. The Surety's obligations to the Owner for warranties of the Design-Builder shall be the same as those required of the Design-Builder under the Design-Build Agreement, subject to the time limitation in Section 10. Unless otherwise stated below, the Surety's obligation for such warranties excludes: a) products, materials or equipment covered by a manufacturer's separate warranty; and b) claims by the Owner first noticed to Surety in writing more than one year after the effective date of such warranty as specified under the Design-Build Agreement.

(List below any exceptions to the above limitations on Surety's warranty obligation, if any)

2. Offerors will submit their SOQ and other deliverables required pursuant to this Procurement at the time and in the manner set forth in this RFQ and any Addenda. The County will not consider SOQ or other deliverables that are submitted after the time set forth in the RFQ. Offerors are solely responsible for making sure that the County receives the SOQ in a timely fashion.
3. The County will evaluate the information submitted by each Offeror to 1) determine whether the Offeror meets the mandatory minimum requirements and 2) evaluate the SOQ provided by each Offeror pursuant to the evaluation system described below. Any Offeror who fails to meet the mandatory minimum requirements set forth in this SOQ will be deemed non-responsive and will not be considered further by the County in this Procurement.
4. All SOQs will be evaluated in accordance solely with the criteria established in the RFQ and any Addenda issued thereto.
5. Not more than three (3) responsive and responsible firms will be selected as Short-Listed Offerors. Only those firms that have been short-listed will be invited to submit a Proposal in response to the RFP.
6. The result of the SOQ evaluations will not be carried forward and included in the final evaluation and selection.
7. Design-Build Team Members and individual Key Team Members will be used as a basis for selection. Once short-listed, neither the Offeror nor Team Members that are submitted to the County as part of the SOQ or Proposal may substitute a listed Consultant, Sub-Consultant or Sub-Contractor, or any individual listed as a Key Team Member.

Request for Proposal (RFP) and Selection Process

1. The County will issue the RFP to the short-listed Offerors. The RFP will further explain the evaluation criteria, and other elements of the RFP process.
2. Prior to the submission date for Proposals, written questions will be accepted as defined in the RFP.
3. The County will conduct a mandatory site walk-through with all short-listed Offerors.
4. A short-listed Offeror may submit suggested proposed changes to the Contract provisions or Alternative Technical Concepts no later than the date set forth in the Schedule. The County, at its sole discretion, may revise the RFP, the Contract provisions, and/or program documents and issue an Addendum for all short-listed Offerors.

5. Short-listed Offerors will submit a Technical Proposal and Price Proposal in accordance with the Procurement schedule.
6. The Price Proposal will be submitted in a separate, distinctly marked and sealed envelope from the Technical Proposal.
7. The County will establish an RFP Professional Services Review Committee (PSRC) to review and evaluate the Technical Proposal. The PSRC may be the same as the RFQ Professional Services Review Committee. The PSRC will evaluate the Proposals in accordance with the published evaluation criteria.
8. At its sole discretion, the County may ask written questions of Offerors, seek written clarifications, and conduct discussions with Offerors on Proposals.
9. The County will provide written notification to all short-listed Offerors of the selection decision and make a selection summary available to all Offerors at the conclusion of the Procurement.
10. By submitting a Proposal pursuant to the RFP, the Offeror represents and warrants that it will enter into the Contract provided by the County subject to the terms set forth in its Proposal.

Technical and Price Proposal (Step 2)

Short-listed Firms will submit a Technical and Price Proposal pursuant to the instructions set forth in the RFP. For the evaluation and selection of design-build firms during the Step 2 process, a rating system will be utilized by the County’s PSRC to score and rank each proposal. The scoring criteria for the Step 2 process will be generally as follows:
