PUBLIC NUISANCE ABATEMENT SPECIAL ASSESSMENT LIEN

(b)

Doc# 2005083278
Hernando County, Florida
09/22/2005 9:04AM
KAREN NICOLAI, Clerk

-For Recording Use Only Above Line-

This Public Nuisance Abatement Special Assessment Lien is hereby created, established and levied as of the thirty-first (31st) day following the date set forth below, having been brought before and acted upon by the Board of County Commissioners of Hernando County, a political subdivision of the State of Florida ("County"), whose address is 20 N. Main Street, Brooksville, FL 34601, pursuant to the Hernando County Code of Ordinances, Chapter 15, Article V, Sec. 15-161 thru 15-168, and Chapters 125 and 162, Florida Statutes:

WHEREAS, County has determined that a public nuisance, as defined by Hernando County Code Sec.15-163, existed on the subject property legally described below; and,

WHEREAS, County has caused said public nuisance to be abated at County direction at a cost of $380.00.

WHEREAS, Hernando County Code Sec. 15-166 provides for the creation, establishment and levy of a lien in the amount of such expenditure against the property specially benefitted, and the subject property described herein has been determined as having been specially benefitted.

NOW THEREFORE, IT IS HEREBY ORDERED, upon this matter coming before the Hernando County Board of County Commissioners and in consideration of the expenditures by County from its governmental funds heretofore made to specially benefit the subject property described herein, there is hereby created, established and levied by operation of law, running from the thirty-first (31st) day from the date set forth below, a lien upon the following described real property situated and lying in Hernando County, Florida, to wit:

Fernleaf Drive, Key #1330296
Hernando Beach Unit 14, Blk 132, Lot 2, Hernando County, Florida

Owner's name: Madisons Avenue of Gainesville Inc.
Mailing address: 6921 NW 22nd Street, Gainesville, FL 32653

Said lien may be foreclosed by County pursuant to Hernando County Code Sec. 15-166 and in accordance with the procedure set forth in general law, or may be enforced in any other manner allowed by law.

Said lien shall bear interest at the rate of ten percent (10%) per annum from the date hereof until paid in full.

IN WITNESS WHEREOF, Hernando County has set its hand and seal this 16 *day of* August, 2005.

MEMORANDUM

TO: The Honorable Chairperson and Members of the Hernando County Board of County Commissioners

VIA: Gary Kuhl, County Administrator
Kent Weissinger, Hernando County Attorney's Office
Jim Gantt, Purchasing Department

FROM: David W. Horne, Assistant Utilities Director

DATE: March 6, 2007

Subj: Landfill Gas Project

BRIEF OVERVIEW:
Staff is requesting that the Board approve the execution of an unsolicited proposal contract from Timberline Energy, LLC of Golden, Colorado for the purchase of the landfill methane gas being generated at the Hernando County Northwest Solid Waste Facility Landfill. The gas will be utilized as an energy source within Hernando County at the site of Florida Rock.
The Hernando County Solid Waste Department is scheduled to install a gas flare during the construction phase of cell 3. This proposal and its timing are perfect relative to the landfill construction project.

BUDGET IMPACT:
No capital or operating costs to the County for the gas recovery system.
Projected annual revenues to the County are approx. $70,000/yr.
This equates to approx. $45K/yr for the gas and another $24K/yr in royalty payments. As the landfill continues to generate larger volumes of methane gas, revenues will continue to increase.

LEGAL IMPACT:
The County Attorney's office has reviewed the proposal and finds it to be in good order and the terms of the proposal are in the county's best interest. Per the Purchasing Department, Mr. Jim Gantt, the gas can be sold under the "disposal of surplus" statutes.

RECOMMENDED ACTION:
Staff recommends that the BOCC approve the execution of this contract. As a result of doing so, the County will immediately start generating revenues of $2,000/mo until the landfill gas system is operational.

ADMINISTRATIVE NOTE:

CONSENT AGENDA ITEM 10.

THIS LANDFILL GAS PURCHASE AGREEMENT ("Agreement"), made and entered into this 27th day of March, 2007, by and between **TIMBERLINE ENERGY, LLC,** a Delaware Limited Liability Company, doing business at 14520 West Archer Drive, Golden, Colorado, 80401, hereinafter referred to as the "DEVELOPER" and **HERNANDO COUNTY,** a political subdivision of the State of Florida, by and through its Board of County Commissioners, whose address is 20 N. Main Street, Room 460, Brooksville, Florida 34601 Florida hereinafter referred to as "COUNTY";

WITNESSETH:

WHEREAS, the COUNTY is authorized to construct, acquire, improve, maintain, and operate its Solid Waste Management Facilities in the COUNTY; and

WHEREAS, the COUNTY has constructed an active landfill gas ("LFG") collection and flaring system at the Hernando County Northwest Solid Waste Management Facility ("Landfill") in order to remain in compliance with applicable federal, state, and local laws and regulations, and to control landfill gas migration and atmospheric emissions, including odors; and

WHEREAS, the COUNTY plans to construct subsequent expansions to the LFG Management System; and

WHEREAS, the COUNTY recognizes that the use of recovered LFG is of environmental and economic benefit to the COUNTY; and

WHEREAS, the COUNTY desires to enter an Agreement with the DEVELOPER whereby the DEVELOPER would make certain payments to the COUNTY for the rights to and sale of LFG to a Buyer.

NOW, THEREFORE, in consideration of the premises and mutual promises and conditions contained herein, it is mutually agreed between the parties as follows:

Section 1. Definitions. Unless the context indicates otherwise, as used herein, the terms set forth below shall be defined as follows:

(a) Beneficial End Use Product means products derived from LFG that may include, but are not limited to: processed LFG, pipeline quality LFG, electric power, thermal energy, CO_2, or any two or more of the foregoing. The use of such products shall result in a tangible financial gain for the COUNTY.

(b) British Thermal Unit (BTU) means the quantity of heat necessary to raise the temperature of one pound of water one degree Fahrenheit, for example from 58.5 to 59.5 degrees Fahrenheit, under standard pressure of 30 inches of mercury at or near its

1,055 joules, 2.931 10^{-4} kWh, or .293 watt hours.

(c) BTU per Cubic Foot means a measure of the heat available or released when one cubic foot of gas is burned. Landfill Gas has an expected value of 500 to 600 BTU per Cubic Foot.

(d) Buyer means the party or parties to which DEVELOPER will sell a Beneficial End Use Product derived from the recovery and/or processing of LFG.

(e) Commercial Operations means from the date when the DEVELOPER's LFG Utilization Facility begins deliveries of a Beneficial End Use Product to a Buyer.

(f) Commercial Quantities means an economically viable quantity of LFG (minimum of one (1) standard cubic feet per minute (scfm) provided by the COUNTY at the Delivery Point pursuant to this Agreement).

(g) Condensate means the liquid formed from the condensing of the vapors that occurs during the collection, transportation, and processing of LFG.

(h) Day means a calendar day.

(i) Delivery Point(s) means the point(s) at which the LFG enters the DEVELOPER's header or connection piping for delivery to the DEVELOPER's LFG Utilization Facility. The point(s) are located at or near the COUNTY's Flare Station facilities.

(j) Flare Stations means the equipment and appurtenances used to incinerate LFG. The Flare Stations are used to incinerate LFG in conformance with applicable federal, state, and local rules and regulations, and to control odors.

(k) Force Majeure means acts of God; winds, hurricanes, tornadoes, fires, epidemics, landslides, floods; strikes, lock-outs, acts of public enemies; insurrections; explosions; a change in law not due to improper conduct or to any negligent or intentional act or omission; or any cause or event, not reasonably within the control of the party claiming Force Majeure except for the financial inability of such party caused by factors other than any of the foregoing.

(l) Heating Value means the amount of heat produced by the complete combustion of a unity quantity of fuel. The gross or higher heating valve (HHV) is that which is obtained when all of the products of combustion are cooled to the temperature existing before combustion, the water vapor formed during combustion is condensed, and all the necessary corrections have been made. The net or lower heating valve (LHV) is obtained by subtracting the latent heat of vaporization of the water vapor, formed by the combustion of the hydrogen in the fuel, from the gross or higher healing value.

Facility located at14450 Landfill Road, Brooksville, Florida where Class I and Class III wastes are permanently deposited in solid waste disposal units.

(n) Landfill Gas (LFG) means any and all gases resulting from the decomposition of refuse material within the Landfill, consisting principally of methane, carbon dioxide and traces of other constituent gases.

(o) LFG Management System means the network of LFG recovery wells and interconnecting pipes together with attendant valves, condensate sumps and pumps, monitoring devices and other related equipment installed for the purpose of extracting, collecting, and transporting LFG to the Delivery Point(s).

(p) LFG Purchase Agreement means this Agreement between the COUNTY and DEVELOPER for: the construction and operation of DEVELOPER's LFG Utilization Facility; the connection to the Delivery Point(s) for the recovery and utilization of LFG; and the purchase of the LFG provided by the COUNTY at the Delivery Point(s).

(q) LFG Utilization Facility means the DEVELOPER's building or enclosure and equipment required for the processing and delivery of the Beneficial End Use Product to the Buyer, such equipment may include, but is not limited to, compression equipment, an oil and gas cooler, a condensate knockout tank, scrub areas, generating equipment, electric generation and related facilities.

(r) LFG Utilization Facility Site means an area located within the Landfill property upon which the DEVELOPER may access, install, and construct the LFG Utilization Facility. The LFG Utilization Facility Site shall be at a site mutually agreed to by the COUNTY and DEVELOPER.

(s) Leachate means the liquid that has passed through or emerged from solid waste and may contain soluble, suspended, or miscible materials.

(t) Utility Interface (i) in the case where LFG is used to generate electric power, this term shall mean the step-up transformer, metering facilities, protection circuitry, transmission lines, poles, and any other equipment necessary to interconnect the LFG Utilization Facility with the grid of the electric utility in whose franchise area the Landfill is located, or (ii) in the case where LFG is converted to other beneficial products, this term shall mean the metering facilities, pipelines, valves and any other equipment necessary to interconnect the LFG Utilization Facility with the transmission or distribution pipelines or other facility of the electric utility, pipeline company, or other Buyer.

Section 2. Rights Granted to DEVELOPER. Subject to the limitations and other provisions of this Agreement, COUNTY hereby grants to DEVELOPER the following:

(a) Landfill Gas. Developer has the right and license to connect, process, sell, and utilize the LFG that is generated from the Landfill and other contiguous landfill expansion areas and delivered to the Buyer during the term of this Agreement. It shall be the DEVELOPER's responsibility to connect and utilize all LFG made available by the COUNTY for direct sale as fuel or conversion to a Beneficial End Use Product for sale to a Buyer. Title to and risk of loss for the LFG will pass to Buyer. DEVELOPER shall have the exclusive right to claim and utilize any emission allowances and reduction credits that may be associated with LFG.

(b) Site of LFG Utilization Facility. In accordance with the provisions of this Agreement, the COUNTY will make available to DEVELOPER an area located within the Landfill property mutually agreeable to the COUNTY and DEVELOPER an area located within the Landfill property mutually agreeable to the COUNTY and DEVELOPER, by license, as required by DEVELOPER for construction of a LFG Utilization Facility and site improvements, commencing as of the effective date of this Agreement and terminating at the termination of this Agreement. COUNTY hereby covenants (i) that it has title to the LFG Utilization Facility Site in fee and (ii) that DEVELOPER shall have exclusive use of the LFG Utilization Facility Site during the term of this Agreement so long as DEVELOPER is not in default of its obligations under this Agreement.

(c) Access. COUNTY will make available to the DEVELOPER access to the LFG Utilization Facility Site for construction, installation, operation, and maintenance of the DEVELOPER's supplied facility equipment, transmission lines, sewer, electric, water, and telephone lines that are necessary for the operation of the facility.

Section 3. Obligations of COUNTY.

(a) Obligation. The Developer will design and install the initial wells and collection system. The COUNTY shall design, construct, upgrade, expand, operate, and maintain the LFG Management System and provide additional blowers and flares to the COUNTY's Flare Stations as needed to maintain compliance with federal and state regulations. The COUNTY will consult with the DEVELOPER on the placement and configuration of the LFG extraction wells and other equipment required to meet such regulations, in an effort to enhance the beneficial use of the LFG and the overall operation of the LFG Management System. The DEVELOPER's comments shall not be binding on the COUNTY.

Subject to these limitations and other provisions of this Agreement, COUNTY shall:

(1) Cooperate in the construction, development, and operation of the Landfill so as to enhance the production of LFG, while controlling odors and maintaining compliance with all applicable regulations;

Deleted: cooperate

of the LFG Utilization Facility, providing DEVELOPER is complying with all applicable laws and regulations;

(3) instruct its independent contractors, agents and employees to comply with Sections 3(a) (1) and (2) described above;

Deleted:)(

(4) Promptly repair at its expense, major cracks, fissures, erosion or physical changes in the Landfill which have an adverse effect on the production of LFG or on the LFG Management System in accordance with applicable LFG regulations;

Deleted: promptly

(5) comply with applicable federal, state and local laws, rules, ordinances and regulations relating to or regulating the construction and operation of the Landfill except for said responsibilities of the DEVELOPER as established under this Agreement; and

(6) maintain consistent cover on the Landfill to meet current federal and state requirements.

(b) Access to the DEVELOPER's Facilities. Access to the DEVELOPER's LFG Utilization Facility shall be by the established entranceway to the Landfill via the scalehouse. The COUNTY shall take appropriate steps to ensure that this access route to the LFG Utilization Facility is available to the DEVELOPER at all times (i.e., 24 hours per day, 7 days per week). When utilizing the access route, the DEVELOPER shall abide by all of the applicable policies and safety regulations of the COUNTY. In certain cases, such as ..., the COUNTY will notify the DEVELOPER of the need to enter the DEVELOPER's premises.

(c) Documents. As reasonably requested by DEVELOPER, COUNTY shall:

(1) allow DEVELOPER to inspect, in accordance with Chapter 119, Florida Statutes, any documents in its possession regarding LFG production from the Landfill, the quantity, age, and type of refuse in the Landfill, tipping records, etc.; and

(2) allow DEVELOPER to inspect, in accordance with Chapter 119, Florida Statutes, any environmental information, environmental impact reports or studies, permits or permit applications, zoning information including variances or variance applications, and any other available data relating to the Landfill and COUNTY's or DEVELOPER's activities contemplated in this Agreement, and allow DEVELOPER to copy any such material or documents as may be in COUNTY's possession.

(d) Good Faith. COUNTY shall perform its obligations hereunder in good faith and acting reasonably, cooperate with DEVELOPER so that DEVELOPER can meet its responsibilities and obligations under this Agreement.

is understood and agreed to by DEVELOPER that the COUNTY does not warrant or guarantee the rates of production, the chemical composition, or heating content of the LFG from the Landfill. DEVELOPER is relying on its own calculations and evaluation of the Landfill in this regard.

Section 4. Obligations of DEVELOPER. Deleted: of DEVELOPER

(a) Obligations. The operation of the LFG Utilization Facility and any other activity of DEVELOPER shall not interfere with the management and operational requirements of the Landfill. The DEVELOPER shall design, construct, operate, and maintain the initial gas wells and gas collection system portion of the LFG Management System. The County shall be responsible for providing blowers and flares to the COUNTY's Flare Stations as needed to maintain compliance with federal and state regulations. The DEVELOPER will consult with the COUNTY on the placement and configuration of the LFG extraction wells and other equipment.

(b) LFG Utilization Facility. DEVELOPER shall, at its sole expense, permit, design, install, construct, operate, replace, expand, upgrade, and maintain the LFG Utilization Facility required for the processing and delivery of the Beneficial End Use Product to the Buyer. The design, installation, construction, operation, replacement, expansion, upgrade, if any, and maintenance of such LFG Utilization Facility shall be in accordance with federal, state, and local requirements, and industry standards.

(c) Delivery Point(s). DEVELOPER shall, at its sole expense, provide and install:

(1) Header piping, connection piping, valves, pipe supports, and any other auxiliary items from the DEVELOPER's LFG Utilization Facility to the Delivery Point(s).

(2) A tee, valve, and blind flange at the Delivery Point(s) for the purpose of connecting to the COUNTY's LFG Management System.

(3) Any needed blower booster(s) or blower(s) to manage the flow of LFG from the Delivery Point(s) to the LFG Utilization Facility.

(4) For the COUNTY's use, the DEVELOPER, at its own expense shall install, operate and maintain flow meter(s), , and continuous recorder near the Delivery Point(s) for the purpose of determining the quantity and methane content of LFG delivered to the DEVELOPER. The COUNTY and DEVELOPER shall mutually select the final location for the flow meter(s). Flow meter(s) shall be calibrated quarterly by the COUNTY's representative certified to perform such calibrations. The DEVELOPER may independently pay for calibration of the meter(s) by a third party certified to perform such calibrations with consent from the COUNTY. The DEVELOPER shall analyze the COUNTY's LFG daily for the content of methane and Deleted: flowmeter

independently arrange and pay for the sampling and analysis of the gas by an appropriately certified laboratory. If the County's and the DEVELOPER's analysis differ by less than ten percent (10%), the results shall be averaged for purposes of this section. If the results differ by more than ten percent (10%), the COUNTY and the DEVELOPER shall arrange for sampling by a mutually agreed upon third party laboratory.. The COUNTY and the DEVELOPER shall share equally in the cost of the third party laboratory.

(d) Commercial Operations. DEVELOPER shall commence Commercial Operations within 18 months from the effective date of this Agreement.

(e) Operations. In addition to the following, DEVELOPER shall operate the LFG Utilization Facility in accordance with the Wellfield Maintenance Agreement of even date herewith attached hereto and incorporated herein as Exhibit "A". DEVELOPER shall:

(1) Operate the LFG Utilization Facility, and all associated DEVELOPER supplied equipment in a prudent manner in accordance with good engineering practices and in a manner consistent with industry standards.

(2) Maintain the LFG Utilization Facility, COUNTY's Flare Station(s), and all associated DEVELOPER supplied equipment in good working order throughout the term of this Agreement.

(3) Repair the LFG Utilization Facility, COUNTY's Flare Station(s), and all associated DEVELOPER supplied equipment, as necessary, to restore normal operations and system redundancies to ensure compliance with the terms of this Agreement.

(4) Maximize the use of the available LFG from the COUNTY and sell and deliver Beneficial End Use Product to a Buyer.

(5) Maintain a constant and balanced draw from the COUNTY's LFG Management System in order for the COUNTY to maintain a balance of their system.

(6) Maintain air emissions generated by the operations to any applicable standards or permits.

(7) Flare all LFG that may be available due to excess quantity, scheduled and unscheduled maintenance, or shut-off by Buyer. Meet permit requirements, control odors, operate, repair, and maintain the COUNTY's Flare Station(s).

control on-site and off-site impacts in accordance with applicable standards, ordinances, permits, rules and regulation.

(9) Maintain noise levels from the operation of the DEVELOPER's facilities at any point of the Landfill site boundary in accordance with Section 30.1302 of the COUNTY's landfill operation.

(10) Control and dispose of all wastes generated from the DEVELOPER's facilities according to current environmental regulations, including gas condensate and waste cooling water.

(11) Comply with all applicable federal, state, and local laws, rules, ordinances and regulations and any other said responsibilities of the DEVELOPER as established under this Agreement.

(12) Provide information to COUNTY, as necessary, for COUNTY to comply with New Source Performance Standards (NSPS) reporting requirements, or other regulatory reporting requirement.

(13) Comply with annual inspection and implement recommendations made by the COUNTY's consulting engineer on annual inspection of the flare and facility property.

(f) Good Faith. DEVELOPER shall perform its obligations hereunder in good faith and acting reasonably, cooperate fully with COUNTY so that COUNTY can meet its responsibilities and obligation under this Agreement. DEVELOPER shall comply with all laws and regulations applicable to the work being performed under this Agreement.

(g) Design Review. DEVELOPER shall submit to COUNTY for review, comment and approval all design documents relating to the implementation of this Agreement including plans, specifications and drawings for the procurement, installation, and construction of the LFG Utilization Facility during the term of this Agreement. Any such review, comment and approval will not be unreasonably withheld. The purpose of such review is to ensure that the facilities constructed on the COUNTY's property will not interfere with the COUNTY's operations, and will comply with all applicable laws (e.g., permitting, zoning, and environmental requirements), as well as the provisions of this Agreement. The COUNTY shall not have the right to review or approve any proprietary information, or to approve the detailed terms of DEVELOPER's design documents, but COUNTY may provide comments to DEVELOPER on such design, and DEVELOPER agrees to make such changes as may be necessary to comply with COUNTY's requirements. If changes to these design documents are made, DEVELOPER will submit such changes to the COUNTY for review and COUNTY shall notify DEVELOPER in a reasonable time (such time in no event to exceed thirty (30) days) of its comments on such changes. Any recommendation of rejection shall be reasonable, based on the design standards set forth in this Agreement and accompanied by a detailed

Deleted: deisgn

alternatives to DEVELOPER to eliminate the reasons for the rejection. COUNTY and DEVELOPER recognize that delays in the construction of these systems may delay DEVELOPER's construction schedule. Therefore, COUNTY and DEVELOPER agree to exercise reasonable efforts to expedite the review and approval process. DEVELOPER will provide COUNTY with a complete set of "as built" plans for the DEVELOPER's LFG Utilization Facility. The review process described in this paragraph does not relieve the DEVELOPER of its obligations to obtain the required building permits and site plan review approval, or any other local, state or federal approvals required for the DEVELOPER's LFG Utilization Facility.

Neither the COUNTY's authority to review and approve design documents relating to the implementation of this Agreement nor any decision made by the COUNTY in good faith in conjunction with such review and approval shall give rise to any duty or responsibility of COUNTY to DEVELOPER, any subcontractor, any supplier, or any other person or organization performing any of the work, or to any surety for any of them.

The COUNTY's actions pursuant to this section shall not create any vested rights for the DEVELOPER. Nothing in this Agreement shall be construed to eliminate the need for the DEVELOPER to comply with all applicable laws and regulations.

(h) Permits. DEVELOPER shall, at its own expense, prepare and file permit applications and diligently prosecute the processing of such permit application for the purpose of obtaining all environmental and other permits which are required under applicable local, state, and federal laws and regulations for the construction, installation, and operation of the LFG Utilization Facility, associated electrical transmission lines, an/or steam, or LFG transmission pipelines, on and off-site. In connection therewith, the COUNTY agrees to make available to the DEVELOPER all known public records within the COUNTY's possession of environmental information reports, environmental impact reports, air impact assessment studies, copies of all environmental applications filed, and other available data relating to and used in connection with obtaining any environmental permits necessary for the installation and operation of any equipment or the conducting of any other activities at the Landfill.

Any permit modifications or applications that may affect existing COUNTY permits shall be submitted to the COUNTY for review and comment prior to submission to the applicable regulatory agency. The DEVELOPER shall incorporate any comments from the COUNTY subsequent to final review by the COUNTY and re-submit to COUNTY for final approval, authorization, and signature.

Deleted: to the

(i) Laws and Regulations. The DEVELOPER must agree to abide by and conduct its programs and provide its services in compliance with the applicable provisions of:

Chapter 440 and Florida Administrative Code (F.A.C), Rule 38F

- Florida Workplace Safety and Health Regulations, F.A.C – Rule 38I
- Federal Civil Rights Act of 1866
- Federal Civil Rights Act of 1871
- Federal Equal Pay Act of 1963
- Federal Civil Rights Act of 1964
- Federal Age Discrimination and Employment Acts of 1967
- Federal Rehabilitation Act of 1973
- Federal Americans with Disabilities Act of 1990
- Federal Civil Rights Act of 1991
- Florida Civil Rights Act of 1992
- American National Standards Institute
- National Fire Protection Association
- Occupational Safety and Health Act, Code of Federal Regulation, Chapter 29, Parts 1910 and 1926, General Industry Standards and Construction Industry Standards, as amended, with particular attention to the Hazard Communications, Trenching and Shoring and Confined Space Entry Standards.
- All other applicable ordinances, statutes, laws and amendments thereto.

The DEVELOPER is presumed to be familiar with all applicable federal, state and local laws, ordinances, code rules and regulations that may in any way affect the work.

(j) Site Security. The LFG Utilization Facility Site shall be fenced and gated and locked during construction and operations. The fencing shall contain signage on each side, warning of any hazards and providing telephone numbers for notification of emergency situations. Employees of the COUNTY shall not be permitted on the LFG Utilization Facility Site, except in the event of an emergency or disaster, unless accompanied by an authorized employee of the DEVELOPER. Subject to the exemptions included in this subsection for entry onto the LFG Utilization Facility Site, the COUNTY's employees shall not enter the site unless:

(1) DEVELOPER's employee is on the site at the same time, or

(2) DEVELOPER requests assistance from the COUNTY or a duly authorized representative, or

(3) It is necessary for the COUNTY to collect samples from the discharges of the DEVELOPER's facility, or

(4) A situation that requires immediate attention. The COUNTY will notify the DEVELOPER within 24 hours of entrance onto the DEVELOPER's site.

The fencing, gating, and site security requirements of this subsection shall be limited to the DEVELOPER's LFG Utilization Facility Site.

preliminary Project Plan for the LFG Utilization Facility Project, during the construction process. The Plan will cover a number of aspects of the DEVELOPER's operations and will include at a minimum;

- Testing requirements for startup of the LFG Utilization Facility;
- LFG Utilization Facility Operating Plan that demonstrates at a minimum the facility's ability to process the initial LFG flows (LFG available from the COUNTY at startup of the Facility) from the Landfill;
- Reporting requirements to governmental agencies for permits associated with LFG Utilization Facility;
- Testing and monitoring procedures of the LFG Utilization Facility to assure compliance with permit conditions;
- An Emergency, Disaster and Safety Plan

The Project Plan will be finalized and accepted by the County prior to the startup of the LFG Utilization Facility. Once accepted by the COUNTY, the DEVELOPER is obligated to adhere to the Plan. Deviations from the plan are only permissible if they are made in writing to the COUNTY and accepted in writing by the COUNTY. Operations will commence after completion of the startup period and approval of the Project Plan by the COUNTY.

(l) Project Schedule. The DEVELOPER shall be responsible for developing and keeping current a project schedule for each of the elements of the LFG Utilization Facility construction which show: the sequence of project development, permitting, design, construction, startup, and commencement of operations, system testing, and monitoring, and reporting to governmental agencies. The COUNTY will review and accept the Project Schedule before any construction shall commence. The COUNTY will be informed of monthly progress and changes in the schedule by the DEVELOPER.

Deleted: commencement

(m) Transmission Line. Any off-site pipeline or transmission line to the Buyer's premises shall comply with and be included within the requirements and liabilities assumed by the DEVELOPER under this Agreement. Any portion of the pipeline or transmission line on public right of way shall be clearly marked according to industry or governmental standards. The depth of the pipeline or transmission line shall comply with local permitting code and/or State law whichever is applicable.

Section 5. Term.

(a) Agreement Term. This Agreement shall have a term of twenty (20) years which shall begin on the date when the DEVELOPER commences Commercial Operations of the LFG Utilization Facility, consistent with the provisions of this Agreement. At the end of the term, this Agreement shall terminate, unless extended by mutual written agreement of the COUNTY and DEVELOPER, provided that the party

such desire. The term of this Agreement also may be extended if and when the COUNTY adds additional LFG extraction wells in the Landfill and the DEVELOPER agrees to expend additional capital funds to increase the capacity of its LFG Utilization Facility, provided the COUNTY and the DEVELOPER consent in writing to the extension. If the County does not renew the agreement then the DEVELOPER will be reimbursed for the cost of the wells and collection system installed by DEVELOPER.

(b) Effective Date. This agreement shall become effective on the day it is executed by a duly authorized representative of the COUNTY. Until the effect date, this Agreement shall be of no force or effect.

Section 6. Payment.

(a) Initial Payment for LFG Rights. DEVELOPER shall pay the COUNTY a lump sum of Five Thousand and No/100 Dollars ($5,000.00) within ninety (90) days of the effective date of this Agreement, or upon financing the LFG Utilization Facility, whichever comes first. This lump sum payment to the COUNTY shall constitute the DEVELOPER's payment for an exclusive right to and use of LFG from the Landfill.

(b) Payment for LFG Delivered. DEVELOPER shall pay the COUNTY a 3% royalty for all gross revenue derived from the sale of the landfill gas, CO2, emissions credits or other products. The royalty shall increase to 6% for all landfill gas btu's above 110,000 btu/year.

(c) If the Developer is operating the wells and gas collection system, the Developer will deducted $2,000/month from the royalty payment. However at no time will the royalty payment minus the $2,000/month deduction be less than $1,000/month.

(e) Payment Due Date. All monies due to the COUNTY on a monthly payment basis shall be payable in arrears along with documentation of revenues monthly payment are due on or before the twenty-fifth (25th) day of the calendar month following the month in which DEVELOPER actually receives revenues from its sale of the Beneficial End Use Products converted from the LFG from the Landfill. The COUNTY shall have the right to inspect, copy, and audit during reasonable business hours the sale journal and any other pertinent books and records of the DEVELOPER relating to the calculations of the revenues upon which the payment of LFG delivered will be based or any other payment to the COUNTY. If the above indexes are not available for any reason, the parties shall mutually agree on the use of a replacement index or indexes.

(f) Tax and Emission Credits. If any federal, state, or local tax or emission credits become available, DEVELOPER shall pay a fee to the COUNTY for any tax or emission credits received by the DEVELOPER for the LFG Utilization Facility. The fee shall be equal to the royalty amount.

all utility interface costs.

Section 7. Financing. COUNTY acknowledges that DEVELOPER may desire to finance some or all of the equipment or personal property required to undertake work to be performed under this Agreement and hereby consents to any encumbrance or lien on the machinery, equipment, fixtures, and buildings that make up the LFG Utilization Facility and Utility Interface for the purpose of obtaining such financing, provided:

(a) DEVELOPER shall give COUNTY notice of the existence of such encumbrance or lien together with the name and address of the holder of such encumbrance or lien, and a copy of the encumbrance or lien.

(b) That the existence of such encumbrance or lien shall not relieve DEVELOPER from any liability or responsibility for the performance of its obligations under this Agreement.

Under no circumstances shall DEVELOPER cause any mortgage or lien to exist on the COUNTY property, Landfill, access road, or LFG Utilization Facility Site, and no security interests may be granted in any underground transmission lines, pipelines, or underground equipment or fixtures associated with the project.

Section 8. General Obligations.

(a) Planning and Expansion. DEVELOPER recognizes that future development of the COUNTY Landfill may include additional facilities. COUNTY and DEVELOPER agree to exchange information on a regular basis for planning and coordination of all activities to promote the safe and orderly development and operation of the Landfill.

(b) Interests Retained by COUNTY. All materials, minerals, water, natural gas, and other items existing in, on, or under the Landfill (including, but not limited to, the refuse, cell liners, leachate, condensate, and waste spoilage removed from Landfill during construction of LFG Management System and cover) shall at all times remain the property of COUNTY.

(c) Independent Contractor. In the performance of any activities pursuant to this Agreement, the DEVELOPER will be acting in the capacity of an independent contractor and not as an agent, employee, partner, joint venturer, or associate of the COUNTY. The Developer shall be solely responsible for the means, methods, sequences, and procedures utilized by the DEVELOPER. None of the Developer's employees, officers, agents, or any other individual directed to act on behalf of the DEVELOPER for any act related to the Agreement shall represent, act, purport to act, or be deemed to be the agent, representative, employee or servant of the COUNTY.

Deleted: Developer's employees

removal of condensate from the DEVELOPER's condensate sumps, DEVELOPER's condensate knockout vessel(s) and the LFG Utilization FACILITY, and the proper handling and delivery of the condensate to the COUNTY's leachate collection system (leachate manhole) or leachate storage tanks. The COUNTY shall have the right to collect and test samples from the DEVELOPER's facilities before discharging into the COUNTY's facilities.

(e) Gas Migration and Emissions. DEVELOPER and COUNTY acknowledge that the primary objective of the LFG Management System is and will continue to be to control LFG migration, emissions and odors, in order to meet all local, state and federal regulatory requirements and the requirements of existing and future landfill permits. DEVELOPER shall operate the LFG Utilization Facility in a manner that is conducive to this primary objective.

FURTHERMORE the COUNTY is to provide all of the needed LFG Management System components and all replacement, expansions, and additions and the operation thereof to collect the LFG generated at the Landfill to the greatest extent possible so that (i) the operation of the Landfill will remain in compliance with applicable federal, state and local laws and regulations, and (ii) the operation of the Landfill will control LFG migration and odors.

(f)

The COUNTY shall design, permit, construct and pay for any additional equipment or other improvements that are necessary to ensure compliance with applicable regulations due to (i) a change in applicable laws or regulations that occurs after the effective date of this Agreement or (ii) an expansion of or other change, provided that such failure is not caused by DEVELOPER's acts or omissions during DEVELOPER's maintenance, repair and operation.

(g) Non Waiver.

(1) The failure of either party to exercise any right shall not be considered a waiver of such right in the event of any further default or noncompliance.

(2) No action taken by COUNTY or DEVELOPER after the effective date of the termination of this Agreement pursuant to Section 14 in accepting one or more payments from the other or undertaking any other activity which would have been authorized by this Agreement but for its termination, shall be construed that this Agreement is not terminated or as a waiver of the termination.

(h) Inspections. COUNTY has the right to conduct inspections of the DEVELOPER's facilities to verify operations compliance, environmental compliance and

of this Agreement

Section 9. Limitations of Liability.

(a) Except as otherwise provided herein, COUNTY provides no warranties or guarantees, either expressed or implied, as to the amount or chemical composition of the LFG to be extracted and made available to the DEVELOPER at the Delivery Point(s) hereunder, including, but without limitation, any warranty of merchantability or fitness of the LFG for a particular purpose; provided, however, if the Landfill does not produce Commercial Quantities of LFG, DEVELOPER may terminate this Agreement as provided in Section 14(d).

(b) Provided DEVELOPER is complying with applicable laws and regulations, DEVELOPER will be solely responsible for the determination of the suitability of the LFG to be used under this Agreement for any and all purposes contemplated by DEVELOPER.

(c) Nothing contained within this Agreement shall be construed to mean that DEVELOPER has assumed any of COUNTY's responsibilities to comply with any environmental laws and regulations, whether federal, state, or local.

(d) In no event shall Developer be liable to COUNTY with respect to any claims arising from the ownership of the Landfill.

(e) COUNTY shall not be liable for damages, including consequential damages, loss of revenues and/or lost profits, for COUNTY employees' entry on the LFG Utilization Facility Site at the Landfill pursuant to Section 4(j) herein. Further, COUNTY shall not be liable for consequential damages, loss of revenues and/or lost profits for any reason whatsoever.

(f) DEVELOPER is liable for any fines and/or repair for any environmental damage due to the DEVELOPER's facilities construction and operations.

(g) Nothing contained in this Agreement constitutes a waiver of the COUNTY's sovereign immunity or the limitations on liability contained in Section 768.28, Florida Statutes.

Section 10. Indemnification. To the fullest extent permitted by Laws and Regulations, the selected DEVELOPER shall indemnify and hold harmless the COUNTY and the officers, directors, employees, agents and other consultants of the COUNTY from and against all claims, expenses, losses and damages (including but not limited to all fees and charges of the DEVELOPER, engineers, architects, attorneys and other professionals) caused by, arising out of or resulting from the performance of services, provided that any such claim, damage, loss or expense: (1) is attributable to bodily injury, sickness, disease, death, or personal injury, or to property damage including the loss of

DEVELOPER, any Subcontractor, any Supplier, any person or organization directly or indirectly employed by any of them to perform or furnish any of the services or anyone for whose acts any of them may be liable. The DEVELOPER agrees that it will pay the reasonable costs of the COUNTY's legal defense, including fees of attorneys as may be selected by the COUNTY and shall defend, satisfy, and pay any judgments which may be rendered against the COUNTY in connection with the above hold harmless agreement. The DEVELOPER acknowledges that specific consideration has been received for this hold harmless/indemnification provision.

The provisions of this Section 10 shall survive the termination of this Agreement.

Section 11. Insurance. Before starting and throughout the Term of this Agreement, the DEVELOPER shall procure and maintain insurance of the types and to the limits specified in Section A below.

The DEVELOPER shall require each of its Subcontractors, if any, to procure and maintain, until completion of that Subcontractor's work, insurance of types and to the limits specified in Section A (i) through (v) inclusive below. It shall be the responsibility of the DEVELOPER to ensure that all its Subcontractors meet these requirements.

(a) Coverage. Except as otherwise stated, the amount and types of insurance shall conform to the following minimum requirements.

(1) Workers' Compensation: Coverage to apply for all employees at the STATUTORY limits in compliance with applicable state and federal laws; if any operations are to be undertaken on or about navigable waters, coverage must be included for the USA Longshoremen & Harbor Workers Act, and Jones Act; in addition, the policy must include EMPLOYERS LIABILITY for limits of Five Hundred Thousand and N/100 Dollars ($500,00.00)/each accident; One Million and No/100 Dollars ($1,000,000.00)/disease – policy limit; Five Hundred Thousand and No/100 Dollars ($500,000.00)/disease – each employee, and a waiver of subrogation in favor of COUNTY, its agents, employees and officials.

(2) Commercial General Liability: Coverage must be afforded, under a per occurrence form policy, including Premise Operations, Independent Contractors, Products and Completed Operations, Broad Form Property Damage Endorsement, with a Hold Harmless and Named Additional Insured Endorsement in favor of the COUNTY for limits not less than Four Million and No/100 Dollars ($4,000,000.00)/general aggregate; Two Million and No/100 Dollars ($2,000,000.00)/products-completed operations (aggregate); Two Million and No/100 Dollars ($2,000,000.00)/personal injury and property damage liability; Two Million and No/100 Dollars ($2,000,000.00)/each occurrence; Fifty Thousand and No/100 Dollars ($50,000.00)/fire damage legal; Five Thousand and No/100 Dollars ($5,000.00)/medical payments.

coverage for all owned vehicles, hired/non-owned vehicles, with an Additional Named Insured Endorsement in favor of the COUNTY, for a combined single limit (bodily injury and property damage) of not less than One Million and No/100 Dollars ($1,000,000.00)/combined single limit (bodily limits; injury/property damage); personal injury protection/statutory One Million and No/100 Dollars ($1,000,000.00) /uninsured/underinsured motorist; One Million and No/100 Dollars ($1,000,000.00)/hired /non-owned auto liability.

(4) Builder's Risk /Installation Floater: When this agreement includes construction of or additions to above ground buildings or structures, or installation of machinery or equipment, Builder's Risk and/or Installation Floater coverage must be provided as follows:

(i) All Risk Coverage – All risk Coverage on a completed value form shall provide primary, non-contributory coverage with a waiver of subrogation in favor of the COUNTY.

(ii) Amount of Insurance – one-hundred percent (100%) of the completed value of such addition(s), building(s), or structure(s), or machinery and equipment.

(iii) Waiver of Occupancy Clause or Warranty – Policy must be specifically endorsed to eliminate any "Occupancy Clause" or similar warranty or representation that the building(s), addition(s), or structure(s) will not be occupied by the COUNTY.

(iv) Maximum Deductible – Five Thousand No/100 Dollars ($5,000.00) each claim. Higher deductibles are permitted subject to COUNTY approval.

(v) Additional Named Insured – The COUNTY must be included as an additional named insured.

(vi) Notice of Cancellation and/or Restriction – The policy must be specifically endorsed to provide the COUNTY with thirty (30) days' notice of cancellation and/or restriction.

(vii) Flood Insurance – When the buildings or structures are located within an identified special flood hazard area, flood insurance protecting the interest of the DEVELOPER and the COUNTY must be afforded for the lesser of the total insurable value of such buildings or structures, or the maximum amount of floor insurance coverage available under the National Flood Insurance Program.

OR

(5) Property Insurance Coverage: When construction of any above ground building or structure, or installation of machinery or equipment is complete, coverage must be provided as follows:

(i) All Risk Coverage – All Risk Coverage on a completed value from shall provide primary, non-contributory coverage with a waiver of subrogation in favor of the COUNTY.

(ii) Amount of Insurance – one hundred (100%) of the "replacement cost value."

(iii) Maximum Deductible – Five Thousand and No/100 Dollars ($5,000.00) each claim. Higher deductibles are permitted subject to COUNTY approval.

(iv) Additional Named Insured – The COUNTY must be included as an additional named insured.

(v) Notice of Cancellation and/or Restriction – The policy must be specifically endorsed to provide the COUNTY with thirty (30) days' notice of cancellation.

(vi) Flood Insurance – When the buildings or structures are located within an identified special flood hazard area, flood insurance protecting the interest of the Contractor must be afforded for the lesser of the total insurable value of such buildings or structures, or the maximum amount of flood insurance coverage available under the National Flood Insurance Program.

(6) Environmental Impairment Insurance: Coverage shall be provided and maintained as a separate policy for One Million Dollars and No/100 Dollars ($1,000,000.00) per occurrence; Two Million Dollars and No/100 Dollars ($2,000,000.00) aggregate.

(7) Business Interruption: Coverage shall be maintained in an amount sufficient to cover COUNTY's loss of revenues or consequential damages for the period of time it would take to repair or replace the damage or loss that caused said loss or damage.

(b) Waiver of Subrogation/Cause of Action. DEVELOPER agrees to waive any rights of recovery against the COUNTY for damage or loss to DEVELOPER's property or other asset, and any loss of revenue or consequential damages, howsoever caused, and agrees to require appropriate waivers of subrogation from its insurance companies.

Developer shall be filed with the COUNTY as the Certificate Holder, before operations are commenced. The insurance indicated on the Certificate shall be subject to its approval for adequacy and protection. The certificate will state the types of coverage provided, limits of liability, and expiration dates. The COUNTY shall be identified as an Additional Named Insured for each type of coverage required by Section A (2) through A (6) above. The required certificates of insurance may refer specifically to this Agreement and the above sections in accordance with which such insurance is being furnished, and may state that such insurance is as required by such sections of this Agreement.

The DEVELOPER shall provide a Certificate of Insurance to the County with a thirty (30) days' notice of cancellation. In addition, the County will be shown as Additional Named Insured, with a Hold Harmless Agreement in favor of the COUNTY, where applicable. The certificate should also indicate if coverage is provided under a "claims made" or "per occurrence" form. If any coverage is provided under a claims made form, the certificate will show a retroactive date, which should be the same date as the Agreement (original date if Agreement is renewed) or prior.

If the initial insurance expires prior to the completion of work, renewal certificates and/or required copies of policies shall be furnished thirty (30) days prior to the date of their expiration.

Section 12. Removal and Restoration.

(a) Ownership of Equipment. Except as otherwise provided in this Agreement, the LFG Utilization Facility and related equipment shall remain the personal property and/or responsibility of DEVELOPER (collectively "DEVELOPER's Equipment"), notwithstanding the above, however, no equipment shall be removed that will affect the operations of the COUNTY's Flare Stations needed to remain in compliance with applicable federal, state, and local laws and regulations, and to control landfill gas migration and atmospheric emissions, including odors.

(b) Transfer of Ownership upon Expiration or Termination. Upon the expiration or termination of the Agreement, the below ground portions of the LFG Utilization Facility and the building shall become the personal property and responsibility of COUNTY. DEVELOPER shall have no further responsibility with respect to the below ground portions of the LFG Utilization Facility after DEVELOPER conveys title to such equipment, fee and clear of any encumbrances, liens or security interest.

Notwithstanding the above, within thirty (30) or (90)? days after the expiration or termination of this Agreement, , the DEVELOPER shall, at its sole expense, remove all LFG Utilization Facility and any associated Transmission equipment except for the building from the Landfill and return the LFG Utilization Facility Site to its original condition.

COUNTY to buy any portions of the LFG Utilization Facility. Should DEVELOPER fail to remove DEVELOPER's Equipment as required under this Section 12, such property shall be deemed abandoned and shall become the property of COUNTY. Should the COUNTY incur cost associated with the removal of abandoned equipment and/or site restoration associated with such abandonment, the DEVELOPER shall be liable for such cost. This liability shall expire twelve (12) months after the abandonment if the COUNTY has not notified the DEVELOPER in writing that site clean-up has been completed or is underway including the actual or estimated cost of such clean-up.

F

(c) Removal and Restoration Bond. Before starting and throughout the term of this Agreement, DEVELOPER shall procure and maintain a bond or financial security instrument under forms acceptable and approved by the COUNTY to ensure the removal of the DEVELOPER's facilities and the restoration of the land upon the expiration or termination of this Agreement. The amount of the bond or financial security instrument shall be Fifty Thousand and No/100 Dollars ($50,000.00).

Section 13. Force Majeure. If by reason of Force Majeure either party is unable to carry out, either in whole or in part, its obligations herein contained, such party shall not be deemed in default during the continuation of such inability, provided that:

(a) The non-performing party, as soon as possible but no later than two (2) weeks after the occurrence of the cause of the Force Majeure, gives the other party written notice describing the particulars of the occurrence; and

(b) The suspension of performance be of no greater scope and of no longer duration than is required by the Force Majeure; and

(c) No obligations of either party which arose prior to the occurrence causing the suspension of performance be excused as a result of the occurrence; and

(d) That the non-performing party endeavors to remedy with all reasonable dispatch the cause or causes preventing it from carrying out its obligations.

Neither party shall be required to settle strikes, lockouts, or other industrial disturbances by acceding to the demands of the opposing party or parties when such course is, in its judgment, not in its best interest. The fee required to be paid by DEVELOPER set forth in Section 6(b) shall not apply, and DEVELOPER shall be relieved of its obligation there from, so long as an event of Force Majeure has occurred and is continuing.

Section 14. Termination.

(a) DEVELOPER's Default. The failure of the DEVELOPER to comply with any provision of this Agreement shall place the DEVELOPER in default. Prior to terminating the Agreement, the COUNTY shall notify the DEVELOPER in writing.

The COUNTY shall provide the DEVELOPER thirty (30) days to propose a written remedy and schedule, which shall not be unreasonably withheld, delayed, or conditioned. If the COUNTY disapproves of DEVELOPER's proposed remedy and schedule, the COUNTY may, at its sole option, direct an alternative remedy and schedule or provide DEVELOPER with ninety (90) days prior written notice of termination.

Deleted: direct an

Events of default by DEVELOPER warranting termination by COUNTY shall include, but not be limited to, one or more of the following:

(1) the filing by or against DEVELOPER of a petition in bankruptcy or the complete cessation of the business operations of DEVELOPER;

(2) failure by DEVELOPER to pay the fees due the COUNTY pursuant to Section 6, Payment;

(4) failure by the DEVELOPER to maintain the LFG Utilization Facility, the COUNTY's Flare Station(s), and all associated DEVELOPER supplied equipment in good working order throughout the term of this Agreement;

(5) failure to operate the system or to maintain compliance with environmental regulations and noise limitation and odor control requirements;

(6) failure to pay for any damages assessed to the DEVELOPER;

(7) failure to commence Commercial Operations within eighteen (18) months from the effective date of this Agreement.

(b) Repeated Defaults by DEVELOPER. In the event that the DEVELOPER's record of performance shows that the DEVELOPER has frequently, regularly or repetitively defaulted in the performance of any of the material covenants and conditions required herein to be kept and performed by the DEVELOPER and regardless of whether the DEVELOPER has corrected each individual condition of default, the DEVELOPER may be deemed a "habitual violator" and all of said defaults may be considered collectively to constitute a condition of default. The COUNTY may thereupon issue the DEVELOPER a final warning citing the circumstances therefore, and any single material default by the DEVELOPER within one (1) year after said warning shall be grounds for termination of this Agreement. In the event of any such single subsequent default within one (1) year, the COUNTY may terminate this Agreement upon the giving of written final notice to the DEVELOPER. The COUNTY's Environmental Services Director shall be the sole authority to determine and deem the DEVELOPER as a "habitual violator".

(c) COUNTY's Default. The failure of the COUNTY to comply with any provision of this Agreement shall place the COUNTY in default. Prior to terminating the

make specific reference to the provision which gave rise to the default. The DEVELOPER shall provide the COUNTY thirty (30) days to propose a written remedy and schedule which shall set forth the specific timeframe for curing default. In the event of a default by the COUNTY, the COUNTY shall pay DEVELOPER an amount for capital expenditures for the LFG Utilization Facility consistent with Section 12(b) of the Agreement, or the DEVELOPER may remove the above ground portion of the LFG Utilization Facility at the DEVELOPER's option.

(d) Termination for Insufficient Quantities of LFG. Should the DEVELOPER determine, following LFG Utilization Facility start-up, that LFG can no longer be reasonably recovered from the Landfill in Commercial Quantities, DEVELOPER shall have the right to surrender and terminate this Agreement including its rights to the LFG upon ninety (90) days prior written notice to COUNTY. In the event of such termination by the DEVELOPER:

(1) the DEVELOPER shall continue to make payments to the COUNTY for the right to and use of the LFG in accordance with Section 6(b), whichever is in effect at the time, for a three (3) month period following notification of termination;

(2) the DEVELOPER shall continue to make payments for any monies due to the COUNTY for the sale of the Beneficial End Use Product and any other monies required by the provisions of this Agreement;

Section 15. Damages and Administrative Charges. Except where otherwise specifically provided, the measure of damages to be paid by the DEVELOPER to the COUNTY due to any failure by the DEVELOPER to meet any of its obligations under this Agreement shall be the actual damages incurred by the COUNTY. Said damages shall include, but shall not be limited to, the following damages:

(a) The COUNTY's Damages in the Event of Termination of DEVELOPER. If the COUNTY terminates this Agreement because of a default by the DEVELOPER, the DEVELOPER shall be liable to the COUNTY for all actual damages incurred by the COUNTY as a result of DEVELOPER's default.

(b)

(c) The COUNTY's Damages Due to DEVELOPER's Failure to Comply with Environmental Regulations. If the DEVELOPER fails to comply with any applicable environmental regulations, the DEVELOPER shall pay to the COUNTY the following:

COUNTY by any governmental agency charged with enforcement of environmental laws and regulations or judicial orders.

(2) The actual costs, including, but not limited to, legal, administrative and any associated fees, incurred by the COUNTY as a result of the failure to comply with the environmental regulations including any costs incurred in investigating and remedying the conditions which led to the failure to comply with the environmental regulations.

(d) Administrative Charges. The parties acknowledge and agree that it is difficult or impossible to accurately determine the amount of damages that would, or might, be incurred by the COUNTY due to those failures or circumstances described in this section of the Agreement and for which the DEVELOPER would otherwise be liable. Accordingly, administrative charges may be assessed against the DEVELOPER for the following failures to comply with the Agreement:

(1) If DEVELOPER fails to operate and perform the system within permit and/or regulatory requirements or standards, the COUNTY shall give Notice to the DEVELOPER of the foregoing failure. If the DEVELOPER fails to remedy the foregoing failure within two (2) days of the receipt of the Notice from the COUNTY, administrative charges in an amount equal to fifty (50%) of the "daily average payment" to the COUNTY for the sale of the COUNTY's LFG shall be assessed against the DEVELOPER per day until such time as the DEVELOPER has remedied the foregoing failure. If it is not possible to remedy the failure within two (2) days of receipt of the Notice, the DEVELOPER and COUNTY shall agree to a reasonable extended time-period. The "daily average payment" shall be based on normal historical operating days for the six (6) month period immediately preceding the COUNTY's Notice.

(2) If DEVELOPER fails to keep and utilize the LFG Utilization Facility at the levels of manpower and equipment necessary to adequately operate the system, the COUNTY shall give Notice to the DEVELOPER of the foregoing failure. If the DEVELOPER fails to remedy the foregoing failure within one (1) week of the receipt of the Notice from the COUNTY, administrative charges in the amount equal to fifty percent (50%) of the "daily average payment" to the COUNTY for the sale of the COUNTY's LFG shall be assessed against the DEVELOPER per day until such time as the DEVELOPER has remedied the foregoing failure. If it is not possible to remedy the failure within one (1) week of receipt of the Notice, the DEVELOPER and COUNTY shall agree to a reasonable extended time-period. The "daily average payment" shall be based on normal historical operating days for the six (6) month period immediately preceding the COUNTY's Notice.

(3) If DEVELOPER fails to supply information or reports required by the COUNTY and/or any regulatory agency within the timeframe agreed to by the COUNTY and/or regulatory agency, the COUNTY shall give Notice to the DEVELOPER of the foregoing failure. If the DEVELOPER fails to remedy the foregoing

charges in the amount of One Hundred and No/100 Dollars ($100.00) per day shall be assessed against the DEVELOPER until such time as the COUNTY determines that the DEVELOPER has remedied the foregoing failure. If it is not possible to remedy the failure within ten (10) day's receipt of the Notice, the DEVELOPER and COUNTY shall agree to a reasonable extended time-period.

Section 16. Representations and Warranties.

(a) Warranties of COUNTY. COUNTY hereby agrees, warrants, and represents to DEVELOPER, as of the date of execution of this Agreement, that:

(1) The COUNTY has not entered into any other agreements with respect to the LFG conveyed to DEVELOPER under this Agreement or with respect to any of the other rights conveyed to DEVELOPER pursuant to Section 2 of this Agreement. COUNTY warrants that DEVELOPER shall take the LFG free and clear of any liens or encumbrances. COUNTY hereby warrants to DEVELOPER that COUNTY has the title to the LFG Utilization Facility Site, access to the site, the Landfill, and the LFG.

(2) No part of the LFG project was financed by grants or subsidized energy financing and the energy credit was not claimed with respect to property used in such recovery Project.

(3) The execution and delivery of this Agreement and related documents have been duly authorized, and constitute legal, valid, and binding obligations of the COUNTY which are enforceable in accordance with their terms and do not violate any law, rule or regulation.

(4) As of the effective date of this Agreement, the solid waste that the COUNTY accepts for disposal within the solid waste disposal units is nonhazardous solid waste as defined by Chapter 62-701, F.A.C. COUNTY also covenants that during the term of the Agreement, COUNTY will continue to accept only nonhazardous solid waste or material deemed nonhazardous in nature as defined by Chapter 62-701, F.A.C.

(b) Warranties of DEVELOPER. DEVELOPER hereby agrees, warrants and represents to COUNTY, as of the date of execution of this Agreement, that

(1) DEVELOPER is a duly organized, validly existing entity in good standing under the laws of the State of Florida. DEVELOPER has all requisite corporate power to own its properties and to carry on the business that is now being conducted, to execute and deliver this Agreement and to engage in the transactions contemplated in this Agreement.

Agreement is within the corporate powers of DEVELOPER, have been duly authorized by all necessary corporate action, and do not violate any law, rule or regulation, or the terms of the articles of incorporation or bylaws of DEVELOPER.

Section 17. Assignment. The COUNTY and DEVELOPER shall bind themselves and their respective successors and assigns in all respects to all of the terms, conditions, covenants, and provisions of this Agreement. Neither party hereto may sell, assign or transfer this Agreement or any interest it may have hereunder, without prior written approval of the other party, such approval to be not unreasonably withheld, and provided that any such assignment shall not unduly interfere with the rights of the non-assigning party hereunder, and further provided that such assignee agrees to be bound by the terms of this Agreement to the same extent as assignor. In no event will assignment relieve the assignor of its obligations hereunder. Nothing herein shall be construed as creating any personal liability on the part of any officer or agent of COUNTY or DEVELOPER, nor shall it be construed as giving any right or benefit hereunder to anyone other than the COUNTY or the DEVELOPER.

Section 18. Notices. Any notice to be given under this Agreement shall be in writing and shall be deemed to have been properly given and received (i) when delivered in person to the authorized representative of the party to whom the notice is addressed, or (ii) on the date received as indicated on the prepaid certified or registered receipt when sent by prepaid mail, return receipt requested, to the party to be notified at the address indicated as follows:

To DEVELOPER:

Timberline Energy, LLC
15420 West Archer Drive
Golden, CO 80401

To COUNTY:

Hernando County

S

Either party may change such representative or address under this Agreement by providing written notice to the other party.

Section 19. Taxes. DEVELOPER shall, during the term of this Agreement, pay or arrange for the payment of all general taxes that may be levied upon or assessed against the system, facilities, equipment, machinery and improvements constructed or installed by it in, on, or adjacent to the Landfill. To the extent permissible by law, COUNTY shall recognize DEVELOPER's Equipment as an environmental pollution control system as defined under applicable tax laws and, therefore, shall be free from state sales taxes as provided by state statutes.

Section 20. Interest of Members of COUNTY and Others. No officers, members, or employees of the COUNTY, no member of its governing body, no other public official of the governing body of the locality or localities in which services for facilities under this Agreement are to be carried out, who exercise any functions or responsibilities in the review or approval of the undertaking or carrying out of this Project, shall participate in any decision relating to this Agreement which affects their personal interest, or have any personal interest, direct or indirect, in this Agreement or the proceeds thereof.

Section 21. Interest of DEVELOPER. DEVELOPER covenants that it presently has no interest and shall not acquire an interest, direct, or indirect, which shall conflict with the performances or services required to be performed under this Agreement. Developer further covenants that in the performance of this Agreement, the DEVELOPER shall employ no person having any such interest.

Section 22. Covenant against Contingent Fees DEVELOPER warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for DEVELOPER, to solicit or secure this Agreement, and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for DEVELOPER , any fee, commission, percentage, gift, or any other consideration contingent upon or resulting from the award or making of this Agreement. For the breach or violation of this section, the COUNTY shall have the right, but not the duty, to terminate this Agreement without liability, and, at its discretion, to deduct from the Agreement such price, or otherwise recover the full amount of such fee, commission, percentage, gift or other consideration.

Section 23. Potential Conflicts of Interest. DEVELOPER is specifically aware of, and concurs with, the public need for the COUNTY to prohibit any potential conflicts of interest that may arise as a result of the execution of this Agreement. As a result, DEVELOPER has extensively reviewed all of its contracts, letters of agreement, and any other indication of commitment on its behalf to perform services for any client other than Hernando COUNTY, which could in any way present the reasonable possibility of an actual conflict of interest with Hernando COUNTY. DEVELOPER has not identified any such contracts., y.

In view of the potential of this Agreement being a long-term contractual relationship between the parties, DEVELOPER specifically agrees to comply with the following organizational requirements in performing its services under this Agreement:

(a) Direct supervision of DEVELOPER employees and agents under this Project shall be given by BILL OWEN, and the designated Project Managers assigned to each specific Project.

(b) DEVELOPER specifically warrants and agrees that any and all information, concepts, policies and regulations relating to the Project under this

Project Team, except as may be affected by Chapter 119, Florida Statutes. No dissemination of any such information by DEVELOPER shall be made until after clear written authorization to do so has been granted by the COUNTY, except as may be otherwise required by law or directed by COURT Orders and except for disclosures to DEVELOPER's legal counsel or accountants. Notice of such disclosures permitted hereunder shall be immediately given to the COUNTY.

Section 24. Records and Audits. If federal funds are used for any work under this Agreement, the Comptroller General of the United States, or any of his duly authorized representatives, shall have access to any books, documents, papers, and records of DEVELOPER which are directly pertinent to work performed under this Agreement, for purposes of making audit, examination, excerpts, and transcriptions.

The COUNTY and its auditors shall be entitled to audit the books and records of the DEVELOPER to the extent that such books and records relate to the performance of this Agreement. DEVELOPER agrees to maintain such records and accounts including all books, documents, papers, financial records and other evidences pertaining to work performed under this Agreement. Said records shall be made available at its office at all reasonable time during the term of this Agreement, and for three (3) years from the date of final payment under this Agreement, for audit or inspection by the COUNTY, or any of its duly authorized representatives, unless a shorter period is authorized by the COUNTY in writing.

Section 25. Equal Opportunity Employment. DEVELOPER agrees that it will not discriminate against any employee or applicant for employment for work under this Agreement because of race, color, religion, sex, age, national origin, or disability and will take affirmative steps to ensure that applicants are employed and employees are treated during employment without regard to race, color, religion, sex, age, national origin, or disability. This provision shall include, but not be limited to, the following: employment, upgrading, demotion or transfers; recruitment advertising; lay-off or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

Section 26. Claims for Services. No claim for services rendered by DEVELOPER not specifically provided for in this Agreement will be honored by the COUNTY.

Section 27. Severability. If any of the provisions contained in this Agreement are held for any reason to be invalid, illegally, or unenforceable, such a holding shall not affect any other provision, and this Agreement shall be construed as if such invalid, illegal, or unenforceable provision had never been contained herein.

Deleted: illegaly

Deleted: holdingshall

Section 28. Modifications or Amendments in Writing. No modification, amendment or alteration in terms or conditions contained herein shall be effective unless contained in a written document executed by the parties with the same formality as herein.

(a) Headings. The headings appearing in this Agreement are intended for convenience and reference only, and are not to be considered in construing this Agreement.

(b) Disclaimer of Joint Venture, Partnership and Agency. This Agreement shall not be interpreted or construed as creating an association, joint venture or partnership between COUNTY and DEVELOPER or Buyer or to impose any partnership obligation or liability upon such parties. Neither COUNTY nor DEVELOPER or Buyer shall have any right, power or authority to enter into any agreement or undertaking for, or act on behalf of, or to act as or be an agent or representative of, or to otherwise bind, another party.

(c) Governing Law. All questions with respect to the construction of this Agreement and the rights and liabilities of the parties hereunder shall be determined in accordance with the laws of the State of Florida. Venue shall be in Hernando COUNTY, Florida.

(d) Amendment to Agreement. The COUNTY and DEVELOPER agree that this Agreement sets forth the entire agreement between the parties, and that there are no promises or understandings other than those stated herein. None of the provisions, terms and conditions contained in this Agreement may be added to, deleted, modified, superseded or otherwise altered, except by written amendment executed by the parties hereto. Such amendment(s) are not valid, binding and enforceable unless signed by the Board of County Commissioners or by a COUNTY representative duly authorized by the Board of County Commissioners.

(e) Successors and Assigns. All of the terms and provisions of this Agreement shall be binding upon and shall inure to the benefit of and be enforceable by the parties hereto and their respective successors and permitted assigns.

(f) DEVELOPER Right to Utilization Facility Design. It is acknowledged that the DEVELOPER and Buyer have or will have expended considerable time and expense in developing the design for the LFG Utilization Facility and associated electrical transmission, steam or LFG transmission lines, and, therefore, could consider such design to be proprietary. The COUNTY agrees on behalf of itself and its agents and representatives to maintain the proprietary nature of the design by not constructing like facilities without the written approval of the DEVELOPER and Buyer.

(g) Remedies Not Exclusive. The remedies in this Agreement are not exclusive and supplement any other remedies provided at law or in equity.

(h) Order of Precedence. In resolving inconsistencies among (2) or more components of this Agreement, precedence shall be given in the following order:

MEMORANDUM

TO: The Honorable Chairperson and Members of the Hernando County Board of County Commissioners

VIA: Gary Kuhl, County Administrator
Kent Weissinger, Hernando County Attorney's Office
Jim Gantt, Purchasing Department

FROM: David W. Horne, Assistant Utilities Director

DATE: March 6, 2007

Subj: Landfill Gas Project

BRIEF OVERVIEW:
Staff is requesting that the Board approve the execution of an unsolicited proposal contract from Timberline Energy, LLC of Golden, Colorado for the purchase of the landfill methane gas being generated at the Hernando County Northwest Solid Waste Facility Landfill. The gas will be utilized as an energy source within Hernando County at the site of Florida Rock.
The Hernando County Solid Waste Department is scheduled to install a gas flare during the construction phase of cell 3. This proposal and its timing are perfect relative to the landfill construction project.

BUDGET IMPACT:
No capital or operating costs to the County for the gas recovery system.
Projected annual revenues to the County are approx. $70,000/yr.
This equates to approx. $45K/yr for the gas and another $24K/yr in royalty payments. As the landfill continues to generate larger volumes of methane gas, revenues will continue to increase.

LEGAL IMPACT:
The County Attorney's office has reviewed the proposal and finds it to be in good order and the terms of the proposal are in the county's best interest. Per the Purchasing Department, Mr. Jim Gantt, the gas can be sold under the "disposal of surplus" statutes.

RECOMMENDED ACTION:
Staff recommends that the BOCC approve the execution of this contract. As a result of doing so, the County will immediately start generating revenues of $2,000/mo until the landfill gas system is operational.

NOTICE OF INTENT TO CONTRACT FOR DISPOSAL OF SURPLUS CONSUMABLE PROPERTY (LANDFILL GAS)

NOTICE IS HEREBY GIVEN, that the Hernando County Board of County Commissioners ("Board") will consider approval of a contract to sell certain surplus consumable property (landfill gas) to the proposer of the contract, on **April 17,2007, at 9:00 a.m.**, or as soon thereafter as the matter may be heard, at a regularly scheduled meeting in the Board meeting room of the Government Center, 20 N. Main Street, Brooksville, Florida. The circumstances and essential terms of the contract are as follows:

The County's Solid Waste Division has received an unsolicited proposal contract from Timberline Energy, LLC of Golden, Colorado, for the purchase of the landfill methane gas being generated at the Hernando County Northwest Solid Waste Facility Landfill. The gas is to be used as an energy source within Hernando County at the site of Florida Rock. Certain off-site infrastructure NOT owned by the County is in place to facilitate gas transport. The contract as proposed requires no capital or operating costs to the County for the gas recovery system. Projected annual revenues to the County would approximate $70,000/year, or about $45,000 for the gas and another $24,000 in royalty payments, with revenues increasing as landfill gas output increases.

YOU ARE FURTHER ADVISED that the proposed contract may be inspected and copied during regular business hours by contacting David Horne, Solid Waste Director, Northwest Solid Waste Management Facility, 14450 Landfill Road, Brooksville, FL 34614, (352) 754-4112. Although not required by law or ordinance, staff to the Board has elected to treat this proposal in a manner similar to the procedure for sale of real property pursuant to s. 2-140, Hernando County Code of Ordinances. Accordingly, the Board will consider all written offers to purchase the described property and has the power to determine which of two or more competing written offers provide the most favorable combination of price and terms as to serve the best interest of the County, in the sole discretion of the Board.

Any such competing written offers must be received by the above-named custodian of the proposed contract at the address and location stated, prior to 9:00 a.m., April 16, 2007. Interested persons, whether making an offer or not, may submit comments or objections in writing for circulation to Board members prior to the regular meeting at which action is scheduled by mailing or delivering such comments or objections to the Hernando County Board of County Commissioners, 20 N. Main Street, Room 460, Brooksville FL 34601, with copies to David Horne, Solid Waste Director, 14450 Landfill Road, Brooksville, FL 34614; and to Kent L. Weissinger, Assistant County Attorney, 20 N. Main St., Room 462, Brooksville FL 34601.

The Board shall consider any and all offers to purchase the above described surplus consumable property at the time and place set forth above, on the date set forth above. The Board reserves the right and power to postpone consideration of any and all offers to another date, time and place announced at the advertised meeting, and no further advertisement or publication shall be required.

BOARD OF COUNTY COMMISSIONERS, HERNANDO COUNTY, FLORIDA
/s/ Karen Nicolai (002316732)
Karen Nicolai, Clerk

LANDFILL GAS PURCHASE AGREEMENT

THIS LANDFILL GAS PURCHASE AGREEMENT ("Agreement"), made and entered into this 27th day of March, 2007, by and between **TIMBERLINE ENERGY, LLC,** a Delaware Limited Liability Company, doing business at 14520 West Archer Drive, Golden, Colorado, 80401, hereinafter referred to as the "DEVELOPER" and **HERNANDO COUNTY,** a political subdivision of the State of Florida, by and through its Board of County Commissioners, whose address is 20 N. Main Street, Room 460, Brooksville, Florida 34601 Florida hereinafter referred to as "COUNTY";

WITNESSETH:

WHEREAS, the COUNTY is authorized to construct, acquire, improve, maintain, and operate its Solid Waste Management Facilities in the COUNTY; and

WHEREAS, the COUNTY has constructed an active landfill gas ("LFG") collection and flaring system at the Hernando County Northwest Solid Waste Management Facility ("Landfill") in order to remain in compliance with applicable federal, state, and local laws and regulations, and to control landfill gas migration and atmospheric emissions, including odors; and

WHEREAS, the COUNTY plans to construct subsequent expansions to the LFG Management System; and

WHEREAS, the COUNTY recognizes that the use of recovered LFG is of environmental and economic benefit to the COUNTY; and

WHEREAS, the COUNTY desires to enter an Agreement with the DEVELOPER whereby the DEVELOPER would make certain payments to the COUNTY for the rights to and sale of LFG to a Buyer.

NOW, THEREFORE, in consideration of the premises and mutual promises and conditions contained herein, it is mutually agreed between the parties as follows:

Section 1. Definitions. Unless the context indicates otherwise, as used herein, the terms set forth below shall be defined as follows:

(a) Beneficial End Use Product means products derived from LFG that may include, but are not limited to: processed LFG, pipeline quality LFG, electric power, thermal energy, CO_2, or any two or more of the foregoing. The use of such products shall result in a tangible financial gain for the COUNTY.

(b) British Thermal Unit (BTU) means the quantity of heat necessary to raise the temperature of one pound of water one degree Fahrenheit, for example from 58.5 to 59.5 degrees Fahrenheit, under standard pressure of 30 inches of mercury at or near its

point of maximum density. One BTU equals 252 calories, (gram), 778 foot-pounds, 1,055 joules, 2.931 10^{-4} kWh, or .293 watt hours.

(c) BTU per Cubic Foot means a measure of the heat available or released when one cubic foot of gas is burned. Landfill Gas has an expected value of 500 to 600 BTU per Cubic Foot.

(d) Buyer means the party or parties to which DEVELOPER will sell a Beneficial End Use Product derived from the recovery and/or processing of LFG.

(e) Commercial Operations means from the date when the DEVELOPER's LFG Utilization Facility begins deliveries of a Beneficial End Use Product to a Buyer.

(f) Commercial Quantities means an economically viable quantity of LFG (minimum of one (1) standard cubic feet per minute (scfm) provided by the COUNTY at the Delivery Point pursuant to this Agreement).

(g) Condensate means the liquid formed from the condensing of the vapors that occurs during the collection, transportation, and processing of LFG.

(h) Day means a calendar day.

(i) Delivery Point(s) means the point(s) at which the LFG enters the DEVELOPER's header or connection piping for delivery to the DEVELOPER's LFG Utilization Facility. The point(s) are located at or near the COUNTY's Flare Station facilities.

(j) Flare Stations means the equipment and appurtenances used to incinerate LFG. The Flare Stations are used to incinerate LFG in conformance with applicable federal, state, and local rules and regulations, and to control odors.

(k) Force Majeure means acts of God; winds, hurricanes, tornadoes, fires, epidemics, landslides, floods; strikes, lock-outs, acts of public enemies; insurrections; explosions; a change in law not due to improper conduct or to any negligent or intentional act or omission; or any cause or event, not reasonably within the control of the party claiming Force Majeure except for the financial inability of such party caused by factors other than any of the foregoing.

(l) Heating Value means the amount of heat produced by the complete combustion of a unity quantity of fuel. The gross or higher heating valve (HHV) is that which is obtained when all of the products of combustion are cooled to the temperature existing before combustion, the water vapor formed during combustion is condensed, and all the necessary corrections have been made. The net or lower heating valve (LHV) is obtained by subtracting the latent heat of vaporization of the water vapor, formed by the combustion of the hydrogen in the fuel, from the gross or higher healing value.

(m) Landfill means the Hernando County Northwest Solid Waste Management Facility located at14450 Landfill Road, Brooksville, Florida where Class I and Class III wastes are permanently deposited in solid waste disposal units.

(n) Landfill Gas (LFG) means any and all gases resulting from the decomposition of refuse material within the Landfill, consisting principally of methane, carbon dioxide and traces of other constituent gases.

(o) LFG Management System means the network of LFG recovery wells and interconnecting pipes together with attendant valves, condensate sumps and pumps, monitoring devices and other related equipment installed for the purpose of extracting, collecting, and transporting LFG to the Delivery Point(s).

(p) LFG Purchase Agreement means this Agreement between the COUNTY and DEVELOPER for: the construction and operation of DEVELOPER's LFG Utilization Facility; the connection to the Delivery Point(s) for the recovery and utilization of LFG; and the purchase of the LFG provided by the COUNTY at the Delivery Point(s).

(q) LFG Utilization Facility means the DEVELOPER's building or enclosure and equipment required for the processing and delivery of the Beneficial End Use Product to the Buyer, such equipment may include, but is not limited to, compression equipment, an oil and gas cooler, a condensate knockout tank, scrub areas, generating equipment, electric generation and related facilities.

(r) LFG Utilization Facility Site means an area located within the Landfill property upon which the DEVELOPER may access, install, and construct the LFG Utilization Facility. The LFG Utilization Facility Site shall be at a site mutually agreed to by the COUNTY and DEVELOPER.

(s) Leachate means the liquid that has passed through or emerged from solid waste and may contain soluble, suspended, or miscible materials.

(t) Utility Interface (i) in the case where LFG is used to generate electric power, this term shall mean the step-up transformer, metering facilities, protection circuitry, transmission lines, poles, and any other equipment necessary to interconnect the LFG Utilization Facility with the grid of the electric utility in whose franchise area the Landfill is located, or (ii) in the case where LFG is converted to other beneficial products, this term shall mean the metering facilities, pipelines, valves and any other equipment necessary to interconnect the LFG Utilization Facility with the transmission or distribution pipelines or other facility of the electric utility, pipeline company, or other Buyer.

Section 2. Rights Granted to DEVELOPER. Subject to the limitations and other provisions of this Agreement, COUNTY hereby grants to DEVELOPER the following:

(a) Landfill Gas. Developer has the right and license to connect, process, sell, and utilize the LFG that is generated from the Landfill and other contiguous landfill expansion areas and delivered to the Buyer during the term of this Agreement. It shall be the DEVELOPER's responsibility to connect and utilize all LFG made available by the COUNTY for direct sale as fuel or conversion to a Beneficial End Use Product for sale to a Buyer. Title to and risk of loss for the LFG will pass to Buyer. DEVELOPER shall have the exclusive right to claim and utilize any emission allowances and reduction credits that may be associated with LFG.

(b) Site of LFG Utilization Facility. In accordance with the provisions of this Agreement, the COUNTY will make available to DEVELOPER an area located within the Landfill property mutually agreeable to the COUNTY and DEVELOPER an area located within the Landfill property mutually agreeable to the COUNTY and DEVELOPER, by license, as required by DEVELOPER for construction of a LFG Utilization Facility and site improvements, commencing as of the effective date of this Agreement and terminating at the termination of this Agreement. COUNTY hereby covenants (i) that it has title to the LFG Utilization Facility Site in fee and (ii) that DEVELOPER shall have exclusive use of the LFG Utilization Facility Site during the term of this Agreement so long as DEVELOPER is not in default of its obligations under this Agreement.

(c) Access. COUNTY will make available to the DEVELOPER access to the LFG Utilization Facility Site for construction, installation, operation, and maintenance of the DEVELOPER's supplied facility equipment, transmission lines, sewer, electric, water, and telephone lines that are necessary for the operation of the facility.

Section 3. Obligations of COUNTY.

(a) Obligation. The Developer will design and install the initial wells and collection system. The COUNTY shall design, construct, upgrade, expand, operate, and maintain the LFG Management System and provide additional blowers and flares to the COUNTY's Flare Stations as needed to maintain compliance with federal and state regulations. The COUNTY will consult with the DEVELOPER on the placement and configuration of the LFG extraction wells and other equipment required to meet such regulations, in an effort to enhance the beneficial use of the LFG and the overall operation of the LFG Management System. The DEVELOPER's comments shall not be binding on the COUNTY.

Subject to these limitations and other provisions of this Agreement, COUNTY shall:

(1) Cooperate in the construction, development, and operation of the Landfill so as to enhance the production of LFG, while controlling odors and maintaining compliance with all applicable regulations;

Deleted: cooperate

(2) Not interfere with the DEVELOPER's operation and maintenance of the LFG Utilization Facility, providing DEVELOPER is complying with all applicable laws and regulations;

Deleted: not

(3) instruct its independent contractors, agents and employees to comply with Sections 3(a) (1) and (2) described above;

Deleted:)(

(4) Promptly repair at its expense, major cracks, fissures, erosion or physical changes in the Landfill which have an adverse effect on the production of LFG or on the LFG Management System in accordance with applicable LFG regulations;

Deleted: promptly

(5) comply with applicable federal, state and local laws, rules, ordinances and regulations relating to or regulating the construction and operation of the Landfill except for said responsibilities of the DEVELOPER as established under this Agreement; and

(6) maintain consistent cover on the Landfill to meet current federal and state requirements.

(b) Access to the DEVELOPER's Facilities. Access to the DEVELOPER's LFG Utilization Facility shall be by the established entranceway to the Landfill via the scalehouse. The COUNTY shall take appropriate steps to ensure that this access route to the LFG Utilization Facility is available to the DEVELOPER at all times (i.e., 24 hours per day, 7 days per week). When utilizing the access route, the DEVELOPER shall abide by all of the applicable policies and safety regulations of the COUNTY. In certain cases, such as ..., the COUNTY will notify the DEVELOPER of the need to enter the DEVELOPER's premises.

(c) Documents. As reasonably requested by DEVELOPER, COUNTY shall:

(1) allow DEVELOPER to inspect, in accordance with Chapter 119, Florida Statutes, any documents in its possession regarding LFG production from the Landfill, the quantity, age, and type of refuse in the Landfill, tipping records, etc.; and

(2) allow DEVELOPER to inspect, in accordance with Chapter 119, Florida Statutes, any environmental information, environmental impact reports or studies, permits or permit applications, zoning information including variances or variance applications, and any other available data relating to the Landfill and COUNTY's or DEVELOPER's activities contemplated in this Agreement, and allow DEVELOPER to copy any such material or documents as may be in COUNTY's possession.

(d) Good Faith. COUNTY shall perform its obligations hereunder in good faith and acting reasonably, cooperate with DEVELOPER so that DEVELOPER can meet its responsibilities and obligations under this Agreement.

(e) Caveats. Notwithstanding any portion of this Agreement to the contrary, it is understood and agreed to by DEVELOPER that the COUNTY does not warrant or guarantee the rates of production, the chemical composition, or heating content of the LFG from the Landfill. DEVELOPER is relying on its own calculations and evaluation of the Landfill in this regard.

Section 4. Obligations of DEVELOPER. Deleted: of DEVELOPER

(a) Obligations. The operation of the LFG Utilization Facility and any other activity of DEVELOPER shall not interfere with the management and operational requirements of the Landfill. The DEVELOPER shall design, construct, operate, and maintain the initial gas wells and gas collection system portion of the LFG Management System. The County shall be responsible for providing blowers and flares to the COUNTY's Flare Stations as needed to maintain compliance with federal and state regulations. The DEVELOPER will consult with the COUNTY on the placement and configuration of the LFG extraction wells and other equipment.

(b) LFG Utilization Facility. DEVELOPER shall, at its sole expense, permit, design, install, construct, operate, replace, expand, upgrade, and maintain the LFG Utilization Facility required for the processing and delivery of the Beneficial End Use Product to the Buyer. The design, installation, construction, operation, replacement, expansion, upgrade, if any, and maintenance of such LFG Utilization Facility shall be in accordance with federal, state, and local requirements, and industry standards.

(c) Delivery Point(s). DEVELOPER shall, at its sole expense, provide and install:

(1) Header piping, connection piping, valves, pipe supports, and any other auxiliary items from the DEVELOPER's LFG Utilization Facility to the Delivery Point(s).

(2) A tee, valve, and blind flange at the Delivery Point(s) for the purpose of connecting to the COUNTY's LFG Management System.

(3) Any needed blower booster(s) or blower(s) to manage the flow of LFG from the Delivery Point(s) to the LFG Utilization Facility.

(4) For the COUNTY's use, the DEVELOPER, at its own expense shall install, operate and maintain flow meter(s), , and continuous recorder near the Delivery Point(s) for the purpose of determining the quantity and methane content of LFG delivered to the DEVELOPER. The COUNTY and DEVELOPER shall mutually select the final location for the flow meter(s). Flow meter(s) shall be calibrated quarterly by the COUNTY's representative certified to perform such calibrations. The DEVELOPER may independently pay for calibration of the meter(s) by a third party certified to perform such calibrations with consent from the COUNTY. The DEVELOPER shall analyze the COUNTY's LFG daily for the content of methane and Deleted: flowmeter

other constituents deemed necessary by the parties. Periodically, the COUNTY may independently arrange and pay for the sampling and analysis of the gas by an appropriately certified laboratory. If the County's and the DEVELOPER's analysis differ by less than ten percent (10%), the results shall be averaged for purposes of this section. If the results differ by more than ten percent (10%), the COUNTY and the DEVELOPER shall arrange for sampling by a mutually agreed upon third party laboratory.. The COUNTY and the DEVELOPER shall share equally in the cost of the third party laboratory.

(d) Commercial Operations. DEVELOPER shall commence Commercial Operations within 18 months from the effective date of this Agreement.

(e) Operations. In addition to the following, DEVELOPER shall operate the LFG Utilization Facility in accordance with the Wellfield Maintenance Agreement of even date herewith attached hereto and incorporated herein as Exhibit "A". DEVELOPER shall:

(1) Operate the LFG Utilization Facility, and all associated DEVELOPER supplied equipment in a prudent manner in accordance with good engineering practices and in a manner consistent with industry standards.

(2) Maintain the LFG Utilization Facility, COUNTY's Flare Station(s), and all associated DEVELOPER supplied equipment in good working order throughout the term of this Agreement.

(3) Repair the LFG Utilization Facility, COUNTY's Flare Station(s), and all associated DEVELOPER supplied equipment, as necessary, to restore normal operations and system redundancies to ensure compliance with the terms of this Agreement.

(4) Maximize the use of the available LFG from the COUNTY and sell and deliver Beneficial End Use Product to a Buyer.

(5) Maintain a constant and balanced draw from the COUNTY's LFG Management System in order for the COUNTY to maintain a balance of their system.

(6) Maintain air emissions generated by the operations to any applicable standards or permits.

(7) Flare all LFG that may be available due to excess quantity, scheduled and unscheduled maintenance, or shut-off by Buyer. Meet permit requirements, control odors, operate, repair, and maintain the COUNTY's Flare Station(s).

(8) Control on-site odors from the DEVELOPER's facilities in order to control on-site and off-site impacts in accordance with applicable standards, ordinances, permits, rules and regulation.

(9) Maintain noise levels from the operation of the DEVELOPER's facilities at any point of the Landfill site boundary in accordance with Section 30.1302 of the COUNTY's landfill operation.

(10) Control and dispose of all wastes generated from the DEVELOPER's facilities according to current environmental regulations, including gas condensate and waste cooling water.

(11) Comply with all applicable federal, state, and local laws, rules, ordinances and regulations and any other said responsibilities of the DEVELOPER as established under this Agreement.

(12) Provide information to COUNTY, as necessary, for COUNTY to comply with New Source Performance Standards (NSPS) reporting requirements, or other regulatory reporting requirement.

(13) Comply with annual inspection and implement recommendations made by the COUNTY's consulting engineer on annual inspection of the flare and facility property.

(f) Good Faith. DEVELOPER shall perform its obligations hereunder in good faith and acting reasonably, cooperate fully with COUNTY so that COUNTY can meet its responsibilities and obligation under this Agreement. DEVELOPER shall comply with all laws and regulations applicable to the work being performed under this Agreement.

(g) Design Review. DEVELOPER shall submit to COUNTY for review, comment and approval all design documents relating to the implementation of this Agreement including plans, specifications and drawings for the procurement, installation, and construction of the LFG Utilization Facility during the term of this Agreement. Any such review, comment and approval will not be unreasonably withheld. The purpose of such review is to ensure that the facilities constructed on the COUNTY's property will not interfere with the COUNTY's operations, and will comply with all applicable laws (e.g., permitting, zoning, and environmental requirements), as well as the provisions of this Agreement. The COUNTY shall not have the right to review or approve any proprietary information, or to approve the detailed terms of DEVELOPER's design documents, but COUNTY may provide comments to DEVELOPER on such design, and DEVELOPER agrees to make such changes as may be necessary to comply with COUNTY's requirements. If changes to these design documents are made, DEVELOPER will submit such changes to the COUNTY for review and COUNTY shall notify DEVELOPER in a reasonable time (such time in no event to exceed thirty (30) days) of its comments on such changes. Any recommendation of rejection shall be reasonable, based on the design standards set forth in this Agreement and accompanied by a detailed

Deleted: deisgn

explanation of the reasons for the rejection. County will also propose reasonable alternatives to DEVELOPER to eliminate the reasons for the rejection. COUNTY and DEVELOPER recognize that delays in the construction of these systems may delay DEVELOPER's construction schedule. Therefore, COUNTY and DEVELOPER agree to exercise reasonable efforts to expedite the review and approval process. DEVELOPER will provide COUNTY with a complete set of "as built" plans for the DEVELOPER's LFG Utilization Facility. The review process described in this paragraph does not relieve the DEVELOPER of its obligations to obtain the required building permits and site plan review approval, or any other local, state or federal approvals required for the DEVELOPER's LFG Utilization Facility.

Neither the COUNTY's authority to review and approve design documents relating to the implementation of this Agreement nor any decision made by the COUNTY in good faith in conjunction with such review and approval shall give rise to any duty or responsibility of COUNTY to DEVELOPER, any subcontractor, any supplier, or any other person or organization performing any of the work, or to any surety for any of them.

The COUNTY's actions pursuant to this section shall not create any vested rights for the DEVELOPER. Nothing in this Agreement shall be construed to eliminate the need for the DEVELOPER to comply with all applicable laws and regulations.

(h) Permits. DEVELOPER shall, at its own expense, prepare and file permit applications and diligently prosecute the processing of such permit application for the purpose of obtaining all environmental and other permits which are required under applicable local, state, and federal laws and regulations for the construction, installation, and operation of the LFG Utilization Facility, associated electrical transmission lines, an/or steam, or LFG transmission pipelines, on and off-site. In connection therewith, the COUNTY agrees to make available to the DEVELOPER all known public records within the COUNTY's possession of environmental information reports, environmental impact reports, air impact assessment studies, copies of all environmental applications filed, and other available data relating to and used in connection with obtaining any environmental permits necessary for the installation and operation of any equipment or the conducting of any other activities at the Landfill.

Any permit modifications or applications that may affect existing COUNTY permits shall be submitted to the COUNTY for review and comment prior to submission to the applicable regulatory agency. The DEVELOPER shall incorporate any comments from the COUNTY subsequent to final review by the COUNTY and re-submit to COUNTY for final approval, authorization, and signature.

Deleted: to the

(i) Laws and Regulations. The DEVELOPER must agree to abide by and conduct its programs and provide its services in compliance with the applicable provisions of:

- Florida Worker's Compensation Statutes and Regulations, Florida Statutes, Chapter 440 and Florida Administrative Code (F.A.C), Rule 38F
- Florida Workplace Safety and Health Regulations, F.A.C – Rule 38I
- Federal Civil Rights Act of 1866
- Federal Civil Rights Act of 1871
- Federal Equal Pay Act of 1963
- Federal Civil Rights Act of 1964
- Federal Age Discrimination and Employment Acts of 1967
- Federal Rehabilitation Act of 1973
- Federal Americans with Disabilities Act of 1990
- Federal Civil Rights Act of 1991
- Florida Civil Rights Act of 1992
- American National Standards Institute
- National Fire Protection Association
- Occupational Safety and Health Act, Code of Federal Regulation, Chapter 29, Parts 1910 and 1926, General Industry Standards and Construction Industry Standards, as amended, with particular attention to the Hazard Communications, Trenching and Shoring and Confined Space Entry Standards.
- All other applicable ordinances, statutes, laws and amendments thereto.

The DEVELOPER is presumed to be familiar with all applicable federal, state and local laws, ordinances, code rules and regulations that may in any way affect the work.

(j) Site Security. The LFG Utilization Facility Site shall be fenced and gated and locked during construction and operations. The fencing shall contain signage on each side, warning of any hazards and providing telephone numbers for notification of emergency situations. Employees of the COUNTY shall not be permitted on the LFG Utilization Facility Site, except in the event of an emergency or disaster, unless accompanied by an authorized employee of the DEVELOPER. Subject to the exemptions included in this subsection for entry onto the LFG Utilization Facility Site, the COUNTY's employees shall not enter the site unless:

(1) DEVELOPER's employee is on the site at the same time, or

(2) DEVELOPER requests assistance from the COUNTY or a duly authorized representative, or

(3) It is necessary for the COUNTY to collect samples from the discharges of the DEVELOPER's facility, or

(4) A situation that requires immediate attention. The COUNTY will notify the DEVELOPER within 24 hours of entrance onto the DEVELOPER's site.

The fencing, gating, and site security requirements of this subsection shall be limited to the DEVELOPER's LFG Utilization Facility Site.

(k) Project Plan. The DEVELOPER must prepare and submit to the County a preliminary Project Plan for the LFG Utilization Facility Project, during the construction process. The Plan will cover a number of aspects of the DEVELOPER's operations and will include at a minimum;

- Testing requirements for startup of the LFG Utilization Facility;
- LFG Utilization Facility Operating Plan that demonstrates at a minimum the facility's ability to process the initial LFG flows (LFG available from the COUNTY at startup of the Facility) from the Landfill;
- Reporting requirements to governmental agencies for permits associated with LFG Utilization Facility;
- Testing and monitoring procedures of the LFG Utilization Facility to assure compliance with permit conditions;
- An Emergency, Disaster and Safety Plan

The Project Plan will be finalized and accepted by the County prior to the startup of the LFG Utilization Facility. Once accepted by the COUNTY, the DEVELOPER is obligated to adhere to the Plan. Deviations from the plan are only permissible if they are made in writing to the COUNTY and accepted in writing by the COUNTY. Operations will commence after completion of the startup period and approval of the Project Plan by the COUNTY.

(l) Project Schedule. The DEVELOPER shall be responsible for developing and keeping current a project schedule for each of the elements of the LFG Utilization Facility construction which show: the sequence of project development, permitting, design, construction, startup, and commencement of operations, system testing, and monitoring, and reporting to governmental agencies. The COUNTY will review and accept the Project Schedule before any construction shall commence. The COUNTY will be informed of monthly progress and changes in the schedule by the DEVELOPER.

Deleted: commencement

(m) Transmission Line. Any off-site pipeline or transmission line to the Buyer's premises shall comply with and be included within the requirements and liabilities assumed by the DEVELOPER under this Agreement. Any portion of the pipeline or transmission line on public right of way shall be clearly marked according to industry or governmental standards. The depth of the pipeline or transmission line shall comply with local permitting code and/or State law whichever is applicable.

Section 5. Term.

(a) Agreement Term. This Agreement shall have a term of twenty (20) years which shall begin on the date when the DEVELOPER commences Commercial Operations of the LFG Utilization Facility, consistent with the provisions of this Agreement. At the end of the term, this Agreement shall terminate, unless extended by mutual written agreement of the COUNTY and DEVELOPER, provided that the party

wishing to extend gives the other at least one hundred eighty (180) days written notice of such desire. The term of this Agreement also may be extended if and when the COUNTY adds additional LFG extraction wells in the Landfill and the DEVELOPER agrees to expend additional capital funds to increase the capacity of its LFG Utilization Facility, provided the COUNTY and the DEVELOPER consent in writing to the extension. If the County does not renew the agreement then the DEVELOPER will be reimbursed for the cost of the wells and collection system installed by DEVELOPER.

(b) Effective Date. This agreement shall become effective on the day it is executed by a duly authorized representative of the COUNTY. Until the effect date, this Agreement shall be of no force or effect.

Section 6. Payment.

(a) Initial Payment for LFG Rights. DEVELOPER shall pay the COUNTY a lump sum of Five Thousand and No/100 Dollars ($5,000.00) within ninety (90) days of the effective date of this Agreement, or upon financing the LFG Utilization Facility, whichever comes first. This lump sum payment to the COUNTY shall constitute the DEVELOPER's payment for an exclusive right to and use of LFG from the Landfill.

(b) Payment for LFG Delivered. DEVELOPER shall pay the COUNTY a 3% royalty for all gross revenue derived from the sale of the landfill gas, CO2, emissions credits or other products. The royalty shall increase to 6% for all landfill gas btu's above 110,000 btu/year.

(c) If the Developer is operating the wells and gas collection system, the Developer will deducted $2,000/month from the royalty payment. However at no time will the royalty payment minus the $2,000/month deduction be less than $1,000/month.

(e) Payment Due Date. All monies due to the COUNTY on a monthly payment basis shall be payable in arrears along with documentation of revenues monthly payment are due on or before the twenty-fifth (25^{th}) day of the calendar month following the month in which DEVELOPER actually receives revenues from its sale of the Beneficial End Use Products converted from the LFG from the Landfill. The COUNTY shall have the right to inspect, copy, and audit during reasonable business hours the sale journal and any other pertinent books and records of the DEVELOPER relating to the calculations of the revenues upon which the payment of LFG delivered will be based or any other payment to the COUNTY. If the above indexes are not available for any reason, the parties shall mutually agree on the use of a replacement index or indexes.

(f) Tax and Emission Credits. If any federal, state, or local tax or emission credits become available, DEVELOPER shall pay a fee to the COUNTY for any tax or emission credits received by the DEVELOPER for the LFG Utilization Facility. The fee shall be equal to the royalty amount.

(g) Utility Interface Costs. The DEVELOPER is solely responsible to pay for all utility interface costs.

Section 7. Financing. COUNTY acknowledges that DEVELOPER may desire to finance some or all of the equipment or personal property required to undertake work to be performed under this Agreement and hereby consents to any encumbrance or lien on the machinery, equipment, fixtures, and buildings that make up the LFG Utilization Facility and Utility Interface for the purpose of obtaining such financing, provided:

(a) DEVELOPER shall give COUNTY notice of the existence of such encumbrance or lien together with the name and address of the holder of such encumbrance or lien, and a copy of the encumbrance or lien.

(b) That the existence of such encumbrance or lien shall not relieve DEVELOPER from any liability or responsibility for the performance of its obligations under this Agreement.

Under no circumstances shall DEVELOPER cause any mortgage or lien to exist on the COUNTY property, Landfill, access road, or LFG Utilization Facility Site, and no security interests may be granted in any underground transmission lines, pipelines, or underground equipment or fixtures associated with the project.

Section 8. General Obligations.

(a) Planning and Expansion. DEVELOPER recognizes that future development of the COUNTY Landfill may include additional facilities. COUNTY and DEVELOPER agree to exchange information on a regular basis for planning and coordination of all activities to promote the safe and orderly development and operation of the Landfill.

(b) Interests Retained by COUNTY. All materials, minerals, water, natural gas, and other items existing in, on, or under the Landfill (including, but not limited to, the refuse, cell liners, leachate, condensate, and waste spoilage removed from Landfill during construction of LFG Management System and cover) shall at all times remain the property of COUNTY.

(c) Independent Contractor. In the performance of any activities pursuant to this Agreement, the DEVELOPER will be acting in the capacity of an independent contractor and not as an agent, employee, partner, joint venturer, or associate of the COUNTY. The Developer shall be solely responsible for the means, methods, sequences, and procedures utilized by the DEVELOPER. None of the Developer's employees, officers, agents, or any other individual directed to act on behalf of the DEVELOPER for any act related to the Agreement shall represent, act, purport to act, or be deemed to be the agent, representative, employee or servant of the COUNTY.

Deleted: Developer's employees

(d) Condensate. The DEVELOPER is responsible for the collection and removal of condensate from the DEVELOPER's condensate sumps, DEVELOPER's condensate knockout vessel(s) and the LFG Utilization FACILITY, and the proper handling and delivery of the condensate to the COUNTY's leachate collection system (leachate manhole) or leachate storage tanks. The COUNTY shall have the right to collect and test samples from the DEVELOPER's facilities before discharging into the COUNTY's facilities.

(e) Gas Migration and Emissions. DEVELOPER and COUNTY acknowledge that the primary objective of the LFG Management System is and will continue to be to control LFG migration, emissions and odors, in order to meet all local, state and federal regulatory requirements and the requirements of existing and future landfill permits. DEVELOPER shall operate the LFG Utilization Facility in a manner that is conducive to this primary objective.

FURTHERMORE the COUNTY is to provide all of the needed LFG Management System components and all replacement, expansions, and additions and the operation thereof to collect the LFG generated at the Landfill to the greatest extent possible so that (i) the operation of the Landfill will remain in compliance with applicable federal, state and local laws and regulations, and (ii) the operation of the Landfill will control LFG migration and odors.

(f)

The COUNTY shall design, permit, construct and pay for any additional equipment or other improvements that are necessary to ensure compliance with applicable regulations due to (i) a change in applicable laws or regulations that occurs after the effective date of this Agreement or (ii) an expansion of or other change, provided that such failure is not caused by DEVELOPER's acts or omissions during DEVELOPER's maintenance, repair and operation.

(g) Non Waiver.

(1) The failure of either party to exercise any right shall not be considered a waiver of such right in the event of any further default or noncompliance.

(2) No action taken by COUNTY or DEVELOPER after the effective date of the termination of this Agreement pursuant to Section 14 in accepting one or more payments from the other or undertaking any other activity which would have been authorized by this Agreement but for its termination, shall be construed that this Agreement is not terminated or as a waiver of the termination.

(h) Inspections. COUNTY has the right to conduct inspections of the DEVELOPER's facilities to verify operations compliance, environmental compliance and

compliance with applicable local, state, and federal regulations and said responsibilities of this Agreement

Section 9. Limitations of Liability.

(a) Except as otherwise provided herein, COUNTY provides no warranties or guarantees, either expressed or implied, as to the amount or chemical composition of the LFG to be extracted and made available to the DEVELOPER at the Delivery Point(s) hereunder, including, but without limitation, any warranty of merchantability or fitness of the LFG for a particular purpose; provided, however, if the Landfill does not produce Commercial Quantities of LFG, DEVELOPER may terminate this Agreement as provided in Section 14(d).

(b) Provided DEVELOPER is complying with applicable laws and regulations, DEVELOPER will be solely responsible for the determination of the suitability of the LFG to be used under this Agreement for any and all purposes contemplated by DEVELOPER.

(c) Nothing contained within this Agreement shall be construed to mean that DEVELOPER has assumed any of COUNTY's responsibilities to comply with any environmental laws and regulations, whether federal, state, or local.

(d) In no event shall Developer be liable to COUNTY with respect to any claims arising from the ownership of the Landfill.

(e) COUNTY shall not be liable for damages, including consequential damages, loss of revenues and/or lost profits, for COUNTY employees' entry on the LFG Utilization Facility Site at the Landfill pursuant to Section 4(j) herein. Further, COUNTY shall not be liable for consequential damages, loss of revenues and/or lost profits for any reason whatsoever.

(f) DEVELOPER is liable for any fines and/or repair for any environmental damage due to the DEVELOPER's facilities construction and operations.

(g) Nothing contained in this Agreement constitutes a waiver of the COUNTY's sovereign immunity or the limitations on liability contained in Section 768.28, Florida Statutes.

Section 10. Indemnification. To the fullest extent permitted by Laws and Regulations, the selected DEVELOPER shall indemnify and hold harmless the COUNTY and the officers, directors, employees, agents and other consultants of the COUNTY from and against all claims, expenses, losses and damages (including but not limited to all fees and charges of the DEVELOPER, engineers, architects, attorneys and other professionals) caused by, arising out of or resulting from the performance of services, provided that any such claim, damage, loss or expense: (1) is attributable to bodily injury, sickness, disease, death, or personal injury, or to property damage including the loss of

use resulting there from, and (2) is cause in whole or in part by any act or omission of the DEVELOPER, any Subcontractor, any Supplier, any person or organization directly or indirectly employed by any of them to perform or furnish any of the services or anyone for whose acts any of them may be liable. The DEVELOPER agrees that it will pay the reasonable costs of the COUNTY's legal defense, including fees of attorneys as may be selected by the COUNTY and shall defend, satisfy, and pay any judgments which may be rendered against the COUNTY in connection with the above hold harmless agreement. The DEVELOPER acknowledges that specific consideration has been received for this hold harmless/indemnification provision.

The provisions of this Section 10 shall survive the termination of this Agreement.

Section 11. Insurance. Before starting and throughout the Term of this Agreement, the DEVELOPER shall procure and maintain insurance of the types and to the limits specified in Section A below.

The DEVELOPER shall require each of its Subcontractors, if any, to procure and maintain, until completion of that Subcontractor's work, insurance of types and to the limits specified in Section A (i) through (v) inclusive below. It shall be the responsibility of the DEVELOPER to ensure that all its Subcontractors meet these requirements.

(a) Coverage. Except as otherwise stated, the amount and types of insurance shall conform to the following minimum requirements.

(1) Workers' Compensation: Coverage to apply for all employees at the STATUTORY limits in compliance with applicable state and federal laws; if any operations are to be undertaken on or about navigable waters, coverage must be included for the USA Longshoremen & Harbor Workers Act, and Jones Act; in addition, the policy must include EMPLOYERS LIABILITY for limits of Five Hundred Thousand and N/100 Dollars ($500,00.00)/each accident; One Million and No/100 Dollars ($1,000,000.00)/disease – policy limit; Five Hundred Thousand and No/100 Dollars ($500,000.00)/disease – each employee, and a waiver of subrogation in favor of COUNTY, its agents, employees and officials.

(2) Commercial General Liability: Coverage must be afforded, under a per occurrence form policy, including Premise Operations, Independent Contractors, Products and Completed Operations, Broad Form Property Damage Endorsement, with a Hold Harmless and Named Additional Insured Endorsement in favor of the COUNTY for limits not less than Four Million and No/100 Dollars ($4,000,000.00)/general aggregate; Two Million and No/100 Dollars ($2,000,000.00)/products-completed operations (aggregate); Two Million and No/100 Dollars ($2,000,000.00)/personal injury and property damage liability; Two Million and No/100 Dollars ($2,000,000.00)/each occurrence; Fifty Thousand and No/100 Dollars ($50,000.00)/fire damage legal; Five Thousand and No/100 Dollars ($5,000.00)/medical payments.

(3) Business Auto Policy: Coverage must be afforded including coverage for all owned vehicles, hired/non-owned vehicles, with an Additional Named Insured Endorsement in favor of the COUNTY, for a combined single limit (bodily injury and property damage) of not less than One Million and No/100 Dollars ($1,000,000.00)/combined single limit (bodily limits; injury/property damage); personal injury protection/statutory One Million and No/100 Dollars ($1,000,000.00) /uninsured/underinsured motorist; One Million and No/100 Dollars ($1,000,000.00)/hired /non-owned auto liability.

(4) Builder's Risk /Installation Floater: When this agreement includes construction of or additions to above ground buildings or structures, or installation of machinery or equipment, Builder's Risk and/or Installation Floater coverage must be provided as follows:

(i) All Risk Coverage – All risk Coverage on a completed value form shall provide primary, non-contributory coverage with a waiver of subrogation in favor of the COUNTY.

(ii) Amount of Insurance – one-hundred percent (100%) of the completed value of such addition(s), building(s), or structure(s), or machinery and equipment.

(iii) Waiver of Occupancy Clause or Warranty – Policy must be specifically endorsed to eliminate any "Occupancy Clause" or similar warranty or representation that the building(s), addition(s), or structure(s) will not be occupied by the COUNTY.

(iv) Maximum Deductible – Five Thousand No/100 Dollars ($5,000.00) each claim. Higher deductibles are permitted subject to COUNTY approval.

(v) Additional Named Insured – The COUNTY must be included as an additional named insured.

(vi) Notice of Cancellation and/or Restriction – The policy must be specifically endorsed to provide the COUNTY with thirty (30) days' notice of cancellation and/or restriction.

(vii) Flood Insurance – When the buildings or structures are located within an identified special flood hazard area, flood insurance protecting the interest of the DEVELOPER and the COUNTY must be afforded for the lesser of the total insurable value of such buildings or structures, or the maximum amount of floor insurance coverage available under the National Flood Insurance Program.

OR

(5) Property Insurance Coverage: When construction of any above ground building or structure, or installation of machinery or equipment is complete, coverage must be provided as follows:

(i) All Risk Coverage – All Risk Coverage on a completed value from shall provide primary, non-contributory coverage with a waiver of subrogation in favor of the COUNTY.

(ii) Amount of Insurance – one hundred (100%) of the "replacement cost value."

(iii) Maximum Deductible – Five Thousand and No/100 Dollars ($5,000.00) each claim. Higher deductibles are permitted subject to COUNTY approval.

(iv) Additional Named Insured – The COUNTY must be included as an additional named insured.

(v) Notice of Cancellation and/or Restriction – The policy must be specifically endorsed to provide the COUNTY with thirty (30) days' notice of cancellation.

(vi) Flood Insurance – When the buildings or structures are located within an identified special flood hazard area, flood insurance protecting the interest of the Contractor must be afforded for the lesser of the total insurable value of such buildings or structures, or the maximum amount of flood insurance coverage available under the National Flood Insurance Program.

(6) Environmental Impairment Insurance: Coverage shall be provided and maintained as a separate policy for One Million Dollars and No/100 Dollars ($1,000,000.00) per occurrence; Two Million Dollars and No/100 Dollars ($2,000,000.00) aggregate.

(7) Business Interruption: Coverage shall be maintained in an amount sufficient to cover COUNTY's loss of revenues or consequential damages for the period of time it would take to repair or replace the damage or loss that caused said loss or damage.

(b) Waiver of Subrogation/Cause of Action. DEVELOPER agrees to waive any rights of recovery against the COUNTY for damage or loss to DEVELOPER's property or other asset, and any loss of revenue or consequential damages, howsoever caused, and agrees to require appropriate waivers of subrogation from its insurance companies.

(c) Certificates of Insurance. Certificates of all insurance required from the Developer shall be filed with the COUNTY as the Certificate Holder, before operations are commenced. The insurance indicated on the Certificate shall be subject to its approval for adequacy and protection. The certificate will state the types of coverage provided, limits of liability, and expiration dates. The COUNTY shall be identified as an Additional Named Insured for each type of coverage required by Section A (2) through A (6) above. The required certificates of insurance may refer specifically to this Agreement and the above sections in accordance with which such insurance is being furnished, and may state that such insurance is as required by such sections of this Agreement.

The DEVELOPER shall provide a Certificate of Insurance to the County with a thirty (30) days' notice of cancellation. In addition, the County will be shown as Additional Named Insured, with a Hold Harmless Agreement in favor of the COUNTY, where applicable. The certificate should also indicate if coverage is provided under a "claims made" or "per occurrence" form. If any coverage is provided under a claims made form, the certificate will show a retroactive date, which should be the same date as the Agreement (original date if Agreement is renewed) or prior.

If the initial insurance expires prior to the completion of work, renewal certificates and/or required copies of policies shall be furnished thirty (30) days prior to the date of their expiration.

Section 12. Removal and Restoration.

(a) Ownership of Equipment. Except as otherwise provided in this Agreement, the LFG Utilization Facility and related equipment shall remain the personal property and/or responsibility of DEVELOPER (collectively "DEVELOPER's Equipment"), notwithstanding the above, however, no equipment shall be removed that will affect the operations of the COUNTY's Flare Stations needed to remain in compliance with applicable federal, state, and local laws and regulations, and to control landfill gas migration and atmospheric emissions, including odors.

(b) Transfer of Ownership upon Expiration or Termination. Upon the expiration or termination of the Agreement, the below ground portions of the LFG Utilization Facility and the building shall become the personal property and responsibility of COUNTY. DEVELOPER shall have no further responsibility with respect to the below ground portions of the LFG Utilization Facility after DEVELOPER conveys title to such equipment, fee and clear of any encumbrances, liens or security interest.

Notwithstanding the above, within thirty (30) or (90)? days after the expiration or termination of this Agreement, , the DEVELOPER shall, at its sole expense, remove all LFG Utilization Facility and any associated Transmission equipment except for the building from the Landfill and return the LFG Utilization Facility Site to its original condition.

Nothing in this Section 12 shall be construed to create an obligation on the COUNTY to buy any portions of the LFG Utilization Facility. Should DEVELOPER fail to remove DEVELOPER's Equipment as required under this Section 12, such property shall be deemed abandoned and shall become the property of COUNTY. Should the COUNTY incur cost associated with the removal of abandoned equipment and/or site restoration associated with such abandonment, the DEVELOPER shall be liable for such cost. This liability shall expire twelve (12) months after the abandonment if the COUNTY has not notified the DEVELOPER in writing that site clean-up has been completed or is underway including the actual or estimated cost of such clean-up.

F

(c) Removal and Restoration Bond. Before starting and throughout the term of this Agreement, DEVELOPER shall procure and maintain a bond or financial security instrument under forms acceptable and approved by the COUNTY to ensure the removal of the DEVELOPER's facilities and the restoration of the land upon the expiration or termination of this Agreement. The amount of the bond or financial security instrument shall be Fifty Thousand and No/100 Dollars ($50,000.00).

Section 13. Force Majeure. If by reason of Force Majeure either party is unable to carry out, either in whole or in part, its obligations herein contained, such party shall not be deemed in default during the continuation of such inability, provided that:

(a) The non-performing party, as soon as possible but no later than two (2) weeks after the occurrence of the cause of the Force Majeure, gives the other party written notice describing the particulars of the occurrence; and

(b) The suspension of performance be of no greater scope and of no longer duration than is required by the Force Majeure; and

(c) No obligations of either party which arose prior to the occurrence causing the suspension of performance be excused as a result of the occurrence; and

(d) That the non-performing party endeavors to remedy with all reasonable dispatch the cause or causes preventing it from carrying out its obligations.

Neither party shall be required to settle strikes, lockouts, or other industrial disturbances by acceding to the demands of the opposing party or parties when such course is, in its judgment, not in its best interest. The fee required to be paid by DEVELOPER set forth in Section 6(b) shall not apply, and DEVELOPER shall be relieved of its obligation there from, so long as an event of Force Majeure has occurred and is continuing.

Section 14. Termination.

(a) DEVELOPER's Default. The failure of the DEVELOPER to comply with any provision of this Agreement shall place the DEVELOPER in default. Prior to terminating the Agreement, the COUNTY shall notify the DEVELOPER in writing.

Notification shall make specific reference to the provision which gave rise to the default. The COUNTY shall provide the DEVELOPER thirty (30) days to propose a written remedy and schedule, which shall not be unreasonably withheld, delayed, or conditioned. If the COUNTY disapproves of DEVELOPER's proposed remedy and schedule, the COUNTY may, at its sole option, direct an alternative remedy and schedule or provide DEVELOPER with ninety (90) days prior written notice of termination.

Deleted: direct an

Events of default by DEVELOPER warranting termination by COUNTY shall include, but not be limited to, one or more of the following:

(1) the filing by or against DEVELOPER of a petition in bankruptcy or the complete cessation of the business operations of DEVELOPER;

(2) failure by DEVELOPER to pay the fees due the COUNTY pursuant to Section 6, Payment;

(4) failure by the DEVELOPER to maintain the LFG Utilization Facility, the COUNTY's Flare Station(s), and all associated DEVELOPER supplied equipment in good working order throughout the term of this Agreement;

(5) failure to operate the system or to maintain compliance with environmental regulations and noise limitation and odor control requirements;

(6) failure to pay for any damages assessed to the DEVELOPER;

(7) failure to commence Commercial Operations within eighteen (18) months from the effective date of this Agreement.

(b) Repeated Defaults by DEVELOPER. In the event that the DEVELOPER's record of performance shows that the DEVELOPER has frequently, regularly or repetitively defaulted in the performance of any of the material covenants and conditions required herein to be kept and performed by the DEVELOPER and regardless of whether the DEVELOPER has corrected each individual condition of default, the DEVELOPER may be deemed a "habitual violator" and all of said defaults may be considered collectively to constitute a condition of default. The COUNTY may thereupon issue the DEVELOPER a final warning citing the circumstances therefore, and any single material default by the DEVELOPER within one (1) year after said warning shall be grounds for termination of this Agreement. In the event of any such single subsequent default within one (1) year, the COUNTY may terminate this Agreement upon the giving of written final notice to the DEVELOPER. The COUNTY's Environmental Services Director shall be the sole authority to determine and deem the DEVELOPER as a "habitual violator".

(c) COUNTY's Default. The failure of the COUNTY to comply with any provision of this Agreement shall place the COUNTY in default. Prior to terminating the

Agreement, the DEVELOPER shall notify the COUNTY in writing. Notification shall make specific reference to the provision which gave rise to the default. The DEVELOPER shall provide the COUNTY thirty (30) days to propose a written remedy and schedule which shall set forth the specific timeframe for curing default. In the event of a default by the COUNTY, the COUNTY shall pay DEVELOPER an amount for capital expenditures for the LFG Utilization Facility consistent with Section 12(b) of the Agreement, or the DEVELOPER may remove the above ground portion of the LFG Utilization Facility at the DEVELOPER's option.

(d) Termination for Insufficient Quantities of LFG. Should the DEVELOPER determine, following LFG Utilization Facility start-up, that LFG can no longer be reasonably recovered from the Landfill in Commercial Quantities, DEVELOPER shall have the right to surrender and terminate this Agreement including its rights to the LFG upon ninety (90) days prior written notice to COUNTY. In the event of such termination by the DEVELOPER:

(1) the DEVELOPER shall continue to make payments to the COUNTY for the right to and use of the LFG in accordance with Section 6(b), whichever is in effect at the time, for a three (3) month period following notification of termination;

(2) the DEVELOPER shall continue to make payments for any monies due to the COUNTY for the sale of the Beneficial End Use Product and any other monies required by the provisions of this Agreement;

Section 15. Damages and Administrative Charges. Except where otherwise specifically provided, the measure of damages to be paid by the DEVELOPER to the COUNTY due to any failure by the DEVELOPER to meet any of its obligations under this Agreement shall be the actual damages incurred by the COUNTY. Said damages shall include, but shall not be limited to, the following damages:

(a) The COUNTY's Damages in the Event of Termination of DEVELOPER. If the COUNTY terminates this Agreement because of a default by the DEVELOPER, the DEVELOPER shall be liable to the COUNTY for all actual damages incurred by the COUNTY as a result of DEVELOPER's default.

(b)

(c) The COUNTY's Damages Due to DEVELOPER's Failure to Comply with Environmental Regulations. If the DEVELOPER fails to comply with any applicable environmental regulations, the DEVELOPER shall pay to the COUNTY the following:

(1) All lawful fines, penalties, and forfeitures charged to the COUNTY by any governmental agency charged with enforcement of environmental laws and regulations or judicial orders.

(2) The actual costs, including, but not limited to, legal, administrative and any associated fees, incurred by the COUNTY as a result of the failure to comply with the environmental regulations including any costs incurred in investigating and remedying the conditions which led to the failure to comply with the environmental regulations.

(d) Administrative Charges. The parties acknowledge and agree that it is difficult or impossible to accurately determine the amount of damages that would, or might, be incurred by the COUNTY due to those failures or circumstances described in this section of the Agreement and for which the DEVELOPER would otherwise be liable. Accordingly, administrative charges may be assessed against the DEVELOPER for the following failures to comply with the Agreement:

(1) If DEVELOPER fails to operate and perform the system within permit and/or regulatory requirements or standards, the COUNTY shall give Notice to the DEVELOPER of the foregoing failure. If the DEVELOPER fails to remedy the foregoing failure within two (2) days of the receipt of the Notice from the COUNTY, administrative charges in an amount equal to fifty (50%) of the "daily average payment" to the COUNTY for the sale of the COUNTY's LFG shall be assessed against the DEVELOPER per day until such time as the DEVELOPER has remedied the foregoing failure. If it is not possible to remedy the failure within two (2) days of receipt of the Notice, the DEVELOPER and COUNTY shall agree to a reasonable extended time-period. The "daily average payment" shall be based on normal historical operating days for the six (6) month period immediately preceding the COUNTY's Notice.

(2) If DEVELOPER fails to keep and utilize the LFG Utilization Facility at the levels of manpower and equipment necessary to adequately operate the system, the COUNTY shall give Notice to the DEVELOPER of the foregoing failure. If the DEVELOPER fails to remedy the foregoing failure within one (1) week of the receipt of the Notice from the COUNTY, administrative charges in the amount equal to fifty percent (50%) of the "daily average payment" to the COUNTY for the sale of the COUNTY's LFG shall be assessed against the DEVELOPER per day until such time as the DEVELOPER has remedied the foregoing failure. If it is not possible to remedy the failure within one (1) week of receipt of the Notice, the DEVELOPER and COUNTY shall agree to a reasonable extended time-period. The "daily average payment" shall be based on normal historical operating days for the six (6) month period immediately preceding the COUNTY's Notice.

(3) If DEVELOPER fails to supply information or reports required by the COUNTY and/or any regulatory agency within the timeframe agreed to by the COUNTY and/or regulatory agency, the COUNTY shall give Notice to the DEVELOPER of the foregoing failure. If the DEVELOPER fails to remedy the foregoing

failure within ten (10) day of receipt of the Notice from the COUNTY, administrative charges in the amount of One Hundred and No/100 Dollars ($100.00) per day shall be assessed against the DEVELOPER until such time as the COUNTY determines that the DEVELOPER has remedied the foregoing failure. If it is not possible to remedy the failure within ten (10) day's receipt of the Notice, the DEVELOPER and COUNTY shall agree to a reasonable extended time-period.

Section 16. Representations and Warranties.

