

7/10/2022

Dear Hernando County Planning Dept.,

My name is Emily Lubrido. and I reside at 3437 Opportunity Avenue. I object to the opening of Opportunity Ave as part of the Pulte Group build regarding file number: H-22-04. I have 3 children under the age of 8, and I'm worried that with so much traffic, they could be hit by a car.

Some other concerns that I have are as follows: The opening of Opportunity Ave was not intended for general public use and is not designed for through traffic. The opening of Opportunity Ave to general traffic was not contemplated in the traffic study submitted with the filing submitted to Planning and Zoning. There was no consideration given to the existing traffic issues at the intersection of Sigmund, Drysdale and Coronado during school drop off

and pick up hours. There was no consideration given to the impact of traffic on Linden due to the cars exiting and entering Opportunity Ave, as well as, traffic rerouting from Opportunity Ave. to Sigmund and through Plantation Estates.

I humbly ask you all to please not open Opportunity Avenue to through traffic to help keep our children safe and our roads free of congestion. Please let us keep our quiet community the way we moved into it.

Sincerely,
Emily Lubrido

Petition Against Opening Opportunity Avenue

Comes Now, the Residents of Plantation Palms and surrounding neighbors who collectively object to the opening Opportunity Avenue in the Plantation Palms subdivision as an access point as recommended in report number H-22-04 from the Hernando County Planning Department, and further state that such action will have negative impact and cause irreparable harm to the surrounding neighborhood and streets, and in support state as such:

1. Plantation Palms and Plantation Estates are family-friendly HOA subdivisions. There are several houses on Opportunity Avenue and just off of Opportunity Avenue that house children under the age of 5 as well as a child with special needs who is prone to elopement episodes. These children would be in grave danger from the increased amount of traffic anticipated in the Traffic Study provided by the Hernando County Planning Department.
2. Opportunity Avenue was not designed to be an access point to general traffic. The value of the homes located on Opportunity Avenue and those affected in the neighboring streets will be decreased by Opportunity Avenue being made into main through road.
3. The Hernando County Planning Department, report number H-22-04, fails to evaluate the existing traffic issues caused by the school traffic from John D. Floyd Elementary School on Sigmund St., Drysdale St., and Coronado Dr. during the school year and during peak travel times as well as the effects of the anticipated traffic expected if Opportunity Avenue is opened up to the general public as an access point. Plantation Palms and Plantation Estates suffers from terrible congestion at school drop off/pick up times making it exceedingly difficult to find alternative routes to exit these communities during said times. In addition, there is a drastic increase to the number of children and parents walking to school that will no doubt be affected by the expected increase in traffic.
4. The Hernando County Planning Department, report number H-22-04, fails to evaluate the following intersections and the affects expected by the anticipated increase traffic from Opportunity Avenue being used as an access point:
 - a. Sigmund St. and Drysdale St.
 - b. Sigmund St. and Coronado Dr.
 - c. Drysdale St. and Linden Dr.

SUBMITTED P:z 7/11/22 H2204

- d. Coronado Dr. and Linden Dr.
- e. Spring Hill Dr. and Linden Dr.
- f. Mariner Blvd and Linden Dr.

5. The Hernando County Planning Department, report number H-22-04, fails to evaluate the affects of increase traffic to Plantation Estates, specifically Rudi Loop, due to the increase traffic from Opportunity Avenue being used as an access point.

As such, we affix our names in support of this Petition and object to the opening of Opportunity Avenue as an access point to be used by the general public.

I, Lauren Vaughan, OBJECT to the opening of Opportunity Ave as part of the Pulte Group build regarding file number: H-22-04

- It will have an adverse impact on our HOA community that is currently quiet and child friendly.
- The opening of Opportunity Ave. was not intended for general public use and is not designed for through traffic.
- The opening of Opportunity Avenue to general traffic was not contemplated in the Traffic Study submitted with the filing submitted to Planning and Zoning.
 - There was no consideration given to the existing traffic issues at the intersection of Sigmund, Drysdale and Coronado during school drop off and pick up hours.
 - There was no consideration given to the impact of traffic on Linden due to the cars exiting and entering Opportunity Avenue.
 - Nor was there any consideration of additional traffic rerouting from Opportunity Avenue to Sigmund and through Plantation Estates.

