Brooksville, FL 34614

RE: Key No. 1428510  
Section 33, Township 21, Range 18 East  
File No: 1486597 - Class D Subdivision

Dear Mr. & Ms. Cada,

This letter is the formal notice to you of County denial of your request to create a Class D subdivision requesting the creation of two (2) parcels. Your request is denied because the proposed subdivision does not meet Hernando County's Ordinance regarding Class D subdivision, to-wit:

1. Sec. 26-3(e) Class D (2)i – Each lot must be created from a parent parcel and each lot must have frontage on an existing county maintained street or private street built and maintained to county standards.

Under Chapter 26 of the Hernando County Ordinance Code, there is a mechanism in the subdivision regulations by which you may appeal this denial to the Board of County Commissioners. Chapter 26-3(f) states:

(f) Petition for relief from hardship. A petition for relief from hardship shall be made by any developer who feels the provisions of this chapter, if complied with, would place upon them an undue burden. The petition shall include all data and other information required by the board of county commissioners including at least the following:

- (1) A complete set of plans and specifications in accordance with which the construction has been or is being accomplished, if such exists, or a general written explanation of the construction effort with a complete description of all provisions the developer is making to assure construction quality.
- (2) A written proposal defining the developer's desired methods of completing the project. The proposal shall indicate specifically which provisions of this chapter the developer wishes to be excepted from.

The governing body, upon review of the petition, may approve the subdivision provided the governing body has determined that the ordinance has placed an undue hardship upon the developer and:

- (1) All lots proposed to be created under the board of county commissioner's approval meet the minimum lot size of the zoning district in which the subdivision is to be located and conforms with the policies of the comprehensive plan.
- (2) All lots have a minimum of a fifteen-foot access/utility easement to provide access to the parcel.

(3) Each deed of conveyance entered into and executed shall contain a legend setting forth in bold type a reference to the subdivision regulations and a statement that "**subject land is contained within a subdivision which has not been formally platted and said county has absolutely no obligation to maintain or improve roads and thoroughfares within the subdivision.**"

(g) Petition for relief from family hardship. A petition for relief from family hardship may be filed by any person who feels the provisions of this chapter, if complied with, would place upon them an undue burden on their ability to transfer land to family members. The petition shall include all data and other information required by the board of county commissioners including at least the following:

(1) A map on which is indicated an accurate representation of the proposed subdivision. The map shall clearly indicate the access to be provided and any improvements to be provided in the project. The petition will include the prospective recipient of each tract and his/her relationship to the grantor.

The governing body, upon review of the petition, may approve the subdivision provided the governing body has determined that the ordinance has placed an undue hardship upon the family and:

(1) All lots proposed to be created under the board of county commissioner's approval meet the minimum lot size of the zoning district in which the subdivision is to be located and conforms with the policies of the comprehensive plan.

(2) All lots have a minimum of a fifteen-foot access/utility easement to provide access to the parcel.

(3) Each deed of conveyance entered into and executed shall contain a legend setting forth in bold type a reference to the subdivision regulations and a statement that "**subject land is contained within a subdivision which has not been formally platted and said county has absolutely no obligation to maintain or improve roads and thoroughfares within the subdivision.**"

(4) **All lots must be transferred to an immediate family member and must provide for a reverter clause in the deed returning the land to the grantor if the transferred parcel does not remain in the ownership of a family member for a minimum of two (2) years from the date of transfer.**

If you appeal the denial to the Board of County Commissioners, please submit the following:

1. A letter requesting to appeal the denial to the Board with the requirement as indicated above; and
2. A filing fee of \$ 100.00.

If an appeal is filed and approved by the Board of County Commissioners, conditions as stated above will be included in the resolution as well as the following:

1. Provide a final original signed/sealed survey including the flood hazard areas delineated and existing structure setback compliance prior to final subdivision approval.
2. Subsequent lot owners should be advised of potential for listed protected species and state/federal permit requirements. Prior to site development of each lot, a gopher tortoise burrow survey by a qualified professional is required to determine presence or absence. If present, follow FWC permitting and regulation requirements.

If I may be of further assistance in this matter, please contact me.

Sincerely,

Carrie L. Cline  
Planner I