(a) Warranties of COUNTY. COUNTY hereby agrees, warrants, and represents to DEVELOPER, as of the date of execution of this Agreement, that:

(1) The COUNTY has not entered into any other agreements with respect to the LFG conveyed to DEVELOPER under this Agreement or with respect to any of the other rights conveyed to DEVELOPER pursuant to Section 2 of this Agreement. COUNTY warrants that DEVELOPER shall take the LFG free and clear of any liens or encumbrances. COUNTY hereby warrants to DEVELOPER that COUNTY has the title to the LFG Utilization Facility Site, access to the site, the Landfill, and the LFG.

(2) No part of the LFG project was financed by grants or subsidized energy financing and the energy credit was not claimed with respect to property used in such recovery Project.

(3) The execution and delivery of this Agreement and related documents have been duly authorized, and constitute legal, valid, and binding obligations of the COUNTY which are enforceable in accordance with their terms and do not violate any law, rule or regulation.

(4) As of the effective date of this Agreement, the solid waste that the COUNTY accepts for disposal within the solid waste disposal units is nonhazardous solid waste as defined by Chapter 62-701, F.A.C. COUNTY also covenants that during the term of the Agreement, COUNTY will continue to accept only nonhazardous solid waste or material deemed nonhazardous in nature as defined by Chapter 62-701, F.A.C.

(b) Warranties of DEVELOPER. DEVELOPER hereby agrees, warrants and represents to COUNTY, as of the date of execution of this Agreement, that

(1) DEVELOPER is a duly organized, validly existing entity in good standing under the laws of the State of Florida. DEVELOPER has all requisite corporate power to own its properties and to carry on the business that is now being conducted, to execute and deliver this Agreement and to engage in the transactions contemplated in this Agreement.

(2) The execution, delivery and performance by DEVELOPER of this Agreement is within the corporate powers of DEVELOPER, have been duly authorized by all necessary corporate action, and do not violate any law, rule or regulation, or the terms of the articles of incorporation or bylaws of DEVELOPER.

Section 17. Assignment. The COUNTY and DEVELOPER shall bind themselves and their respective successors and assigns in all respects to all of the terms, conditions, covenants, and provisions of this Agreement. Neither party hereto may sell, assign or transfer this Agreement or any interest it may have hereunder, without prior written approval of the other party, such approval to be not unreasonably withheld, and provided that any such assignment shall not unduly interfere with the rights of the non-assigning party hereunder, and further provided that such assignee agrees to be bound by the terms of this Agreement to the same extent as assignor. In no event will assignment relieve the assignor of its obligations hereunder. Nothing herein shall be construed as creating any personal liability on the part of any officer or agent of COUNTY or DEVELOPER, nor shall it be construed as giving any right or benefit hereunder to anyone other than the COUNTY or the DEVELOPER.

Section 18. Notices. Any notice to be given under this Agreement shall be in writing and shall be deemed to have been properly given and received (i) when delivered in person to the authorized representative of the party to whom the notice is addressed, or (ii) on the date received as indicated on the prepaid certified or registered receipt when sent by prepaid mail, return receipt requested, to the party to be notified at the address indicated as follows:

To DEVELOPER:

Timberline Energy, LLC
15420 West Archer Drive
Golden, CO 80401

To COUNTY:

Hernando County

S

Either party may change such representative or address under this Agreement by providing written notice to the other party.

Section 19. Taxes. DEVELOPER shall, during the term of this Agreement, pay or arrange for the payment of all general taxes that may be levied upon or assessed against the system, facilities, equipment, machinery and improvements constructed or installed by it in, on, or adjacent to the Landfill. To the extent permissible by law, COUNTY shall recognize DEVELOPER's Equipment as an environmental pollution control system as defined under applicable tax laws and, therefore, shall be free from state sales taxes as provided by state statutes.

Section 20. Interest of Members of COUNTY and Others. No officers, members, or employees of the COUNTY, no member of its governing body, no other public official of the governing body of the locality or localities in which services for facilities under this Agreement are to be carried out, who exercise any functions or responsibilities in the review or approval of the undertaking or carrying out of this Project, shall participate in any decision relating to this Agreement which affects their personal interest, or have any personal interest, direct or indirect, in this Agreement or the proceeds thereof.

Section 21. Interest of DEVELOPER. DEVELOPER covenants that it presently has no interest and shall not acquire an interest, direct, or indirect, which shall conflict with the performances or services required to be performed under this Agreement. Developer further covenants that in the performance of this Agreement, the DEVELOPER shall employ no person having any such interest.

Section 22. Covenant against Contingent Fees DEVELOPER warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for DEVELOPER, to solicit or secure this Agreement, and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for DEVELOPER , any fee, commission, percentage, gift, or any other consideration contingent upon or resulting from the award or making of this Agreement. For the breach or violation of this section, the COUNTY shall have the right, but not the duty, to terminate this Agreement without liability, and, at its discretion, to deduct from the Agreement such price, or otherwise recover the full amount of such fee, commission, percentage, gift or other consideration.

Section 23. Potential Conflicts of Interest. DEVELOPER is specifically aware of, and concurs with, the public need for the COUNTY to prohibit any potential conflicts of interest that may arise as a result of the execution of this Agreement. As a result, DEVELOPER has extensively reviewed all of its contracts, letters of agreement, and any other indication of commitment on its behalf to perform services for any client other than Hernando COUNTY, which could in any way present the reasonable possibility of an actual conflict of interest with Hernando COUNTY. DEVELOPER has not identified any such contracts., y.

In view of the potential of this Agreement being a long-term contractual relationship between the parties, DEVELOPER specifically agrees to comply with the following organizational requirements in performing its services under this Agreement:

(a) Direct supervision of DEVELOPER employees and agents under this Project shall be given by BILL OWEN, and the designated Project Managers assigned to each specific Project.

(b) DEVELOPER specifically warrants and agrees that any and all information, concepts, policies and regulations relating to the Project under this

Agreement shall be held by DEVELOPER in strict confidentiality within DEVELOPER's Project Team, except as may be affected by Chapter 119, Florida Statutes. No dissemination of any such information by DEVELOPER shall be made until after clear written authorization to do so has been granted by the COUNTY, except as may be otherwise required by law or directed by COURT Orders and except for disclosures to DEVELOPER's legal counsel or accountants. Notice of such disclosures permitted hereunder shall be immediately given to the COUNTY.

Section 24. Records and Audits. If federal funds are used for any work under this Agreement, the Comptroller General of the United States, or any of his duly authorized representatives, shall have access to any books, documents, papers, and records of DEVELOPER which are directly pertinent to work performed under this Agreement, for purposes of making audit, examination, excerpts, and transcriptions.

The COUNTY and its auditors shall be entitled to audit the books and records of the DEVELOPER to the extent that such books and records relate to the performance of this Agreement. DEVELOPER agrees to maintain such records and accounts including all books, documents, papers, financial records and other evidences pertaining to work performed under this Agreement. Said records shall be made available at its office at all reasonable time during the term of this Agreement, and for three (3) years from the date of final payment under this Agreement, for audit or inspection by the COUNTY, or any of its duly authorized representatives, unless a shorter period is authorized by the COUNTY in writing.

Section 25. Equal Opportunity Employment. DEVELOPER agrees that it will not discriminate against any employee or applicant for employment for work under this Agreement because of race, color, religion, sex, age, national origin, or disability and will take affirmative steps to ensure that applicants are employed and employees are treated during employment without regard to race, color, religion, sex, age, national origin, or disability. This provision shall include, but not be limited to, the following: employment, upgrading, demotion or transfers; recruitment advertising; lay-off or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

Section 26. Claims for Services. No claim for services rendered by DEVELOPER not specifically provided for in this Agreement will be honored by the COUNTY.

Section 27. Severability. If any of the provisions contained in this Agreement are held for any reason to be invalid, illegally, or unenforceable, such a holding shall not affect any other provision, and this Agreement shall be construed as if such invalid, illegal, or unenforceable provision had never been contained herein.

Deleted: illegaly

Deleted: holdingshall

Section 28. Modifications or Amendments in Writing. No modification, amendment or alteration in terms or conditions contained herein shall be effective unless contained in a written document executed by the parties with the same formality as herein.

(a) Headings. The headings appearing in this Agreement are intended for convenience and reference only, and are not to be considered in construing this Agreement.

(b) Disclaimer of Joint Venture, Partnership and Agency. This Agreement shall not be interpreted or construed as creating an association, joint venture or partnership between COUNTY and DEVELOPER or Buyer or to impose any partnership obligation or liability upon such parties. Neither COUNTY nor DEVELOPER or Buyer shall have any right, power or authority to enter into any agreement or undertaking for, or act on behalf of, or to act as or be an agent or representative of, or to otherwise bind, another party.

(c) Governing Law. All questions with respect to the construction of this Agreement and the rights and liabilities of the parties hereunder shall be determined in accordance with the laws of the State of Florida. Venue shall be in Hernando COUNTY, Florida.

(d) Amendment to Agreement. The COUNTY and DEVELOPER agree that this Agreement sets forth the entire agreement between the parties, and that there are no promises or understandings other than those stated herein. None of the provisions, terms and conditions contained in this Agreement may be added to, deleted, modified, superseded or otherwise altered, except by written amendment executed by the parties hereto. Such amendment(s) are not valid, binding and enforceable unless signed by the Board of County Commissioners or by a COUNTY representative duly authorized by the Board of County Commissioners.

(e) Successors and Assigns. All of the terms and provisions of this Agreement shall be binding upon and shall inure to the benefit of and be enforceable by the parties hereto and their respective successors and permitted assigns.

(f) DEVELOPER Right to Utilization Facility Design. It is acknowledged that the DEVELOPER and Buyer have or will have expended considerable time and expense in developing the design for the LFG Utilization Facility and associated electrical transmission, steam or LFG transmission lines, and, therefore, could consider such design to be proprietary. The COUNTY agrees on behalf of itself and its agents and representatives to maintain the proprietary nature of the design by not constructing like facilities without the written approval of the DEVELOPER and Buyer.

(g) Remedies Not Exclusive. The remedies in this Agreement are not exclusive and supplement any other remedies provided at law or in equity.

(h) Order of Precedence. In resolving inconsistencies among (2) or more components of this Agreement, precedence shall be given in the following order:

(1) Agreement

(2) COUNTY's RFP Document
(3) DEVELOPER's Proposal

SIGNATURE BLOCK BEGINS ON PAGE 33

In Witness whereof, the parties hereto have made and executed this agreement on the day and year first written above.

SUBJECT: Public Hearing Date for the Sunrise DRI

Brief Overview:	Sunrise Lands Partnership submitted an application for a Development of Regional Impact under Section 380.06, F.S. in May of 2005. The application consists of 4,800 units, 75 motel rooms, 365,000 square feet of retail, 50,000 square feet of office, a golf course and clubhouse. On November 29, 2006 the WRPC issued a notice that the applicant declared sufficiency. Under the Statute, upon notification from the RPC that the application has been deemed, or declared, sufficient the local government must set a public hearing date at its next regular meeting. A public hearing was scheduled by the Board for May 7, 2007; however, this hearing date was canceled at the request of the applicant to allow time for the preparation of an associated Development Order and the scheduling of an interim workshop on the SR 50/I-75 PDD. Therefore, a new public hearing date must be set by the Board.
Budget Impact:	There is no budgetary impact identified.
Legal Impact:	Section 380.06(11)(d), F.S. requires the local government to set a hearing date at the next scheduled meeting once a sufficiency notice has been received from the RPC, and the public hearing shall be held no later than 90 days after issuance of the sufficiency notice, unless an extension is requested by the applicant.
Recommended Action:	The Board establish July 19, 2007, at 9:00 am as the public hearing date and time for the Sunrise DRI.

Administrative Note: _____ ***Reviewed*** _____ ***See attached memo***
Issue is not a quasi-judicial function of the Board and Exparte procedures do not apply.

F:\WPDATA\RFP\BCC memos\SunriseHearingDate3.wpd

CONSENT AGENDA ITEM 11.

Sunrise is proposed as a new Planned Development with 4,800 units, 75 motel rooms, 365,000 square feet of retail, 50,000 square feet of office, a golf course and clubhouse on 1385 acres in the SR 50/I-75 PDD area of eastern Hernando County. Due to the intensity of the development proposed, it is considered a Development of Regional Impact (DRI) pursuant to Florida Statutes. The petitioner submitted an Application for Development Approval (ADA) for the DRI in May, 2005. Since that time the application has been undergoing sufficiency review with the Withlacoochee Regional Planning Council (WRPC). On November 30, 2006 the WRPC notified the County that the developer provided notification that additional information will not be provided, and therefore declared the application sufficient. Section 380.06(11)(d), F.S. requires that the County must set a public hearing date on the DRI application at the next scheduled meeting. In addition, the public hearing on the DRI application must be held no later than 90 days after issuance of the notice by the regional planning council, unless an extension is requested by the applicant. Per 380.06(12)(a), F.S., within 50 days after the receipt of the notice that a public hearing has been set by the

In accordance with the Statutes, the Board previously established a public hearing dates for February 22, 2007 and May 7, 2007. However, at the request of the applicant, on April 3, 2007 the Board rescheduled an proposed workshop on the SR 50/I-75 PDD from April 9, 2007 to May 7, 2007 at 5:30 PM, and canceled the public hearing advertised for consideration of the DRI on May 7, 2007. In consideration of the statutory advertising requirements, the next available date on the calendars of the Commissioners is July 19, 2007, at 9:00 am for a public hearing on the proposed DRI. The workshop for the SR 50/I-75 PDD is still tentatively set for May 7, 2007.

Hernando County Planning Department

SUBJECT: Clearing and site grading approval for a portion of Nature Coast Commons

Brief Overview:	The applicant is requesting Board approval to allow clearing and grading for the J.C. Penneys's site which will be Phase I of Nature Coast Commons. The applicant has provided plans for that portion of the project which are ready for Board approval.
Budget Impact:	There are no budgetary impacts associated with the recommended action.
Legal Impact:	The Board has the authority to take the recommended action.
Recommended Action:	It is recommended that the Board approve the clearing, grading and utility work to commence in the first phase of Nature Coast Commons.
Administrative Note:	____ ***Reviewed*** ____ ***See attached memo***

☐ ***Issue is a quasi-judicial function of the Board and Exparte procedures apply.***

The applicant is requesting to be allowed to clear, perform site grading and utility work for J.C. Penneys on a portion of the proposed Nature Coast Commons subdivision. The Nature Coast Commons development is located south of the Walmart store on US 19.

The plans have been reviewed by the affected County agencies and are in compliance with the County's current development standards. The Southwest Florida Water Management District (SWFWMD) has issued a completeness letter for the construction of this project. No site work shall commence until all required permits have been issued by the affected agencies.

CONSENT AGENDA ITEM 13.

Nature Coast Commons Subdivision

DATE: April 18, 2007

MEMORANDUM

TO: The Honorable Chairperson and Members of the Hernando County Water and Sewer District Governing Board

VIA: Gary Kuhl, County Administrator

VIA: George Zoettlein, Director

FROM: Jesse Goodwin, Interim Utilities Director JAG
Utilities Department

Date: April 13, 2007

Subject: Western Seville Supplemental Water Agreement

RECEIVED
CENTRAL PURCHASING
07 APR 13 PM 3:23

BRIEF OVERVIEW:
Utilities Department Staff with legal assistance has spent several months negotiating a Supplemental Water Agreement with the Developer of the Seville Subdivision to replace the existing Seville Water Treatment Plant. The new water plant is necessary to serve the proposed 2,780 residential units along with adjacent 54,000 square feet of non-residential development. A new water treatment plant will be designed and constructed and will include a 2 million gallon ground storage tank, a new high service pump station, electrical upgrades and emergency generator.

The Agreement provides that the Developer agrees to the prepayment of 25% of the water connection fees equal to 695 ERUs at a cost of $1,147 per ERU for the proposed 2,780 unit Seville Subdivision in the total amount of $797,165. Payment of the initial installment of $271,885 will be immediate and fund the cost of the engineering contract for design of the new water plant. Payment of the second installment in the amount of $525,280, the remaining balance, shall be within 30 days of the issuance of advertisement of bids for construction of the project. After the initial 695 prepaid connections have been used all other water connection fees will be paid at the current water connection fee rate in effect at the time payment is made.

BUDGET IMPACT:
The water connection fees from the 2,780 single-family residential unit development in the total amount of $3,188,660 at current connection fee rates will more than offset the estimated $2.1 million engineering and construction costs for the new water plant. In addition, the water user fees generated from the Seville Subdivision will have a positive impact on the District's annual operating budget.

LEGAL IMPACT:
The Board is granted the authority under the provisions of Subsection 125.012, Florida Statues, to enter into water agreements in order to provide service to residential subdivisions within the County.

CONSENT
AGENDA ITEM 12.

RECOMMENDED ACTION:
Since the new Seville Water Plant will help to supply the future water demand of the proposed Seville Subdivision and surrounding area and the Developer will provide upfront funding for the project Staff recommends the Board approve the attached Supplemental Water Agreement.

ADMINISTRATIVE NOTE:

WESTERN SEVILLE
SUPPLEMENTAL WATER AGREEMENT

This AGREEMENT is made and entered into this 4th day of April 2007, by and between the Hernando County Water and Sewer District, a body corporate and politic, hereinafter referred to as the **"DISTRICT"** and Seville, LLC, a Florida Corporation, hereinafter referred to as the **"DEVELOPER."**

RECITALS

WHEREAS, the **DEVELOPER** is presently proceeding with the planning and construction of a residential subdivision within Hernando County to be known as Seville at the Dunes, hereinafter referred to as the **"PROJECT"**; and

WHEREAS, the legal description of the **PROJECT** is attached hereto as Exhibit A; and

WHEREAS, the **PROJECT** is planned for approximately 2,780 single-family residential units and 54,000 square feet of non-residential; and

WHEREAS, the parties hereto, together with another entity, are also parties to that certain First Amended and Restated Seville Water and Sewer Agreement, dated February 15, 2005 (Seville Agreement); and

WHEREAS, the parties hereto have entered into this **WESTERN SEVILLE SUPPLEMENTAL WATER AGREEMENT** to delineate, make certain and define each of their obligations with respect to a water supply and distribution system for the **PROJECT**, in light of certain matters affecting only their interests which have arisen recently; and

WHEREAS, it is the intent of the parties hereto that this Agreement is intended to supplement the Seville Agreement and is not intended to modify any provisions thereof, except to the extent of express conflict therewith and only with respect to enhancing water supply to that portion of the **PROJECT** which is the sole responsibility of the **DEVELOPER**; and

WHEREAS, the **DISTRICT** operates a water system capable of providing potable water service to the **PROJECT**; and

WHEREAS, the parties are desirous of entering into a supplemental agreement to enhance the provision of potable water service to the **PROJECT.**

NOW, THEREFORE, in consideration of the sum of Ten Dollars ($10.00) and other good and valuable consideration in hand paid by the parties hereto each to the other, simultaneously with the execution and delivery of these presents, and in consideration of the mutual undertakings and agreements hereinafter set forth and contained, the parties hereto covenant and agree each with the other as follows:

I. AGREEMENTI. AGREEMENT

I. WATER SUPPLY AND DISTRIBUTION SYSTEM.

1. Water Supply. The **DEVELOPER** is responsible for expanding the West Seville interim water supply system, at its own expense, as needed to serve the **PROJECT**, pursuant to the Seville Agreement. Supply needs shall include both potable water and fire flow requirements internal to the development, as affected by the provisions herein relating to storage.

2. Onsite Water Distribution System. The **DEVELOPER** agrees to construct the onsite water distribution system for the **PROJECT,** pursuant to the requirements of the Seville Agreement.

3. Payment of Water Connection Fees. Notwithstanding anything in the Seville Agreement to the contrary, pursuant to this **WESTERN SEVILLE SUPPLEMENTAL WATER AGREEMENT,** the **DEVELOPER** agrees to prepay 25% of the water connection fees for the development equal to 695 ERUs at a cost of $1,147 per ERU for a Total Amount of $797,165, to be paid in two installments. Payment of the initial installment shall be in the amount of $271,885, the engineering contract entered into by the **DISTRICT** for the project work required in this Agreement, and shall be payable within thirty days of the date of this Agreement, which shall be the date the last of the parties hereto execute it. The second installment will be in the amount of $525,280, the remaining balance of the Total Amount, and shall be paid within 30 days of the issuance of an advertisement for bids to let a contract for construction of the project. In return the **DISTRICT** will immediately begin the process of designing of an above ground storage tank of adequate size and the necessary high service and well pumps necessary to service the project. The **DISTRICT** shall act

expeditiously within the requirements of Florida Statutes and applicable County purchasing ordinances and policies to award to contract for design, with a subsequent contract award for construction of the tank and pumps as soon as legally and reasonably appropriate after design is finished. After the initial 695 prepaid connections have been used all other water connection fees will be paid at the **DISTRICT's** water connection fee rate in effect at the time payment is made. Connection fees for any non-residential buildings within the **PROJECT** shall be paid at the **DISTRICT's** commercial connection fee rate schedule prior to the issuance of a building permit. In all cases, the **DEVELOPER** agrees to pay the then current connection fee rates in effect at the time of each payment.

4. Plans and Specifications. The **DISTRICT** agrees to prepare or have prepared plans and specifications necessary for the construction of the above ground tank, necessary yard piping, and necessary pump upgrades described in this Agreement. The **DISTRICT** will be responsible for all engineering and survey services necessary for the preparation of these plans, construction inspection and supervision, permitting, engineer's certification, and preparation and submittal of one (1) set of reproducible and two (2) sets of sealed "As Built" or "Record" drawings. The **DISTRICT** in good faith will make every attempt to complete said above improvements by no later than April 21st, 2008 unless a revised date is agreed to by both parties.

5. Ratification of First Amended and Restated Seville Water and Sewer Agreement. Except as expressly modified herein or by the actions of the parties thereto and third parties, **DEVELOPER** and **DISTRICT** hereby ratify and confirm the obligations of the parties as contained in the Seville Agreement.

II. GENERAL PROVISIONS

1. Compliance with Ordinance. The **DISTRICT** and the **DEVELOPER** agree that this **AGREEMENT** acknowledges a request for water service from the **DISTRICT**. This **AGREEMENT** further provides terms hereof which constitute the response to the **DEVELOPER's** request for potable water service and the availability of such service is

based upon the terms of this **AGREEMENT**. This **AGREEMENT** constitutes a formal commitment from the **DISTRICT** to the **DEVELOPER** to provide potable water to the **DEVELOPER**. Potable water service as outlined in this **AGREEMENT** is contingent upon the **DISTRICT's** final acceptance of the water transmission lines and facilities as well as the receipt of connection fees as specified in this **AGREEMENT**. The **DISTRICT** shall accept said facilities so long as they are built in accordance with the provisions of this **AGREEMENT** and certified by an engineer licensed by the State of Florida to have been built substantially in accordance with the approved plans and specifications.

2. Service Rates. The rates for both potable water and wastewater treatment service to be charged to the **PROJECT** shall be those rates as set forth by the **DISTRICT**, in its ordinance entitled "An Ordinance Promulgating the Rates to be Charged for use of the District Water and Sewer Services", as amended.

3. Failure to Perform. The parties agree that failure or delay of the **DISTRICT** or the **DEVELOPER** in performing any of the terms of this **AGREEMENT** shall be excused if and to the extent the failure or delay is caused by acts of God, wars, fires, strikes, floods, weather, or any law, ordinance, rule or regulations, or the order or action of any court or agency or instrumentality of any government, or any other cause or causes beyond the control of the **DEVELOPER** or the **DISTRICT**.

4. Agency Approvals. Water service by the **DISTRICT** is contingent upon applicable federal, state and county regulatory agency permits and approvals. Should federal, state or local permits and/or approvals for service to the **PROJECT** be denied or withheld, this **AGREEMENT** shall be null and void.

5. Indemnification. The **DEVELOPER** agrees to protect, indemnify and hold the **DISTRICT** harmless from all liabilities resulting from injuries or damages to persons or property caused by the act, omission or negligence of the **DEVELOPER's** servants, agents, or employees arising out of the installation of water or wastewater facilities by the **DEVELOPER**.

6. **Miscellaneous.** This **AGREEMENT** may not be changed, orally, but only by instrument in writing signed by the parties. Titles and captions to paragraphs are inserted for convenience only, and in no way define, limit, extend or describe the scope or intent of this **AGREEMENT** or the paragraphs or provisions herein. Failure of either party to exercise any right or power given hereunder, or to insist upon compliance by the other party with its obligations set forth herein, shall not constitute a waiver of either parties right to demand strict compliance with the terms and provisions of this **AGREEMENT**. Neither party shall declare the other in default of the provision of this **AGREEMENT** without giving the other party at least thirty (30) days advance written notice of intention to do so, during which time the other parties shall have the opportunity to remedy the default. The notice shall specify the default with particularity.

7. **Pre-Construction Conference.** A pre-construction conference for both onsite water construction shall be held by the **DISTRICT** and **DEVELOPER** shall be notified of said conferences and be allowed to attend and make comments.

8. **Notification of Inspector.** The **DISTRICT's** engineer shall notify the **DISTRICT** to arrange for the **DISTRICT's** inspector to be present when actual connection is made to both the **DISTRICT's** water lines.

9. **Severability.** In the event any one or more provisions contained in this **AGREEMENT** shall for any reason be held invalid, illegal, or unenforceable in any respect, such invalidity, illegality, or unenforceability shall not affect any other provision hereof and this **AGREEMENT** shall be construed as if such invalid, illegal, or unenforceable provision had not been contained herein.

10. **Assignment.** This **AGREEMENT** may be assigned by **DEVELOPER** only with the prior consent of the **DISTRICT.**

11. **Binding Effect.** This **AGREEMENT** shall be binding upon and shall inure to the benefit of the successors and assigns of the respective parties hereto.

IN WITNESS WHEREOF, the parties hereto have set their hands and seals this _____ day of _____, 2007. **SIGNED, SEALED and DELIVERED** in the presence of:

MEMORANDUM

TO: The Honorable Chairperson and Members of the Hernando County Water and Sewer District Governing Board

VIA: Gary Kuhl, County Administrator

VIA: George Zoettlein, Director

FROM: Jesse Goodwin, Interim Utilities Director JAG
Utilities Department

Date: April 13, 2007

Subject: Western Seville Supplemental Water Agreement

RECEIVED
CENTRAL PURCHASING
07 APR 13 PM 3:23

BRIEF OVERVIEW:
Utilities Department Staff with legal assistance has spent several months negotiating a Supplemental Water Agreement with the Developer of the Seville Subdivision to replace the existing Seville Water Treatment Plant. The new water plant is necessary to serve the proposed 2,780 residential units along with adjacent 54,000 square feet of non-residential development. A new water treatment plant will be designed and constructed and will include a 2 million gallon ground storage tank, a new high service pump station, electrical upgrades and emergency generator.

The Agreement provides that the Developer agrees to the prepayment of 25% of the water connection fees equal to 695 ERUs at a cost of $1,147 per ERU for the proposed 2,780 unit Seville Subdivision in the total amount of $797,165. Payment of the initial installment of $271,885 will be immediate and fund the cost of the engineering contract for design of the new water plant. Payment of the second installment in the amount of $525,280, the remaining balance, shall be within 30 days of the issuance of advertisement of bids for construction of the project. After the initial 695 prepaid connections have been used all other water connection fees will be paid at the current water connection fee rate in effect at the time payment is made.

BUDGET IMPACT:
The water connection fees from the 2,780 single-family residential unit development in the total amount of $3,188,660 at current connection fee rates will more than offset the estimated $2.1 million engineering and construction costs for the new water plant. In addition, the water user fees generated from the Seville Subdivision will have a positive impact on the District's annual operating budget.

LEGAL IMPACT:
The Board is granted the authority under the provisions of Subsection 125.012, Florida Statues, to enter into water agreements in order to provide service to residential subdivisions within the County.

"MINUTES OF"
APR 24 2007

CONSENT
AGENDA ITEM 12.

RECOMMENDED ACTION:
Since the new Seville Water Plant will help to supply the future water demand of the proposed Seville Subdivision and surrounding area and the Developer will provide upfront funding for the project Staff recommends the Board approve the attached Supplemental Water Agreement.

ADMINISTRATIVE NOTE:

_____ See attached memorandum

WESTERN SEVILLE
SUPPLEMENTAL WATER AGREEMENT

This AGREEMENT is made and entered into this 4th day of April 2007, by and between the Hernando County Water and Sewer District, a body corporate and politic, hereinafter referred to as the **"DISTRICT"** and Seville, LLC, a Florida Corporation, hereinafter referred to as the **"DEVELOPER."**

RECITALS

WHEREAS, the **DEVELOPER** is presently proceeding with the planning and construction of a residential subdivision within Hernando County to be known as Seville at the Dunes, hereinafter referred to as the **"PROJECT";** and

WHEREAS, the legal description of the **PROJECT** is attached hereto as Exhibit A; and

WHEREAS, the **PROJECT** is planned for approximately 2,780 single-family residential units and 54,000 square feet of non-residential; and

WHEREAS, the parties hereto, together with another entity, are also parties to that certain First Amended and Restated Seville Water and Sewer Agreement, dated February 15, 2005 (Seville Agreement); and

WHEREAS, the parties hereto have entered into this **WESTERN SEVILLE SUPPLEMENTAL WATER AGREEMENT** to delineate, make certain and define each of their obligations with respect to a water supply and distribution system for the **PROJECT**, in light of certain matters affecting only their interests which have arisen recently; and

WHEREAS, it is the intent of the parties hereto that this Agreement is intended to supplement the Seville Agreement and is not intended to modify any provisions thereof, except to the extent of express conflict therewith and only with respect to enhancing water supply to that portion of the **PROJECT** which is the sole responsibility of the **DEVELOPER**; and

WHEREAS, the **DISTRICT** operates a water system capable of providing potable water service to the **PROJECT**; and

WHEREAS, the parties are desirous of entering into a supplemental agreement to enhance the provision of potable water service to the **PROJECT.**

NOW, THEREFORE, in consideration of the sum of Ten Dollars ($10.00) and other good and valuable consideration in hand paid by the parties hereto each to the other, simultaneously with the execution and delivery of these presents, and in consideration of the mutual undertakings and agreements hereinafter set forth and contained, the parties hereto covenant and agree each with the other as follows:

I. AGREEMENTI. AGREEMENT

I. WATER SUPPLY AND DISTRIBUTION SYSTEM.

1. Water Supply. The **DEVELOPER** is responsible for expanding the West Seville interim water supply system, at its own expense, as needed to serve the **PROJECT**, pursuant to the Seville Agreement. Supply needs shall include both potable water and fire flow requirements internal to the development, as affected by the provisions herein relating to storage.

2. Onsite Water Distribution System. The **DEVELOPER** agrees to construct the onsite water distribution system for the **PROJECT,** pursuant to the requirements of the Seville Agreement.

3. Payment of Water Connection Fees. Notwithstanding anything in the Seville Agreement to the contrary, pursuant to this **WESTERN SEVILLE SUPPLEMENTAL WATER AGREEMENT,** the **DEVELOPER** agrees to prepay 25% of the water connection fees for the development equal to 695 ERUs at a cost of $1,147 per ERU for a Total Amount of $797,165, to be paid in two installments. Payment of the initial installment shall be in the amount of $271,885, the engineering contract entered into by the **DISTRICT** for the project work required in this Agreement, and shall be payable within thirty days of the date of this Agreement, which shall be the date the last of the parties hereto execute it. The second installment will be in the amount of $525,280, the remaining balance of the Total Amount, and shall be paid within 30 days of the issuance of an advertisement for bids to let a contract for construction of the project. In return the **DISTRICT** will immediately begin the process of designing of an above ground storage tank of adequate size and the necessary high service and well pumps necessary to service the project. The **DISTRICT** shall act

expeditiously within the requirements of Florida Statutes and applicable County purchasing ordinances and policies to award to contract for design, with a subsequent contract award for construction of the tank and pumps as soon as legally and reasonably appropriate after design is finished. After the initial 695 prepaid connections have been used all other water connection fees will be paid at the **DISTRICT's** water connection fee rate in effect at the time payment is made. Connection fees for any non-residential buildings within the **PROJECT** shall be paid at the **DISTRICT's** commercial connection fee rate schedule prior to the issuance of a building permit. In all cases, the **DEVELOPER** agrees to pay the then current connection fee rates in effect at the time of each payment.

4. Plans and Specifications. The **DISTRICT** agrees to prepare or have prepared plans and specifications necessary for the construction of the above ground tank, necessary yard piping, and necessary pump upgrades described in this Agreement. The **DISTRICT** will be responsible for all engineering and survey services necessary for the preparation of these plans, construction inspection and supervision, permitting, engineer's certification, and preparation and submittal of one (1) set of reproducible and two (2) sets of sealed "As Built" or "Record" drawings. The **DISTRICT** in good faith will make every attempt to complete said above improvements by no later than April 21st, 2008 unless a revised date is agreed to by both parties.

5. Ratification of First Amended and Restated Seville Water and Sewer Agreement. Except as expressly modified herein or by the actions of the parties thereto and third parties, **DEVELOPER** and **DISTRICT** hereby ratify and confirm the obligations of the parties as contained in the Seville Agreement.

II. GENERAL PROVISIONS

1. Compliance with Ordinance. The **DISTRICT** and the **DEVELOPER** agree that this **AGREEMENT** acknowledges a request for water service from the **DISTRICT**. This **AGREEMENT** further provides terms hereof which constitute the response to the **DEVELOPER's** request for potable water service and the availability of such service is

based upon the terms of this **AGREEMENT**. This **AGREEMENT** constitutes a formal commitment from the **DISTRICT** to the **DEVELOPER** to provide potable water to the **DEVELOPER**. Potable water service as outlined in this **AGREEMENT** is contingent upon the **DISTRICT's** final acceptance of the water transmission lines and facilities as well as the receipt of connection fees as specified in this **AGREEMENT**. The **DISTRICT** shall accept said facilities so long as they are built in accordance with the provisions of this **AGREEMENT** and certified by an engineer licensed by the State of Florida to have been built substantially in accordance with the approved plans and specifications.

2. Service Rates. The rates for both potable water and wastewater treatment service to be charged to the **PROJECT** shall be those rates as set forth by the **DISTRICT**, in its ordinance entitled "An Ordinance Promulgating the Rates to be Charged for use of the District Water and Sewer Services", as amended.

3. Failure to Perform. The parties agree that failure or delay of the **DISTRICT** or the **DEVELOPER** in performing any of the terms of this **AGREEMENT** shall be excused if and to the extent the failure or delay is caused by acts of God, wars, fires, strikes, floods, weather, or any law, ordinance, rule or regulations, or the order or action of any court or agency or instrumentality of any government, or any other cause or causes beyond the control of the **DEVELOPER** or the **DISTRICT**.

4. Agency Approvals. Water service by the **DISTRICT** is contingent upon applicable federal, state and county regulatory agency permits and approvals. Should federal, state or local permits and/or approvals for service to the **PROJECT** be denied or withheld, this **AGREEMENT** shall be null and void.

5. Indemnification. The **DEVELOPER** agrees to protect, indemnify and hold the **DISTRICT** harmless from all liabilities resulting from injuries or damages to persons or property caused by the act, omission or negligence of the **DEVELOPER's** servants, agents, or employees arising out of the installation of water or wastewater facilities by the **DEVELOPER**.

6. **Miscellaneous.** This **AGREEMENT** may not be changed, orally, but only by instrument in writing signed by the parties. Titles and captions to paragraphs are inserted for convenience only, and in no way define, limit, extend or describe the scope or intent of this **AGREEMENT** or the paragraphs or provisions herein. Failure of either party to exercise any right or power given hereunder, or to insist upon compliance by the other party with its obligations set forth herein, shall not constitute a waiver of either parties right to demand strict compliance with the terms and provisions of this **AGREEMENT**. Neither party shall declare the other in default of the provision of this **AGREEMENT** without giving the other party at least thirty (30) days advance written notice of intention to do so, during which time the other parties shall have the opportunity to remedy the default. The notice shall specify the default with particularity.

7. **Pre-Construction Conference.** A pre-construction conference for both onsite water construction shall be held by the **DISTRICT** and **DEVELOPER** shall be notified of said conferences and be allowed to attend and make comments.

8. **Notification of Inspector.** The **DISTRICT's** engineer shall notify the **DISTRICT** to arrange for the **DISTRICT's** inspector to be present when actual connection is made to both the **DISTRICT's** water lines.

9. **Severability.** In the event any one or more provisions contained in this **AGREEMENT** shall for any reason be held invalid, illegal, or unenforceable in any respect, such invalidity, illegality, or unenforceability shall not affect any other provision hereof and this **AGREEMENT** shall be construed as if such invalid, illegal, or unenforceable provision had not been contained herein.

10. **Assignment.** This **AGREEMENT** may be assigned by **DEVELOPER** only with the prior consent of the **DISTRICT.**

11. **Binding Effect.** This **AGREEMENT** shall be binding upon and shall inure to the benefit of the successors and assigns of the respective parties hereto.

IN WITNESS WHEREOF, the parties hereto have set their hands and seals this 24th day of April, 2007. **SIGNED, SEALED and DELIVERED** in the presence of:

MEMORANDUM **PD-142**

TO: The Honorable Chairman & Members of the Board of County Commissioners

VIA: Gary Kuhl, County Administrator

VIA: Ronald F. Pianta, AICP, Planning Director
Hernando County Planning Department

FROM: Jerry Greif, Chief Planner
Hernando County Planning Department

SUBJECT: Clearing and site grading approval for a portion of Nature Coast Commons

Brief Overview:	The applicant is requesting Board approval to allow clearing and grading for the J.C. Penneys's site which will be Phase I of Nature Coast Commons. The applicant has provided plans for that portion of the project which are ready for Board approval.
Budget Impact:	There are no budgetary impacts associated with the recommended action.
Legal Impact:	The Board has the authority to take the recommended action.
Recommended Action:	It is recommended that the Board approve the clearing, grading and utility work to commence in the first phase of Nature Coast Commons.
Administrative Note:	____ ***Reviewed*** ____ ***See attached memo***

☐ ***Issue is a quasi-judicial function of the Board and Exparte procedures apply.***

The applicant is requesting to be allowed to clear, perform site grading and utility work for J.C. Penneys on a portion of the proposed Nature Coast Commons subdivision. The Nature Coast Commons development is located south of the Walmart store on US 19.

The plans have been reviewed by the affected County agencies and are in compliance with the County's current development standards. The Southwest Florida Water Management District (SWFWMD) has issued a completeness letter for the construction of this project. No site work shall commence until all required permits have been issued by the affected agencies.

HERNANDO COUNTY CLERK OF CIRCUIT COURT
FINANCE DEPARTMENT

MEMORANDUM

RECEIVED
BOARD OF COUNTY COMM
HERNANDO COUNTY
2007 APR 17 PM 3:35

TO: Board of County Commissioners

FROM: Karen Nicolai, Clerk of Circuit Court

DATE: April 13, 2007

RE: Board of County Commissioners Approval of Disbursements

In compliance with Florida Statute 136.06, the attached check register of accounts payable disbursements from the Board of County Commissioners funds for the week ending April 13, 2007 is submitted for your approval.

The total Board of County Commissioners payroll disbursements were $1,125,021.68 net for the week ending April 13, 2007.

If you would like to review the documentation for any of these disbursements, please contact Amy Gillis at 540-6788.

Thank you for your continued cooperation.

CONSENT AGENDA ITEM 14.

CORRESPONDENCE TO NOTE
April 24, 2007

1. Received a memorandum from Finance Director Amy Gillis listing exceptions to the purchasing policy that took place in March 2007. In this case no purchase order was processed. The exceptions were reviewed by the department head, County Administrator, and the Finance Department before the disbursement was processed for payment. The exceptions were: $213.05 for RM Johnson Co., Inc., by Utilities – Solid Waste; $45.00 by BellData for Health & Human Services; $1,141.60 for by Heartland Services by H.C. Fire Rescue.

2. Received a copy of minutes of the meeting of the Board of Supervisors of the Killarney Community Development District held on December 11, 2006,and approved at the February 5, 2007 meeting. Copies have been forwarded to the County Commissioners, County Administrator, and Deputy County Administrator.

3. Received a letter from Sterling Hill Community Development District representative Steven P. Murman transmitting the annual Financial Audit Report pursuant to Section 11.45, and Section 189.418, Florida Statutes. An independent special district must file its Annual Financial Audit Report with the Office of the Auditor General and the Clerk of the governing County within 45 days of audit completion and within 12 months of fiscal year end.

RECEIVED
BOARD OF COUNTY COMM.
HERNANDO COUNTY
2007 APR 12 PM 2:42

TO: Board of County Commissioners, Correspondence to Note

FROM: Amy Gillis, Finance Director

DATE: April 12, 2007

SUBJECT: Purchasing Policy Exceptions - March

The following purchasing policy exceptions took place in the month of March. In accordance with the request by the Board, the attached disbursement requests were returned to the originating department heads, reviewed by them, and forwarded to the County Administrator for approval for payment. Upon completion of this process, and after final review by the Finance Department, the disbursement requests were processed for payment. Additionally, Purchasing Card violations discovered during the monthly audit process are included as separate schedules.

Vendor	Exception	Amount	Department
RM Johnson Co., Inc.	No Purchase Order Issued	$ 213.05	Utilities - Solid Waste
BellData	No Purchase Order Issued	$ 45.00	Health & Human Svs.
Heartland Services	Over $1000 PCard limit	$1,141.60	H.C. Fire Rescue

Denise.

Bell Data Systems, Inc. is the developer of our Agency Inforamtion Management System (AIMS) that we use to document client contacts for all programs. The service provided was a telephone consultation and on-line assistance to resolve a couple of software issues. This service is not needed very often and the Vendor no longer accepts credit cards. The Purchasing Department will not prepare a purchase order after the date of service.

Subj: Purchasing card Policy Exception Form Response

I spoke to Rick Spears about this purchase and he said he did not order these items during the same phone call but he did order them the same day. Rick said, he ordered the items on the day they were authorized, but the orders were apparently placed on the same invoice. I spoke with Christian from Heartland and they advised me that it is their common practice is if when they run a credit card and it does not go thru they split the purchase and run it again. By Heartland doing this it appears as though Rick had attempted to go over his daily and transaction limit of his county VISA card. Rick failed to confirm the total price prior to ending his conversation with heartland, which is a mistake that he has assured me will not occur again. He ordered the items and thought he was under his limit.

This occurrence is isolated to one transaction and he has been using his VISA on a regular basis for the purchase of computer hardware. It has been discussed with this employee and he has assured me that he will be more attentive to the final dollar amount that will be placed on his VISA.

The purchasing card transaction detailed above does not appear to be in compliance with County Purchasing Policy for the following reason:

Your purchase on Battens is over the $1,000.00 limit

This purchasing card exception must be approved by the County Administrator. Please forward all documentation, with this form attached and letter of explanation, to the County Administrator's office.

TO: COUNTY ADMINISTRATOR

Please review, and upon approval, return to the Finance Department.

Subj: Purchasing card Policy Exception Form Response

I spoke to Rick Spears about this purchase and he said he did not order these items during the same phone call but he did order them the same day. Rick said, he ordered the items on the day they were authorized, but the orders were apparently placed on the same invoice. I spoke with Christian from Heartland and they advised me that it is their common practice is if when they run a credit card and it does not go thru they split the purchase and run it again. By Heartland doing this it appears as though Rick had attempted to go over his daily and transaction limit of his county VISA card. Rick failed to confirm the total price prior to ending his conversation with heartland, which is a mistake that he has assured me will not occur again. He ordered the items and thought he was under his limit.

This occurrence is isolated to one transaction and he has been using his VISA on a regular basis for the purchase of computer hardware. It has been discussed with this employee and he has assured me that he will be more attentive to the final dollar amount that will be placed on his VISA.

MINUTES OF MEETING
KILLARNEY
COMMUNITY DEVELOPMENT DISTRICT

The regular meeting of the Board of Supervisors of the Killarney Community Development District was held on Monday, December 11, 2006 at 9:05 a.m. at the Killarney Recreation Center, 14143 Sweet Shrub Court, Brooksville, Florida.

Present and constituting a quorum were:

John Buehler	Chairman
Betty Valenti	Vice Chairperson
Wayne Ransom	Assistant Secretary
Richard Dombrowski	Assistant Secretary
Ralph Sevelius	Assistant Secretary

Also present were:

John Ricciardi	Manager
Tracy Robin	Attorney (Via Telephone)
Sandra Manuelle	Clubhouse Manager
Lynn Jackson	Severn Trent Services
Claudia Gonzales	Resident
Mario Gonzales	Resident
Kelly Vargas	Resident

FIRST ORDER OF BUSINESS **Roll Call**

Mr. Ricciardi called the meeting to order and called the roll.

SECOND ORDER OF BUSINESS **Organizational Matters – Oath of Office of Newly Appointed Supervisor**

Mr. Ricciardi stated Mr. Sevelius is not here. I will try to get in touch with him so he completes the Oath of Office and comes to a meeting.

THIRD ORDER OF BUSINESS **Acceptance of the Minutes of the October 9, 2006 Audit Committee Meeting and Approval of the Minutes of the October 9, 2006 Regular Meeting**

Mr. Ricciardi stated each Board member received a copy of the minutes of the October 9, 2006 Audit Committee meeting as well as the regular meeting and requested any corrections, additions or deletions.

On MOTION by Ms. Valenti seconded by Mr. Buehler with all in favor the minutes of the October 9, 2006 Audit Committee meeting were accepted.

Ms. Valenti stated I found a couple of corrections in the minutes of the regular meeting. In the middle of the page it should state, "Mr. Buehler stated if it works properly, it cannot close on you." On page six, it should be "William Ryan" instead of "Wayne Ryan". In the third paragraph from the bottom of page nine, it should be "Rampart Properties". The last sentence of the same paragraph should state, "They will continue to coordinate the administering of the gate clickers because they have the software for programming the gate." On page 14, the second paragraph, remove "we are" and replace it with "that has" in the first sentence. Three paragraphs below it, the word "weaning" should be "weeding".

On MOTION by Mr. Buehler seconded by Mr. Ransom with all in favor the minutes of the October 9, 2006 meeting were approved as amended.

FOURTH ORDER OF BUSINESS **Manager's Report - Consideration of Engagement Letter with Grau & Associates to Perform Financial Audit for Fiscal Year 2006**

Mr. Ricciardi stated if you look in your Board package there is an engagement letter from Grau and Associates. In the second paragraph of the last page, they indicate their fee will not exceed $6,000 for the September 30, 2006 audit. We put $8,550 in the budget. This is under budget and we recommend you authorize the Chairman to sign the engagement letter with Grau & Associates.

On MOTION by Mr. Dombrowski seconded by Mr. Ransom with all in favor the Chairman was authorized to sign the engagement letter with Grau & Associates to perform the financial audit for fiscal year 2006.

Mr. Ricciardi stated there was a question regarding the possibility of changing the name of the District.

Mr. Robin stated I called the assistant county attorney regarding this issue. They view it as a routine matter. They require a letter of request to the county attorney in order to accomplish

this. They believe any costs associated will be minimal. It can be handled by amending the ordinance to change the name of the District.

Mr. Buehler asked can you write this letter for us?

Mr. Robin responded yes. We anticipate doing it with direction from the Board.

Mr. Ricciardi stated we brought this up due to ongoing confusion with the residents and possibly with future buyers. This is technically the Killarney CDD because it was the original name; however, everyone knows it by Spring Ridge. According to Mr. Robin it is a simple task. We will need a letter signed by the Chairman and it will go to the county. There will be some legal issues to go through, but the cost will be minimal. There will be attorney fees. From the management company's point of view, we recommend you do this.

Mr. Robin stated we should consider adopting a resolution to change the name of the District so we have something to give the county. It will give us something tangible to send to the county.

Mr. Ricciardi stated the Board needs to pass a motion approving the name change. We then need to pass a motion authorizing the Chairman to sign a resolution requesting a name change. We will get the signed resolution to Mr. Tracy so he can send it to the county with a letter.

On MOTION by Mr. Ransom seconded by Mr. Dombrowski with all in favor staff was authorized to proceed with the District name change formalities.

On MOTION by Mr. Dombrowski seconded by Mr. Buehler with all in favor the Chairman was authorized to sign a resolution requesting a name change from the Killarney CDD to the Spring Ridge CDD.

Mr. Ricciardi stated there was a concern with the gates at the last meeting. Do you want to speak to all the gate questions?

Ms. Manuelle responded we met with American Access on October 19, 2006. We asked all the questions, which were brought up at the last meeting. He said it is possible the electric towers interfere with the functioning of the gates, but it should not be an issue. We asked him if the programming needs to be reset after a certain number of vehicles pass through the gates using the sensor to open it. He said that is false. We asked him why sometimes at night the gate to

leave the community remains open and he said there may be several reasons. Vehicles may be striking the gate when it is opening too slowly. It is almost always human error. The last thing I asked him was what causes the transmitters not to work. It can be programming errors. Other reasons can be the batteries or the metal in cars.

Mr. Ricciardi stated we came onsite with the representatives of the access controls and went over the gate situation. They taught Ms. Manuelle how to reset the gate if it malfunctions. Have we had any problems since then?

Ms. Manuelle responded there was one complaint, but I was not made aware of it. The gate company came here and there was nothing wrong with the gate.

Ms. Vargas stated the other day I came back at night. There was a car trying to open the gate from the exit side. That should not happen. You should have a camera to record what cars are trying to open the gate. It affects the functionality.

Mr. Ricciardi asked were they leaving the community?

Ms. Vargas responded they were trying to get into the community through the exit and they were trying to open the gate with the car.

Mr. Buehler stated I suggest we look into what it will cost.

Mr. Ricciardi stated we looked into installing a camera. I contacted a company, which recently installed a camera at Tampa Palms CDD. Ms. Manuelle took photographs of the gate area and I sent them to him. He was hoping to give me an estimate by today, but he did not. We just got an estimate for Heritage Harbor CDD. They are doing two entrances, which are a similar set up to what you have. The estimate there was $15,000 for the two entrances. Since we only have one entrance, I estimate it will be approximately $7,000 to $8,000. It will include the cameras as well as any communication equipment you will need. You will probably communicate from the gate down to the clubhouse where we can have the recording equipment.

Mr. Buehler asked is there an extra cost for recording equipment?

Mr. Ricciardi responded we can hopefully do it through the computer. In most of the set ups we are currently doing, you bring it through a website onto the computer.

Mr. Buehler stated it stores on a website.

Mr. Ricciardi stated that is correct. It can be more.

Mr. Ransom stated I know we have stationary locations on the entrance gate to see tag numbers. Do you know where they will place a camera to view tag numbers on the exit gate?

Mr. Ricciardi responded what they normally do on the exit gates is position the camera for the purpose of seeing the license plates.

Mr. Buehler asked if it is on the web, is it accessible to the homeowners?

Mr. Ricciardi responded no. It is accessible to whomever the Board wants it to be accessible to. It is like any website where you have a log in ID. If the Board wants to pursue this, they will need to come out and do a site survey in order to give us a formal proposal. Ms. Manuelle and I can work on it and have it for you at the next meeting.

Mr. Buehler stated I suggest you look into it.

Mr. Ricciardi stated I would like to get two quotes if possible. Do you have any companies you work with? The company we use at Tampa Palms CDD is a good company. They stand behind their equipment and we like working with them.

Ms. Valenti asked which company do you use?

Mr. Ricciardi responded I believe it is called Knight's Security.

Ms. Valenti stated I do know another company. I can get the information to you so we can get a second quote.

There was Board Consensus to get proposals for cameras at the entrance gate.

Mr. Ricciardi asked is the security system in the clubhouse repaired?

Ms. Manuelle responded yes.

Mr. Ricciardi stated one of the things the Board wanted us to look at was the notion of the roads and the ownership of the roads within the community. I contacted Mr. Nixon from the county. I spoke with Mr. Sutton who is the assistant county engineer as well as Mr. Carpenter. I also spoke with Mr. Olsen, our District engineer, regarding the ownership of the roads.

The way the plats are filed with the county, the roads are owned and to be maintained by the CDD. They are not dedicated to the county. At this point, the CDD owns these roads and is responsible for maintenance once they are out of the warranty period. If this is the case and we cannot turn them over to the county, we will need to begin building a road reserve.

Mr. Buehler stated at that point the gates can be permanently shut.

Mr. Robin stated they cannot be permanently shut because they were constructed with tax exempt bonds. As long as the bonds exist the roads have to be accessible to the public or you jeopardize the tax exempt status of the bonds.

Mr. Ricciardi stated there was some confusion initially that the roads would be dedicated to the county. It was not done on the plat. I do not know where it got lost in translation. It will

be at least fifteen years before any work is needed on the roads. Do you want to discuss the tot lot?

Ms. Manuelle responded yes. I met with a representative from Wow Playgrounds. He came out to the site to help me pick out which playgrounds will best fit the parking lot area. There is a price range between $8,800, for a capacity of 26 children and 8 activities, to $15,800 for a capacity of 37 children and 13 activities. This is for materials only. Additional costs will be to level the ground. Freight will be approximately $1,000 to $1,500. Installation is approximately 35% of the actual costs of materials. The playground safe mulch will be an additional $1.50 to $2.00 a square foot. A border to keep the mulch in, a fence and accessories such as a trash bin or a bench will be extra.

Mr. Buehler asked does this include any shade?

Ms. Manuelle responded every playground I looked at in the catalogue has shade built on to it.

Mr. Ricciardi stated Playtime is another company we use at many of our properties. They are made of a reinforced plastic composite material, which holds up well in the Florida sun. They are made from materials, which do not corrode.

Ms. Valenti asked can it be installed so you can add to it on a later date?

Ms. Manuelle responded I do not believe so. They have separate pieces in the catalogue you can buy.

Mr. Ricciardi stated I spoke to Mr. Olsen in terms of his best suggestion of where to put a playground and if we will have any permitting problems. He suggested the temporary parking area where the models are will be an ideal place to put a playground. We also looked at the possibility of a basketball court.

Ms. Manuelle stated this is a handout of a basketball hoop we found online. I found a handyman who will install it for $15 an hour. That is to install it in the ground in the parking lot. We will not have a court. We have to decide if we want a court and how safe it is to just install a hoop.

Mr. Ricciardi stated the engineer indicated the number of parking spaces we have needs to stay because it was built according to code. He does not see a problem with erecting a basketball hoop adjacent to the parking area and letting the kids use the parking area as long as you do not re-stripe and delineate specific basketball areas. In looking at the parking lot area it is sloped because of drainage. It is not ideal for putting in a basketball hoop in our opinion. We

suggest putting in a basketball half court or quarter court at one end of the tot lot when we get it. From a liability point of view I would rather have it away from the parking lot area where cars will be driving. I do not know if the Board wants to entertain this at the moment. A playground will cost anywhere from $10,000 to $30,000. A basketball hoop with a concrete half court runs approximately $5 a square foot with a slide. He does not think there will be an issue with SFWMD.

Mr. Buehler asked if we do all of this, what will it do in regards to the assessments? Is there enough in the reserves? What is the effect of doing this?

Mr. Ricciardi responded you have a cash balance of approximately $103,000. There is some money so you can do a tot lot and still have a cushion. You have funds in your construction account, but it is being put in a reserve pending what happens at the front entrance.

Mr. Buehler stated we do not need to look at that money at the moment, but the $103,000 needs to be looked at for a road reserve. My concern is to make sure the assessment levels do not go up too high.

Mr. Ricciardi stated communities like this have playgrounds. A tot lot for $15,000 to $20,000 may be a good investment. It is a good plan to reserve the bulk of the money and restrict it.

Mr. Buehler stated I want to make sure we do a good job of keeping the assessment levels down. If the residents want a tot lot and they do not mind paying a little more, we can do it.

Mr. Ricciardi stated we can build it into next year's budget. How long do we need to keep the temporary parking lot?

Mr. Buehler responded the parking spaces are for the models. As the models go away, the parking lot can go away as well.

Mr. Ricciardi stated at that time we can put in a tot lot.

Mr. Dombrowksi stated they offer big shade fabric, which we will need a reserve to replace at some point. We should use the lightest color offered; otherwise, kids will never be able to use it because of the sun.

Ms. Manuelle stated the fabric shade is great, but it has to be taken off for hurricanes of 150 to 170 mph.

The record will reflect Mr. Sevelius joined the meeting.

SECOND ORDER OF BUSINESS **Organizational Matters – Oath of Office of Newly Appointed Supervisor (Continued)**

Mr. Ricciardi being a Notary Public of the State of Florida administered the Oath of Office to Mr. Ralph Sevelius and a copy of the signed oath is attached hereto and made a part of the public record.

Mr. Ricciardi presented Mr. Sevelius with the Form 1 Financial Statement to be filed with the Supervisor of Elections in the county in which he resides as well as the guide to the Sunshine Law.

Mr. Ricciardi stated anytime we add a new member to the Board we have the opportunity to reconstitute the officer structure. Currently Mr. Buehler is Chairman, Ms. Valenti is Vice Chairperson and Mr. Ransom is Assistant Secretary. We need to appoint Mr. Dombrowski as Assistant Secretary. If the Board would like to retain this officer structure we can do so. We will need a motion to retain the officer structure and appoint Mr. Dombrowski as well as Mr. Sevelius as Assistant Secretaries so they are covered under officer liability.

On MOTION by Mr. Dombrowski seconded by Mr. Buehler with all in favor the current officer structure will be retained and Mr. Dombrowski as well as Mr. Sevelius were appointed Assistant Secretaries.

FOURTH ORDER OF BUSINESS **Manager's Report - Continued**

Mr. Ricciardi stated I have a couple of informational items. We were fined by the county for trash. We received a check from Windward Homes for half of the fine. Mr. Dombrowski indicated William Ryan Homes will participate with their share. We appreciate your support. Mr. Ransom was working with the county trying to get them to let us know the next time before they administer a fine so we have the opportunity to clean it up.

I raised a concern with the sidewalk being a safety hazard. There are houses on either side of here and there was a steep drop off between that area. It needed to be rectified and it has been. I appreciate it.

At the last meeting I mentioned one of the residents filed a claim with the District's insurance company for damage to their vehicle at the front gate. I have been verbally informed by the insurance company they are denying the claim. This is when the gates were

malfunctioning. He did not hit the gate. He hit the curb to the right of the gate and as a result the insurance is maintaining speed may have been a factor. There was $800 damage to his vehicle.

In the financials you will see charges from Severn Trent Services for field management services. It will be credited back to the District. Those were fees, which were supposed to be paid to Rampart Properties when they were doing it. Our offices thought it was a Severn Trent Services charge. They will be reimbursing the District for it. We cancelled the contract with Rampart Properties and Ms. Manuelle is handling the field management work now.

We received an email from Mr. Olsen regarding the required southern buffer for Spring Ridge. Would someone like to speak about it?

Mr. Ransom responded the agreement with Brook Ridge Community for a bugger was to install a fence, but instead they require a buffer. It was presented before the county and they approved it. They have the paperwork in their records. It has been rectified.

Mr. Buehler stated Brook Ridge asked for a six foot tall fence instead of what was in the development orders. The agreement was we would put in a six foot tall chain link fence all around in lieu of the buffer. It was agreed upon by Brook Ridge and the county.

Mr. Ricciardi stated at this point it is not an issue.

FIFTH ORDER OF BUSINESS Attorney's Report

There being no report, the next item followed.

SIXTH ORDER OF BUSINESS Engineer's Report

There not being any, the next item followed.

SEVENTH ORDER OF BUSINESS Property Manager

There being no report, the next item followed.

EIGHTH ORDER OF BUSINESS Clubhouse Manager

Ms. Manuelle stated there will be a holiday party here on December 17, 2006 for the residents. I am also having a craft day for the children. I am still waiting to here back on what kind of activities the community will like. Complaints have dropped significantly since the last Board meeting. I received a couple regarding fitness room equipment. They are stating it is not for commercial use. The other complaint is the time of the Board meeting because most people work and cannot make it.

Mr. Buehler asked are we supposed to have one after 5:00 p.m. a year?

Mr. Ricciardi responded CDDs are not required to have evening meetings. HOAs may be required to have one evening meeting, but not CDDs. The Board may want to have the budget

public hearing at night so we can ensure the residents participate in the budget planning for the next budget cycle. You are certainly welcome to go to evening meetings if you would like to, but you are not required to.

Mr. Buehler asked at what time is the holiday party?

Ms. Manuelle responded it is from 4:00 p.m. to 7:00 p.m.

Mr. Ransom asked was it based on any requests?

Ms. Manuelle responded yes. The residents requested it. It is like a pot luck dinner. They ask the builders to donate food as well.

Mr. Ransom asked are people using the facility?

Ms. Manuelle responded yes. The fitness room gets used. The pool was being used in the summer. We had our first birthday party.

Mr. Ransom asked were there any issues?

Ms. Manuelle responded no. They were great.

Mr. Ricciardi stated having Ms. Manuelle onsite is a positive thing from a developer point of view as well as a resident point of view. It was a great decision from the Board and Ms. Manuelle is great to work with.

Mr. Dombrowski asked will you be opposed to the developers inviting prospective buyers to the holiday party?

Ms. Manuelle responded no. They can come to the party. They were interested in having an open house at the clubhouse.

Mr. Ricciardi asked is there a fee for the holiday party?

Ms. Manuelle responded no. I changed my hours so I can be here. I am charging $3.50 per child for the craft party and it is just to cover the supplies.

NINTH ORDER OF BUSINESS **Supervisor's Requests**

Ms. Valenti stated I noticed we need ant treatment around the recreation center area.

Ms. Manuelle stated I have a pest control company, which sprayed.

Ms. Valenti stated this is for outside. There is a granular product, which lasts a year. It is expensive to do, but based on the longevity of the chemical it is worth it.

Ms. Manuelle stated he told me the stone around the pool brings ants.

Ms. Valenti stated when we are ready to mulch on the embankment I suggest we use pine needles. It will not move as much. We are going to get needles with the Pine Trees there anyway. It will be a better investment.

TENTH ORDER OF BUSINESS **Audience Comments**

A resident stated it is an issue going to the post office to get the mail.

Ms. Manuelle stated the only thing you can do is write your local congressman because it is out of our hands. I spoke with the postmaster and so has Mr. Ransom.

A resident stated we did too. They said the builders have the solution. Nothing is being done on either side.

Ms. Manuelle stated the solution they are referring to is putting temporary mailboxes outside and the cost will be approximately $80 per mailbox. It would end up being a cost of $17,000 to $20,000 for temporary mailboxes.

Ms. Valenti stated I received a call from a resident last week. He talked with the postmaster and the postmaster was considering allowing us to have phase delivery. I was going to mark up a site plan and send it to the post office. We are looking at having from the clubhouse back and the first street up to the construction trailer as the first phase and everything else as the second phase. We will hopefully be able to get delivery on this end of the community. It is something the postmaster said he would look at. We are talking about it, but it does not mean it is going to happen. He might look at the map and say it will not work.

Mr. Buehler stated once you establish a temporary mailbox they become part of the property of the US Government. Removing them at some point to get mail delivered throughout the community will be a question mark as well. If we install these temporary mailboxes, the postmaster may decide they like it better that way.

Ms. Valenti stated I met with the postmaster last Friday for the 354 area. I was informed the post office is no longer going to allow individual mailboxes. All communities will have a postal unit holding mail for 16 homes. The problem is a homeowner will have it in front of their house. If not, you have to build an area designed just for the mail. This is one of the final communities, which will have mail delivery as it is set up. You have it better than others.

ELEVENTH ORDER OF BUSINESS **Approval of Financials**

Mr. Ransom stated the cost of issuance under the Series 2004 capital shows as $13,714. I am not sure what this is.

Mr. Ricciardi stated I do not know. I will find out and email it to the Board.

On MOTION by Mr. Buehler seconded by Mr. Dombrowski with all in favor the financials dated October 31, 2006 were approved.

FIFTH ORDER OF BUSINESS **Adjournment**

Mr. Ricciardi stated I have one request of the Board. The next meeting is scheduled for February 12, 2007. I would like to see if the Board will consider moving it to Monday, February 5, 2007 or Monday, February 19, 2007 at the same time.

There was Board consensus to move all future meetings to the first Monday of the month, bi-monthly, at 9:00 a.m. beginning February 5, 2007 and to notice the meetings accordingly.

There being no further business,

On MOTION by Mr. Buehler seconded by Ms. Valenti with all in favor the meeting was adjourned.

John Ricciardi
Secretary

Notice of Meeting
Killarney Community Development District

A regular meeting of the Board of Supervisors of the Killarney Community Development District is scheduled for Monday, December 11, 2006 at 9:30 a.m. at Killarney Recreation Center, 14145 Shrub Oak Brooksville, Florida. The meeting is open to the public and will be conducted in accordance with the provisions of Florida Law for Community Development Districts. A copy of the agenda for this meeting may be obtained from Severn Trent Services, 210 N. University Drive, Suite 800, Coral Springs, Florida 33071. The meeting may be continued to a date, time, and place to be specified on the record at the meeting.

There may be occasions when one or more Supervisors will participate by telephone. At the above location there will be present a speaker telephone so that any interested person can attend the meeting at the above location and be fully informed of the discussions taking place either in person or by telephone communication.

Any person requiring special accommodations at this meeting because of a disability or physical impairment should contact the District Manager at (352) 753-5841 at least three calendar days prior to the meeting.

Each person who decides to appeal any decision made by the Board with respect to any matter considered at the meeting is advised that person will need a record of the proceedings and that accordingly, the person may need to ensure that a verbatim record of the proceedings is made, including the testimony and evidence upon which such appeal is to be based.

October 19, 2006

Board of Supervisors
Attn: Janice Larned
Killarney Community Development District
210 N. University Drive, Suite 702
Coral Springs, Florida 33071

We are pleased to confirm our understanding of the services we are to provide Killarney Community Development District, Florida, (the "District") for the year ended September 30, 2006. We will audit the financial statements of the governmental activities, each major fund and the remaining nonmajor fund information, if applicable, which collectively comprises the entity's basic financial statements, of Killarney Community Development District as of and for the year ended September 30, 2006. This letter serves to establish the terms and fee for the 2006 audit.

The document we submit to you will include the following supplementary information required by U.S. generally accepted accounting principles that will be subject to certain limited procedures, but will not be audited.

1. Management's discussion and analysis
2. Budgetary comparison schedule for the general fund

Audit Objectives

The objective of our audit is the expression of an opinion as to whether your financial statements are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles and to report on the fairness of the additional information referred to in the first paragraph when considered in relation to the financial statements taken as a whole. Our audit will be conducted in accordance with U.S. generally accepted auditing standards and the standards for financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and will include tests of the accounting records of Killarney Community Development District and other procedures we consider necessary to enable us to express such an opinion. If our opinion on the financial statements is other than unqualified, we will fully discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed an opinion, we may decline to express an opinion or to issue a report as a result of this engagement.

We will also provide a report (that does not include an opinion) on internal control related to the financial statements and compliance with laws, regulations, and the provisions of contracts or grant agreements, noncompliance with which could have a material effect on the financial statements as required by *Government Auditing Standards.* This report will include a statement that the report is intended solely for the information and use of the management and specific legislative or regulatory bodies and is not intended to be and should not be used by anyone other than these specified parties.

Management Responsibilities

Management is responsible for establishing and maintaining effective internal control and for compliance with laws, regulations, contracts, and agreements. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of the controls. The objectives of internal control are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, that transactions are executed in accordance with management's authorizations and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles.

Management is responsible for making all financial records and related information available to us. We understand that you will provide us with such information required for our audit and that you are responsible for the accuracy and completeness of that information. We will advise you about appropriate accounting principles and their application and will advise you in the preparation of your financial statements, but the responsibility for the financial statements remains with you. As part of our engagement, we may propose standard, adjusting, or correcting journal entries to your financial statements. You are responsible for reviewing the entries and understanding the nature of any proposed entries and the impact they have on the financial statements. That responsibility includes the establishment and maintenance of adequate records and effective internal control over financial reporting, the selection and application of accounting principles, and the safeguarding of assets. Management is responsible for adjusting the financial statements to correct material misstatements and for confirming to us in the representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

You are responsible for the design and implementation of programs and controls to prevent and detect fraud, and for informing us about all known or suspected fraud, or illegal acts affecting the government involving (1) management, (2) employees who have significant roles in internal control, and (3) others where the fraud or illegal acts could have a material effect on the financial statements. You are also responsible for informing us of your knowledge of any allegations of fraud or suspected fraud, or illegal acts affecting the government received in communications from employees, former employees, grantors, regulators, or others. In addition, you are responsible for identifying and ensuring that the entity complies with applicable laws and regulations and for taking timely and appropriate steps to remedy any fraud, illegal acts, violations of contracts or grant agreements, or abuse that we may report.

With regard to the electronic dissemination of audited financial statements, including financial statements published electronically on your website, you understand that electronic sites are a means to distribute information and, therefore, we are not required to read the information contained in these sites or to consider the consistency of other information in the electronic site with the original document.

As part of the audit, we will prepare a draft of your financial statements and related notes. In accordance with *Government Auditing Standards*, you will be required to review and approve those financial statements prior to their issuance and have a responsibility to be in a position in fact and appearance to make an informed judgment on those financial statements. Further, you are required to designate a qualified management-level individual to be responsible and accountable for overseeing our services.

While we will assist in the preparation of the District's financial statements, responsibility for the financial statements and preparation of Management's Discussion and Analysis are the responsibility of the District.

Audit Procedures—General

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, our audit will involve judgment about the number of transactions to be examined and the areas to be tested. We will plan and perform the audit to obtain reasonable rather than absolute assurance about whether the financial statements are free of material misstatement, whether from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or governmental regulations that are attributable to the entity or to acts by management or employees acting on behalf of the entity. Because the determination of abuse is subjective, *Government Auditing Standards*

do not expect auditors to provide reasonable assurance of detecting abuse. Because an audit is designed to provide reasonable, but not absolute assurance and because we will not perform a detailed examination of all transactions, there is a risk that material misstatements may exist and not be detected by us. In addition, an audit is not designed to detect immaterial misstatements or violations of laws or governmental regulations that do not have a direct and material effect on the financial statements. However, we will inform you of any material errors that come to our attention, and we will inform you of any fraudulent financial reporting or misappropriation of assets that comes to our attention. Our responsibility as auditors' is limited to the period covered by our audit and does not extend to matters that might arise during any later periods for which we are not engaged as auditors.

Our procedures will include tests of documentary evidence supporting the transactions recorded in the accounts, and may include tests of the physical existence of inventories, and direct confirmation of receivables and certain other assets and liabilities by correspondence with selected individuals, creditors, and financial institutions. We will request written representations from your attorneys as part of the engagement, and they may bill you for responding to this inquiry. At the conclusion of our audit, we will also require certain written representations from you about the financial statements and related matters.

Identifying and ensuring that Killarney Community Development District complies with laws, regulations, contracts, and agreements is the responsibility of management. As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we will perform tests of Killarney Community Development District's compliance with applicable laws and regulations and the provisions of contracts and agreements. However, the objective of our audit will not be to provide an opinion on overall compliance and we will not express such an opinion.

Audit Procedures—Internal Controls

In planning and performing our audit, we will consider the internal control sufficient to plan the audit in order to determine the nature, timing, and extent of our auditing procedures for the purpose of expressing our opinion on Killarney Community Development District's financial statements.

We will obtain an understanding of the design of the relevant controls and whether they have been placed in operation, and we will assess control risk. Tests of controls may be performed to test the effectiveness of certain controls that we consider relevant to preventing and detecting errors and fraud that are material to the financial statements and to preventing and detecting misstatements resulting from illegal acts and other noncompliance matters that have a direct and material effect on the financial statements. Tests of controls are required only if control risk is assessed below the maximum level. Our tests, if performed, will be less in scope than would be necessary to render an opinion on internal control and, accordingly, no opinion will be expressed in our report on internal control issued pursuant to *Government Auditing Standards.*

An audit is not designed to provide assurance on internal control or to identify reportable conditions. However, we will inform the governing body or audit committee of any matters involving internal control and its operation that we consider to be reportable conditions under standards established by the American Institute of Certified Public Accountants. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control that, in our judgment, could adversely affect the entity's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements. We will also inform you of any nonreportable conditions or other matters involving internal control, if any, as required by *Government Auditing Standards.*

Audit Administration, Fees, and Other

We understand that your employees will prepare all cash or other confirmations we request and will locate any documents selected by us for testing.

The audit documentation for this engagement is the property of Grau & Associates and constitutes confidential information. However, pursuant to authority given by law or regulation, we may be requested to make certain audit documentation available to a cognizant or oversight agency for audit or its designee, a federal agency providing direct or indirect funding, or the U.S. Government Accountability

Office for purposes of a quality review of the audit, to resolve audit findings, or to carry out oversight responsibilities. We will notify you of any such request. If requested, access to such audit documentation will be provided under the supervision of Grau & Associates personnel. Furthermore, upon request, we may provide copies of selected audit documentation to the aforementioned parties. These parties may intend, or decide, to distribute the copies or information contained therein to others, including other governmental agencies. Notwithstanding the foregoing, the parties acknowledge that various documents reviewed or produced during the conduct of the audit may be public records under Florida law. The District agrees to notify Grau & Associates of any public record request it receives that involves audit documentation.

Our fee for these services will be at our standard hourly rates plus out-of-pocket costs (such as report reproduction, word processing, postage, travel, copies, telephone, etc.) except that we agree that our gross fee, including expenses, will not exceed $6,000 for the September 30, 2006 audit. This agreement may be renewed each year subject to the mutual agreement to all terms, including fees, of both parties. The fee for each annual renewal will be agreed upon separately.

Our standard hourly rates vary according to the degree of responsibility involved and the experience level of the personnel assigned to your audit. Our invoices for these fees will be rendered each month as work progresses and are payable on presentation. Invoices will be submitted in sufficient detail to demonstrate compliance with the terms of this agreement. In accordance with our firm policies, work may be suspended if your account becomes 60 days or more overdue and may not be resumed until your account is paid in full. If we elect to terminate our services for nonpayment, our engagement will be deemed to have been completed upon written notification of termination, even if we have not completed our report. You will be obligated to compensate us for all time expended and to reimburse us for all out-of-pocket costs through the date of termination. The above fee is based on anticipated cooperation from your personnel and the assumption that unexpected circumstances will not be encountered during the audit. If significant additional time is necessary, we will discuss it with you and arrive at a new fee estimate.

Government Auditing Standards require that we provide you with a copy of our most recent external peer review report and any letter of comment, and any subsequent peer review reports and letters of comment received during the period of the contract. Our 2004 peer review report accompanies this letter.

We appreciate the opportunity to be of service to Killarney Community Development District and believe this letter accurately summarizes the significant terms of our engagement. If you have any questions, please let us know. If you agree with the terms of our engagement as described in this letter, please sign the enclosed copy and return it to us.

Very truly yours,

Grau & Associates

Antonio Grau, Jr.

RESPONSE:

This letter correctly sets forth the understanding of Killarney Community Development District.

RESOLUTION 2007-2

A RESOLUTION AUTHORIZING THE FILING OF A PETITION WITH THE BOARD OF COUNTY COMMISSION OF HERNANDO COUNTY, FLORIDA TO CHANGE THE NAME OF KILLARNEY COMMUNITY DEVELOPMENT DISTRICT TO SPRING RIDGE COMMUNITY DEVELOPMENT DISTRICT

WHEREAS, the Killarney Community Development District (the "**District**") was created by Ordinance No. 2000-14 of the County Commission of Hernando County, Florida adopted November 1, 2000 (the "**Ordinance**"); and

WHEREAS, said Ordinance was filed with the Secretary of State upon its adoption; and

WHEREAS, the property described in the Ordinance is set forth in **Exhibit "A"** hereto which is the land currently contained within the District; and

WHEREAS, the District desires to change the name of the Killarney Community Development District to Spring Ridge Community Development District.

WHEREAS, the Board of Supervisors has authority to petition the County Commission of Hernando County to change the name of the District; and

WHEREAS, The Board of Supervisors desires to authorize the filing of a petition and other necessary action to change the name of the District.

NOW, THEREFORE, BE IT RESOLVED by the Board of Supervisors of the Killarney Community Development District this 11TH day of DECEMBER, 2006, as follows:

1. The District hereby authorizes the District's counsel and its other staff to prepare a petition requesting that the County Commission of Hernando County modify the Ordinance by changing the name of the District to Spring Ridge Community Development District.

2. The Chairman of the Board of Supervisors, the District Counsel and other staff are hereby fully authorized to execute and enter into such petitions, applications or other instruments as may be necessary to fully effectuate the intent of this Resolution.

3. The District shall pay any application fees or other costs which are necessary to obtain approval of the County.

PASSED AND ADOPTED THIS 11TH DAY OF DECEMBER, 2006.

MINUTES OF MEETING
KILLARNEY
COMMUNITY DEVELOPMENT DISTRICT

The regular meeting of the Board of Supervisors of the Killarney Community Development District was held on Monday, December 11, 2006 at 9:05 a.m. at the Killarney Recreation Center, 14143 Sweet Shrub Court, Brooksville, Florida.

Present and constituting a quorum were:

John Buehler	Chairman
Betty Valenti	Vice Chairperson
Wayne Ransom	Assistant Secretary
Richard Dombrowski	Assistant Secretary
Ralph Sevelius	Assistant Secretary

Also present were:

John Ricciardi	Manager
Tracy Robin	Attorney (Via Telephone)
Sandra Manuelle	Clubhouse Manager
Lynn Jackson	Severn Trent Services
Claudia Gonzales	Resident
Mario Gonzales	Resident
Kelly Vargas	Resident

FIRST ORDER OF BUSINESS **Roll Call**

Mr. Ricciardi called the meeting to order and called the roll.

SECOND ORDER OF BUSINESS **Organizational Matters – Oath of Office of Newly Appointed Supervisor**

Mr. Ricciardi stated Mr. Sevelius is not here. I will try to get in touch with him so he completes the Oath of Office and comes to a meeting.

THIRD ORDER OF BUSINESS **Acceptance of the Minutes of the October 9, 2006 Audit Committee Meeting and Approval of the Minutes of the October 9, 2006 Regular Meeting**

Mr. Ricciardi stated each Board member received a copy of the minutes of the October 9, 2006 Audit Committee meeting as well as the regular meeting and requested any corrections, additions or deletions.

On MOTION by Ms. Valenti seconded by Mr. Buehler with all in favor the minutes of the October 9, 2006 Audit Committee meeting were accepted.

Ms. Valenti stated I found a couple of corrections in the minutes of the regular meeting. In the middle of the page it should state, "Mr. Buehler stated if it works properly, it cannot close on you." On page six, it should be "William Ryan" instead of "Wayne Ryan". In the third paragraph from the bottom of page nine, it should be "Rampart Properties". The last sentence of the same paragraph should state, "They will continue to coordinate the administering of the gate clickers because they have the software for programming the gate." On page 14, the second paragraph, remove "we are" and replace it with "that has" in the first sentence. Three paragraphs below it, the word "weaning" should be "weeding".

On MOTION by Mr. Buehler seconded by Mr. Ransom with all in favor the minutes of the October 9, 2006 meeting were approved as amended.

FOURTH ORDER OF BUSINESS **Manager's Report - Consideration of Engagement Letter with Grau & Associates to Perform Financial Audit for Fiscal Year 2006**

Mr. Ricciardi stated if you look in your Board package there is an engagement letter from Grau and Associates. In the second paragraph of the last page, they indicate their fee will not exceed $6,000 for the September 30, 2006 audit. We put $8,550 in the budget. This is under budget and we recommend you authorize the Chairman to sign the engagement letter with Grau & Associates.

On MOTION by Mr. Dombrowski seconded by Mr. Ransom with all in favor the Chairman was authorized to sign the engagement letter with Grau & Associates to perform the financial audit for fiscal year 2006.

Mr. Ricciardi stated there was a question regarding the possibility of changing the name of the District.

Mr. Robin stated I called the assistant county attorney regarding this issue. They view it as a routine matter. They require a letter of request to the county attorney in order to accomplish

this. They believe any costs associated will be minimal. It can be handled by amending the ordinance to change the name of the District.

Mr. Buehler asked can you write this letter for us?

Mr. Robin responded yes. We anticipate doing it with direction from the Board.

Mr. Ricciardi stated we brought this up due to ongoing confusion with the residents and possibly with future buyers. This is technically the Killarney CDD because it was the original name; however, everyone knows it by Spring Ridge. According to Mr. Robin it is a simple task. We will need a letter signed by the Chairman and it will go to the county. There will be some legal issues to go through, but the cost will be minimal. There will be attorney fees. From the management company's point of view, we recommend you do this.

Mr. Robin stated we should consider adopting a resolution to change the name of the District so we have something to give the county. It will give us something tangible to send to the county.

Mr. Ricciardi stated the Board needs to pass a motion approving the name change. We then need to pass a motion authorizing the Chairman to sign a resolution requesting a name change. We will get the signed resolution to Mr. Tracy so he can send it to the county with a letter.

On MOTION by Mr. Ransom seconded by Mr. Dombrowski with all in favor staff was authorized to proceed with the District name change formalities.

On MOTION by Mr. Dombrowski seconded by Mr. Buehler with all in favor the Chairman was authorized to sign a resolution requesting a name change from the Killarney CDD to the Spring Ridge CDD.

Mr. Ricciardi stated there was a concern with the gates at the last meeting. Do you want to speak to all the gate questions?

Ms. Manuelle responded we met with American Access on October 19, 2006. We asked all the questions, which were brought up at the last meeting. He said it is possible the electric towers interfere with the functioning of the gates, but it should not be an issue. We asked him if the programming needs to be reset after a certain number of vehicles pass through the gates using the sensor to open it. He said that is false. We asked him why sometimes at night the gate to

leave the community remains open and he said there may be several reasons. Vehicles may be striking the gate when it is opening too slowly. It is almost always human error. The last thing I asked him was what causes the transmitters not to work. It can be programming errors. Other reasons can be the batteries or the metal in cars.

Mr. Ricciardi stated we came onsite with the representatives of the access controls and went over the gate situation. They taught Ms. Manuelle how to reset the gate if it malfunctions. Have we had any problems since then?

Ms. Manuelle responded there was one complaint, but I was not made aware of it. The gate company came here and there was nothing wrong with the gate.

Ms. Vargas stated the other day I came back at night. There was a car trying to open the gate from the exit side. That should not happen. You should have a camera to record what cars are trying to open the gate. It affects the functionality.

Mr. Ricciardi asked were they leaving the community?

Ms. Vargas responded they were trying to get into the community through the exit and they were trying to open the gate with the car.

Mr. Buehler stated I suggest we look into what it will cost.

Mr. Ricciardi stated we looked into installing a camera. I contacted a company, which recently installed a camera at Tampa Palms CDD. Ms. Manuelle took photographs of the gate area and I sent them to him. He was hoping to give me an estimate by today, but he did not. We just got an estimate for Heritage Harbor CDD. They are doing two entrances, which are a similar set up to what you have. The estimate there was $15,000 for the two entrances. Since we only have one entrance, I estimate it will be approximately $7,000 to $8,000. It will include the cameras as well as any communication equipment you will need. You will probably communicate from the gate down to the clubhouse where we can have the recording equipment.

Mr. Buehler asked is there an extra cost for recording equipment?

Mr. Ricciardi responded we can hopefully do it through the computer. In most of the set ups we are currently doing, you bring it through a website onto the computer.

Mr. Buehler stated it stores on a website.

Mr. Ricciardi stated that is correct. It can be more.

Mr. Ransom stated I know we have stationary locations on the entrance gate to see tag numbers. Do you know where they will place a camera to view tag numbers on the exit gate?

Mr. Ricciardi responded what they normally do on the exit gates is position the camera for the purpose of seeing the license plates.

Mr. Buehler asked if it is on the web, is it accessible to the homeowners?

Mr. Ricciardi responded no. It is accessible to whomever the Board wants it to be accessible to. It is like any website where you have a log in ID. If the Board wants to pursue this, they will need to come out and do a site survey in order to give us a formal proposal. Ms. Manuelle and I can work on it and have it for you at the next meeting.

Mr. Buehler stated I suggest you look into it.

Mr. Ricciardi stated I would like to get two quotes if possible. Do you have any companies you work with? The company we use at Tampa Palms CDD is a good company. They stand behind their equipment and we like working with them.

Ms. Valenti asked which company do you use?

Mr. Ricciardi responded I believe it is called Knight's Security.

Ms. Valenti stated I do know another company. I can get the information to you so we can get a second quote.

There was Board Consensus to get proposals for cameras at the entrance gate.

Mr. Ricciardi asked is the security system in the clubhouse repaired?

Ms. Manuelle responded yes.

Mr. Ricciardi stated one of the things the Board wanted us to look at was the notion of the roads and the ownership of the roads within the community. I contacted Mr. Nixon from the county. I spoke with Mr. Sutton who is the assistant county engineer as well as Mr. Carpenter. I also spoke with Mr. Olsen, our District engineer, regarding the ownership of the roads.

The way the plats are filed with the county, the roads are owned and to be maintained by the CDD. They are not dedicated to the county. At this point, the CDD owns these roads and is responsible for maintenance once they are out of the warranty period. If this is the case and we cannot turn them over to the county, we will need to begin building a road reserve.

Mr. Buehler stated at that point the gates can be permanently shut.

Mr. Robin stated they cannot be permanently shut because they were constructed with tax exempt bonds. As long as the bonds exist the roads have to be accessible to the public or you jeopardize the tax exempt status of the bonds.

Mr. Ricciardi stated there was some confusion initially that the roads would be dedicated to the county. It was not done on the plat. I do not know where it got lost in translation. It will

be at least fifteen years before any work is needed on the roads. Do you want to discuss the tot lot?

Ms. Manuelle responded yes. I met with a representative from Wow Playgrounds. He came out to the site to help me pick out which playgrounds will best fit the parking lot area. There is a price range between $8,800, for a capacity of 26 children and 8 activities, to $15,800 for a capacity of 37 children and 13 activities. This is for materials only. Additional costs will be to level the ground. Freight will be approximately $1,000 to $1,500. Installation is approximately 35% of the actual costs of materials. The playground safe mulch will be an additional $1.50 to $2.00 a square foot. A border to keep the mulch in, a fence and accessories such as a trash bin or a bench will be extra.

Mr. Buehler asked does this include any shade?

Ms. Manuelle responded every playground I looked at in the catalogue has shade built on to it.

Mr. Ricciardi stated Playtime is another company we use at many of our properties. They are made of a reinforced plastic composite material, which holds up well in the Florida sun. They are made from materials, which do not corrode.

Ms. Valenti asked can it be installed so you can add to it on a later date?

Ms. Manuelle responded I do not believe so. They have separate pieces in the catalogue you can buy.

Mr. Ricciardi stated I spoke to Mr. Olsen in terms of his best suggestion of where to put a playground and if we will have any permitting problems. He suggested the temporary parking area where the models are will be an ideal place to put a playground. We also looked at the possibility of a basketball court.

Ms. Manuelle stated this is a handout of a basketball hoop we found online. I found a handyman who will install it for $15 an hour. That is to install it in the ground in the parking lot. We will not have a court. We have to decide if we want a court and how safe it is to just install a hoop.

Mr. Ricciardi stated the engineer indicated the number of parking spaces we have needs to stay because it was built according to code. He does not see a problem with erecting a basketball hoop adjacent to the parking area and letting the kids use the parking area as long as you do not re-stripe and delineate specific basketball areas. In looking at the parking lot area it is sloped because of drainage. It is not ideal for putting in a basketball hoop in our opinion. We

suggest putting in a basketball half court or quarter court at one end of the tot lot when we get it. From a liability point of view I would rather have it away from the parking lot area where cars will be driving. I do not know if the Board wants to entertain this at the moment. A playground will cost anywhere from $10,000 to $30,000. A basketball hoop with a concrete half court runs approximately $5 a square foot with a slide. He does not think there will be an issue with SFWMD.

Mr. Buehler asked if we do all of this, what will it do in regards to the assessments? Is there enough in the reserves? What is the effect of doing this?

Mr. Ricciardi responded you have a cash balance of approximately $103,000. There is some money so you can do a tot lot and still have a cushion. You have funds in your construction account, but it is being put in a reserve pending what happens at the front entrance.

Mr. Buehler stated we do not need to look at that money at the moment, but the $103,000 needs to be looked at for a road reserve. My concern is to make sure the assessment levels do not go up too high.

Mr. Ricciardi stated communities like this have playgrounds. A tot lot for $15,000 to $20,000 may be a good investment. It is a good plan to reserve the bulk of the money and restrict it.

Mr. Buehler stated I want to make sure we do a good job of keeping the assessment levels down. If the residents want a tot lot and they do not mind paying a little more, we can do it.

Mr. Ricciardi stated we can build it into next year's budget. How long do we need to keep the temporary parking lot?

Mr. Buehler responded the parking spaces are for the models. As the models go away, the parking lot can go away as well.

Mr. Ricciardi stated at that time we can put in a tot lot.

Mr. Dombrowksi stated they offer big shade fabric, which we will need a reserve to replace at some point. We should use the lightest color offered; otherwise, kids will never be able to use it because of the sun.

Ms. Manuelle stated the fabric shade is great, but it has to be taken off for hurricanes of 150 to 170 mph.

The record will reflect Mr. Sevelius joined the meeting.

SECOND ORDER OF BUSINESS **Organizational Matters – Oath of Office of Newly Appointed Supervisor (Continued)**

Mr. Ricciardi being a Notary Public of the State of Florida administered the Oath of Office to Mr. Ralph Sevelius and a copy of the signed oath is attached hereto and made a part of the public record.

Mr. Ricciardi presented Mr. Sevelius with the Form 1 Financial Statement to be filed with the Supervisor of Elections in the county in which he resides as well as the guide to the Sunshine Law.

Mr. Ricciardi stated anytime we add a new member to the Board we have the opportunity to reconstitute the officer structure. Currently Mr. Buehler is Chairman, Ms. Valenti is Vice Chairperson and Mr. Ransom is Assistant Secretary. We need to appoint Mr. Dombrowski as Assistant Secretary. If the Board would like to retain this officer structure we can do so. We will need a motion to retain the officer structure and appoint Mr. Dombrowski as well as Mr. Sevelius as Assistant Secretaries so they are covered under officer liability.

On MOTION by Mr. Dombrowski seconded by Mr. Buehler with all in favor the current officer structure will be retained and Mr. Dombrowski as well as Mr. Sevelius were appointed Assistant Secretaries.

FOURTH ORDER OF BUSINESS **Manager's Report - Continued**

Mr. Ricciardi stated I have a couple of informational items. We were fined by the county for trash. We received a check from Windward Homes for half of the fine. Mr. Dombrowski indicated William Ryan Homes will participate with their share. We appreciate your support. Mr. Ransom was working with the county trying to get them to let us know the next time before they administer a fine so we have the opportunity to clean it up.

I raised a concern with the sidewalk being a safety hazard. There are houses on either side of here and there was a steep drop off between that area. It needed to be rectified and it has been. I appreciate it.

At the last meeting I mentioned one of the residents filed a claim with the District's insurance company for damage to their vehicle at the front gate. I have been verbally informed by the insurance company they are denying the claim. This is when the gates were

malfunctioning. He did not hit the gate. He hit the curb to the right of the gate and as a result the insurance is maintaining speed may have been a factor. There was $800 damage to his vehicle.

In the financials you will see charges from Severn Trent Services for field management services. It will be credited back to the District. Those were fees, which were supposed to be paid to Rampart Properties when they were doing it. Our offices thought it was a Severn Trent Services charge. They will be reimbursing the District for it. We cancelled the contract with Rampart Properties and Ms. Manuelle is handling the field management work now.

We received an email from Mr. Olsen regarding the required southern buffer for Spring Ridge. Would someone like to speak about it?

Mr. Ransom responded the agreement with Brook Ridge Community for a bugger was to install a fence, but instead they require a buffer. It was presented before the county and they approved it. They have the paperwork in their records. It has been rectified.

Mr. Buehler stated Brook Ridge asked for a six foot tall fence instead of what was in the development orders. The agreement was we would put in a six foot tall chain link fence all around in lieu of the buffer. It was agreed upon by Brook Ridge and the county.

Mr. Ricciardi stated at this point it is not an issue.

FIFTH ORDER OF BUSINESS **Attorney's Report**

There being no report, the next item followed.

SIXTH ORDER OF BUSINESS **Engineer's Report**

There not being any, the next item followed.

SEVENTH ORDER OF BUSINESS **Property Manager**

There being no report, the next item followed.

EIGHTH ORDER OF BUSINESS **Clubhouse Manager**

Ms. Manuelle stated there will be a holiday party here on December 17, 2006 for the residents. I am also having a craft day for the children. I am still waiting to here back on what kind of activities the community will like. Complaints have dropped significantly since the last Board meeting. I received a couple regarding fitness room equipment. They are stating it is not for commercial use. The other complaint is the time of the Board meeting because most people work and cannot make it.

Mr. Buehler asked are we supposed to have one after 5:00 p.m. a year?

Mr. Ricciardi responded CDDs are not required to have evening meetings. HOAs may be required to have one evening meeting, but not CDDs. The Board may want to have the budget

public hearing at night so we can ensure the residents participate in the budget planning for the next budget cycle. You are certainly welcome to go to evening meetings if you would like to, but you are not required to.

Mr. Buehler asked at what time is the holiday party?

Ms. Manuelle responded it is from 4:00 p.m. to 7:00 p.m.

Mr. Ransom asked was it based on any requests?

Ms. Manuelle responded yes. The residents requested it. It is like a pot luck dinner. They ask the builders to donate food as well.

Mr. Ransom asked are people using the facility?

Ms. Manuelle responded yes. The fitness room gets used. The pool was being used in the summer. We had our first birthday party.

Mr. Ransom asked were there any issues?

Ms. Manuelle responded no. They were great.

Mr. Ricciardi stated having Ms. Manuelle onsite is a positive thing from a developer point of view as well as a resident point of view. It was a great decision from the Board and Ms. Manuelle is great to work with.

Mr. Dombrowski asked will you be opposed to the developers inviting prospective buyers to the holiday party?

Ms. Manuelle responded no. They can come to the party. They were interested in having an open house at the clubhouse.

Mr. Ricciardi asked is there a fee for the holiday party?

Ms. Manuelle responded no. I changed my hours so I can be here. I am charging $3.50 per child for the craft party and it is just to cover the supplies.

NINTH ORDER OF BUSINESS **Supervisor's Requests**

Ms. Valenti stated I noticed we need ant treatment around the recreation center area.

Ms. Manuelle stated I have a pest control company, which sprayed.

Ms. Valenti stated this is for outside. There is a granular product, which lasts a year. It is expensive to do, but based on the longevity of the chemical it is worth it.

Ms. Manuelle stated he told me the stone around the pool brings ants.

Ms. Valenti stated when we are ready to mulch on the embankment I suggest we use pine needles. It will not move as much. We are going to get needles with the Pine Trees there anyway. It will be a better investment.

TENTH ORDER OF BUSINESS **Audience Comments**

A resident stated it is an issue going to the post office to get the mail.

Ms. Manuelle stated the only thing you can do is write your local congressman because it is out of our hands. I spoke with the postmaster and so has Mr. Ransom.

A resident stated we did too. They said the builders have the solution. Nothing is being done on either side.

Ms. Manuelle stated the solution they are referring to is putting temporary mailboxes outside and the cost will be approximately $80 per mailbox. It would end up being a cost of $17,000 to $20,000 for temporary mailboxes.

Ms. Valenti stated I received a call from a resident last week. He talked with the postmaster and the postmaster was considering allowing us to have phase delivery. I was going to mark up a site plan and send it to the post office. We are looking at having from the clubhouse back and the first street up to the construction trailer as the first phase and everything else as the second phase. We will hopefully be able to get delivery on this end of the community. It is something the postmaster said he would look at. We are talking about it, but it does not mean it is going to happen. He might look at the map and say it will not work.

Mr. Buehler stated once you establish a temporary mailbox they become part of the property of the US Government. Removing them at some point to get mail delivered throughout the community will be a question mark as well. If we install these temporary mailboxes, the postmaster may decide they like it better that way.

Ms. Valenti stated I met with the postmaster last Friday for the 354 area. I was informed the post office is no longer going to allow individual mailboxes. All communities will have a postal unit holding mail for 16 homes. The problem is a homeowner will have it in front of their house. If not, you have to build an area designed just for the mail. This is one of the final communities, which will have mail delivery as it is set up. You have it better than others.

ELEVENTH ORDER OF BUSINESS **Approval of Financials**

Mr. Ransom stated the cost of issuance under the Series 2004 capital shows as $13,714. I am not sure what this is.

Mr. Ricciardi stated I do not know. I will find out and email it to the Board.

On MOTION by Mr. Buehler seconded by Mr. Dombrowski with all in favor the financials dated October 31, 2006 were approved.

FIFTH ORDER OF BUSINESS **Adjournment**

Mr. Ricciardi stated I have one request of the Board. The next meeting is scheduled for February 12, 2007. I would like to see if the Board will consider moving it to Monday, February 5, 2007 or Monday, February 19, 2007 at the same time.

There was Board consensus to move all future meetings to the first Monday of the month, bi-monthly, at 9:00 a.m. beginning February 5, 2007 and to notice the meetings accordingly.

There being no further business,

On MOTION by Mr. Buehler seconded by Ms. Valenti with all in favor the meeting was adjourned.

John Ricciardi

Notice of Meeting
Killarney Community Development District

A regular meeting of the Board of Supervisors of the Killarney Community Development District is scheduled for Monday, December 18, 2006 at 9:30 a.m. at Killarney Recreation Center, 14145 Shrub Oak Brooksville, Florida. The meeting is open to the public and will be conducted in accordance with the provisions of Florida Law for Community Development Districts. A copy of the agenda for this meeting may be obtained from Severn Trent Services, 210 N. University Drive, Suite 800, Coral Springs, Florida 33071. The meeting may be continued to a date, time, and place to be specified on the record at the meeting.

There may be occasions when one or more Supervisors will participate by telephone. At the above location there will be present a speaker telephone so that any interested person can attend the meeting at the above location and be fully informed of the discussions taking place either in person or by telephone communication.

Any person requiring special accommodations at this meeting because of a disability or impairment should contact the District Office at (352) 753-5841 at least three calendar days prior to the meeting.

Each person who decides to appeal any decision made by the Board with respect to any matter considered at the meeting is advised that person will need a record of the proceedings and that accordingly, the person may need to ensure that a verbatim record of the proceedings is made, including the testimony and evidence upon which such appeal is to be based.

October 19, 2006

Board of Supervisors
Attn: Janice Larned
Killarney Community Development District
210 N. University Drive, Suite 702
Coral Springs, Florida 33071

We are pleased to confirm our understanding of the services we are to provide Killarney Community Development District, Florida, (the "District") for the year ended September 30, 2006. We will audit the financial statements of the governmental activities, each major fund and the remaining nonmajor fund information, if applicable, which collectively comprises the entity's basic financial statements, of Killarney Community Development District as of and for the year ended September 30, 2006. This letter serves to establish the terms and fee for the 2006 audit.

The document we submit to you will include the following supplementary information required by U.S. generally accepted accounting principles that will be subject to certain limited procedures, but will not be audited.

1. Management's discussion and analysis
2. Budgetary comparison schedule for the general fund

Audit Objectives

The objective of our audit is the expression of an opinion as to whether your financial statements are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles and to report on the fairness of the additional information referred to in the first paragraph when considered in relation to the financial statements taken as a whole. Our audit will be conducted in accordance with U.S. generally accepted auditing standards and the standards for financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and will include tests of the accounting records of Killarney Community Development District and other procedures we consider necessary to enable us to express such an opinion. If our opinion on the financial statements is other than unqualified, we will fully discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed an opinion, we may decline to express an opinion or to issue a report as a result of this engagement.

We will also provide a report (that does not include an opinion) on internal control related to the financial statements and compliance with laws, regulations, and the provisions of contracts or grant agreements, noncompliance with which could have a material effect on the financial statements as required by *Government Auditing Standards.* This report will include a statement that the report is intended solely for the information and use of the management and specific legislative or regulatory bodies and is not intended to be and should not be used by anyone other than these specified parties.

Management Responsibilities

Management is responsible for establishing and maintaining effective internal control and for compliance with laws, regulations, contracts, and agreements. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of the controls. The objectives of internal control are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, that transactions are executed in accordance with management's authorizations and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles.

Management is responsible for making all financial records and related information available to us. We understand that you will provide us with such information required for our audit and that you are responsible for the accuracy and completeness of that information. We will advise you about appropriate accounting principles and their application and will advise you in the preparation of your financial statements, but the responsibility for the financial statements remains with you. As part of our engagement, we may propose standard, adjusting, or correcting journal entries to your financial statements. You are responsible for reviewing the entries and understanding the nature of any proposed entries and the impact they have on the financial statements. That responsibility includes the establishment and maintenance of adequate records and effective internal control over financial reporting, the selection and application of accounting principles, and the safeguarding of assets. Management is responsible for adjusting the financial statements to correct material misstatements and for confirming to us in the representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

You are responsible for the design and implementation of programs and controls to prevent and detect fraud, and for informing us about all known or suspected fraud, or illegal acts affecting the government involving (1) management, (2) employees who have significant roles in internal control, and (3) others where the fraud or illegal acts could have a material effect on the financial statements. You are also responsible for informing us of your knowledge of any allegations of fraud or suspected fraud, or illegal acts affecting the government received in communications from employees, former employees, grantors, regulators, or others. In addition, you are responsible for identifying and ensuring that the entity complies with applicable laws and regulations and for taking timely and appropriate steps to remedy any fraud, illegal acts, violations of contracts or grant agreements, or abuse that we may report.

With regard to the electronic dissemination of audited financial statements, including financial statements published electronically on your website, you understand that electronic sites are a means to distribute information and, therefore, we are not required to read the information contained in these sites or to consider the consistency of other information in the electronic site with the original document.

As part of the audit, we will prepare a draft of your financial statements and related notes. In accordance with *Government Auditing Standards*, you will be required to review and approve those financial statements prior to their issuance and have a responsibility to be in a position in fact and appearance to make an informed judgment on those financial statements. Further, you are required to designate a qualified management-level individual to be responsible and accountable for overseeing our services.

While we will assist in the preparation of the District's financial statements, responsibility for the financial statements and preparation of Management's Discussion and Analysis are the responsibility of the District.

Audit Procedures—General

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; therefore, our audit will involve judgment about the number of transactions to be examined and the areas to be tested. We will plan and perform the audit to obtain reasonable rather than absolute assurance about whether the financial statements are free of material misstatement, whether from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or governmental regulations that are attributable to the entity or to acts by management or employees acting on behalf of the entity. Because the determination of abuse is subjective, *Government Auditing Standards*

do not expect auditors to provide reasonable assurance of detecting abuse. Because an audit is designed to provide reasonable, but not absolute assurance and because we will not perform a detailed examination of all transactions, there is a risk that material misstatements may exist and not be detected by us. In addition, an audit is not designed to detect immaterial misstatements or violations of laws or governmental regulations that do not have a direct and material effect on the financial statements. However, we will inform you of any material errors that come to our attention, and we will inform you of any fraudulent financial reporting or misappropriation of assets that comes to our attention. Our responsibility as auditors' is limited to the period covered by our audit and does not extend to matters that might arise during any later periods for which we are not engaged as auditors.

Our procedures will include tests of documentary evidence supporting the transactions recorded in the accounts, and may include tests of the physical existence of inventories, and direct confirmation of receivables and certain other assets and liabilities by correspondence with selected individuals, creditors, and financial institutions. We will request written representations from your attorneys as part of the engagement, and they may bill you for responding to this inquiry. At the conclusion of our audit, we will also require certain written representations from you about the financial statements and related matters.

Identifying and ensuring that Killarney Community Development District complies with laws, regulations, contracts, and agreements is the responsibility of management. As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we will perform tests of Killarney Community Development District's compliance with applicable laws and regulations and the provisions of contracts and agreements. However, the objective of our audit will not be to provide an opinion on overall compliance and we will not express such an opinion.

Audit Procedures—Internal Controls

In planning and performing our audit, we will consider the internal control sufficient to plan the audit in order to determine the nature, timing, and extent of our auditing procedures for the purpose of expressing our opinion on Killarney Community Development District's financial statements.

We will obtain an understanding of the design of the relevant controls and whether they have been placed in operation, and we will assess control risk. Tests of controls may be performed to test the effectiveness of certain controls that we consider relevant to preventing and detecting errors and fraud that are material to the financial statements and to preventing and detecting misstatements resulting from illegal acts and other noncompliance matters that have a direct and material effect on the financial statements. Tests of controls are required only if control risk is assessed below the maximum level. Our tests, if performed, will be less in scope than would be necessary to render an opinion on internal control and, accordingly, no opinion will be expressed in our report on internal control issued pursuant to *Government Auditing Standards.*

An audit is not designed to provide assurance on internal control or to identify reportable conditions. However, we will inform the governing body or audit committee of any matters involving internal control and its operation that we consider to be reportable conditions under standards established by the American Institute of Certified Public Accountants. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control that, in our judgment, could adversely affect the entity's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements. We will also inform you of any nonreportable conditions or other matters involving internal control, if any, as required by *Government Auditing Standards.*

Audit Administration, Fees, and Other

We understand that your employees will prepare all cash or other confirmations we request and will locate any documents selected by us for testing.

The audit documentation for this engagement is the property of Grau & Associates and constitutes confidential information. However, pursuant to authority given by law or regulation, we may be requested to make certain audit documentation available to a cognizant or oversight agency for audit or its designee, a federal agency providing direct or indirect funding, or the U.S. Government Accountability

Office for purposes of a quality review of the audit, to resolve audit findings, or to carry out oversight responsibilities. We will notify you of any such request. If requested, access to such audit documentation will be provided under the supervision of Grau & Associates personnel. Furthermore, upon request, we may provide copies of selected audit documentation to the aforementioned parties. These parties may intend, or decide, to distribute the copies or information contained therein to others, including other governmental agencies. Notwithstanding the foregoing, the parties acknowledge that various documents reviewed or produced during the conduct of the audit may be public records under Florida law. The District agrees to notify Grau & Associates of any public record request it receives that involves audit documentation.

Our fee for these services will be at our standard hourly rates plus out-of-pocket costs (such as report reproduction, word processing, postage, travel, copies, telephone, etc.) except that we agree that our gross fee, including expenses, will not exceed $6,000 for the September 30, 2006 audit. This agreement may be renewed each year subject to the mutual agreement to all terms, including fees, of both parties. The fee for each annual renewal will be agreed upon separately.

Our standard hourly rates vary according to the degree of responsibility involved and the experience level of the personnel assigned to your audit. Our invoices for these fees will be rendered each month as work progresses and are payable on presentation. Invoices will be submitted in sufficient detail to demonstrate compliance with the terms of this agreement. In accordance with our firm policies, work may be suspended if your account becomes 60 days or more overdue and may not be resumed until your account is paid in full. If we elect to terminate our services for nonpayment, our engagement will be deemed to have been completed upon written notification of termination, even if we have not completed our report. You will be obligated to compensate us for all time expended and to reimburse us for all out-of-pocket costs through the date of termination. The above fee is based on anticipated cooperation from your personnel and the assumption that unexpected circumstances will not be encountered during the audit. If significant additional time is necessary, we will discuss it with you and arrive at a new fee estimate.

Government Auditing Standards require that we provide you with a copy of our most recent external peer review report and any letter of comment, and any subsequent peer review reports and letters of comment received during the period of the contract. Our 2004 peer review report accompanies this letter.

We appreciate the opportunity to be of service to Killarney Community Development District and believe this letter accurately summarizes the significant terms of our engagement. If you have any questions, please let us know. If you agree with the terms of our engagement as described in this letter, please sign the enclosed copy and return it to us.

Very truly yours,

Grau & Associates

Antonio Grau, Jr.

RESPONSE:

This letter correctly sets forth the understanding of Killarney Community Development District.

RESOLUTION 2007-2

A RESOLUTION AUTHORIZING THE FILING OF A PETITION WITH THE BOARD OF COUNTY COMMISSION OF HERNANDO COUNTY, FLORIDA TO CHANGE THE NAME OF KILLARNEY COMMUNITY DEVELOPMENT DISTRICT TO SPRING RIDGE COMMUNITY DEVELOPMENT DISTRICT

WHEREAS, the Killarney Community Development District (the "**District**") was created by Ordinance No. 2000-14 of the County Commission of Hernando County, Florida adopted November 1, 2000 (the "**Ordinance**"); and

WHEREAS, said Ordinance was filed with the Secretary of State upon its adoption; and

WHEREAS, the property described in the Ordinance is set forth in **Exhibit "A"** hereto which is the land currently contained within the District; and

WHEREAS, the District desires to change the name of the Killarney Community Development District to Spring Ridge Community Development District.

WHEREAS, the Board of Supervisors has authority to petition the County Commission of Hernando County to change the name of the District; and

WHEREAS, The Board of Supervisors desires to authorize the filing of a petition and other necessary action to change the name of the District.

NOW, THEREFORE, BE IT RESOLVED by the Board of Supervisors of the Killarney Community Development District this 11TH day of DECEMBER, 2006, as follows:

1. The District hereby authorizes the District's counsel and its other staff to prepare a petition requesting that the County Commission of Hernando County modify the Ordinance by changing the name of the District to Spring Ridge Community Development District.

2. The Chairman of the Board of Supervisors, the District Counsel and other staff are hereby fully authorized to execute and enter into such petitions, applications or other instruments as may be necessary to fully effectuate the intent of this Resolution.

3. The District shall pay any application fees or other costs which are necessary to obtain approval of the County.

PASSED AND ADOPTED THIS 11TH DAY OF DECEMBER, 2006.

CONSENT AGENDA MEMORANDUM

TO: Honorable Chairman and Members of the Board of County Commissioners

DATE: April 5, 2007

VIA: Gary Kuhl
County Administrator

SUBJECT: Thrasher Road---
Clarification amendment
to existing agreement

FROM: Kent L. Weissinger
Assistant County Attorney

BRIEF OVERVIEW:

In 2005, the Board approved an agreement formalizing the commitment of Optima DHM (Developer) to fulfill certain Seville master plan approval conditions regarding the Thrasher Road extension. Since then the Developer has sold a portion of the property, and the agreement as approved contained a provision that would have required the Developer to pave a portion of the road well in advance of either development of its remaining property and without any coordination with County improvement of the remainder of the road. With staff input and approval, an amendment has been prepared under which the Developer's obligation to improve the road is based upon and coordinated with County improvement of that portion of the road which is a County responsibility. When the County begins work on the road, the Developer is obligated to improve his portion of the road to the same standards (either limerock or paving). Remaining terms of the original agreement regarding provision of right-of-way are unaffected.

LEGAL AUTHORITY:
Pursuant to s. 125.01, Florida Statutes.

BUDGET IMPACT:
N/A

RECOMMENDATION:
That the Board approve the proposed amendment to the existing Agreement between the Seville Developer and the County with respect to Developer obligations to improve Thrasher Road pursuant to conditions imposed on Master Plan amendment, and authorize the Chair to execute the Agreement.

ADMINISTRATIVE NOTE:

Attachment
cc: Larry Jennings
Charles Mixson

AGENDA ITEM H.

FIRST AMENDMENT
TO
AGREEMENT OF JUNE 14, 2005

THIS FIRST AMENDMENT is made and entered into on the ____ day of _____, 2006, by and between OPTIMA DHM CORPORATION (the "DEVELOPER") and HERNANDO COUNTY, a subdivision of the State of Florida (the "COUNTY") regarding Condition 17 of the COUNTY's approval of the Seville Master Plan. The parties state:

RECITALS

WHEREAS, since the execution of the Agreement, dated June 14, 2005, the DEVELOPER has sold parts of the Seville property to third parties who are proceeding with the development of the property, pursuant to the approved Master Plan; and

WHEREAS, construction has been initiated and permit applications have been filed; and

WHEREAS, the COUNTY and DEVELOPER has reconsidered when Thrasher Road needs to be extended to U.S. 98 and agree that provision 4.e. of the Agreement, dated June 14, 2005 needs to be amended.

NOW, THEREFORE, in consideration of the sum of Ten Dollars ($10.00) and other good and valuable consideration in hand paid by the parties hereto each to the other, simultaneously with the execution and delivery of these presents, and in consideration of the mutual understandings and agreements hereinafter set forth and contained, the parties agree as follows:

1. Recitals. The above Recitals are incorporated herein by reference and made a part hereof.

2. Amendment. Provision 4.e. is deleted in its entirety and replaced with the following:

"e. To commence the hard-surfacing (limerock and/or pavement) of that portion of Thrasher Road ~~lying east~~ as extended to the east and northeast of the Suncoast Parkway no later than when vertical construction commences on that portion of the project referred to as Eastern Seville or when the County hard-surfaces Thrasher Road from U.S. 19 through the Suncoast Parkway, whichever occurs first. If this obligation is triggered by vertical construction on Eastern Seville, the subject portion of Thrasher Road shall be paved to County standards by the Developer. If this obligation is triggered by County hard-surfacing, the Developer's work hereunder with respect to limerocking versus paving must

match or exceed the nature of the County's construction, provided however that at such time as the County paves Thrasher Road from U.S. 19 through the Suncoast Parkway, Developer shall be responsible for matching or exceeding the nature of the County's construction within ninety (90) days of completion of the County's construction with respect to that portion of Thrasher Road as extended to the east and northeast of the Suncoast Parkway. Any work by the Developer hereunder shall be pursuant to right-of-way permitting through the affected County agency."

This FIRST AMENDMENT is entered into as of the day and year first written above and is executed in at least two original copies, one of which is to be delivered to the DEVELOPER and one to the COUNTY CLERK for filing in the official records.

IN WITNESS WHEREOF, the parties hereto have set their hands and seals this ___ day of _____, 2006.

AGENDA MEMORANDUM

TO: Honorable Chairman and Members of the Board of County Commissioners

DATE: April 12, 2005

VIA: Gary Adams
County Administrator

SUBJECT: Thrasher Road--- Agreement with Developer for Right-of-Way, Limerocking, and Paving

FROM: Kent L. Weissinger
Assistant County Attorney

BRIEF OVERVIEW:

As part of conditions imposed on an amendment to Master Plan approval for Seville, the Developer was required to provide certain rights-of-way and to assume certain obligations for improvements to an extended Thrasher Road, which would eventually serve as a collector roadway between U.S. 19 and U.S. 98 in northwest Hernando County. As part of a series of related transactions, the Developer and County staff have agreed on the form of a Developer commitment to fulfill the conditions regarding the Thrasher Road extension, and a contract between the County and the Developer is attached.

Under the proposed Agreement, the Developer will provide right-of-way not already owned by the County along a defined route from the current eastern terminus of Thrasher Road east, then north and under the Suncoast Parkway at an existing overpass through the Eastern Seville development to U.S. 19 at a point consistent with the entrance to World Woods. A small portion of County property at the Northwest Solid Waste Management Facility may be required for the road, and the Agreement calls for the Developer to restore and improve affected portions of the facility and its infrastructure per Utilities Department needs, and to further provide cash or land in a reasonably equivalent value to make the County whole. The Agreement also calls for limerocking the extension when any Seville development begins and to pave the extension when vertical development begins at Eastern Seville.

Planning and Public Works staff have been involved in negotiating the Agreement and believe the proposed contract is consistent with the zoning conditions.

"MINUTES OF"
JUN 14 2005
CONSENT AGENDA ITEM 14.

LEGAL AUTHORITY:
Pursuant to s. 125.01, Florida Statutes, and County Subdivision Regulations and the Zoning Ordinance.

BUDGET IMPACT:
Under the Agreement terms, there should be no budget impact to the County.

RECOMMENDATION:
That the Board approve the proposed Agreement between the Seville Developer and the County with respect to the extension of Thrasher Road pursuant to conditions imposed on Master Plan amendment and authorize the Chair to execute the Agreement.

ADMINISTRATIVE NOTE:

cc: Larry Jennings
Charles Mixson

CONSENT AGENDA #14—THRASHER ROAD AGREEMENT

A final revision to this document...revised Friday per Developer request in apparent compliance with zoning conditions for Seville Master Plan approval. Per Planning, the revised Agreement was not in literal compliance with conditions and was revised yesterday.

First revision, removing Developer responsibility for limerocking as exceeding zoning condition, but limiting responsibility for paving road through Eastern Seville until development begins in Eastern Seville:

e. To commence the paving of that portion of Thrasher Road lying east of the Suncoast Parkway no later than when vertical construction commences on that portion of the project referred to as Eastern Seville or when the County paves Thrasher Road from U.S. 19 through the Suncoast Parkway, whichever occurs first. Provided, however, in no event shall the Developer be required to commence said paving until the County has given written authorization for paving all County owned right-of-way.

Final revision, to provide for paving road through Eastern Seville on any development in the Seville project, western or eastern:

e. To commence the paving of that portion of Thrasher Road lying east of the Suncoast Parkway no later than when vertical construction commences on any portion of the Seville project or when the County paves Thrasher Road from U.S. 19 through the Suncoast Parkway, whichever occurs first. Provided, however, in no event shall the Developer be required to commence said paving until the County has given written authorization for paving all County owned right-of-way.