Dear Sirs/Madam,

I object to the opening of Opportunity Ave as part of the Pulte group build regarding file number H-22-04.

- It will have a negative impact on our HOA community that is currently quiet and child friendly.
- The opening of Opportunity Ave was not intended for open public use and was not designed for through traffic.
- The opening of Opportunity Ave has not been evaluated as part of the traffic study submitted with the filing to Planning and Zoning.
 - There has been no consideration given to the existing traffic issues currently present as a result of school pickup/drop off at intersections of Sigmund/ Drysdale and Coronado.
 - There has been no review or consideration given to the impact of increased traffic on Linden Avenue as a result of increased cars entering / exiting Opportunity Ave or the consideration of the additional traffic re-routing from Opportunity Ave to Sigmund through Plantation Estates.

One of the attractions for homeowners in Plantation Palms is it is a quiet and very family orientated neighborhood. Parents feel safe to allow their children to play on the sidewalks and ride their bicycles with their neighborhood friends because the traffic volume through our neighborhood is primarily families that reside here.

Our neighborhood currently has the ability to look out for each other due to its smaller size by comparison to other subdivisions. Everyone in our neighborhood is aware when there is a vehicle that is unfamiliar or behaving suspiciously. There are multiple families watching out for each other's children as they play. This is reminiscent of neighborhoods of days gone by, yet Plantation Palms has been able to resurrect this same safe feeling of home in a very transient county/state. Opening Opportunity Ave to through traffic from a much larger development (10x larger) takes away this comfortable/safe family environment.

There is a comfortable safe environment for young families as well as the older residents alike. This attribute will likely be destroyed with the anticipated increased level of traffic as a result of this opening. This small community neighborhood has been provided the added benefit that our property values have increased substantially. All who come to visit our neighborhood acknowledge the beautiful and park-like setting that we all call home. This quality has certainly been contributory to my decision to purchase my forever home in this subdivision. To increase the traffic flow into this quiet residential subdivision will drastically change this community. We already experience issues and challenges with the backed up traffic as a result of the school pickup/drop off along Sigmund and Drysdale intersections. The existing roadways are not equipped to handle this school traffic let alone this proposed increased traffic throughput.

While I can certainly respect the property owners of the Pulte group build wish to develop their property. I believe there has been insufficient review and consideration provided as a result of the proposed traffic disbursement into these residential communities, that will result in negative impacts upon neighboring communities and roadways. There are larger roadways that have increased capacity and are more easily able to accommodate this increased traffic.

I would ask each of the committee/board members:

If this proposal was being placed in **your** neighborhood, would you be so willing to support this proposed traffic imposition into your neighborhood that you call home?

We as a community are asking that our neighborhood not be directly impacted. We are registered voters within this county/district, we will all be watching and taking your actions into consideration on election day.

Sincerely

A handwritten signature in cursive script that reads "Amy Sutton". The signature is written in dark ink and is positioned to the right of the word "Sincerely".

Amy Sutton

7/8/22

We, Christina Bishop and Ryan Bishop-residents of Plantation Palms, object to the opening of Opportunity Ave as part of the Pulte Group build regarding file number: H-22-04

The engineering review as part of the staff review: H-22-04 recommends that, "the connection to Opportunity Ave must be full access, not an emergency access" and that, "this will allow for better distribution and disbursement of traffic."

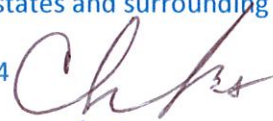

The traffic analysis cited in report number H-22-04 fails to evaluate existing traffic issues regarding school traffic from John D Floyd Elementary school and how existing neighborhoods are currently affected and would be affected by additional traffic from Sterling Hill Blvd if Opportunity Ave is made full access. The increase in traffic from 800+ new homes in conjunction with the inevitable cut-through traffic, would further exacerbate this already known issue.

While making Opportunity Ave full access is perceived to "allow for better distribution and disbursement of traffic" in the area of Sterling Hill Blvd, it will create more of a traffic issue in neighborhoods that are already dealing with traffic congestion and speeding on the wrong side of the road from those that attempt to bypass the stand still traffic congestion from school traffic. Traffic issues that have been brought up year after year to our Board of County Commissioners and School Board.

