Osowaw Parcel PDP (General Commercial) and Conservation Amendment Narrative

1.0 Introduction

The Applicant, Raysor Ventures, LLC, is requesting a rezoning amendment from Agricultural (AG) to Planned Development Project District- General Commercial (PDP(GC)) and Conservation (CV) Zoning District on approximately 13.6 acres of land located adjacent to and south of Osowaw Boulevard and west of Commercial Way (US Hwy. 19). This application requests approval of a Planned Development Project District (General Commercial) on approximately 4.6 upland acres with a specific C-2 use for Collision Center and Outdoor Storage, and Conservation Zoning District over the wetland areas, approximately 9.0 acres. There will be a concurrent Small Scale Comprehensive Plan Amendment from Residential to Commercial on 4.6 acres and Conservation on 9.0 acres being processed concurrently.

A Pre-Application meeting was held with Omar DePablo on May 24, 2023.

2.0 Existing Conditions

Table 1: Existing Site Information

Parcel Key:	01695419
Parcel #:	R29 223 17 2608 0000 0031
Gross Acreage:	13.6 acres
Estimated Wetlands:	±9.0 acres
Net Developable Area:	±4.6 acres
Future Land Use Category:	Residential
Proposed Future Land Use Category:	Commercial and Conservation
Existing Zoning:	Agricultural (AG)
Proposed Zoning	PDP (GC) with specific C-2 use and CV
Special Overlay District:	None

2.1 Existing Future Land Use

The current Future Land Use Designation is Residential. The Residential Category allows primarily single-family, duplex, resort and multi-family housing and associated ancillary uses such as recreational and institutional. The Gross Residential Density shall not exceed 22 DU/Ac. The Residential Category includes zoning for multi-family housing generally averaging between 7.5 to 22 dwelling units an acre to provide a diversity of housing choices.

This application requests a Small-Scale Comprehensive amendment from Residential to Commercial on the upland acreage and Conservation on the wetland acreage.

2.2 Existing Zoning

Currently, the Zoning designation for the subject site is Agricultural (AG) District. The AG District is designed to promote and encourage the conservation and utilization of agricultural land, as well as the preservation of the open character land. The AG District only allows for low-density single-family residential and does not permit multi-family/ townhome development.

This application requests a rezoning amendment from AG District to Planned Development Project District - General Commercial [PDP (GC)] with a specific C-2 use for Collision Center and Outdoor Storage.

2.3 Existing Site Conditions

The project Parcel is currently vacant. It is located to the south of Osowaw Boulevard. Osowaw Boulevard is a paved two-lane collector without sidewalks with approximately 112' Right-of-Way (ROW).

The Parcel is relatively flat with less than 5 foot of change in elevation. Wetlands are located on approximately 9 acres of the southern and western portions of the site with associated Floodplain Zone "AE". There is no reported sinkhole activity on-site according to Hernando County Central GIS.

2.4 Adjacent Future Land Use and Zoning

The proposed Planned Development Project District General Commercial [PDP (CG)] and Conservation Zoning District is compatible with the Future Land Use and Zoning of the surrounding Parcels.

The adjacent Parcels located to the east and south along Commercial Way are zoned PDP (General Commercial). The adjacent site is a shopping center that is anchored by several tenants including Walmart, JC Penny, Best Buy, Pet Smart, Aldi, and several other retailers. The Hernando County Sewage Processing Plant is also located to the east of the subject Parcel.

The Parcels to the west are zoned PDP (GHC) and PDP (MH). There is a Church and the Forest Glen Retirement Village manufactured home community located to the west. The area located to the north is Conservation and is the Weekiwachee Preserve.

Table 2: Adjacent Future Land Use, Zoning, and Existing Uses

Direction	FLU Category	Zoning District	Existing Use
North	Conservation	Conservation	Weekiwachee Preserve
East	Commercial	PDP (GC) and Public Service Facility (PSF)	Shopping Center and Hernando County Sewage Processing
South	Commercial	PDP (GC)	Shopping Center
West	Residential	PDP (GHC), PDP (MH)	Church and Mobile Home Park

3.0 Proposed Development

3.1 Overview

This application requests a rezoning amendment from the AG District to Planned Development General Commercial District [PDP (GC)] with a specific C-2 use for Collision Center and Outdoor Storage for approximately 4.6 upland acres, and Conservation on approximately 9 acres of wetlands. The total site is approximately 13.6 acres with an estimate of 9 acres of wetlands located on the southern and western portions of the Parcel. This proposed development will provide for an enhanced 15’ landscape buffer around the perimeter of the upland portion of the Parcel.

3.2 Consistency with the Comprehensive Plan

The proposed amendment to PDP(GC) is consistent with the Comprehensive Plan’s Strategy 1.04B(5) as follows:

- (a) The site is located close to the commercial shopping center to the east along Commercial Way/US 19. The proposed PDP (GC) and Conservation Zoning are also a good transitional use from the Commercial to the east, and the church and mobile home park located to the west of the project site. No building within 100 feet of any single-family district residential district property line shall be more than 20 feet in height. The proposed commercial building will also be buffered by the wetlands and stormwater ponds from the residential property to the west.
- (b) The site is located on and has direct access to Osowaw Boulevard which is a collector roadway.
- (c) The site is located in an area with appropriate infrastructure and services capacity including police, fire, emergency medical services, potable water utility supply, sewer utility supply, and school facilities.
- (d) The proposed development will preserve on-site wetlands with no impacts proposed. The development will also preserve environmental and archaeological resources found on the site. All of the wetlands are proposed to have a Future Land Use designation of Conservation.
- (e) A PDP(CG) and Conservations zoning will provide a good transitional use from the Commercial located to the east and will be buffered from the adjacent mobile home park development to the west.

3.3 Development Standards

The application package provides a PDP (CG) and Conservation Zoning District Master Plan. The stormwater ponds will be designed along the west project boundary to act as an additional buffer to the adjacent residential neighborhood to west. The upland perimeter landscape buffers will be enhanced and widened to 15', which is beyond the required buffer per Hernando County standards.

The proposed development standards will comply with PDP (General Commercial) standards and are summarized below in Table 4.

Table 4: Development Standards

Front Yard Setback/ Front Building Setback	35'
Side Yard Setback/ Side Building Setback	20'
Rear Yard Setback/ Rear Building Setback	35'
Perimeter Landscape Buffers	15'
Maximum Building Height*	60'
Maximum Building Coverage	45%

*No building within 100 feet of any single-family district residential district property line shall be more than 20 feet in height.

3.4 Utilities/Infrastructure

Utility service will be connected to Hernando County facilities located in the Osowaw Blvd. right-of-way. The utility lines include a 6" sanitary sewer force main and 8" potable water main. No significant impacts to infrastructure are anticipated and will be fully evaluated at the building permit review stage.