AGREEMENT

THIS AGREEMENT is made and entered into on the 14th day of June 2005, by and between OPTIMA DHM CORPORATION (the "Developer") and Hernando County, a subdivision of the State of Florida (the "County") regarding Condition 17 of the County's approval of the Seville Master Plan. The parties state:

Recitals

WHEREAS, on August 7, 2002, Hernando County approved revisions to the Seville Master Plan (Planning File Number H-02-05) which includes approximately 1,352 acres of land lying in Section 12, Township 21 South, Range 17 East and Sections 3, 4, 5, 7, 8, 9, 10 and 16, Township 21 South, Range 18 East, Hernando County, Florida, and more fully described in Exhibit "A" attached hereto and made a part hereof (hereinafter the "Subject Property"); and,

WHEREAS, on July 8, 2002, the Hernando County Planning and Zoning Commission heard the aforesaid rezoning application and voted 4-1 to approve the petitioner's request subject to conditions; and,

WHEREAS, one of the conditions for approval was that Developer and the County enter into an agreement as to certain improvements to be made to Thrasher Road by the Developer; and,

WHEREAS, the Developer intends to construct a development on the Subject Property; and,

WHEREAS, the Amended and Restated Water and Sewer Agreement in effect between Developer and the County Water and Sewer District as of the date of this Agreement depends in part upon the right-of-way and improvements provided for herein, based on the separate Memorandum of Agreement between the County and the Florida Turnpike Enterprise; and,

WHEREAS, the County desires to see such improvements and commitments from the Developer as will facilitate the flow of traffic in and adjacent to the development on the Subject Property, particularly with respect to extending Thrasher Road to U.S. 98; and,

WHEREAS, the Developer is willing to commit herein to the improvements, projects and donations set forth herein with respect to the Subject Property in return for being authorized to proceed with the development as approved.

NOW, THEREFORE, in consideration of the sum of Ten Dollars ($10.00) and other good and valuable consideration in hand paid by the parties hereto each to the other, simultaneously with the execution and delivery of these presents, and in consideration of the mutual understandings and agreements hereinafter set forth and contained, the parties agree as follows:

1. Recitals. The above Recitals are incorporated herein by reference and made a part hereof.

Note: This document was presented for Recording containing SOME ENTRIES THAT ARE OF POOR QUALITY AND MAY NOT BE LEGIBLE.

2. Effective Date and Duration. This Agreement shall take effect upon the date executed by the last party hereto (the "Effective Date"). This Agreement shall terminate upon the build-out of the Subject Property, the fulfillment of all obligations hereunder, or by operation of applicable law, whichever occurs last.

3. Consistency with Comprehensive Plan and Land Development Regulations. The parties find and agree that the development uses permitted on the Subject Property as described in Resolution #2002-190 approving rezoning of the subject property are consistent with Hernando County's adopted Comprehensive Plan and land development regulations.

4. Thrasher Road Extension. As provided in Condition 17 of the County's approval of the Master Plan, the Developer agrees as follows:

a. To provide a minimum of eighty (80) feet of right-of-way so that Thrasher Road can be extended from its current eastern terminus where it terminates at Downy Woodpecker Road to U.S. 98, except the Developer is not required to provide the right-of-way where the right-of-way is owned by the Florida Department of Transportation. In areas where the County owns a right-of-way along the route specified in paragraph b. herein, Developer shall be responsible for acquisition or reimbursement of the cost of County acquisition to increase any existing right-of-way from its current width to eighty (80) feet. Cost of acquisition shall include all compensation awarded in any eminent domain acquisition, including court costs, expert witness costs, and attorneys' fees.

b. The route of the Thrasher Road extension generally shall be the following described route: (1) Thrasher Road shall be extended easterly through Block 721 of Royal Highlands Unit No. 8 across the two hundred ninety-five foot wide Progress Energy right-of-way and through Block 732 of Royal Highlands Unit No. 8 to Courlan Road; (2) go north on Courlan Road to the north boundary of Section 15, Township 21 South, Range 18 East and the north boundary of Royal Highlands Unit No. 8; (3) go northeasterly across the Florida Department of Transportation property to the westerly right-of-way of the Suncoast Parkway; (4) go across the Suncoast Parkway right-of-way to the easterly right-of-way of the Suncoast Parkway; and (5) proceed along the route shown on Exhibit B until the road intersects U.S. 98 right-of-way.

Those portions of the Thrasher Road extension described in (1), (2), (3), and (4) are owned either by Hernando County or the Florida Department of Transportation. A portion of (5) is also owned by Hernando County.

c. To the extent the route described in (5) above requires the use of any County property, the Developer shall: (1) reconstruct the landfill perimeter limerock road and establish a gated access between the perimeter road and the new road; (2) reconstruct a small portion of the back access limerock road; (3) replace the lost drainage retention as part of the design of the new road: (4) establish a fifty (50) foot natural buffer along the south side of the eastern Seville parcel and adjacent to the north property line of the landfill, using existing vegetation to the extent feasible; and (5) compensate the County with either cash or property of reasonably acceptable equivalent value.

d. The route described in (5) above may be changed with the written approval of both parties. If there is to be a change in the route of the Thrasher Road extension, the change must be agreed upon prior to the commencement of construction of that portion of the project referred to as Eastern Seville.

e. To commence the paving of that portion of Thrasher Road lying east of the Suncoast Parkway no later than when vertical construction commences on any portion of the Seville project or when the County paves Thrasher Road from U.S. 19 through the Suncoast Parkway, whichever occurs first. Provided, however, in no event shall the Developer be required to commence said paving until the County has given written authorization for paving all County owned right-of-way.

5. Compliance with Applicable Laws and Regulations. The failure of this Agreement to address a particular permit, condition, term or restriction shall not relieve the Developer of the necessity of complying with the law governing said permitting requirements, conditions, terms or restrictions.

6. Force Majeure. The parties agree that failure or delay of the County or Developer in performing any of the terms of this Agreement shall be excused if and to the extent the failure or delay is caused by any acts of God, wars, fires, strikes, floods, weather, or any law, ordinance, rule or regulation beyond the control of the County or the Developer.

7. Entire Agreement. This Agreement contains the entire Agreement of the parties as it is the specific intent of the parties that this Agreement alone sets forth the terms and conditions on which the parties have mutually agreed. No oral statements, representations or prior written matter relating to the subject matter herein, but not contained herein, shall have any force or effect.

8. Modification. No modification of this Agreement shall be valid or binding unless such modification is in writing and duly executed by both the Developer and the County, or their respective successors or assigns.

9. Binding Effect. This Agreement shall be binding upon the respective successors, administrators, executors, heirs, and assigns of the parties hereto.

10. Counterparts. This Agreement may be executed in any number of counterparts, each of which shall be deemed an original, and all of which, together, shall constitute one and same instrument.

11. Authority. This Agreement is entered into pursuant to Chapter 23, Articles III (Division 5) and VIII of the Hernando County Code. The County is authorized to execute this Agreement in accordance with Florida law including, but not limited to, Chapter 125, Fla. Stat.

12. Governing Law; Disputes. This Agreement shall be interpreted and construed in accordance with the laws of Florida law including the Hernando County Code of Ordinances. Any dispute to this Agreement shall be litigated in civil court in Hernando County, Florida. Each party shall be responsible for its own costs and attorneys fees in the event of any dispute, claim, action or appeal.

IN WITNESS WHEREOF, the parties hereto have set their hands and seals this 14th day of June, 2005.

AGENDA ITEM H.

FIRST AMENDMENT
TO
AGREEMENT OF JUNE 14, 2005

THIS FIRST AMENDMENT is made and entered into on the ____ day of _____, 2006, by and between OPTIMA DHM CORPORATION (the "DEVELOPER") and HERNANDO COUNTY, a subdivision of the State of Florida (the "COUNTY") regarding Condition 17 of the COUNTY's approval of the Seville Master Plan. The parties state:

RECITALS

WHEREAS, since the execution of the Agreement, dated June 14, 2005, the DEVELOPER has sold parts of the Seville property to third parties who are proceeding with the development of the property, pursuant to the approved Master Plan; and

WHEREAS, construction has been initiated and permit applications have been filed; and

WHEREAS, the COUNTY and DEVELOPER has reconsidered when Thrasher Road needs to be extended to U.S. 98 and agree that provision 4.e. of the Agreement, dated June 14, 2005 needs to be amended.

NOW, THEREFORE, in consideration of the sum of Ten Dollars ($10.00) and other good and valuable consideration in hand paid by the parties hereto each to the other, simultaneously with the execution and delivery of these presents, and in consideration of the mutual understandings and agreements hereinafter set forth and contained, the parties agree as follows:

1. Recitals. The above Recitals are incorporated herein by reference and made a part hereof.

2. Amendment. Provision 4.e. is deleted in its entirety and replaced with the following:

"e. To commence the hard-surfacing (limerock and/or pavement) of that portion of Thrasher Road ~~lying east~~ as extended to the east and northeast of the Suncoast Parkway no later than when vertical construction commences on that portion of the project referred to as Eastern Seville or when the County hard-surfaces Thrasher Road from U.S. 19 through the Suncoast Parkway, whichever occurs first. If this obligation is triggered by vertical construction on Eastern Seville, the subject portion of Thrasher Road shall be paved to County standards by the Developer. If this obligation is triggered by County hard-surfacing, the Developer's work hereunder with respect to limerocking versus paving must

match or exceed the nature of the County's construction, provided however that at such time as the County paves Thrasher Road from U.S. 19 through the Suncoast Parkway, Developer shall be responsible for matching or exceeding the nature of the County's construction within ninety (90) days of completion of the County's construction with respect to that portion of Thrasher Road as extended to the east and northeast of the Suncoast Parkway. Any work by the Developer hereunder shall be pursuant to right-of-way permitting through the affected County agency."

This FIRST AMENDMENT is entered into as of the day and year first written above and is executed in at least two original copies, one of which is to be delivered to the DEVELOPER and one to the COUNTY CLERK for filing in the official records.

IN WITNESS WHEREOF, the parties hereto have set their hands and seals this ___ day of _____, 2006.

RECITALS

WHEREAS, since the execution of the Agreement, dated June 14, 2005, the DEVELOPER has sold parts of the Seville property to third parties who are proceeding with the development of the property, pursuant to the approved Master Plan; and

WHEREAS, construction has been initiated and permit applications have been filed; and

WHEREAS, the COUNTY and DEVELOPER has reconsidered when Thrasher Road needs to be extended to U.S. 98 and agree that provision 4.e. of the Agreement, dated June 14, 2005 needs to be amended.

NOW, THEREFORE, in consideration of the sum of Ten Dollars ($10.00) and other good and valuable consideration in hand paid by the parties hereto each

to the other, simultaneously with the execution and delivery of these presents, and in consideration of the mutual understandings and agreements hereinafter set forth and contained, the parties agree as follows:

1. Recitals. The above Recitals are incorporated herein by reference and made a part hereof.

2. Amendment. Provision 4.e. is deleted in its entirety and replaced with the following:

"e. To commence the hard-surfacing (limerock and/or pavement) of that portion of Thrasher Road lying east of the Suncoast Parkway no later than when vertical construction commences on that portion of the project referred to as Eastern Seville or when the County hard-surfaces Thrasher Road from U.S. 19 through the Suncoast Parkway, whichever occurs first. If this obligation is triggered by County hard-surfacing, the Developer's work hereunder with respect to limerocking versus paving must match or exceed the nature of the County's construction. Any work by the Developer hereunder shall be pursuant to right-of-way permitting through the affected County agency."

This FIRST AMENDMENT is entered into as of the day and year first written above and is executed in at least two original copies, one of which is to be delivered to the DEVELOPER and one to the COUNTY CLERK for filing in the official records.

to the other, simultaneously with the execution and delivery of these presents, and in consideration of the mutual understandings and agreements hereinafter set forth and contained, the parties agree as follows:

1. Recitals. The above Recitals are incorporated herein by reference and made a part hereof.

2. Amendment. Provision 4.e. is deleted in its entirety and replaced with the following:

1938697v1 - Seville First Amendment To Agreement Of June 14 2005

AGENDA MEMORANDUM

TO: Honorable Chairman and Members of the Board of County Commissioners

DATE: April 12, 2005

VIA: Gary Adams
County Administrator

SUBJECT: Thrasher Road--- Agreement with Developer for Right-of-Way, Limerocking, and Paving

FROM: Kent L. Weissinger
Assistant County Attorney

BRIEF OVERVIEW:

As part of conditions imposed on an amendment to Master Plan approval for Seville, the Developer was required to provide certain rights-of-way and to assume certain obligations for improvements to an extended Thrasher Road, which would eventually serve as a collector roadway between U.S. 19 and U.S. 98 in northwest Hernando County. As part of a series of related transactions, the Developer and County staff have agreed on the form of a Developer commitment to fulfill the conditions regarding the Thrasher Road extension, and a contract between the County and the Developer is attached.

Under the proposed Agreement, the Developer will provide right-of-way not already owned by the County along a defined route from the current eastern terminus of Thrasher Road east, then north and under the Suncoast Parkway at an existing overpass through the Eastern Seville development to U.S. 19 at a point consistent with the entrance to World Woods. A small portion of County property at the Northwest Solid Waste Management Facility may be required for the road, and the Agreement calls for the Developer to restore and improve affected portions of the facility and its infrastructure per Utilities Department needs, and to further provide cash or land in a reasonably equivalent value to make the County whole. The Agreement also calls for limerocking the extension when any Seville development begins and to pave the extension when vertical development begins at Eastern Seville.

Planning and Public Works staff have been involved in negotiating the Agreement and believe the proposed contract is consistent with the zoning conditions.

"MINUTES OF"
JUN 14 2005
CONSENT AGENDA ITEM 14.

LEGAL AUTHORITY:
Pursuant to s. 125.01, Florida Statutes, and County Subdivision Regulations and the Zoning Ordinance.

BUDGET IMPACT:
Under the Agreement terms, there should be no budget impact to the County.

RECOMMENDATION:
That the Board approve the proposed Agreement between the Seville Developer and the County with respect to the extension of Thrasher Road pursuant to conditions imposed on Master Plan amendment and authorize the Chair to execute the Agreement.

ADMINISTRATIVE NOTE:

cc: Larry Jennings
Charles Mixson

CONSENT AGENDA #14—THRASHER ROAD AGREEMENT

A final revision to this document...revised Friday per Developer request in apparent compliance with zoning conditions for Seville Master Plan approval. Per Planning, the revised Agreement was not in literal compliance with conditions and was revised yesterday.

First revision, removing Developer responsibility for limerocking as exceeding zoning condition, but limiting responsibility for paving road through Eastern Seville until development begins in Eastern Seville:

e. To commence the paving of that portion of Thrasher Road lying east of the Suncoast Parkway no later than when vertical construction commences on that portion of the project referred to as Eastern Seville or when the County paves Thrasher Road from U.S. 19 through the Suncoast Parkway, whichever occurs first. Provided, however, in no event shall the Developer be required to commence said paving until the County has given written authorization for paving all County owned right-of-way.

Final revision, to provide for paving road through Eastern Seville on any development in the Seville project, western or eastern:

e. To commence the paving of that portion of Thrasher Road lying east of the Suncoast Parkway no later than when vertical construction commences on any portion of the Seville project or when the County paves Thrasher Road from U.S. 19 through the Suncoast Parkway, whichever occurs first. Provided, however, in no event shall the Developer be required to commence said paving until the County has given written authorization for paving all County owned right-of-way.

AGREEMENT

THIS AGREEMENT is made and entered into on the 14th day of June 2005, by and between OPTIMA DHM CORPORATION (the "Developer") and Hernando County, a subdivision of the State of Florida (the "County") regarding Condition 17 of the County's approval of the Seville Master Plan. The parties state:

Recitals

WHEREAS, on August 7, 2002, Hernando County approved revisions to the Seville Master Plan (Planning File Number H-02-05) which includes approximately 1,352 acres of land lying in Section 12, Township 21 South, Range 17 East and Sections 3, 4, 5, 7, 8, 9, 10 and 16, Township 21 South, Range 18 East, Hernando County, Florida, and more fully described in Exhibit "A" attached hereto and made a part hereof (hereinafter the "Subject Property"); and,

WHEREAS, on July 8, 2002, the Hernando County Planning and Zoning Commission heard the aforesaid rezoning application and voted 4-1 to approve the petitioner's request subject to conditions; and,

WHEREAS, one of the conditions for approval was that Developer and the County enter into an agreement as to certain improvements to be made to Thrasher Road by the Developer; and,

WHEREAS, the Developer intends to construct a development on the Subject Property; and,

WHEREAS, the Amended and Restated Water and Sewer Agreement in effect between Developer and the County Water and Sewer District as of the date of this Agreement depends in part upon the right-of-way and improvements provided for herein, based on the separate Memorandum of Agreement between the County and the Florida Turnpike Enterprise; and,

WHEREAS, the County desires to see such improvements and commitments from the Developer as will facilitate the flow of traffic in and adjacent to the development on the Subject Property, particularly with respect to extending Thrasher Road to U.S. 98; and,

WHEREAS, the Developer is willing to commit herein to the improvements, projects and donations set forth herein with respect to the Subject Property in return for being authorized to proceed with the development as approved.

NOW, THEREFORE, in consideration of the sum of Ten Dollars ($10.00) and other good and valuable consideration in hand paid by the parties hereto each to the other, simultaneously with the execution and delivery of these presents, and in consideration of the mutual understandings and agreements hereinafter set forth and contained, the parties agree as follows:

1. Recitals. The above Recitals are incorporated herein by reference and made a part hereof.

Note: This document was presented for Recording containing SOME ENTRIES THAT ARE OF POOR QUALITY AND MAY NOT BE LEGIBLE.

2. Effective Date and Duration. This Agreement shall take effect upon the date executed by the last party hereto (the "Effective Date"). This Agreement shall terminate upon the build-out of the Subject Property, the fulfillment of all obligations hereunder, or by operation of applicable law, whichever occurs last.

3. Consistency with Comprehensive Plan and Land Development Regulations. The parties find and agree that the development uses permitted on the Subject Property as described in Resolution #2002-190 approving rezoning of the subject property are consistent with Hernando County's adopted Comprehensive Plan and land development regulations.

4. Thrasher Road Extension. As provided in Condition 17 of the County's approval of the Master Plan, the Developer agrees as follows:

a. To provide a minimum of eighty (80) feet of right-of-way so that Thrasher Road can be extended from its current eastern terminus where it terminates at Downy Woodpecker Road to U.S. 98, except the Developer is not required to provide the right-of-way where the right-of-way is owned by the Florida Department of Transportation. In areas where the County owns a right-of-way along the route specified in paragraph b. herein, Developer shall be responsible for acquisition or reimbursement of the cost of County acquisition to increase any existing right-of-way from its current width to eighty (80) feet. Cost of acquisition shall include all compensation awarded in any eminent domain acquisition, including court costs, expert witness costs, and attorneys' fees.

b. The route of the Thrasher Road extension generally shall be the following described route: (1) Thrasher Road shall be extended easterly through Block 721 of Royal Highlands Unit No. 8 across the two hundred ninety-five foot wide Progress Energy right-of-way and through Block 732 of Royal Highlands Unit No. 8 to Courlan Road; (2) go north on Courlan Road to the north boundary of Section 15, Township 21 South, Range 18 East and the north boundary of Royal Highlands Unit No. 8; (3) go northeasterly across the Florida Department of Transportation property to the westerly right-of-way of the Suncoast Parkway; (4) go across the Suncoast Parkway right-of-way to the easterly right-of-way of the Suncoast Parkway; and (5) proceed along the route shown on Exhibit B until the road intersects U.S. 98 right-of-way.

Those portions of the Thrasher Road extension described in (1), (2), (3), and (4) are owned either by Hernando County or the Florida Department of Transportation. A portion of (5) is also owned by Hernando County.

c. To the extent the route described in (5) above requires the use of any County property, the Developer shall: (1) reconstruct the landfill perimeter limerock road and establish a gated access between the perimeter road and the new road; (2) reconstruct a small portion of the back access limerock road; (3) replace the lost drainage retention as part of the design of the new road: (4) establish a fifty (50) foot natural buffer along the south side of the eastern Seville parcel and adjacent to the north property line of the landfill, using existing vegetation to the extent feasible; and (5) compensate the County with either cash or property of reasonably acceptable equivalent value.

d. The route described in (5) above may be changed with the written approval of both parties. If there is to be a change in the route of the Thrasher Road extension, the change must be agreed upon prior to the commencement of construction of that portion of the project referred to as Eastern Seville.

e. To commence the paving of that portion of Thrasher Road lying east of the Suncoast Parkway no later than when vertical construction commences on any portion of the Seville project or when the County paves Thrasher Road from U.S. 19 through the Suncoast Parkway, whichever occurs first. Provided, however, in no event shall the Developer be required to commence said paving until the County has given written authorization for paving all County owned right-of-way.

5. Compliance with Applicable Laws and Regulations. The failure of this Agreement to address a particular permit, condition, term or restriction shall not relieve the Developer of the necessity of complying with the law governing said permitting requirements, conditions, terms or restrictions.

6. Force Majeure. The parties agree that failure or delay of the County or Developer in performing any of the terms of this Agreement shall be excused if and to the extent the failure or delay is caused by any acts of God, wars, fires, strikes, floods, weather, or any law, ordinance, rule or regulation beyond the control of the County or the Developer.

7. Entire Agreement. This Agreement contains the entire Agreement of the parties as it is the specific intent of the parties that this Agreement alone sets forth the terms and conditions on which the parties have mutually agreed. No oral statements, representations or prior written matter relating to the subject matter herein, but not contained herein, shall have any force or effect.

8. Modification. No modification of this Agreement shall be valid or binding unless such modification is in writing and duly executed by both the Developer and the County, or their respective successors or assigns.

9. Binding Effect. This Agreement shall be binding upon the respective successors, administrators, executors, heirs, and assigns of the parties hereto.

10. Counterparts. This Agreement may be executed in any number of counterparts, each of which shall be deemed an original, and all of which, together, shall constitute one and same instrument.

11. Authority. This Agreement is entered into pursuant to Chapter 23, Articles III (Division 5) and VIII of the Hernando County Code. The County is authorized to execute this Agreement in accordance with Florida law including, but not limited to, Chapter 125, Fla. Stat.

12. Governing Law; Disputes. This Agreement shall be interpreted and construed in accordance with the laws of Florida law including the Hernando County Code of Ordinances. Any dispute to this Agreement shall be litigated in civil court in Hernando County, Florida. Each party shall be responsible for its own costs and attorneys fees in the event of any dispute, claim, action or appeal.

IN WITNESS WHEREOF, the parties hereto have set their hands and seals this 14th day of June, 2005.

FIRST AMENDMENT TO AGREEMENT OF JUNE 14, 2005

THIS FIRST AMENDMENT is made and entered into on the 14 day of June, 2007, by and between OPTIMA DHM CORPORATION (the "DEVELOPER") and HERNANDO COUNTY, a subdivision of the State of Florida (the "COUNTY") regarding Condition 17 of the COUNTY's approval of the Seville Master Plan. The parties state:

RECITALS

WHEREAS, since the execution of the Agreement, dated June 14, 2005, the DEVELOPER has sold parts of the Seville property to third parties who are proceeding with the development of the property, pursuant to the approved Master Plan; and

WHEREAS, construction has been initiated and permit applications have been filed; and

WHEREAS, the COUNTY and DEVELOPER has reconsidered when Thrasher Road needs to be extended to U.S. 98 and agree that provision 4.e. of the Agreement, dated June 14, 2005 needs to be amended.

NOW, THEREFORE, in consideration of the sum of Ten Dollars ($10.00) and other good and valuable consideration in hand paid by the parties hereto each to the other, simultaneously with the execution and delivery of these presents, and in consideration of the mutual understandings and agreements hereinafter set forth and contained, the parties agree as follows:

1. Recitals. The above Recitals are incorporated herein by reference and made a part hereof.

2. Amendment. Provision 4.e. is deleted in its entirety and replaced with the following:

"e. To commence the hard-surfacing of that portion of Thrasher Road as extended to the east and northeast of the Suncoast Parkway no later than when vertical construction commences on that portion of the project referred to as Eastern Seville or when the County hard-surfaces Thrasher Road from U.S. 19 through the Suncoast Parkway, whichever occurs first. If this obligation is triggered by vertical construction on Eastern Seville, the subject portion of Thrasher Road shall be paved to County standards by the Developer. If this obligation is triggered by County hard-surfacing, the Developer's work hereunder must match or exceed the nature of the County's construction, provided however that at such time as the County paves Thrasher Road from U.S. 19 through the

Suncoast Parkway, Developer shall be responsible for matching or exceeding the nature of the County's construction within ninety (90) days of completion of the County's construction with respect to that portion of Thrasher Road as extended to the east and northeast of the Suncoast Parkway. Any work by the Developer hereunder shall be pursuant to right-of-way permitting through the affected County agency."

This FIRST AMENDMENT is entered into as of the day and year first written above and is executed in at least two original copies, one of which is to be delivered to the DEVELOPER and one to the COUNTY CLERK for filing in the official records.

IN WITNESS WHEREOF, the parties hereto have set their hands and seals this 14 day of June, 2007.

e:\wpdata\judyg\variance\bccagda.wpd

MEMORANDUM
HERNANDO COUNTY, FLORIDA

TO:	The Honorable Chairman and Members of the Board of County Commissioners	DATE:	April 11, 2007
FROM:	Development Department	SUBJECT:	Variances

This Board has the authority to authorize a variance from the terms of the ordinance that will not be contrary to the public interest when, due to special conditions, a literal enforcement of the provisions of the ordinance would result in unnecessary and undue hardship. In order to authorize any variance from the terms of the ordinance, the governing body shall consider:

(a) That special conditions and circumstances exist which are peculiar to the land, structure or building involved and which are not applicable to other lands, structures or buildings in the same zoning district;

(b) That the special conditions and circumstances do not result from the actions of the applicant;

(c) That granting the variance requested will not confer on the applicant any special privilege that is denied by this ordinance to other lands, buildings or structures in the same zoning district;

(d) That literal interpretation of the provisions of the ordinance would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district under the terms of the ordinance and would work unnecessary and undue hardship on the applicant;

(e) That the variance granted is the minimum variance that will make possible the reasonable use of the land, building or structure;

(f) That the granting of the variance will be in harmony with the general intent and purpose of the land development regulations and that such variance will not be injurious to the area involved or otherwise detrimental to the public welfare.

STAFF REPORT
BCC Date: April 24, 2007

PETITIONER: Michael T. and Cheryl Woods

FILE NUMBER: V-07-17

PURPOSE: Variance to Increase Fence Height in the Front Yard

LOCATION: South side of Warm Wind Way, approximately 550 feet east of Whisper Ridge Trail

CURRENT ZONING: PDP-SF

ORDINANCE STANDARDS

Front yard requirements: Fences in the front yard shall be chain link, split-rail, picket or of similar construction such that at least twenty-five (25) percent of the fence area is open and unobstructed when viewed at a right angle to the fence line.

Letters received: 0

STAFF FINDINGS:

SURROUNDING ZONING		SURROUNDING LAND USE	
North:	PDP/SF	North:	Vacant
South:	PDP/SF	South:	Residential
East:	PDP/SF	East:	Vacant
West:	PDP/SF	West:	Vacant

1. The petitioner is requesting a variance to allow five foot high ornamental aluminum fencing in the front yard of her home located in Phase #5 of Woodland Waters subdivision.

2. The subject parcel is pie shaped and located on a curve in the front. The front lot line is approximately 180' long. The petitioner's contractor has stated that a 5' fence would provide greater flexibility in trying to match the grade of the property and would avoid the stair step look. He stated that this would be a more aesthetically pleasing view for the neighbors and community.

3. The petitioner is also proposing to install a decorative gate along her driveway. The drawing submitted show that they will meet the clear site triangle requirements.

4. Hernando County Code of Ordinances Chapter 8, Section 8-210.18 (Variances) states that a variance may be granted from the terms and provisions of the ordinance for just cause. (Hardship need not be proven.)

STAFF RECOMMENDATION: That the Board of County Commissioners review the above and determine if just cause exists to issue the requested variance.

AGENDA ITEM I 1

VARIANCE APPEAL

APPLICATION FOR PUBLIC HEARING BY HERNANDO COUNTY BOARD OF COUNTY COMMISSIONERS

This application must be completed and returned, with all exhibits and other items listed on page 1 of the instruction sheet, to this office before advertisement may be made for a public hearing. Bear in mind that the variance requested must be justified and the mere filing of the application or appearance at the public hearing does not assure approval of said application. The applicant is required to appear in person or by agent at the public hearing.

Are any other applications pending? (rezoning, conditional use, special exception, vacation of right-of-way, etc.) ☐Yes☐No

If yes, please indicate type of application _____

To: The Board of County Commissioners and other intersted parties

We the property owners of 11118 Warm Wind Way are requesting a fence variance from a 4 ft fence to a 5 ft fence. The property listed above consist of consist of steeply-graded property lines which at the time of installation will create a difference in the height of the fence and the installers ability to keep the fence level at all four corners of the property. (see diagram A)

The sole purpose of this fence is to secure our property while we are working abroad (Japan) 6-8 months a year.

Sincerely,
William T. Woods
Cheryl Woods

RE: Deed Restriction Request for Variance on Fencing

Dear Mr. and Mrs. Woods:

This letter will acknowledge our many conversations on this subject and my visit to your home on Tuesday, January 23, 2007.

During my visit, you shared with me your concerns regarding the differing grade levels of the four corners of your property, and the problems it would create with the installation of a 4' fence.

Your fencing contractor advised you that a 5' fence would provide less rigidity and greater flexibility in trying to match the grade of your property. Further, he advised that with a 5' fence, you could avoid having to "stair-step" the steeply-graded side property, creating a more aesthetically pleasing view for your neighbors and the community.

While we all acknowledge the deed restrictions call for a fence no greater than 4', in your situation, we will allow for the installation of a 5' fence.

However, it is to be understood that the only reason we are allowing this variance is because of the extenuating circumstances in this case, which we feel prohibit an aesthetically pleasing 4' fence.

Very truly yours,

Norman W. Hatch, Jr.

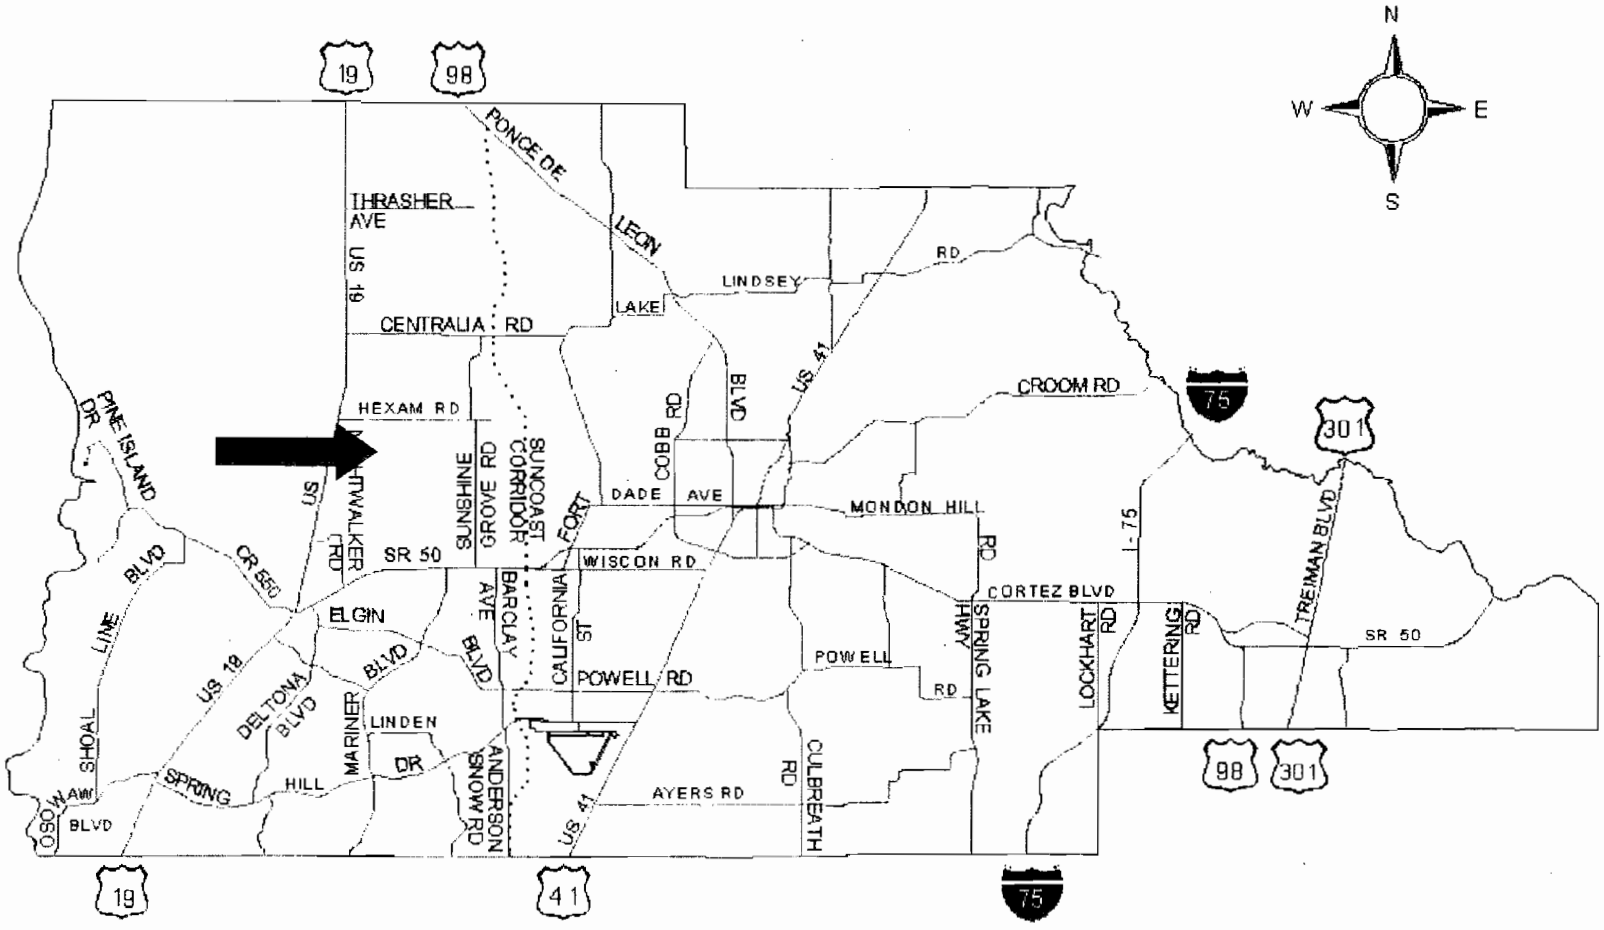
Hernando County, Florida



PREPARED BY: THE HERNANDO COUNTY PLANNING DEPARTMENT
PREPARED DATE: JUNE 2000

3 0 3 6 Miles

RESOLUTION NUMBER 2007-

WHEREAS, Hernando County has adopted zoning and land development regulations pursuant to Chapter 163 and Section 125.01(1), *Fla. Stat.*,which authorize the County to regulate the use of land in the unincorporated areas of Hernando County, Florida, and take action on the request herein; and,

WHEREAS, the Hernando County Board of County Commissioners (BOCC) conducted a duly advertised public hearing on April 24, 2007 to consider the requested fence variance on the specified parcel(s) in Hernando County, Florida, as more fully described below.

NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF HERNANDO COUNTY, FLORIDA AS FOLLOWS:

APPLICANT: William T. and Cheryl Woods **FILE NUMBER:** V-07-17

LEGAL DESCRIPTION: Lot 55 of Woodland Waters Phase 5, as per plat thereof recorded in Plat Book 33, pages 33-35, public records of Hernando County, FL
Parcel ID# R18 222 18 4325 0000 0550 (Key #1494984)

GENERAL LOCATION: South side of Warm Wind Way, approximately 550 feet east of Whisper Ridge Trail

REQUEST: Granting a variance to allow a five foot ornamental fence in the front yard in connection with the subject parcel located in the PDP-SF zone. The representations contained in the owner's variance application are incorporated herein by reference and made a part hereof. For purposes herein, it is presumed that all requisite notice and advertising requirements have been satisfied.

FINDINGS OF FACT: ALL of the facts and conditions set forth in the County's staff memoranda and presented to the BOCC in connection with the public hearing in this matter are incorporated herein by reference and made a material part of this Resolution as integral to the BOCC's action. The BOCC finds that the testimony and record supporting approval of the requested fence variance to be credible and to constitute competent substantial evidence. In further support thereof, the BOCC makes the following specific Findings of Fact:

1. Applicant has demonstrated just cause under § 8-210.18 of the Hernando County Code of Ordinances and the requested fence variance is in conformity with Appendix A, Art. V, § 3(A)(2)(a.b,c,e,f) of the Code.

2. The property owner agrees to and shall furnish, at its expense, access to any utility easement when access is required by any utility provider.

3. The requested fence variance is consistent with the County's adopted Comprehensive Plan and land development regulations, subject to all conditions made a part of the public hearing in this matter and which conditions are incorporated herein by reference.

CONCLUSIONS OF LAW:

The BOCC is authorized to act on this matter pursuant to Chapters 125 and 163, *Fla. Stat.*, and Chapter 8, Division 14 and Appendix A, Art. V, Section 3, Hernando County Code of Ordinances. Accordingly, after public hearing and testimony, being fully advised in the record, and based upon competent substantial evidence, the BOCC makes the following specific conclusions of law:

1. The requested fence variance is consistent with the County's adopted Comprehensive Plan and land development regulations, subject to all conditions made a part of the public hearing in this matter and which conditions are incorporated herein by reference.

2. The fence variance, as granted herein, shall run with the land.

ACTION:

After notice and public hearing, based upon the record in this matter and **ALL** of the findings of fact and conclusions of law above, the BOCC hereby APPROVES the requested fence variance to allow a five foot ornamental fence in the front yard in connection with the subject parcel located in a PDP-SF zone, and subject to all afore-referenced conditions.

STAFF REPORT
BCC Date: April 24, 2007

PETITIONER: ~~Michael~~ William T. and Cheryl Woods

FILE NUMBER: V-07-17

PURPOSE: Variance to Increase Fence Height in the Front Yard

LOCATION: South side of Warm Wind Way, approximately 550 feet east of Whisper Ridge Trail

CURRENT ZONING: PDP-SF

ORDINANCE STANDARDS

Front yard requirements: Fences in the front yard shall be chain link, split-rail, picket or of similar construction such that at least twenty-five (25) percent of the fence area is open and unobstructed when viewed at a right angle to the fence line.

Letters received: 0

STAFF FINDINGS:

SURROUNDING ZONING		SURROUNDING LAND USE	
North:	PDP/SF	North:	Vacant
South:	PDP/SF	South:	Residential
East:	PDP/SF	East:	Vacant
West:	PDP/SF	West:	Vacant

1. The petitioner is requesting a variance to allow five foot high ornamental aluminum fencing in the front yard of her home located in Phase #5 of Woodland Waters subdivision.

2. The subject parcel is pie shaped and located on a curve in the front. The front lot line is approximately 180' long. The petitioner's contractor has stated that a 5' fence would provide greater flexibility in trying to match the grade of the property and would avoid the stair step look. He stated that this would be a more aesthetically pleasing view for the neighbors and community.

3. The petitioner is also proposing to install a decorative gate along her driveway. The drawing submitted show that they will meet the clear site triangle requirements.

4. Hernando County Code of Ordinances Chapter 8, Section 8-210.18 (Variances) states that a variance may be granted from the terms and provisions of the ordinance for just cause. (Hardship need not be proven.)

STAFF RECOMMENDATION: That the Board of County Commissioners review the above and determine if just cause exists to issue the requested variance.

"MINUTES OF"

To: The Board of County Commissioners and other intersted parties

We the property owners of 11118 Warm Wind Way are requesting a fence variance from a 4 ft fence to a 5 ft fence. The property listed above consist of consist of steeply-graded property lines which at the time of installation will create a difference in the height of the fence and the installers ability to keep the fence level at all four corners of the property. (see diagram A)

The sole purpose of this fence is to secure our property while we are working abroad (Japan) 6-8 months a year.

Sincerely,
William T. Woods
Cheryl Woods

RE: Deed Restriction Request for Variance on Fencing

Dear Mr. and Mrs. Woods:

This letter will acknowledge our many conversations on this subject and my visit to your home on Tuesday, January 23, 2007.

During my visit, you shared with me your concerns regarding the differing grade levels of the four corners of your property, and the problems it would create with the installation of a 4' fence.

Your fencing contractor advised you that a 5' fence would provide less rigidity and greater flexibility in trying to match the grade of your property. Further, he advised that with a 5' fence, you could avoid having to "stair-step" the steeply-graded side property, creating a more aesthetically pleasing view for your neighbors and the community.

While we all acknowledge the deed restrictions call for a fence no greater than 4', in your situation, we will allow for the installation of a 5' fence.

However, it is to be understood that the only reason we are allowing this variance is because of the extenuating circumstances in this case, which we feel prohibit an aesthetically pleasing 4' fence.

Very truly yours,

Norman W. Hatch, Jr.
Vice President, Homeowners Association of Woodland Waters, Inc.

STAFF REPORT
BCC Date: April 24, 2007 (postponed from 1/23/07)

PETITIONER: Sandra Perez and Angel Orue

FILE NUMBER: V-06-70

PURPOSE: Variance to Reduce Front Yard Setback for Fence; and to Increase Fence Height and Fence Opacity in the Front Yard

LOCATION: Corner of Hawthorne Road and Dorado Street

CURRENT ZONING: PDP-SF

ORDINANCE STANDARDS

Front yard requirements: Fences in the front yard shall be chain link, split-rail, picket or of similar construction such that at least twenty-five (25) percent of the fence area is open and unobstructed when viewed at a right angle to the fence line. On corner lots, for the purpose of fence installation standards, one yard will be deemed the front yard, determined by the front entrance of the principal building location. The secondary yard will be required to maintain a nine (9) foot setback for fences over four (4) feet in height and exceeding seventy-five (75) percent opacity.

Letters received: 0

STAFF FINDINGS:

SURROUNDING ZONING		SURROUNDING LAND USE	
North:	PDP/SF	North:	Residential
South:	PDP/SF	South:	Residential
East:	PDP/SF	East:	Residential
West:	PDP/SF	West:	Residential

1. The petitioner is requesting a variance to allow a 6' stockade fence on the property line in the secondary front yard.

2. The subject parcel measures approximately 90' by 125' and is located in Unit 24, Spring Hill.

3. A fence permit was issued to the petitioner on August 23, 2005. On March 24, 2006 the petition requested that the permit be reactivated as they did not have time to complete the job. On April 5, 2006, the petitioner was notified that the permit was reactivated.. On October 9,2006, a second request to reactivate the permit was submitted to the Development Department. This request was approved on October 13, 2006.

4. When the original permit application was submitted, the petitioner signed an interior lot diagram. They have stated that at that time they did not realize it was for the wrong type of lot.

5. Hernando County Code of Ordinances Chapter 8, Section 8-210.18 (Variances) states that a variance may be granted from the terms and provisions of the ordinance for just cause. (Hardship need not be proven.)

STAFF RECOMMENDATION: That the Board of County Commissioners review the above and determine if just cause exists to issue the requested variance.

Rev. 3/5

11/08/2016

To: Hernando County Board of County Commissioners

In this letter we explain to you why we are appealing for a dimensional Variances, so you would permit us to keep our fence In the property line. When we went to the county office of the Spring Hill, they gave us the papers of a Inside property, and we have a corner lot I realise It is, also our fault in not hotcing that they gave us papers for a Inside lot.

We followed the Inside lot print and we put up the fence, later we received a letter from a Inspector saying that the fence was wrong because the fence was wrong because the fence was in the property line and then we went to the county office of Brooksville where they gave us the correct papers, but the fence was already up. To put the fence up we had to reinforce our move and struggle economicly with. Indicates that we would have never put up the fence where it was not Indicated, we want the fence so we could release our dog into the back yard, we also plan on having kids and we wish to have the right boundaries.

Thats why we appeal to you with our biggest hopes on not losing all the money and hard work we have put up on this fence.

Thanks you for your time and attention

Sincerely

Sandra Reis and Angel Cruz

STAFF REPORT
BCC Date: April 24, 2007 (postponed from 1/23/07)

PETITIONER: Sandra Perez and Angel Orue

FILE NUMBER: V-06-70

PURPOSE: Variance to Reduce Front Yard Setback for Fence; and to Increase Fence Height and Fence Opacity in the Front Yard

LOCATION: Corner of Hawthorne Road and Dorado Street

CURRENT ZONING: PDP-SF

ORDINANCE STANDARDS

Front yard requirements: Fences in the front yard shall be chain link, split-rail, picket or of similar construction such that at least twenty-five (25) percent of the fence area is open and unobstructed when viewed at a right angle to the fence line. On corner lots, for the purpose of fence installation standards, one yard will be deemed the front yard, determined by the front entrance of the principal building location. The secondary yard will be required to maintain a nine (9) foot setback for fences over four (4) feet in height and exceeding seventy-five (75) percent opacity.

Letters received: 0

STAFF FINDINGS:

SURROUNDING ZONING	SURROUNDING LAND USE
North: PDP/SF	North: Residential
South: PDP/SF	South: Residential
East: PDP/SF	East: Residential
West: PDP/SF	West: Residential

1. The petitioner is requesting a variance to allow a 6' stockade fence on the property line in the secondary front yard.

2. The subject parcel measures approximately 90' by 125' and is located in Unit 24, Spring Hill.

3. A fence permit was issued to the petitioner on August 23, 2005. On March 24, 2006 the petition requested that the permit be reactivated as they did not have time to complete the job. On April 5, 2006, the petitioner was notified that the permit was reactivated.. On October 9,2006, a second request to reactivate the permit was submitted to the Development Department. This request was approved on October 13, 2006.

4. When the original permit application was submitted, the petitioner signed an interior lot diagram. They have stated that at that time they did not realize it was for the wrong type of lot.

5. Hernando County Code of Ordinances Chapter 8, Section 8-210.18 (Variances) states that a variance may be granted from the terms and provisions of the ordinance for just cause. (Hardship need not be proven.)

STAFF RECOMMENDATION: That the Board of County Commissioners review the above and determine if just cause exists to issue the requested variance.

Rev. 2

11/08/2016

To: Hernando County Board of County Commissioners

In this letter we explain to you why we are appealing for a dimensional variance, so you would permit us to keep our fence in the property line. When we went to the county office of the Spring Hill, they gave us the papers of a Inside property, and we have a corner lot I realize it is, also our fault in not noticing that they gave us papers for a Inside lot.

We followed the Inside lot print and we put up the fence, later we received a letter from a Inspector saying that the fence was wrong because the fence was wrong because the fence was in the property line and then we went to the county office of Brooksville where they gave us the correct papers, but the fence was already up. To put the fence up we had to reinforce our roots and struggle economically with Irmas that we would have never put up the fence where it was not Indicated, we want the fence so we can release our dog into the back yard, we also plans on having kids and we wish to make the right decisions.

Please know we appeal to you with our biggest hopes on not losing all the money and hard work we have put up on this fence.

Thank you for your time and attention

Sincerely

Sandra Velez and Joseph Velez

R Rm 131

RESOLUTION NUMBER 2007-133

WHEREAS, Hernando County has adopted zoning and land development regulations pursuant to Chapter 163 and Section 125.01(1), *Fla. Stat.*,which authorize the County to regulate the use of land in the unincorporated areas of Hernando County, Florida, and take action on the request herein; and,

WHEREAS, the Hernando County Board of County Commissioners (BOCC) conducted a duly advertised public hearing on April 24, 2007 to consider the requested fence variance on the specified parcel(s) in Hernando County, Florida, as more fully described below.

NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF HERNANDO COUNTY, FLORIDA AS FOLLOWS:

APPLICANT: Sandra Perez and Angel Orue **FILE NUMBER:** V-06-70

LEGAL DESCRIPTION: Lot 1, Block 1622, Spring Hill Unit 24, as per plat thereof recorded in Plat Book 10, pages 53-60, public records of Hernando County, FL
Parcel ID# R32 323 17 5240 1622 0010 (Key #320959)

OFFICIAL RECORDS
BK: 2433 PG: 1018

GENERAL LOCATION: Corner of Hawthorne Road and Dorado Street

REQUEST: Granting a variance to allow a six foot privacy fence with a zero setback in the secondary front yard along Hawthorne Road in connection with the subject parcel located in the PDP-SF zone. The representations contained in the owner's variance application are incorporated herein by reference and made a part hereof. For purposes herein, it is presumed that all requisite notice and advertising requirements have been satisfied.

FINDINGS OF FACT: ALL of the facts and conditions set forth in the County's staff memoranda and presented to the BOCC in connection with the public hearing in this matter are incorporated herein by reference and made a material part of this Resolution as integral to the BOCC's action. The BOCC finds that the testimony and record supporting approval of the requested fence variance to be credible and to constitute competent substantial evidence. In further support thereof, the BOCC makes the following specific Findings of Fact:

1. Applicant has demonstrated just cause under § 8-210.18 of the Hernando County Code of Ordinances and the requested fence variance is in conformity with Appendix A, Art. V, § 3(A)(2)(a.b,c,e,f) of the Code.

2. The property owner agrees to and shall furnish, at its expense, access to any utility easement when access is required by any utility provider.

3. The requested fence variance is consistent with the County's adopted Comprehensive Plan and land development regulations, subject to all conditions made a part of the public hearing in this matter and which conditions are incorporated herein by reference.

CONCLUSIONS OF LAW: The BOCC is authorized to act on this matter pursuant to Chapters 125 and 163, *Fla. Stat.*, and Chapter 8, Division 14 and Appendix A, Art. V, Section 3, Hernando County Code of Ordinances. Accordingly, after public hearing and testimony, being fully advised in the record, and based upon competent substantial evidence, the BOCC makes the following specific conclusions of law:

1. The requested fence variance is consistent with the County's adopted Comprehensive Plan and land development regulations, subject to all conditions made a part of the public hearing in this matter and which conditions are incorporated herein by reference.

2. The fence variance, as granted herein, shall run with the land.

ACTION: After notice and public hearing, based upon the record in this matter and **ALL** of the findings of fact and conclusions of law above, the BOCC hereby APPROVES the requested fence variance to allow a six foot privacy fence with a zero setback in the secondary front yard along Hawthorne Road in connection with the subject parcel located in a PDP-SF zone, and subject to all afore-referenced conditions.

STAFF REPORT
BCC Date: April 24, 2007

PETITIONER: Roger and Tracie Maler

FILE NUMBER: V-06-71

PURPOSE: Variance to Increase the Distance into a Waterway for a Boatlift

GENERAL LOCATION: South side of Gulfwinds Circle, beginning of cul de sac

CURRENT ZONING: R-1B

ORDINANCE STANDARDS

Maximum	Requested	Variance Requested
12'	21'	9'

Letters received: 2 (Opposed)

STAFF FINDINGS:

SURROUNDING ZONING	SURROUNDING LAND USE
North: R-1B	North: Residential
South: R-1B	South: Canal
East: R-1B	East: Residential
West: R-1B	West: Residential

1. The petitioner is requesting a variance to install a dock and a boat lift on a canal behind their residential lot. The lot is presently vacant and located on a canal in Hernando Beach.

2. The subject parcel measures approximately 106' by 70'.

3. The petitioner is proposing to extend the dock to 16 feet and the boat lift to 21 feet. The petitioner's representative has stated that the reason for this request is to avoid the shelf of rock in front of the seawall.

4. Waterway Maintenance Division has reviewed the variance application and has visited the site and have determined that the 21 feet into the canal will not be a navigational hazard in this area. There have been two appeals filed by residents of the area opposing the notice of intent to approve this request.

STAFF RECOMMENDATION: That the Board of County Commissioners review the above request and approve same because it will not be a navigational hazard and is necessary to avoid the rock shelf in front of the seawall.

AGENDA ITEM I 3

VARIANCE APPEAL

APPLICATION FOR PUBLIC HEARING BY HERNANDO COUNTY BOARD OF COUNTY COMMISSIONERS

SIGNATURE Marcia Maler

DESCRIPTION OF VARIANCE REQUEST

The current ordinance (Article V Marine Construction Code) only allows a "dock" to extend 12' into a waterway that is between 76' to 99' wide.

The Maler's canal is approximately 84' wide. The lot is vacant and no structure currently exists. We propose to install a boatlift that will extend 21' into the canal, and a floating dock that will extend 16' into the canal. The variance request will allow us to avoid the shelf of rock in front of the seawall. There will still be ample room for navigation.

RESOLUTION NUMBER 2007-

WHEREAS, Hernando County has adopted zoning and land development regulations pursuant to Chapter 163 and Section 125.01(1), *Fla. Stat.*,which authorize the County to regulate the use of land in the unincorporated areas of Hernando County, Florida, and take action on the request herein; and,

WHEREAS, the Hernando County Board of County Commissioners (BOCC) conducted a duly advertised public hearing on April 24, 2007 to consider the requested dimensional variance on the specified parcel(s) in Hernando County, Florida, as more fully described below.

NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF HERNANDO COUNTY, FLORIDA AS FOLLOWS:

APPLICANT: Roger and Tracie Maler **FILE NUMBER:** V-06-71

LEGAL DESCRIPTION: Lot 29, Gulf Coast Retreats Unit 2, as per plat thereof recorded in Plat Book 6, pages 89A-89B, public records of Hernando County, FL
Parcel ID# R12 223 16 1900 0000 0290 (Key # 155548).

GENERAL LOCATION: South side of Gulfwinds Circle, beginning of cul de sac

REQUEST: Granting a dimensional variance to allow an increase in the distance into a waterway from 12 feet to 21 feet for a dock and boatlift in connection with the subject parcel located in the R-1B zone. The representations contained in the owner's variance application are incorporated herein by reference and made a part hereof. For purposes herein, it is presumed that all requisite notice and advertising requirements have been satisfied.

FINDINGS OF FACT: ALL of the facts and conditions set forth in the County's staff memoranda and presented to the BOCC in connection with the public hearing in this matter are incorporated herein by reference and made a material part of this Resolution as integral to the BOCC's action. The BOCC finds that the testimony and record supporting approval of the requested dimensional variance to be credible and to constitute competent substantial evidence. In further support thereof, the BOCC makes the following specific Findings of Fact:

1. Granting the requested dimensional variance is in substantial conformity with the following:

   (a) That special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures, or buildings in the same zoning district ;

(b) That the special conditions and circumstances do not result from the actions of the applicant;

(c) That granting the variance requested will not confer on the applicant any special privilege that is denied by this ordinance to other lands, buildings, or structures in the same zoning district;

(d) That literal interpretation of the provisions of the ordinance would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district under the terms of the ordinance and would work unnecessary and undue hardship on the applicant;

(e) That the variance granted is the minimum variance that will make possible the reasonable use of the land, building or structure;

(f) That the granting of the variance will be in harmony with the general intent and purpose of the land development regulations and that such variance will not be injurious to the area involved or otherwise detrimental to the public welfare *(to wit, it has been determined that the additional distance into the canal will not create a navigational hazard for boat traffic and is necessary to avoid the rock shelf in front of the seawall.)*

2. The requested dimensional variance is consistent with the County's adopted Comprehensive Plan and land development regulations, subject to all conditions made a part of the public hearing in this matter and which conditions are incorporated herein by reference.

CONCLUSIONS OF LAW:

The BOCC is authorized to act on this matter pursuant to Chapters 125 and 163, *Fla. Stat.*, and Appendix A, Art. V, § 3, Hernando County Code of Ordinances. Accordingly, after public hearing and testimony, being fully advised in the record, and based upon competent substantial evidence, the BOCC makes the following specific conclusions of law:

1. The requested dimensional variance is consistent with the County's adopted Comprehensive Plan and land development regulations, subject to all conditions made a part of the public hearing in this matter and which conditions are incorporated herein by reference.

2. The dimensional variance, as granted herein, shall run with the land.

ACTION: After notice and public hearing, based upon the record in this matter and **ALL** of the findings of fact and conclusions of law above, the BOCC hereby APPROVES the requested dimensional variance to allow an increase in the distance into a waterway from 12 feet to 21 feet for a dock and boatlift in connection with the subject parcel located in a R-1B zone, and subject to all afore-referenced conditions.

ADOPTED IN REGULAR SESSION THE 24th DAY OF APRIL, 2007

BOARD OF COUNTY COMMISSIONERS
HERNANDO COUNTY, FLORIDA

Attest:_____ By:_____

KAREN NICOLAI
CLERK

JEFF STABINS
CHAIRMAN

(SEAL)

APPROVED AS TO FORM
AND LEGAL SUFFICIENCY

BY _____
County Attorney's Office

STAFF REPORT
BCC Date: April 24, 2007

PETITIONER: Roger and Tracie Maler

FILE NUMBER: V-06-71

PURPOSE: Variance to Increase the Distance into a Waterway for a Boatlift

GENERAL LOCATION: South side of Gulfwinds Circle, beginning of cul de sac

CURRENT ZONING: R-1B

ORDINANCE STANDARDS

Maximum	Requested	Variance Requested
12'	21'	9'

Letters received: 2 (Opposed)

STAFF FINDINGS:

SURROUNDING ZONING	SURROUNDING LAND USE
North: R-1B	North: Residential
South: R-1B	South: Canal
East: R-1B	East: Residential
West: R-1B	West: Residential

1. The petitioner is requesting a variance to install a dock and a boat lift on a canal behind their residential lot. The lot is presently vacant and located on a canal in Hernando Beach.

2. The subject parcel measures approximately 106' by 70'.

3. The petitioner is proposing to extend the dock to 16 feet and the boat lift to 21 feet. The petitioner's representative has stated that the reason for this request is to avoid the shelf of rock in front of the seawall.

4. Waterway Maintenance Division has reviewed the variance application and has visited the site and have determined that the 21 feet into the canal will not be a navigational hazard in this area. There have been two appeals filed by residents of the area opposing the notice of intent to approve this request.

STAFF RECOMMENDATION: That the Board of County Commissioners review the above request and approve same because it will not be a navigational hazard and is necessary to avoid the rock shelf in front of the seawall.

"MINUTES OF"

DESCRIPTION OF VARIANCE REQUEST

The current ordinance (Article V Marine Construction Code) only allows a "dock" to extend 12' into a waterway that is between 76' to 99' wide.

The Maler's canal is approximately 84' wide. The lot is vacant and no structure currently exists. We propose to install a boatlift that will extend 21' into the canal, and a floating dock that will extend 16' into the canal. The variance request will allow us to avoid the shelf of rock in front of the seawall. There will still be ample room for navigation.

KAREN NICOLAI, Clerk

RESOLUTION NUMBER 2007-134

WHEREAS, Hernando County has adopted zoning and land development regulations pursuant to Chapter 163 and Section 125.01(1), *Fla. Stat.*,which authorize the County to regulate the use of land in the unincorporated areas of Hernando County, Florida, and take action on the request herein; and,

WHEREAS, the Hernando County Board of County Commissioners (BOCC) conducted a duly advertised public hearing on April 24, 2007 to consider the requested dimensional variance on the specified parcel(s) in Hernando County, Florida, as more fully described below.

NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF HERNANDO COUNTY, FLORIDA AS FOLLOWS:

APPLICANT: Roger and Tracie Maler **FILE NUMBER:** V-06-71

OFFICIAL RECORDS
BK: 2433 PG: 1020

LEGAL DESCRIPTION: Lot 29, Gulf Coast Retreats Unit 2, as per plat thereof recorded in Plat Book 6, pages 89A-89B, public records of Hernando County, FL
Parcel ID# R12 223 16 1900 0000 0290 (Key # 155548).

GENERAL LOCATION: South side of Gulfwinds Circle, beginning of cul de sac

REQUEST: Granting a dimensional variance to allow an increase in the distance into a waterway from 12 feet to 21 feet for a dock and boatlift in connection with the subject parcel located in the R-1B zone. The representations contained in the owner's variance application are incorporated herein by reference and made a part hereof. For purposes herein, it is presumed that all requisite notice and advertising requirements have been satisfied.

FINDINGS OF FACT: ALL of the facts and conditions set forth in the County's staff memoranda and presented to the BOCC in connection with the public hearing in this matter are incorporated herein by reference and made a material part of this Resolution as integral to the BOCC's action. The BOCC finds that the testimony and record supporting approval of the requested dimensional variance to be credible and to constitute competent substantial evidence. In further support thereof, the BOCC makes the following specific Findings of Fact:

1. Granting the requested dimensional variance is in substantial conformity with the following:

   (a) That special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other lands, structures, or buildings in the same zoning district ;

(b) That the special conditions and circumstances do not result from the actions of the applicant;

(c) That granting the variance requested will not confer on the applicant any special privilege that is denied by this ordinance to other lands, buildings, or structures in the same zoning district;

(d) That literal interpretation of the provisions of the ordinance would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district under the terms of the ordinance and would work unnecessary and undue hardship on the applicant;

(e) That the variance granted is the minimum variance that will make possible the reasonable use of the land, building or structure;

(f) That the granting of the variance will be in harmony with the general intent and purpose of the land development regulations and that such variance will not be injurious to the area involved or otherwise detrimental to the public welfare *(to wit, it has been determined that the additional distance into the canal will not create a navigational hazard for boat traffic and is necessary to avoid the rock shelf in front of the seawall.)*

2. The requested dimensional variance is consistent with the County's adopted Comprehensive Plan and land development regulations, subject to all conditions made a part of the public hearing in this matter and which conditions are incorporated herein by reference.

CONCLUSIONS OF LAW:

The BOCC is authorized to act on this matter pursuant to Chapters 125 and 163, *Fla. Stat.*, and Appendix A, Art. V, § 3, Hernando County Code of Ordinances. Accordingly, after public hearing and testimony, being fully advised in the record, and based upon competent substantial evidence, the BOCC makes the following specific conclusions of law:

1. The requested dimensional variance is consistent with the County's adopted Comprehensive Plan and land development regulations, subject to all conditions made a part of the public hearing in this matter and which conditions are incorporated herein by reference.

2. The dimensional variance, as granted herein, shall run with the land.

ACTION: After notice and public hearing, based upon the record in this matter and **ALL** of the findings of fact and conclusions of law above, the BOCC hereby APPROVES the requested dimensional variance to allow an increase in the distance into a waterway from 12 feet to 21 feet for a dock and boatlift in connection with the subject parcel located in a R-1B zone, and subject to all afore-referenced conditions.

To Whom it May Concern

My name is John Currie I reside at 3098 Gulf Winds Circle lot 21 + 21B Unit 2. I wish to protest file number V-06-71 to increase distance into waterway. This proposal will hinder my access by boat to the Gulf of Mexico. You must consider the property directly across the canal will someday install a dock with a boat tied up to it narrowing the canal access. Please accept this letter as I have to travel out of town for medical treatment

Thank You

STAFF REPORT
BCC Date: April 24, 2007

PETITIONER: Susan Townsend

FILE NUMBER: V-07-05

PURPOSE: Variance to Reduce Side Setback Requirement

GENERAL LOCATION: North side of Sumter Drive, approximately 300 feet east of Ivy Hill Lane

CURRENT ZONING: R-1B

ORDINANCE STANDARDS

Required	Requested	Variance Requested
10'	8.80'	1.2'

Letters received: 1 petition with 6 signatures in favor

STAFF FINDINGS:

SURROUNDING ZONING	SURROUNDING LAND USE
North: R-1B	North: Residential
South: R-1B	South: Residential
East: R-1B	East: Residential
West: R-1B	West: Vacant

1. The petitioner is requesting a variance to reduce the side setback from 10' to 8.80' to place an addition onto an existing single family home which would also connect a detached garage to the single family home.

2. The subject parcel measures approximately 120' by 130' and is located in the Rolling Acres Subdivision. The parcel presently has a single family home and a detached garage located on it. The petitioner is proposing to place a triangular shaped addition between the house and the detached garage.

3. The present ordinance standards require the primary structure to be 10' from the side property line and the detached garage to be 5' from the side property line. Attaching the two structures will create one primary structure and will be required to meet the 10' side setback requirement.

STAFF RECOMMENDATION: That the Board of County Commissioners review the above request and deny same because the hardship is self imposed and is not emanating from the land.

AGENDA ITEM I 4.

VARIANCE APPEAL

APPLICATION FOR PUBLIC HEARING BY HERNANDO COUNTY BOARD OF COUNTY COMMISSIONERS

This application must be completed and returned, with all exhibits and other items listed on page 1 of the instruction sheet, to this office before advertisement may be made for a public hearing. GARY FISHER
HERNANNDO COUNTY
DEVELOPMENT DEPARTMENT
BROOKSVILLE, FL, 34602

Dear Mr. Gary Fisher;

I Susan Townsend ask the county for a variance at 6158 Sumter Drive in Brooksville FL, due to the fact that I built the garage to close to the ten foot marker.

I would like to add the garage to the home. The way the home is built there is a gap. The rooms would be at a angle from the home to the garage. It is off about 1 foot 3 inches The plans are in the building department, 555777, Brooksville office.

I did go to the neighbors to let them know about what I wish to do to my home. I asked them for their permission. They would like to see the home done. I would appreciate if you would grant this request. See attached signed letter with the neighbors signatures saying they agree. Thank you for time.

Sincerely,

Susan Townsend 1-22-2007

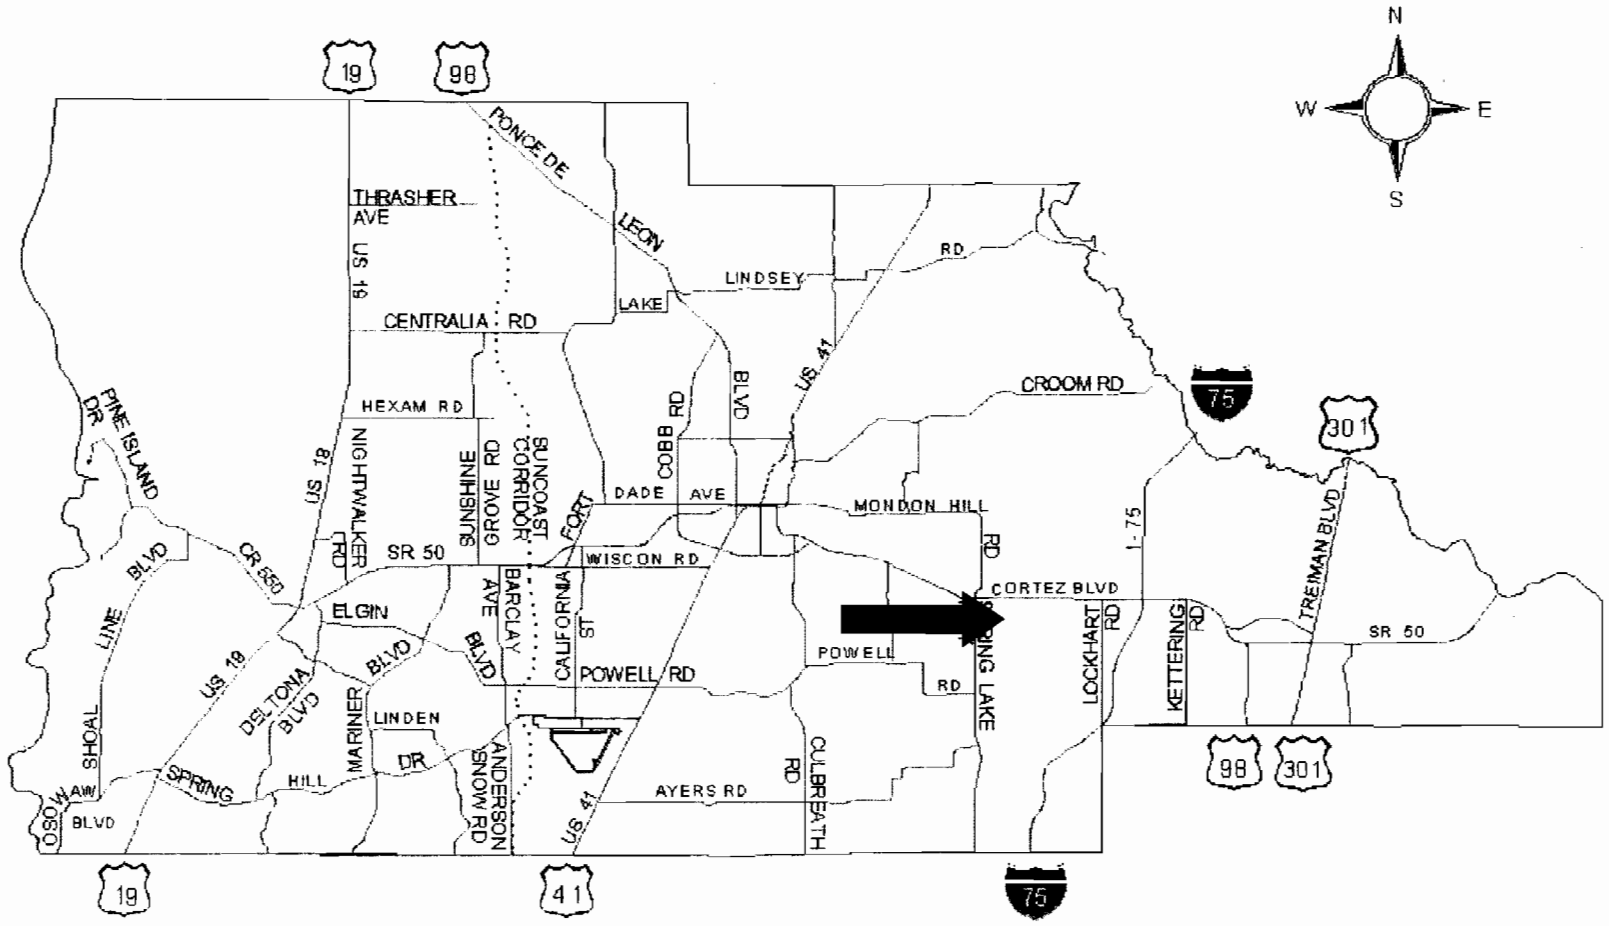
Hernando County, Florida



PREPARED BY: THE HERNANDO COUNTY PLANNING DEPARTMENT
PREPARED DATE: JUNE 2000

3 0 3 6 Miles

RESOLUTION NUMBER 2007-

WHEREAS, Hernando County has adopted zoning and land development regulations pursuant to Chapter 163 and Section 125.01(1), *Fla. Stat.*,which authorize the County to regulate the use of land in the unincorporated areas of Hernando County, Florida, and take action on the request herein; and,

WHEREAS, the Hernando County Board of County Commissioners (BOCC) conducted a duly advertised public hearing on April 24, 2007 to consider the requested dimensional variance on the specified parcel(s) in Hernando County, Florida, as more fully described below.

NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF HERNANDO COUNTY, FLORIDA AS FOLLOWS:

APPLICANT: Susan Townsend **FILE NUMBER:** V-07-05

LEGAL DESCRIPTION: Lot 27 and W ½ of Lot 26, Block B of Rolling Acres Subdivision Unit 5, according to the plat thereof as recorded in Plat Book 7, page 36, public records of Hernando County, FL
Parcel ID# R03 123 20 1190 000B 0270 (Key # 555777).

GENERAL LOCATION: North side of Sumter Drive, approximately 300 feet east of Ivy Hill Lane

REQUEST: Granting a dimensional variance to allow a reduction in the side setback from 10 feet to 8.8 feet for an addition in conjunction with the subject parcel located in the R-1B zone. The representations contained in the owner's variance application are incorporated herein by reference and made a part hereof. For purposes herein, it is presumed that all requisite notice and advertising requirements have been satisfied.

FINDINGS OF FACT: ALL of the facts and conditions set forth in the County's staff memoranda and presented to the BOCC in connection with the public hearing in this matter are incorporated herein by reference and made a material part of this Resolution as integral to the BOCC's action. The BOCC finds that the testimony and record supporting <u>denial</u> of the requested dimensional variance to be credible and to constitute competent substantial evidence. In further support thereof, the BOCC makes the following specific Findings of Fact:

1. The requested dimensional variance does <u>not</u> satisfy ALL of the following prerequisites set forth in Appendix A, Art. V, § 3, Hernando County Code of Ordinances:

   (a) That special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which

are not applicable to other lands, structures, or buildings in the same zoning district;

(b) That the special conditions and circumstances do not result from the actions of the applicant *[to wit, the hardship is self-imposed and does not emanate from the land]*;

(c) That granting the variance requested will not confer on the applicant any special privilege that is denied by this ordinance to other lands, buildings, or structures in the same zoning district;

(d) That literal interpretation of the provisions of the ordinance would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district under the terms of the ordinance and would work unnecessary and undue hardship on the applicant;

(e) That the variance granted is the minimum variance that will make possible the reasonable use of the land, building or structure;

(f) That the granting of the variance will be in harmony with the general intent and purpose of the land development regulations and that such variance will not be injurious to the area involved or otherwise detrimental to the public welfare.

2. The requested dimensional variance is <u>not</u> consistent with the County's adopted Comprehensive Plan and land development regulations.

CONCLUSIONS OF LAW:

The BOCC is authorized to act on this matter pursuant to Chapters 125 and 163, *Fla. Stat.*, and Appendix A, Art. V, § 3, Hernando County Code of Ordinances. Accordingly, after public hearing and testimony, being fully advised in the record, and based upon competent substantial evidence, the BOCC makes the following specific conclusions of law:

1. The requested dimensional variance is <u>not</u> consistent with the County's adopted Comprehensive Plan and land development regulations, subject to all conditions made a part of the public hearing in this matter and which conditions are incorporated herein by reference.

ACTION:

After notice and public hearing, based upon the record in this matter and **ALL** of the findings of fact and conclusions of law above, the BOCC hereby <u>DENIES</u> the requested variance.

ADOPTED IN REGULAR SESSION THE 24th DAY OF APRIL, 2007.

BOARD OF COUNTY COMMISSIONERS
HERNANDO COUNTY, FLORIDA

Attest:_____ By:_____

KAREN NICOLAI
CLERK

JEFF STABINS
CHAIRMAN

(SEAL)

APPROVED AS TO FORM
AND LEGAL SUFFICIENCY

BY _____
County Attorney's Office

STAFF REPORT
BCC Date: April 24, 2007

PETITIONER: Susan Townsend

FILE NUMBER: V-07-05

PURPOSE: Variance to Reduce Side Setback Requirement

GENERAL LOCATION: North side of Sumter Drive, approximately 300 feet east of Ivy Hill Lane

CURRENT ZONING: R-1B

ORDINANCE STANDARDS

Required	Requested	Variance Requested
10'	8.80'	1.2'

Letters received: 1 petition with 6 signatures in favor

STAFF FINDINGS:

SURROUNDING ZONING	SURROUNDING LAND USE
North: R-1B	North: Residential
South: R-1B	South: Residential
East: R-1B	East: Residential
West: R-1B	West: Vacant

1. The petitioner is requesting a variance to reduce the side setback from 10' to 8.80' to place an addition onto an existing single family home which would also connect a detached garage to the single family home.

2. The subject parcel measures approximately 120' by 130' and is located in the Rolling Acres Subdivision. The parcel presently has a single family home and a detached garage located on it. The petitioner is proposing to place a triangular shaped addition between the house and the detached garage.

3. The present ordinance standards require the primary structure to be 10' from the side property line and the detached garage to be 5' from the side property line. Attaching the two structures will create one primary structure and will be required to meet the 10' side setback requirement.

STAFF RECOMMENDATION: That the Board of County Commissioners review the above request and deny same because the hardship is self imposed and is not emanating from the land.

"MINUTES OF"

APR 2 4 2007

AGENDA ITEM I 4.

VARIANCE APPEAL

APPLICATION FOR PUBLIC HEARING BY HERNANDO COUNTY BOARD OF COUNTY COMMISSIONERS

This application must be completed and returned, with all exhibits and other items listed on page 1 of the instruction sheet, to this office before advertisement may be made for a public hearing. Bear in mind that the variance requested must be justified and the mere filing of the application or appearance at the public hearing does not assure approval of said application. The applicant is required to appear in person or by agent at the public hearing.

Are any other applications pending? (rezoning, conditional use, special exception, vacation of right-of-way, etc.) ☑Yes ☐No

If yes, please indicate type of application ~~Deck, garage - electric~~ (1) Add garage to home (2) Add 2 rooms to home

DATE 1-22-07

1. Name of applicant (print) Susan Townsend

   Mailing Address 6158 Sumter Dr

   City Brooksville State Fl Zip 34602 Phone 754-2877

2. Legal description of property covered by this application Lot 27 & 28 Blk B Rolling Acres Unit 5

   Section 3 Township ~~S~~ 23 Range 20

3. Size of property covered by this application 120 long / 150 wide

4. Highway and street boundaries

5. Zoning district classification

6. Variance being requested Addition 2 rooms / add garage to existing home. Add garage to standing house 2 rooms

The undersigned understands this application and all other applicable items listed on page 1 of the instruction sheet must be submitted completely and accurately before a hearing can be advertised.

GARY FISHER
HERNANNDO COUNTY
DEVELOPMENT DEPARTMENT
BROOKSVILLE, FL, 34602

Dear Mr. Gary Fisher;

I Susan Townsend ask the county for a variance at 6158 Sumter Drive in Brooksville FL, due to the fact that I built the garage to close to the ten foot marker.

I would like to add the garage to the home. The way the home is built there is a gap. The rooms would be at a angle from the home to the garage. It is off about 1 foot 3 inches The plans are in the building department, 555777, Brooksville office.

I did go to the neighbors to let them know about what I wish to do to my home. I asked them for their permission. They would like to see the home done. I would appreciate if you would grant this request. See attached signed letter with the neighbors signatures saying they agree. Thank you for time.

Sincerely,

Susan Townsend 1-22-2007

VARIANCE APPEAL

APPLICATION FOR PUBLIC HEARING BY HERNANDO COUNTY BOARD OF COUNTY COMMISSIONERS

This application must be completed and returned, along with any additional data supporting your appeal of this petition, to this office before advertisement may be made for a public hearing. The person appealing this decision is required to appear in person at the public hearing.

DATE: 3-14-7 VARIANCE FILE NO. V-07-05 V0705

1. Name of appellant/applicant (print) Susan Townsend
   Mailing Address 6158 Sumter DR
   City Brooksville State FL Zip 34602 Phone 754 2872
2. Legal description of property covered by this application Lot 27 & W ½ Lot 26 Block B of Rolling Acres Subdivision, Unit 5 Parcel R03-123-20-1190-000B-0270 / 6158 Sumter DR Brooksville
3. Highway and street boundaries
4. Reason for Appeal I Was denyed Variance on home at Sumter DR, To add 2 rooms I was only asking about 1 foot of my own 10 foot mark, I now ask permission from the County of Hernando to grant this request.

Attach additional pages if necessary to explain the reason you are appealing this request. Submit this form along with any additional documentation which you deem necessary to support your appeal.

RESOLUTION NUMBER 2007- 135

WHEREAS, Hernando County has adopted zoning and land development regulations pursuant to Chapter 163 and Section 125.01(1), *Fla. Stat.*,which authorize the County to regulate the use of land in the unincorporated areas of Hernando County, Florida, and take action on the request herein; and,

WHEREAS, the Hernando County Board of County Commissioners (BOCC) conducted a duly advertised public hearing on April 24, 2007 to consider the requested dimensional variance on the specified parcel(s) in Hernando County, Florida, as more fully described below.

NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF HERNANDO COUNTY, FLORIDA AS FOLLOWS:

APPLICANT: Susan Townsend **FILE NUMBER:** V-07-05

LEGAL DESCRIPTION: Lot 27 and W ½ of Lot 26, Block B of Rolling Acres Subdivision Unit 5, according to the plat thereof as recorded in Plat Book 7, page 36, public records of Hernando County, FL
Parcel ID# R03 123 20 1190 000B 0270 (Key # 555777).

OFFICIAL RECORDS
BK: 2433 PG: 1023

GENERAL LOCATION: North side of Sumter Drive, approximately 300 feet east of Ivy Hill Lane

REQUEST: Granting a dimensional variance to allow a reduction in the side setback from 10 feet to 8.8 feet for an addition in conjunction with the subject parcel located in the R-1B zone. The representations contained in the owner's variance application are incorporated herein by reference and made a part hereof. For purposes herein, it is presumed that all requisite notice and advertising requirements have been satisfied.

FINDINGS OF FACT: ALL of the facts and conditions set forth in the County's staff memoranda and presented to the BOCC in connection with the public hearing in this matter are incorporated herein by reference and made a material part of this Resolution as integral to the BOCC's action. The BOCC finds that the testimony and record supporting approval of the requested dimensional variance to be credible and to constitute competent substantial evidence. In further support thereof, the BOCC makes the following specific Findings of Fact:

1. Granting the requested dimensional variance is in substantial conformity with the following:

   (a) That special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which

are not applicable to other lands, structures, or buildings in the same zoning district;

(b) That the special conditions and circumstances do not result from the actions of the applicant;

(c) That granting the variance requested will not confer on the applicant any special privilege that is denied by this ordinance to other lands, buildings, or structures in the same zoning district;

(d) That literal interpretation of the provisions of the ordinance would deprive the applicant of rights commonly enjoyed by other properties in the same zoning district under the terms of the ordinance and would work unnecessary and undue hardship on the applicant;

(e) That the variance granted is the minimum variance that will make possible the reasonable use of the land, building or structure;

(f) That the granting of the variance will be in harmony with the general intent and purpose of the land development regulations and that such variance will not be injurious to the area involved or otherwise detrimental to the public welfare (*to wit, the requested side setback to allow an addition to an existing residential home is a minor reduction and consistent with development standards of the surrounding area).*

2. The requested dimensional variance is consistent with the County's adopted Comprehensive Plan and land development regulations, subject to all conditions made a part of the public hearing in this matter and which conditions are incorporated herein by reference.

CONCLUSIONS OF LAW:

The BOCC is authorized to act on this matter pursuant to Chapters 125 and 163, *Fla. Stat.*, and Appendix A, Art. V, § 3, Hernando County Code of Ordinances. Accordingly, after public hearing and testimony, being fully advised in the record, and based upon competent substantial evidence, the BOCC makes the following specific conclusions of law:

1. The requested dimensional variance is consistent with the County's adopted Comprehensive Plan and land development regulations, subject to all conditions made a part of the public hearing in this matter and which conditions are incorporated herein by reference.

2. The dimensional variance, as granted herein, shall run with the land.

ACTION: After notice and public hearing, based upon the record in this matter and **ALL** of the findings of fact and conclusions of law above, the BOCC hereby APPROVES the requested dimensional variance to allow a reduction in the side setback from 10 feet to 8.8 feet for an addition in conjunction with the subject parcel located in the R-1B zone, and subject to all afore-referenced conditions.

BCC Date: April 24, 2007

PETITIONER: Deborah Knight

FILE NUMBER: A-07-01

PURPOSE: Appeal of Administrative Decision to Allow a Pot-bellied Pig in a Residential Zoning District

LOCATION: North side of Patio Court, beginning of cul de sac

CURRENT ZONING: PDP-SF

Letters received: 0

STAFF FINDINGS:

SURROUNDING ZONING		SURROUNDING LAND USE
North:	PDP-SF	North: Lake
South:	PDP-SF	South: Residential
East:	PDP-SF	East: Residential
West:	PDP-SF	West: Residential

1. The appellant is appealing an administrative decision regarding the keeping of farm animals (pigs) in a residential zoning district. The petitioner presently has a pot-bellied pig named Cupid on the property.

2. The subject parcel is located in Spring Hill Unit 25, is irregular shaped and is on a cul-de-sac. The parcel measures approximately 140 feet deep, 176 feet across the rear and 100 feet across the front.

3. The petitioner has stated that Cupid is over twelve years old and has lived in Hernando County for over five years. The petitioner stated that Cupid weighs about 100 pounds and has a life span of 10 - 12 years.

4. The petitioner is asking that the Board of County Commissioners overturn the determination of the administrative official and allow the pig to remain on the property until its death.

STAFF RECOMMENDATION: That the Board of County Commissioners review the above petition and uphold the determination of the administrative official that farm animals are not a permitted use in the PDP-SF residential zoning district.

AGENDA ITEM I 5

Deborah Knight

Spring Hill Fl. 34608

January 23rd, 2007

RE: Letter of appeal

Notice of intent to file for appeal for raising of a farm animal in a residential area. I hereby file for appeal on raising a farm animal, hereafter refered to as "Cupid" at my premise located at 9225 Patio Ct. Cupid is a Vietnamese Pot belly pig, a fairly new species introduced in the late 1980's. This is a minature animal, smaller in size than most of my neighbors dogs which consist of Bull Mastifs, German Shepards, Pit Bull Terriers and Greyhounds. Cupid, and all of his registered kin, of which he is fully registered and documented the same as a AKC pure breed dog, have been deemed a domesticated pet by the USDA and are not considered livestock. All neighboring counties to Hernando allow them as pets and consider them as such. We are not looking to change Hernando Counties status of such animals but rather are asking for a variance to allow our childrens 13 year old pet to live out his few remaining months at home. Pot belly pigs have a life span of 12-14 years and this is a geriatrac animal.

Thank You for your time,
Deborah Knight & Family

RE: Farm Animals in Residential District

Dear Mr. Knight:

Thank you for your letter dated May 21, 2006, regarding the keeping of a pot-bellied pig on your property. Pigs are considered farm animals and would only be allowed under our Agricultural zoning classification. The raising of farm animals is not allowed in any of our residential zoning districts and is a violation of the Hernando County Code of Ordinances.

This determination can be appealed to the Board of County Commissioners for their review and determination. A copy of the appeal application is attached for your convenience.

Sincerely

Gary L. Fisher
Zoning Administrator

Re: Code Violation-Farm Animal

Hello and thank you for your time, our family was inspected by Animal Control on May the tenth for false claims filed by our neighbor whom has been and currently recieves medical help for pyschotic disorders. All claims were found to be untrue and we were all clear in Animal Controls eyes.

In this false visit to our property it has been brought to the Countys attention that we have a Vietnamese Pot Belly Pig on the said premises. Code Enforcment followed up 2 days later for having a farm animal in a residential area and we have been given our 30 days notice.

We are requesting to let the said animal live out its life where it currently is. Cupid, the above mentioned animal, is in excess of 12 years old of which 5 have been in Hernando County. Cupid is in a clean fenced dog run not visable from the road or to our neighbors, is fixed, see's a vet regulary and weighs about 100 pounds. He is smaller than an average size dog and has a life span of 10 to 12 years.

I have enclosed additional information that in short shows that Pot Belly Pigs are not deemed swine or farm animals by the Dept. Of Agriculture but rather as a domesticated pet. Additionaly, all neighboring counties

have codes to allow one Pot Belly Pig per household.
In closing, we ask that our family pet whom we raised since birth be allowed to die here, and we do not or will not be replacing said animal with another pig.

Thank you,
Shawn, Debbie, Tyler & Madison Knight

USDA Letter stating that Potbellied pigs are pets

United States Animal and Plant Health
Department of Agriculture Inspection Service

Ms. Midge Greenberg
103658 Beau Jardin
St. Louis, Mo 63146

Dear Ms. Greenberg

This letter is in response to your telephone inquiry concerning the U.S. department of Agriculture's (USDA) classification of potbellied pigs.

USDA only considers potbellied pigs "livestock" if the animal is to be imported from a country that has a swine disease status that could be detrimental to the swine industry in the United States if the pig being imported was infected. Pot bellied pigs that are private pets are classified as pets not livestock.

If further clarification is needed,
Please call this office at (301) 734-4972

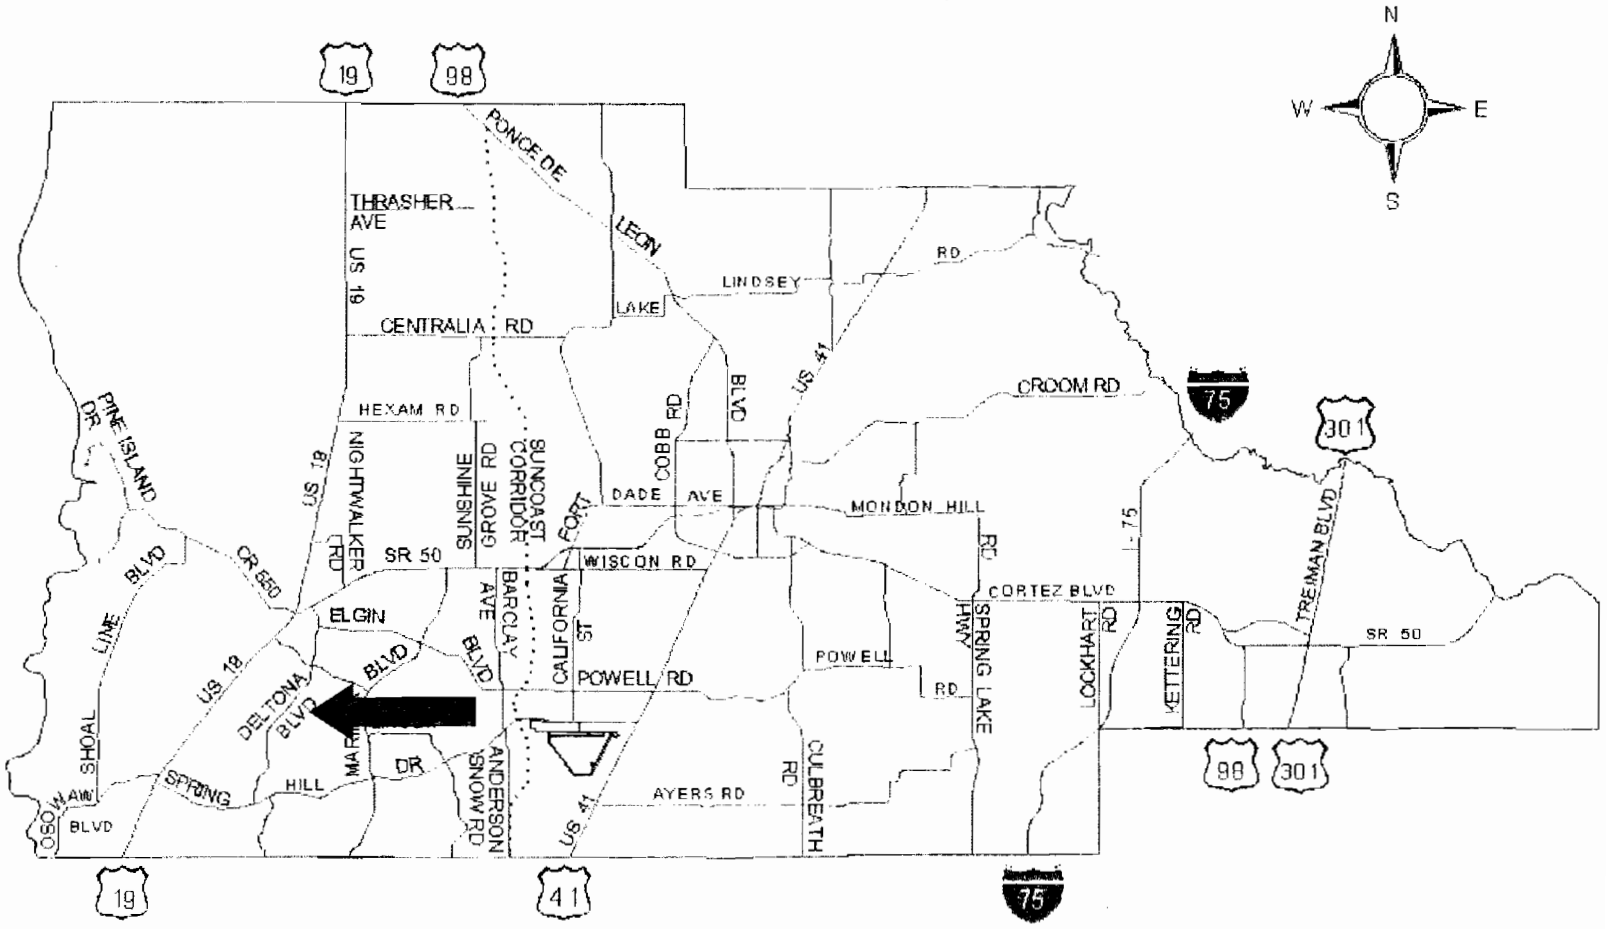
Hernando County, Florida



PREPARED BY: THE HERNANDO COUNTY PLANNING DEPARTMENT
PREPARED DATE: JUNE 2000

3 0 3 6 Miles

JOINT STIPULATION

Shawn and Deborah Knight, (hereinafter referred to as "Knight"), and Hernando County, a political subdivision of the State of Florida (hereinafter referred to as the "County", stipulate and agree to the following:

STIPULATED FACTS AND CONCLUSIONS OF LAW

1. Knight resides on, or has an interest in, a lot located at 9225 Patio Court, Spring Hill, FL 34608, having Hernando County Property Key No. 440561 (hereinafter referred to as the "Property").

2. The Property is zoned PDP-SF under the County's Zoning Code.

3. Pot-bellied pigs are not permitted in a PDP-SF Residential District.

4. Knight currently keep 1 pot-bellied pig on the Property. The pig has the following name: Cupid (13 year old male), hereinafter individually referred to as the "Pig".

5. Knight is currently in violation of the County's PDP-SF Residential District regulations and is subject to enforcement action by the County Code Enforcement Department.

6. Knight's appeal of an administrative decision (A-07-01) was denied by the Board of County Commissioners on April 24, 2007; however the parties desire to amicably resolve present and future compliance and/or code enforcement actions.

7. The parties agree that this Joint Stipulation is unique to the facts, parties, and special circumstances herein and is not intended to have precedential value of any kind.

STIPULATED DISPOSITION

1. Knight agrees not to keep any pigs on the Property other than the Pig described above. In the event the Pig is given away, sold, or transferred to another, leaves the Property without returning, or dies, Knight shall not replace such pig.

2. In the event Knight moves to another location within Hernando County, the party understands and agrees that this Joint Stipulation is not transferrable to any other location and Knight shall be strictly held to all requirements of the County's Zoning Codes at such new location.

3. For so long as Knight remains in compliance with this Joint Stipulation, the County agrees to suspend and abate any and all enforcement compliance actions and forego all fines against Knight and/or the record title owner to the Property to the extent such enforcement/compliance action or fine relates to keeping the Pig on the Property.

Nothing herein is intended to prevent the County from enforcing any other violation of law, now or in the future, or from enforcing any breach of this Joint Stipulation. Further, notwithstanding anything to the contrary, the foregoing covenant by the County is expressly limited to Knight and is not intended to run with the Property, and the rights and privileges hereunder are not tranferrable or assignable.

4. In the event Knight violates this Joint Stipulation by keeping animals other than the Pig described above or those expressly allowed in the PDP-SF zoning district, then such violation(s) may be prosecuted as a "second" or "repeat" offense in any new Code Enforcement proceeding.

5. Each party shall bear their own attorney fees and costs related to or arising out of this Joint Stipulation, the facts herein, or any appeal hereof.

6. This Joint Stipulation may not be recorded in the Public Records of Hernando County.

7. This Joint Stipulation may be executed in multiple counterparts, each of which shall be deemed an original.

Witness our hands and seals below on the date signed. This Joint Stipulation shall become effective on the date signed by the last party hereto.

JOINT STIPULATION

Shawn and Deborah Knight, (hereinafter referred to as "Knight"), and Hernando County, a political subdivision of the State of Florida (hereinafter referred to as the "County", stipulate and agree to the following:

STIPULATED FACTS AND CONCLUSIONS OF LAW

1. Knight resides on, or has an interest in, a lot located at 9225 Patio Court, Spring Hill, FL 34608, having Hernando County Property Key No. 440561 (hereinafter referred to as the "Property").

2. The Property is zoned PDP-SF under the County's Zoning Code.

3. Pot-bellied pigs are not permitted in a PDP-SF Residential District.

4. Knight currently keep 1 pot-bellied pig on the Property. The pig has the following name: Cupid (13 year old male), hereinafter individually referred to as the "Pig".

5. Knight is currently in violation of the County's PDP-SF Residential District regulations and is subject to enforcement action by the County Code Enforcement Department.

6. Knight's appeal of an administrative decision (A-07-01) was denied by the Board of County Commissioners on April 24, 2007; however the parties desire to amicably resolve present and future compliance and/or code enforcement actions.

7. The parties agree that this Joint Stipulation is unique to the facts, parties, and special circumstances herein and is not intended to have precedential value of any kind.

STIPULATED DISPOSITION

1. Knight agrees not to keep any pigs on the Property other than the Pig described above. In the event the Pig is given away, sold, or transferred to another, leaves the Property without returning, or dies, Knight shall not replace such pig.

2. In the event Knight moves to another location within Hernando County, the party understands and agrees that this Joint Stipulation is not transferrable to any other location and Knight shall be strictly held to all requirements of the County's Zoning Codes at such new location.

3. For so long as Knight remains in compliance with this Joint Stipulation, the County agrees to suspend and abate any and all enforcement compliance actions and forego all fines against Knight and/or the record title owner to the Property to the extent such enforcement/compliance action or fine relates to keeping the Pig on the Property.

Nothing herein is intended to prevent the County from enforcing any other violation of law, now or in the future, or from enforcing any breach of this Joint Stipulation. Further, notwithstanding anything to the contrary, the foregoing covenant by the County is expressly limited to Knight and is not intended to run with the Property, and the rights and privileges hereunder are not tranferrable or assignable.

4. In the event Knight violates this Joint Stipulation by keeping animals other than the Pig described above or those expressly allowed in the PDP-SF zoning district, then such violation(s) may be prosecuted as a "second" or "repeat" offense in any new Code Enforcement proceeding.

5. Each party shall bear their own attorney fees and costs related to or arising out of this Joint Stipulation, the facts herein, or any appeal hereof.

6. This Joint Stipulation may not be recorded in the Public Records of Hernando County.

7. This Joint Stipulation may be executed in multiple counterparts, each of which shall be deemed an original.

Witness our hands and seals below on the date signed. This Joint Stipulation shall become effective on the date signed by the last party hereto.

RE: Pot Belly Pig Variance

I, the undersigned, am a resident of Patio Ct. residing within 250' of the Knight family. I am aware of the fact that they have and care for a Pot Belly pig purely for the same reasons any other pet owner may do.

I do not have any issues with the said animal living in my community, it creates no problems by any means including sounds, smells and is not visable from any roadway or sidewalk.

I am aware of the court date on 4/24/07 at 10am and will be signing this letter due to not being able to attend the hearing. Cupid is a family pet that the kids enjoy seeing and playing with. Thank you for your time,

Melodee Alvin 9235 Patio Ct. - Didn't know there was a pig.

Anna Guertin 9195 Patio Ct - Fine with me

Tom MARKS 9205 PATIO CT - DIDN'T KNOW THEY HAD ONE

Karl Knight 9210 PATIO CT - OK. Fine with me

A-07-01

March 2, 2007

To whom it may Concern:

I am aware that Debbie & Shawn Knight have a pot belly pig in their back yard. This is not a problem for me. there is NO noise or smell. Debbie & Shawn have always been the best of neighbors. I have more problems with other neighbors who let their dogs run loose

RE: File Number A-07-01

Dear County Commissioners:

We are writing against the granting of an appeal by Deborah Knight to keep a pot-bellied pig on her property. The residents of this neighborhood pay suburban, residential property taxes and live in homes with suburban residential prices. The sound of a pig and the smell of a pig pen are not appropriate to this. We are concerned that the presence of a pig in the neighborhood could have a negative effect on property values. We are also concerned that granting a variance for this one pig could set a precedence that would open the door for other livestock and exotic pets, further diminishing the suburban, residential lifestyle we moved here to enjoy. Please, do not grant this variance.

Sincerely,

Steven W. Koepke & Cynthia R. Koepke

JOINT STIPULATION

Shawn and Deborah Knight, (hereinafter referred to as "Knight"), and Hernando County, a political subdivision of the State of Florida (hereinafter referred to as the "County", stipulate and agree to the following:

STIPULATED FACTS AND CONCLUSIONS OF LAW

1. Knight resides on, or has an interest in, a lot located at 9225 Patio Court, Spring Hill, FL 34608, having Hernando County Property Key No. 440561 (hereinafter referred to as the "Property").

2. The Property is zoned PDP-SF under the County's Zoning Code.

3. Pot-bellied pigs are not permitted in a PDP-SF Residential District.

4. Knight currently keep 1 pot-bellied pig on the Property. The pig has the following name: Cupid (13 year old male), hereinafter individually referred to as the "Pig".

5. Knight is currently in violation of the County's PDP-SF Residential District regulations and is subject to enforcement action by the County Code Enforcement Department.

6. Knight's appeal of an administrative decision (A-07-01) was denied by the Board of County Commissioners on April 24, 2007; however the parties desire to amicably resolve present and future compliance and/or code enforcement actions.

7. The parties agree that this Joint Stipulation is unique to the facts, parties, and special circumstances herein and is not intended to have precedential value of any kind.

STIPULATED DISPOSITION

1. Knight agrees not to keep any pigs on the Property other than the Pig described above. In the event the Pig is given away, sold, or transferred to another, leaves the Property without returning, or dies, Knight shall not replace such pig.

2. In the event Knight moves to another location within Hernando County, the party understands and agrees that this Joint Stipulation is not transferrable to any other location and Knight shall be strictly held to all requirements of the County's Zoning Codes at such new location.

3. For so long as Knight remains in compliance with this Joint Stipulation, the County agrees to suspend and abate any and all enforcement compliance actions and forego all fines against Knight and/or the record title owner to the Property to the extent such enforcement/compliance action or fine relates to keeping the Pig on the Property.

Nothing herein is intended to prevent the County from enforcing any other violation of law, now or in the future, or from enforcing any breach of this Joint Stipulation. Further, notwithstanding anything to the contrary, the foregoing covenant by the County is expressly limited to Knight and is not intended to run with the Property, and the rights and privileges hereunder are not tranferrable or assignable.

4. In the event Knight violates this Joint Stipulation by keeping animals other than the Pig described above or those expressly allowed in the PDP-SF zoning district, then such violation(s) may be prosecuted as a "second" or "repeat" offense in any new Code Enforcement proceeding.

5. Each party shall bear their own attorney fees and costs related to or arising out of this Joint Stipulation, the facts herein, or any appeal hereof.

6. This Joint Stipulation may not be recorded in the Public Records of Hernando County.

7. This Joint Stipulation may be executed in multiple counterparts, each of which shall be deemed an original.

Witness our hands and seals below on the date signed. This Joint Stipulation shall become effective on the date signed by the last party hereto.

County Attorney's Office

STAFF REPORT
BCC Date: April 24, 2007

PETITIONER: Sandra Price

FILE NUMBER: A-07-02

PURPOSE: Appeal of Administrative Decision to Allow a Pot-bellied Pig in a Residential Zoning District

LOCATION: South side of Cara Street, approximately 175' east of New Azora Road

CURRENT ZONING: R-1C

Letters received: 0

STAFF FINDINGS:

SURROUNDING ZONING	SURROUNDING LAND USE
North: R-1C	North: Residential
South: R-1C	South: Residential
East: R-1C	East: Residential
West: R-1C	West: Residential

1. The appellant is appealing an administrative decision regarding the keeping of farm animals (pigs) in a residential zoning district. The petitioner presently has a pot-bellied pig named Mr. Piggy on the property.

2. The subject parcel measures approximately 100 feet by 215 feet and is located in Phase I, Horizon North subdivision. The subject parcel is surrounded on three sides by residentially zoned properties that are developed with single family homes.

3. The petitioner has stated that Mr. Piggy is one year old and has a life span of 8-18 years.

4. On several occasions a determination was made by County staff and upheld by the Board of County Commissioners that pigs, including Pot Bellied Pigs, are farm animals and are permitted in the agricultural district and not permitted in residential districts.

5. The petitioner is asking the Board of County Commissioners to overturn the determination of the administrative official and allow the pig to remain in the residential district.

STAFF RECOMMENDATION: That the Board of County Commissioners review the above petition and uphold the determination of the administrative official that farm animals are not a permitted use in the R-1C residential zoning district.

AGENDA ITEM I 6.

Sandra A Price
10042 Cara St
Spring Hill, FL 34608
352-666-6859

February 15, 2007

Board of County Commissioners,
Hernando County Florida

Regarding: Appeal of Finding
Mr. Gary Fisher
Zoning Administrator & Permit Manager
789 Providence Blvd
Brooksville, FL 34601
Letter dated July 21, 2006
RE: Farm Animals in Residential District
(attachments 1-3)

Dear Commissioners,

It appears the initial finding in the case of my pet is based on livestock/swine zoning classifications and presumably established before the mid 1980s when the pet pot bellied pig was first introduced to the United States. I say presumably established because I cannot ascertain when the Ordinance governing said violation was written. Moreover, I've researched the Code of Ordinances, County of Hernando, Florida for the description of the code that I'm supposedly in violation of [Hernando County Code of Ordinance Chapter/Appendix A, Article IV, Section 2] and cannot find anything relating to pet pot bellied pigs.

To liken a pet pot bellied pig to that of the distant relative swine/farm animal is not just. Examples are comparing the catfish in my aquarium to the one in the lake; a pet dog (of any size) to a wolf/fox or pet cat to that of a tiger...the examples are endless but legitimate.

I purchased my pet from a pet store in Hernando County and paid sales tax (attachment 4) on that purchase. It's to my understanding that sales tax is not applicable on livestock/farm animals.

My pet was 8-days old when I brought him home. I bottle fed him for the next three months. After he was established on semi-solid food I pursued wellness exam, immunizations, neutering and a microchip implant for him (attachments 5-8.) On March 17, 2007 he'll turn one year old.

Life span is comparable to that of a dog, generally 8–18 years.
Weight varies with each individual pot bellied, as with every other creature; but generally 50–150 pounds. However, the size a 100 pound pot bellied is equivalent to that of a 35-40 pound dog. My pet is approximately 35 pounds and at maturity (age 3) he may weigh 105 pounds based on gaining 35 pounds a year for three years; still much smaller in size to my 90 pound dog.

Mr. Piggy is an indoor pet; however, I've recently installed a six-foot privacy fence (attachment 9) for the times when he is enjoying fresh air and the sun. He poses no threat/danger to humans or any other animal; he plays with and enjoys the company of my other household pets a dog and cat. He is harness/leash trained and behaves wonderfully.

I am open to all suggestions on how I might improve on the maintenance and care I provide for my animal so that I may continue to have the honor of keeping my pet, Mr. Piggy.

I respectfully request a variance, licensing and approval from the Board to allow this pet to stay in his home where he is wanted, loved and cared for.

With the deepest of Sincerity,

Sandra A Price

RE: Farm Animals in Residential District

Dear Ms. Price:

Thank you for your letter dated 7/18/06, regarding the keeping of a pot-bellied pig on your property. Pigs are considered farm animals and would only be allowed under our Agricultural zoning classification. The raising of farm animals is not allowed in any of our residential zoning districts and is a violation of the Hernando County Code of Ordinances.

This determination can be appealed to the Board of County Commissioners for their review and determination. A copy of the appeal application is attached for your convenience.

Sincerely

Gary L. Fisher
Zoning Administrator

July 18, 2006

Reference: Notice of Violation #165013 (extended two weeks)

VIA OVERNIGHT MAIL (FEDEX 790003046719)

Mr. Gary Fisher
Zoning Administrator & Permit Manager
789 Providence Blvd
Brooksville, FL 34601

Dear Mr. Fisher,

With regard to the above mentioned notice of violation (enclosure 1) I respectfully request additional information:

Number/Section/Article of the Code/Ordinance of said violation.

I've researched the Code of Ordinances, County of Hernando, Florida for the description of the code that I'm allegedly in violation of; but, cannot find anything relating to pet pot bellied pigs.

I submit the following definitions which I obtained from the Code of Ordinances:

Animal: any living, dumb creature.

Livestock: animals kept for ***husbandry***, including but not limited to horses, mules, burros, asses, cattle, sheep, goats, swine, and other hoofed and furbearing domesticated animals being raised in captivity, also including fowl, chickens, duck, geese, turkeys, peacocks, guinea fowl, ostriches, emus, rheas. (My animal is neither for breeding nor a food source for human or animal consumption.)

Ordinance: any ordinance relating to the care or control of animals enacted by the board, the violation of which is a civil infraction. (This is the area in which I request the number/section/article governing pet pot bellied pigs.)

Pet: any living dumb creature, excluding feral and wild animals. (This best describes my animal.)

Responsible Person: a person of such maturity, physical strength, experience and sensitivity to maintain physical control of an animal to prevent it from escaping and to fully realize the consequences of the animal's actions. (This best describes me.)

As a background glimpse of my pet, Mr. Piggy, I've enclosed copies of the following documents:

Receipt from PetCity, 13154 Cortez Blvd, Brooksville, Fl 34613 on the purchase of my pet pot bellied pig (enclosure 2.)

Documentation of the following items for my pet Mr. Piggy:

wellness exam and immunizations received thus far from Three Oaks Veterinary Services, Inc., 7059 Broad Street S, Brooksville, Fl 34601 (enclosure 3.)

Neuter procedure/certification from the above referenced veterinary service (enclosures 4 and 5.)

"Home Again Microchip Implant" certification (as an extra precaution for keeping him safe (enclosure 6.))

Photo clips of my adorable pet—Mr. Piggy (enclosure 7.)

On a personal note Mr. Piggy is loved, obedient, playful, house broken, an indoor pet which gets along wonderfully with his housemate the pet cat, wags his tail from pleasure constantly, thoroughly enjoys the company of people, learns quickly and does tricks to mention just a few of his attributes. He does not present a danger to humans or any other animal. For all intentional or literal purposes this animal is a household pet in every respect and should be viewed as such.

In addition to my above stated request, Mr. Fisher, I ask for your assistance in obtaining 'official pet-hood' status and licensing for my pet pot bellied pig Mr. Piggy.

Should you want additional information of any kind whether directly relating to Mr. Piggy or on pet pot bellied pigs in general I'll be happy to provide you with whatever is needed.

Sincerely,

Sandra A Price

JOINT STIPULATION

Sandra Price, (hereinafter referred to as "Price"), and Hernando County, a political subdivision of the State of Florida (hereinafter referred to as the "County", stipulate and agree to the following:

STIPULATED FACTS AND CONCLUSIONS OF LAW

1. Price resides on, or has an interest in, a lot located at 10042 Cara Street, Spring Hill, FL 34608, having Hernando County Property Key No. 1082385 (hereinafter referred to as the "Property").

2. The Property is zoned R-1C under the County's Zoning Code.

3. Pot-bellied pigs are not permitted in a R-1C Residential District.

4. Price currently keeps 1 pot-bellied pig on the Property. The pig has the following name: Mr. Piggy (1 year old male), hereinafter individually referred to as the "Pig".

5. Price is currently in violation of the County's R-1C Residential District regulations and is subject to enforcement action by the County Code Enforcement Department.

6. Price's appeal of an administrative decision (A-07-02) was denied by the Board of County Commissioners on April 24, 2007; however the parties desire to amicably resolve present and future compliance and/or code enforcement actions.

7. The parties agree that this Joint Stipulation is unique to the facts, parties, and special circumstances herein and is not intended to have precedential value of any kind.

STIPULATED DISPOSITION

1. Price agrees not to keep any pigs on the Property other than the Pig described above. In the event the Pig is given away, sold, or transferred to another, leaves the Property without returning, or dies, Price shall not replace such pig.

2. In the event Price moves to another location within Hernando County, the party understands and agrees that this Joint Stipulation is not transferrable to any other location and Price shall be strictly held to all requirements of the County's Zoning Codes at such new location.

3. For so long as Price remains in compliance with this Joint Stipulation, the County agrees to suspend and abate any and all enforcement compliance actions and forego all fines against Price and/or the record title owner to the Property to the extent such enforcement/compliance action or fine relates to keeping the Pig on the Property. Nothing herein is intended to prevent the County from enforcing any other violation of

law, now or in the future, or from enforcing any breach of this Joint Stipulation. Further, notwithstanding anything to the contrary, the foregoing covenant by the County is expressly limited to Price and is not intended to run with the Property, and the rights and privileges hereunder are not tranferrable or assignable.

4. In the event Price violates this Joint Stipulation by keeping animals other than the Pig described above or those expressly allowed in the R-1C zoning district, then such violation(s) may be prosecuted as a "second" or "repeat" offense in any new Code Enforcement proceeding.

5. Each party shall bear their own attorney fees and costs related to or arising out of this Joint Stipulation, the facts herein, or any appeal hereof.

6. This Joint Stipulation may not be recorded in the Public Records of Hernando County.

7. This Joint Stipulation may be executed in multiple counterparts, each of which shall be deemed an original.

Witness our hands and seals below on the date signed. This Joint Stipulation shall become effective on the date signed by the last party hereto.

STAFF REPORT
BCC Date: April 24, 2007

PETITIONER: Sandra Price

FILE NUMBER: A-07-02

PURPOSE: Appeal of Administrative Decision to Allow a Pot-bellied Pig in a Residential Zoning District

LOCATION: South side of Cara Street, approximately 175' east of New Azora Road

CURRENT ZONING: R-1C

Letters received: 0

STAFF FINDINGS:

SURROUNDING ZONING	SURROUNDING LAND USE
North: R-1C	North: Residential
South: R-1C	South: Residential
East: R-1C	East: Residential
West: R-1C	West: Residential

1. The appellant is appealing an administrative decision regarding the keeping of farm animals (pigs) in a residential zoning district. The petitioner presently has a pot-bellied pig named Mr. Piggy on the property.

2. The subject parcel measures approximately 100 feet by 215 feet and is located in Phase I, Horizon North subdivision. The subject parcel is surrounded on three sides by residentially zoned properties that are developed with single family homes.

3. The petitioner has stated that Mr. Piggy is one year old and has a life span of 8-18 years.

4. On several occasions a determination was made by County staff and upheld by the Board of County Commissioners that pigs, including Pot Bellied Pigs, are farm animals and are permitted in the agricultural district and not permitted in residential districts.

5. The petitioner is asking the Board of County Commissioners to overturn the determination of the administrative official and allow the pig to remain in the residential district.

STAFF RECOMMENDATION: That the Board of County Commissioners review the above petition and uphold the determination of the administrative official that farm animals are not a permitted use in the R-1C residential zoning district.

AGENDA ITEM I 6.

Sandra A Price
10042 Cara St
Spring Hill, FL 34608
352-666-6859

February 15, 2007

Board of County Commissioners,
Hernando County Florida

Regarding: Appeal of Finding
Mr. Gary Fisher
Zoning Administrator & Permit Manager
789 Providence Blvd
Brooksville, FL 34601
Letter dated July 21, 2006
RE: Farm Animals in Residential District
(attachments 1-3)

Dear Commissioners,

It appears the initial finding in the case of my pet is based on livestock/swine zoning classifications and presumably established before the mid 1980s when the pet pot bellied pig was first introduced to the United States. I say presumably established because I cannot ascertain when the Ordinance governing said violation was written. Moreover, I've researched the Code of Ordinances, County of Hernando, Florida for the description of the code that I'm supposedly in violation of [Hernando County Code of Ordinance Chapter/Appendix A, Article IV, Section 2] and cannot find anything relating to pet pot bellied pigs.

To liken a pet pot bellied pig to that of the distant relative swine/farm animal is not just. Examples are comparing the catfish in my aquarium to the one in the lake; a pet dog (of any size) to a wolf/fox or pet cat to that of a tiger...the examples are endless but legitimate.

I purchased my pet from a pet store in Hernando County and paid sales tax (attachment 4) on that purchase. It's to my understanding that sales tax is not applicable on livestock/farm animals.

My pet was 8-days old when I brought him home. I bottle fed him for the next three months. After he was established on semi-solid food I pursued wellness exam, immunizations, neutering and a microchip implant for him (attachments 5-8.) On March 17, 2007 he'll turn one year old.

Life span is comparable to that of a dog, generally 8–18 years.
Weight varies with each individual pot bellied, as with every other creature; but generally 50–150 pounds. However, the size a 100 pound pot bellied is equivalent to that of a 35-40 pound dog. My pet is approximately 35 pounds and at maturity (age 3) he may weigh 105 pounds based on gaining 35 pounds a year for three years; still much smaller in size to my 90 pound dog.

Mr. Piggy is an indoor pet; however, I've recently installed a six-foot privacy fence (attachment 9) for the times when he is enjoying fresh air and the sun. He poses no threat/danger to humans or any other animal; he plays with and enjoys the company of my other household pets a dog and cat. He is harness/leash trained and behaves wonderfully.

I am open to all suggestions on how I might improve on the maintenance and care I provide for my animal so that I may continue to have the honor of keeping my pet, Mr. Piggy.

I respectfully request a variance, licensing and approval from the Board to allow this pet to stay in his home where he is wanted, loved and cared for.

With the deepest of Sincerity,

Sandra A Price

Spring Hill FL 34608

RE: Farm Animals in Residential District

Dear Ms. Price:

Thank you for your letter dated, regarding the keeping of a pot-bellied pig on your property. Pigs are considered farm animals and would only be allowed under our Agricultural zoning classification. The raising of farm animals is not allowed in any of our residential zoning districts and is a violation of the Hernando County Code of Ordinances.

This determination can be appealed to the Board of County Commissioners for their review and determination. A copy of the appeal application is attached for your convenience.

Sincerely

Gary L. Fisher
Zoning Administrator

July 18, 2006

Reference: Notice of Violation #165013 (extended two weeks)

VIA OVERNIGHT MAIL (FEDEX 790003046719)

Mr. Gary Fisher
Zoning Administrator & Permit Manager
789 Providence Blvd
Brooksville, FL 34601

Dear Mr. Fisher,

With regard to the above mentioned notice of violation (enclosure 1) I respectfully request additional information:

Number/Section/Article of the Code/Ordinance of said violation.

I've researched the Code of Ordinances, County of Hernando, Florida for the description of the code that I'm allegedly in violation of; but, cannot find anything relating to pet pot bellied pigs.