Traffic studies need to be done with regard to the additional traffic congestion on Sigmund St, Drysdale St, Coronado Dr, Linden Dr and their intersections. Our neighborhoods and local roads are simply not designed to house congestion from school traffic with the addition of the traffic intrusion that would come from Sterling Hill Blvd and Elgin Blvd.

Consideration for the neighborhoods of Plantation Palms, Plantation Estates and the surrounding neighborhoods needs to be taken into account. Allowing Opportunity Ave to become full access will invite cut-through traffic for those wishing to cut down on their commute time. This will turn our neighborhoods into bypass neighborhoods, disrupting and eliminating the best qualities of our quiet neighborhoods. The amount of traffic, coupled with the existing school traffic, will degrade the livability standards and safety for all those in the Plantation Palms, Plantation Estates and surrounding neighbors.

Christina Bishop (813)732-1954

Ryan Bishop (813) 424-9951

3493 Opportunity Ave. Spring Hill, FL 34609

To whom it may concern,

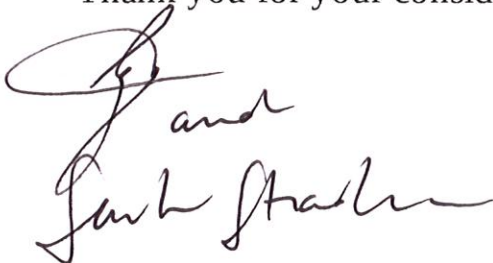

Our household at 12514 Princess Lane, objects to the opening of Opportunity Avenue as part of the Pulte Group build regarding file number: H-22-04

The opening of Opportunity Avenue to general traffic was not contemplated in the Traffic Study submitted with the filing submitted to Planning and Zoning. Terrible traffic issues already exist at the intersection of Sigmund, Drysdale, and Coronado during school drop-off and pick-up hours; This opening does not consider the impact of traffic on Linden as there would be many vehicles entering/exiting Opportunity Avenue and no additional traffic rerouting from Opportunity Avenue to Sigmund and through Plantation Estates.

Opportunity Avenue was not designed for traffic as the road was not intended for use by the general public.

The opening of Opportunity Avenue will have an adverse impact on our HOA community which is currently quiet and child friendly.

Thank you for your consideration,

A handwritten signature in black ink, appearing to read "Emory and Sarah Strachan". The signature is written in a cursive style with a large initial "E" and "S".

Emory and Sarah Strachan

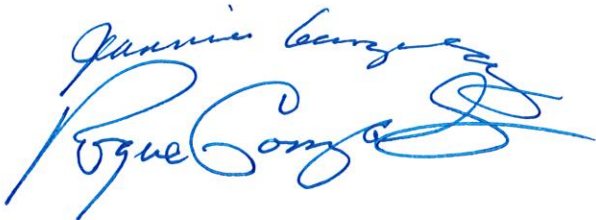

To Whom It May Concern:

As a member of the Plantation Palms Community, I object to the opening of Opportunity Ave as a part of the Pulte Group build regarding file number: H-22-04.

It will have an adverse impact on our HOA community that is currently quiet and child friendly. The opening of Opportunity Ave was not intended for general public use and is not designed for through traffic. There are houses with driveways on this small road. Also, the opening of Opportunity Ave to general traffic was not contemplated in the Traffic Study submitted with the filing submitted to Planning and Zoning. There was no consideration given to the existing traffic issues at the intersection of Sigmund Street, Drysdale Street, and Coronado Drive during school drop off and pick up hours. There was no consideration given to the impact of traffic on Linden Ave due to the cars exiting and entering Opportunity Ave to Sigmund Street and through Plantation Estates.

Please consider the value of our properties just as you are considering the value and quality of the new neighborhood to be built and sold.

Thank you for your time,

A handwritten signature in blue ink, appearing to read "R. Gonzalez". The signature is written in a cursive style with a large, stylized initial "R".