I submit the following definitions which I obtained from the Code of Ordinances:

Animal: any living, dumb creature.

Livestock: animals kept for ***husbandry***, including but not limited to horses, mules, burros, asses, cattle, sheep, goats, swine, and other hoofed and furbearing domesticated animals being raised in captivity, also including fowl, chickens, duck, geese, turkeys, peacocks, guinea fowl, ostriches, emus, rheas. (My animal is neither for breeding nor a food source for human or animal consumption.)

Ordinance: any ordinance relating to the care or control of animals enacted by the board, the violation of which is a civil infraction. (This is the area in which I request the number/section/article governing pet pot bellied pigs.)

Pet: any living dumb creature, excluding feral and wild animals. (This best describes my animal.)

Responsible Person: a person of such maturity, physical strength, experience and sensitivity to maintain physical control of an animal to prevent it from escaping and to fully realize the consequences of the animal's actions. (This best describes me.)

As a background glimpse of my pet, Mr. Piggy, I've enclosed copies of the following documents:

Receipt from PetCity, 13154 Cortez Blvd, Brooksville, Fl 34613 on the purchase of my pet pot bellied pig (enclosure 2.)

Documentation of the following items for my pet Mr. Piggy:

wellness exam and immunizations received thus far from Three Oaks Veterinary Services, Inc., 7059 Broad Street S, Brooksville, Fl 34601 (enclosure 3.)

Neuter procedure/certification from the above referenced veterinary service (enclosures 4 and 5.)

"Home Again Microchip Implant" certification (as an extra precaution for keeping him safe (enclosure 6.))

Photo clips of my adorable pet—Mr. Piggy (enclosure 7.)

On a personal note Mr. Piggy is loved, obedient, playful, house broken, an indoor pet which gets along wonderfully with his housemate the pet cat, wags his tail from pleasure constantly, thoroughly enjoys the company of people, learns quickly and does tricks to mention just a few of his attributes. He does not present a danger to humans or any other animal. For all intentional or literal purposes this animal is a household pet in every respect and should be viewed as such.

In addition to my above stated request, Mr. Fisher, I ask for your assistance in obtaining 'official pet-hood' status and licensing for my pet pot bellied pig Mr. Piggy

Should you want additional information of any kind whether directly relating to Mr. Piggy or on pet pot bellied pigs in general I'll be happy to provide you with whatever is needed.

Sincerely,

Sandra A Price

JOINT STIPULATION

Sandra Price, (hereinafter referred to as "Price"), and Hernando County, a political subdivision of the State of Florida (hereinafter referred to as the "County", stipulate and agree to the following:

STIPULATED FACTS AND CONCLUSIONS OF LAW

1. Price resides on, or has an interest in, a lot located at 10042 Cara Street, Spring Hill, FL 34608, having Hernando County Property Key No. 1082385 (hereinafter referred to as the "Property").

2. The Property is zoned R-1C under the County's Zoning Code.

3. Pot-bellied pigs are not permitted in a R-1C Residential District.

4. Price currently keeps 1 pot-bellied pig on the Property. The pig has the following name: Mr. Piggy (1 year old male), hereinafter individually referred to as the "Pig".

5. Price is currently in violation of the County's R-1C Residential District regulations and is subject to enforcement action by the County Code Enforcement Department.

6. Price's appeal of an administrative decision (A-07-02) was denied by the Board of County Commissioners on April 24, 2007; however the parties desire to amicably resolve present and future compliance and/or code enforcement actions.

7. The parties agree that this Joint Stipulation is unique to the facts, parties, and special circumstances herein and is not intended to have precedential value of any kind.

STIPULATED DISPOSITION

1. Price agrees not to keep any pigs on the Property other than the Pig described above. In the event the Pig is given away, sold, or transferred to another, leaves the Property without returning, or dies, Price shall not replace such pig.

2. In the event Price moves to another location within Hernando County, the party understands and agrees that this Joint Stipulation is not transferrable to any other location and Price shall be strictly held to all requirements of the County's Zoning Codes at such new location.

3. For so long as Price remains in compliance with this Joint Stipulation, the County agrees to suspend and abate any and all enforcement compliance actions and forego all fines against Price and/or the record title owner to the Property to the extent such enforcement/compliance action or fine relates to keeping the Pig on the Property. Nothing herein is intended to prevent the County from enforcing any other violation of

law, now or in the future, or from enforcing any breach of this Joint Stipulation. Further, notwithstanding anything to the contrary, the foregoing covenant by the County is expressly limited to Price and is not intended to run with the Property, and the rights and privileges hereunder are not tranferrable or assignable.

4. In the event Price violates this Joint Stipulation by keeping animals other than the Pig described above or those expressly allowed in the R-1C zoning district, then such violation(s) may be prosecuted as a "second" or "repeat" offense in any new Code Enforcement proceeding.

5. Each party shall bear their own attorney fees and costs related to or arising out of this Joint Stipulation, the facts herein, or any appeal hereof.

6. This Joint Stipulation may not be recorded in the Public Records of Hernando County.

7. This Joint Stipulation may be executed in multiple counterparts, each of which shall be deemed an original.

Witness our hands and seals below on the date signed. This Joint Stipulation shall become effective on the date signed by the last party hereto.

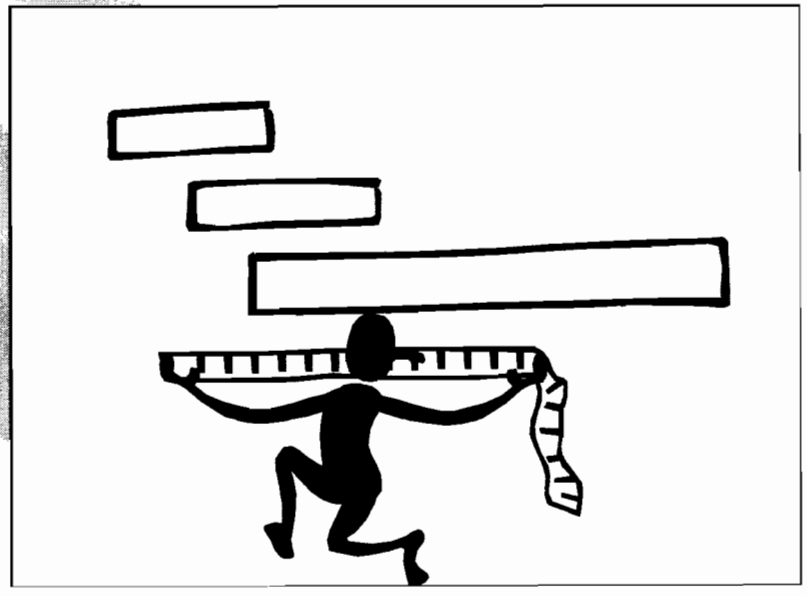
Performance Measurements

Review

April 24, 2007

What is Performance Measurement?

- Performance Measurement is a method of measuring results or outcomes which mark progress toward the goals of the organization.



Why Measure Performance?

- Citizens are demanding more and improved services delivered more efficiently and with better results.
- Citizens feel government is not responsive enough in providing service.
- Citizens feel government expends financial resources without regard for efficiency or effectiveness.

Do the Financial Statements & Budget Document account for Performance?

- Financial Statements only demonstrate financial accountability. The Budget Document may or may not include Performance Measures.

- There is often very little linkage between Performance Measures and the governmental entity's long-term or strategic plan.

What is a good Performance Measure?

- A good Performance Measure should clearly indicate the cause and effect relationship between inputs (money, hours etc) and outputs (services provided) and between outputs and outcomes (results).

Performance Measurements will ...

- Constitute the basis for approved budget requests rather than incremental decision making.
- Ensures expectations are being met.
- Focuses organization for alignment.
- Spotlights areas for improvement.
- Gauges success of change.

Performance Measurements will . . .

- Improve communication among various levels of administration.
- Create individual and team opportunities.
- Show results of changes.

LANDFILL GAS PURCHASE AGREEMENT

THIS LANDFILL GAS PURCHASE AGREEMENT ("Agreement"), made and entered into this 27th day of March, 2007, by and between **TIMBERLINE ENERGY, LLC,** a Delaware Limited Liability Company, doing business at 14520 West Archer Drive, Golden, Colorado, 80401, hereinafter referred to as the "DEVELOPER" and **HERNANDO COUNTY,** a political subdivision of the State of Florida, by and through its Board of County Commissioners, whose address is 20 N. Main Street, Room 460, Brooksville, Florida 34601 Florida hereinafter referred to as "COUNTY";

WITNESSETH:

WHEREAS, the COUNTY is authorized to construct, acquire, improve, maintain, and operate its Solid Waste Management Facilities in the COUNTY; and

WHEREAS, the COUNTY has constructed an active landfill gas ("LFG") collection and flaring system at the Hernando County Northwest Solid Waste Management Facility ("Landfill") in order to remain in compliance with applicable federal, state, and local laws and regulations, and to control landfill gas migration and atmospheric emissions, including odors; and

WHEREAS, the COUNTY plans to construct subsequent expansions to the LFG Management System; and

WHEREAS, the COUNTY recognizes that the use of recovered LFG is of environmental and economic benefit to the COUNTY; and

WHEREAS, the COUNTY desires to enter an Agreement with the DEVELOPER whereby the DEVELOPER would make certain payments to the COUNTY for the rights to and sale of LFG to a Buyer.

NOW, THEREFORE, in consideration of the premises and mutual promises and conditions contained herein, it is mutually agreed between the parties as follows:

Section 1. Definitions. Unless the context indicates otherwise, as used herein, the terms set forth below shall be defined as follows:

(a) Beneficial End Use Product means products derived from LFG that may include, but are not limited to: processed LFG, pipeline quality LFG, electric power, thermal energy, CO_2, or any two or more of the foregoing. The use of such products shall result in a tangible financial gain for the COUNTY.

(b) British Thermal Unit (BTU) means the quantity of heat necessary to raise the temperature of one pound of water one degree Fahrenheit, for example from 58.5 to 59.5 degrees Fahrenheit, under standard pressure of 30 inches of mercury at or near its

point of maximum density. One BTU equals 252 calories, (gram), 778 foot-pounds, 1,055 joules, 2.931 10^{-4} kWh, or .293 watt hours.

(c) BTU per Cubic Foot means a measure of the heat available or released when one cubic foot of gas is burned. Landfill Gas has an expected value of 500 to 600 BTU per Cubic Foot.

(d) Buyer means the party or parties to which DEVELOPER will sell a Beneficial End Use Product derived from the recovery and/or processing of LFG.

(e) Commercial Operations means from the date when the DEVELOPER's LFG Utilization Facility begins deliveries of a Beneficial End Use Product to a Buyer.

(f) Commercial Quantities means an economically viable quantity of LFG (minimum of one (1) standard cubic feet per minute (scfm) provided by the COUNTY at the Delivery Point pursuant to this Agreement).

(g) Condensate means the liquid formed from the condensing of the vapors that occurs during the collection, transportation, and processing of LFG.

(h) Day means a calendar day.

(i) Delivery Point(s) means the point(s) at which the LFG enters the DEVELOPER's header or connection piping for delivery to the DEVELOPER's LFG Utilization Facility. The point(s) are located at or near the COUNTY's Flare Station facilities.

(j) Flare Stations means the equipment and appurtenances used to incinerate LFG. The Flare Stations are used to incinerate LFG in conformance with applicable federal, state, and local rules and regulations, and to control odors.

(k) Force Majeure means acts of God; winds, hurricanes, tornadoes, fires, epidemics, landslides, floods; strikes, lock-outs, acts of public enemies; insurrections; explosions; a change in law not due to improper conduct or to any negligent or intentional act or omission; or any cause or event, not reasonably within the control of the party claiming Force Majeure except for the financial inability of such party caused by factors other than any of the foregoing.

(l) Heating Value means the amount of heat produced by the complete combustion of a unity quantity of fuel. The gross or higher heating valve (HHV) is that which is obtained when all of the products of combustion are cooled to the temperature existing before combustion, the water vapor formed during combustion is condensed, and all the necessary corrections have been made. The net or lower heating valve (LHV) is obtained by subtracting the latent heat of vaporization of the water vapor, formed by the combustion of the hydrogen in the fuel, from the gross or higher healing value.

(m) Landfill means the Hernando County Northwest Solid Waste Management Facility located at14450 Landfill Road, Brooksville, Florida where Class I and Class III wastes are permanently deposited in solid waste disposal units.

(n) Landfill Gas (LFG) means any and all gases resulting from the decomposition of refuse material within the Landfill, consisting principally of methane, carbon dioxide and traces of other constituent gases.

(o) LFG Management System means the network of LFG recovery wells and interconnecting pipes together with attendant valves, condensate sumps and pumps, monitoring devices and other related equipment installed for the purpose of extracting, collecting, and transporting LFG to the Delivery Point(s).

(p) LFG Purchase Agreement means this Agreement between the COUNTY and DEVELOPER for: the construction and operation of DEVELOPER's LFG Utilization Facility; the connection to the Delivery Point(s) for the recovery and utilization of LFG; and the purchase of the LFG provided by the COUNTY at the Delivery Point(s).

(q) LFG Utilization Facility means the DEVELOPER's building or enclosure and equipment required for the processing and delivery of the Beneficial End Use Product to the Buyer, such equipment may include, but is not limited to, compression equipment, an oil and gas cooler, a condensate knockout tank, scrub areas, generating equipment, electric generation and related facilities.

(r) LFG Utilization Facility Site means an area located within the Landfill property upon which the DEVELOPER may access, install, and construct the LFG Utilization Facility. The LFG Utilization Facility Site shall be at a site mutually agreed to by the COUNTY and DEVELOPER.

(s) Leachate means the liquid that has passed through or emerged from solid waste and may contain soluble, suspended, or miscible materials.

(t) Utility Interface (i) in the case where LFG is used to generate electric power, this term shall mean the step-up transformer, metering facilities, protection circuitry, transmission lines, poles, and any other equipment necessary to interconnect the LFG Utilization Facility with the grid of the electric utility in whose franchise area the Landfill is located, or (ii) in the case where LFG is converted to other beneficial products, this term shall mean the metering facilities, pipelines, valves and any other equipment necessary to interconnect the LFG Utilization Facility with the transmission or distribution pipelines or other facility of the electric utility, pipeline company, or other Buyer.

Section 2. Rights Granted to DEVELOPER. Subject to the limitations and other provisions of this Agreement, COUNTY hereby grants to DEVELOPER the following:

(a) Landfill Gas. Developer has the right and license to connect, process, sell, and utilize the LFG that is generated from the Landfill and other contiguous landfill expansion areas and delivered to the Buyer during the term of this Agreement. It shall be the DEVELOPER's responsibility to connect and utilize all LFG made available by the COUNTY for direct sale as fuel or conversion to a Beneficial End Use Product for sale to a Buyer. Title to and risk of loss for the LFG will pass to Buyer. DEVELOPER shall have the exclusive right to claim and utilize any emission allowances and reduction credits that may be associated with LFG.

(b) Site of LFG Utilization Facility. In accordance with the provisions of this Agreement, the COUNTY will make available to DEVELOPER an area located within the Landfill property mutually agreeable to the COUNTY and DEVELOPER an area located within the Landfill property mutually agreeable to the COUNTY and DEVELOPER, by license, as required by DEVELOPER for construction of a LFG Utilization Facility and site improvements, commencing as of the effective date of this Agreement and terminating at the termination of this Agreement. COUNTY hereby covenants (i) that it has title to the LFG Utilization Facility Site in fee and (ii) that DEVELOPER shall have exclusive use of the LFG Utilization Facility Site during the term of this Agreement so long as DEVELOPER is not in default of its obligations under this Agreement.

(c) Access. COUNTY will make available to the DEVELOPER access to the LFG Utilization Facility Site for construction, installation, operation, and maintenance of the DEVELOPER's supplied facility equipment, transmission lines, sewer, electric, water, and telephone lines that are necessary for the operation of the facility.

Section 3. Obligations of COUNTY.

(a) Obligation. The Developer will design and install the initial wells and collection system. The COUNTY shall design, construct, upgrade, expand, operate, and maintain the LFG Management System and provide additional blowers and flares to the COUNTY's Flare Stations as needed to maintain compliance with federal and state regulations. The COUNTY will consult with the DEVELOPER on the placement and configuration of the LFG extraction wells and other equipment required to meet such regulations, in an effort to enhance the beneficial use of the LFG and the overall operation of the LFG Management System. The DEVELOPER's comments shall not be binding on the COUNTY.

Subject to these limitations and other provisions of this Agreement, COUNTY shall:

(1) Cooperate in the construction, development, and operation of the Landfill so as to enhance the production of LFG, while controlling odors and maintaining compliance with all applicable regulations;

Deleted: cooperate

(2) Not interfere with the DEVELOPER's operation and maintenance of the LFG Utilization Facility, providing DEVELOPER is complying with all applicable laws and regulations;

Deleted: not

(3) instruct its independent contractors, agents and employees to comply with Sections 3(a) (1) and (2) described above;

Deleted:)(

(4) Promptly repair at its expense, major cracks, fissures, erosion or physical changes in the Landfill which have an adverse effect on the production of LFG or on the LFG Management System in accordance with applicable LFG regulations;

Deleted: promptly

(5) comply with applicable federal, state and local laws, rules, ordinances and regulations relating to or regulating the construction and operation of the Landfill except for said responsibilities of the DEVELOPER as established under this Agreement; and

(6) maintain consistent cover on the Landfill to meet current federal and state requirements.

(b) Access to the DEVELOPER's Facilities. Access to the DEVELOPER's LFG Utilization Facility shall be by the established entranceway to the Landfill via the scalehouse. The COUNTY shall take appropriate steps to ensure that this access route to the LFG Utilization Facility is available to the DEVELOPER at all times (i.e., 24 hours per day, 7 days per week). When utilizing the access route, the DEVELOPER shall abide by all of the applicable policies and safety regulations of the COUNTY. In certain cases, such as ..., the COUNTY will notify the DEVELOPER of the need to enter the DEVELOPER's premises.

(c) Documents. As reasonably requested by DEVELOPER, COUNTY shall:

(1) allow DEVELOPER to inspect, in accordance with Chapter 119, Florida Statutes, any documents in its possession regarding LFG production from the Landfill, the quantity, age, and type of refuse in the Landfill, tipping records, etc.; and

(2) allow DEVELOPER to inspect, in accordance with Chapter 119, Florida Statutes, any environmental information, environmental impact reports or studies, permits or permit applications, zoning information including variances or variance applications, and any other available data relating to the Landfill and COUNTY's or DEVELOPER's activities contemplated in this Agreement, and allow DEVELOPER to copy any such material or documents as may be in COUNTY's possession.

(d) Good Faith. COUNTY shall perform its obligations hereunder in good faith and acting reasonably, cooperate with DEVELOPER so that DEVELOPER can meet its responsibilities and obligations under this Agreement.

(e) Caveats. Notwithstanding any portion of this Agreement to the contrary, it is understood and agreed to by DEVELOPER that the COUNTY does not warrant or guarantee the rates of production, the chemical composition, or heating content of the LFG from the Landfill. DEVELOPER is relying on its own calculations and evaluation of the Landfill in this regard.

Section 4. Obligations of DEVELOPER. Deleted: of DEVELOPER

(a) Obligations. The operation of the LFG Utilization Facility and any other activity of DEVELOPER shall not interfere with the management and operational requirements of the Landfill. The DEVELOPER shall design, construct, operate, and maintain the initial gas wells and gas collection system portion of the LFG Management System. The County shall be responsible for providing blowers and flares to the COUNTY's Flare Stations as needed to maintain compliance with federal and state regulations. The DEVELOPER will consult with the COUNTY on the placement and configuration of the LFG extraction wells and other equipment.

(b) LFG Utilization Facility. DEVELOPER shall, at its sole expense, permit, design, install, construct, operate, replace, expand, upgrade, and maintain the LFG Utilization Facility required for the processing and delivery of the Beneficial End Use Product to the Buyer. The design, installation, construction, operation, replacement, expansion, upgrade, if any, and maintenance of such LFG Utilization Facility shall be in accordance with federal, state, and local requirements, and industry standards.

(c) Delivery Point(s). DEVELOPER shall, at its sole expense, provide and install:

(1) Header piping, connection piping, valves, pipe supports, and any other auxiliary items from the DEVELOPER's LFG Utilization Facility to the Delivery Point(s).

(2) A tee, valve, and blind flange at the Delivery Point(s) for the purpose of connecting to the COUNTY's LFG Management System.

(3) Any needed blower booster(s) or blower(s) to manage the flow of LFG from the Delivery Point(s) to the LFG Utilization Facility.

(4) For the COUNTY's use, the DEVELOPER, at its own expense shall install, operate and maintain flow meter(s), , and continuous recorder near the Delivery Point(s) for the purpose of determining the quantity and methane content of LFG delivered to the DEVELOPER. The COUNTY and DEVELOPER shall mutually select the final location for the flow meter(s). Flow meter(s) shall be calibrated quarterly by the COUNTY's representative certified to perform such calibrations. The DEVELOPER may independently pay for calibration of the meter(s) by a third party certified to perform such calibrations with consent from the COUNTY. The DEVELOPER shall analyze the COUNTY's LFG daily for the content of methane and Deleted: flowmeter

other constituents deemed necessary by the parties. Periodically, the COUNTY may independently arrange and pay for the sampling and analysis of the gas by an appropriately certified laboratory. If the County's and the DEVELOPER's analysis differ by less than ten percent (10%), the results shall be averaged for purposes of this section. If the results differ by more than ten percent (10%), the COUNTY and the DEVELOPER shall arrange for sampling by a mutually agreed upon third party laboratory.. The COUNTY and the DEVELOPER shall share equally in the cost of the third party laboratory.

(d) Commercial Operations. DEVELOPER shall commence Commercial Operations within 18 months from the effective date of this Agreement.

(e) Operations. In addition to the following, DEVELOPER shall operate the LFG Utilization Facility in accordance with the Wellfield Maintenance Agreement of even date herewith attached hereto and incorporated herein as Exhibit "A". DEVELOPER shall:

(1) Operate the LFG Utilization Facility, and all associated DEVELOPER supplied equipment in a prudent manner in accordance with good engineering practices and in a manner consistent with industry standards.

(2) Maintain the LFG Utilization Facility, COUNTY's Flare Station(s), and all associated DEVELOPER supplied equipment in good working order throughout the term of this Agreement.

(3) Repair the LFG Utilization Facility, COUNTY's Flare Station(s), and all associated DEVELOPER supplied equipment, as necessary, to restore normal operations and system redundancies to ensure compliance with the terms of this Agreement.

(4) Maximize the use of the available LFG from the COUNTY and sell and deliver Beneficial End Use Product to a Buyer.

(5) Maintain a constant and balanced draw from the COUNTY's LFG Management System in order for the COUNTY to maintain a balance of their system.

(6) Maintain air emissions generated by the operations to any applicable standards or permits.

(7) Flare all LFG that may be available due to excess quantity, scheduled and unscheduled maintenance, or shut-off by Buyer. Meet permit requirements, control odors, operate, repair, and maintain the COUNTY's Flare Station(s).

(8) Control on-site odors from the DEVELOPER's facilities in order to control on-site and off-site impacts in accordance with applicable standards, ordinances, permits, rules and regulation.

(9) Maintain noise levels from the operation of the DEVELOPER's facilities at any point of the Landfill site boundary in accordance with Section 30.1302 of the COUNTY's landfill operation.

(10) Control and dispose of all wastes generated from the DEVELOPER's facilities according to current environmental regulations, including gas condensate and waste cooling water.

(11) Comply with all applicable federal, state, and local laws, rules, ordinances and regulations and any other said responsibilities of the DEVELOPER as established under this Agreement.

(12) Provide information to COUNTY, as necessary, for COUNTY to comply with New Source Performance Standards (NSPS) reporting requirements, or other regulatory reporting requirement.

(13) Comply with annual inspection and implement recommendations made by the COUNTY's consulting engineer on annual inspection of the flare and facility property.

(f) Good Faith. DEVELOPER shall perform its obligations hereunder in good faith and acting reasonably, cooperate fully with COUNTY so that COUNTY can meet its responsibilities and obligation under this Agreement. DEVELOPER shall comply with all laws and regulations applicable to the work being performed under this Agreement.

(g) Design Review. DEVELOPER shall submit to COUNTY for review, comment and approval all design documents relating to the implementation of this Agreement including plans, specifications and drawings for the procurement, installation, and construction of the LFG Utilization Facility during the term of this Agreement. Any such review, comment and approval will not be unreasonably withheld. The purpose of such review is to ensure that the facilities constructed on the COUNTY's property will not interfere with the COUNTY's operations, and will comply with all applicable laws (e.g., permitting, zoning, and environmental requirements), as well as the provisions of this Agreement. The COUNTY shall not have the right to review or approve any proprietary information, or to approve the detailed terms of DEVELOPER's design documents, but COUNTY may provide comments to DEVELOPER on such design, and DEVELOPER agrees to make such changes as may be necessary to comply with COUNTY's requirements. If changes to these design documents are made, DEVELOPER will submit such changes to the COUNTY for review and COUNTY shall notify DEVELOPER in a reasonable time (such time in no event to exceed thirty (30) days) of its comments on such changes. Any recommendation of rejection shall be reasonable, based on the design standards set forth in this Agreement and accompanied by a detailed

Deleted: deisgn

explanation of the reasons for the rejection. County will also propose reasonable alternatives to DEVELOPER to eliminate the reasons for the rejection. COUNTY and DEVELOPER recognize that delays in the construction of these systems may delay DEVELOPER's construction schedule. Therefore, COUNTY and DEVELOPER agree to exercise reasonable efforts to expedite the review and approval process. DEVELOPER will provide COUNTY with a complete set of "as built" plans for the DEVELOPER's LFG Utilization Facility. The review process described in this paragraph does not relieve the DEVELOPER of its obligations to obtain the required building permits and site plan review approval, or any other local, state or federal approvals required for the DEVELOPER's LFG Utilization Facility.

Neither the COUNTY's authority to review and approve design documents relating to the implementation of this Agreement nor any decision made by the COUNTY in good faith in conjunction with such review and approval shall give rise to any duty or responsibility of COUNTY to DEVELOPER, any subcontractor, any supplier, or any other person or organization performing any of the work, or to any surety for any of them.

The COUNTY's actions pursuant to this section shall not create any vested rights for the DEVELOPER. Nothing in this Agreement shall be construed to eliminate the need for the DEVELOPER to comply with all applicable laws and regulations.

(h) Permits. DEVELOPER shall, at its own expense, prepare and file permit applications and diligently prosecute the processing of such permit application for the purpose of obtaining all environmental and other permits which are required under applicable local, state, and federal laws and regulations for the construction, installation, and operation of the LFG Utilization Facility, associated electrical transmission lines, an/or steam, or LFG transmission pipelines, on and off-site. In connection therewith, the COUNTY agrees to make available to the DEVELOPER all known public records within the COUNTY's possession of environmental information reports, environmental impact reports, air impact assessment studies, copies of all environmental applications filed, and other available data relating to and used in connection with obtaining any environmental permits necessary for the installation and operation of any equipment or the conducting of any other activities at the Landfill.

Any permit modifications or applications that may affect existing COUNTY permits shall be submitted to the COUNTY for review and comment prior to submission to the applicable regulatory agency. The DEVELOPER shall incorporate any comments from the COUNTY subsequent to final review by the COUNTY and re-submit to COUNTY for final approval, authorization, and signature.

Deleted: to the

(i) Laws and Regulations. The DEVELOPER must agree to abide by and conduct its programs and provide its services in compliance with the applicable provisions of:

- Florida Worker's Compensation Statutes and Regulations, Florida Statutes, Chapter 440 and Florida Administrative Code (F.A.C), Rule 38F
- Florida Workplace Safety and Health Regulations, F.A.C – Rule 38I
- Federal Civil Rights Act of 1866
- Federal Civil Rights Act of 1871
- Federal Equal Pay Act of 1963
- Federal Civil Rights Act of 1964
- Federal Age Discrimination and Employment Acts of 1967
- Federal Rehabilitation Act of 1973
- Federal Americans with Disabilities Act of 1990
- Federal Civil Rights Act of 1991
- Florida Civil Rights Act of 1992
- American National Standards Institute
- National Fire Protection Association
- Occupational Safety and Health Act, Code of Federal Regulation, Chapter 29, Parts 1910 and 1926, General Industry Standards and Construction Industry Standards, as amended, with particular attention to the Hazard Communications, Trenching and Shoring and Confined Space Entry Standards.
- All other applicable ordinances, statutes, laws and amendments thereto.

The DEVELOPER is presumed to be familiar with all applicable federal, state and local laws, ordinances, code rules and regulations that may in any way affect the work.

(j) Site Security. The LFG Utilization Facility Site shall be fenced and gated and locked during construction and operations. The fencing shall contain signage on each side, warning of any hazards and providing telephone numbers for notification of emergency situations. Employees of the COUNTY shall not be permitted on the LFG Utilization Facility Site, except in the event of an emergency or disaster, unless accompanied by an authorized employee of the DEVELOPER. Subject to the exemptions included in this subsection for entry onto the LFG Utilization Facility Site, the COUNTY's employees shall not enter the site unless:

(1) DEVELOPER's employee is on the site at the same time, or

(2) DEVELOPER requests assistance from the COUNTY or a duly authorized representative, or

(3) It is necessary for the COUNTY to collect samples from the discharges of the DEVELOPER's facility, or

(4) A situation that requires immediate attention. The COUNTY will notify the DEVELOPER within 24 hours of entrance onto the DEVELOPER's site.

The fencing, gating, and site security requirements of this subsection shall be limited to the DEVELOPER's LFG Utilization Facility Site.

(k) Project Plan. The DEVELOPER must prepare and submit to the County a preliminary Project Plan for the LFG Utilization Facility Project, during the construction process. The Plan will cover a number of aspects of the DEVELOPER's operations and will include at a minimum;

- Testing requirements for startup of the LFG Utilization Facility;
- LFG Utilization Facility Operating Plan that demonstrates at a minimum the facility's ability to process the initial LFG flows (LFG available from the COUNTY at startup of the Facility) from the Landfill;
- Reporting requirements to governmental agencies for permits associated with LFG Utilization Facility;
- Testing and monitoring procedures of the LFG Utilization Facility to assure compliance with permit conditions;
- An Emergency, Disaster and Safety Plan

The Project Plan will be finalized and accepted by the County prior to the startup of the LFG Utilization Facility. Once accepted by the COUNTY, the DEVELOPER is obligated to adhere to the Plan. Deviations from the plan are only permissible if they are made in writing to the COUNTY and accepted in writing by the COUNTY. Operations will commence after completion of the startup period and approval of the Project Plan by the COUNTY.

(l) Project Schedule. The DEVELOPER shall be responsible for developing and keeping current a project schedule for each of the elements of the LFG Utilization Facility construction which show: the sequence of project development, permitting, design, construction, startup, and commencement of operations, system testing, and monitoring, and reporting to governmental agencies. The COUNTY will review and accept the Project Schedule before any construction shall commence. The COUNTY will be informed of monthly progress and changes in the schedule by the DEVELOPER.

Deleted: commencement

(m) Transmission Line. Any off-site pipeline or transmission line to the Buyer's premises shall comply with and be included within the requirements and liabilities assumed by the DEVELOPER under this Agreement. Any portion of the pipeline or transmission line on public right of way shall be clearly marked according to industry or governmental standards. The depth of the pipeline or transmission line shall comply with local permitting code and/or State law whichever is applicable.

Section 5. Term.

(a) Agreement Term. This Agreement shall have a term of twenty (20) years which shall begin on the date when the DEVELOPER commences Commercial Operations of the LFG Utilization Facility, consistent with the provisions of this Agreement. At the end of the term, this Agreement shall terminate, unless extended by mutual written agreement of the COUNTY and DEVELOPER, provided that the party

wishing to extend gives the other at least one hundred eighty (180) days written notice of such desire. The term of this Agreement also may be extended if and when the COUNTY adds additional LFG extraction wells in the Landfill and the DEVELOPER agrees to expend additional capital funds to increase the capacity of its LFG Utilization Facility, provided the COUNTY and the DEVELOPER consent in writing to the extension. If the County does not renew the agreement then the DEVELOPER will be reimbursed for the cost of the wells and collection system installed by DEVELOPER.

(b) Effective Date. This agreement shall become effective on the day it is executed by a duly authorized representative of the COUNTY. Until the effect date, this Agreement shall be of no force or effect.

Section 6. Payment.

(a) Initial Payment for LFG Rights. DEVELOPER shall pay the COUNTY a lump sum of Five Thousand and No/100 Dollars ($5,000.00) within ninety (90) days of the effective date of this Agreement, or upon financing the LFG Utilization Facility, whichever comes first. This lump sum payment to the COUNTY shall constitute the DEVELOPER's payment for an exclusive right to and use of LFG from the Landfill.

(b) Payment for LFG Delivered. DEVELOPER shall pay the COUNTY a 3% royalty for all gross revenue derived from the sale of the landfill gas, CO2, emissions credits or other products. The royalty shall increase to 6% for all landfill gas btu's above 110,000 btu/year.

(c) If the Developer is operating the wells and gas collection system, the Developer will deducted $2,000/month from the royalty payment. However at no time will the royalty payment minus the $2,000/month deduction be less than $1,000/month.

(e) Payment Due Date. All monies due to the COUNTY on a monthly payment basis shall be payable in arrears along with documentation of revenues monthly payment are due on or before the twenty-fifth (25^{th}) day of the calendar month following the month in which DEVELOPER actually receives revenues from its sale of the Beneficial End Use Products converted from the LFG from the Landfill. The COUNTY shall have the right to inspect, copy, and audit during reasonable business hours the sale journal and any other pertinent books and records of the DEVELOPER relating to the calculations of the revenues upon which the payment of LFG delivered will be based or any other payment to the COUNTY. If the above indexes are not available for any reason, the parties shall mutually agree on the use of a replacement index or indexes.

(f) Tax and Emission Credits. If any federal, state, or local tax or emission credits become available, DEVELOPER shall pay a fee to the COUNTY for any tax or emission credits received by the DEVELOPER for the LFG Utilization Facility. The fee shall be equal to the royalty amount.

(g) Utility Interface Costs. The DEVELOPER is solely responsible to pay for all utility interface costs.

Section 7. Financing. COUNTY acknowledges that DEVELOPER may desire to finance some or all of the equipment or personal property required to undertake work to be performed under this Agreement and hereby consents to any encumbrance or lien on the machinery, equipment, fixtures, and buildings that make up the LFG Utilization Facility and Utility Interface for the purpose of obtaining such financing, provided:

(a) DEVELOPER shall give COUNTY notice of the existence of such encumbrance or lien together with the name and address of the holder of such encumbrance or lien, and a copy of the encumbrance or lien.

(b) That the existence of such encumbrance or lien shall not relieve DEVELOPER from any liability or responsibility for the performance of its obligations under this Agreement.

Under no circumstances shall DEVELOPER cause any mortgage or lien to exist on the COUNTY property, Landfill, access road, or LFG Utilization Facility Site, and no security interests may be granted in any underground transmission lines, pipelines, or underground equipment or fixtures associated with the project.

Section 8. General Obligations.

(a) Planning and Expansion. DEVELOPER recognizes that future development of the COUNTY Landfill may include additional facilities. COUNTY and DEVELOPER agree to exchange information on a regular basis for planning and coordination of all activities to promote the safe and orderly development and operation of the Landfill.

(b) Interests Retained by COUNTY. All materials, minerals, water, natural gas, and other items existing in, on, or under the Landfill (including, but not limited to, the refuse, cell liners, leachate, condensate, and waste spoilage removed from Landfill during construction of LFG Management System and cover) shall at all times remain the property of COUNTY.

(c) Independent Contractor. In the performance of any activities pursuant to this Agreement, the DEVELOPER will be acting in the capacity of an independent contractor and not as an agent, employee, partner, joint venturer, or associate of the COUNTY. The Developer shall be solely responsible for the means, methods, sequences, and procedures utilized by the DEVELOPER. None of the Developer's employees, officers, agents, or any other individual directed to act on behalf of the DEVELOPER for any act related to the Agreement shall represent, act, purport to act, or be deemed to be the agent, representative, employee or servant of the COUNTY.

Deleted: Developer's employees

(d) Condensate. The DEVELOPER is responsible for the collection and removal of condensate from the DEVELOPER's condensate sumps, DEVELOPER's condensate knockout vessel(s) and the LFG Utilization FACILITY, and the proper handling and delivery of the condensate to the COUNTY's leachate collection system (leachate manhole) or leachate storage tanks. The COUNTY shall have the right to collect and test samples from the DEVELOPER's facilities before discharging into the COUNTY's facilities.

(e) Gas Migration and Emissions. DEVELOPER and COUNTY acknowledge that the primary objective of the LFG Management System is and will continue to be to control LFG migration, emissions and odors, in order to meet all local, state and federal regulatory requirements and the requirements of existing and future landfill permits. DEVELOPER shall operate the LFG Utilization Facility in a manner that is conducive to this primary objective.

FURTHERMORE the COUNTY is to provide all of the needed LFG Management System components and all replacement, expansions, and additions and the operation thereof to collect the LFG generated at the Landfill to the greatest extent possible so that (i) the operation of the Landfill will remain in compliance with applicable federal, state and local laws and regulations, and (ii) the operation of the Landfill will control LFG migration and odors.

(f)

The COUNTY shall design, permit, construct and pay for any additional equipment or other improvements that are necessary to ensure compliance with applicable regulations due to (i) a change in applicable laws or regulations that occurs after the effective date of this Agreement or (ii) an expansion of or other change, provided that such failure is not caused by DEVELOPER's acts or omissions during DEVELOPER's maintenance, repair and operation.

(g) Non Waiver.

(1) The failure of either party to exercise any right shall not be considered a waiver of such right in the event of any further default or noncompliance.

(2) No action taken by COUNTY or DEVELOPER after the effective date of the termination of this Agreement pursuant to Section 14 in accepting one or more payments from the other or undertaking any other activity which would have been authorized by this Agreement but for its termination, shall be construed that this Agreement is not terminated or as a waiver of the termination.

(h) Inspections. COUNTY has the right to conduct inspections of the DEVELOPER's facilities to verify operations compliance, environmental compliance and

compliance with applicable local, state, and federal regulations and said responsibilities of this Agreement

Section 9. Limitations of Liability.

(a) Except as otherwise provided herein, COUNTY provides no warranties or guarantees, either expressed or implied, as to the amount or chemical composition of the LFG to be extracted and made available to the DEVELOPER at the Delivery Point(s) hereunder, including, but without limitation, any warranty of merchantability or fitness of the LFG for a particular purpose; provided, however, if the Landfill does not produce Commercial Quantities of LFG, DEVELOPER may terminate this Agreement as provided in Section 14(d).

(b) Provided DEVELOPER is complying with applicable laws and regulations, DEVELOPER will be solely responsible for the determination of the suitability of the LFG to be used under this Agreement for any and all purposes contemplated by DEVELOPER.

(c) Nothing contained within this Agreement shall be construed to mean that DEVELOPER has assumed any of COUNTY's responsibilities to comply with any environmental laws and regulations, whether federal, state, or local.

(d) In no event shall Developer be liable to COUNTY with respect to any claims arising from the ownership of the Landfill.

(e) COUNTY shall not be liable for damages, including consequential damages, loss of revenues and/or lost profits, for COUNTY employees' entry on the LFG Utilization Facility Site at the Landfill pursuant to Section 4(j) herein. Further, COUNTY shall not be liable for consequential damages, loss of revenues and/or lost profits for any reason whatsoever.

(f) DEVELOPER is liable for any fines and/or repair for any environmental damage due to the DEVELOPER's facilities construction and operations.

(g) Nothing contained in this Agreement constitutes a waiver of the COUNTY's sovereign immunity or the limitations on liability contained in Section 768.28, Florida Statutes.

Section 10. Indemnification. To the fullest extent permitted by Laws and Regulations, the selected DEVELOPER shall indemnify and hold harmless the COUNTY and the officers, directors, employees, agents and other consultants of the COUNTY from and against all claims, expenses, losses and damages (including but not limited to all fees and charges of the DEVELOPER, engineers, architects, attorneys and other professionals) caused by, arising out of or resulting from the performance of services, provided that any such claim, damage, loss or expense: (1) is attributable to bodily injury, sickness, disease, death, or personal injury, or to property damage including the loss of

use resulting there from, and (2) is cause in whole or in part by any act or omission of the DEVELOPER, any Subcontractor, any Supplier, any person or organization directly or indirectly employed by any of them to perform or furnish any of the services or anyone for whose acts any of them may be liable. The DEVELOPER agrees that it will pay the reasonable costs of the COUNTY's legal defense, including fees of attorneys as may be selected by the COUNTY and shall defend, satisfy, and pay any judgments which may be rendered against the COUNTY in connection with the above hold harmless agreement. The DEVELOPER acknowledges that specific consideration has been received for this hold harmless/indemnification provision.

The provisions of this Section 10 shall survive the termination of this Agreement.

Section 11. Insurance. Before starting and throughout the Term of this Agreement, the DEVELOPER shall procure and maintain insurance of the types and to the limits specified in Section A below.

The DEVELOPER shall require each of its Subcontractors, if any, to procure and maintain, until completion of that Subcontractor's work, insurance of types and to the limits specified in Section A (i) through (v) inclusive below. It shall be the responsibility of the DEVELOPER to ensure that all its Subcontractors meet these requirements.

(a) Coverage. Except as otherwise stated, the amount and types of insurance shall conform to the following minimum requirements.

(1) Workers' Compensation: Coverage to apply for all employees at the STATUTORY limits in compliance with applicable state and federal laws; if any operations are to be undertaken on or about navigable waters, coverage must be included for the USA Longshoremen & Harbor Workers Act, and Jones Act; in addition, the policy must include EMPLOYERS LIABILITY for limits of Five Hundred Thousand and N/100 Dollars ($500,00.00)/each accident; One Million and No/100 Dollars ($1,000,000.00)/disease – policy limit; Five Hundred Thousand and No/100 Dollars ($500,000.00)/disease – each employee, and a waiver of subrogation in favor of COUNTY, its agents, employees and officials.

(2) Commercial General Liability: Coverage must be afforded, under a per occurrence form policy, including Premise Operations, Independent Contractors, Products and Completed Operations, Broad Form Property Damage Endorsement, with a Hold Harmless and Named Additional Insured Endorsement in favor of the COUNTY for limits not less than Four Million and No/100 Dollars ($4,000,000.00)/general aggregate; Two Million and No/100 Dollars ($2,000,000.00)/products-completed operations (aggregate); Two Million and No/100 Dollars ($2,000,000.00)/personal injury and property damage liability; Two Million and No/100 Dollars ($2,000,000.00)/each occurrence; Fifty Thousand and No/100 Dollars ($50,000.00)/fire damage legal; Five Thousand and No/100 Dollars ($5,000.00)/medical payments.

(3) Business Auto Policy: Coverage must be afforded including coverage for all owned vehicles, hired/non-owned vehicles, with an Additional Named Insured Endorsement in favor of the COUNTY, for a combined single limit (bodily injury and property damage) of not less than One Million and No/100 Dollars ($1,000,000.00)/combined single limit (bodily limits; injury/property damage); personal injury protection/statutory One Million and No/100 Dollars ($1,000,000.00) /uninsured/underinsured motorist; One Million and No/100 Dollars ($1,000,000.00)/hired /non-owned auto liability.

(4) Builder's Risk /Installation Floater: When this agreement includes construction of or additions to above ground buildings or structures, or installation of machinery or equipment, Builder's Risk and/or Installation Floater coverage must be provided as follows:

(i) All Risk Coverage – All risk Coverage on a completed value form shall provide primary, non-contributory coverage with a waiver of subrogation in favor of the COUNTY.

(ii) Amount of Insurance – one-hundred percent (100%) of the completed value of such addition(s), building(s), or structure(s), or machinery and equipment.

(iii) Waiver of Occupancy Clause or Warranty – Policy must be specifically endorsed to eliminate any "Occupancy Clause" or similar warranty or representation that the building(s), addition(s), or structure(s) will not be occupied by the COUNTY.

(iv) Maximum Deductible – Five Thousand No/100 Dollars ($5,000.00) each claim. Higher deductibles are permitted subject to COUNTY approval.

(v) Additional Named Insured – The COUNTY must be included as an additional named insured.

(vi) Notice of Cancellation and/or Restriction – The policy must be specifically endorsed to provide the COUNTY with thirty (30) days' notice of cancellation and/or restriction.

(vii) Flood Insurance – When the buildings or structures are located within an identified special flood hazard area, flood insurance protecting the interest of the DEVELOPER and the COUNTY must be afforded for the lesser of the total insurable value of such buildings or structures, or the maximum amount of floor insurance coverage available under the National Flood Insurance Program.

OR

(5) Property Insurance Coverage: When construction of any above ground building or structure, or installation of machinery or equipment is complete, coverage must be provided as follows:

(i) All Risk Coverage – All Risk Coverage on a completed value from shall provide primary, non-contributory coverage with a waiver of subrogation in favor of the COUNTY.

(ii) Amount of Insurance – one hundred (100%) of the "replacement cost value."

(iii) Maximum Deductible – Five Thousand and No/100 Dollars ($5,000.00) each claim. Higher deductibles are permitted subject to COUNTY approval.

(iv) Additional Named Insured – The COUNTY must be included as an additional named insured.

(v) Notice of Cancellation and/or Restriction – The policy must be specifically endorsed to provide the COUNTY with thirty (30) days' notice of cancellation.

(vi) Flood Insurance – When the buildings or structures are located within an identified special flood hazard area, flood insurance protecting the interest of the Contractor must be afforded for the lesser of the total insurable value of such buildings or structures, or the maximum amount of flood insurance coverage available under the National Flood Insurance Program.

(6) Environmental Impairment Insurance: Coverage shall be provided and maintained as a separate policy for One Million Dollars and No/100 Dollars ($1,000,000.00) per occurrence; Two Million Dollars and No/100 Dollars ($2,000,000.00) aggregate.

(7) Business Interruption: Coverage shall be maintained in an amount sufficient to cover COUNTY's loss of revenues or consequential damages for the period of time it would take to repair or replace the damage or loss that caused said loss or damage.

(b) Waiver of Subrogation/Cause of Action. DEVELOPER agrees to waive any rights of recovery against the COUNTY for damage or loss to DEVELOPER's property or other asset, and any loss of revenue or consequential damages, howsoever caused, and agrees to require appropriate waivers of subrogation from its insurance companies.

(c) Certificates of Insurance. Certificates of all insurance required from the Developer shall be filed with the COUNTY as the Certificate Holder, before operations are commenced. The insurance indicated on the Certificate shall be subject to its approval for adequacy and protection. The certificate will state the types of coverage provided, limits of liability, and expiration dates. The COUNTY shall be identified as an Additional Named Insured for each type of coverage required by Section A (2) through A (6) above. The required certificates of insurance may refer specifically to this Agreement and the above sections in accordance with which such insurance is being furnished, and may state that such insurance is as required by such sections of this Agreement.

The DEVELOPER shall provide a Certificate of Insurance to the County with a thirty (30) days' notice of cancellation. In addition, the County will be shown as Additional Named Insured, with a Hold Harmless Agreement in favor of the COUNTY, where applicable. The certificate should also indicate if coverage is provided under a "claims made" or "per occurrence" form. If any coverage is provided under a claims made form, the certificate will show a retroactive date, which should be the same date as the Agreement (original date if Agreement is renewed) or prior.

If the initial insurance expires prior to the completion of work, renewal certificates and/or required copies of policies shall be furnished thirty (30) days prior to the date of their expiration.

Section 12. Removal and Restoration.

(a) Ownership of Equipment. Except as otherwise provided in this Agreement, the LFG Utilization Facility and related equipment shall remain the personal property and/or responsibility of DEVELOPER (collectively "DEVELOPER's Equipment"), notwithstanding the above, however, no equipment shall be removed that will affect the operations of the COUNTY's Flare Stations needed to remain in compliance with applicable federal, state, and local laws and regulations, and to control landfill gas migration and atmospheric emissions, including odors.

(b) Transfer of Ownership upon Expiration or Termination. Upon the expiration or termination of the Agreement, the below ground portions of the LFG Utilization Facility and the building shall become the personal property and responsibility of COUNTY. DEVELOPER shall have no further responsibility with respect to the below ground portions of the LFG Utilization Facility after DEVELOPER conveys title to such equipment, fee and clear of any encumbrances, liens or security interest.

Notwithstanding the above, within thirty (30) or (90)? days after the expiration or termination of this Agreement, , the DEVELOPER shall, at its sole expense, remove all LFG Utilization Facility and any associated Transmission equipment except for the building from the Landfill and return the LFG Utilization Facility Site to its original condition.

Nothing in this Section 12 shall be construed to create an obligation on the COUNTY to buy any portions of the LFG Utilization Facility. Should DEVELOPER fail to remove DEVELOPER's Equipment as required under this Section 12, such property shall be deemed abandoned and shall become the property of COUNTY. Should the COUNTY incur cost associated with the removal of abandoned equipment and/or site restoration associated with such abandonment, the DEVELOPER shall be liable for such cost. This liability shall expire twelve (12) months after the abandonment if the COUNTY has not notified the DEVELOPER in writing that site clean-up has been completed or is underway including the actual or estimated cost of such clean-up.

F

(c) Removal and Restoration Bond. Before starting and throughout the term of this Agreement, DEVELOPER shall procure and maintain a bond or financial security instrument under forms acceptable and approved by the COUNTY to ensure the removal of the DEVELOPER's facilities and the restoration of the land upon the expiration or termination of this Agreement. The amount of the bond or financial security instrument shall be Fifty Thousand and No/100 Dollars ($50,000.00).

Section 13. Force Majeure. If by reason of Force Majeure either party is unable to carry out, either in whole or in part, its obligations herein contained, such party shall not be deemed in default during the continuation of such inability, provided that:

(a) The non-performing party, as soon as possible but no later than two (2) weeks after the occurrence of the cause of the Force Majeure, gives the other party written notice describing the particulars of the occurrence; and

(b) The suspension of performance be of no greater scope and of no longer duration than is required by the Force Majeure; and

(c) No obligations of either party which arose prior to the occurrence causing the suspension of performance be excused as a result of the occurrence; and

(d) That the non-performing party endeavors to remedy with all reasonable dispatch the cause or causes preventing it from carrying out its obligations.

Neither party shall be required to settle strikes, lockouts, or other industrial disturbances by acceding to the demands of the opposing party or parties when such course is, in its judgment, not in its best interest. The fee required to be paid by DEVELOPER set forth in Section 6(b) shall not apply, and DEVELOPER shall be relieved of its obligation there from, so long as an event of Force Majeure has occurred and is continuing.

Section 14. Termination.

(a) DEVELOPER's Default. The failure of the DEVELOPER to comply with any provision of this Agreement shall place the DEVELOPER in default. Prior to terminating the Agreement, the COUNTY shall notify the DEVELOPER in writing.

Notification shall make specific reference to the provision which gave rise to the default. The COUNTY shall provide the DEVELOPER thirty (30) days to propose a written remedy and schedule, which shall not be unreasonably withheld, delayed, or conditioned. If the COUNTY disapproves of DEVELOPER's proposed remedy and schedule, the COUNTY may, at its sole option, direct an alternative remedy and schedule or provide DEVELOPER with ninety (90) days prior written notice of termination.

Deleted: direct an

Events of default by DEVELOPER warranting termination by COUNTY shall include, but not be limited to, one or more of the following:

(1) the filing by or against DEVELOPER of a petition in bankruptcy or the complete cessation of the business operations of DEVELOPER;

(2) failure by DEVELOPER to pay the fees due the COUNTY pursuant to Section 6, Payment;

(4) failure by the DEVELOPER to maintain the LFG Utilization Facility, the COUNTY's Flare Station(s), and all associated DEVELOPER supplied equipment in good working order throughout the term of this Agreement;

(5) failure to operate the system or to maintain compliance with environmental regulations and noise limitation and odor control requirements;

(6) failure to pay for any damages assessed to the DEVELOPER;

(7) failure to commence Commercial Operations within eighteen (18) months from the effective date of this Agreement.

(b) Repeated Defaults by DEVELOPER. In the event that the DEVELOPER's record of performance shows that the DEVELOPER has frequently, regularly or repetitively defaulted in the performance of any of the material covenants and conditions required herein to be kept and performed by the DEVELOPER and regardless of whether the DEVELOPER has corrected each individual condition of default, the DEVELOPER may be deemed a "habitual violator" and all of said defaults may be considered collectively to constitute a condition of default. The COUNTY may thereupon issue the DEVELOPER a final warning citing the circumstances therefore, and any single material default by the DEVELOPER within one (1) year after said warning shall be grounds for termination of this Agreement. In the event of any such single subsequent default within one (1) year, the COUNTY may terminate this Agreement upon the giving of written final notice to the DEVELOPER. The COUNTY's Environmental Services Director shall be the sole authority to determine and deem the DEVELOPER as a "habitual violator".

(c) COUNTY's Default. The failure of the COUNTY to comply with any provision of this Agreement shall place the COUNTY in default. Prior to terminating the

Agreement, the DEVELOPER shall notify the COUNTY in writing. Notification shall make specific reference to the provision which gave rise to the default. The DEVELOPER shall provide the COUNTY thirty (30) days to propose a written remedy and schedule which shall set forth the specific timeframe for curing default. In the event of a default by the COUNTY, the COUNTY shall pay DEVELOPER an amount for capital expenditures for the LFG Utilization Facility consistent with Section 12(b) of the Agreement, or the DEVELOPER may remove the above ground portion of the LFG Utilization Facility at the DEVELOPER's option.

(d) Termination for Insufficient Quantities of LFG. Should the DEVELOPER determine, following LFG Utilization Facility start-up, that LFG can no longer be reasonably recovered from the Landfill in Commercial Quantities, DEVELOPER shall have the right to surrender and terminate this Agreement including its rights to the LFG upon ninety (90) days prior written notice to COUNTY. In the event of such termination by the DEVELOPER:

(1) the DEVELOPER shall continue to make payments to the COUNTY for the right to and use of the LFG in accordance with Section 6(b), whichever is in effect at the time, for a three (3) month period following notification of termination;

(2) the DEVELOPER shall continue to make payments for any monies due to the COUNTY for the sale of the Beneficial End Use Product and any other monies required by the provisions of this Agreement;

Section 15. Damages and Administrative Charges. Except where otherwise specifically provided, the measure of damages to be paid by the DEVELOPER to the COUNTY due to any failure by the DEVELOPER to meet any of its obligations under this Agreement shall be the actual damages incurred by the COUNTY. Said damages shall include, but shall not be limited to, the following damages:

(a) The COUNTY's Damages in the Event of Termination of DEVELOPER. If the COUNTY terminates this Agreement because of a default by the DEVELOPER, the DEVELOPER shall be liable to the COUNTY for all actual damages incurred by the COUNTY as a result of DEVELOPER's default.

(b)

(c) The COUNTY's Damages Due to DEVELOPER's Failure to Comply with Environmental Regulations. If the DEVELOPER fails to comply with any applicable environmental regulations, the DEVELOPER shall pay to the COUNTY the following:

(1) All lawful fines, penalties, and forfeitures charged to the COUNTY by any governmental agency charged with enforcement of environmental laws and regulations or judicial orders.

(2) The actual costs, including, but not limited to, legal, administrative and any associated fees, incurred by the COUNTY as a result of the failure to comply with the environmental regulations including any costs incurred in investigating and remedying the conditions which led to the failure to comply with the environmental regulations.

(d) Administrative Charges. The parties acknowledge and agree that it is difficult or impossible to accurately determine the amount of damages that would, or might, be incurred by the COUNTY due to those failures or circumstances described in this section of the Agreement and for which the DEVELOPER would otherwise be liable. Accordingly, administrative charges may be assessed against the DEVELOPER for the following failures to comply with the Agreement:

(1) If DEVELOPER fails to operate and perform the system within permit and/or regulatory requirements or standards, the COUNTY shall give Notice to the DEVELOPER of the foregoing failure. If the DEVELOPER fails to remedy the foregoing failure within two (2) days of the receipt of the Notice from the COUNTY, administrative charges in an amount equal to fifty (50%) of the "daily average payment" to the COUNTY for the sale of the COUNTY's LFG shall be assessed against the DEVELOPER per day until such time as the DEVELOPER has remedied the foregoing failure. If it is not possible to remedy the failure within two (2) days of receipt of the Notice, the DEVELOPER and COUNTY shall agree to a reasonable extended time-period. The "daily average payment" shall be based on normal historical operating days for the six (6) month period immediately preceding the COUNTY's Notice.

(2) If DEVELOPER fails to keep and utilize the LFG Utilization Facility at the levels of manpower and equipment necessary to adequately operate the system, the COUNTY shall give Notice to the DEVELOPER of the foregoing failure. If the DEVELOPER fails to remedy the foregoing failure within one (1) week of the receipt of the Notice from the COUNTY, administrative charges in the amount equal to fifty percent (50%) of the "daily average payment" to the COUNTY for the sale of the COUNTY's LFG shall be assessed against the DEVELOPER per day until such time as the DEVELOPER has remedied the foregoing failure. If it is not possible to remedy the failure within one (1) week of receipt of the Notice, the DEVELOPER and COUNTY shall agree to a reasonable extended time-period. The "daily average payment" shall be based on normal historical operating days for the six (6) month period immediately preceding the COUNTY's Notice.

(3) If DEVELOPER fails to supply information or reports required by the COUNTY and/or any regulatory agency within the timeframe agreed to by the COUNTY and/or regulatory agency, the COUNTY shall give Notice to the DEVELOPER of the foregoing failure. If the DEVELOPER fails to remedy the foregoing

failure within ten (10) day of receipt of the Notice from the COUNTY, administrative charges in the amount of One Hundred and No/100 Dollars ($100.00) per day shall be assessed against the DEVELOPER until such time as the COUNTY determines that the DEVELOPER has remedied the foregoing failure. If it is not possible to remedy the failure within ten (10) day's receipt of the Notice, the DEVELOPER and COUNTY shall agree to a reasonable extended time-period.

Section 16. Representations and Warranties.

(a) Warranties of COUNTY. COUNTY hereby agrees, warrants, and represents to DEVELOPER, as of the date of execution of this Agreement, that:

(1) The COUNTY has not entered into any other agreements with respect to the LFG conveyed to DEVELOPER under this Agreement or with respect to any of the other rights conveyed to DEVELOPER pursuant to Section 2 of this Agreement. COUNTY warrants that DEVELOPER shall take the LFG free and clear of any liens or encumbrances. COUNTY hereby warrants to DEVELOPER that COUNTY has the title to the LFG Utilization Facility Site, access to the site, the Landfill, and the LFG.

(2) No part of the LFG project was financed by grants or subsidized energy financing and the energy credit was not claimed with respect to property used in such recovery Project.

(3) The execution and delivery of this Agreement and related documents have been duly authorized, and constitute legal, valid, and binding obligations of the COUNTY which are enforceable in accordance with their terms and do not violate any law, rule or regulation.

(4) As of the effective date of this Agreement, the solid waste that the COUNTY accepts for disposal within the solid waste disposal units is nonhazardous solid waste as defined by Chapter 62-701, F.A.C. COUNTY also covenants that during the term of the Agreement, COUNTY will continue to accept only nonhazardous solid waste or material deemed nonhazardous in nature as defined by Chapter 62-701, F.A.C.

(b) Warranties of DEVELOPER. DEVELOPER hereby agrees, warrants and represents to COUNTY, as of the date of execution of this Agreement, that

(1) DEVELOPER is a duly organized, validly existing entity in good standing under the laws of the State of Florida. DEVELOPER has all requisite corporate power to own its properties and to carry on the business that is now being conducted, to execute and deliver this Agreement and to engage in the transactions contemplated in this Agreement.

(2) The execution, delivery and performance by DEVELOPER of this Agreement is within the corporate powers of DEVELOPER, have been duly authorized by all necessary corporate action, and do not violate any law, rule or regulation, or the terms of the articles of incorporation or bylaws of DEVELOPER.

Section 17. Assignment. The COUNTY and DEVELOPER shall bind themselves and their respective successors and assigns in all respects to all of the terms, conditions, covenants, and provisions of this Agreement. Neither party hereto may sell, assign or transfer this Agreement or any interest it may have hereunder, without prior written approval of the other party, such approval to be not unreasonably withheld, and provided that any such assignment shall not unduly interfere with the rights of the non-assigning party hereunder, and further provided that such assignee agrees to be bound by the terms of this Agreement to the same extent as assignor. In no event will assignment relieve the assignor of its obligations hereunder. Nothing herein shall be construed as creating any personal liability on the part of any officer or agent of COUNTY or DEVELOPER, nor shall it be construed as giving any right or benefit hereunder to anyone other than the COUNTY or the DEVELOPER.

Section 18. Notices. Any notice to be given under this Agreement shall be in writing and shall be deemed to have been properly given and received (i) when delivered in person to the authorized representative of the party to whom the notice is addressed, or (ii) on the date received as indicated on the prepaid certified or registered receipt when sent by prepaid mail, return receipt requested, to the party to be notified at the address indicated as follows:

To DEVELOPER:

Timberline Energy, LLC
15420 West Archer Drive
Golden, CO 80401

To COUNTY:

Hernando County

S

Either party may change such representative or address under this Agreement by providing written notice to the other party.

Section 19. Taxes. DEVELOPER shall, during the term of this Agreement, pay or arrange for the payment of all general taxes that may be levied upon or assessed against the system, facilities, equipment, machinery and improvements constructed or installed by it in, on, or adjacent to the Landfill. To the extent permissible by law, COUNTY shall recognize DEVELOPER's Equipment as an environmental pollution control system as defined under applicable tax laws and, therefore, shall be free from state sales taxes as provided by state statutes.

Section 20. Interest of Members of COUNTY and Others. No officers, members, or employees of the COUNTY, no member of its governing body, no other public official of the governing body of the locality or localities in which services for facilities under this Agreement are to be carried out, who exercise any functions or responsibilities in the review or approval of the undertaking or carrying out of this Project, shall participate in any decision relating to this Agreement which affects their personal interest, or have any personal interest, direct or indirect, in this Agreement or the proceeds thereof.

Section 21. Interest of DEVELOPER. DEVELOPER covenants that it presently has no interest and shall not acquire an interest, direct, or indirect, which shall conflict with the performances or services required to be performed under this Agreement. Developer further covenants that in the performance of this Agreement, the DEVELOPER shall employ no person having any such interest.

Section 22. Covenant against Contingent Fees DEVELOPER warrants that it has not employed nor retained any company or person, other than a bona fide employee working solely for DEVELOPER, to solicit or secure this Agreement, and that it has not paid or agreed to pay any person, company, corporation, individual or firm, other than a bona fide employee working solely for DEVELOPER , any fee, commission, percentage, gift, or any other consideration contingent upon or resulting from the award or making of this Agreement. For the breach or violation of this section, the COUNTY shall have the right, but not the duty, to terminate this Agreement without liability, and, at its discretion, to deduct from the Agreement such price, or otherwise recover the full amount of such fee, commission, percentage, gift or other consideration.

Section 23. Potential Conflicts of Interest. DEVELOPER is specifically aware of, and concurs with, the public need for the COUNTY to prohibit any potential conflicts of interest that may arise as a result of the execution of this Agreement. As a result, DEVELOPER has extensively reviewed all of its contracts, letters of agreement, and any other indication of commitment on its behalf to perform services for any client other than Hernando COUNTY, which could in any way present the reasonable possibility of an actual conflict of interest with Hernando COUNTY. DEVELOPER has not identified any such contracts., y.

In view of the potential of this Agreement being a long-term contractual relationship between the parties, DEVELOPER specifically agrees to comply with the following organizational requirements in performing its services under this Agreement:

(a) Direct supervision of DEVELOPER employees and agents under this Project shall be given by BILL OWEN, and the designated Project Managers assigned to each specific Project.

(b) DEVELOPER specifically warrants and agrees that any and all information, concepts, policies and regulations relating to the Project under this

Agreement shall be held by DEVELOPER in strict confidentiality within DEVELOPER's Project Team, except as may be affected by Chapter 119, Florida Statutes. No dissemination of any such information by DEVELOPER shall be made until after clear written authorization to do so has been granted by the COUNTY, except as may be otherwise required by law or directed by COURT Orders and except for disclosures to DEVELOPER's legal counsel or accountants. Notice of such disclosures permitted hereunder shall be immediately given to the COUNTY.

Section 24. Records and Audits. If federal funds are used for any work under this Agreement, the Comptroller General of the United States, or any of his duly authorized representatives, shall have access to any books, documents, papers, and records of DEVELOPER which are directly pertinent to work performed under this Agreement, for purposes of making audit, examination, excerpts, and transcriptions.

The COUNTY and its auditors shall be entitled to audit the books and records of the DEVELOPER to the extent that such books and records relate to the performance of this Agreement. DEVELOPER agrees to maintain such records and accounts including all books, documents, papers, financial records and other evidences pertaining to work performed under this Agreement. Said records shall be made available at its office at all reasonable time during the term of this Agreement, and for three (3) years from the date of final payment under this Agreement, for audit or inspection by the COUNTY, or any of its duly authorized representatives, unless a shorter period is authorized by the COUNTY in writing.

Section 25. Equal Opportunity Employment. DEVELOPER agrees that it will not discriminate against any employee or applicant for employment for work under this Agreement because of race, color, religion, sex, age, national origin, or disability and will take affirmative steps to ensure that applicants are employed and employees are treated during employment without regard to race, color, religion, sex, age, national origin, or disability. This provision shall include, but not be limited to, the following: employment, upgrading, demotion or transfers; recruitment advertising; lay-off or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

Section 26. Claims for Services. No claim for services rendered by DEVELOPER not specifically provided for in this Agreement will be honored by the COUNTY.

Section 27. Severability. If any of the provisions contained in this Agreement are held for any reason to be invalid, illegally, or unenforceable, such a holding shall not affect any other provision, and this Agreement shall be construed as if such invalid, illegal, or unenforceable provision had never been contained herein.

Deleted: illegaly

Deleted: holdingshall

Section 28. Modifications or Amendments in Writing. No modification, amendment or alteration in terms or conditions contained herein shall be effective unless contained in a written document executed by the parties with the same formality as herein.

(a) Headings. The headings appearing in this Agreement are intended for convenience and reference only, and are not to be considered in construing this Agreement.

(b) Disclaimer of Joint Venture, Partnership and Agency. This Agreement shall not be interpreted or construed as creating an association, joint venture or partnership between COUNTY and DEVELOPER or Buyer or to impose any partnership obligation or liability upon such parties. Neither COUNTY nor DEVELOPER or Buyer shall have any right, power or authority to enter into any agreement or undertaking for, or act on behalf of, or to act as or be an agent or representative of, or to otherwise bind, another party.

(c) Governing Law. All questions with respect to the construction of this Agreement and the rights and liabilities of the parties hereunder shall be determined in accordance with the laws of the State of Florida. Venue shall be in Hernando COUNTY, Florida.

(d) Amendment to Agreement. The COUNTY and DEVELOPER agree that this Agreement sets forth the entire agreement between the parties, and that there are no promises or understandings other than those stated herein. None of the provisions, terms and conditions contained in this Agreement may be added to, deleted, modified, superseded or otherwise altered, except by written amendment executed by the parties hereto. Such amendment(s) are not valid, binding and enforceable unless signed by the Board of County Commissioners or by a COUNTY representative duly authorized by the Board of County Commissioners.

(e) Successors and Assigns. All of the terms and provisions of this Agreement shall be binding upon and shall inure to the benefit of and be enforceable by the parties hereto and their respective successors and permitted assigns.

(f) DEVELOPER Right to Utilization Facility Design. It is acknowledged that the DEVELOPER and Buyer have or will have expended considerable time and expense in developing the design for the LFG Utilization Facility and associated electrical transmission, steam or LFG transmission lines, and, therefore, could consider such design to be proprietary. The COUNTY agrees on behalf of itself and its agents and representatives to maintain the proprietary nature of the design by not constructing like facilities without the written approval of the DEVELOPER and Buyer.

(g) Remedies Not Exclusive. The remedies in this Agreement are not exclusive and supplement any other remedies provided at law or in equity.

(h) Order of Precedence. In resolving inconsistencies among (2) or more components of this Agreement, precedence shall be given in the following order:

(1) Agreement

(2) COUNTY's RFP Document
(3) DEVELOPER's Proposal

SIGNATURE BLOCK BEGINS ON PAGE 33

In Witness whereof, the parties hereto have made and executed this agreement on the day and year first written above.

TERMINATION OF LANDFILL GAS PURCHASE AGREEMENT AND NULLIFICATION OF WELLFIELD MAINTENANCE AGREEMENT

THIS TERMINATION OF LANDFILL GAS PURCHASE AGREEMENT AND WELLFIELD MAINTENANCE AGREEMENT (this "***Termination Agreement***"), is entered into and executed as of September ___, 2025 and shall be effective as of October 7, 2025 ("***Effective Date***"), by and between Hernando County, a political subdivision of the State of Florida (the "***County***") and Timberline Energy, LLC, a Delaware limited liability company ("***Developer***"). The County and Developer are sometimes referred to in this Agreement together as the "***Parties***" or, individually, as a "***Party***." Any capitalized term that is not expressly defined herein shall have the same meaning as defined in the Landfill Gas Purchase Agreement (as hereinafter defined).

WHEREAS, County and Developer entered into that certain Landfill Gas Purchase Agreement by and between the County and Developer dated March 27, 2007 (the "***Landfill Gas Purchase Agreement***"), pursuant to which the County collects and delivers LFG to Developer and Developer accepts such LFG and uses it as fuel to generate Beneficial End Use Products;

WHEREAS, pursuant to Section 2(b) of the Landfill Gas Purchase Agreement, the County also granted developer a license to the LFG Utilization Facility Site owned by the County at its Landfill, together with an access easement(s) on, over, under, across, and through the Landfill for the construction, installation, operation, and maintenance of the LFG Utilization Facility and Developer's equipment (the "***Site License***");

WHEREAS, the County and Developer acknowledge that Section 4(e) of the Landfill Gas Purchase Agreement references and claims to attach as an exhibit a "Wellfield Maintenance Agreement", and that the Wellfield Maintenance Agreement was not, in fact, attached as an exhibit. The County and Developer further acknowledge that neither Party has the original or a copy of a Wellfield Maintenance Agreement, nor have they exchanged any consideration nor performed any task pursuant to such any such Wellfield Maintenance Agreement that is not already provided for in the Landfill Gas Purchase Agreement. Both Parties further acknowledge that they have conducted themselves with regard to the Landfill Gas Purchase Agreement as if no Wellfield Maintenance Agreement existed or was entered into by the Parties, and that they have no independent recollection of such an agreement being entered into by the Parties.;

WHEREAS, the Parties hereto desire to terminate the Landfill Gas Purchase Agreement, and the Wellfield Agreement, subject to the terms and conditions of this Agreement;

WHEREAS, the Landfill Gas Purchase Agreement requires that Developer remove the LFG Utilization Facility and related equipment, and restore the LFG Utilization Facility Site. The County has requested to acquire certain equipment and that the concrete slab remain thereon, and Developer is willing to leave such equipment and concrete slabs in place and transfer to the County all of Developer's right, title and interest in and to such equipment;

WHEREAS, the Landfill Gas Purchase Agreement also granted Developer the exclusive right to claim and utilize any emission allowances and reduction credits associated with the LFG, including, without limitation carbon action reserve credits ("***CRTs***") under the Climate Action Reserve ("***CAR***") and in connection therewith, Developer has entered into that certain Carbon Credit Purchase and Sale Agreement (the "***CRT Agreement***") dated as of June 16, 2020, whereby Developer agrees to sell CRTs generated from the Hernando County Landfill Electric Generation project (CAR422) (the "***Project***") to a third party;

Docusign Envelope ID: 42BF64D1-7D99-4064-B76D-DA0EAAFC2695

WHEREAS, Developer has delivery obligations under the CRT Agreement that are contingent upon the generation and issuance of CRTs by CAR into Developer's CAR Project account for the reporting period from October 7, 2024 - October 6, 2025 ("***2025 Reporting Period***");

WHEREAS, in order to fulfill its obligations under the CRT Agreement, Developer must retain the exclusive right to generate CRTs associated with the Project until such CRTs are issued by CAR and remain the account holder of the Project in CAR's registry program;

WHEREAS, the County agrees that the Developer shall remain the account holder of the Project in CAR's registry program and retain the exclusive right to generate CRTs for the 2025 Reporting Period until such CRTs have been issued in accordance with the terms and conditions of this Termination Agreement;

NOW, THEREFORE, in consideration of the mutual agreements contained herein, the benefits received by the Parties as a result of the actions described herein, and such other consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. Termination of Landfill Gas Purchase Agreement; Nullification of Wellfield Maintenance Agreement; Removal of Developer's Equipment and Retention of Landfill Assets; Site Restoration; Mutual Release; and Indemnification.

(a) *Termination of Agreement*. Except as expressly set forth in Sections 1(b) - (e) below, the Landfill Gas Purchase Agreement is hereby terminated effective as of October 7, 2025 (the "***Termination Date***"), and from and after the Termination Date, the Landfill Gas Purchase Agreement shall have no further force or effect. The County and Developer agree that each of the parties' rights and obligations associated with the Agreement shall terminate on the Termination Date, and the Parties shall have no further obligations to each other with respect to the Agreement except as set forth herein.

(b) *Nullification of Wellfield Maintenance Agreement.* The reference to the Wellfield Maintenance Agreement in the Landfill Gas Purchase Agreement shall have no force or legal effect, and shall not be binding upon either Party as if the Landfill Gas Purchase Agreement never contained a reference to it, even if the original or a copy of the Wellfield Maintenance Agreement is discovered or produced at any time. Any such Wellfield Maintenance Agreement was null ab initio, and is and will be null in perpetuity.

(c) *Removal of Developer Equipment and Retention of Landfill Assets.* Notwithstanding Developer's obligations in Section 12 of the Landfill Gas Purchase Agreement to remove Developer's Equipment, the Parties agree that Developer shall only be required to remove the equipment and personal property listed on Exhibit A attached hereto from the LFG Utilization Facility Site ("***Retained Equipment***"). All other equipment, structures, and property, including, without limitation, the Switchgear Connex, Parts Storage Connex, the Office/Workshop Connex, the forklift (Model No. RT-706J, Serial No. 183597), the open concrete slabs, the exhaust stack, the radiator, import transformer, and certain repair parts for the County's Flare Station shall remain on the LFG Utilization Facility Site (collectively, the "***Landfill Assets***"). For abundance of clarity, a depiction of some of the Landfill Assets is appended as Exhibit B hereto. The Parties shall enter into a Bill of Sale to be effective as of the Termination Date (the "***Bill of Sale***"), whereby, Developer irrevocably conveys, sells, transfers, grants, assigns and delivers to the County all of Developer's right, title and interest in and to the Landfill Assets on an "AS IS, WHERE IS, WITH ALL FAULTS" CONDITION.

Docusign Envelope ID: 42BF64D1-7D99-4064-B76D-DA0EAAFC2695

(d) *Site Restoration.* Notwithstanding Developer's obligations in Section 12 and Section 13 of the Landfill Gas Purchase Agreement, the Parties agree that Developer shall have no further restoration obligation other than the removal of Developer's Retained Equipment as set forth in Section 1(c) hereof. Developer shall remove the Retained Equipment by December 7, 2025. Within five (5) business days of Developer removing all of the Retained Equipment from the LFG Utilization Facility Site, the County shall terminate letter of credit no. 04169983 ("***L/C***") issued by BNP Paribas by either (1) sending a cancellation letter on the County's letterhead and the original L/C by overnight carrier to BNP Paribas at the address set forth below, or (2) sending a cancellation letter on the County's letterhead and the original lost letter of credit affidavit appended hereto as Exhibit D by overnight carrier to BNP Paribas at the address set forth below:

BNP Paribas
c/o BNP Paribas RCC, Inc.
Newport Tower - Suite 188
525 Washington Blvd.
Jersey City, NJ 07310
Attn: Trade Finance Services

The County agrees to also send a copy of the cancellation letter via email to dl.nytfstandby@us.bnpparibas.com and the Developer, which shall include the tracking information for the original documentation.

(e) *Emission Credits*. Notwithstanding Section 1(a) hereof, the Parties agree that Developer shall have the exclusive right to claim and utilize any emission allowances and reduction credits that may be associated with the LFG for the 2025 Reporting Period. The County agrees to cooperate with and provide reasonable assistance to Developer to generate the 2024 – 2025 CRTs, including, without limitation, providing affidavits, attestations, landfill waste and operational data, any changes to the County's Title V Permit, Tier 2, or collection system, site access for Developer and its third-party verifier, disclosure of any regulatory violations and routine inspections, and such other information as may be required by CAR or the third-party verifier. Within five (5) business days of CAR issuing the 2024 – 2025 CRTs into Developer's account, Developer shall deliver notice thereof to the County (such notice date, the "***Emission Credit Termination Date***"). The Parties agree that as of the Emission Credit Termination Date, the County shall be entitled to the right to claim and utilize any emission allowances and reduction credits that may be associated with the LFG, including, without limitation, any CRTs which may be generated by the Project after the Effective Date or earned for the 2025 – 2026 reporting period (i.e., after the 2025 Reporting Period). Upon notice of the Emission Credit Termination Date, the Parties agree that within ten (10) business days: (i) the County shall create an account within CAR, (ii) the Parties shall execute and the County shall submit to CAR the executed Account Holder Project Transfer Form, substantially in the form attached hereto as Exhibit C, and (iii) the County shall pay any fees or expenses in connection with the creation of its account and/or submittal of the project transfer. The Parties shall execute and deliver such additional documents, instruments, conveyances and assurances and take such further actions as may be reasonably required to carry out the provisions of this Section 1(e) and give effect to the transactions contemplated by this Section.

(f) *Mutual Release*. Effective upon the Termination Date, each of the County and Developer, on behalf of itself and its past, present, or future owners, successors, heirs, beneficiaries, executors, administrators, principals, assigns, agents, directors, officers, members, managers, trustees, servants, affiliates or affiliated companies, subsidiaries, predecessors, employees, board members, and all other related agents, entities, or companies (collectively, the "***Releasing Parties***"), hereby unconditionally and

Docusign Envelope ID: 42BF64D1-7D99-4064-B76D-DA0EAAFC2695

irrevocably forever release and discharge for good cause and valuable consideration described herein the other Party and its past, present, or future owners, successors, heirs, beneficiaries, executors, administrators, principals, assigns, agents, directors, officers, members, managers, trustees, servants, affiliates or affiliated companies, subsidiaries, predecessors, employees, board members, and all other related agents, entities, or companies (collectively, the "***Released Parties***"), from, and unconditionally and irrevocably waives, any and all claims, debts, liabilities, losses and causes of action of any kind or nature, whether known or unknown, suspected or unsuspected, at law or in equity, that any Releasing Party ever had, now has or ever may have or claim to have against any Released Party for or by reason of any matter, circumstances, event, action, inaction, omission or thing whatsoever to the extent relating to, arising from, or otherwise in connection with (1) the Project, the LFG Utilization Facility, Developer's presence on the LFG Utilization Facility Site, the Agreements, including, without limitation, and all terms, conditions, obligations, responsibilities where expressly stated that they will survive the termination or expiration of the Agreement, and any restoration and remediation efforts with respect to the LFG Utilization Facility Site, (2) that certain letter dated February 18, 2025 to Developer titled "Notice of Default and Opportunity to Remedy" from the County, and (3) the Landfill Assets, and each of the Parties shall not, and shall cause each other Releasing Party not to, seek to recover any amounts in connection therewith from any Released Party; provided that the foregoing release shall not apply to any rights, obligations or claims of any Released Party to a Releasing Party arising under this Termination Agreement.

(g) *Indemnification*. TO THE EXTENT PERMITTED BY FLORIDA LAW, EACH PARTY ("INDEMNIFYING PARTY") HEREBY AGREES TO INDEMNIFY, PROTECT, DEFEND, SAVE AND HOLD HARMLESS THE OTHER PARTY ("INDEMNIFIED PARTY") AND ITS PAST, PRESENT, OR FUTURE OWNERS, SUCCESSORS, HEIRS, BENEFICIARIES, EXECUTORS, ADMINISTRATORS, PRINCIPALS, ASSIGNS, AGENTS, DIRECTORS, OFFICERS, MEMBERS, MANAGERS, TRUSTEES, SERVANTS, AFFILIATES OR AFFILIATED COMPANIES, SUBSIDIARIES, PREDECESSORS, EMPLOYEES, BOARD MEMBERS, AND ALL OTHER RELATED AGENTS, ENTITIES, OR COMPANIES FROM AND AGAINST ANY AND ALL DEBTS, DUTIES, OBLIGATIONS, LIABILITIES, SUITS, CLAIMS, DEMANDS, CAUSES OF ACTION, DAMAGES, LOSSES, FEES AND EXPENSES (INCLUDING, WITHOUT LIMITATION, ATTORNEYS' FEES AND EXPENSES AND COURT COSTS) BY THE INDEMNIFYING PARTY OR ANY THIRD PARTY THAT ARISE FROM OR ARE IN RELATION TO THE INDEMNIFYING PARTY'S OBLIGATIONS UNDER OR BREACH OF SECTIONS 1(b) - (f) HEREOF.

2. Governing Law. This Termination Agreement shall be governed by the internal law of the State of Florida, without regard to conflict of law principles that would result in the application of any law other than the law of the State of Florida.

3. Notices. All notices, requests, consents, and other communications under this Termination Agreement shall be in writing and shall be deemed to have been given (a) when delivered by hand (with written confirmation of receipt); (b) when received by the addressee if sent by a nationally recognized overnight courier (receipt requested); (c) on the date sent by e-mail (with confirmation of transmission) if sent during normal business hours of the recipient, and on the next business day if sent after normal business hours of the recipient, or (d) on the third (3^{rd}) day after the date mailed, by certified or registered mail, return receipt requested, postage prepaid. Such communications must be sent to the respective Parties at the following addresses and shall be sent concurrently by email to the designated email addresses of the receiving Party:

4. Counterparts. This Termination Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. Counterparts may be delivered via electronic mail (including pdf or any electronic signature complying with the U.S. federal ESIGN Act of 2000, e.g., www.docusign.com) or other transmission method and any counterpart so delivered shall be deemed to have been duly and validly delivered and be valid and effective for all purposes.

5. Titles and Subtitles. The titles and subtitles used in this Termination Agreement are used for convenience only and are not to be considered in construing or interpreting this Termination Agreement.

6. Severability. The invalidity or unenforceability of any provision hereof shall in no way affect the validity or enforceability of any other provision.

7. Entire Agreement. This Termination Agreement constitutes the full and entire understanding and agreement between the Parties with respect to the subject matter hereof, and any other written or oral agreement relating to the subject matter hereof existing between the Parties is expressly canceled.

8. Further Assurances. At any time or from time to time after the date hereof, the Parties agree to cooperate with each other, and at the request of the other Party to execute and deliver any further instruments, documents or items and to take all such further actions as the other Party may reasonably request in order to carry out the intent of the Parties hereunder.

Docusign Envelope ID: 42BF64D1-7D99-4064-B76D-DA0EAAFC2695

9. Successors. The terms and conditions of this Termination Agreement shall inure to the benefit of and be binding upon the respective successors and assigns of the Parties. Nothing in this Termination Agreement, express or implied, is intended to confer upon any party other than the Parties or their respective successors and assigns any rights, remedies, obligations or liabilities under or by reason of this Termination Agreement, except as expressly provided in this Termination Agreement.

10. Expenses. Each Party will bear its own costs and expenses (including attorneys' fees and expenses) incurred in connection with the preparation and negotiation of this Termination Agreement and the consummation of the transactions contemplated hereby, including but not limited to payment of their respective advisors and relevant corporate and securities counsel.

Account Holder Project Transfer Form

(Attached)

Docusign Envelope ID: 42BF64D1-7D99-4064-B76D-DA0EAAFC2695

Account Holder Project Transfer Form

This Account Holder Project Transfer Form ("Transfer") is entered into this [ ] day of [ ], 20[ ] by the following parties:

PROJECT DEVELOPER TRANSFEROR: [Timberline Energy, LLC] ("Transferor")

PROJECT DEVELOPER TRANSFEREE: [Hernando County] ("Transferee"), in regards to:

Project Name: [Hernando County Landfill Electric Generation] (referred to as the "Project").

Project Number (e.g. CAR###): [CAR422]

Project Location (physical address): [14436 Landfill Road, Brooksville, FL 34614]

Project Type: [Landfill Gas Capture/Combustion]

WHEREAS, the Transferor is an Account Holder and Project Developer in the Climate Action Reserve's registry program (the "Program"), an electronic system to serialize, transfer, track, and report carbon dioxide-equivalent emission reductions and Climate Reserve Tonnes ("CRTs") as defined in the Climate Action Reserve Program Manual available at http://www.climateactionreserve.org/how-it-works/program/program-manual/;

WHEREAS, the Transferee is an Account Holder in the Program of the Reserve.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereby agree that Transferor transfers the Project to Transferee as follows:

1. The Transferor and Transferee acknowledge that the Project remains otherwise unchanged, except in relation to the transfer of title to emissions reductions and the management of the project from Transferor to Transferee .

2. The Transferor and Transferee understand and hereby acknowledge that this transfer is on a going-forward basis only with respect to unissued CRTs. Any previously registered CRTs that were registered under Transferor's account will not be transferred along with the Project. Any transfers of previously registered CRTs between account holders must occur via the Reserve program per guidance in the External Operating procedures, and are contingent upon full payment of all CRT issuance and transfer fees.

3. The Transferor and Transferee understand and hereby acknowledge that after the Project transfer has been approved by the Reserve and the Project is transferred to the Transferee, any CRTs that are registered to the Project after the Project is transferred will be deposited in Transferee's account, contingent upon full payment of all CRT issuance fees, and shall be the property of Transferee.

4. The Transferor and Transferee understand and hereby acknowledge that this Agreement is not a guarantee or pre-authorization of CRTs, and that CRTs will only be issued consistent with the Reserve's project protocols and practices.

Docusign Envelope ID: 42BF64D1-7D99-4064-B76D-DA0EAAFC2695

5. Parties attest that for previously registered projects, this project transfer complies with all applicable laws and Reserve protocol requirements, and is consistent with any restrictions on the associated Project property.

6. While this Agreement satisfies the Reserve's requirements for transferring the above project, all parties understand and accept that this Agreement is unrelated to the requirements of the California Air Resources Board's regulations. The Reserve makes no warranty in this regard. (See Sections 95801 to 96022 of the California Code of Regulations for details of the State's cap-and-trade program.)

7. The Transferor and Transferee understand and hereby acknowledge that after the project transfer has been accepted by the Reserve and the project is officially transferred in the program, a new Conflict of Interest evaluation (including submittal of a new NOVA/COI form) must be completed for Transferee, with respect to (but not limited to) potential verification bodies and any additional consulting staff hired by Transferee.

8. This form is a document of the Climate Action Reserve, not a contract for services between transferor and transferee. It is the Reserve's expectation that Transferor and Transferee develop and execute appropriate external legal contracts to fully define their business relationship. The Transferee and Transferor understand and hereby acknowledge and agree to indemnify, hold harmless, and defend, using counsel appointed by the Reserve (collectively, "Indemnify"), the Reserve and its directors, officers, employees, agents, contractors and representatives (the "Indemnified Parties") from and against all damages, liabilities, penalties, costs, losses, expenses, causes of action, claims, demands, or judgments, including without limitation, reasonable attorneys' fees and legal costs (collectively, "Damages"), arising from or in any way connected to any claim by any individual, partnership, firm, association, corporation, limited liability company, trust and any other form of governmental or business entity ("Person") in connection with any of the following: the transfer of this project, the sale of property or services or any future CRTs that may be issued in connection with the above project.

I declare that all statements contained herein are true and correct, to the best of my knowledge, and are made with full knowledge that the Reserve and all users of the Program rely upon the truth of the statements contained in this Project Transfer Attestation Form. I am duly authorized to make this declaration on behalf of my organization.

Exhibit D

Lost Letter of Credit Affidavit Form

CERTIFICATE REGARDING LOST LETTER OF CREDIT

The undersigned, Hernando County ("County"), hereby represents, warrants and certifies to BNP Paribas, in its capacity as issuer of [Irrevocable Letter of Credit No. 04169983 (the "Letter of Credit") that:

1. The County received the original Letter of Credit and the County is the sole beneficiary of the Letter of Credit.

2. The County has caused a diligent search of its files and vault in order to locate the original Letter of Credit and the original Letter of Credit has not been found. The original Letter of Credit has been inadvertently lost, misplaced or destroyed.

3. The County has taken no action to give or pledge, sell, assign, transfer, hypothecate, deposit, endorse in blank or otherwise or in any other manner dispose of the Letter of Credit or any interest therein to any person, firm or corporation, nor has any record or correspondence been found which indicates that the County has entrusted the possession of the Letter of Credit to any person, firm or corporation for safekeeping or for any other purpose.

4. No person, firm, corporation, court or government agency, has, or has asserted, any right, title, claim, interest in, to, or respecting the Letter of Credit or the proceeds thereof.

5. This certificate is made for the purpose of inducing BNP Paribas to cancel the Letter of Credit and, in consideration of same, the County hereby indemnifies and holds BNP Paribas, and its successors and assigns (collectively, the "Indemnified Parties"), harmless from and against any claim, liability, loss, damage and expense, including legal fees and disbursements, suffered or incurred in connection with, or arising out of the loss and/or the subsequent presentation of the original Letter of Credit and for any misrepresentation made hereunder.

6. The County hereby agrees that if the original Letter of Credit is subsequently found by the County or comes into the County's possession, the County will immediately surrender the original Letter of Credit to BNP Paribas for cancellation.

Bill of Sale

1. This Bill of Sale is entered into and executed as of September ___, 2025, and shall be effective as of October 7, 2025 (the "***Effective Date***"), by TIMBERLINE ENERGY, LLC, a Delaware limited liability company ("**Seller**"), in favor of Hernando County ("**Buyer**").

2. Conveyance. For good and valuable consideration as set forth in the Termination of Landfill Gas Purchase Agreement and Wellfield Maintenance Agreement dated as of even date herewith between the Parties (the "**Agreement**"), the receipt and adequacy of which Seller hereby acknowledges, Seller hereby irrevocably sells, assigns, transfers, conveys, grants, bargains, and delivers to Buyer, all of its right, title and interest in and to the assets listed in EXHIBIT A attached to and made a part of this Bill of Sale ("**Landfill Assets**"). For abundance of clarity, the Landfill Assets are depicted on EXHIBIT B which is attached hereto and made a part of this Bill of Sale. Any capitalized term that is not expressly defined herein shall have the same meaning as defined in the Agreement.

3. Disclaimer of Warranties. BUYER ACKNOWLEDGES THAT IT HAS BEEN GIVEN THE OPPORTUNITY TO INSPECT THE ASSETS BUYER HEREBY ACCEPTS THE ASSETS ON AN "AS-IS", "WHERE-IS", "WITH ALL FAULTS" BASIS. SELLER MAKES NO REPRESENTATION OR WARRANTY WHATSOEVER WITH RESPECT TO THE ASSETS, AND SELLER HEREBY EXPLICITY DISCLAIMS ALL WARRANTIES, WHETHER EXPRESS OR IMPLIED WITH RESPECT TO THE ASSETS, INCLUDING, BUT WITHOUT LIMITATION, ANY (a) WARRANTY OF MERCHANTABILITY; (b) WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE; (c) WARRANTY OF TITLE; OR (d) WARRANTY AGAINST INFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS OF A THIRD PARTY; WHETHER ARISING BY LAW, COURSE OF DEALING, COURSE OF PERFORMANCE, USAGE OF TRADE OR OTHERWISE. BY ACCEPTING THIS BILL OF SALE, BUYER ACKNOWLEDGES THAT IT HAS NOT RELIED ON ANY REPRESENTATION OR WARRANTY MADE BY SELLER, OR ANY OTHER PERSON ON SELLER'S BEHALF.

4. Release of Claims. In consideration of Seller's conveyance of the Landfill Assets, Buyer, for itself and its affiliates, directors and officers, employees, agents, successors and assigns hereby releases, remises and forever discharges Seller, its directors, officers, members, managers, partners, employees, agents, affiliates, successors and assigns of and from any and all claims, liabilities, damages, demands, rights and causes of action, of whatsoever kind or nature, whether known or unknown, relating to or arising out of the Landfill Assets or this Bill of Sale.

5. Governing Law. This Bill of Sale is governed by, and construed in accordance with, the laws of the State of Florida, United States of America, without regard to the conflict of laws provisions thereof to the extent such principles or rules would require or permit the application of the laws of any jurisdiction other than those of the State of Florida.

6. Entire Agreement. This Bill of Sale and the Agreement constitutes the entire understanding and agreement between the Buyer and Seller with respect to its subject matter and supersedes all previous communications, both oral and written, representations and understandings between the parties with respect to the subject matter of this Bill of Sale.

7. No Amendment. No amendment or modification of this Bill of Sale shall be valid or binding on the parties hereto unless made in writing and signed on behalf of each of the Buyer and Seller.

Docusign Envelope ID: 42BF64D1-7D99-4064-B76D-DA0EAAFC2695

8. Counterparts. This Bill of Sale may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed to be one and the same agreement. A signed copy of this Bill of Sale delivered by e-mail, or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this Bill of Sale.

TERMINATION OF LANDFILL GAS PURCHASE AGREEMENT AND NULLIFICATION OF WELLFIELD MAINTENANCE AGREEMENT

THIS TERMINATION OF LANDFILL GAS PURCHASE AGREEMENT AND WELLFIELD MAINTENANCE AGREEMENT (this "***Termination Agreement***"), is entered into and executed as of September 9th, 2025 and shall be effective as of October 7, 2025 ("***Effective Date***"), by and between Hernando County, a political subdivision of the State of Florida (the "***County***") and Timberline Energy, LLC, a Delaware limited liability company ("***Developer***"). The County and Developer are sometimes referred to in this Agreement together as the "***Parties***" or, individually, as a "***Party***." Any capitalized term that is not expressly defined herein shall have the same meaning as defined in the Landfill Gas Purchase Agreement (as hereinafter defined).

WHEREAS, County and Developer entered into that certain Landfill Gas Purchase Agreement by and between the County and Developer dated March 27, 2007 (the "***Landfill Gas Purchase Agreement***"), pursuant to which the County collects and delivers LFG to Developer and Developer accepts such LFG and uses it as fuel to generate Beneficial End Use Products;

WHEREAS, pursuant to Section 2(b) of the Landfill Gas Purchase Agreement, the County also granted developer a license to the LFG Utilization Facility Site owned by the County at its Landfill, together with an access easement(s) on, over, under, across, and through the Landfill for the construction, installation, operation, and maintenance of the LFG Utilization Facility and Developer's equipment (the "***Site License***");

WHEREAS, the County and Developer acknowledge that Section 4(e) of the Landfill Gas Purchase Agreement references and claims to attach as an exhibit a "Wellfield Maintenance Agreement", and that the Wellfield Maintenance Agreement was not, in fact, attached as an exhibit. The County and Developer further acknowledge that neither Party has the original or a copy of a Wellfield Maintenance Agreement, nor have they exchanged any consideration nor performed any task pursuant to such any such Wellfield Maintenance Agreement that is not already provided for in the Landfill Gas Purchase Agreement. Both Parties further acknowledge that they have conducted themselves with regard to the Landfill Gas Purchase Agreement as if no Wellfield Maintenance Agreement existed or was entered into by the Parties, and that they have no independent recollection of such an agreement being entered into by the Parties.;

WHEREAS, the Parties hereto desire to terminate the Landfill Gas Purchase Agreement, and the Wellfield Agreement, subject to the terms and conditions of this Agreement;

WHEREAS, the Landfill Gas Purchase Agreement requires that Developer remove the LFG Utilization Facility and related equipment, and restore the LFG Utilization Facility Site. The County has requested to acquire certain equipment and that the concrete slab remain thereon, and Developer is willing to leave such equipment and concrete slabs in place and transfer to the County all of Developer's right, title and interest in and to such equipment;

WHEREAS, the Landfill Gas Purchase Agreement also granted Developer the exclusive right to claim and utilize any emission allowances and reduction credits associated with the LFG, including, without limitation carbon action reserve credits ("***CRTs***") under the Climate Action Reserve ("***CAR***") and in connection therewith, Developer has entered into that certain Carbon Credit Purchase and Sale Agreement (the "***CRT Agreement***") dated as of June 16, 2020, whereby Developer agrees to sell CRTs generated from the Hernando County Landfill Electric Generation project (CAR422) (the "***Project***") to a third party;

WHEREAS, Developer has delivery obligations under the CRT Agreement that are contingent upon the generation and issuance of CRTs by CAR into Developer's CAR Project account for the reporting period from October 7, 2024 - October 6, 2025 ("***2025 Reporting Period***");

WHEREAS, in order to fulfill its obligations under the CRT Agreement, Developer must retain the exclusive right to generate CRTs associated with the Project until such CRTs are issued by CAR and remain the account holder of the Project in CAR's registry program;

WHEREAS, the County agrees that the Developer shall remain the account holder of the Project in CAR's registry program and retain the exclusive right to generate CRTs for the 2025 Reporting Period until such CRTs have been issued in accordance with the terms and conditions of this Termination Agreement;

NOW, THEREFORE, in consideration of the mutual agreements contained herein, the benefits received by the Parties as a result of the actions described herein, and such other consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. Termination of Landfill Gas Purchase Agreement; Nullification of Wellfield Maintenance Agreement; Removal of Developer's Equipment and Retention of Landfill Assets; Site Restoration; Mutual Release; and Indemnification.

(a) *Termination of Agreement*. Except as expressly set forth in Sections 1(b) - (e) below, the Landfill Gas Purchase Agreement is hereby terminated effective as of October 7, 2025 (the "***Termination Date***"), and from and after the Termination Date, the Landfill Gas Purchase Agreement shall have no further force or effect. The County and Developer agree that each of the parties' rights and obligations associated with the Agreement shall terminate on the Termination Date, and the Parties shall have no further obligations to each other with respect to the Agreement except as set forth herein.

(b) *Nullification of Wellfield Maintenance Agreement.* The reference to the Wellfield Maintenance Agreement in the Landfill Gas Purchase Agreement shall have no force or legal effect, and shall not be binding upon either Party as if the Landfill Gas Purchase Agreement never contained a reference to it, even if the original or a copy of the Wellfield Maintenance Agreement is discovered or produced at any time. Any such Wellfield Maintenance Agreement was null ab initio, and is and will be null in perpetuity.

(c) *Removal of Developer Equipment and Retention of Landfill Assets.* Notwithstanding Developer's obligations in Section 12 of the Landfill Gas Purchase Agreement to remove Developer's Equipment, the Parties agree that Developer shall only be required to remove the equipment and personal property listed on Exhibit A attached hereto from the LFG Utilization Facility Site ("***Retained Equipment***"). All other equipment, structures, and property, including, without limitation, the Switchgear Connex, Parts Storage Connex, the Office/Workshop Connex, the forklift (Model No. RT-706J, Serial No. 183597), the open concrete slabs, the exhaust stack, the radiator, import transformer, and certain repair parts for the County's Flare Station shall remain on the LFG Utilization Facility Site (collectively, the "***Landfill Assets***"). For abundance of clarity, a depiction of some of the Landfill Assets is appended as Exhibit B hereto. The Parties shall enter into a Bill of Sale to be effective as of the Termination Date (the "***Bill of Sale***"), whereby, Developer irrevocably conveys, sells, transfers, grants, assigns and delivers to the County all of Developer's right, title and interest in and to the Landfill Assets on an "AS IS, WHERE IS, WITH ALL FAULTS" CONDITION.

Docusign Envelope ID: 42BF64D1-7D99-4064-B76D-DA0EAAFC2695

(d) *Site Restoration.* Notwithstanding Developer's obligations in Section 12 and Section 13 of the Landfill Gas Purchase Agreement, the Parties agree that Developer shall have no further restoration obligation other than the removal of Developer's Retained Equipment as set forth in Section 1(c) hereof. Developer shall remove the Retained Equipment by December 7, 2025. Within five (5) business days of Developer removing all of the Retained Equipment from the LFG Utilization Facility Site, the County shall terminate letter of credit no. 04169983 ("***L/C***") issued by BNP Paribas by either (1) sending a cancellation letter on the County's letterhead and the original L/C by overnight carrier to BNP Paribas at the address set forth below, or (2) sending a cancellation letter on the County's letterhead and the original lost letter of credit affidavit appended hereto as Exhibit D by overnight carrier to BNP Paribas at the address set forth below:

BNP Paribas
c/o BNP Paribas RCC, Inc.
Newport Tower - Suite 188
525 Washington Blvd.
Jersey City, NJ 07310
Attn: Trade Finance Services

The County agrees to also send a copy of the cancellation letter via email to dl.nytfstandby@us.bnpparibas.com and the Developer, which shall include the tracking information for the original documentation.

(e) *Emission Credits.* Notwithstanding Section 1(a) hereof, the Parties agree that Developer shall have the exclusive right to claim and utilize any emission allowances and reduction credits that may be associated with the LFG for the 2025 Reporting Period. The County agrees to cooperate with and provide reasonable assistance to Developer to generate the 2024 – 2025 CRTs, including, without limitation, providing affidavits, attestations, landfill waste and operational data, any changes to the County's Title V Permit, Tier 2, or collection system, site access for Developer and its third-party verifier, disclosure of any regulatory violations and routine inspections, and such other information as may be required by CAR or the third-party verifier. Within five (5) business days of CAR issuing the 2024 – 2025 CRTs into Developer's account, Developer shall deliver notice thereof to the County (such notice date, the "***Emission Credit Termination Date***"). The Parties agree that as of the Emission Credit Termination Date, the County shall be entitled to the right to claim and utilize any emission allowances and reduction credits that may be associated with the LFG, including, without limitation, any CRTs which may be generated by the Project after the Effective Date or earned for the 2025 – 2026 reporting period (i.e., after the 2025 Reporting Period). Upon notice of the Emission Credit Termination Date, the Parties agree that within ten (10) business days: (i) the County shall create an account within CAR, (ii) the Parties shall execute and the County shall submit to CAR the executed Account Holder Project Transfer Form, substantially in the form attached hereto as Exhibit C, and (iii) the County shall pay any fees or expenses in connection with the creation of its account and/or submittal of the project transfer. The Parties shall execute and deliver such additional documents, instruments, conveyances and assurances and take such further actions as may be reasonably required to carry out the provisions of this Section 1(e) and give effect to the transactions contemplated by this Section.

(f) *Mutual Release.* Effective upon the Termination Date, each of the County and Developer, on behalf of itself and its past, present, or future owners, successors, heirs, beneficiaries, executors, administrators, principals, assigns, agents, directors, officers, members, managers, trustees, servants, affiliates or affiliated companies, subsidiaries, predecessors, employees, board members, and all other related agents, entities, or companies (collectively, the "***Releasing Parties***"), hereby unconditionally and

Docusign Envelope ID: 42BF64D1-7D99-4064-B76D-DA0EAAFC2695

irrevocably forever release and discharge for good cause and valuable consideration described herein the other Party and its past, present, or future owners, successors, heirs, beneficiaries, executors, administrators, principals, assigns, agents, directors, officers, members, managers, trustees, servants, affiliates or affiliated companies, subsidiaries, predecessors, employees, board members, and all other related agents, entities, or companies (collectively, the "***Released Parties***"), from, and unconditionally and irrevocably waives, any and all claims, debts, liabilities, losses and causes of action of any kind or nature, whether known or unknown, suspected or unsuspected, at law or in equity, that any Releasing Party ever had, now has or ever may have or claim to have against any Released Party for or by reason of any matter, circumstances, event, action, inaction, omission or thing whatsoever to the extent relating to, arising from, or otherwise in connection with (1) the Project, the LFG Utilization Facility, Developer's presence on the LFG Utilization Facility Site, the Agreements, including, without limitation, and all terms, conditions, obligations, responsibilities where expressly stated that they will survive the termination or expiration of the Agreement, and any restoration and remediation efforts with respect to the LFG Utilization Facility Site, (2) that certain letter dated February 18, 2025 to Developer titled "Notice of Default and Opportunity to Remedy" from the County, and (3) the Landfill Assets, and each of the Parties shall not, and shall cause each other Releasing Party not to, seek to recover any amounts in connection therewith from any Released Party; provided that the foregoing release shall not apply to any rights, obligations or claims of any Released Party to a Releasing Party arising under this Termination Agreement.

(g) *Indemnification*. TO THE EXTENT PERMITTED BY FLORIDA LAW, EACH PARTY ("INDEMNIFYING PARTY") HEREBY AGREES TO INDEMNIFY, PROTECT, DEFEND, SAVE AND HOLD HARMLESS THE OTHER PARTY ("INDEMNIFIED PARTY") AND ITS PAST, PRESENT, OR FUTURE OWNERS, SUCCESSORS, HEIRS, BENEFICIARIES, EXECUTORS, ADMINISTRATORS, PRINCIPALS, ASSIGNS, AGENTS, DIRECTORS, OFFICERS, MEMBERS, MANAGERS, TRUSTEES, SERVANTS, AFFILIATES OR AFFILIATED COMPANIES, SUBSIDIARIES, PREDECESSORS, EMPLOYEES, BOARD MEMBERS, AND ALL OTHER RELATED AGENTS, ENTITIES, OR COMPANIES FROM AND AGAINST ANY AND ALL DEBTS, DUTIES, OBLIGATIONS, LIABILITIES, SUITS, CLAIMS, DEMANDS, CAUSES OF ACTION, DAMAGES, LOSSES, FEES AND EXPENSES (INCLUDING, WITHOUT LIMITATION, ATTORNEYS' FEES AND EXPENSES AND COURT COSTS) BY THE INDEMNIFYING PARTY OR ANY THIRD PARTY THAT ARISE FROM OR ARE IN RELATION TO THE INDEMNIFYING PARTY'S OBLIGATIONS UNDER OR BREACH OF SECTIONS 1(b) - (f) HEREOF.

2. Governing Law. This Termination Agreement shall be governed by the internal law of the State of Florida, without regard to conflict of law principles that would result in the application of any law other than the law of the State of Florida.

3. Notices. All notices, requests, consents, and other communications under this Termination Agreement shall be in writing and shall be deemed to have been given (a) when delivered by hand (with written confirmation of receipt); (b) when received by the addressee if sent by a nationally recognized overnight courier (receipt requested); (c) on the date sent by e-mail (with confirmation of transmission) if sent during normal business hours of the recipient, and on the next business day if sent after normal business hours of the recipient, or (d) on the third (3rd) day after the date mailed, by certified or registered mail, return receipt requested, postage prepaid. Such communications must be sent to the respective Parties at the following addresses and shall be sent concurrently by email to the designated email addresses of the receiving Party:

If to Seller:	Hernando County Board of County Commissioners 15470 Flight Path Drive Brooksville, FL 34604 Attention: Scott Harper Email: Sharper@co.hernando.fl.us
with a copy to: (which shall not constitute notice)	Melissa A. Tartaglia, Esq., mtartaglia@co.hernando.fl.us and phare@co.hernando.fl.us
If to Buyer:	Timberline Energy, LLC c/o Archaea Energy 201 Helios Way, Floor 6 Houston, TX 77079 Attention: Guy Chapman and Ben Burke Email: gchapman@archaea.energy and bburke@archaea.energy
with a copy to: (which shall not constitute notice)	Timberline Energy, LLC c/o Archaea Energy 201 Helios Way, Floor 6 Houston, TX 77079 Attention: Legal Email: legal@archaea.energy

4. Counterparts. This Termination Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. Counterparts may be delivered via electronic mail (including pdf or any electronic signature complying with the U.S. federal ESIGN Act of 2000, e.g., www.docusign.com) or other transmission method and any counterpart so delivered shall be deemed to have been duly and validly delivered and be valid and effective for all purposes.

5. Titles and Subtitles. The titles and subtitles used in this Termination Agreement are used for convenience only and are not to be considered in construing or interpreting this Termination Agreement.

6. Severability. The invalidity or unenforceability of any provision hereof shall in no way affect the validity or enforceability of any other provision.

7. Entire Agreement. This Termination Agreement constitutes the full and entire understanding and agreement between the Parties with respect to the subject matter hereof, and any other written or oral agreement relating to the subject matter hereof existing between the Parties is expressly canceled.

8. Further Assurances. At any time or from time to time after the date hereof, the Parties agree to cooperate with each other, and at the request of the other Party to execute and deliver any further instruments, documents or items and to take all such further actions as the other Party may reasonably request in order to carry out the intent of the Parties hereunder.

Docusign Envelope ID: 42BF64D1-7D99-4064-B76D-DA0EAAFC2695

9. Successors. The terms and conditions of this Termination Agreement shall inure to the benefit of and be binding upon the respective successors and assigns of the Parties. Nothing in this Termination Agreement, express or implied, is intended to confer upon any party other than the Parties or their respective successors and assigns any rights, remedies, obligations or liabilities under or by reason of this Termination Agreement, except as expressly provided in this Termination Agreement.

10. Expenses. Each Party will bear its own costs and expenses (including attorneys' fees and expenses) incurred in connection with the preparation and negotiation of this Termination Agreement and the consummation of the transactions contemplated hereby, including but not limited to payment of their respective advisors and relevant corporate and securities counsel.

County Attorney's Office

Docusign Envelope ID: 42BF64D1-7D99-4064-B76D-DA0EAAFC2695

Account Holder Project Transfer Form

This Account Holder Project Transfer Form ("Transfer") is entered into this [ ] day of [ ], 20[ ] by the following parties:

PROJECT DEVELOPER TRANSFEROR: Timberline Energy, LLC ("Transferor")

PROJECT DEVELOPER TRANSFEREE: Hernando County ("Transferee"), in regards to:

Project Name: Hernando County Landfill Electric Generation (referred to as the "Project").

Project Number (e.g. CAR###): CAR422

Project Location (physical address): 14436 Landfill Road, Brooksville, FL 34614

Project Type: Landfill Gas Capture/Combustion

WHEREAS, the Transferor is an Account Holder and Project Developer in the Climate Action Reserve's registry program (the "Program"), an electronic system to serialize, transfer, track, and report carbon dioxide-equivalent emission reductions and Climate Reserve Tonnes ("CRTs") as defined in the Climate Action Reserve Program Manual available at http://www.climateactionreserve.org/how-it-works/program/program-manual/;

WHEREAS, the Transferee is an Account Holder in the Program of the Reserve.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereby agree that Transferor transfers the Project to Transferee as follows:

1. The Transferor and Transferee acknowledge that the Project remains otherwise unchanged, except in relation to the transfer of title to emissions reductions and the management of the project from Transferor to Transferee .

2. The Transferor and Transferee understand and hereby acknowledge that this transfer is on a going-forward basis only with respect to unissued CRTs. Any previously registered CRTs that were registered under Transferor's account will not be transferred along with the Project. Any transfers of previously registered CRTs between account holders must occur via the Reserve program per guidance in the External Operating procedures, and are contingent upon full payment of all CRT issuance and transfer fees.

3. The Transferor and Transferee understand and hereby acknowledge that after the Project transfer has been approved by the Reserve and the Project is transferred to the Transferee, any CRTs that are registered to the Project after the Project is transferred will be deposited in Transferee's account, contingent upon full payment of all CRT issuance fees, and shall be the property of Transferee.

4. The Transferor and Transferee understand and hereby acknowledge that this Agreement is not a guarantee or pre-authorization of CRTs, and that CRTs will only be issued consistent with the Reserve's project protocols and practices.

Docusign Envelope ID: 42BF64D1-7D99-4064-B76D-DA0EAAFC2695

5. Parties attest that for previously registered projects, this project transfer complies with all applicable laws and Reserve protocol requirements, and is consistent with any restrictions on the associated Project property.

6. While this Agreement satisfies the Reserve's requirements for transferring the above project, all parties understand and accept that this Agreement is unrelated to the requirements of the California Air Resources Board's regulations. The Reserve makes no warranty in this regard. (See Sections 95801 to 96022 of the California Code of Regulations for details of the State's cap-and-trade program.)

7. The Transferor and Transferee understand and hereby acknowledge that after the project transfer has been accepted by the Reserve and the project is officially transferred in the program, a new Conflict of Interest evaluation (including submittal of a new NOVA/COI form) must be completed for Transferee, with respect to (but not limited to) potential verification bodies and any additional consulting staff hired by Transferee.

8. This form is a document of the Climate Action Reserve, not a contract for services between transferor and transferee. It is the Reserve's expectation that Transferor and Transferee develop and execute appropriate external legal contracts to fully define their business relationship. The Transferee and Transferor understand and hereby acknowledge and agree to indemnify, hold harmless, and defend, using counsel appointed by the Reserve (collectively, "Indemnify"), the Reserve and its directors, officers, employees, agents, contractors and representatives (the "Indemnified Parties") from and against all damages, liabilities, penalties, costs, losses, expenses, causes of action, claims, demands, or judgments, including without limitation, reasonable attorneys' fees and legal costs (collectively, "Damages"), arising from or in any way connected to any claim by any individual, partnership, firm, association, corporation, limited liability company, trust and any other form of governmental or business entity ("Person") in connection with any of the following: the transfer of this project, the sale of property or services or any future CRTs that may be issued in connection with the above project.

I declare that all statements contained herein are true and correct, to the best of my knowledge, and are made with full knowledge that the Reserve and all users of the Program rely upon the truth of the statements contained in this Project Transfer Attestation Form. I am duly authorized to make this declaration on behalf of my organization.

Lost Letter of Credit Affidavit Form

CERTIFICATE REGARDING LOST LETTER OF CREDIT

The undersigned, Hernando County ("County"), hereby represents, warrants and certifies to BNP Paribas, in its capacity as issuer of [Irrevocable Letter of Credit No. 04169983 (the "Letter of Credit") that:

1. The County received the original Letter of Credit and the County is the sole beneficiary of the Letter of Credit.

2. The County has caused a diligent search of its files and vault in order to locate the original Letter of Credit and the original Letter of Credit has not been found. The original Letter of Credit has been inadvertently lost, misplaced or destroyed.

3. The County has taken no action to give or pledge, sell, assign, transfer, hypothecate, deposit, endorse in blank or otherwise or in any other manner dispose of the Letter of Credit or any interest therein to any person, firm or corporation, nor has any record or correspondence been found which indicates that the County has entrusted the possession of the Letter of Credit to any person, firm or corporation for safekeeping or for any other purpose.

4. No person, firm, corporation, court or government agency, has, or has asserted, any right, title, claim, interest in, to, or respecting the Letter of Credit or the proceeds thereof.

5. This certificate is made for the purpose of inducing BNP Paribas to cancel the Letter of Credit and, in consideration of same, the County hereby indemnifies and holds BNP Paribas, and its successors and assigns (collectively, the "Indemnified Parties"), harmless from and against any claim, liability, loss, damage and expense, including legal fees and disbursements, suffered or incurred in connection with, or arising out of the loss and/or the subsequent presentation of the original Letter of Credit and for any misrepresentation made hereunder.

6. The County hereby agrees that if the original Letter of Credit is subsequently found by the County or comes into the County's possession, the County will immediately surrender the original Letter of Credit to BNP Paribas for cancellation.

TITLE

Award of Quote and Work Authorization Agreement to Waller Construction, Inc., for Waterways Temporary Housing Modular Installation for Waterways Department (Contract No. 24-TFG00704/AP; Amount: $319,998.90)

BRIEF OVERVIEW

On July 30, 2024, the Board approved Contract No. 24-TFG00704/AP for Pre-Qualification of Vendors for Grant Funded Construction Services for Projects Under $500,000.00, pre-qualifying firms under four (4) categories: A-Public Works, B-Waterways, C-Utilities, D-Facilities, to provide quotes for County projects on an as-needed basis.

On July 3, 2025, the Hernando County Waterways Department issued a Request for Quotes (Contract No. 24-TFG00704/AP Quote 7) for Installation of Modular for Waterways Temporary Housing.

The Request for Quote was sent to thirteen (13) pre-qualified firms for the following Categories: A-Public Works, B-Waterways, C-Utilities, D-Facilities.

Ajax Paving Industries of Florida, LLC
DB Civil Construction
HK Solutions Group
Hydro-Klean, LLC
Grosz Construction Company, Inc.
Cross Environmental Services, Inc.
Charlie's Plumbing, Inc.
Advanced Roofing, Inc.
TITAN, Consultants & Engineers, LLC
In Depth, Inc.
Seggie Custom Builders, LLC
Waller Construction, Inc.
Nice Guy Mechanical, Inc.
Property Services GC

BIDs RECEIVED:

(Bids listed in lowest to highest order, with asterisk denotating recommended awardee.)
One (1) reply to the Request for Quote was received by the Quote Due Date of August 15, 2025, from the following firm:

Waller Construction, Inc $319,998.90

Hernando County Waterways Department reviewed for price, conformance to specifications and the Bidder's ability to perform the contract in accordance with the terms, conditions and specifications required and is recommending award of quote to Waller Construction, Inc. No response to Notice of Intent to Award posted on August 19, 2025, was received.

FINANCIAL IMPACT

Funding in the amount of $319,998.90 is available, pending the attached Budget Amendment (BA), in the following:

Fund: 0011 - General Fund, **Department: 40011** - Gen Fund Disaster, **Account: 5304601** - Repair/Maint-BLDG & GRD, **PTC924**

The attached BA also cleans up the available balance for:

Fund: 0011 - General Fund, **Department: 40011** - Gen Fund Disaster, **Account: 5304601** - Repair/Maint-BLDG & GRD is currently showing as ($24,572.70). The $319,998.90 + $24,572.70 = $344,571.60 or rounded to $344,573, as shown on the attached BA. The other negative available balances will be cleaned up via a pending Budget Amendment.

LEGAL NOTE

In accordance with Part II, Chapter 2, Article V of the Hernando County Code of Ordinances.

RECOMMENDATION

It is recommended the Board approve and authorize the Chairman's signature on the attached work authorization agreement to Waller Construction, Inc., for Quote No. 7 to Contract No. 24-TFG00704/AP for the installation of modular for waterways temporary housing project in the amount of $319,998.90.

It is further recommended the Board authorize the Chief Procurement Officer to approve change orders as necessary and required up to budgeted amounts.

TITLE

Pre-Qualification of Vendors for Grant Funded Construction Services for Projects Under $500,000.00 (Contract No. 24-TFG00704/AP)

Pre-Qualification of Vendors for Grant Funded Construction Services for Projects Under $500,000.00 (Contract No. 24-TFG00704/AP)

BRIEF OVERVIEW

On January 17, 2024, the Procurement Department issued a Request for Qualifications (RFQ No. 24-TFG00704/AP) for Construction Services Under $500K for Grant Projects.

The term of the Qualification period is for three (3) years and may be unilaterally renewed for two (2) additional twelve (12) month periods. As stated in the RFQu, the County reserves the right to qualify multiple Vendor/Contractors and reserves the right to add Pre-qualified Vendors/Contractors every six (6) months, throughout the Contract term.

The Procurement Department placed the legal advertisement with the Hernando Sun and Vendors/Contractors/Bidders were notified through a posting on OpenGov on January 17, 2024. A total of three thousand two hundred nineteen (3,219) Vendors/Contractors/Bidders were notified and eighty (80) Vendors/Contractors/Bidders downloaded the RFQ.

Sixteen (16) proposals were received on the opening date of February 19, 2024, from the following firms (in alphabetical order):

- Advanced Roofing, Inc. - Tampa, FL
- Ajax Paving Industries of Florida, LLC - North Venice, FL
- Charlie's Plumbing, Inc. - Brooksville, FL
- Cross Environmental Services, Inc. - Crystal Springs, FL
- DB Civil Construction - St. Augustine, FL
- FSV Construction Company - Miami, FL
- Grosz Construction Company, Inc. - Tampa, FL
- Hydro-Klean, LLC - DeLand, FL
- In Depth, Inc. - Bunnell, FL
- Innovative Pipeline System - Merrillville, IN
- Nice Guy Mechanical, Inc. - New Port Richey, FL
- Property Services GC - Spring Hill, FL
- Seggie Custom Builders, LLC - Spring Hill, FL
- TITAN, Consultants & Engineers, LLC - Orlando, FL
- VEP Construction, LLC - Weston, FL
- Waller Construction, Inc. - Lakeland, FL

Department staff review resulted in the following qualified Vendor/Contractors listed in the

recommended Categories:

CATEGORY A: PUBLIC WORKS
Evaluated by Laura Borgesi P.E., Traffic Engineer; Donald Carey P.E., Stormwater Engineer; D. Todd Crosby P.E., Assistant County Engineer; Troy McCain, Sr. Project Manager

Ajax Paving Industries of Florida, LLC
Hydro-Klean, LLC
DB Civil Construction

CATEGORY B: WATERWAYS
Evaluated by Carla Burrmann, Aquatic Services and Waterways Manager

In Depth, Inc.

CATEGORY C: UTILITIES
Evaluated by Ron Patel P.E., Utilities Engineering Division Manager

DB Civil Construction

CATEGORY D: FACILITIES
Evaluated by Craig Becker, Facilities Manager

Cross Environmental
Seggie Construction
Charlie's Plumbing
Waller Construction
Grosz Construction
Advanced Roofing
Property Services GC
Nice Guy Mechanical
TITAN

A Notice of Intent to Award was posted on July 8, 2024, to the OpenGov site and posted to the Hernando County Administration electronic public bulletin board. A revised Notice of Intent to Award was posted on July 15, 2024, to the OpenGov site and posted to the Hernando County Administration electronic public bulletin board. No responses were received.

The Chief Procurement Officer has reviewed this requirement for conformance to the Procurement Ordinance and Purchasing Policies and Procedures.

FINANCIAL IMPACT

Contracts will be used on an as-needed basis by departments countywide up to allowable budget amounts and each project will not exceed $500,000.00. Any projects over $50,000.00

will be brought to the Board for approval.

LEGAL NOTE

The Board has the authority to act on this matter pursuant to Chapter 125, Florida Statutes.

RECOMMENDATION

It is recommended that the Board approve the Department's selection of the following qualified Vendor/Contractors:

For CATEGORY A: PUBLIC WORKS:

Ajax Paving Industries of Florida, LLC
Hydro-Klean, LLC
DB Civil Construction

For CATEGORY B: WATER WAYS:

In Depth, Inc.

For CATEGORY C: UTILITIES:

DB Civil Construction

For CATEGORY D: FACILITIES:

Cross Environmental
Seggie Construction
Charlie's Plumbing
Waller Construction
Grosz Construction
Advanced Roofing
Property Services GC
Nice Guy Mechanical
TITAN

The Board's approval will authorize the County to request quotes from the pre-qualified vendor/contractors for projects estimated under $500K. Any quotes received over the ABR of $50,000 will be brought back to the Board for approval.

It is further recommended the Board approve the Chief Procurement Officer (CPO) to renew the contract with the same pricing terms and authorize the CPO to approve change orders as they become necessary and required and up to allowable budget amounts.

There are two (2) one (1) year unilateral renewal options available.

NOTICE OF INTENT TO AWARD

No. 24-TFG00704/AP Q7

Installation of Modular for Waterways Temporary Housing

RESPONSE DEADLINE: August 15, 2025 at 5:00 pm

DATE: August 19, 2025

TO: All Interested Parties

After a thorough review of the bid(s)/proposal(s) received, Hernando County Government staff intends to recommend to the Board of County Commissioners of Hernando County, Florida, a contract award for the above solicitation be approved with:

Waller Construction, Inc

1065 S Florida Avenue

Lakeland, FL 33803

The tentative date for this recommendation is September 9, 2025. The final contract award is subject to funding availability, insurance coverage, and approval by the Board of County Commissioners of Hernando County, Florida.

Any Bidder who protests the Bid Specifications or Award or Intent to Award, must file with the County a notice of protest and formal written protest in compliance with the Hernando County Procurement Manual, Section 22, which can be found at http://www.hernandocounty.us/home/showpublisheddocument/9013. Failure to timely file such documents will constitute a waiver of proceedings. Failure to file a protest within the time prescribed by, or failure to post the bond or other security in strict accordance with, the Hernando County Procurement Manual, Section 22, shall constitute a waiver of protest proceedings."

Thank you for your interest in conducting business with Hernando County Government.

Sincerely, *Alisa Pike*

Carla Rossiter-Smith, MSM, PMP, GPC

BOARD OF COUNTY COMMISSIONERS
HERNANDO COUNTY, FLORIDA
WORK AUTHORIZATION AGREEMENT

This Contract, entered into this _____ day of _____, 2025, by and between the Hernando County Board of County Commissioners, hereafter called the COUNTY, and Waller Construction, Inc, 1065 S. Florida Avenue, Lakeland, FL 33803. hereinafter called the VENDOR/CONTRACTOR. Owner and Vendor/Contractor, in consideration of the mutual covenants hereinafter set forth, agree as follow:

CONSTRUCTION SERVICES FOR PROJECTS UNDER $500K - RFQ NO. 24-TFG00704/AP

Installation of Modular for Waterways Temporary Housing

QUOTE NUMBER 7

ARTICLE 1 – CONTRACT DOCUMENTS

1.01 The Vendor/Contractor shall furnish all labor, equipment and materials and perform the work per Construction Project in strict accordance with the General Conditions, Special Conditions, Supplementary Conditions, Exhibits, Plans, Specifications, and other Contract Documents, all of which are made a part hereof and designated as follows:

A. The Contract Documents for ITB 23-T00040/AP consist of the following:

Work Authorization and Required Documents After Award

Construction Agreement and Required Documents After Award

Request for Quote Exhibits
Exhibit A – General Requirements and Technical Specifications
Exhibit B – Plans/Drawings

All addenda issued by the County prior to the receipt of Quotes and all supplementary drawings issued after award of the Contract become part of the Contract Document.

Amending and Supplementing Contract Documents:

The Contract Documents may be amended to provide for additions, deletions, and revisions in the work or to modify the terms and conditions thereof by Change Order.

The requirements of the Contract Documents may be supplemented, and minor variations and deviations in the work may be authorized, by one or more of the following ways:

1. A Field Order;
2. Engineer's approval of a shop drawing or sample; or -
3. Engineer's written interpretation or clarification per the provisions described in the Contract Documents.

In resolving such conflicts, errors and discrepancies, the documents shall be given preference in the following order: Agreement, Specifications, Drawings, Solicitation Instructions. Within the specifications the order of preference shall be as follows: Addenda, General Conditions, Technical Specifications. Figure dimensions on drawings shall govern over scale dimensions, and the detailed drawings shall govern over general drawings. Any work that may reasonably be inferred from the specifications or drawings as being required to produce the intended result shall be supplied whether or not it is specifically called for. Work materials or equipment described in words which so applied have a well-known technical or trade meaning shall be deemed to refer to such recognized standards. In case of conflict the more stringent requirements shall take precedence and govern.

The Vendor/Contractor shall take no advantage of any error or omission in the plans or of any discrepancy between the plans and specifications, and the Engineer shall make such interpretation as may be deemed necessary for the fulfillment of the intent of the plans and specifications as construed by him and his decision shall be final.

All provisions required by law to be inserted in this Contract, whether actually inserted or not.

Exhibits to this Agreement (as follows):

1. Vendor/Contractor's Quote
2. Documentation submitted by Vendor/Contractor after to Notice of Award:

    a. Insurance Certificate

B. The following which may be delivered or issued on or after the Effective Date of the Agreement and are not attached hereto:

1. Notice to Proceed
2. Change Order(s)

C. The documents listed in this Article are attached to this Agreement (except as expressly noted otherwise).

D. There are no Contract Documents other than those listed in this Article.

E. The Contract Documents may only be amended, modified, or supplemented as stated in Paragraph 33.

ARTICLE 2 - THE ENGINEER

2.01 Engineer in the administration of this Contract and any references to the Engineer or the Professional shall be deemed to mean **Stantec Consulting Services, Inc.**, for the plans and specifications. **Erik van de Boogaard, Rob Talmage** or **Chris Linsbeck** will act as the Owner's representative, assume all duties and responsibilities, and have the rights and authority assigned to Engineer in the Contract Documents in connection with the completion of the work in accordance with their respective scope of work and the Contract Documents.

ARTICLE 3 - CONTRACT TIMES

3.01 Time of the Essence:

A. All time limits for completion and readiness for final payment as stated in the Contract Documents are of the

essence of the Contract.

3.02 Days to Achieve Substantial Completion and Final Payment:

A. Vendor/Contractor agrees that the work will be substantially complete within **one hundred twenty days to substantial completion (120)** calendar days after the commencement date indicated in the Notice to Proceed and ready for final payment within **one hundred fifty days to final completion (150)** calendar days after the date indicated on the Notice to Proceed.

3.03 Liquidated Damages:

Vendor/Contractor and Owner agree for each consecutive calendar day that the work remains incomplete after the Contract date established for Substantial Completion and/or Final Completion, the County will retain from the compensation otherwise to be paid to the Vendor/Contractor the sum of zero ($0.00) **FOR LIQUIDATED DAMAGES.** This amount is the minimum measure of damages the County will sustain by failure of the Vendor/Contractor to complete all remedial work, correct deficient work, clean up the project and other miscellaneous tasks as required to complete all work specified.

ARTICLE 4 – CONTRACT PRICE

4.01 Owner shall pay Vendor/Contractor for completion of the work in accordance with the Quote an amount in current funds equal to the sum of the amounts determined pursuant to the Paragraphs below:

Line Item	Description	Quantity	Unit of Measure	Unit Cost	Total
GENERAL CONSTRUCTION OPERATIONS					
1	Mobilization (includes survey cost, materials testing, pre-construction video)	1	LS	$54,337.00	$54,337.00

ARTICLE 5 – PAYMENT PROCEDURES

5.01 Submittal and Processing of Payments:

A. Vendor/Contractor shall submit Applications for Payment in accordance with Paragraph 37.2.1. Applications for Payment will be processed by Owner Designated Representative as provided in the Contract Documents.

5.02 Progress Payments; Retainage:

A. Owner shall make progress payments on account of the Contract Price on the basis of Vendor/Contractor's Applications for Payment not later than the time periods established by applicable provisions of the Florida Prompt Payment Act, Part VII, Ch. 218.735, F.S. (current version), during performance of the work as provided in Paragraphs below. All such payments will be measured by the Schedule of Values (and in the case of Unit Price Work based on the number of units completed) or, in the event there is no schedule of values, as provided in the General Requirements:

1. Progress payments will be made in an amount equal to the percentage indicated below but, in each case, less the aggregate of payments previously made and less such amounts as Owner Designated Representative may determine or Owner may withhold, including but not limited to liquidated damages, in accordance with the Contract Documents:

a. Ninety-five (95%) of work completed (with the balance being retainage); and Ninety-five (95%) of cost of materials and equipment not incorporated in the work (with the balance being retainage).

5.03 Final Payment:

A. Upon receipt of the final Application for Payment accompanied by Owner Designated Representative's recommendation of payment in accordance with Paragraph 37.7.1, Owner shall pay Vendor/Contractor the remainder of the Contract Price as recommended by Owner Designated Representative, less any sum Owner is entitled to set off against Owner Designated Representative's recommendation, including but not limited to liquidated damages.

B. Final Payment, constituting the entire unpaid balance of the Contract Sum, shall be paid by the Owner to the Vendor/Contractor when the work has been completed, the Contract fully performed, and a final Certificate for Payment has been issued by the Owner Designated Representative.

ARTICLE 6 – INTEREST

6.01 All monies not paid when due shall bear interest at the maximum legal rate.

ARTICLE 7 – VENDOR/CONTRACTOR'S REPRESENTATIONS

7.01 In order to induce Owner to enter into this Agreement Vendor/Contractor makes the following representations:

A. Vendor/Contractor has examined and carefully studied the Contract Documents and the other related data identified in the Bid Documents.

B. Vendor/Contractor has visited the site and become familiar with and is satisfied as to the general, local, and site conditions that may affect cost, progress, and performance of the work.

C. Vendor/Contractor is familiar with and is satisfied as to all federal, state, and local laws and regulations that may affect cost, progress, and performance of the work.

D. Vendor/Contractor does not consider that any further examinations, investigations, explorations, tests, studies, or data are necessary for the performance of the work at the Contract Price, within the Contract Times, and in accordance with the other terms and conditions of the Contract Documents.

E. Vendor/Contractor is aware of the general nature of work to be performed by Owner and others at the site that relates to the work as indicated in the Contract Documents.

F. Vendor/Contractor has correlated the information known to Vendor/Contractor, information and observations obtained from visits to the site, reports and drawings identified in the Contract Documents, and all additional examinations, investigations, explorations, tests, studies, and data with the Contract Documents.

G. Vendor/Contractor has given Engineer written notice of all conflicts, errors, ambiguities, or discrepancies that Vendor/Contractor has discovered in the Contract Documents, and the written resolution thereof by Engineer is acceptable to Vendor/Contractor.

H. The Contract Documents are generally sufficient to indicate and convey understanding of all terms and conditions for performance and furnishing of the work.

ARTICLE 8 – MISCELLANEOUS

8.01 Terms:

A. Terms used in this Agreement will have the meanings stated in the Contract Documents.

8.02 Assignment of Contract:

A. No assignment by a party hereto of any rights under or interests in the Contract will be binding on another party hereto without the written consent of the party sought to be bound; and, specifically but without limitation, monies that may become due and moneys that are due may not be assigned without such consent (except to the extent that the effect of this restriction may be limited by law), and unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under the Contract Documents.

8.03 Successors and Assigns:

A. Owner and Vendor/Contractor each binds itself, its partners, successors, assigns, and legal representatives to the other party hereto, its partners, successors, assigns, and legal representatives in respect to all covenants, Agreements, and obligations contained in the Contract Documents.

8.04 Severability:

A. Any provision or part of the Contract Documents held to be void or unenforceable under any Law or Regulation shall be deemed stricken, and all remaining provisions shall continue to be valid and binding upon Owner and Vendor/Contractor, who agree that the Contract Documents shall be reformed to replace such stricken provision or part thereof with a valid and enforceable provision that comes as close as possible to expressing the intention of the stricken provision.

8.05 This Agreement may be executed in several counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.

ARTICLE 9 – CONTRACT PAYMENT

9.01 The County agrees to pay the Vendor/Contractor for the faithful performance under this Contract for the agreed amount of **Three hundred nineteen thousand nine hundred ninety-eight dollars and ninety cents ($319,998.90)** and is based on the lump sum prices contained herein and subject to additions or deductions as modified.

IN WITNESS WHEREOF, Owner and Vendor/Contractor have signed this Agreement in two (2) copies. All portions of the Contract Documents have been signed, initialed, or identified by Owner and Vendor/Contractor.

Anti-Human Trafficking Affidavit

In compliance with Fla. Stat. § 787.06(13), this affidavit must be completed by an officer or representative of a nongovernmental entity that is executing, renewing, or extending a contract with Hernando County or any of its subordinate units (the "Governmental Entity").

1. My name is G. Brian Waller and I am over eighteen years of age. The following information is given from my own personal knowledge.

2. I am an officer or representative with Waller Construction, a non-governmental entity (the "Nongovernmental Entity"). I am authorized to provide this affidavit on behalf of Nongovernmental Entity.

3. Neither Nongovernmental Entity, nor any of its subsidiaries or affiliates, uses *coercion* for *labor* or *services*, as such italicized terms are defined in Fla. Stat. § 787.06, as it may be amended from time to time.

4. If, at any time in the future, Nongovernmental Entity does use coercion for labor or services, Nongovernmental Entity will immediately notify Governmental Entity and no contracts may be executed, renewed, or extended between the parties.

5. This declaration is made pursuant to Fla, Stat. § 92.525. I understand that making a false statement in this declaration may subject me to criminal penalties.

Under penalties of perjury, I G. Brian Waller, declare that I have read the foregoing Anti-Human Trafficking Affidavit and that the facts stated in it are true.

FURTHER AFFIANT SAYETH NAUGHT.

Foreign Countries of Concern

Pursuant to 287.138 F.S., effective July 1, 2023, the County may not enter into contracts which grants the Vendor/Contractor access to personal identifiable information if: a) the Contractor is owned by the government of a Foreign Country of Concern (as defined by the statute): (b) the government of a Foreign Country of Concern has a controlling interest in the entity; or (c) the Contractor is organized under the law of or has its principal place of business in a Foreign Country of Concern.

Beginning July 1, 2025, a governmental entity is prohibited from extending or renewing a contract with an entity meeting the requirements of (a) to (c) above, if the contract would give such entity access to an individual's personal identifying information.

The Contracting with Entities of Foreign Countries of Concern Prohibited Affidavit Form ("Form") is required by Section 287.138, Florida Statutes ("F.S."), which is deemed as being expressly incorporated into this Form. The Affidavit must be completed by a person authorized to make this attestation on behalf of the Bidder's/Proposer's for the purpose of submitting a bid, proposal, quote, or other response, or otherwise entering into a contract with the County. The associated bid, proposal, quote, or other response will not be accepted unless and until this completed and executed Affidavit is submitted to the County.

Bidder's/Proposer's Legal Company Name: WALLER Construction does not meet any of the criteria set forth in Paragraphs 2 (a) – (c) of Section 287.138, FS.

Pursuant to Section 92.525, F.S., under penalties of perjury, I declare that I have read the foregoing statement and that the facts stated in it are true.

Supplemental FEMA Clauses
Construction Services

1. EQUAL EMPLOYMENT OPPORTUNITY

During the performance of this contract, the contractor agrees as follows:

1.1. The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following:

Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination: rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

1.2. The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

1.3. The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

1.4. The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

1.5. The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

1.6. The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

1.7. In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise

provided by law.

1.8. The contractor will include the portion of the sentence immediately preceding paragraph (1.8) and the provisions of paragraphs (1.1) through (1.8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance:

Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The applicant further agrees that it will be bound by the above equal opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: *Provided*, that if the applicant so participating is a State or local government, the above equal opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The applicant agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the equal opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the administering agency and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The applicant further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the equal opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order. In addition, the applicant agrees that if it fails or refuses to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the applicant under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from such applicant; and refer the case to the Department of Justice for appropriate legal proceedings.

2. DEBARMENT AND SUSPENSION

2.1. This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).

2.2. The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.

2.3. This certification is a material representation of fact relied upon by Hernando County. If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt.

3000, subpart C, in addition to remedies available to Hernando County, the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.

2.4. The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.

3. PROCUREMENT OF RECOVERED MATERIALS

3.1. In the performance of this contract, the Contractor shall make maximum use of products containing recovered materials that are EPA- designated items unless the product cannot be acquired—

3.1.1. Competitively within a timeframe providing for compliance with the contract performance schedule;

3.1.2. Meeting contract performance requirements; or

3.1.3. At a reasonable price.

3.2. Information about this requirement, along with the list of EPA-designate items, is available at EPA's Comprehensive Procurement Guidelines web site, https://www.epa.gov/smm/comprehensive-procurement-guideline-cpg-program.

3.3. The Contractor also agrees to comply with all other applicable requirements of Section 6002 of the Solid Waste Disposal Act."

4. ACCESS TO RECORDS

4.1. The contractor agrees to provide Hernando County, Clerk of Circuit Court & Comptroller, the FEMA Administrator, the Comptroller General of the United States, or any of their authorized representative's access to any books, documents, papers, and records of the Contractor which are directly pertinent to this contract for the purposes of making audits, examinations, excerpts, and transcriptions.

4.2. The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

4.3. The contractor agrees to provide the FEMA Administrator or his authorized representative's access to construction or other work sites pertaining to the work being completed under the contract.

4.4. In compliance with the Disaster Recovery Act of 2018, Hernando County and the Contractor acknowledge and agree that no language in this contract is intended to prohibit audits or internal reviews by the FEMA Administrator or the Comptroller General of the United States.

5. DOMESTIC PREFERENCE FOR PROCUREMENTS

5.1. The Contractor should, to the greatest extent practicable and consistent with law, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States. This includes, but is not limited to, iron, aluminum, steel, cement, and other manufactured products. or purposes of this clause:

Produced in the United States means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States."

6. CHANGES

6.1. County may, at any time, direct in writing additions, deletions, or changes to all or any part of the work. If any such changes cause an increase or decrease in the cost of or in the time required to perform such work, Bidder shall submit detailed information substantiating such claims and an equitable adjustment shall be made in the price or time of performance.

7. DHS SEAL, LOGO, AND FLAGS

The contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre- approval.

8. COMPLIANCE WITH FEDERAL LAW, REGULATIONS, AND EXECUTIVE ORDERS

This is an acknowledgement that FEMA financial assistance will be used to fund the contract only. The contractor will comply will all applicable federal law, regulations, executive orders, FEMA policies, procedures, and directives.

9. NO OBLIGTION BY FEDERAL GOVERNMENT

The Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract.

10. PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS OR RELATED ACTS

The contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to the contractor's actions pertaining to this contract.

11. RECORDS RETENTION 2 C.F.R. § 200.333

11.1. The Contractor will retain and will require its subcontractors of all tiers to retain, complete and readily accessible records related in whole or in part to the contract, including, but not limited to, data, documents, reports, statistics, sub-agreements, leases, subcontracts, arrangements, other third-party agreements of any type, and supporting materials related to those records.

11.2. Retention Period. The Contractor agrees to comply with the record retention requirements in accordance with 2 C.F.R. § 200.333. The Contractor shall maintain all books, records, accounts and reports required under this Contract for a period of at not less than five (5) years after the date of termination or expiration of this Contract, except in the event of litigation or settlement of claims arising from the performance of this Contract, in which case records shall be maintained until the disposition of all such litigation, appeals, claims or exemptions related thereto.

12. PROVIDING GOOD, SAFE JOBS TO WORKERS

12.1. Pursuant to FEMA Information Bulletin No. 520, the contractor will comply with all applicable federal labor and employment laws. To maximize cost efficiency and quality of work, the contractor commits to strong labor standards and protections for the project workforce by creating an effective plan for ensuring high-quality jobs and complying with federal labor and employment laws. The contractor acknowledges applicable minimum wage, overtime, prevailing wage, and health and safety requirements, and will incorporate Good Jobs Principles wherever appropriate and to the greatest extent practicable."

13. **SOCIOECONOMIC CONTRACTING**

13.1. The Contractor is encouraged to take all necessary steps identified in 2 C.F.R. § 200.321(b)(1)-(5) to ensure small businesses, minority businesses, women's business enterprises, veteran□owned businesses, and labor surplus area firms are considered when possible.

14. **BUY CLEAN**

14.1. Hernando County encourages the use of environmentally friendly construction practices in the performance of this Agreement. In particular, Hernando County encourages that the performance of this agreement include considering the use of low-carbon materials which have substantially lower levels of embodied greenhouse-gas emissions associated with all relevant stages of production, use, and disposal, as compared to estimated industry averages of similar materials or products as demonstrated by their environmental product declaration.

15. **PROHIBITION ON CONTRACTING FOR CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT** (AUG 2020) FAR 52.205-25

15.1. *Definitions.* As used in this clause—

15.1.1. *Backhaul* means intermediate links between the core network, or backbone network, and the small subnetworks at the edge of the network (*e.g.*, connecting cell phones/towers to the core telephone network). Backhaul can be wireless (e.g., microwave) or wired (*e.g.*, fiber optic, coaxial cable, Ethernet).

15.1.2. *Covered foreign country* means The People's Republic of China.

15.1.3. *Covered telecommunications equipment or services* means–

15.1.3.1. Telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities);

15.1.3.2. For the purpose of public safety, security of Government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities);

15.1.3.3. Telecommunications or video surveillance services provided by such entities or using such equipment; or

15.1.3.4. Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

15.1.4. *Critical technology* means–

15.1.4.1. Defense articles or defense services included on the United States Munitions List set forth in the International Traffic in Arms Regulations under subchapter M of chapter I of title 22, Code of Federal Regulations;

15.1.4.2. Items included on the Commerce Control List set forth in Supplement No. 1 to part 774 of the Export Administration Regulations under subchapter C of chapter VII of title 15, Code of Federal Regulations, and controlled-

15.1.4.2.1. Pursuant to multilateral regimes, including for reasons relating to national security, chemical and biological weapons proliferation, nuclear nonproliferation, or missile technology; or

15.1.4.2.2. For reasons relating to regional stability or surreptitious listening;

15.1.4.3. Specially designed and prepared nuclear equipment, parts and components, materials, software, and technology covered by part 810 of title 10, Code of Federal Regulations (relating to assistance to foreign atomic energy activities);

15.1.4.4. Nuclear facilities, equipment, and material covered by part 110 of title 10, Code of Federal Regulations (relating to export and import of nuclear equipment and material);

15.1.4.5. Select agents and toxins covered by part 331 of title 7, Code of Federal Regulations, part 121 of title 9 of such Code, or part 73 of title 42 of such Code; or

15.1.4.6. Emerging and foundational technologies controlled pursuant to section 1758 of the Export Control Reform Act of 2018 (50 U.S.C. 4817).

15.1.5. *Interconnection arrangements* means arrangements governing the physical connection of two or more networks to allow the use of another's network to hand off traffic where it is ultimately delivered (*e.g.*, connection of a customer of telephone provider A to a customer of telephone company B) or sharing data and other information resources.

15.1.6. *Reasonable inquiry* means an inquiry designed to uncover any information in the entity's possession about the identity of the producer or provider of covered telecommunications equipment or services used by the entity that excludes the need to include an internal or third-party audit.

15.1.7. *Roaming* means cellular communications services (*e.g.*, voice, video, data) received from a visited network when unable to connect to the facilities of the home network either because signal coverage is too weak or because traffic is too high.

15.1.8. *Substantial or essential component* means any component necessary for the proper function or performance of a piece of equipment, system, or service.

15.2. *Prohibition.*

15.2.1. Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. The Contractor is prohibited from providing to the Government any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless an exception at paragraph (14.3) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in FAR 4.2104.

15.2.2. Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract, or extending or renewing a contract, with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system, unless an exception at paragraph (14.3) of this clause applies or the covered telecommunication equipment or services are covered by a waiver described in FAR 4.2104. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract.

15.3. *Exceptions.* This clause does not prohibit contractors from providing—

15.3.1. A service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

15.3.2. Telecommunications equipment that cannot route or redirect user data traffic or permit visibility into any user data or packets that such equipment transmits or otherwise handles.

15.4. Reporting requirement.

15.4.1. In the event the Contractor identifies covered telecommunications equipment or services used as a substantial or essential component of any system, or as critical technology as part of any system, during contract performance, or the Contractor is notified of such by a subcontractor at any tier or by any other source, the Contractor shall report the information in paragraph (14.4.2) of this clause to the Contracting Officer, unless elsewhere in this contract are established procedures for reporting the information; in the case of the Department of Defense, the Contractor shall report to the website at https://dibnet.dod.mil. For indefinite delivery contracts, the Contractor shall report to the Contracting Officer for the indefinite delivery contract and the Contracting Officer(s) for any affected order or, in the case of the Department of Defense, identify both the indefinite delivery contract and any affected orders in the report provided at https://dibnet.dod.mil.

15.4.2. The Contractor shall report the following information pursuant to paragraph (14.4.1) of this clause

15.4.2.1. Within one business day from the date of such identification or notification: the contract number; the order number(s), if applicable; supplier name; supplier unique entity identifier (if known); supplier Commercial and Government Entity (CAGE) code (if known); brand; model number (original equipment manufacturer number, manufacturer part number, or wholesaler number); item description; and any readily available information about mitigation actions undertaken or recommended.

15.4.2.2. Within 10 business days of submitting the information in paragraph (14.4.2.1) of this clause: any further available information about mitigation actions undertaken or recommended. In addition, the Contractor shall describe the efforts it undertook to prevent use or submission of covered telecommunications equipment or services, and any additional efforts that will be incorporated to prevent future use or submission of covered telecommunications equipment or services.

15.4.3. *Subcontracts.* The Contractor shall insert the substance of this clause, including this paragraph (14.4.3) and excluding paragraph (14.2.2), in all subcontracts and other contractual instruments, including subcontracts for the acquisition of commercial items.

16. **INFRASTRUCTURE INVESTMENT AND JOBS ACT aka BUILD AMERICA BUY AMERICA ACT (BABAA)** H.R.3684

In accordance with OMB Memo M-22-11, by May 14, 2022, FEMA must ensure that all of its applicable federal financial assistance programs comply with section 70914 of BABAA. This includes incorporating a "Buy America" preference in the terms and conditions of each financial award for an infrastructure project. The Act requires the following "Buy America" preference:

16.1. All iron and steel used in the project are produced in the United States. This means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

16.2. All manufactured products used in the project are produced in the United States. This means the manufactured product was manufactured in the United States, and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation.

17. NON-DISCRIMINATION REQUIREMENTS

No person in the United States shall, on the ground of race, color, national origin, handicap, age, religion, or sex, be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program or activity receiving federal financial assistance. The Contractor is required to comply with all non-discrimination requirements summarized in this section, and to ensure that all subawards contain these nondiscrimination requirements.

17.1. Statutory Provisions

17.1.1. Title VI of the Civil Rights Act of 1964 (42 U.S.C. §§ 2000d et seq.) prohibits discrimination on the grounds of race, color, or national origin under programs or activities receiving federal financial assistance;

17.1.2. Title IX of the Education Amendments of 1972 (20 U.S.C. §§ 1681 et seq.) prohibits discrimination on the basis of sex under federally assisted education programs or Activities;

17.1.3. Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794) prohibits discrimination on the basis of handicap under any program or activity receiving or benefitting from federal assistance;

17.1.4. The Age Discrimination Act of 1975, as amended (42 U.S.C. §§ 6101 et seq.), prohibits discrimination on the basis of age in programs or activities receiving federal financial assistance;

17.1.5. The Americans with Disabilities Act of 1990, as amended (42 U.S.C. §§ 12101 et seq.) ("ADA"), including the ADA Amendments Act of 2008 (Public Law 110-325, ("ADAAA"), prohibits discrimination on the basis of disability under programs, activities, and services provided or made available by state and local governments or instrumentalities or agencies thereto, as well as public or private entities that provide public transportation.

17.1.6. Any other applicable non-discrimination law(s).

18. DISADVANTAGED BUSINESS ENTERPRISE (DBE) 49 C.F.R. part 26

18.1. For all DOT-assisted contracts, each FTA recipient must include assurances that third party contractors will comply with the DBE program requirements of 49 C.F.R. part 26, when applicable. The following contract clause is required in all DOT-assisted prime and subcontracts:

18.1.1. The contractor, subrecipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 C.F.R. part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient deems appropriate, which may include, but is not limited to:

18.1.1.1. Withholding monthly progress payments;
18.1.1.2. Assessing sanctions;
18.1.1.3. Liquidated damages; and/or
18.1.1.4. Disqualifying the contractor from future bidding as non-responsible. 49 C.F.R. § 26.13(b).

18.2. Overview

18.2.1. It is the policy of Hernando County and the United States Department of Transportation ("DOT") that Disadvantaged Business Enterprises ("DBE's"), as defined herein and in the Federal regulations published at 49 C.F.R. part 26, shall have an equal opportunity to participate in DOT-assisted contracts. It is also the policy of Hernando County to:

18.2.1.1. Ensure nondiscrimination in the award and administration of DOT-assisted contracts;
18.2.1.2. Create a level playing field on which DBE's can compete fairly for DOT-assisted contracts;
18.2.1.3. Ensure that the DBE program is narrowly tailored in accordance with applicable law;
18.2.1.4. Ensure that only firms that fully meet 49 C.F.R. part 26 eligibility standards are permitted to participate as DBE's;
18.2.1.5. Help remove barriers to the participation of DBEs in DOT assisted contracts;
18.2.1.6. To promote the use of DBEs in all types of federally assisted contracts and procurement activities; and
18.2.1.7. Assist in the development of firms that can compete successfully in the marketplace outside the DBE program.

18.3. This Contract is subject to 49 C.F.R. part 26. Therefore, the Contractor must satisfy the requirements for DBE participation as set forth herein. These requirements are in addition to all other equal opportunity employment requirements of this Contract. Hernando County shall make all determinations with regard to whether or not a Bidder/Offeror is in compliance with the requirements stated herein. In assessing compliance, Hernando County may consider during its review of the Bidder/Offeror's submission package, the Bidder/Offeror's documented history of non-compliance with DBE requirements on previous contracts with Hernando County.

18.4. Contract Assurance

18.4.1. The Contractor, subrecipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this Contract. The Contractor shall carry out applicable requirements of 49 C.F.R. part 26 in the award and administration of DOT-assisted contracts. Failure by the Contractor to carry out these requirements is a material breach of this Contract, which may result in the termination of this Contract or such other remedy as Hernando County deems appropriate.

15. **DISTRACTED DRIVING - TEXTING WHEN DRIVING:** (Executive Order 13513; DOT Order 3902.10)

15.1. In accordance with Executive Order 13513, "Federal Leadership on Reducing Text Messaging While Driving" (10/1/2009) and DOT Order 3902.10 "Text Messaging While Driving" (12/30/2009), the U.S. Treasury Department encourages recipients of federal grant funds to adopt and enforce safety policies that decrease crashes by distracted drivers, including policies to ban text messaging while driving when performing work related to a grant or sub-grant.

15.2. In support of this initiative, the Owner encourages the Contractor to promote policies and initiatives for its employees and other work personnel that decrease crashes by distracted drivers, including policies that ban text messaging while driving motor vehicles while performing work activities associated with the project. The Contractor must include the substance of this clause in all sub-tier contracts exceeding $3,500 and involve driving a motor vehicle in performance of work activities associated with the project.

16. TERMINATION FOR CAUSE AND CONVENIENCE

Applicability. This requirement applies to all FEMA grant and cooperative agreement programs more than $10,000.

16.1. Termination for Convenience (General Provision) (See also 16.2)

Hernando County may terminate this contract, in whole or in part, at any time by written notice to the Contractor when it is in the Government's best interest. The Contractor shall be paid its costs, including contract close-out costs, and profit on work performed up to the time of termination. The Contractor shall promptly submit its termination claim to Hernando County to be paid the Contractor. If the Contractor has any property in its possession belonging to Hernando County, the Contractor will account for the same, and dispose of it in the manner Hernando County directs.

16.2. Termination for Default [Breach or Cause] (General Provision) (See also 16.1)

16.2.1. If the Contractor does not deliver supplies in accordance with the contract delivery schedule, or, if the contract is for services, the Contractor fails to perform in the manner called for in the contract, or if the Contractor fails to comply with any other provisions of the contract, Hernando County may terminate this contract for default. Termination shall be effected by serving a notice of termination on the contractor setting forth the manner in which the Contractor is in default. The contractor will only be paid the contract price for supplies delivered and accepted, or services performed in accordance with the manner of performance set forth in the contract.

16.2.2. If it is later determined by Hernando County that the Contractor had an excusable reason for not performing, such as a strike, fire, or flood, events which are not the fault of or are beyond the control of the Contractor, Hernando County, after setting up a new delivery of performance schedule, may allow the Contractor to continue work, or treat the termination as a termination for convenience.

16.3. Opportunity to Cure (General Provision)

16.3.1. Hernando County in its sole discretion may, in the case of a termination for breach or default, allow the Contractor ten (10) days in which to cure the defect. In such case, the notice of termination will state the time period in which cure is permitted and other appropriate conditions.

16.3.2. If Contractor fails to remedy to Hernando County's satisfaction the breach or default of any of the terms, covenants, or conditions of this Contract within ten (10) days after receipt by Contractor of written notice from Hernando County setting forth the nature of said breach or default, Hernando County shall have the right to terminate the Contract without any further obligation to Contractor. Any such termination for default shall not in any way operate to preclude Hernando County from also pursuing all available remedies against Contractor and

its sureties for said breach or default.

16.4. Waiver of Remedies for any Breach
In the event that Hernando County elects to waive its remedies for any breach by Contractor of any covenant, term or condition of this Contract, such waiver by Hernando County shall not limit Hernando County's remedies for any succeeding breach of that or of any other term, covenant, or condition of this Contract.

17. **AFFIRMATIVE ACTION**: (41 CFR part 60-4; Executive Order 11246)

17.1. **NOTICE OF REQUIREMENT FOR AFFIRMATIVE ACTION to ENSURE EQUAL EMPLOYMENT OPPORTUNITY:**

17.1.1. The Offeror's or Bidder's attention is called to the "Equal Opportunity Clause" and the "Standard Federal Equal Employment Opportunity Construction Contract Specifications" set forth herein.

17.1.2. The goals and timetables for minority and female participation, expressed in percentage terms for the contractor's aggregate workforce in each trade on all construction work in the covered area, are as follows:

17.1.2.1. **Timetables**
17.1.2.1.1. Goals for minority participation for each trade: 17.1%
17.1.2.1.2. Goals for female participation in each trade: 6.9%

17.1.2.2. These goals are applicable to all of the contractor's construction work (whether or not it is federal or federally assisted) performed in the covered area. If the contractor performs construction work in a geographical area located outside of the covered area, it shall apply the goals established for such geographical area where the work is actually performed. With regard to this second area, the contractor also is subject to the goals for both its federally involved and non-federally involved construction.

17.1.2.3. The Contractor's compliance with the Executive Order and the regulations in 41 CFR Part 60-4 shall be based on its implementation of the Equal Opportunity Clause, specific affirmative action obligations required by the specifications set forth in 41 CFR 60-4.3(a), and its efforts to meet the goals. The hours of minority and female employment and training must be substantially uniform throughout the length of the contract, and in each trade, and the contractor shall make a good faith effort to employ minorities and women evenly on each of its projects. The transfer of minority or female employees or trainees from Contractor to Contractor or from project to project for the sole purpose of meeting the Contractor's goals shall be a violation of the contract, the Executive Order, and the regulations in 41 CFR Part 60-4. Compliance with the goals will be measured against the total work hours performed.

17.1.3. The Contractor shall provide written notification to the Director of the Office of Federal Contract Compliance Programs (OFCCP) within ten (10) working days of award of any construction subcontract in excess of $10,000 at any tier for construction work under the contract resulting from this solicitation. The notification shall list the name, address, and telephone number of the subcontractor; employer identification number of the subcontractor; estimated dollar amount of the subcontract; estimated starting and completion dates of the subcontract; and the geographical area in which the subcontract is to be performed.

17.1.4. As used in this notice and in the contract resulting from this solicitation, the "covered area" is Florida, Hernando County.

18. CONTRACT WORK HOURS AND SAFETY STANDARDS ACT

This requirement applies to all FEMA contracts awarded in excess of $100,000 under grant and cooperative agreement programs that involve the employment of mechanics or laborers. It is applicable to construction work.

18.1. Overtime requirements.

No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.

18.2. Violation; liability for unpaid wages; liquidated damages.

In the event of any violation of the clause set forth in paragraph (b)(1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (b)(1) of this section, in the sum of $27 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (b)(1) of this section.

18.3. Withholding for unpaid wages and liquidated damages.

Hernando County shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (b)(2) of this section.

18.4. Subcontracts.

The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (18.1) through (18.5) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (18.1) through (18.5) of this section.

18.5. Anti-retaliation

It is unlawful for any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, or to cause any person to discharge, demote, intimidate, threaten, restrain, coerce, blacklist, harass, or in any other manner discriminate against, any worker or job applicant for:

18.5.1. Notifying any contractor of any conduct which the worker reasonably believes constitutes a violation of the Contract Work Hours and Safety Standards Act (CWHSSA) or its implementing regulations in this part;

18.5.2. Filing any complaint, initiating, or causing to be initiated any proceeding, or otherwise asserting or seeking to assert on behalf of themselves or others any right or protection

under CWHSSA or this part;

18.5.3. Cooperating in any investigation or other compliance action, or testifying in any proceeding under CWHSSA or this part; or

18.5.4. Informing any other person about their rights under CWHSSA or this part.

18.5.5. The contractor or subcontractor must maintain regular payrolls and other basic records during the course of the work and must preserve them for a period of three years after all the work on the prime contract is completed for all laborers and mechanics, including guards and watchpersons, working on the contract. Such records must contain the name; last known address, telephone number, and email address; and social security number of each such worker; each worker's correct classification(s) of work performed; hourly rates of wages paid; daily and weekly number of hours actually worked; deductions made; and actual wages paid.

18.5.6. Records to be maintained under this provision must be made available by the contractor or subcontractor for inspection, copying, or transcription by authorized representatives of the Department of Homeland Security, the Federal Emergency Management Agency, and the Department of Labor, and the contractor or subcontractor will permit such representatives to interview workers during working hours on the job.

19. BYRD ANTI-LOBBYING AMENDMENT

19.1. Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)

Contractors who apply or bid for an award of $100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, officer or employee of Congress, or an employee of a Member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient who in turn will forward the certification(s) to the awarding agency.

CLEAN AIR ACT AND THE FEDERAL WATER POLLUTION CONTROL ACT

19.2. Clean Air Act

19.2.1. The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, amended, 42 U.S.C. § 7401 et seq.

19.2.2. The contractor agrees to report each violation to Hernando County and understands and agrees that Hernando County will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

19.2.3. The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

19.3. Federal Water Pollution Control Act

19.3.1. The contractor agrees to comply with all applicable standards, orders, or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.

19.3.2. The contractor agrees to report each violation to Hernando County and understands and agrees that Hernando County will, in turn, report each violation as required to assure notification to the Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

19.3.3. The contractor agrees to include these requirements in each subcontract exceeding $150,000 financed in whole or in part with Federal assistance provided by FEMA.

21. REMEDIES

Applicability. This requirement applies to all FEMA grant and cooperative agreement programs more than $250,000.

21.1. Any violation or breach of terms of this contract on the part of the Contractor or its subcontractors may result in the suspension or termination of this contract or such other action that may be necessary to enforce the rights of the parties of this agreement.

21.2. Hernando County will provide Contractor written notice that describes the nature of the breach and corrective actions the Contractor must undertake to avoid termination of the contract. Hernando County reserves the right to withhold payments to Contractor until such time the Contractor corrects the breach or Hernando County elects to terminate the contract. Hernando County's notice will identify a specific date by which the Contractor must correct the breach. Hernando County may proceed with termination of the contract if the Contractor fails to correct the breach by the deadline indicated in Hernando County's notice.

21.3. The duties and obligations imposed by the Contract Documents and the rights and remedies available thereunder are in addition to, and not a limitation of, any duties, obligations, rights and remedies otherwise imposed or available by law.

TITLE

Submittal of Application to Federal Economic Development Administration for FY 2025 Disaster Supplemental Grant for Critical Infrastructure Construction Runway Conversion Project at Brooksville-Tampa Bay Regional Airport

BRIEF OVERVIEW

The U.S. Economic Development Administration (EDA) released the Disaster Supplemental grant in June 2025.

This funding opportunity allows communities and regions to implement long-term economic recovery strategies through a variety of construction projects in areas where a Presidential declaration of major disaster was issued in calendar years 2023 and 2024. During this time, Hernando County had declarations for Hurricanes Idalia, Debby, Milton and Helene.

Hernando County Economic Development is requesting funding for a standalone construction project to improve the economic trajectories beyond pre-disaster economic conditions. The requested funding would allow Brooksville-Tampa Bay Regional Airport (BKV) to resurface 4,480 linear feet of a decommissioned taxiway and extend water/sewer infrastructure enabling industrial growth across 195 acres infield and 228 acres of adjacent designated land.

Two industry companies have committed to expansion or new facilities with the project:

Pem-Air Turbine Engine Services, LLC in the amount of $65,000,000 with an estimated 50 created jobs through an expansion of their onsite facilities.

Judah 1, Inc., in the amount of $5,000,000 - $8,000,000 with an estimated 15-20 created jobs through the addition of an onsite facility.

The Tampa Bay Regional Planning Council (TBRPC) analyzed the economic impact of rehabilitating the deactivated runway and constructing supporting infield infrastructure with their Impact Analysis for Planning (IMPLAN) model for the Tampa Bay Region. The analysis is attached.

The total project cost is $17,000,000, with $13,600,000 in EDA Disaster Supplemental Grant funds, Florida Department of Transportation Aviation Grant Program funding of $1,800,000 and County match of $1,600,000. The EDA Disaster Supplemental Grant is funded at 80%/20% Federal/County cost share, and the County is partially using the Florida Department of Transportation (FDOT) funds to assist with the County match.

Applications are accepted on a rolling basis until funds are expended.

FINANCIAL IMPACT

Funding from FDOT available in:

Fund: 4311 - Airport/Industrial Park, **Department: 34299** - AP-Runway Conversion, **Account: 5666537** - CIP-AP Dsgn/Cnstr Txwys for $1,800,000.

The remainder of the match in the amount of $1,600,000 is budgeted in the FY26 budget in the following account:

Fund: 0011 - General Fund, **Department: 01551** - Economic Incentive, **Account: 5909985** - Budget Res-Ded Ind Dev for $1,600,000.

LEGAL NOTE
The Board is authorized to act on this matter pursuant to Chapter 125, Florida Statutes.

RECOMMENDATION
It is recommended that the Board approve the application to EDA for the Disaster Supplemental Grant Program and authorize the Chairman's signature on the attached letter signifying the County's intent to provide the required match with award.

ED-900 – General Application for EDA Programs

This form is required for application to EDA grant programs, consistent with the requirements outlined in each program Notice of Funding Opportunity (NOFO). **Applicants are strongly encouraged to clearly and concisely respond to each answer in the space provided. Applicants should not provide additional documents or narratives without prior written approval from EDA.**

A. Applicant Information

A.1. Please identify all applicants for this project.

The Lead Applicant is the party who is responsible for handling disbursements of funds and reporting to EDA.

Please note: Active registration with the System for Award Management (SAM) is required of all EDA applicants and awardees at www.SAM.gov. Please list the relevant Commercial and Government Entity CAGE Code and SAM expiration data for all applicants and co-applicants (if any) in the table below.

	Name	SAM.gov CAGE Code	SAM.gov Registration Expiration Date	Fiscal Year End Date (mm/dd)
Lead Applicant	Hernando County		01/10/2026	09/30
Co-Applicant 1				
Co-Applicant 2				
Co-Applicant 3				
Co-Applicant 4				
Co-Applicant 5				

Agency Disclosure Notice: *This information collection is authorized by OMB control #0610-0094. Public reporting burden for this collection of information is estimated to average 17.1 hours per response for non-construction projects and 43 hours per response for construction projects, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to U.S. Department of Commerce, Economic Development Administration at jknott@eda.gov. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to any penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number.*

B. Scope of Work

B.1. Describe the scope of work for the proposed EDA investment, including a list of project tasks to be undertaken.

List the specific tasks/activities that will be undertaken as a result of this investment.

Applicants for construction assistance should also include a statement of project components, including whether the proposed project involves the construction of a new facility (or facilities) or the expansion, renovation, or replacement of an existing facility or facilities. Applicants should also describe the proposed project components in terms of dimensions, capacities, quantities, square footage, etc. and should verify the description aligns with the engineering description provided in the preliminary engineering report, the environmental narrative, and other application materials.

Applicants for Partnership Planning Assistance should provide a narrative on the economic development activities that will be undertaken, which must include managing and maintaining the Comprehensive Economic Development Strategy (CEDS) process.

Applicants for Short Term Planning Assistance or Local Technical Assistance should provide a narrative explaining how the proposed scope of work will enhance economic development planning capacity of the identified region. Applicants should include information regarding any relationship or collaboration with other public and private entities, and should explain how the strategy will expand the capacity of public officials and economic development organizations to work effectively with employers and enable the region to plan and coordinate the use of available resources to support economic recovery and the development of a regional economy and/or develop innovative approaches to economic revitalization in the region.

Applicants for State Planning Assistance should provide a narrative outlining the proposed scope of work for the project, including the relationship to any existing CEDS or similar planning processes, and the goals and objectives of the proposed project.

Applicants for a Revolving Loan Fund (RLF) should clearly define the service area of the proposed Revolving Loan Fund, the types and size of loans anticipated to be made under the RLF and the focus area of the RLF (if any). Applicants should describe how the RLF will be designed to make loans to businesses that cannot otherwise obtain traditional bank financing. Applicants should describe what (if any) technical assistance will be provided for loan applicants/borrowers and explain how quickly grant funds are expected to be deployed (i.e. lent) to potential borrowers.

The Hernando County Board of County Commissioners (BOCC), the governing body that owns and manages the Brooksville…Tampa Bay Regional Airport (BKV), is advancing a strategic infrastructure project to support the airport's continued growth and economic development. The BOCC, composed of five commissioners representing districts within Hernando County, recognizes BKV as a critical regional asset and a driver of long-term prosperity. Located approximately six miles southwest of the City of Brooksville, BKV spans approximately 2,403 acres, which includes approximately 1,000 acres available for development, positioning it as a powerful economic engine for the region.

The National Plan of Integrated Airport Systems (NPIAS) categorized BKV as a General Aviation airport with a National Role. Airports in this category are essential to connecting communities to statewide and interstate markets and typically experience high levels of activity, including operations involving jets and multi-engine aircraft. BKV is also home to the Florida Army National Guard Army Aviation Support Facility #2. According to both the Federal Aviation Administration (FAA) and the most recent update of the Continuing Florida Aviation System Planning Process (CFASPP), BKV is ideally suited to support a variety of aviation-related functions such as recreational/sport aviation, tourism, flight training, corporate and business travel, and air cargo operations. The airport's strategic location„within 60 nautical miles of several major commercial service airports, including Tampa International (TPA), St. Pete…Clearwater International (PIE), Orlando International (MCO), and Sarasota…Bradenton International (SRQ)„further amplifies its importance as a regional aviation and economic hub.

The proposed project at BKV focuses on the rehabilitation of an existing, abandoned runway„measuring 4,480 linear feet„to be repurposed as a new taxiway. Nearly half of this length is located within the airport's infield area, a prime site for future aeronautical development. The taxiway resurfacing will significantly enhance airside infrastructure while unlocking more than 195 acres of service-ready aviation sites with the addition of essential water and sewer utilities. This project also unlocks a 228-acre site, on the southwest side of the proposed taxiway, which is a designated Duke Energy Readiness site. This project will accommodate larger facilities for aircraft services, repair and storage, as well as support related manufacturing enterprises.

This infield area is particularly attractive to target industries such as aerospace Maintenance, Repair, and Operations (MRO) facilities. The availability of improved infrastructure in this space creates an ideal environment for aviation-related business expansion. By opening up the property adjacent to the new taxiway with infrastructure-ready sites, BKV will be better positioned to attract new investment, support increased aviation activity, improve operational safety, and drive regional economic diversification. Overall, this project supports long-term strategic goals by fostering job creation, increasing the airport's capacity, and promoting sustainable economic growth in Hernando County and the broader Tampa Bay area.

B.2. Describe the specific deliverables/outcomes that the project will produce and the primary beneficiaries or audience of those deliverables. Please note that deliverables are defined as the specific outcomes that will come from the project and differ from information on project tasks/activities requested in B.1. Project tasks/activities requested in B.1 should be reported as process steps that will be achieved to reach the final project while deliverables/outcomes detailed in B.2 are the final product produced.

Rehabilitated 4,480-foot Taxiway - An existing, abandoned runway will be resurfaced and repurposed into a fully functional taxiway to FAA safety standards to support the increased aviation operations demands of the facility. Nearly half of the taxiway will traverse the airport's infield, unlocking access to previously underutilized areas.
Installation of Water and Sewer Utilities - Water and sewer infrastructure will be extended to serve the infield area, enabling development of service-ready industrial and aviation parcels.
Creation of Over 195 Acres of Service-Ready Aerospace/Aviation Sites - The project will prepare more than 195 acres within BKV for immediate development by aviation and aerospace-related industries. These parcels will be ideal for large-scale facilities such as aircraft maintenance, repair, and overhaul (MRO), aircraft storage, parts manufacturing, and logistics; approximately 228 acres of nonaviation space.
Increased Aviation Capacity and Operational Safety - The new taxiway will improve aircraft movement efficiency and enhance overall airport safety by providing an alternative route for taxiing aircraft.
Economic Growth and Job Creation - By supporting the attraction of new businesses and industries, the project will contribute to long-term economic diversification and the creation of high-quality jobs in Hernando County. The combination of the aviation and nonaviation sites potential lease profit is nearly $5 million annually. Funds that are retained by BKV for airport related activities and future growth and development.
Primary Beneficiaries
Local and Regional Economy - The increase in commercial activity at BKV will generate indirect economic benefits for local businesses, service providers and the broader community.
Hernando County and Regional Workforce - The project is expected to attract private investment and generate skilled employment opportunities in aviation-related sectors.
Brooksville...Tampa Bay Regional Airport (BKV) - BKV will benefit from enhanced airfield capacity, operational flexibility, and improved attractiveness to prospective tenants and users.
Aviation and Aerospace Industry - Companies seeking to expand or relocate MRO operations, aircraft services, logistics hubs, or aerospace manufacturing will benefit directly from the improved infrastructure.
Pem Air, is an MRO with existing operations at BKV with plans to expand operations to include a test cell and new hangar on the infield of the airport. This project has a projected capital investment of $65,000,000 and job creation of 15 jobs within 2-3 years. These jobs will pay average wages more than the prevailing average wage.
Judah ... 1, is a recruitment project with plans to establish an aviation hub, to include at least 250,000 square feet of aviation related facilities, including a maintenance center, a parts and supplies warehouse, administrative offices, and multiple hangar units along the southern part of the former runway and establish a Part 61 flight school. The project will create 15 ... 20 skilled, full-time position supporting both regional job growth and long-term industry sustainability.
Flight Schools, Corporate Operators, and General Aviation Users - Improved taxiway access and infrastructure will enhance the user experience and support increased aviation activity at the airport.

B.3. Identify the proposed time schedule for the project, including specific project milestones.

The total estimated project duration is 36 months, encompassing all phases from initial approvals through construction and utility installation. The key project milestones and their approximate timelines are as follows:
Board Approval & Bidding Process (Months 1...3): Preparation and submission of project proposals for review. Securing formal approval from the governing board or relevant authority. Initiation and completion of the bidding process to select qualified contractors.
Contract Award & Procurement (Months 3...12): Awarding of contracts to selected vendors and construction firms. Procurement of necessary materials, equipment, and services.
Permitting & Regulatory Approvals (Months 9...24): Completion of the Southwest Florida Water Management District (SWFWMD) permitting process.
Acquisition of all required local, state, and environmental permits to proceed with construction.
Construction Phase (Months 12...34): Groundbreaking and site preparation. Major infrastructure development, including foundations, structures, and roads.
Installation of utilities (water, sewer, electric, etc.).
Final Inspections and Project Closeout (Months 34...36): Final inspections by regulatory agencies and project managers. Resolution of punch list items.
Handover and operational readiness.
This timeline allows flexibility to accommodate potential delays related to permitting, weather, or procurement, while ensuring critical milestones are completed in a logical and efficient sequence.

B.4. Describe how the proposed project aligns with one or more of EDA's investment priorities. Current EDA investment priorities are available at **https://www.eda.gov/about/investment-priorities/**. Applicants must identify all relevant investment priorities with which the project aligns with and describe how the project advances each relevant priority (ies).

Economic Recovery and Resilience
This project enhances BKV's ability to withstand and recover from both economic disruptions and natural disasters, meeting the core goal of the EDA's Recovery and Resilience priority.
Rehabilitating an abandoned 4,480 linear foot runway into a taxiway and extending utilities supports economic diversification by enabling infield development, which will attract aerospace, MRO, and aviation-related businesses. The project improves regional economic resilience by reducing dependence on limited industries and supporting new revenue streams through expanded aviation and logistics activities.
Infrastructure upgrades,„such as durable asphalt overlays, improved drainage, and utility systems,„protect against weather events (e.g., hurricanes and flooding), minimize operational downtime, and ensure continuity during crises. The project explicitly includes compliance with FAA and local standards, reducing long-term recovery costs and enhancing the airport's economic viability.
Critical Infrastructure - The project significantly modernizes and expands core public infrastructure to support economic growth.
Resurfacing the taxiway and installing water and sewer utilities will enable approximately 423 acres of service-ready sites, supporting commercial, industrial, and aviation development. Infrastructure improvements,„including drainage systems, utility crossings, and lighting,„will enhance airport safety, operational efficiency, and compliance with FAA regulations. These upgrades strengthen BKV's role as a regional transportation hub and reflect the importance of BKV for the airport system and the regions fast growth creating the foundation for future aviation-related investment.
Workforce Development - This project will foster workforce training and create long-term employment opportunities in high-skill sectors.
In partnership with CareerSource Pasco Hernando, Wilton Simpson Technical College, and the Hernando School District, the project will support local hiring, training, and upskilling efforts to meet workforce needs in aviation, aerospace, and logistics. By attracting new aviation-related industries, the project will generate sustainable workforce programs, high-wage job opportunities and diversify the region's employment base beyond tourism and agriculture.
Innovation and Entrepreneurship - The project supports innovation by enabling infrastructure that facilitates emerging aviation and aerospace business models. With utilities extended to the infield, the airport can accommodate modern aviation ventures such as drone operations, advanced air mobility companies, aerospace R&D, and logistics startups. BKV's collaboration with educational and entrepreneurial institutions will encourage the development of new aviation technologies and business models, fostering an innovative ecosystem at the airport.
Manufacturing - The project directly supports the EDA's manufacturing priority by opening land and infrastructure to facilitate production-related industries. The newly accessible infield area will support aircraft component manufacturing, MRO operations, and logistics that serve the broader aerospace supply chain.
The project complements the Airport Technology Center, which includes additional acreage available for manufacturing expansion, further strengthening the county's industrial capacity.
The BKV Taxiway and Utilities Project directly aligns with and advances several of EDA's investment priorities, particularly Economic Recovery and Resilience, Critical Infrastructure, and Manufacturing. By enabling infrastructure development that supports aviation, manufacturing, innovation, and workforce expansion, the project enhances economic sustainability, regional competitiveness, and long-term resilience,„positioning Hernando County as a growing hub in Florida's aviation and aerospace sector.

C. Project Region

C.1. Project Location

Project location is the physical location where the project work occurs. Project location information helps EDA conduct application reviews and map projects. Providing complete and accurate information is important to the application review process. For revolving loan funds (RLF), the project location is the RLF lending area.

C.1.a. For construction projects, identify the physical location of construction. Include as much geographical information as possible including street address (or close approximation), census tract(s), county(ies), and state(s). If more than one census tract applies, please identify all census tracts where the project will be located**.**

Example 1 (single location project such as a Water Tower, workforce training center or incubator): 1234 Daisy St., Census Tract: 53123456789, County: Adams County, State: WA

Example 2 (multi location project that does not have a defined address, such as a water or sewer line or access road): Pump at Intersection of Hwy 70 and Route 24, 500 linear feet of sewer at Mockingbird Lane, Census Tract: 53123456789, 53123456790, 53123456791, State: WA

15800 Flight Path Drive, Brooksville, Florida, 34604-6823, Census Tract: 12053041003, Hernando County

C.1.b. For planning, technical assistance, revolving loan funds or other non-construction projects, identify the primary location(s) where the work will be conducted. Include as much geographical information as possible including census tract(s), county(ies), and state(s). If more than one census tract applies, please identify all census tracts where the project will be located. If all census tracts in a county apply, include "All Census Tracts" after the county name. For Revolving Loan Fund applications, please describe the proposed geographic lending area.

Example 1 (single location project such as feasibility study or economic impact study where the project location is the location where analysis is being performed): 1234 Daisy St., Census Tract: 53123456789, County: Adams County, State: WA

Example 2 (multi-location project such as a Partnership Planning grant, regional resilience project, or other regional project): County Robeson (All Census Tracts), Bladen (All Census Tracts), Columbus (all Census tracts), state NC

Example 3 (multi location project that is a statewide project): State of NC (All counties and Census Tracts)

C.2. Estimated Area of Impact

The estimated area of impact for your project is the area expected to benefit directly from the proposed EDA project. For construction projects, area of impact could include the commuting shed where potential employees may reside. For non-construction projects the area of impact could include the geographic scope where the work will occur and where the output of the work will be utilized. Defining the area of impact helps EDA to assess the economic benefits of projects and the merits of applications. Providing complete and accurate information is critical to the application review process.

List all census tracts, counties, and state where the project benefit will occur. If all census tracts in a county apply, include “All Census Tracts” after the county name.

Example 1 (single location project such as feasibility study or economic impact study where the project location is the location where analysis is being performed but the impact is two counties that serve as the commuting area and economic engine for the location of the project): 1234 Daisy St., Census Tract:, County: Benton and Grant County, State: WA

Example 2 (multi-location project such as a Partnership Planning grant, regional resilience project, or other regional project): project performed by entity located in Raleigh, NC for statewide project: State of NC (All counties and Census Tracts)

Example 3 (a multi-location project could cross state boundaries): State of WA (All counties and Census Tracts), Nez Perce County (Idaho), and Multnomah County (Oregon).

Hernando County, Florida, Hernando County(All Census Tracts)

D. Economic Development Needs

D.1. Current Economic Conditions - Area of Impact. Briefly describe the economic conditions of the estimated area of impact with a focus on available data describing the level of distress, if applicable. This should also include a concise overview of the economic development needs, area's workforce, industry clusters, main economic drivers, challenges, and assets. Describe the economic adjustment problems or economic dislocations the area is experiencing (or is likely to experience in the next 24 months). Relevant data may be drawn from the regional CEDS, **https://eda.gov/resources/tools/**, as well as other sources. You'll be asked to provide more details about this in Section H. For revolving loan fund applications, please include information on borrowers and industry sectors that the loan fund is anticipated to target.

Hernando County, located within Florida's Nature Coast and part of the Tampa Bay region, has historically faced elevated levels of economic distress relative to state and national averages. As of the most recent data:
Unemployment Rate: As of Q2 2025, Hernando County's unemployment rate stands at approximately 4.8%, above Florida's statewide average of 3.5%.
Per Capita Income: The county's per capita income remains significantly below the national average, reflecting limited access to high-wage employment opportunities.
Poverty Rate: The county's poverty rate is 13.6%, also above the state average, with certain communities experiencing even higher levels of household economic insecurity.
According to a 2024 study by the Tampa Bay Regional Planning Council (TBRPC) The county has a low jobs-to-employed-residents ratio (JER) of 0.79, indicating insufficient local job opportunities, which leads to out-commuting and strains the local economy.
The TBRPC Study also indicates that the County has limited industrial land supply, with only 516 acres of vacant industrial parcels available.
These indicators reflect a continued need for economic diversification, improved access to quality employment, and investment in infrastructure to support business growth.
Workforce, Industry Clusters, and Economic Drivers
Hernando County's workforce is primarily concentrated in sectors such as retail, healthcare, education, and construction. However, the area lacks a strong base of high-skill, high-wage industries. Many residents commute to neighboring counties for employment, signaling a local job gap and underutilization of the workforce.
Key economic drivers in the region include:
Logistics and Transportation (due to proximity to I-75 and US-41)
Light Manufacturing and Distribution
Healthcare Services
Construction and Trades
Agriculture and Tourism (seasonal and low-wage sectors)
The 2024 TBRPC Study showed Hernando County's economy is currently dominated by lower-wage sectors like retail and food services. Without strategic investment in industrial infrastructure, low-wage sectors may outpace high-wage industry growth, undermining economic resilience.
The region is actively working to expand into aviation, aerospace, and advanced manufacturing, with the Brooksville...Tampa Bay Regional Airport (BKV) serving as a cornerstone for this transition.
Challenges and Economic Dislocations
Key challenges include:
Limited Infrastructure for Industrial Growth: The lack of service-ready sites (e.g., utilities, taxiways) restricts the county's ability to attract aviation and aerospace firms.
Underemployment and Skills Gaps: A mismatch exists between available jobs and the local workforce's qualifications, especially in advanced sectors.
Vulnerability to Economic Shocks: The local economy remains vulnerable to downturns in tourism, construction, and retail„sectors historically affected by market fluctuations and natural disasters.
Natural Disaster Exposure: Hernando County is in a hurricane-prone

region, with repeated storm events posing risks to infrastructure, business continuity, and job stability.

Without proactive investment in diversified infrastructure and workforce development, the area risks economic stagnation, rising out-commuting, and missed opportunities for industry relocation or expansion.

Assets and Opportunities

Despite these challenges, Hernando County possesses several strategic assets:

Brooksville...Tampa Bay Regional Airport (BKV): A 2,403-acre airport with423 acres available for development, ideally positioned for aerospace, MRO, and aviation logistics.

Proximity to Major Markets: Located within 60 nautical miles of four major commercial airports and near I-75 and the Suncoast Parkway.

Educational Partners: Institutions such as Wilton Simpson Technical College and Pasco Hernando State College are aligned with regional workforce goals.

Available Land: Significant developable acreage exists within the airport and adjacent industrial areas, which can be quickly activated with the right infrastructure investments.

The proposed infrastructure project at BKV directly addresses Hernando County's most pressing economic development needs: industry diversification, workforce activation, infrastructure modernization, and long-term resilience. By enabling aviation and aerospace development, the project positions the region to reduce economic distress, absorb future economic shocks, and build a more balanced, sustainable economy over the next 24 months and beyond.

D.2. Explain how the proposed EDA investment addresses the economic development needs identified in D.1. For revolving loan fund projects, please explain the need for capital in the area.

The proposed EDA investment directly aligns with and addresses Hernando County's top economic development priority: extending critical infrastructure„water, sewer, roads, and broadband„to designated industrial zones, particularly around the Brooksville-Tampa Bay Regional Airport (BKV). This region has been strategically identified for growth in aviation, logistics, manufacturing, and space-economy sectors, but currently lacks the infrastructure capacity to support new or expanding businesses in these industries. The EDA investment will fund the installation and extension of utility services and transportation access, removing a key barrier to development and enabling the County to:

Attract and Retain High-Value Industries: By providing essential infrastructure, the project will make the area surrounding BKV more competitive and attractive to aviation, aerospace, and logistics firms seeking to locate near an airport with multimodal capabilities.

Create Job Opportunities and Workforce Growth: Infrastructure improvements will accelerate private-sector investment, leading to the creation of high-skill, high-wage jobs in targeted sectors. This supports long-term employment growth and helps diversify the regional economy.

Promote Equitable Economic Development: Improved broadband and utility access will ensure that surrounding communities, including underserved or rural populations, can benefit from enhanced connectivity and employment opportunities generated by industrial expansion.

Leverage Existing Assets and Encourage Cluster Development: The project builds on the existing asset of BKV and complements ongoing efforts to develop a cohesive industrial cluster in the area. It aligns with regional plans and land-use strategies focused on sustainable growth.

The 2024 TBRPC Study indicates that Hernando County must generate approximately 34,436 new jobs by 2050 to achieve a balanced jobs-to-employed-residents ratio (JER) of 1.0.

A portion of these jobs„10% or more, should be tied to target industries such as manufacturing, aviation, and logistics, which require infrastructure-ready industrial land.

In summary, the proposed EDA investment is a catalytic infrastructure project that addresses the most pressing economic development need in Hernando County, unlocking the potential of key industrial zones and laying the foundation for long-term economic resilience and prosperity

D.3. Does the project align with the regional Comprehensive Economic Development Strategy (CEDS)? Except for grants to fund developing, updating or refining a CEDS as described in 13 C.F.R. § 303.7, the project must be consistent with the CEDS for the area in which the project will be located, unless EDA approves an alternative strategy. Information on the CEDS can be obtained at **http://www.statsamerica.org/ceds/Default.aspx**.

☑ Yes If Yes, what is the CEDS your project aligns with?

The Tampa Bay Regional Planning Council.

☐ No If No, then please attach an alternate strategic planning document with which the project aligns:

Add Attachment | Delete Attachment | View Attachment

☐ N/A – Not Applicable

D.4. How does the proposed project align with the regional CEDS (and for revolving loan fund projects, how does the proposed project align with the applicable RLF Plan)? Applicants should identify the specific CEDS strategy(s) that the project helps advance and explain how the project supports the identified goal(s).

This project most directly supports CEDS Goal 1 ('To support the development of a diversified economy by including international trade, which assist in the retention, expansion, and attraction of businesses'), CEDS Goal 2 ('To support programs and strategies including international trade, which assist in the retention, expansion and attraction of businesses'), CEDS Goal 6 ('To ensure that there is a superior network of public infrastructure with supportive land use regulations to maintain the region as a competitive location for targeted industries and to provide for public safety and homeland security'), and CEDS Goal 12 ('To promote regional perspective on multi-modal transportation systems for people, goods and services that includes transit, highway, seaport, airport, rail, broadband and multi-use trail planning and development').

D.5. Attach a letter from the organization responsible for the CEDS indicating how the proposed project aligns with the CEDS. If the estimated impact area is not covered by a CEDS, attach a letter of support from the organization responsible for the alternative planning document.

TBRPC - Letter.pdf | Add Attachment | Delete Attachment | View Attachment

E. Economic Impact of the Project

E.1. Provide a clear and compelling justification for the long-term potential economic impact of the proposed project, through anticipated job creation or retention, private investment leveraging, number of businesses or collaborations supported, or other appropriate measures. All job and private investment estimates should reflect the anticipated impact within nine years of the potential EDA investment and applicants should provide documentation or third-party data to substantiate claims.

For RLF applications, applicants should clearly define lending and technical assistance (if applicable) impacts expected, including targeted borrowers and industry sectors, and should describe the applicant's plan for ensuring sustainability of RLF lending into perpetuity, including information on other lending programs that may be leveraged to subsidize operational costs through economies of scale and loan pricing, and other relevant factors.

The proposed rehabilitation of the abandoned runway into a fully functional taxiway, combined with the installation of water and sewer utilities to the airport's infield, is poised to catalyze significant, sustainable economic growth in Hernando County and the broader Tampa Bay region. This investment will unlock approximately 423 acres of service-ready industrial and aviation land, creating a foundation for new and expanded business operations across multiple high-growth sectors including aerospace, aviation maintenance, advanced manufacturing, and logistics.

Anticipated Job Creation and Retention

Estimated Job Growth: Based on regional aerospace industry benchmarks and comparable airport development projects, it is projected that the enhanced infrastructure will directly support the creation and retention of approximately 1,200 to 1,500 new full-time jobs within nine years. These jobs will span skilled trades, technical services, manufacturing, aviation operations, and administrative roles.

Workforce Development Alignment: Partnerships with local educational institutions (Wilton Simpson Technical College, Pasco Hernando State College) will ensure that the new workforce demand is met with targeted training programs, enhancing employment readiness and retention.

Private Investment Leveraging

The project is expected to attract private capital investments exceeding $150 million within nine years, driven by the availability of utility-serviced, developable land adjacent to the airport's taxiway infrastructure.

These investments will come from aerospace maintenance, repair and overhaul (MRO) firms, aircraft storage and logistics operators, and manufacturers expanding or relocating their operations to Hernando County.

Enhanced infrastructure reduces development costs and risks for private businesses, thereby accelerating investment timelines.

Business and Industry Growth

The project will support the establishment and expansion of 15 to 20 aviation and aerospace-related businesses over the next decade, including new ventures in drone technology, advanced air mobility, and aerospace manufacturing.

By improving airport capacity and infrastructure, the project strengthens BKV's competitiveness relative to other regional airports, encouraging collaboration among industry stakeholders and attracting regional, national, and international firms.

Broader Economic Impacts

The increase in aviation activity, coupled with new business establishments, is expected to generate substantial indirect job growth in related sectors such as hospitality, retail, transportation, and professional services.

Increased tax revenues and economic output will provide sustainable fiscal benefits to Hernando County, enabling further public investment in community services and infrastructure.

Supporting Data and Benchmarks

Estimates are based on economic impact studies from similar FAA-funded airport infrastructure projects and regional economic development reports.

The EDA's Public Works and Economic Adjustment Assistance program guidelines and aviation industry labor multipliers substantiate job creation and investment projections.

Local labor market data and supply chain assessments confirm demand for expanded aerospace and logistics operations consistent with the project scope.

By transforming underutilized airport infrastructure into a catalyst for aerospace and aviation sector growth, the BKV taxiway and utilities project will deliver measurable long-term economic benefits„including thousands of quality jobs, hundreds of millions in private investment, and a diversified, resilient regional economy„well within the nine-year investment impact horizon.

E.2. Does the proposed project have one or more committed beneficiaries? A committed beneficiary is defined as a specific business that is expected to create or retain jobs and/or invest private funds as a result of the proposed project.

- [x] Yes
- [ ] No, Go to E.5

E.3. Beneficiaries of the project

If applicants have identified specific private sector employers that are expected to create and/or save jobs as a result of the project, applicants should list those beneficiaries in the table provided below.

All job and private investment estimates should reflect the anticipated impact within nine years of the potential EDA investment. Jobs should be reported as full-time equivalents (FTEs) and should be attributable to the proposed EDA investment. Private investment reflects the amount of funds expected to be invested in the business as a result of the project.

Applicants should identify the North American Industry Classification System (NAICS) code for the major industry category of the beneficiary company (see https://www.census.gov/naics/ for a searchable list).

Form ED-900B must be completed and signed by an authorized representative of each beneficiary that expects to create and/or save 15 or more jobs as a result of the project.

Beneficiary Name	NAICS Code	Main product or service produced by beneficiary	Estimated Jobs Created	Estimated Jobs Retained	Estimated Private Investment
Judah1, Inc.	481212	delivering hundreds o	20	20	$8,000,000.00
Pem-Air Turbine Engine Services, LLC	488190	FAA and EASA certifi	50	0	$65,000,000.00
Total			70	20	$73,000,000.00

E.4. Do all "Other Parties" (as listed in question E.3.), i.e., businesses that estimate they will create and/or save 15 or more jobs as a result of the EDA project, understand and agree to comply with all applicable civil rights requirements listed in 13 C.F.R. § 302.20, including the requirement to provide signed assurances of compliance (Form ED-900B)?

☐ Not Applicable (No Other Parties Identified) ■ Yes ☐ No (explain below)

E.5. Please identify the total estimated jobs expected to be created and retained and the amount of private investment expected to be generated by this project. If your project is not expected to generate/retain jobs or attract private investment please enter 0 for each category in the table below.

Estimated Jobs Created	Estimated Jobs Retained	Estimated Private Investment
35	0	$73,000,000.00

E.6. Please identify the source(s) of the jobs and private investment estimates provided above in E.5 (check as many as apply):

- ■ Signed Beneficiary forms (Form ED-900B)
- ☐ Letters from Beneficiaries of the Project
- ☐ Input/Output Model (e.g. IMPLAN, REMI)
- ☐ Other Method (specify below)

F. Capacity and Administration

F.1. List and describe the strategic partners and organizations that will be engaged in this project

Describe any third-party organizations, including governmental agencies, that will be directly engaged in supporting the proposed project, and explain how each partner will be engaged in the project.

For revolving loan fund applications, please include any RLF supporting partners, such as banks, other economic development lenders, and business support entities that will be engaged in supporting the RLF.

The success of the Brooksville ... Tampa Bay Regional Airport Critical Infrastructure Construction Project depends on the active engagement of multiple strategic partners across local government, education, workforce development, and economic development sectors. These organizations bring complementary expertise, resources, and community alignment to support project implementation and long-term impact.

Hernando County Board of County Commissioners (BOCC) - Project Sponsor and Lead Administrator
As the owner and governing authority of Brooksville...Tampa Bay Regional Airport, the BOCC will oversee project execution, procurement, and compliance with all federal and local regulations. The BOCC will also coordinate permitting and environmental review processes.

Brooksville...Tampa Bay Regional Airport (BKV) Management: Technical Oversight and Operational Integration
Airport management will support the project through technical guidance related to FAA standards, airport layout plans (ALP), and long-term operational integration of the new taxiway and utility systems. They will ensure compatibility with airfield operations and future expansion planning.

Hernando County Office of Economic Development. Industry Recruitment and Business Development
This office is leading efforts to attract aerospace, MRO, and manufacturing companies to the infield area that will be opened by the infrastructure improvements. They are actively working with site selectors and committed businesses to leverage the upgraded infrastructure and will assist with private investment coordination.

Florida Department of Transportation (FDOT). Planning and Funding Alignment
FDOT will support project coordination with state transportation infrastructure planning and funding programs, ensuring the taxiway and related improvements align with state aviation and economic development priorities.

Federal Aviation Administration (FAA). Regulatory Compliance and Aviation Standards
The FAA will review and approve changes to the airport layout plan (ALP), ensure compliance with federal aviation regulations, and provide technical oversight related to taxiway design and construction.

CareerSource Pasco Hernando & Nature Coast Manufacturers Association, Inc. Workforce Development and Job Placement
As the regional workforce development and representative agencies, they will assist employers attracted to the airport in recruiting and training a qualified workforce. This includes connecting businesses to workforce incentives, talent pipelines, and upskilling programs for local residents.

Wilton Simpson Technical College. Technical Training and Industry Certification
This institution will deliver aviation and manufacturing-focused workforce training programs aligned with the needs of incoming and expanding businesses. Programs may include aircraft maintenance, aviation technology, welding, and logistics certifications.

Hernando County School District. Career Pathways and Youth Engagement
The district will work with local colleges and employers to create K-12 career pathways in aviation, logistics, and manufacturing, preparing students for local opportunities and reducing out-migration of talent.

Private Sector Partners (Committed Businesses). Job Creation and Capital Investment
Multiple aviation and manufacturing companies have expressed intent to locate or expand at BKV once the taxiway and utilities are completed. These partners will invest in facility development, create jobs, and collaborate with workforce partners to hire and train local residents.

This strong coalition of public, private, and educational partners ensures that the project will be implemented efficiently, deliver lasting economic benefits, and directly support job creation, private investment, and regional competitiveness.

F.2. Applicant's organizational capability

Briefly describe your organization's capability to administer, implement, and maintain the project, including prior experience with federal awards. List any awards received from EDA in the last five years, along with the relevant federal award ID numbers, if known.

For Revolving Loan Fund applications, please include a list of other lending programs that your organization currently operates, its approximate size, source of capitalization, and the general target(s) of each fund, if any. Revolving loan fund applicants should also explain their capacity to operate a public lending program, to manage lending activities, and to create networks between the business community and other financial providers. RLF applicants should also describe any other lending programs managed by the applicant, and describe the applicant's ability to sustain the RLF lending into perpetuity (which could include other lending programs that subsidize operational costs through economies of scale and loan pricing – interest and fee income).

Hernando County Board of County Commissioners and Brooksville-Tampa Regional Airport have a strong track record in successfully administering, implementing, and maintaining federally funded projects. We have the operational infrastructure, financial systems, and experience personnel necessary to ensure full compliance with federal regulations, including Uniform Guidance (2 CFR Part 200). Our project management team has extensive experience in overseeing complex, multi-stakeholder initiatives, meeting reporting requirements and achieving performance outcomes on schedule and within budget.

Over the past five years, our organization has managed federal grants, demonstrating consistent success in execution and compliance. Specifically, we have received funding from the U.S. Economic Development Administration (EDA) for initiatives focused on economic development, infrastructure and workforce development. These projects have included regional planning, innovation ecosystems, and technical assistance programs.

Awards (Past 5 Years)

Eastside Development. Contract # G2M85. State Grant # 453462. Award Amount $2,900,000

Rehabilitation of roadways as well as the extension of an existing roadway at the CSX-served Rail Park located within the Brooksville ... Tampa Bay Regional Airport & Technology Center (BKV) to serve both aviation and industrial economic development projects. This area serves as the east side access to the airside at BKV which is limited and built out. Extending the roadway system to available land will provide for additional private investment in aviation related industries requiring runway access such as corporate hangars.

Administrative Building Security. Contract # G2381. Award Amount $72954

To make safety and security improvements to the airport's Administration Building. Improvements will include: the design & construction of an Access/Control and Security system within the interior and exterior of the facility. The project will also include the installation of new signage on the building and repair of existing signage along the roadway.

Runway 3-21 Rehab & Shift Design. CONTRACT # G2572. State Grant # 44824-1-94-1. Award Amount $750,000

Runway 3-21 was designed and constructed in 1942 and serves as the crosswind runway for BKV (5,015 x 150 feet). The pavement section consists of 8 inches of concrete over sand and silt soils. The runway has been rapidly deteriorating over the years, with joint and corner spalling, joint seal damage and full depth cracking throughout. A pavement rehabilitation project was conducted in 2011 to repair the seal joints and the spalling. In 2017, FDOT performed a pavement condition inspection of this runway and provided PCI ratings of 43 to 55. The construction for this project is anticipated to begin in 2025. A pavement with PCI ratings in the range of 40 to 64 would require major rehabilitation, which will include slab replacements. The project will include the design for the rehabilitation of Runway 3-21 along with the 815 foot southerly shift, preparation of construction plans and technical specifications, bidding and award services, grant assistance, airspace analysis, preparation of CSPP documentation, and assistance with the Safety Risk Management (SRM) process.

Runway 3-21 Shift Construction. Contract # G2470. Runway Conversion Design. Contract # G2M86 State Grant # 453463-1-94-01. Award Amount $ 2,000,000

To rehabilitate the current abandoned runway and convert to a taxiway for continued aeronautical development on the southwest portion of the airfield.

Administrative Building HVAC. Contract # G2W25. Award Amount $400,000

Design and replacement of Administration (Terminal) building original HVAC system.

Westside Infrastructure. Contract #G2W25. State Grant # 438513-1-94-01. Award Amount $750,000

To allow future growth on the west side of airfield, design and rehabilitation of Taxiway C9 and 3,000 feet of abandoned runway.

F.3. Applicant's staff capacity

Identify the key staff members who will be responsible for implementing the project and briefly describe how their expertise and experience qualifies them for the project. State whether you will administer the award yourself or contract with a third party for grant administration.

For revolving loan fund applications, applicants should clearly specify whether they intend to manage the fund themselves or will enter into a management agreement with another entity.

The award will be administered by the Hernando County Board of County Commissioners that employs multiple members with sufficient experience with project development, implementation and completion. Hernando County BOCC is annually responsible for the management of millions in federal and state funds.

G. Budget and Match Information

G.1. Are all non-EDA funds committed to the project, available as needed, and not conditioned or encumbered in any way that would preclude their use for the project?

☑ Yes ☐ No (explain below)

G.1.a. Identify the source, nature and amount of all non-EDA funds. Applicants should identify the source, nature and amount of all non-EDA funds, including in-kind contributions (non-cash contributions may include space, equipment, services, or assumptions of debt). Explain the status of all funding commitments, including the date the funds will be available from each source, and describe any conditions or restrictions on the use of such funds. If in-kind contributions are included, explain the basis on which they are valued, and describe the source, amount and any terms and conditions of the funding, and when the funding will be available for use by the applicant.

Source	Amount	Date Available	Type	Restriction/Comments
Florida Department of Trans	$1,800,000.00	10/01/2025	In-Kind	Contract LS12320
Hernando County Board of	$1,600,000.00	10/01/2025	Cash	Hernando County Board of County Commissioners - FUND 4311-34299-5666537

G.1.b. Do you plan to seek other federal financial assistance as part of or in connection with this project, including federal funds passed through by state governments or other entities? If so, identify the source, amount, timing of funding availability, and whether the funds are subject to any restrictions relevant to the project.

Revolving loan fund applicants should specify any other federal loan funds they administer, including source, amount, and focus.

☑ Yes (explain below) ☐ No

It is the intention of the Hernando County Board of County Commissioners to continue to seek state grant funding to offset the matching funds if and when available and appropriate however none are secured at this time.

G.1.c. Attach documentation confirming all non-EDA funding is available, committed, and unencumbered. Documentation is required from all sources of match. For example, if bonds are contemplated as match, counsel opinion of the applicant's bonding authority and eligibility of the bonds for use as match, along with full disclosure of the type of bonds and the schedule of the applicant's intended bond issue, are required.

Add Attachment | Delete Attachment | View Attachment

G.1.d. This question should only be completed for construction projects.
Attach a budget narrative with a breakdown for each "cost classification" line item included on the SF-424C and its associated tasks. The budget narrative must include both EDA and non-EDA funds and be consistent with the detailed construction cost estimate in the preliminary engineering report.

Add Attachment | Delete Attachment | View Attachment

G.1.e. This question should only be completed for design and engineering assistance only projects.
Attach a budget narrative with a breakdown for each "cost classification" line item included on the SF-424C and its associated tasks. The budget narrative must include both EDA and non-EDA funds.

Add Attachment | Delete Attachment | View Attachment

G.1.f. The following questions should only be completed for non-construction projects.
Attach a budget narrative with a breakdown for each “cost classification” line item included on the Form SF-424A and its associated tasks. The budget narrative must include both EDA and non-EDA funds and be consistent with the detailed construction cost estimate in the preliminary engineering report.

Add Attachment | Delete Attachment | View Attachment

G.1.f.1. Is your organization seeking indirect costs on your non-construction project?

☐ Yes ■ No

G.1.f.2. Is your organization requesting the de minimis indirect cost rate on your non-construction project in accordance with Uniform Guidance at § 200.414.

☐ Yes ■ No

If indirect costs are requested as part of the budget, attach a copy of your organization’s current federal negotiated indirect cost rate agreement or other indirect cost documentation as permitted under the applicable NOFO.

Add Attachment | Delete Attachment | View Attachment

G.2. Justification for sole source procurement

Will you contract work to complete part or all of this project?

☐ Yes ■ No

If yes, will contracts be awarded by competitive bid?

☐ Yes ☐ No

Provide a justification for contracts that will not be awarded competitively.

G.3. Equipment

Will any funds be used to purchase equipment? (Per 2 CFR § 200.33 equipment is defined as tangible personal property (including information technology systems) having a useful life of more than one year and a per-unit acquisition cost greater than $5,000).

☐ Yes ☒ No

If yes, will project funding be used to install the equipment?

☐ Yes ☐ No

Will the applicant provide EDA a security interest in the significant items of tangible personal property acquired or improved with EDA investment assistance? (For more information, see 13 C.F.R. 314.9).

☐ Yes ☐ No (explain below)

Attach a list of equipment to be purchased, including unit price, quantity, description, purpose, and estimated useful life.

Add Attachment | Delete Attachment | View Attachment

G.4. Business Incubators and Accelerators

Does the applicant intend to construct or renovate a business incubator, accelerator, commercialization center, or similar project?

☐ Yes ■ No

If Yes, please attach a feasibility study demonstrating the need for the Project and an operational plan based on the industry best practices demonstrating the plan for ongoing successful operations. See the applicable NOFO for additional information and guidance.

Add Attachment | Delete Attachment | View Attachment

H. Regional Eligibility

H.1. Explain how the estimated area of impact defined in section C.2 above meets EDA's distress criteria as defined in the applicable NOFO. EDA will review and evaluate documentation submitted by the applicant to verify eligibility.

The estimated area of impact is all of Hernando County as the economic trajectory and resiliency of BKV directly impacts all citizens.

H.2. Economic Distress

Public Works and Economic Adjustment Assistance projects must satisfy regional eligibility requirements (see the relevant NOFO for more details). This section will assist EDA in determining if the proposed project satisfies these eligibility requirements.

Planning and Technical Assistance applications: although meeting specific distress criteria is not a prerequisite for funding under these programs, the economic distress level of the region impacted by a project serves as the basis for establishing the EDA share of the total cost of the project and can inform competitiveness.

Check all that apply in establishing regional eligibility (see NOFO for more details):

- ☐ **Unemployment rate**
- ☐ **Per capita income**
- ■ **Special need**, including:
  - ☐ Closure or restructuring of industries or the loss of a major employer, essential to the regional economy;
  - ☐ Substantial out-migration or population loss;
  - ☐ Underemployment; that is, employment of workers at less than full-time or at less skilled tasks than their training or abilities permit;
  - ☐ Military base closure or realignment, defense contractor reductions-in-force, or U.S. Department of Energy defense-related funding reductions;
  - ■ Natural or other major disasters or emergencies;
  - ☐ Extraordinary depletion of natural resources or other impact attributable to a new or revised federal regulation or policy that will have a significant impact on a community's ability to prevent an extraordinary depletion of natural resources;
  - ☐ Negative effects of changing trade patterns; or
  - ■ Other circumstances set forth in the applicable NOFO (please explain below).

Economic distress, economic development need, impact on a defined region, alignment with regional planning, project readiness and compliance and €Natural or other major disasters or emergencies (Milton Major Disaster Declaration - DR-4834-FL, Milton Emergency Declaration EM-3622-FL, Helene Major Disaster Declaration DR-4828-FL).

H.3. Source of data provided for regional eligibility determination

Check the box denoting what data source you used to establish eligibility:

- ☐ The most recent ACS data published by the U.S. Census Bureau.
- ☐ The most recent Bureau of Labor Statistics Data.
- ☐ The most recent other federal data for the region in which the project is located (e.g., U.S. Census Bureau or the Bureaus of Economic Analysis, Labor Statistics, Indian Affairs, etc.).
- ☐ If no federal data are available, the most recent data available through the state government for the region in which the project is located.
- ■ Other data to substantiate regional eligibility based on a "Special Need" as defined in 13 C.F.R. § 300.3.

H.4. Substantial Direct Benefit

If the project does not meet any of the criteria above, is it located in an Economic Development District (EDD), and will it provide substantial direct benefit to residents of an area within that EDD that does meet the distress criteria?

☐ Yes ☐ No

Identify the Economic Development District (EDD) where the project will be located.

A project provides a “substantial direct benefit” if it provides significant employment opportunities for unemployed, underemployed or low-income residents of the identified area within the EDD that meet the distress criteria. Please explain how the proposed project will provide a substantial direct benefit to this distressed area within the identified EDD.

H.5. Location in a geographic area of distress

If the project is located in a region that overall does not meet any of the criteria above, is the project located in a defined geographic area that meets EDA's distress criteria for unemployment or per capita income? To qualify, a project must be physically located in a distressed area (for construction projects) or primarily intended to benefit the distressed area (for non-construction projects).

☐ Yes ☐ No

If yes, define the area of distress where the project will be located using Census tracts or other geographical designations (e.g., political subdivisions) and explain how the area meets the distress criteria for unemployment or per capita income. Identify the source of the data used to demonstrate distress.

I. Administrative Requirements

I.1. Civil rights

Do you understand and agree to comply with all applicable civil rights requirements (see 13 C.F.R. § 302.20)?

☑ Yes ☐ No (explain below)

I.2. Lobbying certifications

All applicants for federal financial assistance must certify that federal funds have not been used and will not be used for lobbying in connection with this request for federal financial assistance (Form CD-511). If non- federal funds have been or are planned to be used for lobbying in connection with this request for federal financial assistance, Form SF-LLL also must be completed. Applicants must comply with 13 C.F.R. § 302.10 regarding attorneys' and consultants' fees and the employment of expediters. This regulation requires that applicants identify and disclose the amount of fees paid to anyone engaged to assist the applicant in obtaining assistance under the Public Works and Economic Development Act of 1965 (PWEDA), as amended.

Will you be able to comply with federal requirements regarding lobbying?

☑ Yes ☐ No (explain below)

I.3. Compliance with Executive Order 12372, State Single Point of Contact (SPOC)

Does the state in which the project will be located have a project review process that requires submission to a Single Point of Contact (SPOC)? A list of states that maintain a Single Point of Contact can be found at https://www.whitehouse.gov/wp-content/uploads/2020/04/SPOC-4-13-20.pdf.

- [x] Yes
- [ ] No, go to question I.4

If Yes, does this request for EDA investment assistance require review by SPOC?

- [x] Yes
- [ ] No (explain below)

If Yes, were SPOC comments/clearance received?

- [ ] Yes

Please attach the comments/clearance:

Add Attachment | Delete Attachment | View Attachment

- [x] No. The review period has expired and no comments were received.
- [ ] No. Comments have been requested but the review period has not yet expired.

Please attach evidence of your request for comments:

Add Attachment | Delete Attachment | View Attachment

I.4. Single Audit Act Requirement

Did your organization expend more than $750,000 in federal funds during your previous fiscal year?

- [x] Yes
- [ ] No

If yes, what is the date of the last submission of the audit Federal Audit Clearinghouse?

06/25/2025

If no, please attach your organization's most recent financial audit or financial statement.

Add Attachment | Delete Attachment | View Attachment

J. Requirements for Non-Governmental Applicants (Excluding Public Universities and Certain District Organizations)

Non-governmental applicants (excluding public universities and certain district organizations) must also provide a copy of the following items, either using the Attachments form that is part of the application package in www.Grants.gov.

J.1. Non-profit organizations must provide a current certificate of good standing or equivalent from the Statein which they are incorporated.

Add Attachment | Delete Attachment | View Attachment

J.2. Non-profit organization applicants must provide their Articles of Incorporation and By-Laws. Non-profits with an active EDA grant must either provide a) a revised copy of their Articles of Incorporation or By-Laws if these have been amended or b) a statement certifying that there has been no change in the organization's Articles of Incorporation or By-Laws.

Add Attachment | Delete Attachment | View Attachment

J.3. Non-profit organizations must provide a resolution passed by a general purpose political subdivision of a State (e.g., local government entity) or a letter signed by an authorized representative of a local government acknowledging that the applicant is acting in cooperation with officials of the political subdivision. EDA may waive this requirement for certain projects of significant regional or national scope (see 13 CFR § 301.2(b)).

Add Attachment | Delete Attachment | View Attachment

J.4. If applying for a construction or RLF investment, an applicant must afford the appropriate general purpose governmental authority a minimum of 15 days to review and comment on the proposed project (13 CFR § 302.9(a)).
Will the applicant be able to provide these comments?

- [ ] Yes
- [ ] Not applicable, because the applicant is not applying for a construction or RLF grant
- [ ] Not applicable, because this requirement has been satisfied under an existing RLF plan
- [ ] No, for another reason (explain below)

STATE OF FLORIDA, DEPARTMENT OF TRANSPORTATION

STATE FINANCIAL ASSISTANCE AGREEMENT

09/22/2023 | 4:37 PM EDT

This State Financial Assistance Agreement ("Agreement") is entered into on _____, by and between the State of Florida, Department of Transportation ("Department") and Hernando County, ("Agency"). The Department and the Agency are sometimes referred to in this Agreement as a "Party" and collectively as the "Parties."

NOW, THEREFORE, in consideration of the mutual benefits to be derived from joint participation on the Project, the Parties agree to the following:

1. **Authority.** The Fiscal Year 2024 General Appropriations Act, Chapter 2023, Laws of Florida, provides the Agency with an appropriation of **2,000,000**, from the amount in Specific Appropriation, proviso, or item on a conference committee spreadsheet 1988A ("Appropriation"), for Runway Rehabilitation, the "Project", described more fully in **Exhibit "A"**, **Project Description and Responsibilities**, which is attached and incorporated into this Agreement.

   The Agency, by Resolution or other form of official authorization, a copy of which is attached as **Exhibit "C"** and incorporated into this Agreement, has authorized its officers to execute this Agreement on its behalf.

2. **Purpose of Agreement.** The purpose of this Agreement is to provide for the Department's participation in the Project; to provide the terms and conditions for the disbursement of the state financial assistance funding awarded to the Agency by Appropriation, and to set forth the manner in which the Project, described in **Exhibit "A"**, will be undertaken and completed.

3. **Exhibits.** The following Exhibits are attached and incorporated into this Agreement:

   Exhibit A: Project Description and Responsibilities
   Exhibit B: Schedule of State Financial Assistance
   Exhibit C: Agency Resolution
   Exhibit D: Audit Requirements for Awards of State Financial Assistance

4. **Time.** Unless specified otherwise, all references to "days" within this Agreement refer to calendar days.

5. **Term of Agreement.** This Agreement shall commence upon full execution by both Parties ("Effective Date") and continue through 06/30/2027, unless the Project is completed earlier. If the Agency does not complete the Project within this time period, this Agreement will expire unless an extension of the time period is requested by the Agency and granted in writing by the Department prior to the expiration of this Agreement. Expiration of this Agreement will be considered termination of the Project. The cost of any work performed prior to the Effective Date or after the expiration date or earlier termination of this Agreement is not eligible for funding or reimbursement by the Department under this Agreement. The Effective Date will be treated as the Department's Notice to Proceed to the Agency for the design phase or other non-construction phases of the Project. If the Project involves a construction phase, the

DocuSign Envelope ID: D87994FD-F67F-45F0-8DE0-50B9074179D1

Recipient shall not begin the construction phase of the Project until the Department issues a written Notice to Proceed for the construction phase. Prior to commencing the construction work described in this Agreement, the Recipient shall request a Notice to Proceed from the Department.

6. **Amendments, Extensions, and Assignment.** This Agreement may be amended or extended upon mutual written agreement of the Parties. This Agreement shall not be renewed. This Agreement shall not be assigned, transferred, or otherwise encumbered by the Agency under any circumstances without the prior written consent of the Department. State financial assistance funding awarded to the Agency by Appropriation may not be subgranted, assigned, transferred, or otherwise encumbered by the Agency.

7. **Termination or Suspension of Project.** The Department may, by written notice to the Agency, suspend any or all of the Department's obligations under this Agreement for the Agency's failure to comply with applicable law or the terms of this Agreement until such time as the event or condition resulting in such suspension has ceased or been corrected. The Department may also terminate this Agreement in whole or in part at any time the interest of the Department requires such termination.

   a. If the Department terminates the Agreement, the Department shall notify the Agency of such termination in writing within thirty (30) days of the Department's determination to terminate the Agreement, with instructions as to the effective date of termination or to specify the stage of work at which the Agreement is to be terminated.

   b. The Parties to this Agreement may also terminate this Agreement when its continuation would not produce beneficial results commensurate with the further expenditure of funds. In this event, the Parties shall agree upon the termination conditions through mutual written agreement.

   c. If the Agreement is terminated before performance is completed, the Agency shall be paid only for that work satisfactorily performed for which costs can be substantiated. Such payment, however, may not exceed an amount which is the same percentage of the state financial assistance funding awarded to the Agency by Appropriation. All work in progress on the Department right-of-way will become the property of the Department and will be turned over promptly by the Recipient.

   d. Upon termination of this Agreement, the Agency shall, within thirty (30) days, refund to the Department any funds expended in violation of the Agreement.

   e. The Department reserves the right to unilaterally terminate this Agreement for failure by the Agency to comply with the Public Records provisions of Chapter 119, Florida Statutes.

8. **Project Cost:**

   a. The estimated cost of the Project is $**2,000,000**. This amount is based upon **Exhibit "B", Schedule of State Financial Assistance**, which is attached and incorporated into this Agreement. **Exhibit "B",** Schedule of State Financial Assistance, may be modified by execution of an amendment of the Agreement by the Parties.

   b. The Department agrees to participate in the Project cost up to the maximum amount of $2,000,000, and, the Department's participation in the Project shall not exceed 100% of the total cost of the Project, as more fully described in **Exhibit "B'', Schedule of State Financial Assistance**. The Agency agrees to bear all expenses in excess of the amount of the Department's participation and any cost overruns or deficits involved in connection with completion of the Project.

   c. The Department's participation in eligible Project costs is subject, but not limited to:

      i. The receipt of the Appropriation for the work program year that the Project is scheduled for commitment;

DocuSign Envelope ID: D87994FD-F67F-45F0-8DE0-50B9074179D1

ii. Approval or acceptance of all plans, specifications, contracts or other obligating documents when required by this Agreement and compliance with other applicable terms of this Agreement; and

iii. Department approval of the Project scope, budget and completion schedule.

9. Compensation and Payment:

a. Eligible Cost. The Department shall reimburse the Agency for costs incurred to perform services described in **Exhibit "A"**, **Project Description and Responsibilities**, and as set forth in **Exhibit "B", Schedule of State Financial Assistance**.

b. Deliverables. The Agency shall provide quantifiable, measurable, and verifiable units of deliverables. Each deliverable must specify the required minimum level of service to be performed and the criteria for evaluating successful completion. The Project and the quantifiable, measurable, and verifiable units of deliverables are described more fully in **Exhibit "A", Project Description and Responsibilities**. Any changes to the deliverables shall require an amendment executed by both Parties.

c. Invoicing. Invoices shall be submitted no more often than monthly and no less than quarterly by the Agency in detail sufficient for a proper pre-audit and post-audit, based on the quantifiable, measurable, and verifiable deliverables as established in **Exhibit "A", Project Description and Responsibilities**. Deliverables and costs incurred must be received and approved by the Department prior to reimbursement. Requests for reimbursement by the Agency shall include an invoice, progress report, and supporting documentation for the deliverables being billed that are acceptable to the Department. The Agency shall use the format for the invoice and progress report that is approved by the Department

d. Supporting Documentation. Supporting documentation must establish that the deliverables were received and accepted in writing by the Agency and must also establish that the required minimum standards or level of service to be performed based on the criteria for evaluating successful completion as specified in **Exhibit "A", Project Description and Responsibilities** has been met. All costs invoiced shall be supported by invoices, contracts, or vouchers evidencing in proper detail the nature and propriety of charges as described in the invoice **Exhibit "F", Contract Payment Requirements**.

e. Travel Expenses. Travel expenses are not eligible for reimbursement under this Agreement.

f. Financial Consequences. Payment shall be made only after receipt and approval of deliverables and costs incurred unless advance payments are authorized by the Chief Financial Officer of the State of Florida under Chapters 215 and 216, Florida Statutes, or the Department's Comptroller under Section 334.044(29), Florida Statutes. If the Department determines that the performance of the Agency is unsatisfactory, the Department shall notify the Agency of the deficiency to be corrected, which correction shall be made within a time-frame to be specified by the Department. The Agency shall, within thirty (30) days after notice from the Department, provide the Department with a corrective action plan describing how the Agency will address all issues of contract non-performance, unacceptable performance, failure to meet the minimum performance levels, deliverable deficiencies, or contract non-compliance. If the corrective action plan is unacceptable to the Department, the Agency will not be reimbursed. The Agency will not be reimbursed until the Agency resolves the deficiency to the satisfaction of the Department. If the deficiency is subsequently resolved, the Agency may bill the Department for the amount that was previously not reimbursed during the next billing period. If the Agency is unable to resolve the deficiency, the funds shall be forfeited at the end of the Agreement's term.

g. Invoice Processing. An Agency receiving financial assistance from the Department should be aware of the following time frames. Inspection or verification and approval of deliverables shall take no longer than 20 days from the Department's receipt of the invoice. The Department has 20 days to deliver a request for payment (voucher) to the Department of Financial Services.

DocuSign Envelope ID: D87994FD-F67F-45F0-8DE0-50B9074179D1

The 20 days are measured from the latter of the date the invoice is received or the deliverables are received, inspected or verified, and approved.

If a payment is not available within 40 days, a separate interest penalty at a rate as established pursuant to Section 55.03(1), Florida Statutes, will be due and payable, in addition to the invoice amount, to the Agency. Interest penalties of less than one (1) dollar will not be enforced unless the Agency requests payment. Invoices that have to be returned to an Agency because of Agency preparation errors will result in a delay in the payment. The invoice payment requirements do not start until a properly completed invoice is provided to the Department.

A Vendor Ombudsman has been established within the Department of Financial Services. The duties of this individual include acting as an advocate for Agency who may be experiencing problems in obtaining timely payment(s) from a state agency. The Vendor Ombudsman may be contacted at (850) 413-5516.

h. Records Retention. The Agency shall maintain an accounting system or separate accounts to ensure funds and projects are tracked separately. Records of costs incurred under the terms of this Agreement shall be maintained and made available upon request to the Department at all times during the term of this Agreement and for five years after final payment is made. Copies of these documents and records shall be furnished to the Department upon request. Records of costs incurred include the Agency's general accounting records and the Project records, together with supporting documents and records, of the contractor and all subcontractors performing work on the Project, and all other records of the contractor and subcontractors considered necessary by the Department for a proper audit of costs.

i. Progress Reports. The Department is entitled, at all times, to be advised as to the status of the Project and of details thereof. The Agency agrees to provide the Department with progress reports on all work covered by this Agreement performed or scheduled for completion during the time period covered by each Invoice submitted to the Department, and as requested by the Department.

j. Submission of Other Documents. The Agency shall submit to the Department such data, reports, records, contracts, and other documents relating to the Project as the Department may require.

k. Offsets for Claims. If, after Project completion, any claim is made by the Department resulting from an audit or for work or services performed pursuant to this Agreement, the Department may offset such amount from payments due for work or services done under any agreement that it has with the Agency owing such amount if, upon written demand, payment of the amount is not made within 60 days to the Department. Offsetting any amount pursuant to this paragraph shall not be considered a breach of contract by the Department.

l. Final Invoice. The Agency must submit the final invoice on the Project to the Department within 120 days after the completion of the Project. Invoices submitted after the 120-day time period may not be paid.

m. Department's Performance and Payment Contingent Upon Annual Appropriation by the Legislature. The Department's performance and obligation to pay under this Agreement is contingent upon an annual appropriation by the Legislature.

n. Limits on Contracts Exceeding $25,000 and Term more than 1 Year. In the event this Agreement is in excess of $25,000 and has a term for a period of more than one year, the provisions of Section 339.135(6)(a), Florida Statutes, are hereby incorporated:

> "The Department, during any fiscal year, shall not expend money, incur any liability, or enter into any contract which, by its terms, involves the expenditure of money in excess of the amounts budgeted as available for expenditure during such fiscal year. Any contract, verbal or written, made in violation of this subsection is null and void, and no money may be paid

DocuSign Envelope ID: D87994FD-F67F-45F0-8DE0-50B9074179D1

on such contract. The Department shall require a statement from the comptroller of the Department that funds are available prior to entering into any such contract or other binding commitment of funds. Nothing herein contained shall prevent the making of contracts for periods exceeding 1 year, but any contract so made shall be executory only for the value of the services to be rendered or agreed to be paid for in succeeding fiscal years; and this paragraph shall be incorporated verbatim in all contracts of the Department which are for an amount in excess of $25,000 and which have a term for a period of more than 1 year."

o. Agency Obligation to Refund Department. Any Project funds made available by the Department pursuant to this Agreement that are determined by the Department to have been expended by the Agency in violation of this Agreement or any other applicable law or regulation, shall be promptly refunded in full to the Department. Acceptance by the Department of any documentation or certifications, mandatory or otherwise permitted, that the Agency files shall not constitute a waiver of the Department's rights as the funding agency to verify all information at a later date by audit or investigation.

p. Non-Eligible Costs. In determining the amount of the payment, the Department will exclude all Project costs incurred by the Agency prior to the execution of this Agreement, costs incurred prior to issuance of the Department's Notice to Proceed, costs incurred after the expiration or earlier termination of the Agreement, costs that are not provided for in **Exhibit "A"**, **Project Description and Responsibilities**, costs which are not provided for in **Exhibit "B", Schedule of State Financial Assistance** for the Project, costs agreed to be borne by the Agency or its contractors and subcontractors for not meeting the Project commencement and final invoice timelines, and costs attributable to goods or services received under a contract or other arrangement that has not been approved in writing by the Department. Specific unallowable costs may be listed in **Exhibit "A"**, **Project Description and Responsibilities.**

10. General Requirements. The Agency shall complete the Project with all practical dispatch in a sound, economical, and efficient manner, and in accordance with the provisions in this Agreement and all applicable laws.

a. The Agency must obtain written approval from the Department prior to performing itself (through the efforts of its own employees) any aspect of the Project that will be funded under this Agreement.

☐ If this box is checked, then the Agency is permitted to utilize its own forces and the following provision applies: **Use of Agency Workforce.** In the event the Agency proceeds with any phase of the Project utilizing its own forces, the Agency will only be reimbursed for direct costs (this excludes general overhead).

b. Necessary Permits Certification. The Agency shall certify to the Department that the Agency's design consultant and/or construction contractor has secured the necessary permits.

c. Right-of-Way Certification. If the Project involves construction, the Agency shall provide to the Department certification and a copy of appropriate documentation substantiating that all required right-of-way necessary for the Project has been obtained. Certification is required prior to authorization for advertisement for or solicitation of bids for construction of the Project, even if no right-of-way is required.

d. Agency Compliance with Laws, Rules, and Regulations, Guidelines, and Standards. The Agency shall comply and require its contractors and subcontractors to comply with all terms and conditions of this Agreement and all federal, state, and local laws and regulations applicable to this Project.

e. Claims and Requests for Additional Work. The Agency shall have the sole responsibility for resolving claims and requests for additional work for the Project by the Agency's contractors and subcontractors. No funds will be provided for payment of claims or additional work on the

DocuSign Envelope ID: D87994FD-F67F-45F0-8DE0-50B9074179D1

Project under this Agreement without prior written approval by the Department of the claim or request for additional work.

DocuSign Envelope ID: D87994FD-F67F-45F0-8DE0-50B9074179D1

11. Contracts of the Agency:

a. Approval of Third-Party Contracts. The Department has the right and shall be afforded the opportunity to review and approve any and all third-party contracts (or it may waive that right via written confirmation of said waiver) with respect to the Project before the Agency executes or obligates itself in any manner requiring the disbursement of Department funds for any third party contracts under this Agreement, including consultant or construction contracts, or amendments thereto. If the Department exercises this right and the Agency fails to obtain such written approval, the Department may deny payment to the Agency. The Department may review the qualifications of any consultant or contractor and approve or disapprove the employment of such consultant or contractor.

b. Procurement of Commodities or Contractual Services. It is understood and agreed by the Parties hereto that participation by the Department in a project that involves the purchase of commodities or contractual services where purchases or costs exceed the Threshold Amount for CATEGORY TWO per Section 287.017, Florida Statutes, is contingent on the Agency complying in full with the provisions of Section 287.057, Florida Statutes. The Agency shall certify to the Department that the purchase of commodities or contractual services has been accomplished in compliance with Section 287.057, Florida Statutes. It shall be the sole responsibility of the Agency to ensure that any obligations made in accordance with this Section comply with the current threshold limits. Contracts, purchase orders, task orders, construction change orders, or any other agreement that would result in exceeding the current budget contained in **Exhibit "B", Schedule of State Financial Assistance**, or that is not consistent with the Project description and scope of services contained in **Exhibit "A", Project Description and Responsibilities** must be approved by the Department prior to Agency execution. Failure to obtain such approval, and subsequent execution of an amendment to the Agreement if required, shall be sufficient cause for nonpayment by the Department.

c. Consultants' Competitive Negotiation Act. Participation by the Department in a project that involves a consultant contract for professional services, is contingent on the Agency's complying in full with provisions of Section 287.055, Florida Statutes, Consultants' Competitive Negotiation Act. In all cases, the Agency shall certify to the Department that selection has been accomplished in compliance with the Consultants' Competitive Negotiation Act.

d. Disadvantaged Business Enterprise (DBE) Policy and Obligation. It is the policy of the Department that DBEs, as defined in 49 C.F.R. Part 26, as amended, shall have the opportunity to participate in the performance of contracts financed in whole or in part with Department funds under this Agreement. The DBE requirements of applicable federal and state laws and regulations apply to this Agreement. The Agency and its contractors agree to ensure that DBEs have the opportunity to participate in the performance of this Agreement. In this regard, all recipients and contractors shall take all necessary and reasonable steps in accordance with applicable federal and state laws and regulations to ensure that the DBEs have the opportunity to compete for and perform contracts. The Agency and its contractors and subcontractors shall not discriminate on the basis of race, color, national origin or sex in the award and performance of contracts, entered pursuant to this Agreement.

12. Design and Construction Standards and Required Approvals: In the event the Project includes construction the following provisions are incorporated into this Agreement:

a. The Agency is responsible for obtaining all permits necessary for the Project.

b. In the event the Project involves construction on the Department's right-of-way, the Agency shall provide the Department with written notification of either its intent to:

i. Award the construction of the Project to a Department prequalified contractor which is the lowest and best bidder in accordance with applicable state and federal statutes, rules, and regulations. The Agency shall then submit a copy of the bid tally sheet(s) and awarded bid contract, or

DocuSign Envelope ID: D87994FD-F67F-45F0-8DE0-50B9074179D1

ii. Construct the Project utilizing existing Agency employees, if the Agency can complete said Project within the time frame set forth in this Agreement. The Agency's use of this option is subject to approval by the Department.

c. The Agency shall hire a qualified contractor using the Agency's normal bid procedures to perform the construction work for the Project. For projects that are not located on the Department's right-of-way, the Agency is not required to hire a contractor prequalified by the Department unless the Department notifies the Agency prior to letting that they are required to hire a contractor prequalified by the Department.

d. The Agency is responsible for provision of Construction Engineering Inspection (CEI) services. The Department reserves the right to require the Agency to hire a Department pre-qualified consultant firm that includes one individual that has completed the Advanced Maintenance of Traffic Level Training. Notwithstanding any provision of law to the contrary, design services and CEI services may not be performed by the same entity. Administration of the CEI staff shall be under the responsible charge of a State of Florida Licensed Professional Engineer who shall provide the certification that all design and construction for the Project meets the minimum construction standards established by Department. The Department shall have the right to approve the CEI firm. The Department shall have the right, but not the obligation, to perform independent assurance testing during the course of construction of the Project. Subject to the approval of the Department, the Agency may choose to satisfy the requirements set forth in this paragraph by either hiring a Department prequalified consultant firm or utilizing Agency staff that meet the requirements of this paragraph, or a combination thereof.

e. The Agency is responsible for the preparation of all design plans for the Project. The Department reserves the right to require the Agency to hire a Department pre-qualified consultant for the design phase of the Project using the Agency's normal procurement procedures to perform the design services for the Project. Notwithstanding any provision of law to the contrary, design services and CEI services may not be performed by the same entity. All design work on the Project shall be performed in accordance with the requirements of all applicable laws and governmental rules and regulations and federal and state accepted design standards for the type of construction contemplated by the Project, including, as applicable, but not limited to, the applicable provisions of the Manual of Uniform Traffic Control Devices (MUTCD) and the AASHTO Policy on Geometric Design of Streets and Highways. If any portion of the Project will be located on, under, or over any Department-owned right-of-way, the Department shall review the Project's design plans for compliance with all applicable standards of the Department.

f. The Agency shall adhere to the Department's Conflict of Interest Procedure (FDOT Topic No. 375-030-006).

g. The Agency will provide copies of the final design plans and specifications and final bid documents to the Department's Construction Project Manager prior to commencing construction of the Project. The Department will specify the number of copies required and the required format.

h. The Agency shall require the Agency's contractor to post a payment and performance bond in accordance with applicable law.

i. The Agency shall be responsible to ensure that the construction work under this Agreement is performed in accordance with the approved construction documents, and that it will meet all applicable Agency and Department standards.

j. Upon completion of the work authorized by this Agreement, the Agency shall notify the Department in writing of the completion of construction of the Project; and for all design work that originally required certification by a Professional Engineer, this notification shall contain an Engineers Certification of Compliance, signed and sealed by a Professional Engineer, the form of which is attached hereto and incorporated herein as **Exhibit "E", Engineers Certification of Completion**. The certification shall state that work has been completed in compliance with the Project construction plans and specifications. If any deviations are found from the approved

DocuSign Envelope ID: D87994FD-F67F-45F0-8DE0-50B9074179D1

plans, the certification shall include a list of all deviations along with an explanation that justifies the reason to accept each deviation.

k. The Agency shall provide the Department with as-built plans of any portions of the Project funded through the Agreement prior to final inspection.