Department of Planning and Zoning

To whom it may concern;

It is with much dismay that we are writing this letter pertaining to the talk of opening Opportunity Avenue. We as a couple living here in our quiet Plantation Palms Community find it hard enough to get out of our subdivision once we reach Sigmund because of backed up traffic trying to get into the school parking area. We can be stuck there for up to 5 minutes if not more, when they are at a stand still. Though posted they still, stop, sit and stand blocking traffic. Though we have called about this congestion problem now nothing is being done to correct this issue, Yet when talking about opening up Opportunity Avenue you say absolutely nothing about how even more traffic going through our subdivision will congest even more.

We object to the opening of Opportunity Avenue for so many reasons and this being just one. We are a small subdivision of 100 homes that has an HOA and we want to keep it that way.

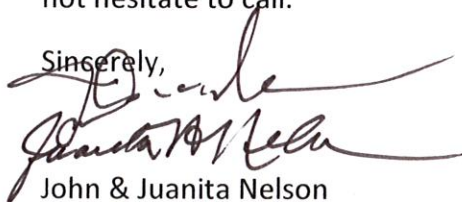

This not only brings a danger to the small children that live here but the problem of so much congestion. We were told that if they had to open it that it would be just an emergency entrance only. What false and complete and utterly untruths. Would you want this in your subdivision? We think not.

The Pulte Group build regarding file number: H-22-04 needs to be put into review with all aspects of how it will effect surrounding communities. traffic, home values etc.

Please reconsider this and think of those whom it will effect besides what they offer. We have seen where they are slowing their builds in other areas because of the increase of all materials and slowing of sales because of increased loan costs.

With all due respect, we are asking you to consider how this will effect our quiet family community as if it were your own. If you have any questions pertaining to our letter, please do not hesitate to call.

Sincerely,

John & Juanita Nelson

To Whom It May Concern,

Amanda Kunkel and Christopher Nordstrom are the current residents and homeowners in Plantation Palms HOA and we object to the opening of Opportunity Ave as part of the Pulte Group build regarding file number: H-22-04.

The opening of Opportunity Ave for through traffic and general public use will have extreme adverse impacts on our HOA community. Our neighborhood is currently quiet, child friendly and built to withstand only our current traffic flows. It was not ever designed to be a public use environment or for through traffic of any kind. This change will significantly increase the traffic in our neighborhood which will increase automobile accidents, pedestrian injuries and noise from cars/music and traffic in our HOA.

The opening of Opportunity Avenue to general traffic was not contemplated in the Traffic Study recently submitted to Planning and Zoning for this build. There has been no consideration given to the existing traffic issues at the intersection of Sigmund, Drysdale and Coronado during school drop off and pick up hours. There was no consideration given for the impact of traffic on Linden due to cars exiting and entering Opportunity Ave or additional traffic increase from Opportunity Ave to Sigmund.

Sincerely,

Amanda Kunkel

Christopher Nordstrom

I object to the opening of Opportunity Ave as part o Pulte Group build regarding file number : H-22-04

It will impact on our HOA community that is currently quiet and child friendly. The opening of Opportunity Avenue to general traffic was not contemplated in the traffic study submitted with the filling submitted to Planning and Zoning. There was no consideration given to the existing traffic issues at the intersection of Sigmund, Drysdale and Coronado during school drop off and pick up hours. There was no consideration given to the impact of traffic on Linden Due to cars exiting and entering Opportunity Avenue.

Sincerely,

Vickie Severs

To whom it may concern.

We object to the opening on Opportunity Ave as part of the Pulte Group build regarding file number H-22-04. My husband and I feel it will have an adverse impact on our HOA Community which we love as it is quiet and child friendly. The opening of Opportunity Ave was only intended for the use of public property, not traffic.

The opening of Opportunity Avenue to the general traffic was not thought about in the traffic study submitted with the filing to planning and zoning. There was no consideration given to the existing issues at the intersections of Sigmond, Drysdale, and Coronado during the school hours of pick up and drop off. We can literally sit in traffic for over 30 minutes trying to get back into our community which is frustrating. There is a lack of consideration given to us as impacts on our community and the traffic on Linden due to cars entering and exiting to and from Opportunity. There was also no consideration of rerouting any additional traffic from Opportunity Avenue to Sigmond and through Plantation Estates.

Sincerely,

Allison Everall Balash & Michael Balash III