13. Maintenance Obligations. In the event the Project includes construction or the acquisition of commodities then the following provisions are incorporated into this Agreement:

a. The Agency agrees to accept all future maintenance and other attendant costs occurring after completion of the Project for all improvements constructed or commodities acquired as part of the Project. The terms of this provision shall survive the termination of this Agreement.

14. Sale, Transfer, or Disposal of Department-funded Property:

a. The Agency may not sell or otherwise transfer or dispose of any part of its title or other interests in real property, facilities, or equipment funded in any part by the Department under this Agreement without prior written approval by the Department.

b. If a sale, transfer, or disposal by the Agency of all or a portion of Department-funded real property, facilities, or equipment is approved by the Department, the following provisions will apply:

i. The Agency shall reimburse the Department a proportional amount of the proceeds of the sale of any Department-funded property.

ii. The proportional amount shall be determined on the basis of the ratio of the Department funding of the development or acquisition of the property multiplied against the sale amount, and shall be remitted to the Department within ninety (90) days of closing of sale.

iii. Sale of property developed or acquired with Department funds shall be at market value as determined by appraisal or public bidding process, and the contract and process for sale must be approved in advance by the Department.

iv. If any portion of the proceeds from the sale to the Agency are non-cash considerations, reimbursement to the Department shall include a proportional amount based on the value of the non-cash considerations.

c. The terms of provisions “a” and “b” above shall survive the termination of this Agreement.

i. The terms shall remain in full force and effect throughout the useful life of facilities developed, equipment acquired, or Project items installed within a facility, but shall not exceed twenty (20) years from the effective date of this Agreement.

ii. There shall be no limit on the duration of the terms with respect to real property acquired with Department funds.

15. State Single Audit. The administration of resources awarded through the Department to the Agency by this Agreement may be subject to audits and/or monitoring by the Department. The following requirements do not limit the authority of the Department to conduct or arrange for the conduct of additional audits or evaluations of state financial assistance or limit the authority of any state agency inspector general, the Auditor General, or any other state official. The Agency shall comply with all audit and audit reporting requirements as specified below.

a. In addition to reviews of audits conducted in accordance with Section 215.97, Florida Statutes, monitoring procedures to monitor the Agency’s use of state financial assistance may include but not be limited to on-site visits by Department staff and/or other procedures, including reviewing any required performance and financial reports, following up, ensuring

DocuSign Envelope ID: D87994FD-F67F-45F0-8DE0-50B9074179D1

corrective action, and issuing management decisions on weaknesses found through audits when those findings pertain to state financial assistance awarded through the Department by this Agreement. By entering into this Agreement, the Agency agrees to comply and cooperate fully with any monitoring procedures/processes deemed appropriate by the Department. The Agency further agrees to comply and cooperate with any inspections, reviews, investigations, or audits deemed necessary by the Department, the Department of Financial Services (DFS), or the Auditor General.

b. The Agency, a "nonstate entity" as defined by Section 215.97(2)(n), Florida Statutes, as a recipient of state financial assistance awarded by the Department through this Agreement, is subject to the following requirements:

i. In the event the Agency meets the audit threshold requirements established by Section 215.97, Florida Statutes, the Agency must have a State single or project-specific audit conducted for such fiscal year in accordance with Section 215.97, Florida Statutes; applicable rules of the Department of Financial Services; and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General. **Exhibit "D", Audit Requirements for Awards of State Financial Assistance**, to this Agreement indicates state financial assistance awarded through the Department by this Agreement needed by the Agency to further comply with the requirements of Section 215.97, Florida Statutes. In determining the state financial assistance expended in a fiscal year, the Agency shall consider all sources of state financial assistance, including state financial assistance received from the Department by this Agreement, other state agencies, and other nonstate entities. State financial assistance does not include Federal direct or pass-through awards and resources received by a nonstate entity for Federal program matching requirements.

ii. In connection with the audit requirements, the Agency shall ensure that the audit complies with the requirements of Section 215.97(8), Florida Statutes. This includes submission of a financial reporting package as defined by Section 215.97(2)(e), Florida Statutes, and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General.

iii. In the event the Agency does not meet the audit threshold requirements established by Section 215.97, Florida Statutes, the Agency is exempt for such fiscal year from the state single audit requirements of Section 215.97, Florida Statutes. However, the Agency must provide a single audit exemption statement to the Department at FDOTSingleAudit@dot.state.fl.us no later than nine months after the end of the Agency's audit period for each applicable audit year. In the event the Agency does not meet the audit threshold requirements established by Section 215.97, Florida Statutes, in a fiscal year and elects to have an audit conducted in accordance with the provisions of Section 215.97, Florida Statutes, the financial reporting package may be provided to the Department in lieu of the required single audit exemption statement. The cost of the audit must be paid from the Agency's resources (*i.e.*, the cost of such an audit must be paid from the Agency's resources obtained from other than State entities).

iv. In accordance with Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General, copies of financial reporting packages required by this Agreement shall be submitted to:

DocuSign Envelope ID: D87994FD-F67F-45F0-8DE0-50B9074179D1

Office of Comptroller, MS 24
605 Suwannee Street
Tallahassee, Florida 32399-0405
Email: FDOTSingleAudit@dot.state.fl.us

And

State of Florida Auditor General
Local Government Audits/342
111 West Madison Street, Room 401
Tallahassee, FL 32399-1450
Email: flaudgen_localgovt@aud.state.fl.us

v. Any copies of financial reporting packages, reports, or other information required to be submitted to the Department shall be submitted timely in accordance with Section 215.97, Florida Statutes, and Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General, as applicable.

vi. The Agency, when submitting financial reporting packages to the Department for audits done in accordance with Chapters 10.550 (local governmental entities) or 10.650 (nonprofit and for-profit organizations), Rules of the Auditor General, shall indicate the date the reporting package was delivered to the Agency in correspondence accompanying the reporting package.

vii. Upon receipt, and within six months, the Department will review the Agency's financial reporting package, including corrective action plans and management letters, to the extent necessary to determine whether timely and appropriate corrective action on all deficiencies has been taken pertaining to the state financial assistance provided through the Department by this Agreement. If the Agency fails to have an audit conducted consistent with Section 215.97, Florida Statutes, the Department may take appropriate corrective action to enforce compliance.

viii. As a condition of receiving state financial assistance, the Agency shall permit the Department or its designee, DFS, or the Auditor General, access to the Agency's records, including financial statements, the independent auditor's working papers, and project records as necessary. Records related to unresolved audit findings, appeals, or litigation shall be retained until the action is complete or the dispute is resolved.

c. The Agency shall retain sufficient records demonstrating its compliance with the terms of this Agreement for a period of five years from the date the audit report is issued and shall allow the Department or its designee, DFS, or the Auditor General, access to such records upon request. The Agency shall ensure that the audit working papers are made available to the Department or its designee, DFS or the Auditor General upon request for a period of five years from the date the audit report is issued, unless extended in writing by the Department.

16. Notices and Approvals. All notices and approvals referenced in this Agreement are in effect upon receipt by either Party, shall be in writing, and shall be transmitted either by personal hand delivery; United States Post Office, return receipt requested; or, overnight express mail delivery. E-mail and facsimile may be used if the notice is also transmitted by one of the preceding forms of delivery. The addresses and the contact persons set forth below for the respective Parties shall be the places where notices shall be sent, unless prior written notice of change of address is given.

17. Restrictions, Prohibitions, Controls and Labor Provisions:

a. Convicted Vendor List. A person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid on a contract to provide any goods or services to a public entity; may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017, Florida Statutes, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.

b. Discriminatory Vendor List. In accordance with Section 287.134, Florida Statutes, an entity or affiliate who has been placed on the Discriminatory Vendor List, kept by the Florida Department of Management Services, may not submit a bid on a contract to provide goods or services to a public entity; may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work; may not submit bids on leases of real property to a public entity; may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity; and may not transact business with any public entity.

c. Non-Responsible Contractors. An entity or affiliate who has had its Certificate of Qualification suspended, revoked, denied, or have further been determined by the Department to be a non-responsible contractor, may not submit a bid or perform work for the construction or repair of a public building or public work on a contract with the Agency.

d. Prohibition on Using Funds for Lobbying. No funds received pursuant to this Agreement may be expended for lobbying the Florida Legislature, judicial branch, or any state agency, in accordance with Section 216.347, Florida Statutes.

e. Unauthorized Aliens. The Department shall consider the employment by any contractor of unauthorized aliens a violation of Section 274A(e) of the Immigration and Nationality Act. If the contractor knowingly employs unauthorized aliens, such violation will be cause for unilateral cancellation of this Agreement.

f. Procurement of Construction Services. If the Project is procured pursuant to Chapter 255, Florida Statutes, for construction services and at the time of the competitive solicitation for the Project, 50 percent or more of the cost of the Project is to be paid from state-appropriated funds, then the Agency must comply with the requirements of Section 255.0991, Florida Statutes.

g. E-Verify. The Agency shall:

DocuSign Envelope ID: D87994FD-F67F-45F0-8DE0-50B9074179D1

i. Utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the Agency during the term of this Agreement; and

ii. Expressly require any subcontractors performing work or providing services pursuant to this Agreement to likewise utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired by the subcontractor during the contract term.

h. **Design Services and Construction Engineering and Inspection Services.** If the Project is wholly or partially funded by the Department and administered by a local governmental entity, except for a seaport listed in Section 311.09, Florida Statutes, the entity performing design and construction engineering and inspection services may not be the same entity.

18. Indemnification and Insurance:

a. It is specifically agreed between the Parties executing this Agreement that it is not intended by any of the provisions of any part of this Agreement to create in the public or any member thereof, a third-party beneficiary under this Agreement, or to authorize anyone not a party to this Agreement to maintain a suit for personal injuries or property damage pursuant to the terms or provisions of this Agreement. The Agency guarantees the payment of all just claims for materials, supplies, tools, or labor and other just claims against the Agency or any subcontractor, in connection with this Agreement. Additionally, to the extent provided by law and as limited by and pursuant to the provisions of Section 768.28, Florida Statutes, the Agency shall indemnify and hold harmless the Department, including the Department's officers and employees, from liabilities, damages, losses, and costs, including, but not limited to, reasonable attorney's fees, to the extent caused by the negligence, recklessness, or intentional wrongful misconduct of the Agency and persons employed or utilized by the Agency in the performance of this Agreement. This indemnification shall survive the termination of this Agreement. Nothing contained in this paragraph is intended to nor shall it constitute a waiver of the Agency's sovereign immunity. Additionally, the Agency agrees to include the following indemnification in all contracts with contractors/subcontractors and consultants/subconsultants who perform work in connection with this Agreement:

"The Agency's contractor/consultant shall indemnify and hold harmless the Agency and the State of Florida, Department of Transportation, including the Department's officers and employees, from liabilities, damages, losses and costs, including, but not limited to, reasonable attorney's fees, to the extent caused by the negligence, recklessness or intentional wrongful misconduct of the contractor/consultant and persons employed or utilized by the contractor/consultant in the performance of this Agreement.

This indemnification shall survive the termination of this Agreement."

b. The Agency shall provide Workers' Compensation Insurance in accordance with Florida's Workers' Compensation Law for all employees. If subletting any of the work, ensure that the contractor(s)/subcontractor(s) and consultant(s)/subconsultant(s) have Workers' Compensation Insurance for their employees in accordance with Florida's Workers' Compensation Law. If using "leased employees" or employees obtained through professional employer organizations ("PEO's"), ensure that such employees are covered by Workers' Compensation Insurance through the PEO's or other leasing entities. Ensure that any equipment rental agreements that include operators or other personnel who are employees of independent contractors, sole proprietorships, or partners are covered by insurance required under Florida's Workers' Compensation Law.

c. If the Agency elects to self-perform the Project, and such self-performance is approved by the Department in accordance with the terms of this Agreement, the Agency may self-insure and proof of self-insurance shall be provided to the Department. If the Agency elects

DocuSign Envelope ID: D87994FD-F67F-45F0-8DE0-50B9074179D1

to hire a contractor or consultant to perform the Project, then the Agency shall, or cause its contractor or consultant to carry, Commercial General Liability insurance providing continuous coverage for all work or operations performed under this Agreement. Such insurance shall be no more restrictive than that provided by the latest occurrence form edition of the standard Commercial General Liability Coverage Form (ISO Form CG 00 01) as filed for use in the State of Florida. The Agency shall cause, or cause its contractor or consultant to cause, the Department to be made an Additional Insured as to such insurance. Such coverage shall be on an "occurrence" basis and shall include Products/Completed Operations coverage. The coverage afforded to the Department as an Additional Insured shall be primary as to any other available insurance and shall not be more restrictive than the coverage afforded to the Named Insured. The limits of coverage shall not be less than $1,000,000 for each occurrence and not less than a $5,000,000 annual general aggregate, inclusive of amounts provided by an umbrella or excess policy. The limits of coverage described herein shall apply fully to the work or operations performed under this Agreement, and may not be shared with or diminished by claims unrelated to this Agreement. The policy/ies and coverage described herein may be subject to a deductible and such deductibles shall be paid by the Named Insured. No policy/ies or coverage described herein may contain or be subject to a Retention or a Self-Insured Retention unless the Agency is a state agency or subdivision of the State of Florida that elects to self-perform the Project. Prior to the execution of this Agreement, and at all renewal periods which occur prior to final acceptance of the work, the Department shall be provided with an ACORD Certificate of Liability Insurance reflecting the coverage described herein. The Department shall be notified in writing within ten days of any cancellation, notice of cancellation, lapse, renewal, or proposed change to any policy or coverage described herein. The Department's approval or failure to disapprove any policy/ies, coverage, or ACORD Certificates shall not relieve or excuse any obligation to procure and maintain the insurance required herein, nor serve as a waiver of any rights or defenses the Department may have.

d. When the Agreement involves work on or in the vicinity of utility-owned property or facilities, the utility shall be added along with the Department as an Additional Insured on the Commercial General Liability policy/ies procured above.

19. Miscellaneous:

a. Environmental Regulations. The Agency will be solely responsible for compliance with all applicable environmental regulations and for any liability arising from non-compliance with these regulations, and will reimburse the Department for any loss incurred in connection therewith.

b. Non-Admission of Liability. In no event shall the making by the Department of any payment to the Agency constitute or be construed as a waiver by the Department of any breach of covenant or any default which may then exist on the part of the Agency and the making of such payment by the Department, while any such breach or default shall exist, shall in no way impair or prejudice any right or remedy available to the Department with respect to such breach or default.

c. Severability. If any provision of this Agreement is held invalid, the remainder of this Agreement shall not be affected. In such an instance, the remainder would then continue to conform to the terms and requirements of applicable law.

d. Agency not an agent of Department. The Agency and the Department agree that the Agency, its employees, contractors, subcontractors, consultants, and subconsultants are not agents of the Department as a result of this Agreement.

e. Bonus or Commission. By execution of the Agreement, the Agency represents that it has not paid and, also agrees not to pay, any bonus or commission for the purpose of obtaining an approval of its application for the financing hereunder.

DocuSign Envelope ID: D87994FD-F67F-45F0-8DE0-50B9074179D1

f. **Non-Contravention of State Law.** Nothing in the Agreement shall require the Agency to observe or enforce compliance with any provision or perform any act or do any other thing in contravention of any applicable state law. If any of the provisions of the Agreement violate any applicable state law, the Agency will at once notify the Department in writing so that appropriate changes and modifications may be made by the Department and the Agency to the end that the Agency may proceed as soon as possible with the Project.

g. **Execution of Agreement.** This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, but all of which shall constitute the same Agreement. A facsimile or electronic transmission of this Agreement with a signature on behalf of a Party will be legal and binding on such Party.

h. **Inspector General Cooperation.** The Agency agrees to comply with Section 20.055(5), Florida Statutes, and to incorporate in all subcontracts the obligation to comply with Section 20.055(5), Florida Statutes.

i. **Law, Forum, and Venue.** This Agreement shall be governed by and construed in accordance with the laws of the State of Florida. In the event of a conflict between any portion of this Agreement and Florida laws, the laws of Florida shall prevail. The Agency agrees to waive forum and venue and agrees that the Department will determine the forum and venue in which any dispute under this Agreement is to be decided.

The remainder of this page intentionally left blank.

EXHIBIT "A"

Project Description and Responsibilities

A. Project Description (description of Agency's project to provide context, description of project components funded via this Agreement (if not the entire project)): Runway Repair and Rehabilitation

B. Project Scope (allowable costs: describe project components, improvement type/service type, approximate timeline, project schedule, project size): As required by 215.971, F.S., this scope of work includes but is not limited to consultant and design fees; survey costs; permitting; construction inspection and material testing costs; mobilization and demobilization; maintenance of traffic; erosion control; demolition; excavation; embankment; ground preparation; installation of fencing, posts, rails, and gates; sodding; seeding; provisions for electrical and fiber optic systems; signage; and pavement repairs, including all materials, equipment, labor and incidentals required to complete the fencing project per FAA Advisory Circular (AC) 150/5370-10G, Standards for Specifying Construction of Airports, Part 8 (Fencing). The Sponsor will comply with Aviation Program Assurances.

C. Deliverable(s): Runway repairs and rehabilitation at Brooksville Tampa Bay Regional Airport.

The project scope identifies the ultimate project deliverables. Deliverables for requisition, payment and invoice purposes will be the incremental progress made toward completion of project scope elements. Supporting documentation will be quantifiable, measurable, and verifiable, to allow for a determination of the amount of incremental progress that has been made, and provide evidence that the payment requested is commensurate with the accomplished incremental progress and costs incurred by the Agency.

ASSURANCES - CONSTRUCTION PROGRAMS

OMB Number: 4040-0009
Expiration Date: 06/30/2028

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0042), Washington, DC 20503.

PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.

NOTE: Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the Awarding Agency. Further, certain Federal assistance awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant:, I certify that the applicant:

1. Has the legal authority to apply for Federal assistance, and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project costs) to ensure proper planning, management and completion of project described in this application.
2. Will give the awarding agency, the Comptroller General of the United States and, if appropriate, the State, the right to examine all records, books, papers, or documents related to the assistance; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.
3. Will not dispose of, modify the use of, or change the terms of the real property title or other interest in the site and facilities without permission and instructions from the awarding agency. Will record the Federal interest in the title of real property in accordance with awarding agency directives and will include a covenant in the title of real property acquired in whole or in part with Federal assistance funds to assure nondiscrimination during the useful life of the project.
4. Will comply with the requirements of the assistance awarding agency with regard to the drafting, review and approval of construction plans and specifications.
5. Will provide and maintain competent and adequate engineering supervision at the construction site to ensure that the complete work conforms with the approved plans and specifications and will furnish progressive reports and such other information as may be required by the assistance awarding agency or State.
6. Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.
7. Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.
8. Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed standards of merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).
9. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§4801 et seq.) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.
10. Will comply with all Federal statutes relating to non-discrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§1681 1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29) U.S.C. §794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§290 dd-3 and 290 ee 3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statue(s) under which application for Federal assistance is being made; and (j) the requirements of any other nondiscrimination statue(s) which may apply to the application.

11. Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal and federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.

12. Will comply with the provisions of the Hatch Act (5 U.S.C. §§1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

13. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§276a to 276a-7), the Copeland Act (40 U.S.C. §276c and 18 U.S.C. §874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§327-333) regarding labor standards for federally-assisted construction subagreements.

14. Will comply with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is $10,000 or more.

15. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq.); (f) conformity of Federal actions to State (Clean Air) implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended (P.L. 93-523); and, (h) protection of endangered species under the Endangered Species Act of 1973, as amended (P.L. 93-205).

16. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.

17. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. §470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §§469a-1 et seq).

18. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and OMB Circular No. A-133, "Audits of States, Local Governments, and Non-Profit Organizations."

19. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations, and policies governing this program.

20. Will comply with the requirements of Section 106(g) of the Trafficking Victims Protection Act (TVPA) of 2000, as amended (22 U.S.C. 7104) which prohibits grant award recipients or a sub-recipient from (1) Engaging in severe forms of trafficking in persons during the period of time that the award is in effect (2) Procuring a commercial sex act during the period of time that the award is in effect or (3) Using forced labor in the performance of the award or subawards under the award.

ED-900C – EDA Application Supplement for Construction Programs

A. Metropolitan Area Review

A.1. Projects involving the development of hospitals, airports, libraries, water supply and distribution facilities, sewage and waste treatment works, highways, transportation facilities, water development, or land conservation within a metropolitan statistical area (MSA) require comments from the metropolitan area clearinghouse/agency. Does the proposed project involve any of the above identified developments within an MSA?

☒ Yes ☐ No

A.2. If Yes, please attach either:

☐ Comments from the responsible metropolitan area clearinghouse/agency and a statement that such comments have been considered; or

☐ An explanation as to why comments are not available; or

☒ A statement indicating the date the application was made available to the appropriate metropolitan area clearinghouse/agency and units of general local government for review and certifying that the application has been before the metropolitan area clearinghouse/agency for a period of 60 days without comments or recommendations.

B. District Organization Project Administration

B.1. Will the District Organization for the region in which the project will be located administer the project for the applicant?

☐ Yes ☒ No

B.2. If Yes, you must certify to all of the following and indicate your certification by checking each box:

☐ The administration of the project is beyond the capacity of the applicant's current staff and would require hiring additional staff or contracting for such services;

☐ No local organization/business exists that could administer the project in a more efficient or cost-effective manner than the District Organization; and

☐ The District Organization will administer the project without subcontracting the work.

B.3. If the project will be administered by the District Organization and you did not certify to all of the above, explain below.

C. Preliminary Engineering Report

To be considered for assistance, all construction and design applications must include a **Preliminary Engineering Report (PER)** that at a minimum provides the following information:

C.1. Description of project components. Provide a general description of all project components involved in the project. Indicate whether the project involves the construction of new infrastructure or facilities or the renovation or replacement of existing ones. Describe each of the project components in terms of dimensions, quantities, capacities, square footage, etc.

C.2. A statement verifying that the project components described in the engineering report are consistent with the EDA investment project description that is provided in Section B.2 of Form ED-900. Engineering reports that describe project components that are inconsistent with the EDA investment project description in Section B.2 of Form ED-900 will not be considered valid.

C.3. Drawings showing the general layout and location of the existing site conditions and of the project components as well as location of any project beneficiary identified in Section B.9 of Form ED-900 that provide economic justification for the project, if any. Rough dimensions and quantities for major project components should be shown and labeled on the drawings. Drawings should clearly identify the project components that are being proposed. Applicants are encouraged to clarify such drawings, for example, through color coding, labeling, and other appropriate methods.

C.4. A feasibility analysis for the constructability of the project. Include a review of the existing conditions and note particular features, alignments, and circumstances affecting construction of project components.

C.5. The proposed method of construction. Indicate whether construction procurement will be done through competitive bid or other method. Indicate if any portion of the project is to be done by design/build, construction management at risk, the applicant's own forces, or a third-party construction manager. If an alternate construction procurement method (other than traditional design/bid/build with sealed competitive bid process) is proposed, a construction services procurement plan must be provided to EDA for approval in accordance with EDA's regulation at 13 C.F.R. § 305.6(a).

C.6. The number of construction contracts anticipated. If multiple contracts are proposed, describe the project components included in each contract. If separate contracts are anticipated for demolition or site work, the budget information cost classification should reflect the estimated costs for these components. If project phasing is proposed, a project phasing request must be provided to EDA for approval per EDA's regulation at 13 C.F.R. § 305.9(a).

C.7. A current detailed construction cost estimate for each of the project components. Show quantities, unit prices, and total costs and provide a basis for the determination of construction contingencies. The total of this estimate should match the construction line item of the SF-424C.

C.8. Real property acquisition. If the budget includes costs for acquisition of real property, include a current fair market value appraisal completed by a certified appraiser for the property to be purchased.

C.9. A list of all permits required for the proposed project and their current status. Identify all permits required; include the timeline to obtain the permits and discuss how the permitting relates to the overall project schedule. If the project crosses a railroad right-of-way or is within a railroad right-of-way, explain any permitting or approvals that may be required from the railroad or other authority and the timeframe for obtaining these permits or approvals.

C.10. An overall estimated project schedule. This schedule should agree with the project schedule outlined in the ED-900. Include the number of months for each of the following:

i. design period;
ii. period of time to obtain required permits;
iii. period of time to obtain any required easements or rights-of-way;
iv. solicitation of bids and awarding of contracts, and
v. construction period.

C.11. Overall project budget breakdown. For each "cost classifications" line item that the applicant indicates will be included in the project budget on Form SF-424C, the applicant must provide a breakdown of the proposed project costs and tasks that is consistent with the detailed construction cost estimate for the project provided in the PER.

Preliminary ER.pdf | Add Attachment | Delete Attachment | View Attachment

D. Title Requirements

D.1. Does the applicant currently hold title to all project facilities, underlying land, necessary easements, and rights-of-way required for the project?

☒ Yes (go to question D.2) ☐ No (explain below)

D.1.a. If No, does the applicant plan to obtain title?

☐ D.1.a.i. Yes

How and when will the applicant obtain title? (After answering, go to question D.2)

☐ D.1.a.ii. No

Please explain why not

D.1.b. If you indicated that the applicant does not currently have title and does not intend to obtain title, does the applicant hold a long-term lease or hold interest in project property for a period not less than the estimated useful life of the project?

☐ D.1.b.i. Yes. Go to question D.2

☐ D.1.b.ii. No. Please explain below how the applicant will satisfy EDA's title regulation at 13 C.F.R. § 314.7.

D.2. EDA regulations normally require recipients to provide a security interest and/or covenant of use in the real property or significant items of tangible personal property acquired or improved with EDA investment assistance (see 13 C.F.R. §§ 314.8 & 314.9). Will you be able to provide the required security interest?

☒ Yes ☐ No (explain how you will satisfy the requirements of 13 C.F.R. §§ 314.8 & 314.9)

D.3. Will real property or project facilities to be acquired or improved with EDA investment assistance, including any industrial or commercial park acreage, be mortgaged or used to collateralize any type of financing, including but not limited to bonds or tax credits, or is any real property to be used for the project currently mortgaged or being used as collateral?

☐ Yes (explain below) ☒ No

D.4. Describe any required State permits, easements, rights-of-way or leases necessary to construct, operate, and maintain the project.

State Environmental Resource Permit (ERP)
National Pollutant Discharge Elimination System (NPDES) Permit for Construction Activity
Gopher Tortoise Relocation Permit
FDEP Industrial Wastewater Permit
Section 404 Permit or Corps of Engineers Dredge and Fill Permit
Southwest Florida Water Management District (SWFWMD) Permit for wetland impacts

D.5. Describe any liens, mortgages, other encumbrances, reservations, reversionary interests or other restrictions on the applicant's interest in the property.

There are no restrictions on the applicant's interest in the property.

D.6. Is the project located on a military or Department of Energy installation that is closed or scheduled for closure or realignment?

☐ Yes ☒ No

D.7. Does the project involve construction within a railroad's right-of-way or over a railroad crossing?

☐ Yes (explain below) ☒ No

D.8. Does the project include construction of a highway owned by a State or local government (other than the applicant)?

☐ Yes (explain below) ☒ No

E. Sale or Lease

E.1. Does the applicant intend to sell, lease, transfer, dedicate or otherwise convey any interest in the project facilities, underlying land, or any land improved with EDA investment assistance?

☐ Yes (explain below) ☒ No

E.2. Is the purpose of the project to construct facilities to serve an industrial or commercial park or sites owned by the applicant for sale or lease to private parties?

☒ No ☐ Yes

Identify the owners of the acreage, provide an estimate of the number of acres benefiting from the proposed investment and explain how EDA's requirements will continue to be met after any sale or lease.

Note: Applicants may be asked to provide documentation that EDA's requirements will continue to be met after the sale or lease of project property.

E.3. Is the purpose of the project to construct facilities to serve a privately owned industrial or commercial party or other privately owned sites for sale or lease?

☒ No ☐ Yes

If Yes, identify the owners of the acreage, estimate the number of acres benefiting from the proposed investment, and explain below how EDA's requirements will continue to be met after the sale or lease. Note that EDA may require that the private owner agree to certain restrictions on the use of the property and may require that those restrictions survive any sale or transfer of the property. In addition, EDA may require evidence that the private party has title to the park or site and may require the private party to provide other assurance that EDA determines are necessary to ensure that the property is used in a manner consistent with the project purpose. See 13 C.F.R. § 314.3(c) and § 314.7.

E.4. For privately owned land improved by the proposed project, is the private owner willing to enter into an agreement to limit the sale price of the improved land to its fair market value before the improvements for a reasonable period of time?

☐ Yes (explain below) ☒ No/Not applicable (no private owners)

E.5. Is the purpose of the project to construct, renovate or purchase a building?

☐ Yes (explain below) ☒ No

E.5.a. Will the building be leased in whole or in part?

☐ Yes (explain below) ☐ No

E.5.b. Is the purpose of the building to provide incubator space to new companies?

☐ Yes (explain below) ☐ No

E.5.c. Will there be limitations on the length of the lease term?

☐ Yes (explain below) ☐ No

E.5.d. Is the purpose of the project to provide building space to a single user or multiple users?

☐ Yes ☐ No

E.5.e. Explain below the terms of any proposed lease.

F. State Historic Preservation Requirements

Have comments from the appropriate State Historic Preservation Officer (SHPO) already been received?

☐ Yes (attach comments) ☒ No

Add Attachment | Delete Attachment | View Attachment

Note: If comments have not already been received, the applicant will be required to submit materials to SHPO. Regardless of whether the applicant believes historic or archaeological artifacts are present, the applicant will be required work with its SHPO. Specific requirements for states' SHPOs can generally be found on their websites. Applicants can also request additional information from EDA Regional Offices.

Please note that the SHPO clearance process can be lengthy. When submitting this material to the SHPO, the applicant must request that the SHPO submit comments on the proposed project to the EDA Regional Office processing the application.

G. National Environmental Policy Act (NEPA) Requirements

G.1. Please attach an environmental narrative and applicant certification clause using the template found on www.eda.gov.

Environmental Narrative.pdf | Add Attachment | Delete Attachment | View Attachment

Federal agencies are required by law to assess the expected environmental impacts associated with proposed federal actions. Depending on its analysis of information submitted by the applicant, EDA may request additional information to better understand the current environmental conditions and the project elements that will affect the environment.

Comprehensive information is required to complete an environmental review in accordance with NEPA. Information must be provided for the:

(i) site where the proposed project facilities will be constructed and the surrounding areas affected by its operation; and

(ii) areas to be affected by any primary beneficiaries of the project.

(iii) The information submitted must be sufficient to evaluate all reasonable alternatives to the proposed project and the direct and indirect environmental impacts of the project, as well as the cumulative impacts on the environment as defined in the regulations for implementing the procedural provisions of NEPA. See 40 C.F.R. parts 1500-1508.

The level of detail should be commensurate with the complexity and size of the project and the magnitude of the expected impact. Previously completed environmental impact documentation (assessments, impact statements, etc.) for activities in the region in which the proposed project will be located may be used as documentation.

H. Business Incubators and Accelerators

Does the applicant intend to construct or renovate a business incubator, accelerator, commercialization center, or similar project?

☒ No ☐ Yes

Please attach a feasibility study demonstrating the need for the Project and an operational plan based on industry best practices demonstrating the Eligible Applicant's plan for ongoing successful operations. See the applicable NOFO for additional information and guidance.

Abandoned Runway Rehabilitation and Infield Development

PRELIMINARY ENGINEER'S REPORT

Brooksville-Tampa Bay Regional Airport (BKV)
Hernando County, Florida

Prepared for:

August 2025

MDG MOHSEN DESIGN GROUP
2202 N. Westshore Blvd., Suite 200
Tampa, Florida 33607

TABLE OF CONTENTS

1.0 Introduction 2
2.0 Project Description 2
3.0 Design Standards 3
4.0 Dimensions and Quantities 3
5.0 Feasibility Analysis 3
6.0 Method of Construction 4
7.0 Construction Contracts 4
8.0 Construction Cost of Project Components 4
9.0 Real Property Acquisition 4
10.0 Permits Required 4
11.0 Overall Estimated Project Schedule 4
12.0 Overall Project Budget Breakdown 5

APPENDIX:
Appendix A: Cost Estimate of Project Components

1.0 Introduction

Brooksville-Tampa Bay Regional Airport (BKV) was constructed in 1942 and is owned and operated by the Hernando County Board of County Commissioners (County). The County intends to implement several improvements within the infield area as depicted in Figure 1 below. To complete the design and construction of the proposed improvements, the County will be requesting federal funding through the Economic Development Administration (EDA) 2025 Disaster Supplemental assistance program.

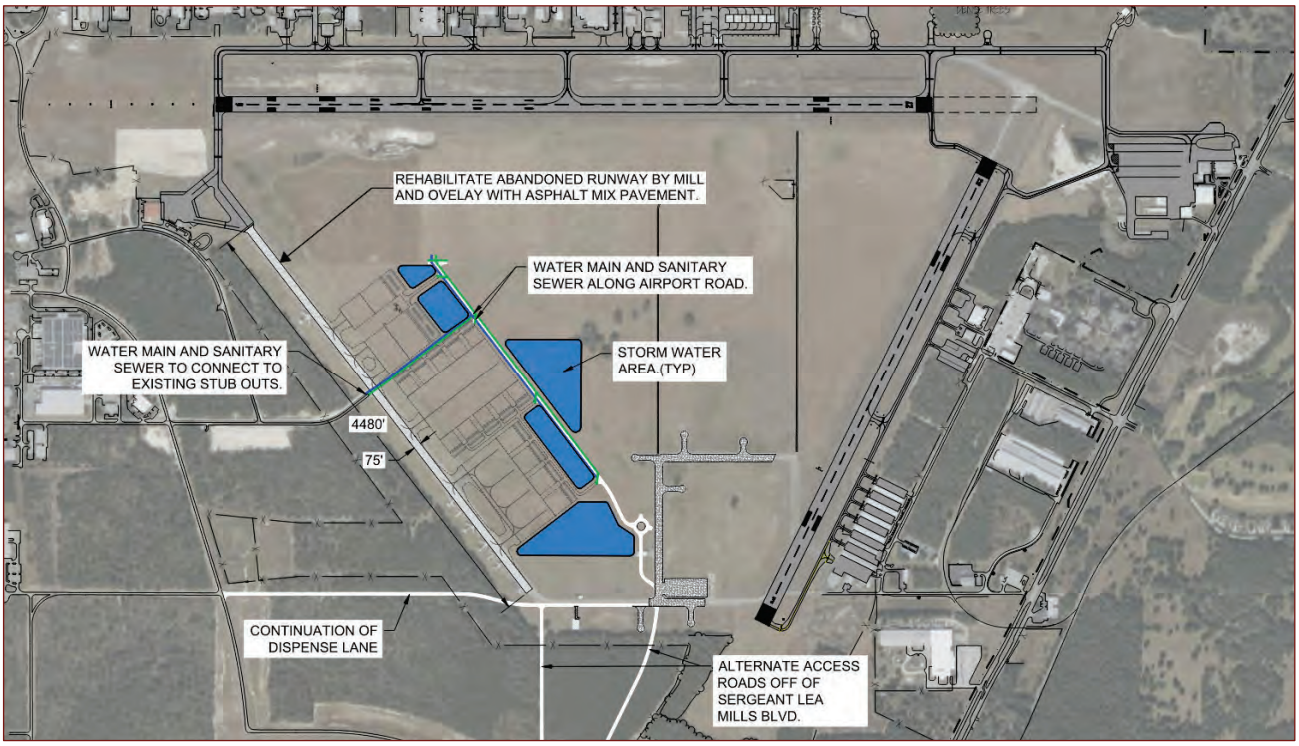

Figure No. 1 – Infield Development

2.0 Project Description

To ensure the safe operation of aircraft within the proposed development and facilitate access to these areas, the project will include the following elements:

1. Rehabilitate the concrete paved abandoned runway for use as a taxiway. The existing abandoned runway is 150 feet wide by 4,480 feet long. This rehabilitation will consist of milling a 75-foot-wide portion along the center line and resurfacing with new asphalt mix pavement for a total rehabilitation area of 336,000 SF. Additional items associated with this rehabilitation will include installing edge lights and signage. Once completed, the new Airplane Design Group (ADG) IV taxiway will facilitate aircraft access from the future infield development to existing Runway 9-27.
2. Install infrastructure to support future infield development that includes constructing about 11,930 linear feet of 24-foot-wide asphalt paved roadway.
3. Perform earthwork that includes cutting, filling, grading, and compaction operations.
4. Install about 4,000 linear feet of water pipes.
5. Install about 4,600 linear feet of sanitary sewer pipes and 14 sanitary sewer manholes.
6. Construct about 26 acres of stormwater management facilities.

7. Clear and grub about three (3) acres of wooded land.
8. Install about 50,000 square feet of sodding.
9. Install about 10,000 square feet of pavement markings.

3.0 Design Standards

This project will be designed and constructed according to the following technical design criteria:

1. FAA AC 150/5300-13B – Change 1, "Airport Design"
2. FAA AC 150/5320-6G, "Airport Pavement Design and Evaluation"
3. FAA AC 150/5340-1M, "Standards for Airport Marking"
4. FAA AC 150/5370-2G, "Operational Safety on Airports During Construction"
5. FAA AC 150/5370-10H, "Standard Specifications for Construction of Airports"
6. FAA AC 150/5340-30J, "Design and Installation Details for Airport Visual Aids"

4.0 Dimensions and Quantities

Dimensions and quantities of the project's main elements are depicted on Figure 2 below:

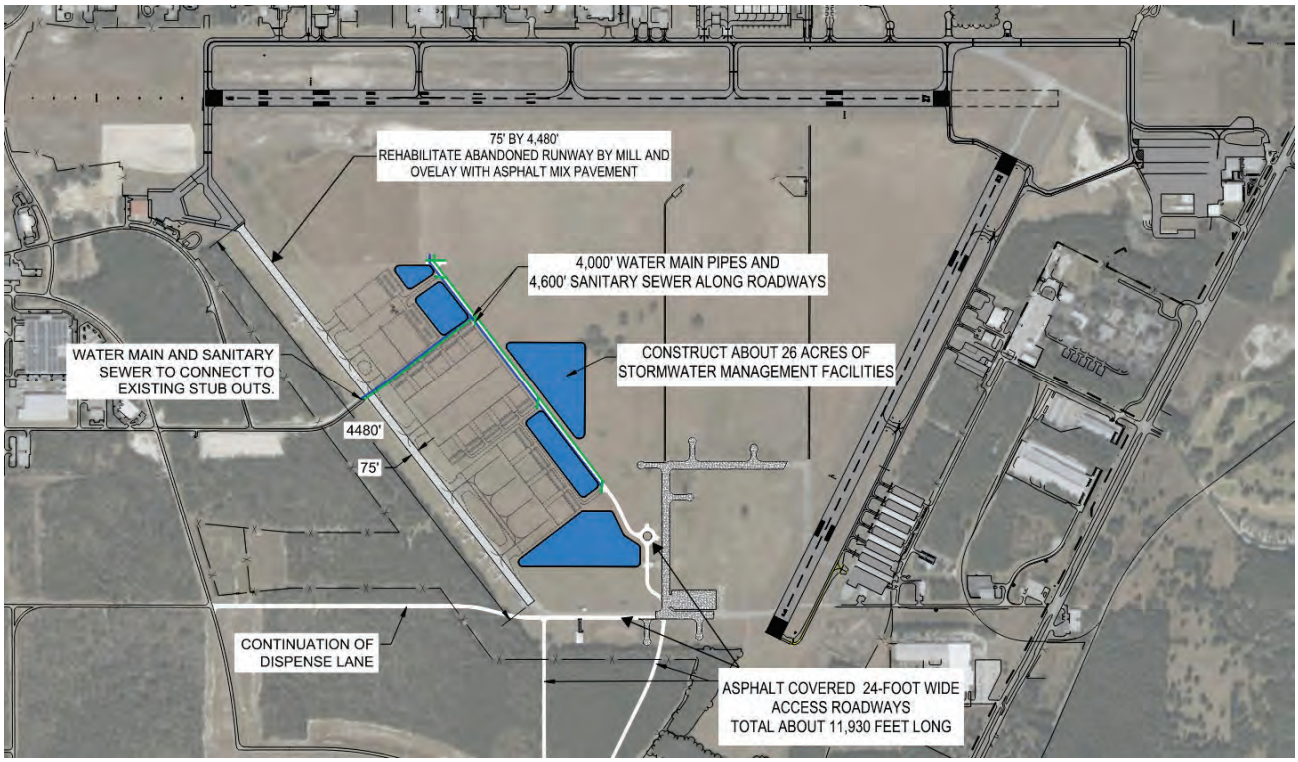

Figure No. 1 – Project Main Elements

5.0 Feasibility Analysis

The existing decommissioned runway consists of concrete paved surface while the remaining portions of the project site are grassed covered. No existing features, alignments, or circumstances are anticipated to impact the proposed construction.

6.0 Method of Construction

The construction of this project will follow traditional method of bidding. Construction documents will be issued to competitive bidders for sealed bid process.

7.0 Construction Contracts

It is anticipated that the construction of this project will be awarded to one general contractor that will be responsible for executing all project elements including rehabilitation of the abandoned runway, construction of roadways, construction of stormwater management facilities, earthwork operations, and installation of utilities.

8.0 Construction Cost of Project Components

Construction costs and unit prices were established using recent projects within the Hernando County area. The total probable construction cost for this project is estimated at $17,000,000. This total includes an allowance for Construction Administration (CA) services and a 15% contingency. This contingency is added to allow for future escalation in labor and unit cost. See attached Cost Estimate in Appendix A for details.

9.0 Real Property Acquisition

The Airport is owned and operated by the County; no real property acquisition is be anticipated.

10.0 Permits Required

It is anticipated that permits will be required through Southwest Florida Water Management District (SWFWMD) Environmental Resource Permit, Florida Department of Environmental Protection (FDEP) sanitary and potable water connection permits, FAA 7460 Determination, City of Brooksville Building Permit. While permit times can vary based on agency backlog and review time, it is assumed that permitting will take approximately 130 days.

As an Environmental Assessment is currently being performed at BKV, it is assumed that an additional assessment will not be required. The environmental permitting through FAA will vary based on the results of the Assessment, however it is anticipated that a Categorical Exclusion (CatEx) will be reviewed concurrently with other permitting tasks.

11.0 Overall Estimated Project Schedule

This project will be divided into phases to minimize interruption to Airport Operations. A Notice to Proceed for the proposed construction is anticipated in July 2026 and estimated to take 730 consecutive calendar days as follows:

Task	Duration
Design/Data Collection – Not Included in This Grant	6 Months
Permitting – Not Included in this Grant	4.5 Months
Obtain Easements/Right-of-Way – Not Included in This Grant	Not Anticipated
Solicitation, Bidding and Award – Not Included in This Grant	2 Months
Mobilization Period	2 Months
Construction (All Phases)	9 Months
Close Out	1 Month
Total Project Duration:	**24.5 Months**

12.0 Overall Project Budget Breakdown

Project budget breakdown for each cost classification is included on Form SF-424C under a separate attachment.

APPENDIX A

Cost Estimate of Project Components

Preliminary Cost Estimate
In-Field Development
Brooksville-Tampa Bay Regional Airport (BKV)

Item No.	Spec No.	Item Description	Unit	Quantity	Unit Price	Item Total
1		Safety, Security, and Maintenance of Airfield Operations	LS	1	$125,000.00	$125,000.00
2		Project Record Documents - As-Built Survey	LS	1	$50,000.00	$50,000.00
3		Contractor Quality Control Program	LS	1	$125,000.00	$125,000.00
4		Temporary Pollution, Erosion, and Siltation Control	LS	1	$125,000.00	$125,000.00
5		Mobilization	LS	1	$1,300,000.00	$1,300,000.00
6		Unclassified Excavations	CY	15,000	$15.00	$225,000.00
7		Stormwater Management Facility	AC	26	$90,000.00	$2,340,000.00
8		Tree Removal	AC	3	$15,000.00	$45,000.00
9		Clearing and Grubbing	AC	3	$10,000.00	$30,000.00
10		Asphalt Pavement 2"-Access Roads (@ 24' wide)	TN	3,700	$250.00	$925,000.00
11		Lime Rock	CY	8,000	$100.00	$800,000.00
12		Prime Coat	GAL	3,200	$4.50	$14,400.00
13		Tack Coat	GAL	2,550	$4.50	$11,475.00
14		Final Reflective Markings (White and Yellow)	SF	10,000	$4.25	$42,500.00
15		Sodding	SY	50,000	$5.00	$250,000.00
16		Water Main	LF	4,000	$125.00	$500,000.00
17		Sanitary Sewer	LF	4,600	$125.00	$575,000.00
18		Sanitary Sewer Manhole	EA	14	$8,000.00	$112,000.00
19		Abandoned Runway Rehab (75' x 4,480') @ 5.5" Asphalt	LS	1	$6,250,000.00	$6,250,000.00
20		Lift Station	EA	1	$200,000.00	$200,000.00
21		Signage	LS	1	$50,000.00	$50,000.00
					Total Construction:	**$14,095,375.00**

Construction:	**$14,100,000**
15% Contingency:	**$2,100,000**
CA Services (including testing and inspections):	**$800,000**
Total Project Cost (Including 15% Contingency):	**$17,000,000**

Subject: EDA Application Brooksville – Tampa Bay Regional Airport Critical Infrastructure Construction Project

To Whom if May Concern:

On behalf of Brooksville – Tampa Bay Regional Airport (BKV), I am pleased to express our full commitment to the successful implementation of Brooksville – Tampa Bay Regional Airport (BKV) Critical Infrastructure Construction Project, for which Hernando Cunty Board of County Commissioners is seeking funding through the Economic Development Administration (EDA) grant program. Our organization is dedicated to fostering economic growth, job creation, and sustainable development in Hernando County Florida, aligning with the EDA's mission to promote innovation and economic resilience.

BKV pledges to provide the following support to ensure the project's success:

BKV is well-positioned to drive regional economic development through business incentives offered by Hernando County and the State of Florida, tied to capital investment, job creation, wage levels, and facility size. To further attract and retain high-impact employers, BKV may offer flexible, performance-based land lease discounts or other considerations for both aviation and non-aviation companies relocating or expanding within the project area—supporting EDA's mission to foster economic resilience and private-sector growth.

BKV has a proven track record of successfully managing economic development initiatives, including the successful attraction of aviation and non-aviation private investment representing the support of more than 2,000 jobs. We are confident our expertise, combined with the EDA's support, will lead to measurable outcomes, such as the creation of new sites to increase private investment, create new job opportunities, and diversify the Hernando County economy.

Should you require additional information or documentation, please contact me at 352-754-4061. We look forward to partnering with the EDA to drive economic prosperity in Hernando County Florida.

Sincerely,

Valerie Pianta

Letter of CEDS Consistency for Hernando County's Brooksville – Tampa Bay Regional Airport (BKV) Taxiway Resurfacing and Infield Infrastructure Project

As the region's EDA-designated Economic Development District (EDD), the Tampa Bay Regional Planning Council (TBRPC) wishes to express that Hernando County's Taxiway Resurfacing and Infield Infrastructure Project at the Brooksville - Tampa Bay Regional Airport and Technology Center (BKV), is aligned with the Tampa Bay Comprehensive Economic Development Strategy (CEDS). The TBRPC enthusiastically supports Hernando County in its application for the EDA FY25 Disaster Supplemental funding.

Hernando County's fully designed project will expand critical infrastructure to enhance the airport's capacity to accommodate new business investment, create quality jobs, support disaster resilience, and promote economic diversification and growth in the region. The project will resurface 5,700 feet of deactivated runway, expand service road access, and install water and sewer utilities to the infield area of the airport.

By incorporating 500 additional acres of service ready sites, BKV will be better equipped to accommodate larger facilities for aircraft maintenance and repair, increased commercial spaces, and new manufacturing enterprises. Hernando County estimates that this critical infrastructure development will enable the creation of 100 high-paying jobs post-construction. Two industries, Judah 1 Aviation, Inc. and Pem Air, have already expressed support for the project. Increased land viability will also improve regional disaster resilience by providing additional space for Department of Defense paratrooper training and National Guard deployment.

This project most directly supports CEDS Goal 1 *("To support the development of a diversified economy by expanding the quantity and quality of job opportunities")*, CEDS Goal 2 ("*To support programs and strategies, including international trade, which assist in the retention, expansion, and attraction of businesses.")*, CEDS Goal 6 *("To ensure that there is a superior network of public infrastructure with supportive land use regulations to maintain the region as a competitive location for targeted industries and to provide for public safety and homeland security")*, and CEDS Goal 12 *("To promote a regional perspective on multi-modal transportation systems for people, goods and services that includes transit, highway, seaport, airport, rail, broadband, and multi-use trail planning and development.")*

The TBRPC has full confidence that, if funded, this Taxiway Resurfacing and Infield Infrastructure project will contribute to the Tampa Bay region's economy and strengthen the region's resiliency.

Sincerely,

Wren G. Krahl
Executive Director
Tampa Bay Regional Planning Council

To Whom it May Concern:

On behalf of the Greater Hernando County Chamber of Commerce, we are pleased to express our full commitment to the successful implementation of Brooksville – Tampa Bay Regional Airport (BKV) Critical Infrastructure Construction Project, for which we are seeking funding through the Economic Development Administration (EDA) grant program. Our organization is dedicated to fostering economic growth, job creation, and sustainable development in Hernando County Florida, aligning with the EDA's mission to promote innovation and economic resilience.

The Greater Hernando County Chamber of Commerce (Chamber) pledges to provide the following support to ensure the project's success: Committed to serving as the voice of the business community, ensuring effective communication and providing critical updates on legislative and local issues that may impact our members' businesses. We will actively collaborate with BKV staff and contractors awarded contracts for the construction of the new taxiway to assist in identifying and connecting with essential suppliers and vendors to support the project's success.

Our leadership will promote the project within the local and regional business communities, serving as a forum for regular updates and fostering engagement. Additionally, the Chamber will engage with County and State regulatory agencies and elected officials to advocate for the project's success. This policy initiative aims to ensure the project achieves its objectives, including the development of serviced aviation and manufacturing sites to drive private investment and job creation in the region.

Should you require additional information or documentation, please contact me at 352-796-0697. We look forward to partnering with the EDA to drive economic prosperity in Hernando County Florida.

Subject: EDA Application Brooksville – Tampa Bay Regional Airport Critical Infrastructure Construction Project

To Whom if May Concern:

On behalf of CareerSource Pasco Hernando, I am pleased to express our full commitment to the successful implementation of Brooksville – Tampa Bay Regional Airport (BKV) Critical Infrastructure Construction Project, for which we are seeking funding through the Economic Development Administration (EDA) grant program. Our organization is dedicated to fostering economic growth, job creation, and sustainable development in Hernando County Florida, aligning with the EDA's mission to promote innovation and economic resilience.

CareerSource Pasco Hernando pledges to provide the following support to ensure the project's success:

CareerSource Pasco Hernando, also known as the Pasco-Hernando Workforce Board, is dedicated to advancing economic development in our region by fostering a skilled, high-quality workforce that supports the success of local businesses and enhances community well-being. We commit to actively partnering with BKV staff and contractors awarded contracts for the construction of the new taxiway to facilitate worker recruitment and develop tailored training programs to elevate the skills required throughout the project's duration.

To ensure effective coordination, we will designate a Business Services Manager as the primary point of contact for these companies during the construction phase. This policy initiative is designed to support the project's objectives, including the creation of serviced aviation and manufacturing sites to promote private investment and economic growth in the region.

info@careersourcepascohernando.com
PO Box 6589 | Spring Hill, FL 34611

Subject: EDA Application Brooksville – Tampa Bay Regional Airport Critical Infrastructure. Construction Project

To Whom if May Concern:

Hernando Progress, Inc., a private nonprofit business organization representing the key business leaders in Hernando County, Florida is pleased to express our support for the funding through the Economic Development Administration (EDA) grant program required to implement the Brooksville – Tampa Bay Regional Airport (BKV) Critical Infrastructure Construction Project. Our organization is dedicated to fostering economic growth, job creation, and sustainable development in Hernando County Florida, aligning with the EDA's mission to promote innovation and economic resilience.

Hernando Progress will provide support and actively work in partnership with BKV staff and qualified contractors for the successful completion of the new BKV taxiway; support for the project will engage the local and regional business community needed to engage County/State agencies and elected leadership to support the project. This support initiative will seek to ensure the project meets its objectives, including creating serviced aviation and manufacturing sites to support the growth and expansion of private investment and job creation.

Hernando Progress, Inc. has a proven track record of successfully managing economic development initiatives, including: the funding of a future land use study, community education on economic development and uniting the Hernando County Business Community. We are confident that our expertise, combined with the EDA's support, will lead to measurable outcomes, such as the creation of new sites to increase private investment, create new job opportunities, and diversify the Hernando County economy.

Sincerely,

8/22/25

Subject: EDA Application Brooksville – Tampa Bay Regional Airport Critical Infrastructure Construction Project

To Whom If May Concern:

On behalf of the Nature Coast Manufacturers' Association, I am pleased to express our full commitment to the successful implementation of Brooksville – Tampa Bay Regional Airport (BKV) Critical Infrastructure Construction Project, for which we are seeking funding through the Economic Development Administration (EDA) grant program. Our organization is dedicated to fostering economic growth, job creation, and sustainable development on Florida's Nature Coast, aligning with the EDA's mission to promote innovation and economic resilience.

The Nature Coast Manufacturers Association (NCMA) is dedicated to enhancing the business environment for manufacturers on the Nature Coast including Hernando County through advocacy, effective communication, and the provision of education, training, and collaborative resources tailored to the needs of local manufacturers.
Nature Coast Manufacturers' Association pledges to provide the following support to ensure the project's success: NCMA commits to actively collaborating with BKV staff and contractors on the construction of the new taxiway. Our organization will assist in identifying and connecting with suppliers and vendors essential to the project's success. Additionally, NCMA leadership will promote the project within the local and regional business communities and engage with County and State regulatory agencies and elected officials to ensure robust support.

This policy initiative aims to facilitate the project's objectives, including the development of serviced aviation and manufacturing sites, to foster private investment and job creation in the region.
NCMA has a proven track record of successfully managing economic development initiatives including: disaster preparedness, Connex supply chain support, advocacy for manufacturers, and workforce training. We are confident that our expertise, combined with the EDA's support, will lead to measurable outcomes, such as the creation of new sites to increase private investment, create new job opportunities, and diversify the Hernando County economy.

Should you require additional information or documentation, please contact me at (352) 428-4220. We look forward to partnering with the EDA to drive economic prosperity in Hernando County Florida.

Sincerely,

Duane Chichester
Executive Director
Nature Coast Manufacturers' Association

Subject: EDA Application Brooksville – Tampa Bay Regional Airport Critical Infrastructure Construction Project

To Whom if May Concern:

On behalf of Wilton Simpson Technical College, I am pleased to express our full commitment to the successful implementation of Brooksville – Tampa Bay Regional Airport (BKV) Critical Infrastructure Construction Project, for which we are seeking funding through the Economic Development Administration (EDA) grant program. Our organization is dedicated to fostering economic growth, job creation, and sustainable development in Hernando County Florida, aligning with the EDA's mission to promote innovation and economic resilience.

Wilton Simpson Technical College pledges to provide the following support to ensure the project's success:

Wilton Simpson Technical College is committed to empowering our community through high-quality, innovative educational programs that foster growth and success. We will actively collaborate with BKV staff and contractors during the construction of the new taxiway to identify and develop training programs aimed at enhancing the skills of both existing and new employees throughout the project's duration.

In partnership with key stakeholders, we will maintain ongoing communication with companies involved to promptly address their immediate workforce needs. This policy initiative is designed to support the project's objectives, including the development of serviced aviation and manufacturing sites, to promote private investment and economic growth in the region.

We are confident that our expertise, combined with the EDA's support, will lead to measurable outcomes, such as the creation of new sites to increase private investment, create new job opportunities, and diversify the Hernando County economy.

Should you require additional information or documentation, please contact me at 352-797-7018. We look forward to partnering with the EDA to drive economic prosperity in Hernando County Florida.

Sincerely,

Subject: EDA Application Brooksville – Tampa Bay Regional Airport Critical Infrastructure Construction Project

To Whom It May Concern:

On behalf of Duke Energy Florida (DEF), I am pleased to express our full commitment to the successful implementation of Brooksville – Tampa Bay Regional Airport (BKV) Critical Infrastructure Construction Project, seeking funding through the Economic Development Administration (EDA) grant program. Our organization is dedicated to fostering economic growth, job creation, and sustainable development in Hernando County Florida, aligning with the EDA's mission to promote innovation and economic resilience. DEF plans to continue to provide the following support to ensure the project's success.

DEF will be a key partner with BKV in business recruitment and regional positioning. Our team will market the facility to our network of site consultants and showcase BKV to help attract investment and job creation to the area. DEF will continue to work with BKV staff and the Hernando Office of Economic Development and periodically offer marketing grants to elevate the airport's visibility.DEF has a proven track record of successfully managing economic development initiatives, including providing strategic support that can significantly enhance the growth potential of BKV.

DEF successfully completed a Site Readiness Program project on a 283-site located on the south side of the proposed project at BKV. This Site Readiness project positioned the site for the attraction of aviation, logistics, or advanced manufacturing tenants. We are confident that our expertise, combined with the EDA's support, will lead to measurable outcomes, such as the creation of new sites to increase private investment, create new job opportunities, and diversify the Hernando County economy.

Should you require additional information or documentation, please contact me at Staci.Bertrand@Duke-Energy.com. We look forward to partnering with the EDA to drive economic prosperity in Hernando County Florida.

Sincerely,

Staci Bertrand

RE: EDA Disaster Supplemental Grant - Brooksville-Tampa Bay Regional Airport Critical Infrastructure Construction Project

Dear Acting Assistant Secretary Page:

As the Representative of the 12th Congressional District of Florida, the Office of Congressman Gus Bilirakis is pleased to provide this letter of support for the Hernando County Board of County Commissioners, Brooksville-Tampa Bay Regional Airport Critical Infrastructure Construction Project. Hernando County has a long-demonstrated success of securing funding from the U.S. Department of Transportation, Federal Aviation Administration, and various other federal and state funding sources.

The functional taxiway expansion will enable aviation-related industry into 150 acres of adjacent infield property and support future commercial and light industrial development opportunities across an additional 500 acres of adjacent employment-designated land. The proposed project, backed by my office, will create direct and indirect/induced high-wage jobs in aerospace, maintenance, repair and operations (MRO) and manufacturing. The direct benefit to the citizens of Florida's 12th Congressional District, including those of Hernando County, will be through the increase in local employment opportunities and reducing out-commuting. It will enhance economic reliance for District 12 communities by diversifying the tax base and attracting private investment improving median household incomes. The modern, hurricane-resilient infrastructure will mitigate future disruptions and improve economic vitality.

It is for these reasons; I encourage you to support the Hernando County *Brooksville-Tampa Bay Regional Airport Critical Infrastructure Construction Project*. Thank for you for consideration.

Sincerely,

DRAFT

Revised March 2025. Please check EDA's website before using this template to confirm that you are using the latest version. As of the date of this version, the current template can be found at the bottom of the "Programs" page at EDA.gov.

Environmental Narrative Requirements
The National Environmental Policy Act (NEPA) requires Federal agencies to assess the potential environmental impacts associated with proposed federal actions, including financial assistance. Applicants are encouraged to contact their designated Economic Development Representative or the applicable EDA Regional Environmental Officer with questions regarding this template and/or the appropriate level of documentation (please see the EDA website or the applicable Federal Funding Opportunity for contact information). Resources of available information are listed in many of the sections. If you are using a locally saved copy of this template, please check EDA's website to confirm this is the current version.

Several issues discussed in the environmental narrative below may require consultation with other State or Federal agencies at a later date (for example, the State Historic Preservation Office, the U.S. Fish and Wildlife Service, or the National Oceanic and Atmospheric Administration's (NOAA) National Marine Fisheries Service (NMFS)). While EDA does not require that applicants complete such consultations before submitting an initial application, applicants should be aware that in the event their project is selected for further evaluation for funding, EDA may delegate these consultations to the applicant and expect them to be completed in an expeditious manner and prior to approval of an award.

Applicants must provide information on the following items in the environmental narrative. For any area in which the applicant asserts that an item is not applicable to a project, provide an explanation.

A. PROJECT DESCRIPTION

1. Beneficiaries

Identify any existing businesses or major developments that will benefit from the proposed project, and those that will expand or locate in the area because of the project.

Beneficiaries from the proposed project will include aeronautical and non-aeronautical businesses that have shown interest in establishing facilities at the Brooksville-Tampa Bay Regional Airport (BKV). Existing tenants will have the opportunity to expand their operations at BKV. Additionally, Hernando County's ability to develop the airport's industrial park and infield areas will support new economic opportunities by attracting more tenants. The trickle down will result in positive impacts on the economic development within Hernando County and the surrounding areas, including the introduction of new jobs.

2. Proposed Construction

As an exhibit to this Narrative, provide a topographical map of the project area and a site map (with legend and north arrow) displaying the project location and boundaries, existing and proposed project components and location of all sites and/or companies benefitting from the proposed project. The documents should be of sufficient clarity for adequate interpretation of the Applicant's intentions.

Describe the project construction components in detailed, quantifiable terms. Describe the project location, proposed construction activities (e.g., grading, trenching), and schedule. **It is sufficient to simply reference the Preliminary Engineering Report (PER) here if a PER containing this information has been submitted or will be submitted concurrently.**

The project includes the rehabilitation of an abandoned runway for use as a taxiway and installation of infrastructure for future infield development. The existing abandoned runway consists of 150 feet by 4,480 feet concrete pavement. This abandoned runway will be rehabilitated by milling a 75-foot wide portion along the center line and resurfacing with new asphalt mix pavement for a total rehabilitation area of 336,000 square feet. Additional infrastructure to support future infield development will include constructing about 11,930 feet of 24-foot wide asphalt paved roadways, installing 4,000 feet of water lines, installing 4,600 feet of sanitary sewer pipes, installing 14 sanitary sewer manholes, installing 10,000 square feet of pavement marking, and constructing about 26 acres of stormwater management facilities. The project also includes about three (3) acres of site clearing and grubbing, and installation of 50,000 square yards of sod. The Site Plan is provided as Attachment A.

3. Need and Purpose

Provide a brief summary of the underlying need and purpose of the proposal for EDA funding.

In 2020, Hernando County began the development process of evaluating future development opportunities by preparing an Airport Infrastructure Development Plan (IDP) for the industrial park areas of the airport. The initial phase of the IDP evaluated land use, roadways, drainage, utilities, and other infrastructure needed to prepare various sites for development over the next ten years. The fundamental need is to address the lack of infrastructure. The project allows for expanding capacity, creating new jobs, attracting new businesses as well as supporting existing businesses/tenants. The project aids in stimulating the economic growth within Hernando County, enhancing airport functionality, supporting the community, and providing a foundation for growth and development.

This project includes the construction of the airport's infrastructure needed to maximize future development within the airport's infield area.

4. Alternatives to the Proposed Project

Based in the Need and Purpose summary above, provide a detailed description of alternative actions that were considered during the project planning but were not selected (e.g., alternative locations, designs, scopes, other projects having similar benefits, and a "no project" alternative). Explain why this project/site was selected as the preferred alternative. Provide detail on why other alternatives were rejected (e.g., did not meet the purpose and need of the project, implicated more environmental receptors, had greater regulatory hurdles, or were at greater risk to extreme weather events than the proposed action). If the selected project would impact wetlands or floodplains, please provide a detailed description of alternatives to those proposed impacts.

Overall, infrastructure related to road access and utilities were the same through the alternatives that were analyzed. The notable change between the alternatives was the location and size of the stormwater ponds. The no-action alternative would leave the

infield area undeveloped. All alternatives met the purpose and need. This project was selected above the other alternatives because it maximized the efficient use of available land while maintained required stormwater features.

B. HISTORIC/ARCHEOLOGICAL RESOURCES

Identify any known historic/archeological resources within the project site(s) or area of potential effect that are either listed on the National Register of Historic Places or considered to be of local or State significance and perhaps eligible for listing on the National Register. In many states, the State Historic Preservation Office (SHPO) maintains GIS databases of historic properties and cultural resources. Delineate an Area of Potential Effect (APE) for the project. The APE is the geographic area or areas within which a proposal may cause changes in the character or use of historic properties, which would include (but is not limited to) any new development or renovation by the beneficiary facilitated by the proposed EDA project. Discuss the potential impacts of the project on culturally significant resources and provide a determination as to whether there will be: no historical properties/cultural resources present; no historical properties/cultural resources adversely affected; or historical properties/cultural resources adversely affected.

Note that the applicant is not required to contact the SHPO until directed to do so by EDA. If comments from the SHPO have already been received, they should be attached along with copies of the information provided to the SHPO. If you wish to initiate early consultation, please consult the website of the appropriate SHPO for instructions on required information.

The National Park Service's National Register web-based map utility was used to review records of National Register of Historic Places (NRHP) listed properties that are not considered "sensitive or restricted" (such as archaeological sites) near BKV. This review indicated that there are no unrestricted NRHP-listed cultural, historical, or archaeological resources within or adjacent to the project site. Because the search does not include sensitive or restricted sites, sites that have yet to be discovered, or sites that may be eligible for listing but have not been officially listed to date, this review should only be preliminary.

The National Register of Historic Places (NRHP) indicates the closest historic sites are approximately seven miles northeast of the project site in the City of Brooksville. The five historic sites/places are the Jennings William Sherman House (98001252), the Russell Judge Willis House (99000046), the South Brooksville Avenue Historic District (98001203), the Frank Sexon House (98001321), and the May Stringer (97000210).

A Cultural Resource Assessment Desktop Analysis was completed as part of the Runway 9-27 Extension Environmental Assessment (EA) and indicated four previously recorded archaeological sites. These sites show lithic scatters which are either not eligible or have not been evaluated for listing in the NRHP. None of these sites are located within the project site. (See Attachment B)

Coordination with SHPO will occur during the Due Diligence phase prior to design to evaluate potential effects of proposed projects that are in previously undisturbed areas or

that may impact buildings or landmarks that are more than 50 years of age have the potential to impact cultural resources prior to construction.

C. AFFECTED ENVIRONMENT

For the resource areas identified below, indicate the effects or impacts from proposed project activities and specify proposed measures to mitigate probable impacts.

Effects or impacts means changes to the human environment from the proposed action or alternatives that are reasonably foreseeable and have a reasonably close causal relationship to the proposed action or alternatives, including those effects that occur at the same time and place as the proposed action or alternatives and may include effects that are later in time or farther removed in distance from the proposed action or alternatives.

Effects include ecological (such as the effects on natural resources and on the components, structures, and functioning of affected ecosystems), aesthetic, historic, cultural, economic (such as the effects on employment), social, or health effects. Effects may also include those resulting from actions that may have both beneficial and detrimental effects, even if on balance the agency believes that the effect will be beneficial.

Reasonably foreseeable means sufficiently likely to occur such that a person of ordinary prudence would take it into account in reaching a decision.

1. Affected Area

Describe the general project area, including topography, historic land usages, unique geological features, and economic history. Provide site photographs if available. Identify native vegetation and wildlife found in the project area or its immediate vicinity. Describe the amount and type of vegetation in the project area and indicate the impact to vegetation if removed (e.g., 1.2 acres of early successional native hardwood forest). Identify any designated State and National Parks, National Wildlife Refuges, or National Game Preserves located on or in the vicinity of the proposed project activities. Identify any Wilderness Areas, as designated or proposed under the Wilderness Act, or wild or scenic rivers, as designated or proposed under the Wild and Scenic Rivers Act, or other lands protected under state or federal law that are located on or in the vicinity of the proposed project activities.

1. Please describe any effects or impacts including reasonably foreseeable effects.

The Area of Potential Effect (APE) is located entirely within the BKV property boundary. There are no state/national parks, national wildlife refuges, national game preserves, or wild and scenic rivers within the APE. There is a combination of developed and undeveloped areas within the APE. Existing development in the APE includes the abandoned runway, which is being converted to a taxiway for airside access and Runway Drive, which currently provides landside access to that area. Construction of new access roads requires the disturbance of tree-covered areas located in the south and east sides of the APE. Attachment A depicts the APE for this project.

2. Coastal Zones

Indicate whether the project is located within a designated coastal zone subject to the Coastal Zone Management Act. Information on coastal zone boundaries is available on the NOAA's website. Identify any shorelines, beaches, dunes, or estuaries within or adjacent to the project

site(s) and explain how the proposed project is consistent with the state's Coastal Zone Management Plan. If state concurrence is required, identify the state's Coastal Zone Management Agency.

The Florida Coastal Zone covers the entire state. Therefore, the proposed project site is located in an area subject to the Florida Coastal Management Program (FCMP). The proposed project would be consistent with the enforceable policies of the FCMP. The proposed project would not affect coastal resources, create plans to direct future agency actions, propose rulemaking that alters uses of a coastal zone that are inconsistent with the Program, or involve Outer Continental Shelf (OCS) leases. The closest Coastal Barrier Resource System (CBRS) is located 28 miles southwest of the Airport (CBRS Unit: Anclote Key FL-87P).

3. Wetlands

Identify any wetlands within or adjacent to the project site(s). If available, provide an on-site wetland/waters delineation performed in accordance with the 1987 (or current version) USACE Wetland Delineation Manual, as amended. Provide any correspondence from USACE, including any jurisdictional determination or permit documents.

1. Provide a determination of effects including the amount of jurisdictional waters affected by type (e.g., 1.1 acres of palustrine emergent wetlands would be impacted by the proposed project).
2. If any wetlands would be impacted by the project, provide an analysis of alternatives to wetland impact in this section or in the Alternatives to the Project section above.
3. Describe any mitigation plans here or in Section D below.

Also indicate if there are any proposed overwater structures that could impact navigable waters as defined in 33 CFR part 329.

If wetlands, streams, or navigable waters may be impacted, it is recommended that Applicants contact USACE concerning any jurisdictional waters resources.

A portion of the project area is mostly developed, the USFWS National Wetlands Inventory (NWI) Wetland Mapper indicates that only one freshwater emergent wetland is present in the project area. The locations of the mapped wetlands and surface waters are shown in Attachment C. There remains a possibility that other wetlands occur on the project area that do not appear on the NWI mapping or that the actual extent of wetlands is less or different than depicted on the mapping. For future development, particularly in areas that have not been previously developed, it will be important to evaluate each site for the potential presence of wetlands before construction.

It appears that the site plan will be unable to avoid impacting the wetland within the project site. Unavoidable wetlands will be mitigated though the purchase of mitigation credits from a local mitigation bank.

A Southwest Florida Water Management District (SWFWMD) permit will be required for the unavoidable wetland impacts.

4. Floodplains

Please state whether the project is located within a mapped 100- or 500-year floodplain. Provide a FEMA floodplain map (with the map number and effective date) displaying the project location and boundaries, existing and proposed project components, and location of all sites and/or companies benefiting from the proposed project. The document should be of sufficient clarity for adequate interpretation of the applicant's intentions.

Floodplain maps can be viewed and printed from FEMA's website. If FEMA floodplain maps do not exist in the project area, provide a letter from a Professional Engineer regarding the presence or absence of a 100-year floodplain.

i) Describe effects to 100-year floodplains, if any.
ii) If any 100-year floodplains would be impacted by the project, provide an analysis of alternatives to floodplain impact in this section or in the Alternatives to the Project section above.
iii) Indicate whether the Applicant's community participates in the National Flood Insurance Program.
iv) Indicate if a critical action (e.g., emergency response facility, hospital, wastewater treatment plant) is being located within the 500-year floodplain.

The existing FEMA floodplains include both Type AE and A, which have determined and undetermined flood elevations, respectively. Existing floodplains have been delineated based on Federal Emergency Management Agency (FEMA) National Flood Insurance maps for Hernando County with effective date December 2021.

The County's administrative floodplains differ from the FEMA map. Squirrel Prairie watershed covers eastern portions of the airport, the Powell watershed covers northern and middle areas of the airport, and Bear Creek covers south and western portions of the airport. The Base Flood Elevation for each of the watershed areas were determined and used to quantify required floodplain compensation per proposed impacted area. Based on the pre-app meeting held with SWFWMD, equivalent compensating storage for all 100-year, 24-hour riverine floodplain impacts must be provided. Cup-for-cup storage in dedicated areas of excavation is the preferred method of compensation. The required compensating volume will be provided by the proposed pond which is hydraulically connected to where the impact is proposed.

An impact floodplain map was created to determine what portions of the proposed development encroach on the existing floodplains. The floodplain map is provided in Appendix D. The impact volume was estimated by multiplying the encroachment/impact area by the difference in elevation between existing ground and base flood elevation.

Hernando County does participate in the National Flood Insurance Program.

5. Endangered Species

Provide a list of all threatened, endangered, and candidate species located in or near the project area, including any proposed development by the beneficiary, and the immediate vicinity. Identify these species' potential or existing habitat, and critical habitat designations in the project area. Identify the potential for impacts on these species. Critical habitat designations, lists of

protected species by county, and information on effect determinations are available on the FWS website. The FWS' web-based Information, Planning, and Conservation System (IPaC) may also be useful for the early planning stage of a project. If an Effect Determination or Biological Assessment has been completed for any of the species listed, please provide. Attach any correspondence with FWS that exists related to their proposal. For projects with possible impacts to fisheries and marine/coastal species, provide any correspondence with NMFS.

A list of federally protected species with potential to occur on or near BKV's infield area was generated from the U.S. Fish and Wildlife Service (USFWS) Information for Planning and Consultation (IPaC) website on March 7, 2024. Species from the IPaC list and the Natural Heritage list were evaluated with respect to habitat requirements and those with potential to occur in the habitats on and near BKV are listed below.

Scientific Name	Common Name	Federal Status	State Status
Laterallus jamaicensis ssp. *jamaicensis*	Eastern Black Rail	Threatened	Federally-designated Threatened (FT)
Rostrhamus sociabilis plumbeus	Everglade Snail Kite	Endangered	Federally-designated Endangered (FE)
Grus americana	Whooping Crane	Experimental Population, Non-Essential	Federal Non-Essential Experimental Population (FXN)
Drymarchon couperi	Eastern Indigo Snake	Threatened	Federally-designated Threatened (FT)
Caretta caretta	Alligator Snapping Turtle	Threatened	State-designated Threatened (ST)
Gopherus polyphemus	Gopher Tortoise	Threatened	Federally-designated Threatened (FT)
Danaus plexippus	Monarch Butterfly	Candidate	

Portions of the project site are clear but undeveloped are potential habitats for gopher tortoise burrows. During the Due Diligence phase of the project, a Phase 1 Environmental Site Assessment will be completed to determine the present of endangered species.

6. Land Use and Zoning

Describe the present formal zoning designation and current land use of the project site and adjacent land parcels. The areas include: the site of construction activities, adjacent areas, and areas affected by the primary beneficiaries. Land uses to be considered include, but are not limited to, industrial, commercial, residential, agriculture, recreational, woodlands, mines/quarries, and open spaces. Please indicate whether the project is located entirely within a city limit. Identify agriculture land parcels designated as "prime/unique agriculture lands" by the U.S. Department of Agriculture (USDA) under the Federal Farmlands Protection Act or a local equivalent. Additional information may be found at the USDA's Natural Resources Conservation Service website.

The future use of the development is consistent with the existing and future zoning for the Airport. The project site is wholly located in Hernando County and entirely within the limits of the BKV property boundary. Hernando County has designated the project site as

Transportation. Road improvements required for access to the development will have minor impacts to land designated as Tree Plantation and Longleaf Pine – Xeric Oak. A zoning map has been provided as Attachment E. According to the NRCS Web Soil Survey farmland classification data for BKV's property, all the soils on BKV are classified as not prime farmland soils.

7. Solid Waste Management

Indicate the types and quantities of solid wastes to be produced by the project facilities and primary beneficiary. Describe local solid waste collection and disposal methods and the expected useful life of the disposal facility. Indicate if recycling or resource recovery programs are currently being used or will be used in the future.

Construction will generate minimal levels of solid waste. All solid waste generated during construction will be disposed of at a licensed facility, in compliance with applicable regulations.

Construction will result in solid waste in the form of cleared and grubbed vegetation as well as general construction debris. The contractor will transport the solid waste to an appropriate landfill in accordance with applicable federal, state and local rules and regulations. Disposal of vegetative and construction waste would not significantly impact the capacity of the Hernando County Landfill.

8. Hazardous or Toxic Substances

Describe any toxic, hazardous, or radioactive substances that will be utilized or produced by the proposed project facilities and primary beneficiaries. Describe the manner in which these substances would be stored, used, or disposed. Complete and sign one "Applicant Certification Clause" for each co-applicant (see Appendix A). Indicate if hazardous or toxic substances have been or must be remediated prior to construction, demolition, or renovation. If a recent Phase I or Phase II Environmental Site Assessment has been performed, please provide a copy of the executive summary (a full copy may be requested at a later date).

The U.S. Environmental Protection Agency (USEPA) NEPAssist database was used to obtain information regarding potential waste and hazardous material sites shown in Attachment C. According to NEPAssist, a total of 23 facilities that generate hazardous waste are located around the perimeter of BKV. All of them are very small-quantity generators or facilities for which no generator status is listed, which is likely because they either no longer generate waste or generate only a small amount. According to NEPAssist, no brownfields or Superfund sites are located at or near BKV. Only one facility is listed to generate Toxic Releases.

The proposed project area does require ground disturbance near any of the existing hazardous waste or toxic release sites.

9. Water Resources

Describe surface and underground water resources at or near the proposed project site(s) and any impacts of the project to these. If groundwater will be used, is the aquifer in overdraft and /or adjudicated? If there will be discharges to surface water, is the receiving surface water body listed on the U.S. Environmental Protection Agency's (EPA) Section 303(d) list of impaired waters? Is

a National Pollution Discharge Elimination System (NPDES) permit required for any discharges to surface waters? Indicate if the proposed project is located within an area mapped by the EPA as sole source aquifer recharge area (maps and further information are available on EPA's website). Describe any induced changes in local surface water runoff patterns, and the status of storm water discharge permit processes (if applicable).

The Biscayne Aquifer nearest sole source aquifer streamflow and recharge source zone and is located 50 miles east of the Airport. No water resources are located on or near the project site. Stormwater will be discharged to the existing stormwater pond located in the northeast corner of the project site.

Design and construction of drainage ponds will meet the stormwater management requirements and permitting for the Southwest Florida Water Management District (SWFWMD) and Hernando County Land Development Code, which could include treatment and flood control of runoff from the site.

10. Water Supply and Distribution System

Indicate the source, quality, and supply capacity of local domestic and industrial/commercial water resources, and the amount of water that project facilities and primary beneficiaries are expected to utilize. Note whether the water that is being supplied is in compliance with the Safe Drinking Water Act, and if not, what steps are being taken to ensure compliance.

Developing the BKV infield area requires expanding the potable water system to include additional transmission components sized as needed to support the proposed facilities. The expanded system will connect to existing Hernando County potable water supply and will comply with the Safe Drinking Water Act.

11. Wastewater Collection and Treatment Facilities

Describe the wastewater treatment facilities available for processing the additional effluent including usage by the beneficiary(s). Indicate design capacities and current loading (both daily average and peak), and adequacy in terms of degree and type of treatment required. Describe all domestic class or process wastewater or other discharges associated with the proposed project facilities and its primary beneficiaries, and the expected composition and quantities to be discharged either to a municipal system or to the local environment. Indicate all discharges that will require on-site pre-treatment. Note whether the wastewater treatment plant is in violation of the Clean Water Act, and if so, what steps are being taken to ensure compliance. If local treatment and sewer systems are or will be inadequate or overloaded, describe the steps being taken for necessary improvements and their completion dates.

The project will include the installation of a new lift station with a forced main gravity tied into the existing Hernando County Utilities Department (HCUD) infrastructure near the airfield.

12. Transportation (Streets, Traffic and Parking)

Briefly describe the local street/road system serving the project site(s) and describe any new traffic patterns that may arise because of the proposed project. Indicate if land use in the vicinity, such as residential, hospital, school, or recreational, would be affected by these new traffic patterns. Indicate if any existing capacities of these transportation facilities would be exceeded as

a direct or indirect result of this project implementation, particularly in terms of car and truck traffic, and what the new Level of Service designation would be.

The project area is located on the southeast side of the BKV airfield. This area is accessible to vehicular traffic via Runway Drive from US Highway 41. The proposed project includes the extension of Airport Service Road to establish a connection with Runway Drive to provide access to the project site from the west side of the Airport. Currently, Airport Service Road dead ends at Sergeant Lea Mills Boulevard. Additionally, two access roads off Sergeant Lea Mills Boulevard directly south of the project site will allow two lanes and be open to the public for car and truck traffic.

An interior road will be constructed to provide landside vehicular access. The interior road will intersect with Runway Drive and one of the new alternate access roads from Sergeant Lea Mills Boulevard. See Attachment A for the new road infrastructure to be constructed.

No residential, hospital, school, or recreational land uses that will be impacted by the new access roads into the Airport.

13. Air Quality

Indicate types and quantities of air emissions (including odors) to be produced by the proposed project facilities **and its primary beneficiaries,** and any measures proposed to mitigate adverse impacts. Indicate the impact that the project would have on greenhouse gas emissions. Is the proposed project site within an area classified as a "non-attainment" for any criteria pollutants? If so, what are those pollutants? Indicate any local topographical or meteorological conditions that hinder the dispersal of air emissions.

Hernando County is currently designated as attainment for all National Ambient Air Quality Standards (NAAQS). Construction activities (e.g., demolition and excavation) will result in minor temporary air quality impacts (fugitive dust). No long-term deleterious air quality impacts are anticipated. Best Management Practices (BMPs) will be implemented to reduce dust generation.

14. Noise

Would operation of project facilities or primary beneficiaries' facilities increase local ambient noise levels? If yes, indicate the estimated levels of increase, and the areas and sensitive receptors (e.g., residences, wildlife) to be affected.

No, there should be no increase in ambient noise level. There may be an increase in noise level during construction, which will be limited to Monday through Friday 8:00AM to 5:00PM. No sensitive receptors will be impacted.

15. Permits

Identify any Federal, State, or local permits of an environmental nature needed for the project (e.g., USACE, US Environmental Protection Agency (EPA), Coastal Zone Management/Shoreline Management, Air Quality, State Environmental Policy Act, NPDES) and the status of any such permits. Attach copies of any such permits and all associated correspondence, including the permit applications.

Potential environmental permits are as follows:

- **State Environmental Resource Permit (ERP)**
- **National Pollutant Discharge Elimination System (NPDES) Permit for Construction Activity**
- **Gopher Tortoise Relocation Permit**
- **FDEP Industrial Wastewater Permit**
- **Section 404 Permit or Corps of Engineers Dredge and Fill Permit**
- **Southwest Florida Water Management District (SWFWMD) Permit for wetland impacts**

16. Public Notification/Controversy

Provide evidence of the community's awareness of the project, such as newspaper articles or public notification and/or public meetings, as applicable. If a formal public hearing has been held, attach a copy of the minutes. Fully describe any public controversy or objections which have been made concerning this proposed project and discuss steps taken to resolve such objections.

The project is not considered controversial. Project plans will be presented to the Hernando County Board of County Commissioners on August 12, 2025 for approval. This meeting will be open to the public and will serve as public notification and/or public meeting.

D. MITIGATION

Describe methods to be employed to reduce impacts to any and all adverse impacts identified in Section C. List all mitigation measures that would be implemented to minimize impacts to environmental resources from project implementation.

Mitigation measures to be deployed will include:

- **Gopher tortoise relocation if required**
- **Wetland mitigation credit acquisition**
- **Best Management Practices to manage noise, traffic, and dust during construction activities**

E. LIST OF ATTACHMENTS

The following checklist is a list of required and optional attachments to the Environmental Narrative as described in the sections above. The items listed in the optional section may be required by EDA at a later date to complete the project review and selection process, so it is recommended that you provide them now if they are currently available. While the documents listed below are the most frequently required for scoping determinations, EDA reserves the right to request additional items that are not listed below when necessary.

Applicants are not required to contact other governmental agencies for environmental or historical resources consultation until directed by EDA, though any interagency coordination letters that may be currently available should be provided. **EDA expects that all Applicants whose projects are selected for further evaluation will proceed with consultations in an expeditious manner. As such, Applicants should have the required information prepared for submission immediately upon notification of selection by EDA.** If you determine prior to application that your project may affect environmental or historical resources, you may contact the appropriate Regional Environmental Officer to determine if early interagency consultation is appropriate.

Please refer to the applicable Federal Funding Opportunity for unique requirements for each individual grant competition and a list of documents required for submittal with the application.

Checklist of Optional Environmental Documents that should be submitted with Application **if available** (will expedite review and selection process):

- o SHPO/THPO and Tribal leader comments and copy of submittals (see Section B)
- o Site photographs (see Section C1)
- o Coastal Zone consistency determination (see C2)
- o Wetland delineation and/or Jurisdictional Determination (see C3)
- o Preliminary wetland info (see C3)
- o U.S. Army Corps of Engineers comments, Section 404 Permit, Section 10 Permit, and/or Water Quality Certification (401 approval) (see C3)
- o Biological Assessment and/or survey for federally protected species (see C5)
- o Correspondence with US Fish and Wildlife Service and/or National Marine Fisheries Service (see C5)
- o Natural Resources Conservation Service determination of Prime Farmland, Form AD-1006, if applicable (see C6)
- o Phase I and II Environmental Site Assessment (seeC8)
- o Sole Source Aquifer review by US Environmental Protection Agency, if applicable (see C9)
- o Other federal, state and local environmental permits (see C16)
- o Copies of public notices, public hearing minutes, etc. (see C17)

Appendix A: Applicant Certification Clause

The applicant represents and certifies that it has used due diligence to determine that the description of the project site described herein is accurate with respect to the presence or absence of contamination from toxic and hazardous substances. The term "site" includes the entire scope of the project, including future phases of the project and all areas where construction will occur.

1. Is the site currently, or has it in the past 50 years, been used for any of the following operations or activities:

a. Generation of hazardous substances or waste?
_____ Yes ___X___ No

b. Treatment, storage (temporary or permanent), or disposal of solid or hazardous substances or waste?
_____ Yes __X___ No

c. Storage of petroleum products?
_____ Yes ___X___ No

d. Used/waste oil storage or reclamation units?
_____ Yes __X____ No

e. Research or testing laboratory?
_____ Yes __X___ No

f. Ordinance research, testing, production, use, or storage?
_____ Yes __X____ No

g. Chemical manufacturing or storage?
_____ Yes __X____ No

h. Weapons or ammunition training, use, or testing?
_____ Yes __X____ No

i. Iron works/foundry?
_____ Yes __X____ No

j. Railroad yard?
_____ Yes __X____ No

k. Industrial or manufacturing operation?
_____ Yes __X____ No

If any of the above operations ever occurred at the site, and if appropriate cleanup or other mitigation actions were performed in accordance with the local, State, and federal laws, please attach documentation of these actions.

2. Do wells draw from an underlying aquifer to provide the local domestic water supply?
_____ Yes _____ No

Appendix A: Applicant Certification Clause

3. Has a federal, State, or local regulatory authority ever conducted an environmental assessment, environmental impact statement, or a preliminary assessment/site inspection, or similar environmental surveyor inspection report at the site? If yes, please list here and attach copies of these reports or results.
   __X__ Yes _____ No

   1) Documented Categorical Exclusion for tree removal (Attachment F)

   2) Environmental Assessment for the extension of Runway 9-27 (Attachment B)

   3) _____

   4) _____

   5) _____

4. Have any environmental or OSHA citations or notices of violation been issued to a facility at the site? If yes, please attach copies.
   _____ Yes __X__ No

5. Have any unauthorized releases of hazardous substances occurred at any facility at the site which resulted in notification of the EPA's National Response Center?
   _____ Yes __X__ No

6. Is any material containing asbestos or lead paint located at the site? If yes, please attach information concerning State and federal regulatory compliance.
   _____ Yes __X__ No

7. Is there any equipment (electrical transformers, etc.) containing polychlorinated biphenyls (PCB) on the site? If yes, please attach a description of the equipment.
   _____ Yes __X__ No

8. Are there underground or above ground storage tanks on the site? If yes, please attach a detailed description, including the number of underground storage tanks on the site, whether the tanks have been inspected (or removed) and the results of such inspections.
   _____ Yes __X__ No

9. Has the site been tested for radon? If yes, please attach results.
   _____ Yes __X__ No

10. Have there been, or are there now any environmental investigations by federal, State or local government agencies that could affect the site in question? If yes, please attach available information.
    _____ Yes __X__ No

The applicant acknowledges that this certification regarding hazardous substances and/or waste is a material representation of fact upon which EDA relies when making and executing an award. EDA

Appendix A: Applicant Certification Clause

reserves the right to terminate any award made in conjunction with the representations contained herein if, at any time during the useful life of the project, EDA becomes aware of the presence of hazardous materials or waste at the site, or that hazardous materials or waste have been inappropriately handled thereon.

Further, if it is determined at any time that the presence of hazardous materials or waste, or handling thereof, has been misrepresented, EDA may pursue other available legal remedies against the applicant.

Economic Impact Analysis

Brooksville–Tampa Bay Regional Airport (BKV) Critical Infrastructure Construction

Prepared by the Tampa Bay Regional Planning Council – August 2025

EXECUTIVE SUMMARY

At the request of Hernando County, the Tampa Bay Regional Planning Council (TBRPC) analyzed the economic impact of rehabilitating a deactivated runway and constructing supporting infield infrastructure at the Brooksville-Tampa Bay Regional Airport (BKV). Using the Impact Analysis for Planning (IMPLAN) model for the Tampa Bay region, the analysis compares:

- **Event 1 – Construction (2026-2027):** $14.1 million in public investment to rehabilitate a deactivated runway and build supporting infield infrastructure.
- **Event 2 – Tenant Expansions (2028):** $73 million in confirmed private investment by Pem Air and Judah1 associated with post-construction expansion.

Both events generate substantial near-term economic activity in Hernando County and the surrounding region through direct (on-site/tenant), indirect (supply chain), and induced (household spending) effects. Estimated public-sector tax effects span federal, state, county, and sub-county levels.

Table 1. Summary of Total Economic Impact Estimates

Investment	Economic Output	Jobs Created	Labor Income	Tax Revenue	GDP Contribution
Event 1	19.7	108	5.3	2.2	9.0
Event 2	134.9	1,101	77.9	23.2	88.2
Total	**154.6**	**1,209**	**83.2**	**25.4**	**97.2**

(All $ in millions; jobs are individuals; fixed dollars.)

Table 2. Public-Sector Tax Effects by Level

Investment	Federal	State	County	Sub-County	Total
Event 1	1.43	0.37	0.17	0.23	2.20
Event 2	19.02	2.01	0.95	1.25	23.23

(All $ in millions; fixed dollars.)

The results provide a baseline for measuring actual impacts over time and a framework for assessing similar projects in the future. The analysis is intended to inform planning and investment decisions and does not represent recommendations or policy positions of the TBRPC.

PROJECT OVERVIEW

The $14.1 million in construction funds will rehabilitate 336,000 square feet of a deactivated runway at the Brooksville–Tampa Bay Regional Airport (BKV). The project also includes construction of access roads, installation of infield utilities (water and sewer), site clearing, and development of stormwater management facilities (lift station and retention ponds). Collectively, these improvements will expand available industrial space by approximately 780 acres and support increased airport operations.

After completion of the runway rehabilitation project, Hernando County anticipates growth in existing tenant capacities as well as the attraction of new industries. The County received written statements from two tenants, Pem Air and Judah1, committing $65 million and $8 million respectively to expand operations.

This analysis quantifies the output, employment, labor income, GDP contribution, and tax effects associated with the runway rehabilitation project and anticipated private tenant investments.

METHODOLOGY

Model: IMPLAN is an economic modeling software that uses input-output (I-O) analysis to measure the economic ripple effects of a change in a specific industry or activity within a defined geographic area. I-O analysis tracks the monetary transactions between different industries, businesses, householders, and governments in each region. The IMPLAN model accounts for leakage (non-local spending, e.g., materials sourced outside county limits)

Industries modeled (based on project scope and anticipated tenant activities):

- Maintenance and repair construction of non-residential structure
- Construction of new highways and streets
- Water, sewage and other systems
- Support activities for transportation

Data inputs (provided by Hernando County and the BKV Regional Airport):

- Total construction cost
- Line-item construction costs
- Construction timeline
- Number of construction workers
- Total construction payroll
- Percentage of locally sourced construction materials
- Private investment

Key metrics (definitions):

- **Direct Effects:** Investment changes or production expenditures made by producers and consumers because of an activity. The immediate, initial change in the local economy.
- **Economic Output:** Total market value of final goods and services produced locally
- **Indirect Effects:** Regional economic effects stemming from business-to-business purchases in the supply chain.
- **Induced Effects:** Regional economic effects stemming from household spending of labor income, after removal of taxes, savings, and commuter income.
- **Induced Employment:** Jobs supported by industry expansion and increased airport operations within the regional economy
- **Labor Income:** Wages, salaries, and benefits received by workers
- **Leakage:** Portion of spending directed toward non-local providers or goods
- **Value Added:** Combined value of employee compensation, proprietor income, property income, and taxes on production and imports of net subsidies

APPENDIX

Table A1. Event 1 – Construction Impacts (2027)

Activity	Investment (Fixed $, millions)	Jobs (Individual)	Labor Income (Fixed $, millions)	Output (Fixed $, millions)	Value Added (Fixed $, millions)
Taxiway	7.0	37	1.7	7.0	2.9
Water/Sewer Utilities	1.6	7	0.5	1.6	0.8
Roadways*	5.5	34	1.6	5.6	2.6
Direct Impacts	**14.1**	**78**	**3.8**	**14.2**	**6.3**
Indirect Impacts	—	18	0.9	3.4	1.6
Induced Impacts	—	12	0.6	2.1	1.3
Total Impacts	**14.1**	**108**	**5.3**	**19.7**	**9.2**

(All $ in millions; jobs are individuals; fixed dollars; totals may not sum due to rounding.)

*Roadways include stormwater management facilities and site clearing.

Note: Based on $14.1 million in anticipated construction costs, the model estimates 108 total jobs across direct (on-site construction), indirect (supply chain), and induced (household spending) effects, with $19.7 million in annual economic output and $9.22 million in value added (fixed dollars).

Table A2. Event 2 – Tenant Expansions (2028)

Activity	Investment (Fixed $, millions)	Jobs (Individual)	Labor Income (Fixed $, millions)	Output (Fixed $, millions)	Value Added (Fixed $, millions)
Pem Air	65.0	656	52.7	65.0	49.3
Judah1	8.0	81	6.5	8.0	6.1
Direct Impacts	**73.0**	**737**	**59.2**	**73.0**	**55.4**
Indirect Impacts	—	124	6.9	18.8	9.5
Induced Impacts	—	240	11.9	43.2	25.9
Total Impacts	**73.0**	**1,101**	**77.9**	**134.9**	**90.8**

(All $ in millions; jobs are individuals; fixed dollars; totals may not sum due to rounding)

Note: This table reflects $73.0 million in confirmed private tenant investments and reports annual direct, indirect, and induced county-level effects; it does not include potential additional investments enabled by the ~780 acres of usable industrial land created post-construction.

Key Notice of Funding Opportunity (NOFO) Information

U.S. Department of Commerce (DOC), U.S. Economic Development Administration (EDA) FY 2025 EDA Disaster Supplemental Notice of Funding Opportunity (NOFO) Initial Announcement	
Grants.gov Opportunity Number	EDA-DISASTER-2025
Assistance Listing Number (ALN)	11.307, Economic Adjustment Assistance (EAA)
Effective Date	June 4, 2025
Key Dates	Key dates under this NOFO depend on whether an applicant is submitting an application under the Readiness, Implementation, or Industry Transformation Paths (see section A.2 of this NOFO for more information on each path). For applications submitted under the Readiness and Implementation Paths, there are no submission deadlines. Applications will be accepted on an ongoing (rolling) basis until the replacement of this FY2025 Disaster NOFO, cancellation of this NOFO, or all available funds have been expended. EDA intends to review applications expeditiously upon receipt of a complete application. The deadline for applications submitted under the **Industry Transformation Path** is **5:00 pm Eastern Time on Tuesday, March 3**. Industry Transformation applications received after this deadline will not be reviewed or considered. another
Funding Instrument	Grant or cooperative agreement. In most cases, assistance will be in the form of a grant.
Funding Details	**$1,447,000,000**
Program Overview	Subject to the availability of funds, awards made under this NOFO will help communities and regions devise and implement long-term economic recovery strategies through a variety of non-construction and construction projects in areas where a Presidential declaration of a major disaster was issued under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. § 5121 *et seq*.) (Stafford Act) "as a result of hurricanes, wildfires, severe storms and flooding, tornadoes, and other natural disasters occurring in calendar years 2023 and 2024."
Cost Sharing and Matching	EDA generally expects to fund up to 80% of the eligible costs under this NOFO. However, EDA has discretion to fund projects at a rate lower than 80% or up to 100% in certain circumstances. See section C.3 and Appendix III.1.

Eligible Projects	EDA can support a variety of construction and non-construction projects. Contact your local EDA Economic Development Representative to explore your project further. For contact information, see https://www.eda.gov/about/contact (searchable by state).
Eligible Applicants	Eligible applicants under the FY25 Disaster program include a(n): • District organization of an EDA-designated Economic Development District (EDD); • Indian tribe or a consortium of Indian tribes; • State, county, city, or other political subdivision of a state, including a special purpose unit of a state or local government engaged in economic or infrastructure development activities, or a consortium of political subdivisions, • institution of higher education or a consortium of institutions of higher education; • public or private nonprofit organization or association acting in cooperation with officials of a political subdivision of a state; • an economic development organization; or • a public-private partnership for public infrastructure. EDA is not authorized to provide grants or cooperative agreements to individuals or for-profit entities under this NOFO. Applications from individuals or for-profit entities will not be considered for funding.
Review and Selection Process	After technical review, EDA will convene investment review committees (IRC) to evaluate the merits of each application based on the extent to which the application meets program specific award and application requirements set forth in section E.2. Thereafter, the Selecting Official will make selections in accordance with the selection criteria set forth in section E.3.
Award Project Period	EDA anticipates awards will typically have a period of performance of 12 to 48 months. Note: Readiness Path projects may have substantially shorter durations, depending on applicant needs.
How to Apply	Applications will only be accepted electronically through the Economic Development Grants Experience (EDGE) at https://sfgrants.eda.gov/s/. See the full NOFO for limited exceptions.
Informational Webinar	EDA plans to conduct an informational webinar for this NOFO. Please visit EDA's website for scheduling information and a link to a recording: https://www.eda.gov/.
Award Notification	Subject to the availability of funding, EDA will notify successful applicants of their awards electronically.
Agency Contacts	For questions concerning this NOFO, including requests for technical assistance with application requirements, please contact the Economic Development Representative for the state where the project will be located as listed on EDA's website at https://www.eda.gov/about/contact (searchable by state).

A. Program Description

1. Overview

President Trump is committed to unleashing the potential of the American economy, affording all Americans the opportunity to pursue their version of the American dream. However, nature often has other plans when damaging storms and unforeseen destructive natural disasters occur. This Administration champions an America First platform, and that extends to Americans needing assistance due to natural disasters. This Fiscal Year 2025 Disaster Notice of Funding Opportunity (Disaster NOFO) responds to that call and aims to seize the moment to support impacted communities to transform their local economies in new, vibrant ways.

As a result, this Disaster NOFO is different than those of previous Administrations. This NOFO seeks projects that are responsive to community needs post-disaster by engaging all aspects of the community, with special focus on private industry partners. No longer can economic development grants be made by bureaucrats in isolation. This NOFO places a considerable emphasis on private sector buy-in and investment as a critical indicator of project viability.

Through this Disaster NOFO, EDA will award investments in regions experiencing severe economic distress or other economic harm resulting from hurricanes, wildfires, tornadoes, floods, and other natural disasters occurring in calendar years 2023 and 2024.

Under this Disaster NOFO, EDA is specifically soliciting applications under its Economic Adjustment Assistance (EAA) program, which is flexible and responsive to the economic development needs and priorities of local and regional stakeholders.[1] The EAA program is well-suited to help regions recover from disasters, achieve economic development goals, and improve their economic trajectories.

This Disaster NOFO provides funding through three pathways:

> **Readiness Path** – Standalone non-construction projects designed to increase a community's readiness to apply for or implement disaster recovery funding from private and public sources including, but not limited to, future EDA NOFOs and the Implementation or Industry Transformation Paths under this NOFO. Projects will fund strategy development, capacity building, and/or predevelopment costs necessary for future recovery projects.

[1] See 42 U.S.C. §§ 3149(c)(2), 3233. The regulations implementing the EAA program may be found at 13 CFR part 307. Please note that section 307.3 of EDA's regulations describes the differences between an EAA implementation grant and an EAA strategy grant. See also 42 U.S.C. § 3149(b)(2) (EAA planning projects are not required to be carried out in an area with a CEDS or be consistent with an existing CEDS).

Implementation Path – Standalone construction or non-construction projects designed to address the economic challenges faced by a community recovering from a natural disaster and improve economic trajectories beyond pre-disaster economic conditions.

Industry Transformation Path – Led by a coalition of regional stakeholders, a portfolio of large-scale, multicomponent construction and non-construction projects designed to fundamentally transform the economic trajectory of a region through the development or acceleration of an industry.

The sections below provide information about each path.

Applicants are expected to articulate in their applications how an EDA investment will bolster their community's capacity to recover from economic harm due to natural disasters and improve their long-term economic outlook. EDA's goal under this NOFO is to assist communities recovering from a disaster by realizing opportunities to recover and change the economic trajectory of the community for the better. In other words, EDA funding seeks to help communities recover and set them on a path to exceed their previous pre-disaster baseline.

If intending to apply for Readiness Path funding before other paths, Readiness Path applicants should **prioritize submitting applications as early as possible and provide details regarding their anticipated follow-on funding request in their Impact and Engagement Narrative**. Applicants should review and follow Appendix I, which sets forth the required application materials, additional narrative requirements, and other standard forms necessary under each funding Path.

Applicants are encouraged to review this NOFO in its entirety, including appendices, and work with the Economic Development Representative or other EDA representative for the state where the project will be located. See EDA's website at https://www.eda.gov/about/contact (searchable by state).

2. Funding Pathways

a. Readiness Path

"Readiness" projects are non-construction planning and capacity building projects designed to increase a community's readiness to apply for and/or implement future disaster recovery funding, including future local, state, or federal funding for disaster recovery and if applicable, Implementation or Industry Transformation funding under this NOFO. Put another way, successful projects under the Readiness Path would increase the quality or likelihood of success of future economic development and disaster recovery projects.

EDA expects to fund projects under the Readiness Path in the range of $250,000 to $500,000.

Examples of Readiness Path applications include, but are not limited to:

- **Strategy Development**: Applicants can request funding for short-term or long-term strategic planning. These grants enable communities to better identify and prepare for future economic development projects through early coordination and planning. For example, where a community already has a strong strategic plan for economic development, it may be appropriate to apply for a short-term strategy grant focused on helping the community identify viable recovery projects for future funding, including but not limited to the Implementation or Industry Transformation Paths under this NOFO. Conversely, where a community needs more foundational help developing a long- term economic development strategy in the wake of a disaster, it may be more appropriate for the applicant to seek a long-term strategy grant in the form of a planning grant to develop, update, or refine a Comprehensive Economic Development Strategy (CEDS).

- **Capacity Building**: Applicants may seek funding for additional capacity (including staffing capacity) to successfully develop and implement economic recovery and resilience strategies and projects. Increased capacity enables communities to strengthen organizational structures and build a solid foundation to implement future funding and projects. For example, an organization may benefit from hiring a disaster coordinator to lead future project development, community engagement, industry engagement, and/or implementation of future recovery projects.

- **Predevelopment Costs**: Applicants may submit requests for costs related to the development of future disaster recovery projects, including but not limited to applications under the Implementation and Industry Transformation Paths of this NOFO, if funding remains available. Such costs can include but are not limited to:
    - costs for site selection and assessment, including for projects focused on reshoring manufacturing;
    - architectural and engineering plans;
    - permit applications, including environmental compliance or permitting; and
    - market or industry research and analysis for larger economic development projects.

Applicants can propose activities in one or more categories.

Readiness Path applicants will be required to submit an impact and engagement narrative that clearly articulates how the proposed readiness project helps the applicant or the impacted communities become more competitive, more mature, and better prepared to receive or implement future economic and disaster recovery funding. For example, short-term readiness projects such as funding a disaster coordinator or funding pre-development engineering plans could better prepare an applicant to develop or finalize a potential project, including but not limited to projects proposed under the Implementation Path or Industry Transformation Path. In contrast, a long-term planning grant that establishes a region-wide disaster recovery strategy could make a region more competitive for future EDA recovery NOFOs or other funding sources.

b. Implementation Path

“Implementation" projects encompass a wide variety of construction and non-construction projects to not only help communities recover from natural disasters but also to improve communities’ economic outcomes and ultimately put them on a path to exceed their previous pre-disaster economic conditions. These investments ensure communities can better withstand future natural disasters and generate new economic benefits for the region, which includes increasing future-focused opportunities for economic growth and industry investment.

Under this Path, EDA can support projects that will mitigate or prevent the impacts of future disaster events, and fund the replacement, repair, or upgrades to critical public infrastructure that was damaged or destroyed by natural disasters subject to a major disaster declaration and that are critical to the restoration of sustained economic activity. EDA will also fund projects that lead to the further diversification of the local economy through the development or acceleration of industries.

EDA expects to fund Implementation projects in the range of $2 million to $20 million for construction and $100,000 to $5 million for non-construction. The amount EDA will fund for an individual Implementation project will depend on the relative impacts the disaster had on the community as well as the private investment projected to be generated by the project or the jobs created/retained. These are not hard caps, but instead estimates of EDA’s expectations. EDA may deviate from these estimates, including by funding projects greater than $20 million, in cases of exceptional need and/or exceptional potential impact.

Examples of implementation projects that EDA can support under this NOFO include, but are not limited to:

- Construction or upgrading of public infrastructure, including improvements to make these facilities more resilient to natural disasters, including (but not limited to):
  - Water systems and facilities (e.g., drinking water, wastewater treatment, and stormwater)
  - Revitalization or expansion of aviation, port, and harbor facilities
  - Bridges
  - Railway spurs and extensions
  - Business incubators and industrial parks
  - Communications systems, including broadband
- Construction or expansion of workforce training facilities at a local community college or trade/technical school
- Costs associated with establishment or expansion of workforce training programs including Registered Apprenticeship Programs, including the procurement of necessary equipment
- Capitalization or recapitalization of revolving loan funds (RLFs)
- Development or expansion of commercialization and proof of concept centers

- Activities intended to create or expand foreign direct investment, trade, or export initiatives
- Activities intended to spur or accelerate large-scale industry investment

Strong Implementation Path projects will result in tailored disaster recovery solutions that not only address the recovery needs of the impacted communities but generate additional private and public investment to propel the regional economy forward and generate new businesses and jobs. That said, recognizing the level of distress that communities may face in the wake of disasters, Implementation Path projects are not *required* to generate new jobs or private investment. Implementation Path projects can also be competitive by showing that their project will positively impact other measures for economic growth (including, for example, growing the tax base or increasing the labor force participation rate from pre-disaster rates).

Implementation Path applicants will be required to submit an Impact and Engagement Narrative with their application. Applicants must clearly articulate how the proposed implementation project not only helps communities recover but also improves the community's economic outcomes and ultimately puts the community on a trajectory to exceed their previous pre-disaster economic conditions.

Applicants are asked to clearly define in the Impact and Engagement Narrative their pre-disaster and post-disaster economic conditions and should consider (but are not limited to) including measures such as:

- Jobs created, retained, or lost
- Businesses created, retained, or lost
- Average wages by sector or position
- Labor Force Participation Rate
- County GDP
- Primary sectors, industries, businesses
- Unemployment rate
- Change in tax base

In addition to the required match, applicants are encouraged to secure investment and policy commitments to support and catalyze their proposed project(s) outcomes. Applicants are not limited to securing financial commitments but should think creatively about other types of public and private sector contributions (e.g., tax benefits). See Appendix II for more details.

c. Industry Transformation Path

"Industry Transformation portfolios" are 3 to 5 large-scale, coordinated construction and/or non-construction component projects, led by an overarching coalition, that together aim to transform the regional economy by developing or accelerating a key industry in communities impacted by major natural disasters.

EDA seeks to invest in disaster-impacted regions that are mature and ready to grow, will scale nascent or emerging industries, and will catalyze awarded funding and substantial private or public sector investments to achieve regional economic growth and fortify the region's economy against future disasters. EDA further expects these large-scale coordinated investments will:

- Accelerate post-disaster economic recovery through job creation, business development, and innovation
- Multiply federal dollar impact through leveraged private investment
- Enhance private sector engagement in regional economic growth and diversification
- Increase regional participation and competition in domestic and global markets
- Alleviate and disrupt local persistent poverty through training and employment opportunities, including through the Registered Apprenticeship Programs (www.apprenticeship.gov).
- Activities intended to spur or accelerate large-scale industry investment

Portfolio goals could include scaling nascent or emerging industries, reimagining the use of assets within existing industries, or creating a new sector or sectors based on regional assets.

Given the ambitious nature of these investments, EDA expects to fund portfolios in the range of $20 million to $50 million. Industry Transformation Path regions can propose any of the project types described under the Implementation Path, but EDA expects Industry Transformation portfolios to collaborate cohesively towards establishing or accelerating the growth of industry or industries that diversify and accelerate the region's economic trajectory.

Strong applicants will create effective, organized coalitions that include key regional stakeholders that are united around an overarching strategy and vision for the targeted key industry. EDA expects coalitions to have a strong management and governance plan to ensure effective implementation of the projects and to sustain their overarching strategy and vision beyond the grant period. These coalitions must include private sector partners and may include other entities such as institutions of higher education (including community colleges and technical schools); state, territorial, local, or Tribal governments; economic development organizations; workforce training organizations (including unions, state and local workforce development boards, etc.); or community-based organizations. Please note that while EDA strongly encourages and anticipates coalitions with a wide variety of engaged stakeholders, including from the private sector, only eligible applicants (see section C.1) may apply for and receive grant funds as recipients.

In addition to the required match, applicants are required to secure investment and policy commitments to support and catalyze their proposed project(s) outcomes. Applicants are not limited to securing financial commitments but should think creatively about other types of contributions (e.g., tax benefits). Applicants should carefully review Appendix II for more information about requirements related to investment and policy commitments. As described more in Appendix II, investment commitments involve cash or in-kind goods or services contributed by a third party to the project while policy commitments are new policies or

programming designed to accelerate their target industry's growth and economic recovery (*e.g.*, changes to local regulations, strategies to increase the number of high-skilled workers retained in the region, etc.).

Although EDA recommends 3 - 5 large-scale projects, EDA can consider on a case-by-case basis projects with fewer or more component projects, provided that the coalition structures are otherwise in place and the projects are vital to a compelling strategy for the region and deliver considerable impact.[2]

Finally, EDA will expect that the projects funded under this path will collectively lead to greater impacts in business attraction, jobs created, wage growth or private investment generated than is anticipated under the Implementation Path. EDA's goal is to attract competitive projects under the Industry Transformation Path that credibly show the ability to generate substantial private sector investments and commitments in a region as compared to initial EDA investment. Projects that approach that range will be viewed as more competitive.

EDA encourages applicants to propose the interventions that are most applicable to their regions. Below are a few illustrative examples of how component projects could work together under the Industry Transformation Path. These illustrative examples are intended only as a reference for applicants as they are developing ideas for their Industry Transformation Path applications.

- Scaling a semiconductor manufacturing corridor through funding: (1) expansion of a non-profit's existing advanced packaging facility, to scale production, (2) installation of new advanced packaging machinery and equipment in an existing local government-owned facility to boost efficiency, (3) development of real-time digital twin of advanced packaging facility and semiconductor production line, (4) scaling of workforce development training program across region to upskill talent for semiconductor manufacturing through industry intermediaries expanding access to Registered Apprenticeships, and (5) creation network of coalition participants and industry leaders to address industry needs collectively.

- Expand and accelerate maritime industry by funding: (1) expansion of key transportation corridors and roadways to increase trade and bolster regional supply chains, (2) upgrade of port infrastructure to increase capacity and facilitate additional local ship building and repair, (3) creation of marine technology and maritime workforce development training programs to meet industry need for additional highly skilled workers, (4) purchase and implementation of new barge service to increase efficiency and reduce costs for resource transportation regionally, and (5) collaboration with local community colleges system to expand degree programs on marine engineering, marine transportation, and maritime management to bolster regional talent pipeline.

[2] EDA reserves right to move a component project proposed under the Industry Transformation Path to the Implementation Path in the event that the Industry Transformation portfolio is not going to be funded holistically.

- Create a regional food system within a multi-county region by investing in: (1) new construction of a publicly-owned regional advanced food processing facility; (2) acquisition of advanced food processing equipment and technology; (3) expansion of public transportation infrastructure (including rail, ports, and regional airport) to facilitate the transport of regionally-sourced raw materials to the processing plant and finished products from the processing plant to market; (4) acquisition and rehabilitation of regional food system workforce training center; and (5) acquisition of relevant technology and other equipment for workforce training courses.

The deadline for applications submitted under the Industry Transformation Path is **5:00 pm Eastern Time on Tuesday, March 3, 2026**.

For more information on applying for the Industry Transformation Path, please see Appendix I.3.

3. Considerations when selecting a path

a. How does the Readiness Path interact with the Implementation and/or Industry Transformation Paths? Must I seek Readiness funding in order to compete under the other Paths?

No, applicants are not required to seek Readiness funding before applying for Implementation or Industry Transformation funding. The Readiness Path is designed to meet the community where it is and move the community towards its economic development goals. An eligible applicant may apply for Readiness funding standing alone if it needs assistance with planning, capacity, or pre-development costs.

Readiness funding can also help a region get ready to apply for the Implementation Path or Industry Transformation Path, or for other types of assistance, including state, local, private, or other federal sources of assistance. However, if a region or eligible entity already has projects that it feels are competitive under the Implementation or Industry Transformation Paths, it does not have to participate in the Readiness Path. In other words, the Readiness Path is not a prerequisite to any other Path.

In addition, some projects under the Paths may overlap. For example, if a community needs capacity to support an infrastructure project, the applicant may want to apply at the same time for both a Readiness project and an Implementation construction project, and EDA may award both grants concurrently.

b. Is there a disadvantage to participating in the Readiness Path? If I have to get a grant under the Readiness Path before I am ready to apply for the other Paths, how will I know if funding will still be available for those Paths?

While EDA may review projects and select them for funding on a rolling basis, EDA is aware that some regions or applicants may need Readiness Path funding to be competitive for the Implementation or Industry Transformation Paths. As such, subject to available funds, EDA will work to reserve some funding for later in the process to ensure that every region or applicant is fairly evaluated.

c. How do I decide whether to apply for an Implementation grant or an Industry Transformation grant? Will I lose the opportunity to apply for an Implementation project if my Industry Transformation application is not selected for award?

In the event that EDA does not fund an Industry Transformation application. EDA, at its sole discretion, may fund individual component projects of that application under the Implementation Path. Please do not apply concurrently for duplicate projects under any Path under this NOFO.

4. Which projects are ineligible under this Disaster NOFO?

Some projects are generally ineligible under this NOFO, including projects that are primarily residential in nature (*e.g.*, housing), projects to create community amenities (*e.g.*, swimming pools, zoos, recreational centers), projects that support casinos or gaming, projects that support general governmental functions (see 2 CFR § 200.444), and requests for funding to supplement operating budgets or replace lost revenue (including lost tax revenue). Applicants who are unsure whether their proposed project is eligible under this NOFO should contact their state or territory's Economic Development Representative (EDR) for assistance. EDR contact information is available on EDA's website and organized according to regional office: www.eda.gov/about/contact.

5. EDA's investment priorities; economic recovery resilience investment priority

EDA has five investment priorities:

- Critical infrastructure
- Workforce
- Innovation and entrepreneurship

- Economic recovery resilience
- Manufacturing

To be considered for funding under this NOFO, each project must be consistent with EDA's economic recovery resilience investment priority. EDA defines "economic recovery resilience" as:

> Economic development planning or implementation projects that enhance the ability of an area to withstand and recover from adverse short-term or long-term changes in economic conditions, including effects from industry contractions or economic impacts from natural disasters.

In section B.4 of the Form ED-900 (discussed below in section D.2), the applicant should explain how their project is consistent with the economic recovery resilience investment priority.

More information about EDA's investment priorities can be found at www.eda.gov/funding/investment-priorities. EDA's website will be updated to reflect any Congressionally approved revisions to the investment priorities, as applicable.

6. Comprehensive Economic Development Strategy (CEDS) Requirement

Except for a recovery strategy grant funded under the Readiness Path as described in section A.2.a of this NOFO, each project funded under this Disaster NOFO must be consistent with the region's current CEDS. If a CEDS does not exist for the region, the project must be consistent with an equivalent regional economic development strategy that EDA has determined meets the agency's CEDS or strategy requirements. In addition, if a project under the Industry Transformation Path intends to affect an area that encompasses multiple CEDS, the project should identify how the project is consistent with a broader multi-region strategy, which may include showing consistency with multiple CEDS.

Through section D.3 of Form ED-900, applicants must:

- Identify the regional CEDS.
- If there is no CEDS, attach the relevant alternative strategic planning document (often referred to as the CEDS-equivalent plan).

In addition to the instructions in the Form ED-900 itself, through section D.4 of the Form ED-900, applicants should:

- Clearly detail how the proposed project will align with and support the economic development needs and objectives outlined in the CEDS (or CEDS-equivalent plan).

- Describe how the EDA investment will complement, leverage, or otherwise align with other public and private investments to accomplish the planned deliverables and outcomes.

In addition, in the Budget Narrative, applicants should indicate if other federal funds have been secured for, or have been requested to support, any portion of the project for which an EDA investment is proposed. Where other federal funding may be involved in the project, the applicant should provide the federal program name and contact information with their application to facilitate interagency coordination and avoid duplication of resources.

7. Statutory Authorities

The statutory authority for the EAA program is section 209 of the Public Works and Economic Development Act of 1965 (PWEDA) (42 U.S.C. § 3149). The statutory authorization of supplemental appropriations for disaster economic recovery activities is section 703 of PWEDA (42 U.S.C. § 3233).

Applicant eligibility and program requirements are set forth in EDA's regulations (codified at 13 CFR Chapter III), and all applicants must address these requirements. EDA's regulations are accessible at the U.S. Government Publishing Office (GPO) website, https://www.ecfr.gov/current/title-13/chapter-III.

B. Basic Federal Award Information

1. What funding is available under this funding opportunity?

Under the American Relief Act, 2025 (Division B, Title II of Pub. L. No. 118-158), Congress appropriated approximately $1,447,000,000 to EDA to support disaster economic recovery activities in areas that received a major disaster designation because of hurricanes, wildfires, severe storms and flooding, tornadoes, and other natural disasters occurring in calendar years 2023 and 2024.[3]

For all other EDA program and investment opportunities, please review https://www.grants.gov (Grants.gov) or visit https://www.eda.gov/funding/funding-opportunities.[4]

[3] Congress appropriated $1,510,000,000 in total with up to 3% to cover EDA's administrative and oversight expenses, $10,000,000 going to the Delta Regional Authority, and $7,000,000 going to the Department of Commerce's Office of Inspector General.

[4] If EDA determines that an application is eligible for funding under another EDA NOFO (*e.g.*, the Public Works and Economic Adjustment Assistance NOFO), EDA may at its sole discretion transfer the application for processing from

2. What funding instrument will be used? What are the anticipated award amounts and how long will the period of performance of a project last?

Funding instrument: EDA expects it will award most funds using grants but may award a cooperative agreement on a case-by-case basis if substantial agency involvement is required. For a cooperative agreement, the nature of EDA's "substantial involvement" (to be included in the terms and conditions of the award) will generally be collaboration between EDA and the recipient on the scope of work.

Anticipated award amounts: Under this NOFO EDA expects to award the following, but reserves the discretion to make awards outside of this range as circumstances allow:

Readiness Path:

- Non-construction awards that range between $250,000 to $500,000

Implementation Path:

- Non-construction awards that range between $100,000 and $5 million
- Construction awards that range between $2 million and $20 million
- EDA may deviate from these estimates, including funding projects greater than $20 million, in cases of exceptional need and/or exceptional impact

Industry Transformation Path:

- A cluster of 3 to 5 non-construction and/or construction awards with a total funding level between $20 million and $50 million

Period of performance: The project period of performance depends on the nature of the project. In general, the period of performance for:

- Non-construction awards may range from **12 to 18 months** with extensions considered on a case-by-case basis. For the Readiness Path, EDA anticipates that a shorter period of performance may be appropriate.

- Construction awards may range from **12 to 48 months** with extensions considered on a case-by-case basis.

EDA will work closely with the recipients to accommodate their projected timelines within reason, as well as consistent with applicable regulations and grant policy allowances. EDA expects that all projects will proceed efficiently and expeditiously and encourages applicants to

---

the original NOFO to another. EDA will document that the applicant is in compliance with the application requirements of the NOFO to which the application is transferred.

clearly document how quickly they will be able to start and complete the proposed project scope of work specified in section B of the Form ED-900.

See Appendix I for information about performance goals, indicators, targets, data collection and measurement, and other guidance pertaining to the projects and activities eligible under this Disaster NOFO.

3. Who do I contact with questions?

For questions concerning this funding opportunity, including requests for technical assistance with application requirements, please contact the appropriate Economic Development Representative or other EDA representative listed on EDA's website at https://www.eda.gov/about/contact.

Individuals who are deaf or hard of hearing, as well as individuals who have speech or communication disabilities may use a relay service to call the telephone numbers listed on or through the EDA's website. To learn more about how to make an accessible telephone call to any of the numbers shown in this document, visit the webpage for the relay service of the Federal Communications Commission, https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs.

C. Eligibility and Other Program Requirements

1. What entities are eligible to apply for this funding opportunity?

Eligible applicants for economic recovery assistance under this Disaster NOFO include a(n):

- District organization of an EDA-designated Economic Development District (EDD);
- Indian tribe or a consortium of Indian tribes;
- State,[5] county, city, or other political subdivision of a state, including a special purpose unit of a state or local government engaged in economic or infrastructure development activities, or a consortium of political subdivisions;
- Institution of higher education or a consortium of institutions of higher education;
- Public or private nonprofit organization or association acting in cooperation with officials of a political subdivision of a state;
- An economic development organization; or

[5] Under section 3(10) of PWEDA (42 U.S.C. § 3122), the term "State" includes any State, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau.

- A public-private partnership for public infrastructure.

2. What locations are eligible for this funding opportunity?

A project must be located in, primarily serve, or demonstrably benefit one or more communities in areas that received a major disaster designation as a result of hurricanes, wildfires, severe storms and flooding, tornadoes, and other natural disasters occurring in calendar years 2023 and 2024.

Consistent with 13 CFR parts 301 and 307, EDA will determine area eligibility pursuant to the applicable federal disaster declaration under the Stafford Act and the Federal Emergency Management Agency (FEMA) designation of areas as eligible for public assistance or individual assistance due to the declared disasters listed on FEMA's website (www.fema.gov/disaster/).[6]

Using section C.1 of the Form ED-900, the applicant should clearly identify the location of the project and briefly detail how and why the proposed project benefits an eligible designated area (the applicant should provide further details about the project and how it will benefit the eligible designated area throughout the application, including using other sections of Form ED-900). EDA anticipates that most construction projects (including design and engineering) will be located in an eligible designated area. In exceptional circumstances under the Industry Transformation Path, EDA will consider funding construction component projects where the construction is located outside of an eligible designated area provided that substantial benefit accrues to, an eligible area or areas. For non-construction projects, the project's scope of work must primarily benefit an eligible designated area, and stakeholders representing those areas must be directly engaged in the project.[7]

Only applications from eligible applicants and are located in or serve an eligible designated area will be considered. EDA will evaluate and select applications according to the evaluation criteria set forth in section E.2 of this NOFO.

3. What are the cost sharing or matching requirements?

Once applicant and area eligibility are established, EDA generally expects to fund up to 80% of the eligible costs of such assistance. In accordance with EDA's statutory authority under section 703 of PWEDA (42 U.S.C. § 3233), EDA may increase the investment rate up to a maximum of 100%. In determining whether to increase the federal share above 80%, EDA's Grants Officers will consider on a case-by-case basis whether the circumstances of the proposed project warrant a federal share in excess of 80%, including whether the applicant has exhausted its

[6] "Designated area" means any jurisdiction (State, Local, Tribal, or Territorial) that is included under a major (*i.e.*, Stafford Act) disaster declaration.
[7] See also 13 CFR § 301.3(a).

effective taxing or borrowing capacity, can otherwise document that no local matching funds are reasonably obtainable, or meets other thresholds for elevated need based on the overall economic situation of the region.

EDA may also establish a maximum investment rate of up to 100% for projects of Indian tribes.

Refer to Appendix III.1 for more information on cost sharing or matching requirements.

4. What are the prohibitions and restrictions for using award funds and match?

Some projects are generally ineligible under this funding opportunity, including projects that are primarily residential in nature (*e.g.*, housing), projects to create community amenities (*e.g.*, swimming pools, zoos, recreational centers), projects that support casinos or gaming, projects that support general governmental functions (see 2 CFR § 200.444), and requests for funding to supplement operating budgets or replace lost revenue (including lost tax revenue).

It is DOC policy that funds may not be used to pay for profits or management fees in excess of costs, unless statutorily authorized. Funds may not be used, directly or indirectly, to replace existing funds. Additionally, the use of project funds to make equity or hybrid investments in businesses is not an allowable cost.

Applicants who are unsure whether their proposed project or cost is eligible under this funding opportunity should consult the appropriate EDA Economic Development Representative for the state where the project will be located as listed on EDA's website at https://www.eda.gov/about/contact (searchable by state).

See Appendix III.2 for more information about pre-award costs.

D. Application and Submission Information

1. Where can I find and submit an application?

An applicant must obtain, complete, and submit a complete application electronically through the Economic Development Grants Experience (EDGE) at https://sfgrants.eda.gov/s/. For the Readiness and Infrastructure Paths, applications will be accepted on an ongoing (rolling) basis until the publication of a new Disaster Supplemental NOFO, cancellation of this Disaster Supplemental NOFO, or all available funds have been expended.

Before submitting an application under this funding opportunity, each applicant must register its organization with EDGE. Applicants should note that this process can be lengthy, requires interaction with multiple organizations (e.g., SAM.gov), and requires confirmation at each step.

Applicant organizations that have not previously completed any of these steps may require three to four weeks to accomplish these tasks. EDA strongly encourages prospective applicants to begin the pre-submission process as early as possible in the application period.

Unique Entity Identifier (UEI) and System for Award Management (SAM)
Applicants are required to: (i) be registered in SAM; (ii) provide a valid unique entity identifier (UEI) in the application; (iii) make certain certifications (see also Appendix III.14 of this NOFO); and (iv) continue to maintain an active SAM registration with current information at all times during which they have an active federal award, or an application or plan under consideration by a federal awarding agency. EDA may not make a federal award to an applicant until the applicant has complied with all applicable UEI and SAM requirements and, if an applicant has not fully complied with the requirements by the time EDA is ready to make an award, EDA may determine that the applicant is not qualified. Recipients will be subject to reporting requirements, as identified in OMB guidance published at 2 CFR parts 25 and 170. All subrecipients must have a UEI before any subawards are made.

Refer to Appendix III.9 for important information on the form of application submission. Please also refer to Appendix III.9 for important information on the pre-submission process.

2. What is required for an application?

To successfully apply for funding, each applicant must determine which Path(s) they are seeking funding for and the type of project(s) they propose to fund (construction, non-construction, design and engineering, or RLF). To submit a complete application, all applicants should submit or complete the requirements in Table A (as applicable) and then find their proposed project type in Table B, and submit the relevant application forms and documents.

Table A below provides an overview of the documents necessary for an application under each Path. Depending on the path chosen, applicants will submit one or more project-specific packages. The contents of project-specific packages will depend on the type of project (e.g., construction or non-construction).

Table B below provides an overview of required documents for project-specific packages, broken out by whether the project is construction, non-construction, design and engineering, or RLF. An explanation of each required document is directly under Table B.

Due to the single-project nature of applications under the Readiness or Implementation Paths, applicants under those paths will only submit one project-specific package. In contrast, because Industry Transformation Path applications will typically propose a portfolio of construction and/or non-construction projects, applicants under that path will need to submit a complete project-specific package using the documents specified in Table B for each component project they propose. For example, if the proposed coalition is proposing three component projects, EDA would expect three project packages, each appropriate to the given component project.

Additionally, Appendix I contains crucial details about required information that must be submitted in the required narratives under each Path. Applicants must review that Appendix before submitting their application.

Table C summarizes application requirements for each project type and may be used as a checklist for applicants; it does not impose any new requirements.

The Economic Development Representative for the state or territory where the proposed project is located can provide technical assistance regarding application requirements. Additionally, EDA may contact the applicant to clarify application materials received. Finally, EDA may request that a given project be rescoped to fit within budget and timing constraints and, for Industry Transformation Path applications, request that a particular component project not be included in the application. Note that all component projects are expected to be completed within five years.

Table A: Required Application Documentation for All Projects

1. ***Required Narrative:***
   a. ***Readiness Path: One Impact and Engagement Narrative*** *that discusses in detail all the requirements outlined in Appendix I.1 of this NOFO. If the Impact and Engagement Narrative exceeds 3 pages (11-point font, single spaced, 1-inch margins), only the first 3 pages will be reviewed.*

      NOTE: Applicants ***must*** *review Appendix I.1 for critical information regarding the required contents for this Impact and Engagement Narrative.*

   b. ***Implementation Path: One Impact and Engagement Narrative*** *that discusses in detail all the requirements outlined in Appendix I.2 of this NOFO. If the Impact and Engagement Narrative exceeds 7 pages (11-point font, single spaced, 1-inch margins), only the first 7 pages will be reviewed.*

      NOTE: Applicants ***must*** *review Appendix I.2 for critical information regarding the required contents for this Impact and Engagement Narrative.*

   c. ***Industry Transformation Path: One Overarching Narrative*** *from the lead applicant that discusses in detail all the requirements outlined in Appendix I.3 of this NOFO. If the Overarching Narrative exceeds 10 pages (11-point font, single spaced, 1-inch margins), only the first 10 pages will be reviewed.*

      NOTE: Applicants ***must*** *review Appendix I.3 for critical information regarding the required contents for this Overarching Narrative.*

Table A: Required Application Documentation for All Projects

2. *Complete **Unique Entity Identifier (UEI) and System Award Management (SAM)** Registration. For additional information and background, please see the "Unique Entity Identifier (UEI) and System for Award Management (SAM)" note below this table.*

3. ***Match Documentation.** Section C.3 and Appendix I.1 contain critical information about required match (also commonly referred to as cost sharing), and all applicants must read that section before submitting an application.*

   *For **Industry Transformation Path** applicants, the coalition must meet the overall matching share requirement, but the coalition may apportion the matching share as it deems appropriate across the cluster of projects.*

4. ***Organizational Documentation** if applicable. In general, this is required for all nonprofit applicants.*

   For additional background and information, please see the "Organizational Documentation" note below this table.

5. ***Documentation of Investment/Policy Commitments** for **Implementation or Industry Transformation Paths** applicants, if applicable.*

   a. *For **Implementation Path** applicants Investment/Policy Commitments are strongly encouraged, but not required. See section A.2.b.*
   b. *For **Industry Transformation Path** applicants, Investment/Policy Commitments are required. See section A.2.c.*

   To document Investment/Policy Commitments, applicants may use the Form ED-900B or submit a commitment letter from the relevant business. Appendix II includes a template commitment letter.

   For additional background and information, please see the note on "Industry/Policy Commitments" below this table, as well as Appendix II.

6. ***Project-specific package** (depending on the type of project the applicant is proposing, the applicant must submit a complete project-specific package per project.*

   Table B below provides an overview of required documents for project-specific packages, broken out by whether the project is construction, non-construction, design and engineering, or revolving loan fund. An explanation of each required

Table A: Required Application Documentation for All Projects
document is directly under Table B. Note: Readiness and Implementation Projects will require only one project-specific package. Due to the portfolio nature of Industry Transformation, applicants under that path must submit a project-specific package for **each** component project in their application.

Organizational Documentation
Nonprofit organizations must submit documentation that demonstrates their status as nonprofit organizations. This must include articles of incorporation, bylaws, and certificate of good standing, or equivalent. It may also include proof of tax-exempt status.

In addition, depending on the type of organization, an economic development organization may need to submit organizational documentation. EDA will work with such applicants to determine what is required.

Public-private partnerships for public infrastructure must submit documentation defining the partnership, which contains details of the agreement, including roles and responsibilities, and is signed by all parties. EDA does not require that the consortium have a formal legal structure (*i.e.*, a contractual arrangement or public-private partnership).

Nonprofit or for-profit tribal entities may need to submit similar documentation that demonstrate the entity is wholly owned by and established for the benefit of the tribe. Other entities, including institutions of higher education that are not 100% publicly controlled, must provide documentation that demonstrates their organization type. States, federally-recognized Indian tribes, cities or other political subdivisions of states, and institutions of higher education that are 100% publicly controlled are not required to submit organizational documentation. Regardless of entity type, EDA reserves the right to request documentation or additional proof of organizational status.

Investment/Policy Commitments

EDA is focused on investing in activities that leverage existing community assets and private sector support to revitalize a regional economy severely impacted by natural disasters. See Appendix II for more information about the types of investment and policy commitments that an applicant may secure in support of their proposed project. Each commitment must be supported by appropriate documentation. As noted above in Table A, applicants may use the template commitment letter in Appendix II to document the commitments, or applicants may use Form ED-900B.

Note: Under the Industry Transformation Path, applicants are **required** to secure investment and/or policy commitments. **Industry Transformation Path applicants should review Appendix I.3 carefully for critical submission requirements necessary for their applications.**

Note: Under the Implementation Path, investment and/or policy commitments are encouraged but not required. **Implementation Path applicants should review Appendix I.2 carefully for critical submission requirements necessary for their applications.** See Appendix III.9 for submission instructions.

Table B. Project-Specific Package Requirements

Application Package for Non-Construction Projects under any Path:

1. ***One Form SF-424 (Application for Federal Assistance)*** *from the lead applicant.*

2. ***One Form SF-424A (Budget Information—Non-Construction Programs)*** *for the project.*

3. ***One Form CD-511 (Certification Regarding Lobbying)*** *from the lead applicant.*

4. ***One Form SF-LLL (Disclosure of Lobbying Activities) – if applicable,*** *from the lead applicant, if applicable. Form SF-LLL is only required if the applicant has reportable lobbying activities.*

5. ***One Form ED-900 (all sections) –*** *The applicant should complete all sections of the Form ED-900 that are appliable to their project (the form contains instructions to guide the applicant). The following guidance is designed to help applicants know where to include information referenced in this NOFO.*

   In addition to the information requested in the instructions to Form ED-900 itself, the applicant should use:

   - *Section B.4 of the Form ED-900 to explain how the project is consistent with the economic resilience investment priority.*
   - *Section C.1 of the Form ED-900 to clearly identify the location of the project and briefly detail how and why the proposed project benefits an eligible designated area.*
   - *Section D.1 of the Form ED-900 to specify the eligible disaster.*
   - *Section D.3 of the Form ED-900 to identify the relevant regional CEDS or, if there is no CEDS, to attach the relevant strategic planning document with which the project aligns (often referred to as a CEDS-equivalent plan) (see section A.6).*
   - *Section D.4 of the Form ED-900 to specify how the project is consistent with the economic resilience investment priority; detail how the proposed project will align with and support the economic development needs and objectives outlined in the CEDS (or CEDS-equivalent plan); and, if applicable, describe how the proposed project will complement, leverage, and otherwise align with other public and*

Table B. Project-Specific Package Requirements

private investments to accomplish the planned deliverables and outcomes of the scope of work (see sections A.2, A.5, and A.6).

In addition:

b. *For Readiness or Implementation Paths – complete one Form ED-900 per project*
c. *For Industry Transformation Path – complete one Form ED-900 for* ***each*** *component project*

5. ***Copy of Relevant FEMA Disaster Declaration***

6. ***One Budget Narrative*** *that identifies and justifies how funds in each line item of the budget will be used to support the proposed project. This should also describe any other federal funds that will be used for the project (see section A.6), include itemized valuations of any in-kind matching funds, and specifically address each budget line item (including both the federal share and matching non-federal share).*

   For additional background and information, please see the "Budget Narrative" note below this table.

7. ***Indirect Cost Rate Documentation*** *(if applicable). For additional background and information, see the "Copy of Negotiated Indirect Cost Rate Agreement (if applicable)" note below this table.*

8. ***SPOC Compliance Documentation,*** *if applicable. For additional background and information, please see the "SPOC Compliance" note below this table.*

Application Package for Design and Engineering Projects Under Any Path (in general, EDA anticipates that this package will come up most frequently in the Readiness Path)

1. ***One Form SF-424 (Application for Federal Assistance)*** *from the lead applicant.*

2. ***One Form SF-424C (Budget Information—Construction Programs)*** *for the project.*

3. ***One Form CD-511 (Certification Regarding Lobbying)*** *from the lead applicant.*

4. ***One Form SF-LLL (Disclosure of Lobbying Activities) – if applicable,*** *from the lead applicant, if applicable. Form SF-LLL is only required if the applicant has reportable lobbying activities.*

5. ***One Form ED-900 (all sections) –*** *The applicant should complete all sections of the Form ED-900 that are appliable to their project (the form contains instructions to*

Table B. Project-Specific Package Requirements

guide the applicant). The following guidance is designed to help applicants know where to include information referenced in this NOFO.

In addition to the information requested in the instructions to Form ED-900 itself, the applicant should use:

- *Section B.4 of the Form ED-900 to explain how the project is consistent with the economic resilience investment priority.*
- *Section C.1 of the Form ED-900 to clearly identify the location of the project and briefly detail how and why the proposed project benefits an eligible designated area.*
- *Section D.1 of the Form ED-900 to specify the eligible disaster.*
- *Section D.3 of the Form ED-900 to identify the relevant regional CEDS or, if there is no CEDS, to attach the relevant strategic planning document with which the project aligns (often referred to as a CEDS-equivalent plan) (see section A.6).*
- *Section D.4 of the Form ED-900 to specify how the project is consistent with the economic resilience investment priority; detail how the proposed project will align with and support the economic development needs and objectives outlined in the CEDS (or CEDS-equivalent plan); and, if applicable, describe how the proposed project will complement, leverage, and otherwise align with other public and private investments to accomplish the planned deliverables and outcomes of the scope of work (see sections A.2, A.5, and A.6).*

In addition:

d. *For Readiness or Implementation Paths – complete one Form ED-900 per project*
e. *For Industry Transformation Path – complete one Form ED-900 for* ***each*** *component project*

9. ***Copy of Relevant FEMA Disaster Declaration***

10. ***One Budget Narrative*** *that identifies and justifies how funds in each line item of the budget will be used to support the proposed project. This should also describe any other federal funds that will be used for the project (see section A.6), include itemized valuations of any in-kind matching funds, and specifically address each budget line item (including both the federal share and matching non-federal share).*

    For additional background and information, please see the "Budget Narrative" note below this table.

11. ***SPOC Compliance Documentation,*** *if applicable. For additional background and information, please see the "SPOC Compliance" note below this table.*

Table B. Project-Specific Package Requirements

12. ***One Form SF-424D*** *(Assurances—Construction Programs) from each co-applicant, as applicable.*

13. ***One Form ED-900D*** *(Requirements for Design and Engineering Assistance).*

14. ***Environmental Documentation*** *that will enable EDA to comply with its NEPA responsibilities. An environmental narrative outline that details required components may be accessed in EDA's website at: https://www.eda.gov/sites/default/files/2025-03/Environmental-Narrative-Template-and-Application-Certification-Clause_2025.docx. The documentation should reflect whether the component project is categorically excludable or should be a draft environmental assessment or environmental impact statement, as funded by the technical assistance award. Applicants should consult with the appropriate Economic Development Representative (EDR) at www.eda.gov/about/contact to connect with an EDA Environmental Officer to ensure the appropriate documentation is prepared.*

    For additional background and information, please see the note on "Environmental and Historic Preservation Requirements" below this table.

15. ***One Applicant's Certification Clause*** *(see Appendix A (starting on pg. 8) to the environmental narrative outline noted above) completed separately and signed by each co-applicant, as applicable.*

16. ***Indirect Cost Rate Documentation*** *(if applicable). For additional background and information, see the "Copy of Negotiated Indirect Cost Rate Agreement (if applicable)" note below this table.*

17. ***Map of project site****.*

Application Package for Construction Projects Under Any Path (because Readiness projects are all non-construction, this package will only come up in the Implementation and Industry Transformation Paths)

1. ***One Form SF-424 (Application for Federal Assistance)*** *from the lead applicant.*

2. ***One Form SF-424C (Budget Information—Construction Programs)*** *for the project.*

3. ***One Form CD-511 (Certification Regarding Lobbying)*** *from the lead applicant.*

4. ***One Form SF-LLL (Disclosure of Lobbying Activities) – if applicable,*** *from the lead applicant, if applicable. Form SF-LLL is only required if the applicant has reportable lobbying activities.*

Table B. Project-Specific Package Requirements

5. ***One Form ED-900 (all sections) –*** *The applicant should complete all sections of the Form ED-900 that are appliable to their project (the form contains instructions to guide the applicant). The following guidance is designed to help applicants know where to include information referenced in this NOFO.*

   In addition to the information requested in the instructions to Form ED-900 itself, the applicant should use:

7. *Section B.4 of the Form ED-900 to explain how the project is consistent with the economic resilience investment priority.*
8. *Section C.1 of the Form ED-900 to clearly identify the location of the project and briefly detail how and why the proposed project benefits an eligible designated area.*
9. *Section D.1 of the Form ED-900 to specify the eligible disaster.*
10. *Section D.3 of the Form ED-900 to identify the relevant regional CEDS or, if there is no CEDS, to attach the relevant strategic planning document with which the project aligns (often referred to as a CEDS-equivalent plan) (see section A.6).*
11. *Section D.4 of the Form ED-900 to specify how the project is consistent with the economic resilience investment priority; detail how the proposed project will align with and support the economic development needs and objectives outlined in the CEDS (or CEDS-equivalent plan); and, if applicable, describe how the proposed project will complement, leverage, and otherwise align with other public and private investments to accomplish the planned deliverables and outcomes of the scope of work (see sections A.2, A.5, and A.6).*

    In addition:
    a. *For Readiness or Implementation Paths – complete one Form ED-900 per project*
    b. *For Industry Transformation Path – complete one Form ED-900 for* ***each*** *component project*

12. ***Copy of Relevant FEMA Disaster Declaration***

13. ***One Budget Narrative*** *that identifies and justifies how funds in each line item of the budget will be used to support the proposed project. This should also describe any other federal funds that will be used for the project (see section A.6), include itemized valuations of any in-kind matching funds, and specifically address each budget line item (including both the federal share and matching non-federal share).*

    For additional background and information, please see the "Budget Narrative" note below this table.

14. SPOC Compliance Documentation, *if applicable. See below and Appendix III.27.*

Table B. Project-Specific Package Requirements

15. ***One Form SF-424D*** *(Assurances—Construction Programs) from each co-applicant, as applicable.*

16. ***One Form ED-900C*** *(EDA Application Supplement for Construction Programs) and accompanying supporting documentation, e.g., Preliminary Engineering Report.*

17. ***One Form ED-900E*** *(Calculation of Estimated Relocation and Land Acquisition Expenses).*

18. ***Environmental Documentation*** *that will enable EDA to comply with its NEPA responsibilities. An environmental narrative outline that details required components may be accessed in EDA's website at: https://www.eda.gov/sites/default/files/2025-03/Environmental-Narrative-Template-and-Application-Certification-Clause_2025.docx. The documentation should reflect whether the component project is categorically excludable or should be a draft environmental assessment or environmental impact statement, as funded by the technical assistance award. Applicants should consult with the appropriate Economic Development Representative (EDR) at www.eda.gov/about/contact to connect with an EDA Environmental Officer to ensure the appropriate documentation is prepared.*

    For additional background and information, please see the note on "Environmental and Historic Preservation Requirements" below this table.

19. ***One Applicant's Certification Clause*** *(see Appendix A (starting on pg. 8) to the environmental narrative outline noted above) completed separately and signed by each co-applicant, as applicable.*

20. ***Map of project site****.*

21. ***Additional Requirements for Incubators and Accelerators (if applicable)****.* In addition to the required forms and documentation listed in this table, applications for **a business technology, or other type of incubator or accelerator**, must also include documents listed in Appendix III.25.

Note: Indirect cost share is not permitted in construction projects.

Application Package for RLF Projects Under Any Path (this package will only come up in the Implementation and Industry Transformation Paths)

1. ***One Form SF-424 (Application for Federal Assistance)*** *from the lead applicant.*

Table B. Project-Specific Package Requirements

2. ***One Form SF-424A (Budget Information—Non-Construction Programs)*** *for the project.*

3. ***One Form CD-511 (Certification Regarding Lobbying)*** *from the lead applicant.*

4. ***One Form SF-LLL (Disclosure of Lobbying Activities) – if applicable,*** *from the lead applicant, if applicable. Form SF-LLL is only required if the applicant has reportable lobbying activities.*

5. ***One Form ED-900 (all sections) –*** *The applicant should complete all sections of the Form ED-900 that are appliable to their project (the form contains instructions to guide the applicant). The following guidance is designed to help applicants know where to include information referenced in this NOFO.*

   In addition to the information requested in the instructions to Form ED-900 itself, the applicant should use:

   - *Section B.4 of the Form ED-900 to explain how the project is consistent with the economic resilience investment priority.*
   - *Section C.1 of the Form ED-900 to clearly identify the location of the project and briefly detail how and why the proposed project benefits an eligible designated area.*
   - *Section D.1 of the Form ED-900 to specify the eligible disaster.*
   - *Section D.3 of the Form ED-900 to identify the relevant regional CEDS or, if there is no CEDS, to attach the relevant strategic planning document with which the project aligns (often referred to as a CEDS-equivalent plan) (see section A.6).*
   - *Section D.4 of the Form ED-900 to specify how the project is consistent with the economic resilience investment priority; detail how the proposed project will align with and support the economic development needs and objectives outlined in the CEDS (or CEDS-equivalent plan); and, if applicable, describe how the proposed project will complement, leverage, and otherwise align with other public and private investments to accomplish the planned deliverables and outcomes of the scope of work (see sections A.2, A.5, and A.6).*

   In addition:

   a. *For Readiness or Implementation Paths – complete one Form ED-900 per project*
   b. *For Industry Transformation Path – complete one Form ED-900 for* ***each*** *component project*

6. ***Copy of Relevant FEMA Disaster Declaration***

Table B. Project-Specific Package Requirements

7. ***One Budget Narrative*** *that identifies and justifies how funds in each line item of the budget will be used to support the proposed project. This should also describe any other federal funds that will be used for the project (see section A.6), include itemized valuations of any in-kind matching funds, and specifically address each budget line item (including both the federal share and matching non-federal share).*

   For additional background and information, please see the "Budget Narrative" note below this table.

8. ***SPOC Compliance Documentation,*** *if applicable. See below and Appendix III.27.*

9. ***One Form ED-900F*** *(Additional EDA Assurances for Revolving Loan Fund Applications).*

10. ***Indirect Cost Rate Documentation*** *(if applicable). For additional background and information, see note below this table.*

11. ***Draft RLF Plan*** *(must address all components required by EDA's regulation at 13 CFR § 307.9.).*

Budget Narrative

The budget narrative total should match the total project costs listed in both the Form SF-424 question 18, line g, and Form SF-424A or SF-424C, as applicable.

The non-federal share, whether in cash or in-kind, is expected to be paid out at the same general rate as the federal share; however, if the applicant's budget narrative proposes otherwise, applicants must also include information that clearly indicates what project elements the matching share funds will support and explain why deviation from paying out at the same general rate is required for the project to be implemented. For construction projects, the budget narrative may be included in the preliminary engineering report.

If a project requires or anticipates the payment of federal funds to third parties (such as partners, consultants, vendors, and/or service providers), it is the applicant's responsibility to determine whether a third party should be characterized as a subrecipient or a contractor. The characterization must be reflected in the terms of each agreement made with each third party. (See 2 CFR § 200.1 for definitions of contract, contractor, subaward, and subrecipient; see also 2 CFR § 200.331, Subrecipient and contractor determinations.)

All subawards must receive EDA prior approval. If selected for award, and before initial disbursement of any funds by EDA for any costs incurred by a subrecipient, EDA may request documentation demonstrating that the subrecipient is an entity eligible to receive EDA assistance. See Appendix III.28 for information about third party subawards vs. contractors.

Environmental and Historic Preservation Requirements
All applicants for EDA construction assistance (including design and engineering assistance) are required to provide adequate environmental information. Each application will be reviewed by EDA for compliance with the National Environmental Policy Act (NEPA) of 1969, as amended. During the NEPA review process, applicants may be instructed to contact the designated State and/or Tribal Historic Preservation Officer (SHPO/THPO), provide approvals from other governmental agencies, or provide more detailed environmental information. EDA, after compliance with requirements for consultation with Federally-recognized Indian Tribes, may require applicants to participate in Tribal consultation, as necessary. NEPA requires EDA to provide public notice of the availability of project-specific environmental documents, such as environmental impact statements, environmental assessments, findings of no significant impact, and records of decision, to the affected public.

For further guidance and information, applicants are encouraged to contact their state or territory's Economic Development Representative (EDR) for assistance. EDR contact information is available on EDA's website and organized according to regional office: https://www.eda.gov/about/contact (searchable by state).

Copy of Negotiated Indirect Cost Rate Agreement (if applicable)
As noted in EDA's Standard Terms and Conditions for Construction Projects (Construction ST&Cs), indirect costs are not applicable to construction awards.

If indirect costs are included in the budget, the applicant must include documentation to support the indirect cost rate they are using (unless claiming the 15 percent de minimis indirect cost rate, discussed below). The applicant must submit a copy of its current, approved, and negotiated indirect cost rate agreement (NICRA). The maximum dollar amount of allocable indirect costs for which EDA will reimburse a recipient will be the lesser of the (i) line-item amount for the federal share of indirect costs contained in the EDA-approved budget for the award, or (ii) federal share of the total allocable indirect costs of the award based on either (i) the indirect cost rate approved by EDA (or applicable cognizant federal agency), provided that the cost rate is current at the time the costs were incurred and provided that the rate is approved on or before the award end date, or (ii) other acceptable documentation as indicated below.

If the applicant does not have a current or pending NICRA, it may propose indirect costs in its budget; however, the applicant must prepare and submit an allocation plan and rate proposal for approval within ninety calendar days from the award start date (unless claiming the 15 percent de minimis indirect cost rate, discussed below). See 2 CFR part 200 Apps. III, IV, V, VI, VII for guidance. The allocation plan and the rate proposal shall be submitted to EDA's Office of Regional Affairs (or the applicable cognizant federal agency). The applicant should include a statement in its Strategy Development Budget Narrative that it does not have a current or pending NICRA and will submit an allocation plan and rate proposal to EDA or the applicant's cognizant federal agency for approval.

In accordance with 2 CFR § 200.414(f), an applicant that does not have a current negotiated or provisional NICRA, may elect to charge a de minimis rate of up to 15 percent of modified total direct costs (subject to the exceptions of § 200.414(f)). No documentation is required to justify the de minimis indirect cost rate; however, an applicant electing to charge a de minimis rate must include a statement in its Budget Narrative that it does not have a current negotiated (including provisional) rate and is electing to charge the de minimis rate.

If the applicant is a state or local unit of government that receives less than $35 million in direct federal funding per year it may submit any of the following:

- a NICRA;
- a Certificate of Indirect Costs from the Department of the Interior (DOI) or EDA (See: https://www.eda.gov/sites/default/files/filebase/archives/2021/files/tools/grantee-forms/Certificate-of-Indirect-Costs-template.pdf);
- an acknowledgment received from EDA and a Certificate of Indirect Costs in the form prescribed at 2 CFR part 200, app. VII; or
- a Cost Allocation Plan approved by a federal agency (note that cost allocation plans or indirect cost rates approved by state agencies are not acceptable).

SPOC Compliance

This is required if a project's primary service area is located within one or more states that participate in the intergovernmental review process established by Executive Order 12372, "Intergovernmental Review of Federal Programs." See Appendix III.27 "SPOC Compliance" of this NOFO.

The current list of participating states and their single points of contact (SPOC) can be found at https://www.ojp.gov/IntergovernmentalReviewSPOCList.pdf. EDA strongly encourages applicants to contact SPOCs early in the application period to determine the relevant *s*tate's or *s*tates' processes.

Based on the applicant's state, EDA requires the following documentation:

State does not participate	No documentation required—check SF-424 box 19(c).
State participates; this grant program not subject to review	Documentation (*e.g.*, a state executive order, a letter from the SPOC) showing that this grant program is not subject to review. Applicants must provide the documentation as an attachment to the application and check SF-424 box 19(b).
State participates; this grant program subject to review	Documentation (*e.g.*, a letter from the SPOC) with comments or indicating that this project was not selected for review, or, if the comment period has expired or comments were not received, a copy of the applicant's request for comments (*e.g.*, email). Applicants must provide the documentation as an attachment to the application and check SF-424 box 19(a).

Table C: Application Checklist by Project Type

Please note that this checklist summarizes the application documentation to be submitted for each individual project under the ***Readiness or Implementation Paths*** *or for each component project submitted under the* ***Industry Transformation Path****. Additional requirements for incubators and accelerators *(if applicable)*	*X*			

3. Are there any submission deadlines?

For applications submitted under the Readiness and Implementation Paths, there are no submission deadlines. Applications will be accepted on an ongoing (rolling) basis until the replacement of this FY2025 Disaster NOFO, cancellation of this NOFO, or all available funds have been expended. EDA intends to review applications expeditiously upon receipt of a complete application.

The deadline for applications submitted under the Industry Transformation Path is **5:00 pm Eastern Time on Tuesday, March 3, 2026**. Industry Transformation applications received after this deadline will not be reviewed or considered.

E. Application Review and Selection Processes

Grant application submissions are subject to an initial **technical review** by EDA to ensure completeness of the application and compliance with all requirements.

Subsequently, EDA will establish an **Investment Review Committees (IRC)** to conduct an evaluation of complete applications and determine which projects to forward to the **Selecting Official** for final selection and funding.

1. Technical Review

Each application will receive an initial technical review to confirm eligibility, completeness, and responsiveness. An application may not be evaluated by the Investment Review Committee if:

a) The application package does not contain mandatory items (see section D.2).
b) The applicant is not an eligible entity (see section C.1).
c) The project fails to address program objectives and priorities (see section A.1).

EDA, in its sole discretion, may continue review of applications with minor defects that may be easily rectified or cured.

2. Investment Review Committee (IRC)

All complete applications will be evaluated by periodic Investment Review Committee (IRC) panels consisting of at least three federal employees. The IRC will deliberate the merits of each application based on the extent to which the application meets the evaluation criteria below. EDA may, in its discretion and including at the IRC's request, consult experts outside of EDA on the technical aspects of an application to assist the IRC in its evaluation. EDA may in some cases negotiate the scope and nature of certain projects to more closely align with the purpose of this NOFO or fit within funding limitations. The IRC will present the Selection Official with a recommended portfolio of applications in addition to recommendations on how to apply the selection factors discussed in section E.3 below.

For Industry Transformation applicants, while EDA will evaluate the portfolio of component projects within an application holistically, individual component projects within a proposed application may not get funded, and EDA expects in some cases to negotiate the scope and nature of certain component projects or the overall mix of projects, in order to more closely align with the purpose of the NOFO, ensure consistency and utility of each component project within the portfolio, or to fit within funding limitations. Individual component projects not funded may be funded under another EDA NOFO.

The IRC will evaluate complete applications, with specific evaluation criteria required for each (below).

a. Readiness Path projects

For Readiness Path projects, EDA will apply the evaluation criteria with each category weighted equally:

1. **Disaster Recovery and Community Need –** *How well do you understand the community's disaster recovery needs?*
    a. The extent to which the applicant demonstrates an understanding of the damage and economic impacts in the region due to the eligible natural disaster and pre-disaster economic conditions in the area.
    b. The extent to which the applicant has a preliminary idea of the post-disaster assets and interventions that could address disaster recovery in the region.
    c. The degree of economic distress experienced in the project area.
2. **Project Strategy –** *How well does your project address your capacity needs to better prepare you to meet the community's needs in the future?*

a. The extent to which the proposal clearly identifies **how** the proposed activities prepare and increase capacity in the applicant organization or the region to identify, implement, and secure future funding for disaster recovery.
b. The extent to which the project demonstrates strong community engagement including the responsiveness to public feedback and subsequent support from regional stakeholders (private, public, and nonprofit entities, etc.) so that the needs of all affected communities are considered in strategy development.
c. The project's alignment with the regional CEDS or other CEDS equivalent EDA-accepted economic development strategy, including the extent to which the project is aligned with and integrated into other public or private investments currently ongoing or planned for the community and region. Note: this criterion is not applicable to Readiness projects for Strategy Development that propose foundational planning in regions that do not currently have a CEDS or CEDS equivalents.
d. The project's demonstrated alignment with EDA's current Investment Priorities as outlined at https://www.eda.gov/funding/investment-priorities.

3. **Feasibility –** *How likely is your project to succeed?*
    a. The eligible entity's organizational and leadership capacity, including its capacity to engage necessary local partners and secure private-sector, public-sector, and philanthropic commitments.
    b. The extent to which the project budget and scope of work are efficient, realistic, and appropriate to the activities to be undertaken.
    c. The project's feasibility or likelihood that it will achieve its projected outcomes on the proposed schedule.
    d. The availability and committed nature of proposed matching funds necessary to complete the project.
4. **Performance Goals and Measures of Success –** *How impactful will your project be and how will we measure your success?*
    a. The project's milestones and indicators of success are ambitious, achievable, clear and measurable.
    b. The likelihood that the project can start quickly and the immediacy of its outcomes.
    c. The project is designed for long-term impact beyond the grant period.
    d. [For pre-development costs only]: The significance of the projected economic impact of the proposed future recovery project that the pre-development costs would support.

b. Implementation Path projects (construction and non-construction)

For Implementation Path projects, EDA will use the following evaluation criteria, with each of the categories weighted equally.

1. **Disaster Recovery and Community Needs –** *How well do you understand the community's disaster recovery needs?*
    a. The extent to which the applicant demonstrates an understanding of the damage and economic impacts in the region due to the eligible natural disaster and pre-disaster economic conditions in the area.
    b. The extent to which the applicant demonstrates an understanding of the assets and potential interventions that could address disaster recovery in the region.
    c. The degree of economic distress experienced in the project area.
2. **Project Strategy –** *How well does your project address the community's disaster needs and this program's objectives?*
    a. The extent to which the project strategy is clearly informed by regional assets, regional economic conditions pre and post disaster, and considers other investments, commitments, and regional activities.
    b. The proposed activities' potential to improve economic conditions for the region above and beyond pre-disaster levels.
    c. The extent to which the project demonstrates strong community engagement including the responsiveness to public feedback and subsequent support from regional stakeholders (private, public, and nonprofit entities, etc.) so that the needs of all affected communities are considered in strategy development.
    d. The project's alignment with the regional CEDS or other CEDS equivalent EDA-accepted economic development strategy, including the extent to which the project is aligned with and integrated into other public or private investments currently ongoing or planned for the community and region.
    e. The extent to which EDA's investment is necessary.
3. **Feasibility –** *How likely is your project to succeed?*
    a. The eligible entity's organizational and leadership capacity, including its capacity to engage necessary local partners and secure private-sector, public-sector, and philanthropic commitments.
    b. The extent to which the project budget and scope of work are efficient, realistic, and appropriate to the activities to be undertaken.
    c. The project's feasibility or likelihood that it will achieve its projected outcomes on the proposed schedule.
    d. The availability and committed nature of proposed matching funds necessary to complete the project.
4. **Performance Goals and Measures of Success –** *How impactful will your project be and how will we measure your success?*
    a. The significance of the project's impact on the region's recovery and future economic opportunities. This could be measured by the project's ability to: (1) to create or retain jobs, (2) generate private sector investment, and/or (3) positively impact other measures for economic growth (including, for example, growing the tax base or increasing the job market participation rate). For this criterion, jobs and private investment can be measured in the aggregate or in proportion to the area's relative population, and both are competitive.

i. Note: For this evaluation criteria, projects that include letters of commitment from private sector entities or other regional stakeholders will be viewed as more competitive. See Appendix II for more information about commitment letters.

b. The extent to which the project is responsive to the needs of communities impacted by the relevant disasters regarding disaster relief, long-term economic recovery, resilience to future disasters, and restoration and enhancement of infrastructure.
c. The project's milestones and indicators of success are ambitious, achievable, clear, and measurable.
d. The project is designed for long-term impact beyond the grant period.

c. Industry Transformation Path portfolios (construction and non-construction)

For Industry Transformation Path portfolios, EDA will use the following evaluation criteria. The category "**Performance Goals and Measures of Success**" will encompass one-third of the total weight, and the other categories will receive equal weight within the remaining two-thirds.

a. **Disaster Recovery and Community Need –** *How well do you understand the region's needs and opportunities?*
    a. The extent to which the applicant demonstrates an understanding of the damage and economic impacts in the region due to the eligible natural disaster and pre-disaster economic conditions in the region.
    b. The extent to which the applicant demonstrates an understanding of the assets and potential interventions that could address disaster recovery in the region.
    c. The degree of economic distress experienced in the project region.
b. **Project Strategy –** *How well does your project address the community's disaster needs and this program's objectives?*
    a. The extent to which the project strategy is clearly informed by regional assets, regional economic conditions pre and post disaster, and considers other investments, commitments, and regional activities.
    b. The proposed activities' potential to fundamentally alter the economic trajectory for the region above and beyond pre-disaster levels.
    c. The extent to which the component projects are interrelated, complementary, and cohesive, creating a tightknit, logical, and impactful portfolio.
    d. The extent to which the project demonstrates strong engagement including the responsiveness to public feedback and subsequent support from regional stakeholders (both private and public entities).

e. The extent to which the project demonstrates strong community engagement including the responsiveness to public feedback and subsequent support from regional stakeholders (both private and public entities) so that the needs of all affected communities are considered in strategy development.
f. The project's alignment with the regional CEDS or other CEDS equivalent EDA -accepted economic development strategy, including the extent to which the project is aligned with and integrated into other public or private investments currently ongoing or planned for the community and region.
g. The extent to which EDA's investment is necessary and could not be made by another private or public sector entity.

c. Feasibility – *How likely is your project to succeed?*

a. The eligible entity's organizational and leadership capacity, including its capacity to engage necessary local partners and secure private sector, public sector, and philanthropic commitments.
b. The extent to which the project budget and scope of work are efficient, realistic, and appropriate to the activities to be undertaken.
c. The project's feasibility or likelihood that it will achieve its projected outcomes on the proposed schedule.
d. The availability and committed nature of proposed matching funds necessary to complete the project.

d. **Coalition Strength –** *How well prepared is your coalition?*

a. The leadership team and partnership have an effective leadership, decision-making, and accountability structure, and this is reflected in the plan for overall management and governance.
b. The coalition includes key regional stakeholders (both private and public entities) and demonstrates a strong cohesive and sustainable team with solid organization, feedback, and communication mechanisms.

e. Performance Goals and Measures of Success – *How impactful will your project be and how will we measure your success?*

a. The applicant clearly defines what transformation looks like for the region and how the project will accelerate industry and grow the regional economy. The project includes clear, measurable, ambitious, and achievable milestones and indicators of success. The most important measures of success are: (1) the dollar value of the secured private sector investment commitments and policy commitments, and/or (2) the number of jobs to be created or retained by the project and/or the relative impact of that number to the impacted area.
b. The project is designed for long-term impact beyond the grant period.

3. Selecting Official's Decision

Applications recommended by the IRC and deemed fully compliant with applicable rules and regulations will be forwarded to the Selecting Official. The Selecting Official will make a final funding decision in consultation with the Secretary of Commerce, or his/her delegee. The Selecting Official may select a project for funding that differs from the IRC's recommendations based on any of the following selection factors:

1. Responsiveness to the NOFO goals and/or priorities;
2. The extent to which the application meets the overall objectives of section 2 of PWEDA (42 U.S.C. § 3121);
3. The applicant's performance under previous federal financial assistance awards, including whether the grantee submitted required performance reports and data;
4. The availability of program funding;
5. The extent to which the project supports EDA's goals of geographic balance in distribution of program funds, organizational type (to include smaller and rural organizations), and the overall portfolio;
6. The relative rate of return of the project, including but not limited to consideration of private investment commitments and other economic impact data; and
7. The relative economic distress of the area and scale of disaster impact.

The final decision must be consistent with EDA's and DOC's published policies. Any time a Selecting Official makes a selection that differs from the IRC's recommendation, the Selecting Official will document the rationale for the decision in writing.

F. EDGE SYSTEMS ISSUES

Please review Appendix III.10, which covers EGDE system issues and alternatives to submission through EDGE.

G.FEDERAL AWARD ADMINISTRATION INFORMATION

Please review the Appendices to this NOFO, which cover the following topics in detail:

I. Required Application Narratives
II. Investment/Policy Commitments Requirements [if applicable]
III. Additional Information on Application, Policy, and Legal Requirements

H.Appendices

APPENDIX I – Required Application Narratives

1. READINESS PATH - Impact and Engagement Narrative Requirements

The Impact and Engagement Narrative for the Readiness Path serves to answer specific questions about the impact of the proposed project. Each applicant under the Readiness Path should submit a narrative in accordance with the structure and prompts below, depending on the type of funding requested in your application. The narrative should not exceed 3 pages (11 point font, single spaced, 1-inch margins).

Section 1: Executive Summary (no more than 500 words)
Briefly summarize the proposed project and activities:

- Project Title
- Summary of overarching plan
- Proposed goals
- The proposed geographic region

Section 2: For all Readiness applications, applicants should clearly explain:

- How the proposed activities in their application will prepare the applicant organization and/or the community to apply for and/or implement future disaster recovery funding.
- What future disaster recovery funding the applicant or the community anticipates planning for or applying for.
    - Note: For long-term strategy planning proposals, it may be more appropriate to provide general plans for how a cohesive regional disaster recovery strategy will make the applicant or community more competitive for future categories of disaster recovery funding. In contrast, for short-term proposals intended to build capacity to apply for specific funding streams, applicants should identify their plans with an appropriate degree of specificity that reflects the state of their planning and strategy.
    - Note: If applicants intend to use Readiness funding to prepare to apply for or implement future funding under this Disaster NOFO, applicants should specifically reference any concurrent or follow-on funding requests under this NOFO.
- How the applicant incorporated community and stakeholder engagement into the applicant's proposal.
    - Describe in detail the community and stakeholder engagement that the applicant undertook. This includes but is not limited to who was engaged and how they were engaged.
    - Synthesize the feedback received.

- Explain clearly how the applicant incorporated that feedback into the project plan.

In addition, depending on the type of Readiness funding requested (Strategy, Capacity, or Pre-Development Costs), applicants should answer the following questions as applicable.

Section 3: Strategy Development [if applicable]
For **Strategy** Development grants, applicants should answer the following question:

- What questions will the project seek to address?
- How will the completed plan or plans prepare the applicant organization and/or the community to apply for and/or implement future disaster recovery funding?

Section 3: Capacity Building [if applicable]
For **Capacity** Building grants, applicants should answer the following questions:

- How many full-time economic development, economic recovery, and/or disaster recovery staff are currently employed by the applicant?
- How will any new hire(s) funded by an EDA grant enhance the applicant's capacity to plan for, implement, and manage economic recovery projects in the future?
    - How does the applicant intend to deploy this additional staffing capacity? What roles, responsibilities, and deliverables will they be assigned to lead / manage?

Section 3: Pre-development Costs [if applicable]
For **Pre-development Cost** grants, applicants should answer the following questions:

- What economic recovery needs is the future recovery project intended to address?
- What is the status of the proposed future recovery project, and how will EDA-funded pre-development costs make the applicant more likely to successfully compete for or implement the future recovery project?
- What economic recovery needs is the future recovery project intended to address?
- What is the projected economic impact of the proposed future funding application? In other words, how would the proposed future project improve economic conditions above pre-disaster levels?
- How does (or will) the future recovery project align with the local or regional recovery strategy?

2. IMPLEMENTATION PATH - Impact and Engagement Narrative Requirements

The Impact and Engagement Narrative for the Implementation Path serves to answer specific questions about the impact of the proposed project. Each applicant under the Implementation Path should submit a narrative in accordance with the structure and prompts below. The narrative should not exceed 7 pages (11 point font, single spaced, 1-inch margins).

In their Impact and Engagement Narrative, each applicant under the Implementation Path should focus on developing a long-term impact and engagement plan for the execution of the proposed project and its outcomes. The plan, to be captured in the Impact and Engagement Narrative, should demonstrate how EDA funding for the proposed project, alongside other capital commitments and support, will not only help the target communities recover but also improve their economic outcomes and ultimately put them on a trajectory to exceed their previous pre-disaster baseline.

The plan should include both near-term actions that can be accomplished in the first year and a longer-term strategy to maintain, grow, and evolve capacity to translate into regional economic growth, engage key partners, and strengthen the region.

Specifically, the Impact and Engagement Narrative must include the following sections:

Section 1: Executive Summary (no more than 500 words)
Briefly summarize the coalition's overall vision for the proposed projects and activities and intended outcomes:

- Project Title
- Summary of overarching plan and approach for the coalition
- Proposed goals
- The proposed geographic region

Section 2: Disaster Impact

- Describe the economic conditions of the region prior to the disaster(s), which may include metrics such as:
    - Primary sectors, industries, businesses
    - Unemployment rate
    - Labor force participation rate
    - Average wages/salaries according to sector/position
    - County GDP
- Outline the disaster(s) that have affected the area and how they have created disruptions in the local or regional economy, including metrics such as:
    - Businesses damaged or destroyed
    - Resulting loss of employment, total jobs/positions
    - Resulting loss of wages and local/regional spending power, resulting impact on overall local/regional economy (actual and projected)
    - Post-disaster unemployment rate
    - Projected loss of productivity/profit by sector/industry

Section 3: Project Impact

- Provide a detailed explanation of how the completed project will **both** restore some aspect of pre-disaster economic conditions **while also** facilitating some amount of economic growth in excess of the economy's pre-disaster trajectory, *e.g.*,

- What impacted economic sector or sectors is this project intended to support?
- What specific aspects of disaster-related damage and/or destruction is this project intended to address? How does the project harden infrastructure and/or make the community better prepared to withstand future disasters or economic shocks?

- How does proposed implementation project not only help the communities recover but also improves the community's economic outcomes and ultimately puts the community on a trajectory to exceed their previous pre--disaster economic conditions?
  - What outcome metrics does the applicant propose to evaluate the success of this intended outcome?

Section 4: Engagement

- Clearly describe how the applicant incorporated community and stakeholder engagement into the applicant's proposal.
  - Describe in detail the community and stakeholder engagement that the applicant undertook. This includes but is not limited to: who was engaged and how they were engaged.
  - Synthesize the feedback received.
  - Explain clearly how the applicant incorporated that feedback into the project plan.

Section 5: Commitments (if applicable)

- If the applicant proposes investment or policy commitments, see Appendix II for required information to show the top 8 commitments and the necessary documentation to document each commitment. Note: commitment letters and other documentation (such as Form ED-900B) do not count against the 7-page maximum for this narrative.

3. INDUSTRY TRANSFORMATION PATH - Overarching Narrative Requirements

Each applicant under the Industry Transformation Path should submit an Overarching Narrative in accordance with the structure and prompts below.

For Industry Transformation applications, each eligible coalition should focus on developing a long-term, transformational strategy and execution plan that represents the collective vision of the coalition for the proposed component projects. The plan, to be captured in the Overarching Narrative, should demonstrate how EDA funding for component projects, alongside other capital commitments and support, will fundamentally accelerate the economic trajectory of a region adversely impacted by a disaster by establishing or accelerating the growth of an industry.

The plan should include both near-term actions that can be accomplished in the first year and a longer-term strategy to maintain, grow, and evolve capacity to translate into regional economic growth, engage key partners, and strengthen the region. Applicants should outline their coalition's plan for overall management and governance, including effective cross-institutional leadership and ensuring clear and effective decision-making and governance for the coalition.

The Lead Coalition Member should submit the Overarching Narrative, and the document should not exceed 10 pages (11-point font, single spaced, 1-inch margins).

Specifically, the Overarching Narrative must include the following sections:

Section 1: Executive Summary (no more than 500 words)
Briefly summarize the coalition's overall vision for the proposed projects and activities and intended outcomes:

- Project Title
- Summary of overarching plan and approach for the coalition
- Proposed goals
- The coalition's geography
- The coalition's members, and a short description of the role these members play in the coalition

Section 2: Disaster Impact

- Describe the economic conditions of the region prior to the disaster(s), which may include metrics such as:
    - Primary sectors, industries, businesses
    - Unemployment rate
    - Labor force participation rate
    - Average wages/salaries according to sector/position
    - County GDP
- Outline the disaster(s) that have affected the area and how they have created disruptions in the local or regional economy, including metrics such as:
    - Businesses damaged or destroyed
    - Resulting loss of employment, total jobs/positions
    - Resulting loss of wages and local/regional spending power, resulting impact on overall local/regional economy (actual and projected)
    - Post-disaster unemployment rate
    - Projected loss of productivity/profit by sector/industry

Section 3: Coalition and Stakeholders

- Identify the central leader of the project and why they are the appropriate fit to manage this project
- Identify core stakeholders in the implementation of the project and their role in the project

- Describe the steps that the coalition will take to organize and manage these component projects centrally and across projects
- Describe the steps that the coalition has taken to meaningfully engage regional stakeholders (both private and public entities) in the development and refinement of this project. Summarize the feedback and explain how the feedback has been incorporated in the plan
- Describe how the match, commitments, and the engagement on this proposal validate the need and effectiveness of this proposed EDA investment
- Describe the coalition's plan for overall management and governance, including cross-institutional leadership and ensuring clear and effective decision-making, accountability, and governance for the coalition

Section 4: Proposed Projects

- Identify the impacted economic sector or sectors the component projects are intended to support
- For each proposed component project, provide the following information:
  - Component project name
  - Identify the project in one of the following categories: construction or non-construction
  - The Component Project Lead organization and other key implementing entities
  - Description of the project
  - The timeline for implementation
  - The contribution to the overall success of the project and transforms the economy of the region post-disaster
  - Description of how it complements and reinforces other component projects
  - In detail, explain how the completed completion of the proposed component projects will both restore some pre-disaster economic conditions while also facilitating economic growth beyond the economy's pre-disaster trajectory
    - What outcome metrics does the applicant propose to evaluate the success of this intended outcome?

Section 5: Industry Transformation Project Impacts

- Each coalition should establish a clearly structured evaluation framework demonstrating how component projects will collectively lead to transforming the region's economy in the stated industry within an applicant-defined time horizon (e.g., X years)
- This information should be provided in the following table:

Baseline	**Coalition Outputs (1-3 years)**	**Intermediate Outcomes (3-5 years)**	**Long-term Outcomes (5-10 years)**	**Overarching Goal(s)**
What is the current starting point or baseline?	What are the key deliverables resulting from Coalition activities?	What measurable results	What measurable results clearly demonstrate the	What broader goal(s) do the long-term outcomes contribute to?

		demonstrate early progress?	coalition is achieving its goal(s)?	How will the Coalition know if the region's economy is transformed?

Section 6: Investment and Policy Commitments

- Applicants should detail the investment and/or policy commitments that support their project. Applicants must follow the format and requirements set forth in Appendix II (Investment and Policy Commitments), including the table. The applicant should include a total value of all commitments gathered through the Project (including those not listed in the required table of the top 8 commitments – see Appendix II).
- The applicant should compare the amount of EDA funding requested with the total value of all commitments to generate an approximate "rate of return" from EDA's investment. Applicants should express the rate of return as a percentage calculated as follows:

  Investment Commitments divided by EDA funding = Rate of Return

  Note: do not include matching funds in the calculation of investment commitment

  For example, if the applicant sought $20M in Industry Transformation funding and secured $100M in investment commitments, the return on investment would be 5.0 (i.e.: $100M / $20M = 5.0).

Note: all investment commitments should be supported by appropriate documentation, including but not limited to the investment commitment template letter in Appendix II. Applicants could choose to use Form ED-900B in lieu of the investment commitment template. Note: commitment letters and other documentation (such as Form ED-900B) do not count against the 10-page maximum for this narrative.

Section 7: Local or Regional Strategic Vision

At a high level, explain how the overall Industry Transformation Project reflect and align with the economic recovery priorities and objectives identified under applicable economic development planning, including (if appliable) a regional Comprehensive Economic Development Strategy (CEDS) or CEDS-equivalent plan. Note: in Form ED-900 for each component project, the applicant will explain each component project's alignment to CEDS or CEDS-equivalent plan. If the geographic area of a project spans an area that encompasses multiple CEDS or CEDS-equivalent plans, note how the project is consistent with a broader multi-region strategy, which may include showing consistency with multiple CEDS.

Section 8: Feasibility

Explain how the portfolio of component projects will be able to succeed. This includes but is not limited to describing the following (with accompanying documentation, as applicable):

- Organizational capacity (*e.g.*, relevant staff such as grants management SME(s), project managers, construction engineers, finance and accounting, etc.)
- Private Sector Participation (*e.g.*, additional leveraged investment, other commitments of project support)
- Applicant's previous experience managing similar grant resources, implementing similar projects, and the results.
- Realistic project completion timeline that includes relevant, measurable milestones

APPENDIX II – Investment/Policy Commitments Requirements [if applicable]

Applicants for the Industry Transformation Path are required to demonstrate investment and/or policy commitments.[8] While not required for Implementation Path applicants, investment and/or policy commitments could make an application more competitive (see applicable evaluation criteria for more information). If submitting commitments, applicants should include a table listing the most meaningful commitments as instructed below and are encouraged to submit a letter for **all** commitments.

Note: these commitments are separate and apart from the required matching funds that the coalition is required to secure under section C.3 and Appendix III.1 of this NOFO.

1. **Table-Top Commitments.** The applicant's most meaningful commitments (as determined by the applicant team itself) from private sector entities; state, local, or other government sources; and nonprofit entities, including philanthropic organizations. Applicants may include up to 8 commitments in this table.
    a. The "Source" column should identify the sector that the committing organization belongs to: Federal Government, state government, local government, nonprofit, private for-profit, philanthropy, or institution of higher education.
    b. The "Type" column should indicate what type of commitment is being provided: Investment (cash), Investment (in-kind), or Policy.
    c. The "Implementation" column should include an overview of how the commitment will be implemented, including start and end dates and responsible parties.
    d. The "Outcome" column should include a brief description of the benefit or intended impact of the commitment.

[8] Please note that while EDA strongly encourages and anticipates coalitions with a wide variety of engaged stakeholders, including from the private sector, only eligible applicants (see section C.1) may apply for and receive grant funds as recipients.

Name of Organization	Source	Type	Value (if applicable)	Associated Component Project(s)	Implementation	Outputs and Outcomes
[Organization]	*[Private Sector]*	*[Investment (direct)]*	*$1,000,000*	*[Component Project Name]*	*[Timeline and responsible parties]*	*[Impact]*

2. Investment / Policy Commitment Template

All investment commitments (including those not listed in the table above) should be supported by appropriate supporting documentation, including but not limited to the commitment template letter below. Applicants could choose to use Form ED-900B form in lieu of the investment commitment template.

Commitment Letter Template
[Organization Name] is pleased to provide this commitment in support of [clearly state what the commitment is, *e.g.*, cash, investment, in-kind resources, collaboration]. This commitment is valued at [state monetary value, in-kind valuation and calculation, or other measure]. This commitment is meaningful because [explain why the commitment is important, including how it addresses a critical gap, reduces barriers, or helps solve a significant problem] and aligns with [essential objectives of the coalition or proposed activities of a component project(s)]. What distinguishes this commitment is [what is new or innovative about this commitment, highlighting how it drives new or improved outcomes compared to previous efforts or standard practices]. Our implementation plan involves [describe the key steps or phases for implementing this commitment, including timelines, roles, and responsibilities]. As a result, [state the specific outcomes or impact you anticipate achieving]. To measure success, we will [explain how success will be tracked, including specific metrics or indicators that will demonstrate progress and achievement].

Commitment Letter Template
We look forward to contributing to the success of [coalition or Project Name] and are committed to ensuring meaningful outcomes from this effort.

Note: supporting documentation for commitments is not included in the page limits for an applicant's required narrative (Impact and Engagement Narrative for the Implementation Path; Overarching Narrative for the Industry Transformation Path).

3. Investment Commitment Examples

- **Investment commitments** may be direct (cash) or indirect (in-kind). As feasible, investment commitments should include an accurate and quantifiable value. Investment commitments should also not only describe how and when funds are delivered but the benefit or result achieved from the investment.
  - **Investment (cash) commitments** may include, but are not limited to, direct contributions to a component project (not already counted as match), new upgrades to existing facilities, or a newly established fund for small businesses.
  - **Investment (in-kind) commitments** examples may include employee staff-time, consulting services, use of lab space, or software.

4. Policy Commitment Examples

EDA recognizes applicants may need to undertake new policies and programming to accelerate their target industry's growth and economic recovery. EDA will fund implementation strategies under this Disaster NOFO that are paired with commitments to institute creative and impactful economic policy changes that may not require EDA funding to implement. This Disaster NOFO offers maximum flexibility to fund or otherwise support new public and regional policies, and coalitions are encouraged to describe in applications the types of policy change they are considering, such as:

- commitments to streamline permitting, environmental, and other approvals at the state and local levels
- strategies to build local talent pipelines to increase the number of high-skilled workers and students retained in the region as workers and entrepreneurs
- commitments by industry to place workers trained
- commitments to develop new apprenticeship programs or hire a number of trained apprentices
- commitments to adopt hiring practices that identify and seek out the existing skills and talents of workers and remove barriers to quality jobs in the region, regardless of credentials or degrees, including, where appropriate, by considering eliminating four-year degree requirements
- commitments of endowments and other sources of regional capital to invest in regional companies focused on the target industry

- commitments to funding and implementing programs that expand the labor supply in the target industry by providing enabling services
- commitments, such as plans to remove regulatory barriers to better ensure housing availability, especially as the coalition accelerates its growth
- public and private institutions that create new leadership positions meant to accelerate regional economic competitiveness, particularly in the target industry
- anchor institutions such as firms, hospitals, and other local entities to work together to develop standardized hiring requirements for certain occupations
- private-sector commitments to recruitment in neighborhoods or geographies that have been severely impacted or damaged
- data sharing agreements between state and local agencies, as well as local service providers, to improve service delivery and support

EDA aims to provide maximum flexibility both in terms of what this Disaster NOFO can fund (but see ineligible projects in section A.4 above) as well as what constitutes a meaningful policy commitment. The above examples are not meant to be an exhaustive list. EDA encourages other creative ideas to shift the region's economic recovery strategies to promote faster, more aggressive economic growth and regional competitiveness in the target industry.

APPENDIX III – Additional Information on Application, Policy, and Legal Requirements

1. Cost Sharing or Matching Requirements

Funds for this funding opportunity must be used to carry out paragraph (c)(2) of section 209 of PWEDA, which provides, in relevant part, that EAA assistance may be provided for activities identified by communities, the economies of which are injured by "disasters or emergencies, in areas with respect to which a major disaster or emergency has been declared under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. § 5121 *et seq.*), for post-disaster economic recovery." 42 U.S.C. § 3149.

Once applicant and area eligibility are established, EDA generally expects to fund up to 80% of the eligible costs of such assistance. However, EDA's consideration of factors such as scale of the project, the extent of the impact of the relevant disaster on the region, total project cost, relative distress of the community, or geographic distribution of disaster funds, may cause EDA to fund projects at a grant rate that is lower than 80%. The remaining portion of the costs for the EDA scope of work must be borne by the recipient or provided to the recipient by a third party as a contribution for the purposes of and subject to the terms of the award.

In accordance with the agency's statutory authority under section 703 of PWEDA (42 U.S.C. § 3233), EDA may increase the investment rate up to a maximum of 100%. In determining

whether to increase the federal share above 80%, EDA's Grants Officers will consider on a case-by-case basis whether the circumstances of the proposed project warrant a federal share in excess of 80%, including whether the applicant has exhausted its effective taxing or borrowing capacity, can otherwise document that no local matching funds are reasonably obtainable, or meets other thresholds for elevated need based on the overall economic situation of the region. The applicant is responsible for demonstrating to EDA that an enhanced grant rate is justified by providing statistics and other appropriate information on the nature and level of economic distress in the region, including information regarding other disaster-related needs facing the region and the level of resources available to address those needs.

EDA may also establish a maximum investment rate of up to 100% for projects of Indian Tribes.

Note: for applications under the Industry Transformation Path, the coalition must meet the overall matching share requirement, but the coalition may apportion the matching share as it deems appropriate across the cluster of projects. If individual component projects are subsequently not funded by EDA, the coalition may need to reapportion or find new sources of match.

2. Pre-award costs

Applicants who seek pre-award project cost reimbursement should work closely with the EDA representative for their state. For contracted pre-award costs to be eligible for reimbursement, the applicant must competitively procure services pursuant to the Federal government's procurement procedures. All pre-award costs will be considered for reimbursement only if an applicant receives an award and such costs are approved by EDA in writing. Under no circumstances will EDA or DOC be held responsible for application preparation expenditures, which are distinguished from pre-award project costs.

3. EDA's non-relocation policy

Applicants are advised that, should an application be selected for award, the recipient will be required to adhere to a specific award condition relating to EDA's non-relocation policy as follows:

In signing this award of financial assistance, Recipient(s) attests that EDA funding is not intended by the Recipient to assist its efforts to induce the relocation of existing jobs within the U.S. that are located outside of its jurisdiction to within its jurisdiction in competition with other U.S. jurisdictions for those same jobs. In the event that EDA determines that its assistance was used for those purposes, EDA retains the right to pursue appropriate enforcement action in accord with 2 CFR §§ 200.339 through 200.343 and the Department of Commerce General Terms and

Conditions of the Award, including suspension of disbursements and termination of the award, which may include the establishment of a debt requiring the Recipient to reimburse EDA.

For purposes of ensuring that EDA assistance will not be used merely to transfer jobs from one location in the United States to another, each applicant must inform EDA of all employers that constitute primary beneficiaries of the project assisted by EDA. EDA will consider an employer to be a "primary beneficiary" if:

(i) the employer is specifically named in the application as benefitting from the project, and the applicant estimates that the employer will create or save 100 or more permanent jobs as a result of the investment assistance (if the jobs in question were originally located in a smaller community, EDA may extend this policy to the relocation of 50 or more jobs); or

(ii) the employer is or will be located in an EDA-assisted building, port, facility, or industrial, commercial, or business park constructed or improved in whole or in part with investment assistance prior to EDA's final disbursement of funds.

4. Past performance and non-compliance with award provisions

Unsatisfactory performance under prior federal awards may result in an application not being considered for funding, in accordance with 2 CFR 200.206(b)(2)(iii). Failure to comply with any or all of the provisions of an award may have a negative impact on future funding by DOC (or any of its operating units) and may be considered grounds for any or all of the following actions:

- establishing an account receivable,
- withholding payments to the recipient under any DOC award(s),
- changing the method of payment from advance to reimbursement only,
- imposing other specific award conditions,
- suspending any active DOC award(s), and
- terminating any active DOC award(s).

5. Notice of government-wide procurement restriction

The general rule for federal financial assistance is that contractors that develop draft specifications, requirements, statements of work, invitations for bids, or requests for proposals are prohibited from competing for the final procurement. In accordance with 2 CFR §§ 200.317 and 200.319, only states and Indian tribe recipients are expressly exempt from this prohibition; states and Indian tribes must follow the same policies and procedures they use for procurements from their non-federal funds.

Local governments may also take advantage of the exemption in two narrow circumstances if they are required to follow

- the state's procurement rules in full and without exception, or
- a specific state procurement rule that creates an explicit conflict with the prohibition in 2 CFR § 200.319(b) (*i.e.*, there is a statute that requires or permits the local government to

award the final procurement to the same contractor that developed the draft specifications).

Absent one of these two scenarios, the local government must comply with the prohibition. Applicants are encouraged to contact the applicable EDA representative listed on EDA's website at https://www.eda.gov/about/contact (searchable by state) with any questions regarding application of this regulation.

6. Requirements for recipients with more than $10 million in federal-wide funding

As required by appendix XII to 2 CFR part 200, a recipient with more than $10 million in federal-wide funding must maintain the currency of information reported to SAM that is made available in the designated integrity and performance system (formerly FAPIIS) about civil criminal, or administrative proceedings.

7. Financial, performance, and outcomes reports

All recipients are required to submit progress reports and financial status reports generally **no less than semi-annually**, in accordance with the terms and conditions of the grant award. In addition, all recipients will be required to track and submit performance data on EDA-sponsored outputs and resulting outcomes, semi-annually and annually, respectively. All reports must be submitted in electronic format as specified in the terms of the award. Note: costs related to data and evaluation are allowable. EDA may also, for research purposes linked to improving economic outcomes, choose to share data with other federal partners, including but not limited to statistical agencies.

8. Funding opportunity changes communicated on Grants.gov

EDA may make changes or additions to this funding opportunity. All changes will be communicated on Grants.gov. It is recommended that applicants set up a Grants.gov account and subscribe to this funding opportunity ("EDA-DISASTER-2025") to be notified of any updates or changes. DOC or EDA may cancel, modify, or withdraw this funding opportunity at any time. EDA is not obligated to make any federal award or commitment because of this announcement.

9. Application package and submission

To obtain and submit an application through EDGE, an applicant must register for an EDGE account at sfgrants.eda.gov. As part of the registration process, you will register one Authorized Representative for your organization, however, multiple points of contact may be registered or added by the lead applicant to the application workspace to view or work on completing the

application. The Authorized Representative will be the only official with the authority to submit applications.

The required electronic file format for attachments is text-searchable Portable Document Format (PDF) and, where appropriate, Microsoft Excel.

EDA intends to review each application promptly after receiving the complete application. EDA may request additional documentation or information from the applicant to make an eligibility or completeness determinations. EDA will reject any documentation that the agency determines is inaccurate or incomplete, which may cause the application to be rejected.

The Authorized Representative submitting the application and materials will receive a time and date-stamped email from EDGE confirming the submission and receipt of the application and other required documents. Applicants should save and print both the confirmation screen provided on EDGE after the applicant has submitted an application and the confirmation email sent when the application has been successfully submitted.

It is the applicant's responsibility to verify that your submission was submitted successfully through EDGE and to ensure that the submission was complete as to form and content.

10.EDGE system issues

If you experience a systems issue with EDGE (*i.e.*, a technical problem or glitch with the webpage) that you believe threatens your ability to complete a submission, please:

- print any error message receive, and
- email the help desk at GrantHDSupport@eda.gov.

Please be sure to track your issue using a case number given to you by the help desk regarding their communications with EDGE. Please note that problems with an applicant's computer system or equipment are not considered systems issues. Similarly, an applicant's failure to do the following are not considered systems issues:

- complete the required registration,
- ensure that a registered authorized representative submits the application, or
- receive a notice receipt of an email message from EDGE.

An EDGE issue is an issue occurring in connection with the operations of the website itself, such as the temporary loss of service due to unexpected volume of traffic or failure of information technology systems, both of which are highly unlikely. In the event of a confirmed systems issue, EDA reserves the right to accept an application in an alternate format.

Applicants should go to sfgrants.eda.gov and click on the "Resources" page for assistance in navigating EDGE and for a list of useful resources.

11. Alternatives to Submission through EDGE

EDA will not accept paper, facsimile, or email transmissions of applications. An exception will be made to accommodate applicants who have accessibility requirements, and a paper version of the application may be obtained by contacting the appropriate Economic Development Representative for the state where the project will be located, under "Find Local Contacts" at https://www.eda.gov/contact/.

12. Audit requirements

Single or program-specific audits shall be performed in accordance with the requirements contained in the OMB Uniform Guidance (see 2 CFR part 200, Subpart F, "Audit Requirements"). The OMB Uniform Guidance requires any non-federal entity (*e.g.*, nonprofit organizations, including nonprofit institutions of higher education and hospitals; states; local governments; and Indian tribes) that expends federal awards of $1,000,000 or more in the recipient's fiscal year to conduct a single or program-specific audit in accordance with the requirements set out in the OMB Uniform Guidance. Applicants are reminded that EDA or the DOC's Office of Inspector General (OIG) also may conduct an award audit at any time.

13. Build America, Buy America requirements

Projects funded under this funding opportunity are not subject to the Build America, Buy America Act because they are post-disaster expenditures pursuant to a major disaster or emergency declared under the Robert T. Stafford Disaster Relief and Emergency Assistant Act. Per 2 CFR part 184, the Buy America Preference does not apply to expenditures for assistance authorized under section 402, 403, 404, 406, 408, or 502 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170a, 5170b, 16 5170c, 5172,5174, or 5192) relating to a major disaster or emergency declared by the President under section 401 or 501, respectively, of such Act (42 U.S.C. 5170, 5191); or pre and post disaster or emergency response expenditures, which consist of expenditures for financial assistance that are authorized by statutes other than the Stafford Act, 42 U.S.C. 5121 et seq., and made in anticipation of or response to an event or events that qualify as an "emergency" or "major disaster" within the meaning of the Stafford Act, 42 U.S.C. 5122(1), (2).

14. Certifications required by annual appropriations acts for corporations and for awards over $5 million

As discussed in section D.1, all applicants are required to be registered in SAM before applying under this funding opportunity. SAM requires registering entities to certify compliance with all limitations imposed by annual appropriation acts.

For corporations, this certification includes that the corporation:

- was not convicted of a felony criminal violation under a federal law within the preceding 24 months, unless a federal agency has considered suspension or debarment of the corporation and made a determination that this further action is not necessary to protect the interests of the government, and/or
- does not have any unpaid federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability, unless a federal agency has considered suspension or debarment of the corporation and made a determination that this further action is not necessary to protect the interests of the government.

For financial assistance awards in excess of $5 million, this certification includes that the entity:

- has filed all Federal tax returns required during the three years preceding the certification to the best of its knowledge and belief,
- has not been convicted of a criminal offense under the Internal Revenue Code of 1986, and/or
- has not been notified, more than 90 days prior to certification, of any unpaid federal tax assessment for which the liability remains unsatisfied, unless the assessment is the subject of an installment agreement or offer in compromise that has been approved by the Internal Revenue Service and is not in default, or the assessment is the subject of a non-frivolous administrative or judicial proceeding.

15.Disclosures of information

For the purposes of achieving rigorous program evaluations, all applications (including those that are not selected for funding) may be shared with EDA staff, outside parties contracted by EDA for the purposes of evaluation, and other federal agencies. See Appendix III.21, Freedom of Information Act, for further information on disclosures of information.

16.Disclosures of violations

Recipients of financial assistance originating from the U.S. Department of Commerce, including EDA, shall timely disclose, in writing, to the OIG and awarding agency, whenever, in connection with the award, performance, or closeout of this grant or sub-award thereunder, the recipient has credible evidence that a principal, employee, agent, or sub-recipient has committed a violation of:

- federal criminal law involving fraud, conflict of interest, bribery, or gratuity violations found in Title 18 of the United States Code, or
- the civil False Claims Act (31 U.S.C. §§ 3729-3733).

17.Projects with EDA's substantial involvement

Possible examples of EDA's "substantial involvement" may include, but are not limited to:

- authority to halt immediately an activity if detailed performance specifications are not met;
- stipulation that the recipient must meet or adhere to specific procedural requirements before subsequent stages of a project may continue; and
- operational involvement and monitoring during the project to ensure compliance with statutory requirements.

18.Federal award notices

Under this funding opportunity, EDA expects to notify applicants of its decision via email. If an application is selected for funding, the EDA grants officer will issue a signed grant award (Notice of Award), which is the authorizing financial assistance award document and includes the DOC Financial Assistance General Terms and Conditions (DOC GT&Cs at https://www.commerce.gov/oam/policy/financial-assistance-policy) and specific award conditions. See also Appendix III.23.

By accepting the Notice of Award, the applicant agrees to comply with all award provisions. EDA will provide the Notice of Award to the applicant's Authorized Representative through EDGE. The applicant's Authorized Representative must review and accept the Notice of Award without modification by selecting "accept" in EDGE and EDA expects such acceptance will occur expeditiously, preferably within 30 calendar days of the date of receipt. **Failure to accept the notice of award may be considered grounds for appropriate enforcement action pursuant to 2 CFR § 200.339 ("Remedies for noncompliance"), including award termination.**

If an applicant is awarded funding, neither DOC nor EDA is under any obligation to provide any additional future funding in connection with that award or to make any future awards. Amendment or renewal of an award to increase funding or to extend the period of performance is at the discretion of DOC and EDA.

EDA will provide written notice to all applicants informing them whether their application was selected for funding. EDA will retain unsuccessful applications in accordance with EDA's record retention schedule.

19.Federal Funding Accountability and Transparency Act of 2006

The Federal Funding Accountability and Transparency Act of 2006 includes a requirement for awardees of applicable federal grants to report information about first-tier subawards and executive compensation under federal assistance awards issued in FY 2011 or later. All awardees

of applicable grants and cooperative agreements are required to report to the Federal Subaward Reporting System (FSRS) available at www.FSRS.gov on all sub-awards over $30,000. Please see the OMB guidance published at 2 CFR part 170.

20.Fraud awareness training

Consistent with 2 CFR part 200, in signing a financial assistance award, recipient personnel responsible for managing the recipient's finances and overseeing any contractors, sub-contractors or sub-grantees, will be required to complete a training PowerPoint entitled "Compliance with EDA Program Requirements" and return the signed certificate of training completion to EDA as instructed by the agency. EDA staff will provide the PowerPoint after the decision to make an award is made. Further, recipient will be required to monitor award activities for common fraud schemes and report suspicious activity to EDA and the Office of Inspector General.

21.Freedom of Information Act

EDA may publish any applications it receives, including any supporting documentation, on its website or through other means.

In addition, Department of Commerce regulations implementing the Freedom of Information Act (FOIA) (5 U.S.C. § 552), may be found at 15 CFR part 4, Public Information. These regulations set forth rules for the department regarding making requested materials, information, and records publicly available under the FOIA. Applications submitted in response to this funding opportunity may be subject to requests for release under FOIA. If an application contains information or data that the applicant deems to be confidential commercial information that should be exempt from disclosure under FOIA, that information should be identified, bracketed, and marked as Privileged, Confidential, Commercial, or Financial Information. In accordance with 15 CFR § 4.9, the Department of Commerce will protect from disclosure confidential business information contained in financial assistance applications and other documentation provided by applicants to the extent permitted by law.

22.Right to use information

The applicant acknowledges and understands that information and data contained in applications for financial assistance, as well as information and data contained in financial, performance and other reports submitted by applicants, may be used by the DOC in conducting reviews and evaluations of its financial assistance programs.

For this purpose, applicant information and data may be accessed, reviewed and evaluated by Department of Commerce employees, other federal employees, and also by federal agents and contractors, and/or by non-federal personnel, all of whom enter into appropriate conflict of interest and confidentiality agreements covering the use of such information.

As may be provided in the terms and conditions of a specific financial assistance award, applicants are expected to support program reviews and evaluations by submitting required financial and performance information and data in an accurate and timely manner, and by cooperating with Department of Commerce and external program evaluators. In accordance with 2 CFR § 200.303(e), applicants are reminded that they must take reasonable measures to safeguard protected personally identifiable information and other confidential or sensitive personal or business information created or obtained in connection with a Department of Commerce financial assistance award.

23.General terms and conditions

Recipients of all non-construction EDA awards will be bound by the DOC GT&Cs applicable on the date of the award. The DOC GT&Cs may be accessed at the following website: https://www.commerce.gov/oam/policy/financial-assistance-policy.

Recipients of an RLF award will be bound by the DOC GT&Cs and the EDA RLF GT&Cs. The RLF GT&Cs may be accessed at under the header "RLF Award Conditions."

Recipients of an EDA construction award will be bound by EDA's Construction GT&Cs. The Construction GT&Cs may be accessed under the header "Key Rules and Laws."

Recipients of DOC financial assistance are obligated to comply with Title VI of the Civil Rights Act of 1964, which prohibits discrimination on the basis of race, color or national origin, and section 504 of the Rehabilitation Act of 1973, which prohibits discrimination against people with disabilities, in federally assisted programs or activities.

24.Government Performance and Results Act

EDA will require additional data on activities, outputs, and actual impact of the funded investment, in part to fulfill the requirements of the Government Performance and Results Act (GPRA). EDA anticipates that recipients will be expected to track their engagement activities within the scope of work, with project beneficiaries, and other project stakeholders. EDA further anticipates recipients will be expected to collect data, using surveys of beneficiaries or clients if necessary, on the outputs, outcomes, and impacts of project activities, such as jobs created/retained, private investment attracted, the number of strategic plans or economic development tools developed, the number of new business partnerships formed, or the range of new capabilities acquired. EDA plans to collect this information using Forms ED-915 (Public Works, Economic Adjustment Infrastructure and Revolving Loan Fund Investments), ED-916 (Semi-annual Program Outputs Questionnaire for EDA grantees), ED-917 (Annual Capacity Outcomes Questionnaire for EDA Grantees serving clients), and ED-918 (Annual Capacity Outcomes Questionnaire for EDA Grantees). For more information, please refer to

https://www.eda.gov/performance/gpra. EDA may also engage with leading research institutions to perform third-party program evaluations, which will require cooperation between the grantee, organizations within their service area, and the evaluating institution.

25.Incubators and accelerators requirements

In addition to the required forms listed above in section D.2, applications for a business technology, or other type of incubator or accelerator, must also include the following:

1. **One Feasibility Study** establishing the market demand for the specific start-up companies proposed for incubation (technology, general business, bio-tech, manufacturing, etc.) and the presence of necessary resources and community support.
2. **Financial Capacity Documentation** with detailed demonstration that the applicant has the financial capacity to operate the facility (if applicable) and reach a positive cash flow within a reasonable period of time, which EDA generally expects to be three years
3. **One Management Plan** for operation that, at a minimum, includes a/an:
   - **tenant/client selection policy** that includes a description of the types of businesses sought and any established selection criteria;
   - **tenant lease or license agreement (if applicable)** that enumerates the shared services to be provided; delineates the business assistance policy, including the provision of management, technical, and training assistance, and the graduation policy; and establishes periodic access to the tenant's business records to permit assessment of the financial and operational viability of the tenant's business;
   - **business assistance policy** that outlines the various types of assistance that will be provided to start-up firms, including how support will be provided to tenants/clients with access to capital needed to grow their businesses successfully;
   - **staffing plan** that details the talent and resources that will be dedicated to supporting the startup companies accepted;
   - **tenant graduation policy** that is documented as a provision of the tenant lease or license agreement (if applicable) with clear requirements for tenant graduation from the facility or services; and
   - **performance plan** that includes how the entity will track the success of tenants/clients, specifically identifying what performance measurement data are proposed to be collected from tenants/clients and for what period of time during and after the service period the data will be collected. This should also include members of any oversight or policy board that will be responsible for setting performance goals, selecting or approving selections of staff, establishing and reviewing policy, and monitoring performance.

26.Office of Inspector General (OIG) rights and responsibilities

The DOC OIG seeks to improve the efficiency and effectiveness of the department's programs, including deterring and detecting fraud, waste, abuse and mismanagement. The OIG accomplishes this mission primarily through investigations, audits, and inspections of department activities, including grants, cooperative agreements, loans, and contracts.

a. Disclosures

Recipients of financial assistance originating from the U.S. Department of Commerce, including EDA, shall timely disclose, in writing, to the OIG and awarding agency, whenever, in connection with the award, performance, or closeout of this grant or sub-award thereunder, the recipient has credible evidence that a principal, employee, agent, or sub-recipient has committed:

(i) A violation of federal criminal law involving fraud, conflict of interest, bribery, or gratuity violations found in Title 18 of the United States Code; or

(ii) A violation of the civil False Claims Act (31 U.S.C. §§ 3729-3733).

b. Reporting

The OIG maintains a hotline to receive allegations of fraud, waste, or abuse. To report such allegations, please visit https://www.oig.doc.gov/Pages/Hotline.aspx. Upon request, the OIG will take appropriate measures to protect the identity of any individual who reports misconduct, as authorized by the Inspector General Act of 1978, as amended. Reports to the OIG may also be made anonymously.

c. Whistleblower Protection

Recipients, sub-recipients, and employees working on this grant award will be subject to the whistleblower rights and remedies established under 41 U.S.C. § 4712.

An employee of a recipient or sub-recipient may not be discharged, demoted, or otherwise discriminated against as a reprisal for disclosing information that the employee reasonably believes is evidence of: gross mismanagement of a federal contract or award; a gross waste of federal funds; an abuse of authority (i.e., an arbitrary and capricious exercise of authority that is inconsistent with the mission of NTIA or the U.S. Department of Commerce or the successful performance of a contract or grant awarded by NTIA or the Department) relating to a federal contract or award; a substantial and specific danger to public health or safety; or a violation of a law, rule, or regulation related to a federal contract (including the competition for or negotiation of a contract) or grant.

The recipient or sub-recipient shall inform its employees and contractors, in writing, in the predominant language of the workforce or organization, of employee whistleblower rights and protections under 41 U.S.C. § 4712, as described above and at https://www.oig.doc.gov/whistleblower/protection-program/.

27.SPOC Compliance

Applications submitted under this funding opportunity are subject to the requirements of Executive Order (EO) 12372, "Intergovernmental Review of Federal Programs," if a state has adopted a process under EO 12372 to review and coordinate proposed federal financial assistance and direct federal development (commonly referred to as the "single point of contact review process"). All applicants must give states and local governments a reasonable opportunity to review and comment on the proposed project, including review and comment from area-wide planning organizations in metropolitan areas. To find out more about a state's process under EO 12372, applicants may contact their state's single point of contact (SPOC). Names and addresses of some States' SPOCs can be found at https://www.ojp.gov/IntergovernmentalReviewSPOCList.pdf. Question 19 of Form SF-424 allows applicants to demonstrate compliance with EO 12372.

An applicant seeking funding for a construction or RLF grant that is not a state, Indian tribe, or general purpose local governmental authority must afford the appropriate general purpose local governmental authority in the project region a minimum of 15 days to review and comment on the proposed project and provide with its application a statement of its efforts to seek comments and either (i) a copy of the comments received and a statement of any actions to address those comments or (ii) a statement that no comments were received.

See section D.2 of this funding opportunity for instructions on how to comply with this requirement.

28.Third party subrecipient vs. contractors

If a project requires or anticipates the payment of federal funds to third parties (such as partners, consultants, vendors, and/or service providers), it is the applicant's responsibility to determine whether a third party should be characterized as a subrecipient or a contractor. The characterization must be reflected in the terms of each agreement made with each third party. (See 2 CFR § 200.1 for definitions of contract, contractor, subaward, and subrecipient; see also 2 CFR § 200.331, Subrecipient and contractor determinations.)

All subawards must receive EDA prior approval. If selected for award, and before initial disbursement of any funds by EDA for any costs incurred by a subrecipient, EDA may request documentation demonstrating that the subrecipient is an entity eligible to receive EDA assistance.

29.Uniform Administrative Requirements, Cost Principles and Audit Requirements

Recipients of an EDA award will be bound by the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) as set forth in 2 CFR part 200.

30.DOC pre-award notification requirements

DOC will apply the pre-award notification requirements for grants and cooperative agreements effective December 26, 2014, 79 Fed. Reg. 78,390. The pre-award notice may be accessed at the Government Printing Office (GPO) website.

31.Termination

In accordance with 2 CFR § 200.340(a), this Federal award may be terminated in part or in its entirety as follows:

a. By DOC or the pass-through entity if the recipient or subrecipient fails to comply with the terms and conditions of this Federal award;

b. By DOC or the pass-through entity with the consent of the recipient or subrecipient, in which case the two parties must agree upon the termination conditions. These conditions include the effective date and, in the case of partial termination, the portion to be terminated;

c. By the recipient or subrecipient upon sending DOC or the pass-through entity a written notification of the reasons for termination, the effective date, and, in the case of partial termination, the portion to be terminated. If DOC or the pass-through entity determines that the remaining portion of this Federal award will not accomplish the purposes for which this Federal award was made, DOC or the pass-through entity may terminate this Federal award in its entirety.

d. By DOC or the pass-through entity to the extent authorized by law, if the award no longer effectuates the program goals or agency priorities.

Economic Impact Analysis

Brooksville–Tampa Bay Regional Airport (BKV) Critical Infrastructure Construction

Prepared by the Tampa Bay Regional Planning Council – August 2025

EXECUTIVE SUMMARY

At the request of Hernando County, the Tampa Bay Regional Planning Council (TBRPC) analyzed the economic impact of rehabilitating a deactivated runway and constructing supporting infield infrastructure at the Brooksville-Tampa Bay Regional Airport (BKV). Using the Impact Analysis for Planning (IMPLAN) model for the Tampa Bay region, the analysis compares:

- **Event 1 – Construction (2026-2027):** $14.1 million in public investment to rehabilitate a deactivated runway and build supporting infield infrastructure.
- **Event 2 – Tenant Expansions (2028):** $73 million in confirmed private investment by Pem Air and Judah1 associated with post-construction expansion.

Both events generate substantial near-term economic activity in Hernando County and the surrounding region through direct (on-site/tenant), indirect (supply chain), and induced (household spending) effects. Estimated public-sector tax effects span federal, state, county, and sub-county levels.

Table 1. Summary of Total Economic Impact Estimates

Investment	Economic Output	Jobs Created	Labor Income	Tax Revenue	GDP Contribution
Event 1	19.7	108	5.3	2.2	9.0
Event 2	134.9	1,101	77.9	23.2	88.2
Total	**154.6**	**1,209**	**83.2**	**25.4**	**97.2**

(All $ in millions; jobs are individuals; fixed dollars.)

Table 2. Public-Sector Tax Effects by Level

Investment	Federal	State	County	Sub-County	Total
Event 1	1.43	0.37	0.17	0.23	2.20
Event 2	19.02	2.01	0.95	1.25	23.23

(All $ in millions; fixed dollars.)

The results provide a baseline for measuring actual impacts over time and a framework for assessing similar projects in the future. The analysis is intended to inform planning and investment decisions and does not represent recommendations or policy positions of the TBRPC.

PROJECT OVERVIEW

The $14.1 million in construction funds will rehabilitate 336,000 square feet of a deactivated runway at the Brooksville–Tampa Bay Regional Airport (BKV). The project also includes construction of access roads, installation of infield utilities (water and sewer), site clearing, and development of stormwater management facilities (lift station and retention ponds). Collectively, these improvements will expand available industrial space by approximately 780 acres and support increased airport operations.

After completion of the runway rehabilitation project, Hernando County anticipates growth in existing tenant capacities as well as the attraction of new industries. The County received written statements from two tenants, Pem Air and Judah1, committing $65 million and $8 million respectively to expand operations.

This analysis quantifies the output, employment, labor income, GDP contribution, and tax effects associated with the runway rehabilitation project and anticipated private tenant investments.

METHODOLOGY

Model: IMPLAN is an economic modeling software that uses input-output (I-O) analysis to measure the economic ripple effects of a change in a specific industry or activity within a defined geographic area. I-O analysis tracks the monetary transactions between different industries, businesses, householders, and governments in each region. The IMPLAN model accounts for leakage (non-local spending, e.g., materials sourced outside county limits)

Industries modeled (based on project scope and anticipated tenant activities):

- Maintenance and repair construction of non-residential structure
- Construction of new highways and streets
- Water, sewage and other systems
- Support activities for transportation

Data inputs (provided by Hernando County and the BKV Regional Airport):

- Total construction cost
- Line-item construction costs
- Construction timeline
- Number of construction workers
- Total construction payroll
- Percentage of locally sourced construction materials
- Private investment

www.tbrpc.org

Key metrics (definitions):

- **Direct Effects:** Investment changes or production expenditures made by producers and consumers because of an activity. The immediate, initial change in the local economy.
- **Economic Output:** Total market value of final goods and services produced locally
- **Indirect Effects:** Regional economic effects stemming from business-to-business purchases in the supply chain.
- **Induced Effects:** Regional economic effects stemming from household spending of labor income, after removal of taxes, savings, and commuter income.
- **Induced Employment:** Jobs supported by industry expansion and increased airport operations within the regional economy
- **Labor Income:** Wages, salaries, and benefits received by workers
- **Leakage:** Portion of spending directed toward non-local providers or goods
- **Value Added:** Combined value of employee compensation, proprietor income, property income, and taxes on production and imports of net subsidies

APPENDIX

Table A1. Event 1 – Construction Impacts (2027)

Activity	Investment (Fixed $, millions)	Jobs (Individual)	Labor Income (Fixed $, millions)	Output (Fixed $, millions)	Value Added (Fixed $, millions)
Taxiway	7.0	37	1.7	7.0	2.9
Water/Sewer Utilities	1.6	7	0.5	1.6	0.8
Roadways*	5.5	34	1.6	5.6	2.6
Direct Impacts	**14.1**	**78**	**3.8**	**14.2**	**6.3**
Indirect Impacts	—	18	0.9	3.4	1.6
Induced Impacts	—	12	0.6	2.1	1.3
Total Impacts	**14.1**	**108**	**5.3**	**19.7**	**9.2**

(All $ in millions; jobs are individuals; fixed dollars; totals may not sum due to rounding.)

*Roadways include stormwater management facilities and site clearing.

Note: Based on $14.1 million in anticipated construction costs, the model estimates 108 total jobs across direct (on-site construction), indirect (supply chain), and induced (household spending) effects, with $19.7 million in annual economic output and $9.22 million in value added (fixed dollars).

ED-900B – Beneficiary Information Form

Please note: in order to be complete, this form must be signed and dated in two places, following section D and section E.

By signing this form, the beneficiary is providing an estimate of jobs and private investment that are projected as a result if the project is funded and is not a legal assurance. While the ED-900B does not create a repayment obligation if the estimates are not achieved, EDA expects the form to represent a good-faith estimate of projected impact as a result of the proposed investment. EDA carefully reviews project impacts from the ED-900B against publicly available data to gauge the reasonableness of estimates provided based on project type, geography and past work and estimates and information reported erroneously can impact the competitiveness of applications.

A. General Information

A.1. Proposed EDA Project Title: Brooksville-Tampa Bay Regional Airport Critical Infrastructure Construction Project

Lead Applicant: Hernando County Board of County Commissioners

EDA provides competitive grant assistance to eligible public entities to support the construction of public infrastructure that helps create the competitive environment where companies can create and retain jobs and invest private capital.

This form must be completed by an authorized or corporate representative of the identified beneficiary organization whose position reflects the authority required to make these assurances (such as the authority to hire employees). Legal authorization for a corporate official may be specified in the Corporation's or LLC's formation documentation, bylaws, or similar document and under the laws governing the Virgin Islands, American Samoa, Guam and the Commonwealth of the Northern Marianas Islands. In the case of an individual executing this form as a sole proprietor or private owner, the sole proprietor's or owner's role and position must be indicated. For other circumstances, please contact your Regional Office.

A.2. Beneficiary Organization Name: PEM-AIR TURBINE ENGINE SERVICES LLC

A.3. Beneficiary Organization Address:

Street 1: 15741 Technology Drive

Street 2:

City: Brooksville

County:

State: Florida

Province:

Country: USA: UNITED STATES

Zip/Postal Code: 34604

A.4. Is the company Foreign owned or a US subsidiary of a Foreign owned company?

☐ Yes ☑ No

A.5. List the NAICS code for the beneficiary industry. NAICS codes can be identified at https://www.census.gov/naics/.

336412

B. Products or Services

Briefly describe the products or services your business produces or sells, and if any of these products or services are exported out of the country.

FAA and EASA-certified repair station offering full-service jet engine MRO (Maintenance, Repair & Overhaul) for turbine engines

C. Estimated Impact of the EDA Investment

C.1. Complete the table below to specify the number of long-term, full time direct jobs and private investment that are estimated to be realized as a result of the proposed EDA investment. For the purposes of completing the table in this section:

- Jobs created should be a direct result of this project. For example, a water or sewer project that will service a firm and allow the firm to grow its capacity and hire 60 full-time workers. In this example, 60 would be entered in the table under jobs created.
- Jobs saved means that without this project the jobs listed would be lost. For example, a company is experiencing adverse production impacts due to ongoing disruptions to its wastewater system. If the disruptions continue, it could jeopardize the company's ability to continue operating at the location and risks 40 jobs being lost. If the proposed project would address the disruption and allow the plant to continue operating at the proposed site, then those 40 jobs would be identified as jobs saved. Please note, the current number of employees of a beneficiary should not be included as jobs saved unless there is a confirmed threat that the jobs would be lost (i.e., the company would move or close) if the project were not undertaken.
- Only long-term, full-time direct jobs should be listed in the table. Part-time jobs should be converted to full-time equivalents (sum the total part-time hours worked per week and divide by the hourly work week for full-time employees, normally 35-40 hours).
- Private Investment means the total private sector capital investment made because of the EDA investment, including investments in new plant and equipment. Do not report private sector contributions to project construction or loan fund capitalization reported above in this section.

Jobs Created	Jobs Saved	Private Investment
50	n/a	Up to $65 million

C.2. Identify the basis for the estimated number of jobs that will be created or saved for your organization.

The resurfacing project will allow the Company to further invest in infrastructure (e.g., tear down facility) and increase staffing to support new revenue opportunities.

C.3. Describe the type of private investment likely to be generated.

Private investment will be driven by the operating company investing in facilities and expanding its operating footprint at the airport.

C.4. Describe the timeframe associated with the jobs and private investment identified in the table above:

Timeframe and investment would be over the course of the next 24 - 60 months

C.5. Briefly explain any other ways that this project will benefit your business or organization.

As an MRO, the runway would allow for easier aircraft access to our facilities and provide the opportunity for anciliary services that require teh aircraft to be onsite

D. Provision of Data on the EDA Investment

The Economic Development Administration (EDA) tracks job and private investment resulting from its awards. If this application results in an award, each beneficiary must provide to the successful recipient job and private investment results up to 9 years after the EDA grant award in order to assist the grantee with fulfilling these reporting requirements.

☒ Check box to indicate that your company intends to provide the recipient with information on jobs and private investment generated as a result of the EDA project.

E. Assurances by Beneficiary that is an "Other Party"

An authorized or corporate representative of any beneficiary that is considered an "Other Party" as defined below, must also sign to show that the beneficiary intends to comply with the U.S. Department of Commerce (DOC) and EDA regulations described below.

As defined at 13 C.F.R. § 302.20(b)(1), an "Other Party" is an entity that intends to create or save **15 or more permanent jobs** as a result of this EDA-supported project and is specifically named in the application as benefiting from the project or will be located in a building; port; facility; or industrial, commercial, or business park constructed or improved in whole or in part with EDA investment assistance prior to EDA's final disbursement of funds.

By submitting these assurances, the Other Party certifies that it will comply with the following requirements:

- Section 601 of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d et seq.), and the DOC's implementing regulations at 15 C.F.R. part 8, which proscribe discrimination on the basis of race, color, or national origin.
- 42 U.S.C. 3123, 42 U.S.C. 6709, and the DOC's regulations at 15 C.F.R. part 8a, which proscribe discrimination on the basis of sex.
- Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794), and the DOC's implementing regulations at 15 C.F.R. part 8b, which proscribe discrimination on the basis of disabilities.
- The Age Discrimination Act of 1975, as amended (42 U.S.C. 6101 et seq.), and the DOC's implementing regulations at 15 C.F.R. part 20, which proscribe discrimination on the basis of age.

Washington, DC 20230

Acting Assistant Secretary Page:
RE: EDA-APP# 00014054

This letter serves as formal confirmation that matching share funds in the amount of $3,400,000 are committed to the Brooksville – Tampa Bay Regional Airport Critical Infrastructure Construction Project. These funds will be available as needed and are not encumbered in any way that would prevent them from being used to pay project expenses.

Funding is available in the amount of $1,600,000 from Board of County Commissioner Funds and remain available for the duration of the project. The remainder of the match, $1,800,000 from the FY 24 State of Florida Department of Transportation Aviation Grant Program

It is the intention of the Hernando County Board of County Commissioners to continue to seek state grant funding to offset the matching funds when available and appropriate.

Thank you,

_____

Brian Hawkins, Chairman
Hernando County Board of County Commissioners

Introduction

A desktop analysis for the Brooksville-Tampa Bay Regional Airport (BKV) Environmental Assessment, located in Hernando County, was conducted by Archaeological Consultants, Inc. (ACI) on behalf of Michael Baker International, Inc. This study, conducted as due diligence, included the identification and description of all known archaeological sites and historic resources located within or proximate to the property, as well as a discussion of potential archaeologically sensitive areas. Background research indicated that no archaeological sites have been recorded within the property, although four have been recorded within one mile, there is a low probability for aboriginal and historic archaeological sites based on the environmental setting and previous construction activities associated with the airport.

Historical/architectural background research revealed that no previously recorded historic resources are located within the proposed Direct Impact and Indirect Impact Area of Potential Effects (APE). Three previously recorded historic resources are located east of Broad Street, immediately adjacent to, but outside of the proposed APE. A review of the Hernando County Property Appraiser data and historic aerial photographs indicate that the circa (ca.) 1942 Brooksville Army Airfield, now known as the BKV, and associated runways are located within the proposed Direct Impact and Indirect Impact APE. The Airfield could be recorded within the Florida Master Site File (FMSF) as a Resource Group with two contributing resources – Runway 9-27 and Runway 3-21. No buildings or structures that are 50 years of age or older (constructed in 1971 or earlier) are located within the proposed APE; however, a field survey would be necessary for proper identification of historic resources within the proposed APE.

There is a low potential for archaeological sites, but a high potential for historic resources, as such, a Cultural Resource Assessment Survey (CRAS) may be required as part of the permitting process. The fieldwork should meet the requirements of Chapters 267, 373 and 872.05, *Florida Statutes* (*FS*), Florida's Coastal Management Program, and implementing state regulations, for possible effects on historic properties listed, or eligible for listing, in the National Register of Historic Places (NRHP), or otherwise of historical, architectural, or archaeological value, as well as the standards contained in Florida Division of Historical Resources' (FDHR) *Cultural Resource Management Standards and Operational Manual* (FDHR 2003). The report should meet the specifications set forth in Chapter 1A-46, *Florida Administrative Code* (*FAC*).

Location and Environmental Setting

The project area is in Sections 13-14 and 23-25 of Township 23 South, Range 18 East and Sections 18-19 and 30 of Township 23 South, Range 19 East (United States Geological Survey [USGS] Masaryktown 2013). It is located south of Springhill Drive between the Suncoast Parkway and US 41/SR 45 on lands within the existing airport (**Figures 1 and 2**). The project will involve the extension of Runway 9-27, reconfiguration of taxiways, and additional related improvements. **Figures 3 and 4** show the proposed improvements and the Areas of Direct and Indirect Potential Effects.

The airport sites at an elevation of 21 to 26 meters (m) (70-85 feet [ft]) above mean sea level. It lies within the Gulf Coastal Lowlands physiographic region (White 1970). The property is underlain by Harthorn Group limestone that is surficially evidenced by clayey sand (Florida Department of Environmental Protection [FDEP] 2001a, 2001b). Originally the area was covered with hardwood or longleaf pine and xerophytic oak forests (Davis 1980).

Figure 1. Location of the BKV, Hernando County.

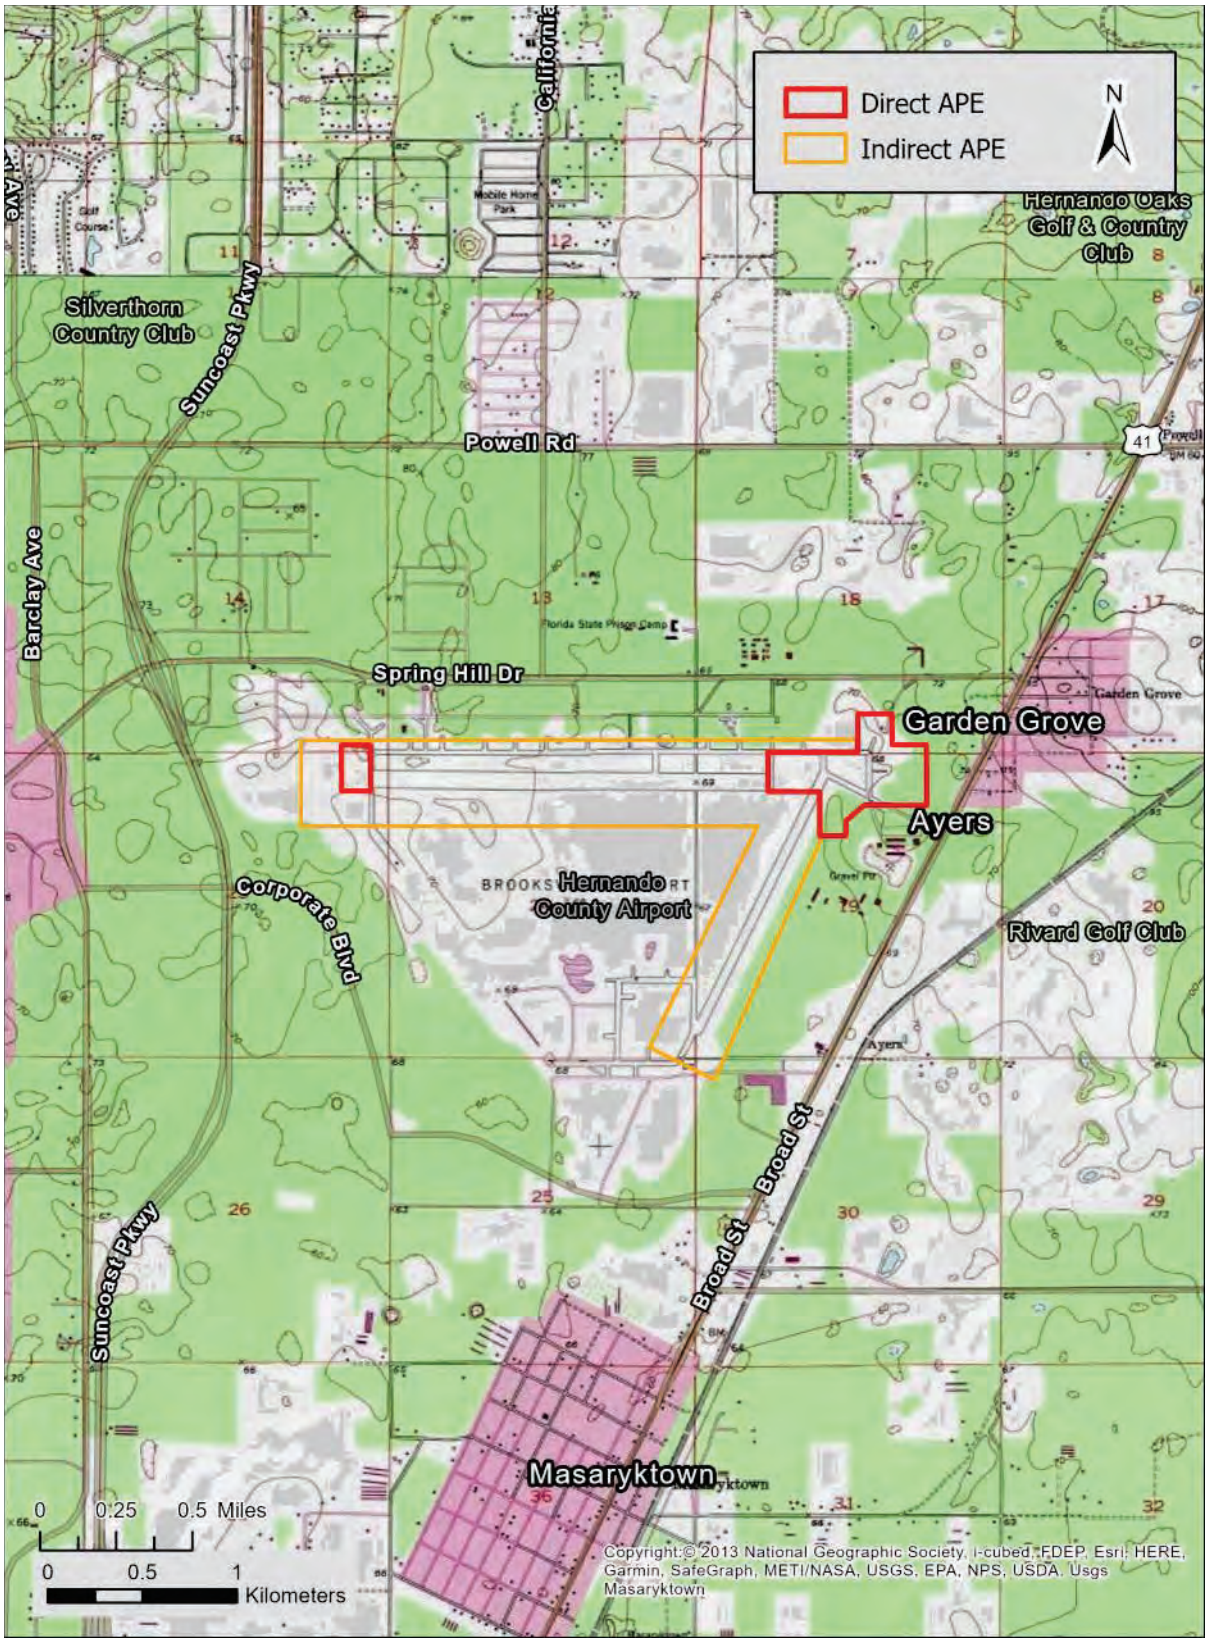

Figure 2. Environmental setting of the BKV.

Figure 3. Runway Extension.

Figure 4. Areas of Direct and Indirect Effects.

According to the U.S. Department of Agriculture (USDA), the airport is within the Candler-Tavares-Paola and Nobleton-Blichton-Flemington soil associations (Hyde et al. 1977). The former consists of nearly level to sloping, excessively and moderately well drained sandy soils that occur in broad, rolling sand hill areas interspersed with small ponds, wet swampy areas, and a few sinks. The natural vegetation consists of bluejack, post, and turkey oaks and scattered longleaf and slash pine with a sparse understory of native grasses and annual forbs. The Paola soils support sand pine, scrub live oak, scattered turkey and bluejack oak, with an understory of scattered sawpalmetto, creeping dodder, rosemary, cacti, mosses, and lichen. In the more poorly drained areas, the native vegetation is slash and longleaf pine, inkberry and oak with bay, gum, cypress, and water-tolerant grasses and sedges in the wet, swampy areas.

The Nobleton-Blichton-Flemington association consists of nearly level to strongly sloping, somewhat poor and poorly drained fine sandy loams to sands. These are made up of large to small areas of nearly level to strongly sloping soils on the uplands interspersed with sinkholes. The natural vegetation is slash, loblolly, and longleaf pine; laurel, live, and water oaks; and sweetgum, hickory, magnolia, dogwood, ironwood, and scattered red cedar. The understory includes wax myrtle, inkberry, American beautyberry, huckleberry, deer tongue, scattered sawpalmetto, and native grasses. **Table 1** provides a list of the soil types within the project location; their locations are depicted on **Figure 5** (Hyde et al. 1977; USDA 2018).

Table 1. Soil types within the project area.

Soil type, % slopes	Drainage	Setting
Candler fine sand, 0-5%	Excessive	Uplands
Kendrick fine sand, 0-5%	Well	Uplands
Masaryk very fine sand, 0-5%	Moderately well	Broad ridges
Nobleton fine sand, 0-5%	Somewhat poor	Uplands

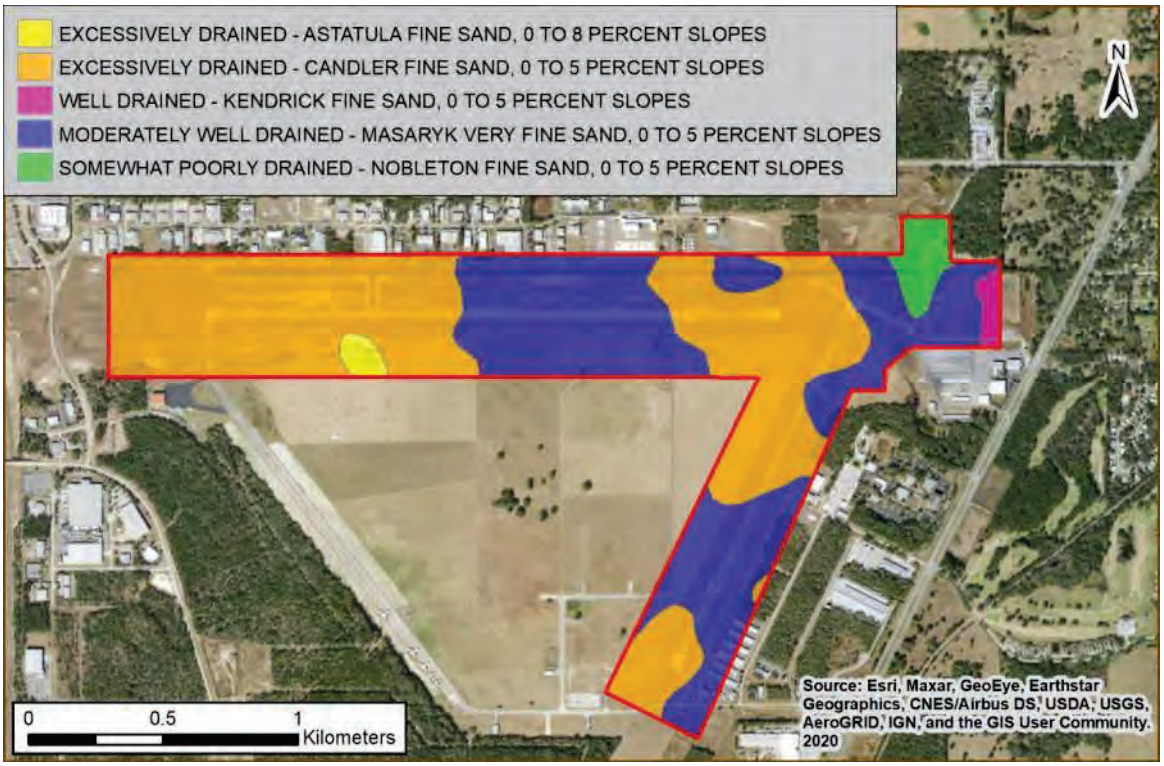

Figure 5. Soil type distribution.

The soils support different vegetative regimes, which in turn provide habitats for the local animal population, and thus provide essential food resources. However, the soils have variable suitability for openland, woodland, and wetland habitats. The habitat for openland wildlife consists of cropland, pasture, meadows, and areas that are overgrown with grasses, herbs, shrubs, and vines. These areas produce grain and seed crops, grasses, and legumes, and wild herbaceous plants. The wildlife attracted to these areas include bobwhite quail, dove, sparrow hawk, meadowlark, field sparrow, cottontail, and cattle egret. Candler, Kendrick, Masaryk, and Nobleton soils are rated fair for openland habitat. Woodland wildlife habitat includes area of deciduous plants or coniferous plants or both and associated grasses, legumes, and wild herbaceous plants. Wildlife attracted to these areas include turkey, towhee, woodpeckers, owls, squirrels, gray fox, racoon, and deer. Candler and Nobleton soils are rated fair for this habitat; Kendrick sand is well suited to woodlands. The habitat for wetland wildlife includes areas of open, marshy or swampy, shallow water areas. Wildlife in these areas include ducks, egrets, herons, kingfishers, alligators, and otters. Floridana sand is well suited to wetland habitats (Hyde et al. 1977: Table 13).

Background Research and Literature Review

A review of pertinent archaeological and historical literature, records, and other documents and data pertaining to the general area was conducted. The focus of this desktop analysis was to ascertain the types of cultural resources known in the project vicinity, as well as the potential for the occurrence of yet unrecorded resources. Research included a review of sites listed in the NRHP and the FMSF (July 2021 GIS update); an examination the Hernando County Property Appraiser's data; soil survey information; plat map, field notes, and tract book records; historic aerial photos on file with the Publication of Archival Library and Museum Materials (PALMM); regional prehistories, histories, and site location predictive models; and relevant CRAS reports and manuscripts.

Archaeological and Historical Considerations

The archaeological background research indicated that no archaeological sites are located within the project location; five are located within 1.6 kilometers (km) (1 mile [mi]) (**Table 2, Figure 6**). Most of the sites are lithic scatter that have been determined ineligible for listing in the NRHP. One lithic scatter and the historic town have not been evaluated by the State Historic Preservation Office (SHPO) in terms of NRHP eligibility. 8HE00287 (Rural) was recorded by the Hernando County Planning Department (HCPD) based on historic documentation and has had no archaeological investigations conducted. **Table 3** provides a list of the CRAS projects conducted near the airport. These have been conducted for transportation projects, developments, cell towers, National Guard armories, airport facilities, and for the development of the Hernando County Comprehensive Plan.

Table 2. Previously recorded sites proximate to the project location.

FMSF #	SITE NAME	SITE TYPE	CULTURE	REFERENCE	SHPO EVAL
8HE00027	Garden Grove	Lithic scatter/quarry	Archaic	(FMSF)	Not Evaluated
8HE00258	Holland Spring 1	Lithic scatter/quarry	Indeterminate	(Wharton 1990)	Ineligible
8HE00287	Rural	Historic town	1898-1916	(HCPD 1990)	Not Evaluated
8HE00430	Golf Ball Chase	Lithic scatter	Indeterminate	(ACI 2001)	Ineligible
8HE00438	Rivard	Lithic scatter	Indeterminate	(ACI 2001)	Ineligible

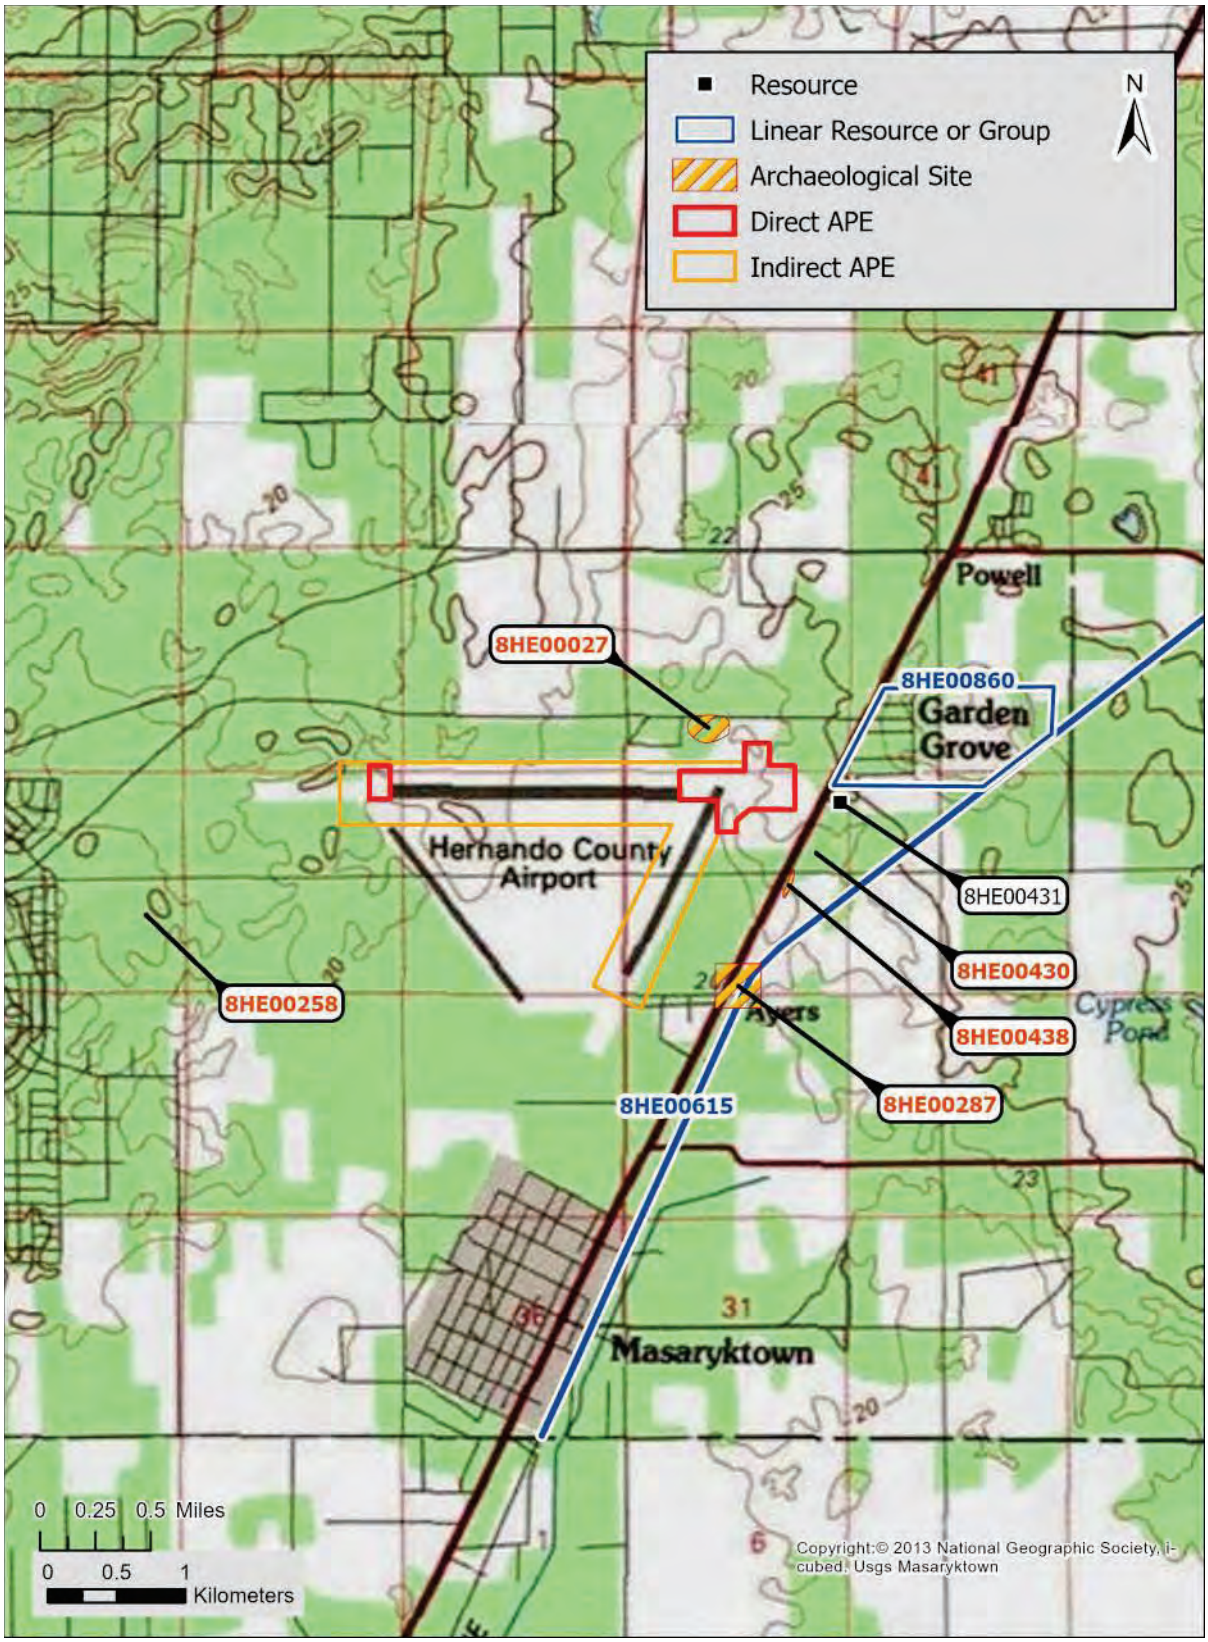

Figure 6. Location of the previously recorded cultural resources proximate to the project location.

Based on these data, and other regional site location predictive models and studies (e.g., Austin et al. 1991; Burger 1982; de Montmollin 1983; Deming 1980; Ellis et al. 1995; Ellis et al. 1998; Ellis et al. 1993; Horvath 1986; Janus Research 1992, 2004; Smith et al. 2008; Weisman and Collins 2004; Wharton 1990) informed expectations concerning the types of sites likely to occur within the project APE, as well as their probable environmental settings, was generated. As archaeologists have long realized, aboriginal populations did not select their habitation sites and activity areas in a random fashion. Rather, many environmental factors had a direct influence upon site location selection, including soil drainage, distance to water, topography, and proximity to resources. It should be noted that the settlement pattern noted below cannot be applied to sites of the Paleoindian and Early Archaic periods, which precede the onset of modern environmental conditions.

Table 3. CRAS projects conducted proximate to the airport.

Analysis of the April 2021 data for the 86 aboriginal archaeological sites, with known locations in the Gulf Coastal Lowlands physiographic region of Hernando County, was conducted. Historic archaeological sites and aboriginal archaeological sites that were plotted "per vague verbal description" were deleted from this analysis.

Proximity to water is often an important site location feature. Over 74% of the sites are located within 100 m (328 ft) of a water source, with another 14% of the sites within 200 m (656 ft) of water (**Table 4**). There are six sites within 300 m (956 ft) and another four that had a further water source. It is possible that smaller water sources may have been present during aboriginal times but were not identified based on the maps and soil types as identified today. Given the extraction of water through wells and drainage projects, prehistoric water sources may have been obscured. Wetlands and swamps account for almost half of the sites, with ponds/lakes following a distant second at 16%. Depressions and sinkholes, which or may not have served as water sources, each account for 14% of the sites. The remaining 8% of the sites are next to the Weeki Wachee River or an intermittent stream.

Table 4. Distribution of sites by water type and distance.

Type	≤100 m		≤200 m		≤300 m		>300 m		Total	
	Cnt	%	Cnt	%	Cnt	%			Cnt	%
Creek/river	5	5.8%	2	2.3%		0.0%		0.0%	7	8.1%
Depressions	6	7.0%	2	2.3%	2	2.3%	2	2.3%	12	14.0%
Pond/lake	12	14.0%	1	1.2%	1	1.2%		0.0%	14	16.3%
Sink	12	14.0%		0.0%		0.0%		0.0%	12	14.0%
Wetland/swamp	29	33.7%	7	8.1%	3	3.5%	2	2.3%	41	47.7%
Total	**64**	**74.4%**	**12**	**14.0%**	**6**	**7.0%**	**4**	**4.7%**	**86**	**100.0%**

Soil types and their drainage characteristics can also be used to assess the likelihood for aboriginal site occurrence (Almy 1978). However, it should be remembered that although we know what soils the sites fall on, we do not have a good handle on what percentage of the soils have been surveyed for archaeological sites. As more archaeological surveys are conducted, the model presented here can be refined. There are 43 soil types within the Gulf Coastal Lowlands portion of Hernando County; of which 24 have recorded archaeological sites (**Table 5**). Many of the sites occurred on more than one soil type. This analysis only includes the four types covering the greatest acreage for each site, which totaled 133 soil type occurrences. The column "1" indicates that this soil type had the greatest area of the site, and so on down the line, so that column "4" had the smallest site acreage.

Table 5. Distribution of sites by drainage and soil types.

DRAINAGE/Soil type, & slopes	% of Area	1	2	3	4	Total	% of Sites	Difference
EXCESSIVELY DRAINED

The excessively drained soils cover almost 61% of the area but have only 42% of the sites. The very poorly drained soils cover almost 13% of the area with 8% of the sites. The somewhat poorly drained soils cover 11% of the area and have 10% of the sites. Almost 16% of the sites occur on poorly

drained soils that cover only 6.5% of the area. There is also a somewhat high correlation of sites with the moderately well drained soils. These cover over 5% of the area and have almost 131% of the sites. Although the well drained soils cover just over 1% of the area, they account for 6% of the sites. The remaining 4.5% of the area is covered by water, has been excavated for pits, or are reworked soils (hydraquents, quartzipsamments, Udalfic arents); six sites were recorded in these areas.

However, there is variation in the preference/avoidance of certain soil types within the various drainage classes. Those soils that have a higher percentage of sites as compared to area (2% or greater) are marked in red on the table, while those that seem less likely to be used (-2% or less) are marked in blue. As might be expected, there is a preference for the better drained soils, but the excessively drained soils are used significantly less than one would expect based on the acreage. The Candler sands cover 58% of the area but account for only 35.4% of the sites. Those soils that have a negative correlation with sites are Candler fine sand, 0-5% and 5-8% slopes, Okeelanta-Terra Ceia association, and Nobleton fine sand, 0-5%. The preferred soils, in order of preference, are Tavares fine sand, 0-5%; Myakka-Myakka wet, fine sand, 0-2%; Paola fine sand, 0-8%; Kendrick fine sand, 0-5%; Micanopy loamy fine sand, 2-5%; and Basinger fine sand.

Based on the environmental setting, the project APE was considered to have a low probability for aboriginal archaeological site occurrence. Although Kendrick sand has a positive correlation with sites, there are no nearby water sources. No evidence was uncovered to suggest usage of the area prior to construction of the airport. In addition, had sites been present, they would have likely been destroyed by construction of the airport facilities.

A review of the 1848 plat maps of the area revealed no occupation in the area (Watson et al. 1848a; Watson et al. 1848b) (**Figure 7**). Township 23 South, Ranges 18 and 19 East were surveyed in the 1840s by Henry Washington, George Watson, R.W. Templeman, and R.W. Norris (Norris 1845; Templeman 1844; Washington 1843b, 1843a; Watson 1846-47). The land proximate to the project area were described as undulating 3rd and 2nd rate pine with black jack and turkey oak (Watson 1846-47:31-42, 113-148). The area was not purchased until the late-1800s when the lands within the project area were deeded to John J. Carter (1885), Charles D. Woodson (1885), M.B. Patchin and A.M. Millerd (1883) and William H. Hawk (1890) (State of Florida n.d.-a:259, 262, n.d.-b:185).

Historical/architectural background research revealed that no previously recorded historic resources are located within the proposed APE. Three previously recorded historic resources are located on the east side of Broad Street, immediately adjacent to, but outside of the proposed Direct Impact and Indirect Impact APE (**Figure 6**). These include the Garden Grove Historic District (8HE00860), linear resource, the Seaboard Air Line (SAL) Railway (8HE00615), and one Frame Vernacular style building (8HE00431). Of these, the SAL and Frame Vernacular style building were determined ineligible for listing in the NRHP by the SHPO. The Garden Grove Historic District is a typical subdivision platted in the 1920s and wasn't fully developed until the 1950s. According to FMSF, the district never achieved its original vision and does not retain historic integrity. The historic district has not been evaluated by the SHPO. Furthermore, remnants of the Brooksville Army Airfield Bunker are located 900-ft north of the proposed Indirect Impact APE near the intersection of Aviation Loop Drive and Sam Pearson Way. The resource has not been recorded in the FMSF.

By 1942, the Brooksville Army Airfield had been constructed as an operational training facility consisting of runways, taxiways, aprons, roads, utility systems, and about 150 buildings (BKV 2021) (**Figure 8**). It was used during World War II as an auxiliary airfield of MacDill Field and Drew Field for training pilots and ground crews. Operations at this field began in November 1942 with the arrival of the 1st Bomb Squadron. The 9th Bombardment Group used the airport for training on B-17 Flying Fortresses and B-24 Liberators. The Army Airfield remained active until late 1945, when the Army

determined the site was surplus. The War Assets Administration (WAA) sold or removed most of the improvements for off-site use. The WAA conveyed the acreage and remaining improvements to the City of Brooksville, which eventually transferred the property to the Hernando County Board of County Commissioners (BKV 2021).

A review of the Hernando County Property Appraiser data and historic aerial photographs indicate that the ca. 1942 Brooksville Army Airfield, now known as the BKV, and associated runways are located within the proposed Direct Impact and Indirect Impact APE. No buildings or structures that are 50 years of age or older (constructed in 1971 or earlier) are located within the proposed APE. The review of aerial photos revealed little change to the area between 1944 and 1957 (USDA 1944a, 1944b, 1951, 1957).

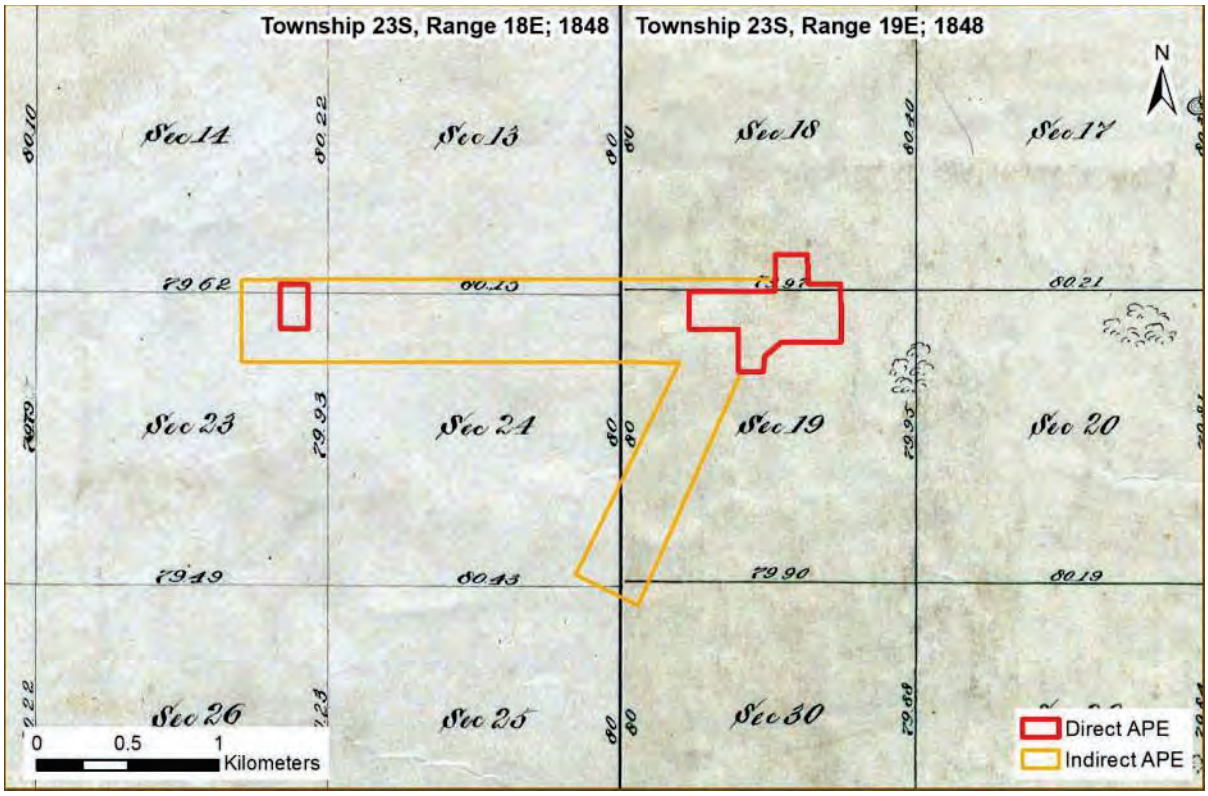

Figure 7. 1848 plats of the project area.

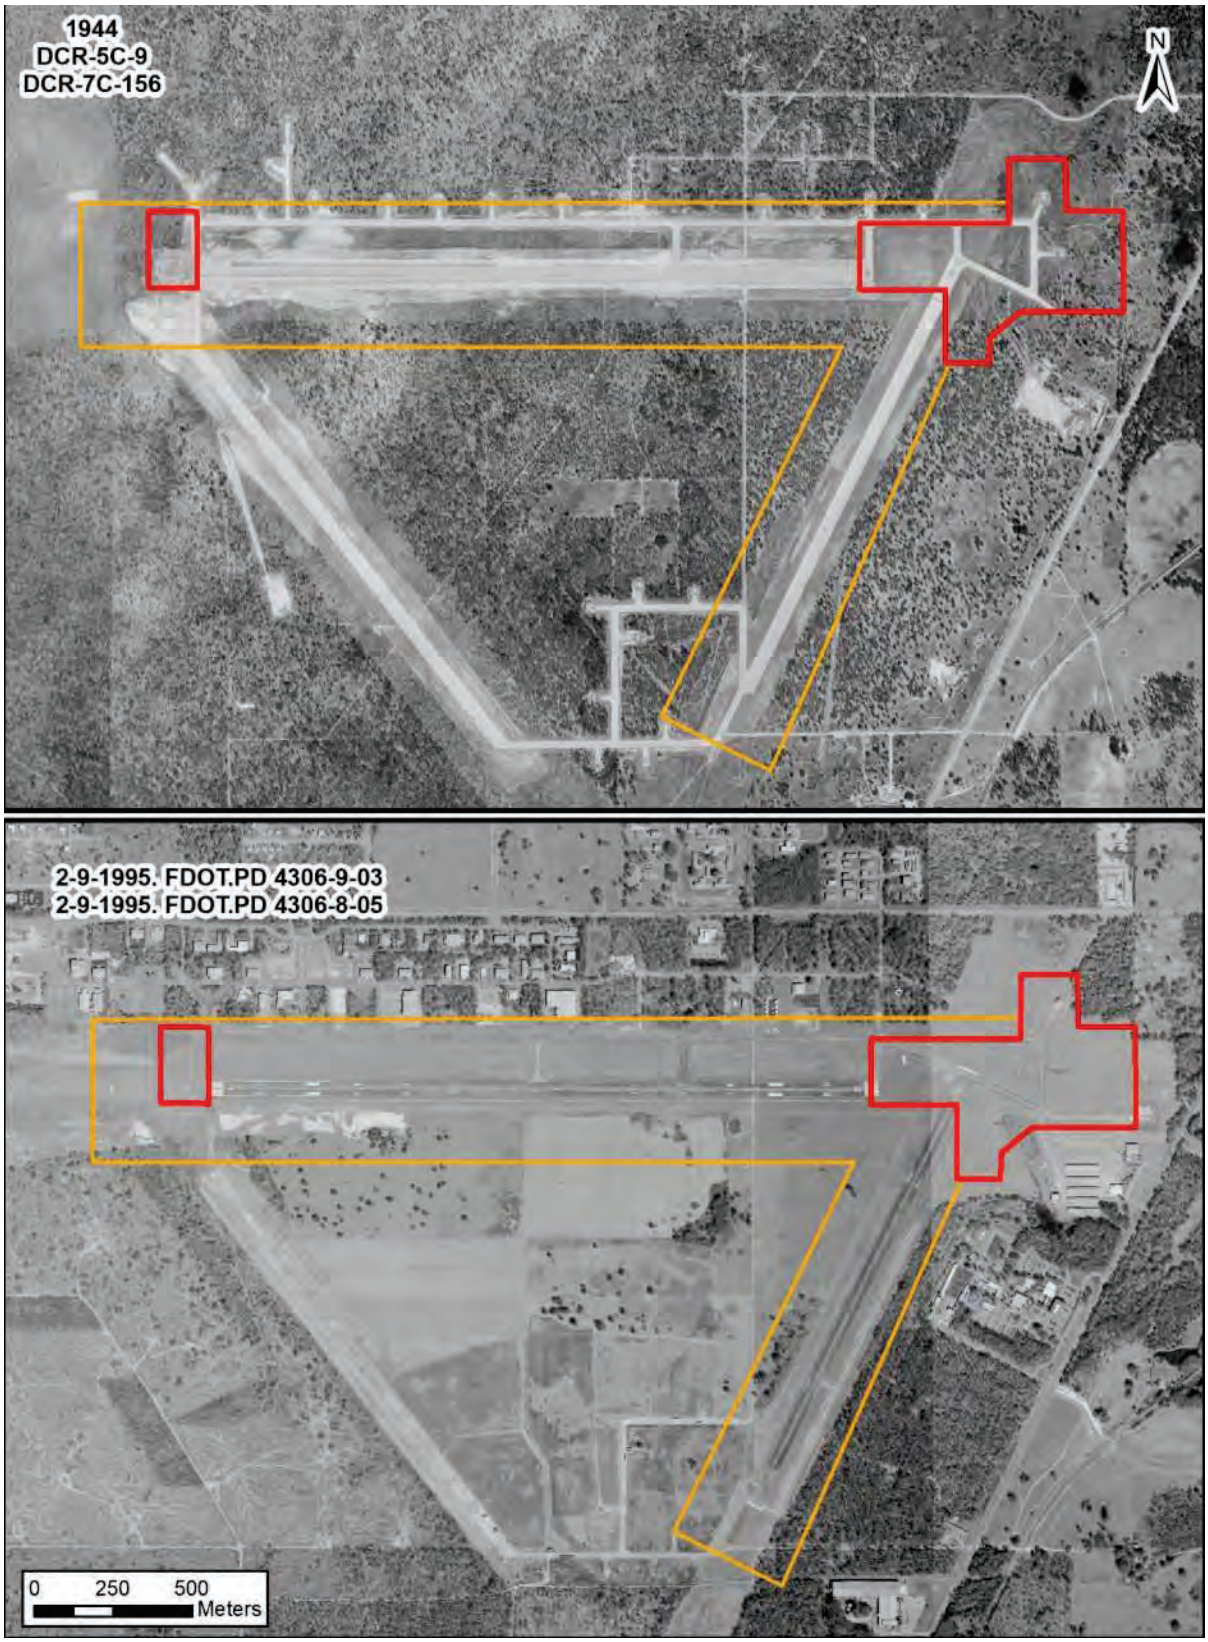

Figure 8. 1944 and 1995 aerial photos of the airport.

Conclusions

The background research revealed no recorded archaeological sites or historic resources within the project area. There is a low potential for intact aboriginal and historic archaeological sites, based on environmental conditions, historic land use patterns, and the extensive disturbance of the project area over time. It is ACI's professional opinion that no additional archaeological survey is needed. Historical/architectural background research revealed that no previously recorded historic resources are located within the proposed APE. The ca. 1942 Brooksville Army Airfield, now known as the BKV, and associated runways are located within the proposed APE. The Airfield could be recorded within the FMSF as a Resource Group with two contributing resources – Runway 9-27 and Runway 3-21. No buildings or structures that are 50 years of age or older (constructed in 1971 or earlier) are located within the proposed APE; however, a field survey would be necessary for proper identification of historic resources within the proposed APE.

A CRAS may be required during the permitting process to document historic cultural resources within the project area. The fieldwork should meet the requirements of Chapters 267, 373, and 872.05, *FS*, Florida's Coastal Management Program, and implementing state regulations, for possible effects on historic properties listed, or eligible for listing, in the NRHP, or otherwise of historical, architectural or archaeological value, as well as the standards contained in FDHR's *Cultural Resource Management Standards and Operational Manual* (FDHR 2003); the report should meet the specifications set forth in Chapter 1A-46, *FAC*.

TREE REMOVAL DOCUMENTED CATEGORICAL EXCLUSION

APPENDIX A. DOCUMENTED CATEX

Airport sponsors may use this form for projects eligible for a categorical exclusion (CATEX) that have greater potential for extraordinary circumstances or that otherwise require additional documentation, as described in the Environmental Orders (FAA Order 1050.1F and FAA Order 5050.4B).

To request a CATEX determination from the FAA, the sponsor should review potentially affected environmental resources, review the requirements of the applicable special purpose laws, and **consult with the Airports District Office or Regional Airports Division Office staff** about the type of information needed. The form and supporting documentation should be completed in accordance with the provisions of FAA Order 5050.4B, paragraph 302b, and submitted to the appropriate FAA Airpor5ts District/Division Office. The CATEX cannot be approved until all information/documentation is received and all requirements have been fulfilled.

Name of Airport, LOC ID, and location:

Brooksville-Tampa Bay Regional Airport (BKV), Brooksville, Florida

Project Title:

Land Clearing and Grading for Wildlife Hazard Mitigation

Give a brief, but complete description of the proposed project, including all project components, justification, estimated start date, and duration of the project. Include connected actions necessary to implement the proposed project (including but not limited to moving NAVAIDs, change in flight procedures, haul routes, new material or expanded material sources, staging or disposal areas). Attach a sketch or plan of the proposed project. Photos can also be helpful.

The project consists of tree clearing, grubbing, smooth grading, and hydroseeding of 115.4 acres at BKV to remove wildlife cover and foraging habitat thereby reducing wildlife attractants and hazardous wildlife to facilitate safe aircraft operations at BKV (Exhibit 1). This includes 114.8 acres of currently wooded land within the fenced airport operations area and an additional 0.6 acres of vegetated habitat that would be cleared adjacent to existing airport fencing to establish a clear maintenance and access corridor adjacent to the perimeter fence in the locations depicted on Exhibit 1. The project is estimated to start in Fall of 2023. It is anticipated that for hauling of vegetation debris offsite for disposal, the contractor would use a number of different haul routes. It is anticipated that the contractor would not have to cross runways or taxiways to do this work as there are existing gates, roads, and trails around the perimeter of the airfield that will facilitate access to the tree removal areas.

Give a brief, but complete, description of the proposed project area. Include any unique or natural features within or surrounding airport property.

The first component of the project area includes the 12 separate areas of upland mixed pine-hardwood and mixed hardwood forest that are within the BKV perimeter fence. Common tree cover species in these areas include slash pine, live oak, water oak, laurel oak, turkey oak, and red maple. These areas total approximately 114.8 acres in size.

The second component of the project area includes additional areas of tree removal that are included in the project to provide a 10 foot wide fence inspection and maintenance corridor adjacent to 5 fence segments total. These areas total 0.6 acres (Exhibit 1).

Areas of wetland occur between Tree Removal Areas 8 and 9 as well as within Tree Removal Area 10 (Exhibit 1). Impacts to these wetland areas will be avoided during the project and a minimum 15-foot wide (average 25-foot wide) wetland buffer will be observed during construction. A feature that appears to be a sinkhole is located within the wetland in Tree Removal Area 10. The project would not impact the sinkhole.

Identify the appropriate CATEX paragraph(s) from Order 1050.1F (paragraph 5-6.1 through 5-6.6) or 5050.4B (Tables 6-1 and 6-2) that apply to the project. Describe if the project differs in any way from the specific language of the CATEX or examples given as described in the Order.

5-6.4l - Federal financial assistance for, licensing or approval of the grading of land, the removal of obstructions to air navigation, or erosion control measures, provided those activities occur on and only affect airport property

5-6.4p - New gradeging landscaping, and/or maintenance of existing landscaping that does not cause or promote the introduction or spread of invasice species that would harm the native ecosytem.

The circumstances one must consider when documenting a CATEX are listed below along with each of the impact categories related to the circumstance. Use FAA Environmental Orders 1050.1F, 5050.4B, and the Desk Reference for Airports Actions, as well as other guidance documents to assist you in determining what information needs to be provided about these resource topics to address potential impacts. Keep in mind that both construction and operational impacts must be included. Indicate whether or not there would be any effects under the particular resource topic and, **if needed**, cite available references to support these conclusions. Additional analyses and inventories can be attached or cited as needed.

5-2.b(1) National Historic Preservation Act (NHPA) resources

	YES	NO
Are there historic/cultural resources listed (or eligible for listing) on the National Register of Historic Places located in the Area of Potential Effect? If yes, provide a record of the historic and/or cultural resources located therein and check with your local Airports Division/District Office to determine if a Section 106 finding is required. A Cultural Resources Assessment Survey (CRAS) was performed and no historic or cultural resources listed or recommended as eligible for listing on the National Register of Historic Places were found. A letter and a copy of the CRAS were provided to the Florida Department of State, Division of Historical Resources, Compliance Review Section (SHPO). The SHPO agreed with the findings of the CRAS. Please see the attached coordination from the SHPO.	☐	☒

	YES	NO
Does the project have the potential to cause effects? If yes, describe the nature and extent of the effects. Since no listed or recommended eligible for listing resources were found, the CRAS found that the project will not affect known historic properties or cultural resources. If previously undocumented resources are discovered during construction, activity would cease and the SHPO would be contacted for further guidance..	☐	☒
Is the project area undisturbed? If not, provide information on the prior disturbance (including type and depth of disturbance, if available) Portions of the area have been disturbed in the past due to the construction of the Brooksville Army Airfield in 1942 and subsequent disturbance for airport related use. Other areas have been subject to more limited disturbance for harvesting of trees or agricultural use historically.	☐	☒
Will the project impact tribal land or land of interest to tribes? If yes, describe the nature and extent of the effects and provide information on the tribe affected. Consultation with their THPO or a tribal representative along with the SHPO may be required. **A letter and a copy of the CRAS were provided to the five Native American Tribe entities with areas of interest that include the region of Florida within which the project is located. Two of the five responded (Exhibit 2). The Seminole Tribe of Florida indicated that they had no objections or other comments. The Muscogee (Creek) Nation indicated that they were not aware of any sacred sites, burial grounds, or significant cultural resources located within the immediate tree removal areas and that they agreed with the findings of the CRAS and concurred that there should be no effects to any known historic properties. Both Tribes indicated that if inadvertent discoveries of cultural resources, human remains and related resources protected by the Native American Graves Protection and Repatriation Act were to occur during construction that all work should cease and their offices and other appropriate agencies should be notified. Please see attached correspondence with the Native American tribe entities.**	☐	☒

5-2.b(2) Department of Transportation Act Section 4(f) and 6(f) resources

	YES	NO
Are there any properties protected under Section 4(f) (as defined by FAA Order 1050.1F) in or near the project area? This includes publicly owned parks, recreation areas, and wildlife or waterfowl refuges of national, state or local significance or land from a historic site of national, state or local significance. No. The entire project is on existing airport property within the airfield perimeter fence. There are no Section 4(f) properties in the project area. Additionally, there are no section 4(f) lands near the project area. This was determined by reviewing, a number of resources including the following: • List of Hernando County parks and preserves; • List of City of Brooksville parks; • Hernando County GIS Zoning/Future Land Use interactive map; • Florida Conservation Lands GIS data layer, including National Parks, state forests, wildlife management areas, local preserves, and private preserves; • Cultural Resources Assessment Survey prepared for the project; • Letter of coordination from the Florida Department of State, Division of Historical Resources, State Historic Preservation Officer (SHPO); • National Register of Historic Places (NRHP) National Archives; • NRHP Spatial Data; and, • NRHP NPGallery Database. Based on a review of the above sources, there are no known Section 4(f) resources located within or in the vicinity of the Affected Environment. One golf course, the Rivard Golf Club is located on the east side of U.S. Route 41, southeast of the Runway 27 approach. However, although this golf course is open to the general public, it is not publicly owned and it is not operated and managed by a public agency, therefore it is does not qualify as a Section 4(f) resource. No impact to the Rivard Golf Club would occur as a result of the project.	☐	☒
Will project construction or operation physically or constructively "use" any Section 4(f) resource? If yes, describe the nature and extent of the use and/or impacts, and why there are no prudent and feasible alternatives. See 5050.4B Desk Reference Chapter 7. No, since there are no 4(f) resources within or in the vicinity of the project there will be no physical or constructive use of a 4(f) resource.	☐	☒

	YES	NO
Will the project affect any recreational or park land purchased with Section 6(f) Land and Water Conservation Funds? If so, please explain, if there will be impacts to those properties. No. All of the affected land is existing airport property. There are no recreational or park lands within or in the vicinity of the project.	☐	☒

5-2.b(3) Threatened or Endangered Species

	YES	NO
Are there any federal or state listed endangered, threatened, or candidate species or designated critical habitat in or near the project area? This includes species protected by individual statute, such as the Bald Eagle. Gopher tortoise burrows are found around the perimeter of each of the tree removal areas except for Area 9 (Exhibit 3). The gopher tortoise is listed as Threatened by the State of Florida. It is also possible that the eastern indigo snake, which is federally listed as Threatened, could utilize habitats that will be affected by the proposed project. No evidence of other federal or state listed species or candidate species was found in the project area during the field survey conducted for the project. Removal of the trees will be phased to flush out wildlife primarily mammals that are not threatened and endangered species and allow them to move out. Should an animal be found during tree removal activities, the animal would be relocated to the nearest forest outside of the airport limits or if injured would be transported to the nearest animal shelter.	☒	☐

	YES	NO
Does the project affect or have the potential to affect, directly or indirectly, any federal or state-listed, threatened, endangered or candidate species, or designated habitat under the Endangered Species Act? If yes, Section 7 consultation between the FAA and the US Fish & Wildlife Service, National Marine Fisheries Service, and/or the appropriate state agency will be necessary. Provide a description of the impacts and how impacts will be avoided, minimized, or mitigated. Provide the Biological Assessment and Biological Opinion, if required. A 100 percent gopher tortoise survey will have to be conducted by a permitted Authorized Gopher Tortoise Agent in all suitable habitat within the project limits. A gopher tortoise conservation permit will have to be obtained from the Florida Fish and Wildlife Conservation Commission. This would be initiated approximately 90 days prior to construction. Impacted burrows that cannot be avoided will be excavated under the conditions of the permit and the gopher tortoises that are captured will be relocated to a state-approved gopher tortoise recipient site per the conditions of the permit. Potential for impact to the eastern indigo snake will be minimized by requiring the contractor to implement the USFWS' Standard Protection Measures for the Eastern Indigo Snake throughout construction.	☒	☐

Does the project have the potential to take birds protected by the Migratory Bird Treaty Act? Describe steps to avoid, minimize, or mitigate impacts (such as timing windows determined in consultation with the US Fish & Wildlife Service). A list of migratory bird species of concern that may occur in the vicinity of the project was provided with the USFWS IPaC list that was generated for the project (Exhibit 4). This IPaC list included seven species from the USFWS' list of Birds of Conservation Concern (American kestrel, great blue heron, lesser yellowlegs, prairie warbler, red-headed woodpecker, short billed dowitcher, and swallow tailed kite) and an additional species, the bald eagle, which is protected under the Bald and Golden Eagle Protection Act. Of these species, five nest in forested areas (American kestrel, great blue heron, red-headed woodpecker, swallow tailed kite, and bald eagle). However, for the great blue heron, the swallow-tailed kite, and the bald eagle, nesting locations are typically found in forested areas near or within large areas of bottomland hardwood wetlands, on islands within bodies of water, within other various types of wetlands, or in large trees within short distances of bodies of water. Habitats within the proposed tree removal areas are unlikely to be used for nesting by these species because there are only two small areas of wetlands within the project and these areas would not be impacted. Additionally there are no large bodies of water in close proximity to BKV. Of the remaining two forest-nesting migratory bird species on the IPaC list, the red-headed woodpecker and the American kestrel have some potential to utilize the habitats within the tree removal areas for nesting. The kestrel breeding season is reported by the IPaC report as being from April through August. Based on data from BKV's 2014 to 2015 Wildlife Hazard Assessment (WHA), kestrel observations at BKV were lower from April through July and highest from October through March. This data indicates that there are at least some non-migratory kestrels that utilize BKV's airfield for foraging year-round. These kestrels are likely to nest somewhere near the airfield. The average number of individual kestrel observations per month during breeding season at BKV was approximately 7 individuals. It is very likely that some of these observations were duplicates because the observations were recorded across three survey periods per day for two days per month. So the population of non-migratory kestrels using the habitats at the airport that could potentially nest in forested areas on the airport is likely to be relatively low. No red-headed woodpeckers were observed during the WHA. Although it is possible that red-headed woodpeckers could utilize wooded habitats at BKV occasionally, this was not documented during the WHA. While the proposed action would remove potential nesting habitat for kestrels, red-headed woodpeckers, and other forest nesting migratory birds, there would be no intentional take of these species is anticipated with the project. Nesting habitat for forest nesting birds would be reduced but foraging habitat for birds that prefer to forage in open habitats (such as American kestrels) or nest in open habitats would be potentially increased. Approximately 22.96 acres (114.8 acres of forested habitat x 20%) of forested nesting habitat would be removed as a result of the proposed action.	☒	☐

	YES	NO
However, it should be noted that the reason for the project is to reduce available wildlife habitat for species that could present hazards to aircraft operations at BKV. While some incidental impact to migratory bird species, such as disturbance from equipment noise and presence of workers during tree removal activities, could occur as a result of the proposed project, reduction of wildlife populations in the habitats adjacent to the airfield is beneficial in this case because it would reduce the potential for wildlife collisions with aircraft at BKV. In addition, due to the available habitat outside the perimeter fence and the large amounts of similar habitat in the region containing the airport, these impacts would not be considered to be significant. Due to the fact that the project will likely take several months to complete, no modifications of construction schedules to avoid conducting activities during periods when higher numbers of birds may be nesting (such as spring and summer) is proposed at this time.		

5-2.b (4) Other Resources

Items to consider include:

a. Fish and Wildlife Coordination Act	**YES**	**NO**
Does the project area contain resources protected by the Fish and Wildlife Coordination Act? If yes, describe any impacts and steps taken to avoid, minimize, or mitigate impacts. No, the project does not impact any streams or other water bodies.	☐	☒
b. Wetlands and Other Waters of the U.S.	**YES**	**NO**
Are there any wetlands or other waters of the U.S. in or near the project area? There are two areas of wetlands within the project area. The first is a 0.6 acre wetland within Area 10, and the second is a 4.1 acre wetland located between Areas 8 and 9 (Exhibit 1). Both of these wetlands would be avoided and a minimum 15 foot and average 25 foot wide buffer around each of the wetlands would be marked with flagging tape and retained during construction.	☒	☐
Has wetland delineation been completed within the proposed project area? If yes, please provide U.S. Army Corps of Engineers (USACE) correspondence and jurisdictional determination. If delineation was not completed, was a field check done to confirm the presence/absence of wetlands or other waters of the U.S.? If no to both, please explain what methods were used to determine the presence/absence of wetlands. Wetland limits have been approximated through a combination of field reconnaissance and desktop evaluation. A field wetland delineation will be conducted approximately 60 days prior to the start of construction.	☐	☒
If wetlands are present, will the project result in impacts, directly or indirectly (including tree clearing)? Describe any steps taken to avoid, minimize or mitigate the impact. No. The contractor will be required to avoid all impacts to wetlands during construction. A wetland buffer averaging 25 feet wide with a minimum width of 15 feet will be observed.	☐	☒
Is a USACE Clean Water Act Section 404 permit required? If yes, does the project fall within the parameters of a general permit? If so, which general permit? No Section 404 permit will be required because there will be no wetland impact.	☐	☒

c. Floodplains	**YES**	**NO**
Will the project be located in, encroach upon or otherwise impact a floodplain? If yes, describe impacts and any agency coordination or public review completed including coordination with the local floodplain administrator. Attach the FEMA map if applicable and any documentation. The project area overlaps 8.77 acres of 100 year floodplains (Exhibit 5). However, since some of the area shown as floodplain in Area 10 is also wetland, and since all wetland impacts are being avoided, actual clearing and smooth grading within floodplains will be less than 8.77 acres. The floodplain impacts will consist of tree and vegetation removal, smooth grading, and establishment of turfgrass to allow mowing/maintenance. No fill is proposed, and due to removal of root material, net flood storage capacity is actually likely to increase slightly as a result of the project.	☒	☐
d. Coastal Resources	**YES**	**NO**
Will the project occur in or impact a coastal zone as defined by the State's Coastal Zone Management Plan? If yes, discuss the project's consistency with the State's CZMP. Attach the consistency determination if applicable. All of Florida is considered to be within the State's Coastal Zone. Based on coordination with the Southwest Florida Water Management District (SWFWMD), the project will require a Minor Modification Environmental Resource Permit application. The permit that would be modified is the permit for BKV's existing stormwater management system. In the state of Florida, coastal zone consistency is evaluated as part of the Environmental Resource Permit application process. Issuance of an Environmental Resource Permit constitutes a determination that the project is consistent with the State's CZMP. All of the project's impacts would be within the existing airport perimeter fence, on land that has already been dedicated for airport use. There would be no negative effects on beaches or shorelines, emergency evacuation routes, conservation or recreation lands, greenways or trails, historic resources, commercial development, water resources, energy resources, or other important coastal resources. It is anticipated that the project will be determined to be consistent with the state's CZMP.	☒	☐
Will the project occur in or impact the Coastal Barrier Resource System as defined by the US Fish and Wildlife Service? The project is located well inland and will have no impact on the Coastal Barrier Resource System.	☐	☒
e. National Marine Sanctuaries	**YES**	**NO**
Is a National Marine Sanctuary located in the project area? If yes, discuss the potential for the project to impact that resource.	☐	☒

No National Marine Sanctuary is located in the project area. The project is in an inland area in south central Hernando County.		
f. Wilderness Areas	**YES**	**NO**
Is a Wilderness Area located in the project area? If yes, discuss the potential for the project to impact that resource. There is no wilderness area within the project area.	☐	☒
g. Farmland	**YES**	**NO**
Is there prime, unique, state, or locally important farmland in/near the project area? Describe any significant impacts from the project. Based on a review of the USDA Natural Resources Conservation Web Soil Survey tool, there is no prime, unique, state important, or locally important farmland in the project area. Please refer to Exhibit 6.	☐	☒
Does the project include the acquisition and conversion of farmland? If farmland will be converted, describe coordination with the US Natural Resources Conservation and attach the completed Form AD-1006. The project will not result in conversion of farmland.	☐	☒

h. Energy Supply and Natural Resources	YES	NO
Will the project change energy requirements or use consumable natural resources either during construction or during operations? Energy, in the form of fuel for landclearing equipment, would be consumed during the construction phase of the project; however, this would be a short term effect that would not affect availability of energy resources in the region containing the project. After construction is complete, there would be a minor increase in annual energy consumption at BKV because the cleared areas would have to be mowed regularly during the growing season, and this would require increased use of fuel for the airport's mowing equipment. This increase in fuel usage would not be expected to have an effect on the availability of fuel in the region containing BKV. Consumable natural resources that would be affected by the project would include timber resources because existing tree cover would be removed from the wooded areas within the airport's perimeter fence. The winning contractor has the option of selecting suitable trees for timber and chipping or mulching trees that cannot be logged. Mulched/chipped materials would be transported to the nearest Hernando County solid waste facility.	☒	☐
Will the project change aircraft/vehicle traffic patterns that could alter fuel usage either during construction or operations? During the period of time that trees are being removed from the wooded areas south of the Runway 3 approach, it is likely that traffic would be diverted from Runway 3-21 to Runway 9-27. This would only be necessary during daytime hours while tree clearing is underway and construction vehicles would have potential to be driving in or near the approach RSA for Runway 3. This would not be anticipated to alter fuel usage. No changes in other vehicle traffic patterns would be required.	☐	☒
i. Wild and Scenic Rivers	**YES**	**NO**
Is there a river on the Nationwide Rivers Inventory, a designated river in the National System, or river under State jurisdiction (including study or eligible segments) near the project? The nearest designated wild and scenic river is the Wekiva River system, which is located over 60 miles east-northeast of the project.	☐	☒
Will the project directly or indirectly affect the river or an area within ¼ mile of its ordinary high water mark? No	☐	☒

j. Solid Waste Management	YES	NO
Does the project (either the construction activity or the completed, operational facility) have the potential to generate significant levels of solid waste? If so, discuss how these will be managed. The project will generate solid waste in the form of tree and vegetation debris that will be removed from the project area. However the amount of material that will be removed would not approach levels that would be considered significant, and depending on what the contractor decides to do with the material, some of it may be merchantable material that could be sold as pulpwood or sawtimber that would not contribute to solid waste. Material that is not useful as wood chips, mulch, pulp, or sawtimber would likely disposed of in a solid waste landfill that accepts vegetation debris.	☒	☐

5-2.b(5) Disruption of an Established Community

	YES	NO
Will the project disrupt a community, planned development or be inconsistent with plans or goals of the community? There will be no community disruption from the project, because it is completely contained within the existing airport.	☐	☒
Are residents or businesses being relocated as part of the project? No relocations will be required.	☐	☒

5-2.b(6) Environmental Justice

	YES	NO
Are there minority and/or low-income populations in/near the project area? The census block groups that surround the Airport include census tract (CT) 040302 block group (BG) 1, CT 040906 BG 2, CT 040908 BG 2, and CT 040911 BG 1. Five-year data from the United States Census Bureau's American Community Survey were reviewed for these four block groups and compared to the data for Hernando County and for the State of Florida as a whole. The socioeconomic characteristics of the people living in block groups considered are comparable to those living in Hernando County as a whole and the State of Florida. All four block groups have a higher median household income than that of Hernando County as whole. Only CT 40906 BG 2 has a median household income that is notably less (by approximately 5,700 dollars) than the median household income for the State of Florida. Median family income is less than both the county and the state for CT 40906 BG 2 and CT 40908 BG 2, but the percent of households with income below the poverty level is lower for all of the block groups evaluated than for Hernando County as a whole or the State of Florida. Based on the consideration of this data, it was concluded that none of the block groups in the study area contain environmental justice populations. Since the percent of households with income below the poverty level is lower than that of Hernando County as a whole and the State of Florida, none of these block groups would be considered to be low income populations. In addition, the percentage of minorities living in the four block groups considered ranges from seven to ten percent, which is lower than minority percentage for Hernando County as whole (11 percent) or the State of Florida (25 percent); therefore none of these block groups would be considered to be minority populations.	☐	☒
Will the project cause any disproportionately high and adverse impacts to minority and/or low-income populations? Attach census data if warranted. Since the project is completely contained within existing airport property and will not result in increased noise, light emissions, relocations, or traffic, it will have no disproportionate impact to minority or low-income populations.	☐	☒

5-2.b(7) Surface Transportation

	YES	NO
Will the project cause a significant increase in surface traffic congestion or cause a degradation of level of service provided? No. The project is completely contained within airport property and will not result in increased useage of the airport. It is strictly a safety project that is intended to decrease the usage of the habitat on the airport by wildlife that are attracted to forested habitats and that cause hazards to aircraft operations such as white-tailed deer.	☐	☒

	YES	NO
Will the project require a permanent road relocation or closure? If yes, describe the nature and extent of the relocation or closure and indicate if coordination with the agency responsible for the road and emergency services has occurred. No road relocations or closures are proposed.	☐	☒

5-2.b(8) Noise

	YES	NO
Will the project result in an increase in aircraft operations, nighttime operations, or change aircraft fleet mix? The project will not result in an increase operations or change in fleet mix.	☐	☒
Will the project cause a change in airfield configuration, runway use, or flight patterns either during construction or after the project is implemented? During removal of trees from the approach end of Runway 3, some traffic may be shifted temporarily to Runway 9-27 because construction haul routes may be within the RSA for the approach end of Runway 3. The contractor will provide the airport with a schedule concerning when the haul route near the approach end of Runway 3 will be needed so that Runway 3 can be closed and NOTAMs declaring the closure of Runway 3 can be issued. This would only be required during daylight hours when construction activities are taking place and construction vehicles are traveling to and from the site. Construction within the remaining tree removal and grading areas would not cause changes in runway use patterns.	☒	☐
Does the forecast exceed 90,000 annual propeller operations, 700 annual jet operations or 10 daily helicopter operations or a combination of the above? If yes, a noise analysis may be required if the project would result in a change in operations. This threshold is exceeded based on FAA TAF which states that GA and military aircraft operations total 90,840 for BKV, but the project will not result in a change in operations.	☒	☐
Has a noise analysis been conducted, including but not limited to generated noise contours, a specific point analysis, area equivalent method analysis, or other screening method. If yes, provide that documentation. A noise analysis is being developed for another ongoing NEPA evaluation for the proposed extension of Runway 27. That analysis is still in draft status and has not been finalized, but preliminary results indicate that the noise contours for both the existing condition and the proposed condition do not extend off of BKV property and there are no noise sensitive land uses and no residences within the 65 DNL contour for any of the years modeled (2019, 2025, and 2030).	☒	☐

	YES	NO
Could the project have a significant impact (DNL 1.5 dB or greater increase) on noise levels over noise sensitive areas within the 65+ DNL noise contour? No noise impacts are anticipated from the tree removal and grading project.	☐	☒

5-2.b(9) Air Quality

	YES	NO
Is the project located in a Clean Air Act non-attainment or maintenance area? No	☐	☒
If yes, is it listed as exempt, presumed to conform or will emissions (including construction emissions) from the project be below *de minimis* levels (provide the paragraph citation for the exemption or presumed to conform list below, if applicable) Is the project accounted for in the State Implementation Plan or specifically exempted? Attach documentation. N/A	☐	☒
Does the project have the potential to increase landside or airside capacity, including an increase of surface vehicles? No	☐	☒
Could the project impact air quality or violate local, State, Tribal or Federal air quality standards under the Clean Air Act Amendments of 1990 either during construction or operations? No. Minor emissions would occur due to operation of equipment during construction but this would not affect attainment status or result in violations of local, State, Tribal, or Federal air quality standards.	☐	☒

5-2.b (10) Water Quality

	YES	NO
Are there water resources within or near the project area? These include groundwater, surface water (lakes, rivers, etc.), sole source aquifers, and public water supply. If yes, provide a description of the resource, including the location (distance from project site, etc.). There are wetlands within two of the tree removal and grading areas, but these wetlands will not be disturbed and a 15 foot minimum/25 foot average width buffer will be retained around the wetland areas.	☒	☐

	YES	NO
Will the project impact any of the identified water resources either during construction or operations? Describe any steps that will be taken to protect water resources during and after construction. Impacts to water resources will be avoided during construction.	☐	☒
Will the project increase the amount or rate of stormwater runoff either during construction or during operations? Describe any steps that will be taken to ensure it will not impact water quality. It is possible that runoff may increase to a small extent temporarily during construction, but the existing stormwater management system at the airport would help to contain and treat any temporary increases in runoff that may occur. In other portions of the property the wooded areas are adjacent to large areas of maintained grass of the airfield that would help to slow runoff. All of the areas affected are within the Airport's closed drainage basin so any temporary increase in runoff during construction would be contained within airport property and would not affect other property owners. Much of the project site is nearly level and most of the soils are highly permeable sandy soils so it is anticipated that a large percentage of precipitation will simply percolate. During construction, sediment and erosion best management practices will be incorporated to reduce erosion and sedimentation. Once grading is complete bare ground will be seeded to help control runoff.	☒	☐
Does the project have the potential to violate federal, state, tribal or local water quality standards established under the Clean Water and Safe Drinking Water Acts? No. The project will not affect aquifers that are sources for local drinking water. During construction the project will utilize sediment and erosion control measures, will implement a construction stormwater pollution prevention plan, and will implement a spill prevention control and countermeasures plan to protect surface and groundwater quality.	☐	☒
Are any water quality related permits required? If yes, list the appropriate permits. An Environmental Resource Permit minor modification will be required so that the Southwest Florida Water Management System can review the projects effects and ensure that the Airport's existing stormwater management system will be able to continue to effectively treat airfield runoff once the project is constructed. No adverse effects are anticipated. In addition, the contractor will be required to obtain a National Pollutant Discharge Elimination System Construction Permit for a large construction site (larger than 5 acres in size).	☒	☐

5-2.b(11) Highly Controversial on Environmental Grounds

	YES	NO
Is the project highly controversial? The term "highly controversial" means a substantial dispute exists as to the size, nature, or effect of a proposed federal action. The effects of an action are considered highly controversial when reasonable disagreement exists over the project's risks of causing environmental harm. Mere opposition to a project is not sufficient to be considered highly controversial on environmental grounds. Opposition on environmental grounds by a federal, state, or local government agency or by a tribe or a substantial number of the persons affected by the action should be considered in determining whether or not reasonable disagreement exists regarding the effects of a proposed action. No since the project has no risk of resulting in notable environmental harm it would not be considered highly controversial. There are no unique habitats that would be impacted, wetland impacts are being avoided, and impacts to gopher tortoises, where unavoidable, will be mitigated by relocating affected tortoises to a state-approved recipient site.	☐	☒

5-2.b(12) Inconsistent with Federal, State, Tribal or Local Law

	YES	NO
Will the project be inconsistent with plans, goals, policy, zoning, or local controls that have been adopted for the area in which the airport is located? No. The areas within the project limits are already zoned as either Aviation Facilities or split zoned as Aviation Facilities/Planned Development Project (Corporate Park). The project area is within the "Airport Planned Development District" which was established for the utilization of BKV as a center for aviation and aviation related uses and industrial and business park uses. Removal of the trees within the perimeter fence does not conflict with any of these designations.	☐	☒
Is the project incompatible with surrounding land uses? No. The project would not result in any land use conflicts or incompatibilities. Most of the land surrounding the project is either already developed as aviation facilities, industrial use, or commercial use. The only residential use is east-northeast of BKV on the east side of US Route 41 and is effectively screened from the airport by existing vegetation that is not planned for removal as well as an area of existing agricultural land with scattered trees and shrubs that is used for cattle farming (Exhibit 6).	☐	☒

5-2 .b (13) Light Emissions, Visual Effects, and Hazardous Materials

a. Light Emissions and Visual Effects	YES	NO
Will the proposed project produce light emission impacts? No. Tree removal will result in less visual screening between the airport and some surrounding properties, but these surrounding properties area either vacant or contain either commercial or industrial land use. There would be no reduction in screening for the residences to the east-northeast of the airport along US Route 41 because there would be no significant tree removal along the line of sight between those residences and the airport. The only tree removal near this part of the airport would be maintenance removal of trees within a 10 foot wide corridor on the inside of the perimeter fence so that the fence can be inspected and maintained as needed. This would not result in light emissions impacts for those residences on the east side of US Route 41.	☐	☒
Will there be visual or aesthetic impacts as a result of the proposed project and/or have there been concerns expressed about visual/aesthetic impacts? The visual impact will consist of conversion of some existing forested habitats to open maintained turf. This is not anticipated to result in concerns related to visual or aesthetic impacts. Areas of forested habitat removal will not take place adjacent to any residential areas.	☐	☒
b. Hazardous Materials	**YES**	**NO**
Does the project involve or affect hazardous materials? The project is not anticipated to have hazardous materials involvement. Based on review of available hazardous materials listsearch data for the airport, there are no documented hazardous waste sites or generators of hazardous waste within any of the proposed tree removal areas.	☐	☒
Will construction take place in an area that contains or previously contained hazardous materials? The database listsearch report prepared for the Runway 27 extension Environmental Assessment was reviewed because it also encompasses the project area for this wildlife hazard mitigation project. There are no documented hazardous materials sites within the tree removal areas according to the database listsearch report.	☐	☒
If the project involves land acquisition, is there a potential for this land to contain hazardous materials or contaminants? N/A, the project does not involve land acquisition.	☐	☒

Will the proposed project produce hazardous and/or solid waste either during construction or after? If yes, how will the additional waste be handled? Solid waste generated will include vegetation debris removal from the land clearing work and general refuse from day to day operations of the construction crew. The contractor will be required to remove and properly dispose of all solid waste generated during construction activities.	☒	☐

5-2 .b (14) Public Involvement

	YES	NO
Was there any public notification or involvement? If yes, provide documentation. No public notification is planned.	☐	☒

5-2 .b (15) Indirect/Secondary/Induced Impacts

	YES	NO
Will the project result in indirect/secondary/induced impacts? It is not anticipated that the project will result in indirect, secondary, or induced impacts. No development is currently planned within five years for any of the areas of tree removal. Areas of near-term future development were specifically excluded from the project.	☐	☒

When considered with other past, present, and reasonably foreseeable future projects, on or off airport property and regardless of funding source, would the proposed project result in a significant cumulative impact? Below is a list of past, current, and future projects at Brooksville-Tampa Bay Airport that were provided by airport management staff. Brooksville-Tampa Bay Regional Airport Projects in the last 10 years • Runway 9-27 Rehabilitation • Taxiway A Overlay • Telcom Drive/Technology Drive Construction Current Airport Projects • Decoupling of Runways 21 and 27 • Northside Hangar Development • PemAir Engine Shop Facility • Ackley Corporate Hangar (off Taxiway B • Barrett Manufacturing Plant Projects Planned for the Next Five Years • MRO Hangar Development • Extension of Runway 9-27 to the east • T-hangar Expansion • Corporate Hangar Development • FBO and Corp hangar • Jet Concepts Repair Facility • Flight Path Aviation – Avionics Facility • Global Jet Hangar – 2nd 20,000 SF Hangar • American Aviation Maintenance Hangar Impacts due to the proposed tree removal project are minimal. Similarly the past, present, and future projects in the Airport's vicinity have generated or are anticipated to generate only low environmental impacts. The primary impact from the proposed land clearing and grading project would be removal of forested habitat within the Airport's perimeter fence that is currently utilized by some species of wildlife such as deer, coyotes, small mammals, and forest-dwelling birds. Since the goal of the project is to reduce future hazards for	☐	☒

aircraft operations that would result from the occurrence of wildlife within the Airport's perimeter fence, this impact is justified. Impact to these wildlife species will be minimized by using a phased construction approach to flush them out and allow them to move out of the area that will be cleared of trees. Although some of the other past, current, and future projects would also remove forested habitat, most of the projects considered are either entirely or partially within the perimeter fence, where removal of habitat will be a benefit to safety of aircraft operations. In other cases the future projects would occur in areas that are already cleared as part of the air operations area. The cumulative effect of the projects considered on availability of forested habitat in the region within which the Airport is located is not significant. Large areas of forested habitat occur in the region, particularly east of U.S. 41. Other impacts that may occur as a result of the tree removal project include potential gopher tortoise relocation impacts. However, since the gopher tortoise conservation regulations in the State of Florida require that impacted gopher tortoise burrows be excavated and that gopher tortoises be relocated to an FWC-approved recipient site, no significant cumulative impacts to gopher tortoises would be anticipated to result from this project and the other past, current, and future projects in the vicinity. Potential impact to the Eastern indigo snake, which is known to utilize gopher tortoise burrows, would be minimized by implementing the USFWS' Standard Protection Measures for the Eastern Indigo Snake during construction. Other projects requiring federal or state approvals would also be likely to be required to implement these measures. Therefore the proposed land clearing and grading project and other projects considered as part of the cumulative impact analysis are not likely to contribute to the decline of this species. None of the past, current or future projects considered, including the land clearing and grading project, would be anticipated to impact wetlands. Wetlands on Airport property are minimal in extent and would be avoided by all of the projects considered. Similarly, there are no natural streams or waterbodies in the vicinity of the Airport that would be impacted by past, current, or future projects, including the tree removal project. Although, the cumulative development projects have the potential to generate environmental impacts, existing programs, policies, and regulatory requirements are expected to avoid and/or minimize the potential for significant impacts. In some cases where unavoidable impacts will occur, appropriate mitigation would be required. The minimal impacts associated with the land clearing and grading project		

	YES	NO
such as loss of wildlife habitat and displacement of wildlife, when considered in conjunction with impacts associated with past, present, and future development projects, are not expected to result in substantial cumulative impacts		

Permits

List any permits required for the proposed project that have not been previously discussed. Provide details on the status of permits.

Permits that will be required will include the previously discussed Environmental Resource Permit from the SWFWMD that is required for changes to the surface water management system at the Airport, the previously discussed gopher tortoise conservation permit from the Florida Fish and Wildlife Conservation Commission, a National Pollutant Discharge Elimination System (NPDES) construction permit, and a county land development permit. No permit applications have been submitted to-date.

Environmental Commitments

List all measures and commitments made to avoid, minimize, mitigate, and compensate for impacts on the environment, which are needed for this project to qualify for a CATEX.

The project will be conducted without impact to wetlands and a 15 foot minimum, 25 foot average wetland buffer will be observed in order to avoid wetland impact. The wetland limits and wetland buffer will be marked using flagging tape at least 60 days prior to start of construction.

A gopher tortoise survey will be conducted in 100 percent of suitable habitat for gopher tortoises approximately 90 days prior to construction. If gopher tortoise burrows are found within, or within 25 feet of, the limits of construction, a gopher tortoise conservation permit application will be submitted to the Florida Fish and Wildlife Conservation Commission. It is anticipated that for most burrows that are located on the edges of the wooded areas, impacts to the burrows can be avoided. In cases where impacts to burrows cannot be avoided, burrows will be excavated under the terms of the permit and recovered tortoises will be relocated to a state approved gopher tortoise recipient site under the conditions of the permit.

The contractor will be required to follow the Standard Protection Measures for the Eastern Indigo Snake throughout the construction phase of the project.

The contractor will be required to implement a Stormwater Pollution Prevention Plan during construction to prevent erosion and sedimentation through the implementation of sediment and erosion control best management practices. The contractor will also be required to implement a Spill Prevention Control and Countermeasures Plan that will detail the procedures for the safe handling, storage, clean up, and disposal of potential pollutants during construction.

DHR Project File No.: 2022-4125-B Received by DHR: June 24, 2022
Cultural Resource Assessment Survey for the Brooksville-Tampa Bay Regional Airport Wildlife Hazard Mitigation Tree Removal Project, Hernando County, Florida

Dear Ms. Reed:

Our office reviewed the referenced project in accordance with Section 106 of the National Historic Preservation Act of 1966, as amended, and its implementing regulations in 36 CFR Part 800: Protection of Historic Properties, and Chapters 267.061, Florida Statutes, and implementing state regulations, for possible effects on historic properties listed in, or eligible for, the National Register of Historic Places (NRHP), or otherwise of historical, architectural, or archaeological value. The project is subject to compliance with requirements for the Federal Aviation Administration.

In March 2022, Archaeological Consultants Inc. (ACI) conducted the above referenced Phase I cultural resource assessment survey (CRAS) on behalf of Michael Baker International. ACI excavated 124 shovel tests. No archaeological sites were discovered. However, three archaeological occurrences (AO) were identified. These consist of one or two pieces of lithic debitage. AOs are categorically excluded from listing in the NRHP. As such, ACI determined that there are no cultural resources that are listed, determined eligible for listing, or that appear potentially eligible for listing in the NRHP within the APE. Therefore, it is the professional opinion of ACI that the proposed undertaking will result in no historic properties affected.

Based on the information provided, our office concurs with the presented survey results and recommendations. We concur with the Corps determination of no adverse effect to historic properties listed, or eligible for listing, on the NRHP. Further, we find the submitted report complete and sufficient in accordance with Chapter 1A-46, Florida Administrative Code. If you have any questions, please contact Michael DuBose, Historic Preservationist, by email at Michael.DuBose@dos.myflorida.com or telephone at 850.245.6342.

Sincerely,

Kelly L Chase

Subject: Re: Brooksville Airport (BKV) | Section 106 Consultation - Tree Removal Project

Good afternoon Ms. Reed,

Thank you for sending the correspondence regarding the proposed hazardous wildlife habitat removal project located at the Brooksville-Tampa Bay Regional Airport in Hernando County, Florida. Hernando County is located within the Muscogee (Creek) Nation's historic area of interest and is of importance to us. After review, the Muscogee Nation is unaware of any Muscogee sacred sites, burial grounds, or significant cultural resources located within the immediate tree removal areas. The Muscogee Nation agrees with the findings of the associated cultural resource assessment survey report and concurs that there should be **no effects to any known historic properties**. However, due to the historic presence of Muscogee people in the project area, inadvertent discoveries of cultural resources, human remains and related NAGPRA items may occur, even in areas of existing or prior development. Should this occur, the Muscogee (Creek) Nation requests that all work cease and our office as well as other appropriate agencies be notified immediately. Please feel free to contact me if there are any questions or concerns.

Thank you,

Robin Soweka, Jr.

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Ms. Butler,

Hernando County Board of County Commissioners (Florida) has requested approval from the Federal Aviation Administration for a hazardous wildlife habitat removal project at the Brooksville-Tampa Bay Regional Airport (BKV). The project will include approximately 115 acres of clearing and grading within the airfield. The federal actions associated with the proposed development project require consultation under Section 106 of the National Historic Preservation

Act. FAA appreciates your review of the project and letting us know if the Muscogee (Creek) Nation has an interest in the project area and would like to participate in the Section 106 consultation process.

Respectfully,
Amy Reed

Subject: *Brooksville Airport (BKV), Section 106 Consultation - Tree Removal Project, Hernando County, Florida*
THPO Compliance Tracking Number: 0033698

In order to expedite the THPO review process:

1. Please correspond via email and provide documents as attachments (a THPO FTP site is available for large files).
2. Please send all emails to THPOCompliance@semtribe.com.
3. Please reference the THPO Compliance Tracking Number if one has been assigned.

Dear Ms. Reed,

Thank you for contacting the Seminole Tribe of Florida – Tribal Historic Preservation Office (STOF-THPO) Compliance Section regarding the *Brooksville Airport (BKV), Section 106 Consultation - Tree Removal Project, Hernando County, Florida.*

The proposed undertaking does fall within the STOF Area of Interest. We have reviewed the documents that you provided and completed our assessment pursuant to Section 106 of the National Historic Preservation Act (16 USC 470) as amended and it's implementing regulations (36 CFR 800). We have no objections or other comments at this time.

We appreciate your assistance in protecting and preserving cultural resources important to the Seminole Tribe of Florida. Please contact us if any archaeological, historical, or burial resources are inadvertently discovered during project implementation, and feel free to contact us with any questions or concerns.

Respectfully,

Bradley M. Mueller

IPaC resource list

This report is an automatically generated list of species and other resources such as critical habitat (collectively referred to as *trust resources*) under the U.S. Fish and Wildlife Service's (USFWS) jurisdiction that are known or expected to be on or near the project area referenced below. The list may also include trust resources that occur outside of the project area, but that could potentially be directly or indirectly affected by activities in the project area. However, determining the likelihood and extent of effects a project may have on trust resources typically requires gathering additional site-specific (e.g., vegetation/species surveys) and project-specific (e.g., magnitude and timing of proposed activities) information.

Below is a summary of the project information you provided and contact information for the USFWS office(s) with jurisdiction in the defined project area. Please read the introduction to each section that follows (Endangered Species, Migratory Birds, USFWS Facilities, and NWI Wetlands) for additional information applicable to the trust resources addressed in that section.

NOT FOR CONSULTATION

Location

Hernando County, Florida

Local office

North Florida Ecological Services Field Office

(904) 731-3336
(904) 731-3045

7915 Baymeadows Way, Suite 200
Jacksonville, FL 32256-7517

Endangered species

This resource list is for informational purposes only and does not constitute an analysis of project level impacts.

The primary information used to generate this list is the known or expected range of each species. Additional areas of influence (AOI) for species are also considered. An AOI includes areas outside of the species range if the species could be indirectly affected by activities in that area (e.g., placing a dam upstream of a fish population even if that fish does not occur at the dam site, may indirectly impact the species by reducing or eliminating water flow downstream). Because species can move, and site conditions can change, the species on this list are not guaranteed to be found on or near the project area. To fully determine any potential effects to species, additional site-specific and project-specific information is often required.

Section 7 of the Endangered Species Act **requires** Federal agencies to "request of the Secretary information whether any species which is listed or proposed to be listed may be present in the area of such proposed action" for any project that is conducted, permitted, funded, or licensed by any Federal agency. A letter from the local office and a species list which fulfills this requirement can **only** be obtained by requesting an official species list from either the Regulatory Review section in IPaC (see directions below) or from the local field office directly.

For project evaluations that require USFWS concurrence/review, please return to the IPaC website and request an official species list by doing the following:

1. Draw the project location and click CONTINUE.
2. Click DEFINE PROJECT.
3. Log in (if directed to do so).
4. Provide a name and description for your project.
5. Click REQUEST SPECIES LIST.

Listed species[1] and their critical habitats are managed by the Ecological Services Program of the U.S. Fish and Wildlife Service (USFWS) and the fisheries division of the National Oceanic and Atmospheric Administration (NOAA Fisheries[2]).

Species and critical habitats under the sole responsibility of NOAA Fisheries are **not** shown on this list. Please contact NOAA Fisheries for species under their jurisdiction.

---

1. Species listed under the Endangered Species Act are threatened or endangered; IPaC also shows species that are candidates, or proposed, for listing. See the listing status page for more information. IPaC only shows species that are regulated by USFWS (see FAQ).
2. NOAA Fisheries, also known as the National Marine Fisheries Service (NMFS), is an office of the National Oceanic and Atmospheric Administration within the Department of Commerce.

The following species are potentially affected by activities in this location:

Birds

NAME	STATUS
Eastern Black Rail *Laterallus jamaicensis ssp. jamaicensis* Wherever found No critical habitat has been designated for this species. https://ecos.fws.gov/ecp/species/10477	Threatened
Wood Stork *Mycteria americana* No critical habitat has been designated for this species. https://ecos.fws.gov/ecp/species/8477	Threatened

Reptiles

NAME	STATUS
Eastern Indigo Snake *Drymarchon corais couperi* Wherever found No critical habitat has been designated for this species. https://ecos.fws.gov/ecp/species/646	Threatened
Gopher Tortoise *Gopherus polyphemus* No critical habitat has been designated for this species. https://ecos.fws.gov/ecp/species/6994	Candidate
Loggerhead Sea Turtle *Caretta caretta* There is final critical habitat for this species. The location of the critical habitat is not available. https://ecos.fws.gov/ecp/species/1110	Threatened

Insects

NAME	STATUS
Monarch Butterfly *Danaus plexippus* Wherever found No critical habitat has been designated for this species. https://ecos.fws.gov/ecp/species/9743	Candidate

Flowering Plants

NAME	STATUS
Brooksville Bellflower *Campanula robinsiae* Wherever found No critical habitat has been designated for this species. https://ecos.fws.gov/ecp/species/5809	Endangered

NOT FOR CONSULTATION

Cooley's Water-willow *Justicia cooleyi* Endangered

Wherever found

No critical habitat has been designated for this species.
https://ecos.fws.gov/ecp/species/4653

Critical habitats

Potential effects to critical habitat(s) in this location must be analyzed along with the endangered species themselves.

THERE ARE NO CRITICAL HABITATS AT THIS LOCATION.

Migratory birds

Certain birds are protected under the Migratory Bird Treaty Act[1] and the Bald and Golden Eagle Protection Act[2].

Any person or organization who plans or conducts activities that may result in impacts to migratory birds, eagles, and their habitats should follow appropriate regulations and consider implementing appropriate conservation measures, as described below.

1. The Migratory Birds Treaty Act of 1918.
2. The Bald and Golden Eagle Protection Act of 1940.

Additional information can be found using the following links:

- Birds of Conservation Concern http://www.fws.gov/birds/management/managed-species/birds-of-conservation-concern.php
- Measures for avoiding and minimizing impacts to birds http://www.fws.gov/birds/management/project-assessment-tools-and-guidance/conservation-measures.php
- Nationwide conservation measures for birds http://www.fws.gov/migratorybirds/pdf/management/nationwidestandardconservationmeasures.pdf

The birds listed below are birds of particular concern either because they occur on the USFWS Birds of Conservation Concern (BCC) list or warrant special attention in your project location. To learn more about the levels of concern for birds on your list and how this list is generated, see the FAQ below. This is not a list of every bird you may find in this location, nor a guarantee that every bird on this list will be found in your project area. To see exact locations of where birders and the general public have sighted birds in and around your project area, visit the E-bird data mapping tool (Tip: enter your location, desired date range and a species on your list). For projects that occur off the Atlantic Coast, additional maps and models detailing the relative occurrence and abundance of bird

NOT FOR CONSULTATION

species on your list are available. Links to additional information about Atlantic Coast birds, and other important information about your migratory bird list, including how to properly interpret and use your migratory bird report, can be found below.

For guidance on when to schedule activities or implement avoidance and minimization measures to reduce impacts to migratory birds on your list, click on the PROBABILITY OF PRESENCE SUMMARY at the top of your list to see when these birds are most likely to be present and breeding in your project area.

NAME	BREEDING SEASON (IF A BREEDING SEASON IS INDICATED FOR A BIRD ON YOUR LIST, THE BIRD MAY BREED IN YOUR PROJECT AREA SOMETIME WITHIN THE TIMEFRAME SPECIFIED, WHICH IS A VERY LIBERAL ESTIMATE OF THE DATES INSIDE WHICH THE BIRD BREEDS ACROSS ITS ENTIRE RANGE. "BREEDS ELSEWHERE" INDICATES THAT THE BIRD DOES NOT LIKELY BREED IN YOUR PROJECT AREA.)
American Kestrel *Falco sparverius paulus* This is a Bird of Conservation Concern (BCC) only in particular Bird Conservation Regions (BCRs) in the continental USA https://ecos.fws.gov/ecp/species/9587	Breeds Apr 1 to Aug 31
Bald Eagle *Haliaeetus leucocephalus* This is not a Bird of Conservation Concern (BCC) in this area, but warrants attention because of the Eagle Act or for potential susceptibilities in offshore areas from certain types of development or activities. https://ecos.fws.gov/ecp/species/1626	Breeds Sep 1 to Jul 31
Great Blue Heron *Ardea herodias occidentalis* This is a Bird of Conservation Concern (BCC) only in particular Bird Conservation Regions (BCRs) in the continental USA	Breeds Jan 1 to Dec 31
Lesser Yellowlegs *Tringa flavipes* This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska. https://ecos.fws.gov/ecp/species/9679	Breeds elsewhere
Prairie Warbler *Dendroica discolor* This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska.	Breeds May 1 to Jul 31

NOT FOR CONSULTATION

Red-headed Woodpecker Melanerpes erythrocephalus This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska.	Breeds May 10 to Sep 10
Short-billed Dowitcher Limnodromus griseus This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska. https://ecos.fws.gov/ecp/species/9480	Breeds elsewhere
Swallow-tailed Kite Elanoides forficatus This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska. https://ecos.fws.gov/ecp/species/8938	Breeds Mar 10 to Jun 30

Probability of Presence Summary

The graphs below provide our best understanding of when birds of concern are most likely to be present in your project area. This information can be used to tailor and schedule your project activities to avoid or minimize impacts to birds. Please make sure you read and understand the FAQ "Proper Interpretation and Use of Your Migratory Bird Report" before using or attempting to interpret this report.

Probability of Presence ( )

Each green bar represents the bird's relative probability of presence in the 10km grid cell(s) your project overlaps during a particular week of the year. (A year is represented as 12 4-week months.) A taller bar indicates a higher probability of species presence. The survey effort (see below) can be used to establish a level of confidence in the presence score. One can have higher confidence in the presence score if the corresponding survey effort is also high.

How is the probability of presence score calculated? The calculation is done in three steps:

1. The probability of presence for each week is calculated as the number of survey events in the week where the species was detected divided by the total number of survey events for that week. For example, if in week 12 there were 20 survey events and the Spotted Towhee was found in 5 of them, the probability of presence of the Spotted Towhee in week 12 is 0.25.
2. To properly present the pattern of presence across the year, the relative probability of presence is calculated. This is the probability of presence divided by the maximum probability of presence across all weeks. For example, imagine the probability of presence in week 20 for the Spotted Towhee is 0.05, and that the probability of presence at week 12 (0.25) is the maximum of any week of the year. The relative probability of presence on week 12 is 0.25/0.25 = 1; at week 20 it is 0.05/0.25 = 0.2.
3. The relative probability of presence calculated in the previous step undergoes a statistical conversion so that all possible values fall between 0 and 10, inclusive. This is the probability of presence score.

To see a bar's probability of presence score, simply hover your mouse cursor over the bar.

NOT FOR CONSULTATION

Breeding Season (■)
Yellow bars denote a very liberal estimate of the time-frame inside which the bird breeds across its entire range. If there are no yellow bars shown for a bird, it does not breed in your project area.

Survey Effort (|)
Vertical black lines superimposed on probability of presence bars indicate the number of surveys performed for that species in the 10km grid cell(s) your project area overlaps. The number of surveys is expressed as a range, for example, 33 to 64 surveys.

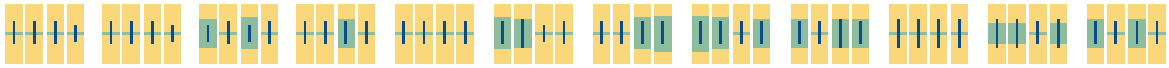
To see a bar's survey effort range, simply hover your mouse cursor over the bar.

No Data (–)
A week is marked as having no data if there were no survey events for that week.

Survey Timeframe
Surveys from only the last 10 years are used in order to ensure delivery of currently relevant information. The exception to this is areas off the Atlantic coast, where bird returns are based on all years of available data, since data in these areas is currently much more sparse.

NOT FOR CONSULTATION

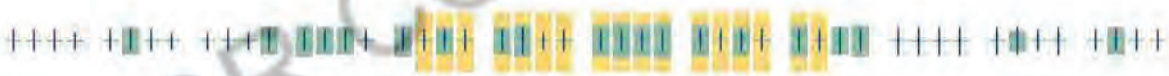
Great Blue Heron BCC - BCR (This is a Bird of Conservation Concern (BCC) only in particular Bird Conservation Regions (BCRs) in the continental USA)



Lesser Yellowlegs BCC Rangewide (CON) (This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska.)

Prairie Warbler BCC Rangewide (CON) (This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska.)

Red-headed Woodpecker BCC Rangewide (CON) (This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska.)



Short-billed Dowitcher BCC Rangewide (CON) (This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska.)

NOT FOR CONSULTATION

Swallow-tailed Kite BCC Rangewide (CON) (This is a Bird of Conservation Concern (BCC) throughout its range in the continental USA and Alaska.)

Tell me more about conservation measures I can implement to avoid or minimize impacts to migratory birds.

Nationwide Conservation Measures describes measures that can help avoid and minimize impacts to all birds at any location year round. Implementation of these measures is particularly important when birds are most likely to occur in the project area. When birds may be breeding in the area, identifying the locations of any active nests and avoiding their destruction is a very helpful impact minimization measure. To see when birds are most likely to occur and be breeding in your project area, view the Probability of Presence Summary. Additional measures or permits may be advisable depending on the type of activity you are conducting and the type of infrastructure or bird species present on your project site.

What does IPaC use to generate the migratory birds potentially occurring in my specified location?

The Migratory Bird Resource List is comprised of USFWS Birds of Conservation Concern (BCC) and other species that may warrant special attention in your project location.

The migratory bird list generated for your project is derived from data provided by the Avian Knowledge Network (AKN). The AKN data is based on a growing collection of survey, banding, and citizen science datasets and is queried and filtered to return a list of those birds reported as occurring in the 10km grid cell(s) which your project intersects, and that have been identified as warranting special attention because they are a BCC species in that area, an eagle (Eagle Act requirements may apply), or a species that has a particular vulnerability to offshore activities or development.

Again, the Migratory Bird Resource list includes only a subset of birds that may occur in your project area. It is not representative of all birds that may occur in your project area. To get a list of all birds potentially present in your project area, please visit the AKN Phenology Tool.

What does IPaC use to generate the probability of presence graphs for the migratory birds potentially occurring in my specified location?

The probability of presence graphs associated with your migratory bird list are based on data provided by the Avian Knowledge Network (AKN). This data is derived from a growing collection of survey, banding, and citizen science datasets .

Probability of presence data is continuously being updated as new and better information becomes available. To learn more about how the probability of presence graphs are produced and how to interpret them, go the Probability of Presence Summary and then click on the "Tell me about these graphs" link.

How do I know if a bird is breeding, wintering, migrating or present year-round in my project area?

To see what part of a particular bird's range your project area falls within (i.e. breeding, wintering, migrating or year-round), you may refer to the following resources: The Cornell Lab of Ornithology All About Birds Bird Guide, or (if you are unsuccessful in locating the bird of interest there), the Cornell Lab of Ornithology Neotropical Birds

NOT FOR CONSULTATION

guide. If a bird on your migratory bird species list has a breeding season associated with it, if that bird does occur in your project area, there may be nests present at some point within the timeframe specified. If "Breeds elsewhere" is indicated, then the bird likely does not breed in your project area.

What are the levels of concern for migratory birds?

Migratory birds delivered through IPaC fall into the following distinct categories of concern:

1. "BCC Rangewide" birds are Birds of Conservation Concern (BCC) that are of concern throughout their range anywhere within the USA (including Hawaii, the Pacific Islands, Puerto Rico, and the Virgin Islands);
2. "BCC - BCR" birds are BCCs that are of concern only in particular Bird Conservation Regions (BCRs) in the continental USA; and
3. "Non-BCC - Vulnerable" birds are not BCC species in your project area, but appear on your list either because of the Eagle Act requirements (for eagles) or (for non-eagles) potential susceptibilities in offshore areas from certain types of development or activities (e.g. offshore energy development or longline fishing).

Although it is important to try to avoid and minimize impacts to all birds, efforts should be made, in particular, to avoid and minimize impacts to the birds on this list, especially eagles and BCC species of rangewide concern. For more information on conservation measures you can implement to help avoid and minimize migratory bird impacts and requirements for eagles, please see the FAQs for these topics.

Details about birds that are potentially affected by offshore projects

For additional details about the relative occurrence and abundance of both individual bird species and groups of bird species within your project area off the Atlantic Coast, please visit the Northeast Ocean Data Portal. The Portal also offers data and information about other taxa besides birds that may be helpful to you in your project review. Alternately, you may download the bird model results files underlying the portal maps through the NOAA NCCOS Integrative Statistical Modeling and Predictive Mapping of Marine Bird Distributions and Abundance on the Atlantic Outer Continental Shelf project webpage.

Bird tracking data can also provide additional details about occurrence and habitat use throughout the year, including migration. Models relying on survey data may not include this information. For additional information on marine bird tracking data, see the Diving Bird Study and the nanotag studies or contact Caleb Spiegel or Pam Loring.

What if I have eagles on my list?

If your project has the potential to disturb or kill eagles, you may need to obtain a permit to avoid violating the Eagle Act should such impacts occur.

Proper Interpretation and Use of Your Migratory Bird Report

The migratory bird list generated is not a list of all birds in your project area, only a subset of birds of priority concern. To learn more about how your list is generated, and see options for identifying what other birds may be in your project area, please see the FAQ "What does IPaC use to generate the migratory birds potentially occurring in my specified location". Please be aware this report provides the "probability of presence" of birds within the 10 km grid cell(s) that overlap your project; not your exact project footprint. On the graphs provided, please also look carefully at the survey effort (indicated by the black vertical bar) and for the existence of the "no data" indicator (a red horizontal bar). A high survey effort is the key component. If the survey effort is high, then the probability of presence score can be viewed as more dependable. In contrast, a low survey effort bar or no data bar means a lack of data and, therefore, a lack of certainty about presence of the species. This list is not perfect; it is simply a starting point for identifying what birds of concern have the potential to be in your project area, when they might be there, and if they might be breeding (which means nests might be present). The list helps you know what to look for to confirm presence, and helps guide you in knowing when to implement conservation measures to avoid

NOT FOR CONSULTATION

or minimize potential impacts from your project activities, should presence be confirmed. To learn more about conservation measures, visit the FAQ "Tell me about conservation measures I can implement to avoid or minimize impacts to migratory birds" at the bottom of your migratory bird trust resources page.

Facilities

National Wildlife Refuge lands

Any activity proposed on lands managed by the National Wildlife Refuge system must undergo a 'Compatibility Determination' conducted by the Refuge. Please contact the individual Refuges to discuss any questions or concerns.

THERE ARE NO REFUGE LANDS AT THIS LOCATION.

Fish hatcheries

THERE ARE NO FISH HATCHERIES AT THIS LOCATION.

Wetlands in the National Wetlands Inventory

Impacts to NWI wetlands and other aquatic habitats may be subject to regulation under Section 404 of the Clean Water Act, or other State/Federal statutes.

For more information please contact the Regulatory Program of the local U.S. Army Corps of Engineers District.

WETLAND INFORMATION IS NOT AVAILABLE AT THIS TIME

This can happen when the National Wetlands Inventory (NWI) map service is unavailable, or for very large projects that intersect many wetland areas. Try again, or visit the NWI map to view wetlands at this location.

NOT FOR CONSULTATION

Data limitations

The Service's objective of mapping wetlands and deepwater habitats is to produce reconnaissance level information on the location, type and size of these resources. The maps are prepared from the analysis of high altitude imagery. Wetlands are identified based on vegetation, visible hydrology and geography. A margin of error is inherent in the use of imagery; thus, detailed on-the-ground inspection of any particular site may result in revision of the wetland boundaries or classification established through image analysis.

The accuracy of image interpretation depends on the quality of the imagery, the experience of the image analysts, the amount and quality of the collateral data and the amount of ground truth verification work conducted. Metadata should be consulted to determine the date of the source imagery used and any mapping problems.

Wetlands or other mapped features may have changed since the date of the imagery or field work. There may be occasional differences in polygon boundaries or classifications between the information depicted on the map and the actual conditions on site.

Data exclusions

Certain wetland habitats are excluded from the National mapping program because of the limitations of aerial imagery as the primary data source used to detect wetlands. These habitats include seagrasses or submerged aquatic vegetation that are found in the intertidal and subtidal zones of estuaries and nearshore coastal waters. Some deepwater reef communities (coral or tuberficid worm reefs) have also been excluded from the inventory. These habitats, because of their depth, go undetected by aerial imagery.

Data precautions

Federal, state, and local regulatory agencies with jurisdiction over wetlands may define and describe wetlands in a different manner than that used in this inventory. There is no attempt, in either the design or products of this inventory, to define the limits of proprietary jurisdiction of any Federal, state, or local government or to establish the geographical scope of the regulatory programs of government agencies. Persons intending to engage in activities involving modifications within or adjacent to wetland areas should seek the advice of appropriate federal, state, or local agencies concerning specified agency regulatory programs and proprietary jurisdictions that may affect such activities.

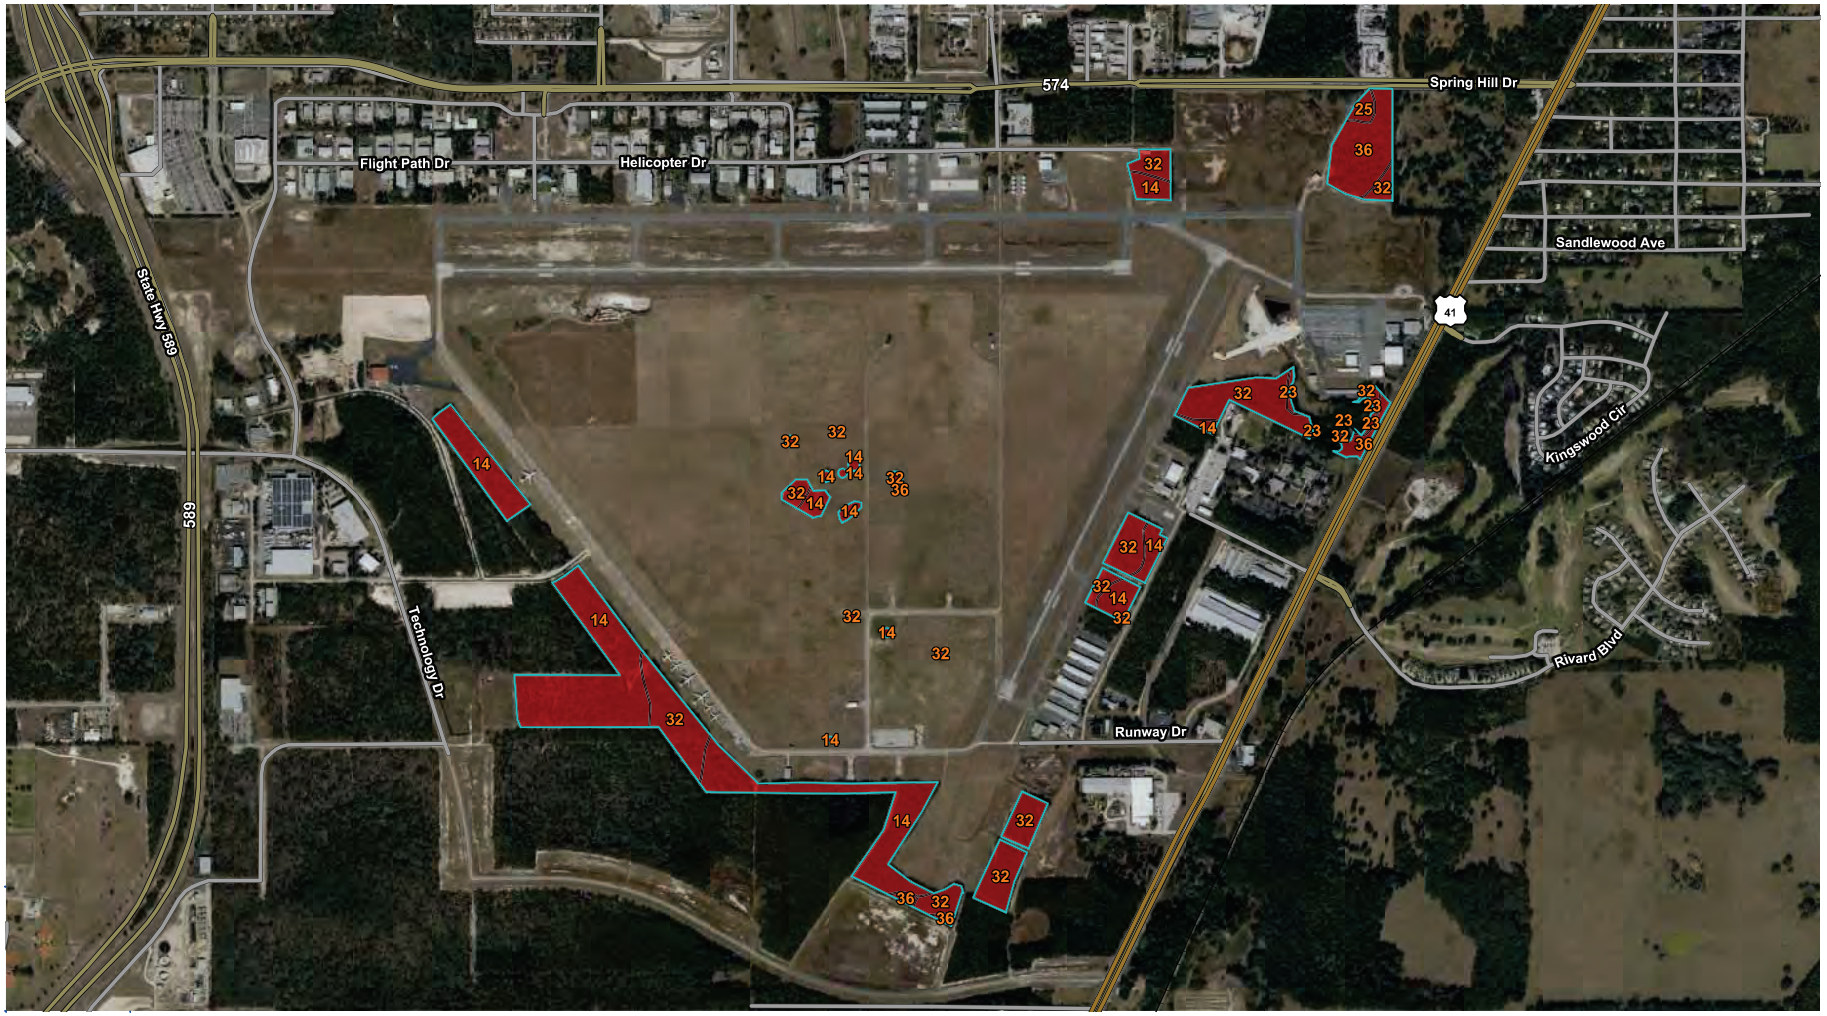
EXHIBIT 6: Farmland Classification—
Hernando County, Florida
(Land Grading and Tree Removal)



Farmland Classification

Map unit symbol	Map unit name	Rating	Acres in AOI	Percent of AOI
14	Candler fine sand, 0 to 5 percent slopes	Not prime farmland	59.3	51.7%
23	Floridana fine sand, frequently ponded, 0 to 1 percent slopes	Not prime farmland	1.4	1.2%
25	Floridana variant loamy fine sand	Not prime farmland	1.3	1.2%
32	Masaryk very fine sand, 0 to 5 percent slopes	Not prime farmland	39.1	34.1%
36	Nobleton fine sand, 0 to 5 percent slopes	Not prime farmland	13.5	11.8%
99	Water	Not prime farmland	0.0	0.0%
Totals for Area of Interest			**114.6**	**100.0%**

Description

Farmland classification identifies map units as prime farmland, farmland of statewide importance, farmland of local importance, or unique farmland. It identifies the location and extent of the soils that are best suited to food, feed, fiber, forage, and oilseed crops. NRCS policy and procedures on prime and unique farmlands are published in the "Federal Register," Vol. 43, No. 21, January 31, 1978.

U.S. Economic Development Administration
1401 Constitution Avenue NW, Suite 71014
Washington, DC 20230

Acting Assistant Secretary Page:
RE: EDA-APP# 00014054

This letter serves as formal confirmation that matching share funds in the amount of $3,400,000 are committed to the Brooksville – Tampa Bay Regional Airport Critical Infrastructure Construction Project. These funds will be available as needed and are not encumbered in any way that would prevent them from being used to pay project expenses.

Funding is available in the amount of $1,600,000 from Board of County Commissioner Funds and remain available for the duration of the project. The remainder of the match, $1,800,000 from the FY 24 State of Florida Department of Transportation Aviation Grant Program

It is the intention of the Hernando County Board of County Commissioners to continue to seek state grant funding to offset the matching funds when available and appropriate.

Thank you,

Brian Hawkins, Chairman
Hernando County Board of County Commissioners

Board of County Commissioners

AGENDA ITEM

Meeting: 09/09/2025
Department: Public Information
Prepared By: Dominique Holmes
Initiator: Dominique Holmes
DOC ID: 16298
Legal Request Number:
Bid/Contract Number:

TITLE
Legislative Priorities Requests for 2025-26 State Legislative Agenda and Proposed Policy Submissions for Florida Association of Counties

BRIEF OVERVIEW
Attached for the Board's consideration and approval is Hernando County's Legislative Priorities for the 2026-27 State Legislative Agenda. The proposed projects will be reviewed at the meeting. An overview of the Florida Association of Counties (FAC) Policy Proposal Submissions.

FINANCIAL IMPACT
There is no financial impact to the Board at this time; however, should the projects meet House and Senate approval, matching contributions of 10% - 20% funding by the County may be required, dependent on the project.

LEGAL NOTE
The Board has the authority to take action on this matter pursuant to Chapter 125, Florida Statutes.

RECOMMENDATION
It is recommended the Board review, provide comment, and approve the attached Hernando County Legislative Priorities, and authorize staff to submit applications for State appropriation funding through the Florida House and Senate for the approved projects.

Legislative Issue FY 26/27
Fire Station Along Atlanta Ave. and US 19

Funding Request: $8 million
County Match: $3 million

Action

Hernando County seeks legislative appropriation to fund the development of a new fire station, estimated at $8 million, covering both engineering and construction costs. The proposed station will be located along Atlanta Ave. and US 19 just south of Weeki Wachee High School. This funding will allow the County to build a fully equipped facility to enhance fire and emergency medical services in a rapidly growing area.

Background

Current emergency call data clearly indicates an increasing demand for fire and EMS services in the southeastern portion of the County, specifically near Weeki Wachee. The area is experiencing population growth and development, which places added strain on existing stations. Based on service projections and response time analysis, this location has been identified as the next critical site for expansion.

State Interest

Supporting this appropriation promotes public safety and emergency readiness, aligning with the State's interest in ensuring timely and effective emergency response across all communities. A new fire station in this underserved area enhances statewide disaster preparedness, reduces response times, and supports the health and safety of both residents and visitors—core priorities in Florida's emergency management and public health strategies.

Legislative Issue FY 26/27
Public Safety Training Center

Funding Request: $7,100,000
County Match: $1,010,000

Action

Phase 1 Development
The proposed Public Safety Training Complex will be developed in phases, with the first phase including essential infrastructure and facilities. The total estimated cost for Phase 1 is $8,110,000. Below is the breakdown of the costs involved:

Site Design/Studies: $175,000
Site Roads & Retention: $2,100,000
Water Infrastructure: $750,000
Fire Tower: $1,500,000
Shooting Ranges: $965,000
Driving Pad (Asphalt): $2,160,000
Concrete Estimate: $3,240,000
Pavilion: $75,000
Septic: $15,000
Restrooms: $150,000
Electrical Service Main: $135,000
Technology Infrastructure: $85,000

Total Phase 1: $8,110,000

Background

The Hernando County Public Safety Departments—including Sheriff's Office, Fire Rescue, and Emergency Medical Services (EMS)—currently lack the necessary training facilities within the county. As a result, they must travel outside the county to access training, which results in several challenges:

Availability: Travel distances make it difficult for personnel to attend training while ensuring that they remain available to respond to emergencies in Hernando County.
Scheduling Challenges: Coordinating schedules across multiple departments and agencies for external training facilities is complex and inefficient.
Inadequate Facilities: Local candidates and staff lack appropriate training environments, which hinders the development of skills necessary for effective response to emergencies.
The need for an in-county Public Safety Training Center has been recognized since 2012, and Hernando County now has 60 acres of land designated for this purpose.

State Interest

The proposed Public Safety Training Center will not only serve Hernando County but will also provide significant regional and state-level benefits:

- **Statewide Impact**: With the ongoing shortage of firefighters and law enforcement officers across Florida, this facility will provide training for local, regional, and state public safety personnel.
- **Certification and Continuing Education**: The facility will offer certification and ongoing education programs to ensure public safety professionals maintain up-to-date skills to effectively manage emergencies, including hurricanes and other disasters.
- **Emergency Response**: The ability to train locally will increase the efficiency and availability of first responders in times of emergency, reducing response time and improving overall effectiveness during hurricanes and other critical situations.

This facility is essential for addressing the increasing demands on public safety services and will directly support the safety of Hernando County residents while contributing to broader state needs for properly trained first responders.

Conclusion

Hernando County urgently needs this Public Safety Training Complex to ensure that law enforcement, fire, and EMS personnel are adequately trained to protect the community, especially in the face of frequent natural disasters such as hurricanes. The proposed training center will greatly improve local and regional emergency response capabilities and provide long-term benefits to both the county and the state of Florida.

Legislative Issue FY 26/27
Waterways/Multi-Agency Building

Funding Request: $3,500,000
County Match: $725,123.50

Action

Hernando County Waterways Division seeks to construct a facility which will fulfill the operational needs of the Parks and Recreation Department's Waterways Division, Hernando County Sheriff's Office Marine Unit, and the Florida Fish and Wildlife Commission (FWC) marine officers and provide direct accessibility to waterways within Hernando County. The goals of the project are to serve as a home base for the Waterways Division, FWC and Sheriff's Office while allowing interagency cooperation and coordination for all issues/concerns on HC waterways. The proximity of the project location allows for quick access to Gulf waters and associated rivers and tributaries. The current facility required extensive damage assessment post natural disaster before staff could begin to address damage assessment of public waterways. This also delayed commercial activities (fishing, charters, etc.) dependent on water access in the area from resuming normal operations. This facility must consider the current and anticipated future needs and functions of the division. The property will be maintained by Hernando County following project completion, as is custom for all county owned properties.

Background

The Waterways Department is responsible for managing projects such as marine habitat enhancements, aquatic plant removal, and for providing safe, navigable waterways as well as maintaining the County's network of aids-to-navigation, docks, piers, lights, and buoys in a manner consistent with applicable State and Federal regulations.

The Waterways building received 2.5 feet of storm surge inside the building from Hurricane Idalia (2023). The water damage was extensive, however the County decided to repair the internal damage (drywall, electrical, flooring, furniture) to the building with the hope of utilizing it for a few more years. In 2024, Hurricane Helene's storm surge caused 5 feet of water inside the building along with structural damage (shifted cinder blocks and concrete spalling due to rusted rebar). The damage was too extensive to justify repairs, so the building was deemed condemned and is slated for demolition. The adjacent shed (concrete block) was also damaged due to storm surge which caused shifting of cinder blocks and exposure of rebar. This structure will also be demolished. The existing chain link fence around the facility was pushed over by storm surge and debris. The fence is showing rust from the saltwater inundation from numerous years of storm surge

The current Waterways building was built in 1960 and supports Hernando County Waterways division, Hernando County Sheriff's Office, and the Florida Fish and Wildlife Conservation Commission (FWC). The facility is considered a non-compliant structure for both Florida Building Code and the current floodplain elevations pursuant to the Flood Insurance Rate Maps. This project will entail the replacement of the non-compliant 1960's building by providing design and construction costs of a new elevated facility including improved storage yard for vessels, equipment, docks, slips, and materials. The completion of this project will assist in improvements for the jointly operated facility and enhance operations for Hernando County.

In March 2025, Hernando County Board of County Commissioners approved the purchase of the adjacent lot to allow for the proper expansion to account for current and future needs of the division in addition to our partners that are collocated at the site, Hernando County Sheriff's Office and Florida Fish and Wildlife (FWC). The proposed project includes the demolition of existing structures on both properties, the construction of a new Waterways facility to include an approximately 4,340 sq. ft. elevated office building, seawall addition, dock addition, and boat ramp renovation. All proper infrastructure will be added to the property as well as addressing the required drainage modification to allow for proper flow of stormwater on and through the site. The infrastructure required will include water, sewer, electric, network connection, and access to the Gulf of America. A new building will be designed above the base flood elevation allowing for adequate storage of vessels below and accommodating future expansion needs as they may arise well into the future. The project will address the existing docks and provide necessary improvements and upgrades. All maintenance and storage will be performed and provided at the ground floor level. An elevator or ADA compliant ramp will be included to meet accessibility requirements. Outdoor storage for boats and equipment will be incorporated under the elevated building and remaining site. Parking areas will be provided for staff, HC Sheriff, and FWC along with the occasional visitor. A portion of the site is currently fenced; however, it was damaged from the 2024 storms specifically and will require replacement to secure the site. The additional dock will allow for permanent location for the HC Sheriff's Fire Rescue boat which will allow enhanced response times for the public.

State Interest

Hernando County is a coastal community with rivers, tributaries, and canals that are directly connected to the Gulf of Mexico. As such, Hernando County has numerous aids to navigation, boat ramps, and waterbodies that require maintenance and enforcement to ensure public safety. Construction of a facility with direct connection to a main access channel that can be utilized by several agencies would provide several benefits to State waters such as increased response time to water emergencies, accessibility of boating equipment to assist with in-water rescues, safety zone for inclement weather, increased coordination of agencies, and swift repair of aids to navigation.

Legislative Issue
FY 26/27
Brooksville–Tampa Bay Regional Airport (BKV) Taxiway and Infrastructure Project Summary

Funding Request: $1 million
County Match: $600,000

Action

The Hernando County Board of County Commissioners (BOCC) proposes a transformative infrastructure project at the Brooksville–Tampa Bay Regional Airport (BKV) to rehabilitate an abandoned runway into a new taxiway and extend water and sewer utilities across the airport's infield. This initiative will unlock over 423 acres of aviation and industrial development space, significantly enhancing the airport's operational capacity and attractiveness to aerospace, aviation, and manufacturing industries. With confirmed private investment already committed and the potential for high-wage job creation, this project serves as a cornerstone for Hernando County's long-term economic development strategy. The County match serves either as the local contribution required for external grant applications or, if grant funding is not awarded, as foundational infrastructure investment to begin phased implementation of the project. Total project cost is $17 million, Hernando County is seeking $13.4 million in U.S. Economic Development Administration funding towards the project. The remainder is the required match.

Background

Brooksville–Tampa Bay Regional Airport (BKV) is a National Plan of Integrated Airport Systems (NPIAS)-designated General Aviation airport with a National Role and an essential asset for regional economic growth and resilience. Located in Hernando County, BKV spans 2,403 acres with approximately 1,000 acres available for development. It supports diverse operations including military aviation, corporate flights, air cargo, and flight training.

The proposed project will:

- Rehabilitate 4,480 feet of abandoned runway into a fully operational taxiway.
- Install water and sewer utilities across the airport's infield.
- Unlock **195 acres** for immediate aviation development and **228 acres** for industrial and non-aviation use.
- Enhance airfield safety, efficiency, and resilience.
- Enable long-term commercial growth and diversify the local economy.

Confirmed private investment includes:

- **Pem Air**: $65 million investment and 50 skilled jobs.
- **Judah1**: $5–8 million investment and 15–20 skilled positions.

Economic Impact Estimates (IMPLAN):

- **$154.6 million** in total economic output.
- **$83.2 million** in labor income.
- **$25.4 million** in new annual revenue potential.
- **$97.2 million** GDP contribution.

This project also supports Hernando County's partnerships with workforce training organizations and its goals for sustainable development.

State Interest

The BKV Taxiway and Utilities Project directly aligns with Florida's economic, workforce, and aerospace priorities and supports key provisions of **Senate Bill 1662**, recently signed by the Governor to modernize and grow Florida's aviation and logistics sectors.

Alignment with SB 1662 and Florida's Strategic Vision:

- **Aerospace and Manufacturing Support**: The project creates development-ready land ideal for aviation manufacturing, MRO (Maintenance, Repair, and Overhaul), and logistics operations, reinforcing Florida's leadership in aerospace infrastructure. This directly supports SB 1662's aim to expand aerospace-related real estate and protect space-designated territories.
- **Workforce Development and Research Integration**: BKV's collaboration with CareerSource Pasco Hernando and local educational institutions complements SB 1662's establishment of the Florida Transportation Research Institute. The project lays groundwork for integrating regional aviation businesses into statewide research and innovation ecosystems.
- **Advanced Air Mobility (AAM) Readiness**: By improving taxiway infrastructure and enabling new development, BKV is preparing for next-generation aviation technologies, including AAM operations and vertiport-related investments, in line with SB 1662's directive for Florida to become a national leader in AAM.
- **Disaster Resilience and Logistics Capability**: BKV has already served as a Duke Energy storm readiness site, and with infrastructure upgrades, it will further enhance Florida's disaster response capabilities. These improvements increase the airport's value as a multi-modal logistics hub that supports statewide emergency operations.
- **Statewide Economic Growth**: By enabling $73 million in confirmed private investment, hundreds of high-wage jobs, and increased industrial capacity, the project will amplify Florida's aviation economy while providing scalable benefits for the Tampa Bay region and beyond.

This project is a strategic opportunity to support Florida's aviation innovation, bolster its competitiveness in the global aerospace market, and advance the intent of SB 1662 across multiple dimensions.

Legislative Issue FY 26/27
Hermosa Lift Station Upgrade

Funding Request: $3,410,000
County Match: $850,000

Project Description:
The Hermosa Lift Station Upgrade Project involves the rehabilitation and modernization of a key wastewater lift station in Hernando Beach area. The lift station is a vital component of the Hernando County coastal community's wastewater transmission system, collecting flow from six upstream stations and conveying it to the Hernando County Airport Water Reclamation Facility (WRF) via the US19 Master Pump Station.

The Hermosa Lift Station receives wastewater from six upstream lift stations, including:

- Calienta Lift Station (HB-LS01) – 8-inch force main
- Companero Lift Station (HB-LS19) – 6-inch force main
- Gardenia Lift Station (HB-LS33) – 4-inch force main
- Amberjack Lift Station (HB-LS36)
- Bluefish Lift Station (HB-LS37)
- Sea Bass Lift Station (HB-LS38)

The three Hernando Beach South stations (Amberjack, Bluefish, and Sea Bass) combine at Bluefish Drive and Seabass Drive into a 6-inch force main, which runs east to Shoal Line Boulevard, then north to a collector manhole near Hermosa Boulevard. Flow enters the Hermosa Lift Station via gravity before being pumped out.

From the Hermosa Lift Station, effluent is discharged via a 10-inch PVC force main, transitions through a 12-inch HDPE segment, and eventually connects to a 16-inch force main at U.S. 19. This pipe network transports flow to the US19 Master Pump Station, which then routes flow to the Airport WRF.

The Hermosa Lift Station currently operates under fluctuating pressures and flow cycles from six upstream lift stations, placing stress on aging pumps and control systems. As the Hernando Beach area continues to grow, the existing infrastructure is not adequately equipped to manage increased flows. A recent engineering analysis concluded that the station must be upgraded to prevent sanitary sewer overflows, system backups, and potential public health hazards. Additionally, its electrical components are vulnerable to flooding and must be elevated to ensure resiliency.

Location: The Hermosa Lift Station is located at the intersection of Hermosa Boulevard and Shoal Line Boulevard in the coastal community of Hernando Beach.

Project Scope: The Hernando County Utilities Department commissioned a performance analysis of the Hermosa Lift Station. Findings indicate that the station's performance is highly dependent on discharge rates and pump cycling from upstream stations. With continued growth in Hernando Beach area, the analysis recommends pump upgrades at Hermosa Lift Station to accommodate future wastewater volumes.

Additionally, due to a FEMA-designated flood elevation of 12.0 feet, the new electrical control panels for the upgraded pumps should be installed above the floodplain for resilience. The detailed project scope is to:

- Upgrade existing pumps to meet future wastewater flow demands.
- Elevate and replace electrical control panels to above FEMA's 12.0-foot flood elevation.
- Improve reliability and capacity of the station to accommodate current and future development in Hernando Beach area.
- Replace aging infrastructure to prevent leaks and system failures.
- Ensure compatibility with downstream systems and optimize operational efficiency.

The design phase of this project is nearly complete, and construction funding has not yet been secured.

Environmental Benefit:

- Prevents sewage leaks and sanitary sewer overflows that could contaminate groundwater and surface water.
- Reduces nitrogen loading into the aquifer, helping protect the Weeki Wachee Springs, a sensitive and impaired waterbody.
- Enhances reclaimed water management and aquifer recharge capabilities.
- Supports water quality improvement and nutrient reduction goals under Florida's Basin Management Action Plan (BMAP).
- Promotes a more sustainable and climate-resilient wastewater infrastructure.

Legislative Issue FY 26/27
Septic-to-Sewer Conversion – District A Phase 2

Funding Request: $26 million
County Match: $1,800,000

Weeki Wachee Springs has been designated as an impaired waterbody due to elevated nitrate levels, which pose a threat to water quality and spring ecosystem health. To address this issue, the Florida Department of Environmental Protection (FDEP) developed a Basin Management Action Plan (BMAP) requiring Hernando County to reduce nitrogen discharges to the groundwater within the BMAP boundary.

As part of this effort, FDEP funded Hernando County's Onsite Sewage Treatment and Disposal Systems (OSTDS) Remediation Feasibility Analysis Report, which identified priority areas for septic-to-sewer conversions. These areas were selected based on their potential to reduce nitrogen loading most effectively.

Septic to Sewer District A Phase 2, the area closest to Weeki Wachee Springs, was determined to offer the most immediate water quality benefit. The district has been divided into two phases. Phase 1 is currently under construction, and this application pertains to the design and construction of Phase 2.

Project Location: Phase 2 encompasses the area south of SR 50, approximately 1.25 miles east of US 19, extending from India Drive to Hazelwood Road (east–west) and from Brentlawn Street to Elgin Boulevard (north–south).

Project Scope:

- Extend central sewer service to approximately 353 properties, over 300 of which currently utilize individual septic systems.
- Eliminate approximately 300 septic tanks, significantly reducing nutrient contributions to groundwater.
- Integrate new customers into the Hernando County central wastewater collection system, enhancing system capacity and efficiency.

Environmental Benefits:

- Estimated reduction of 2,782 lbs/year of Total Nitrogen entering the groundwater.
- Substantial improvement in water quality in Weeki Wachee Springs.
- Increased availability of reclaimed water for beneficial reuse.

This project represents a critical step toward protecting one of Florida's unique and valuable spring ecosystems while supporting sustainable wastewater infrastructure improvements for Hernando County.

b. Attach maps showing system boundaries, existing and proposed service area, and project area.

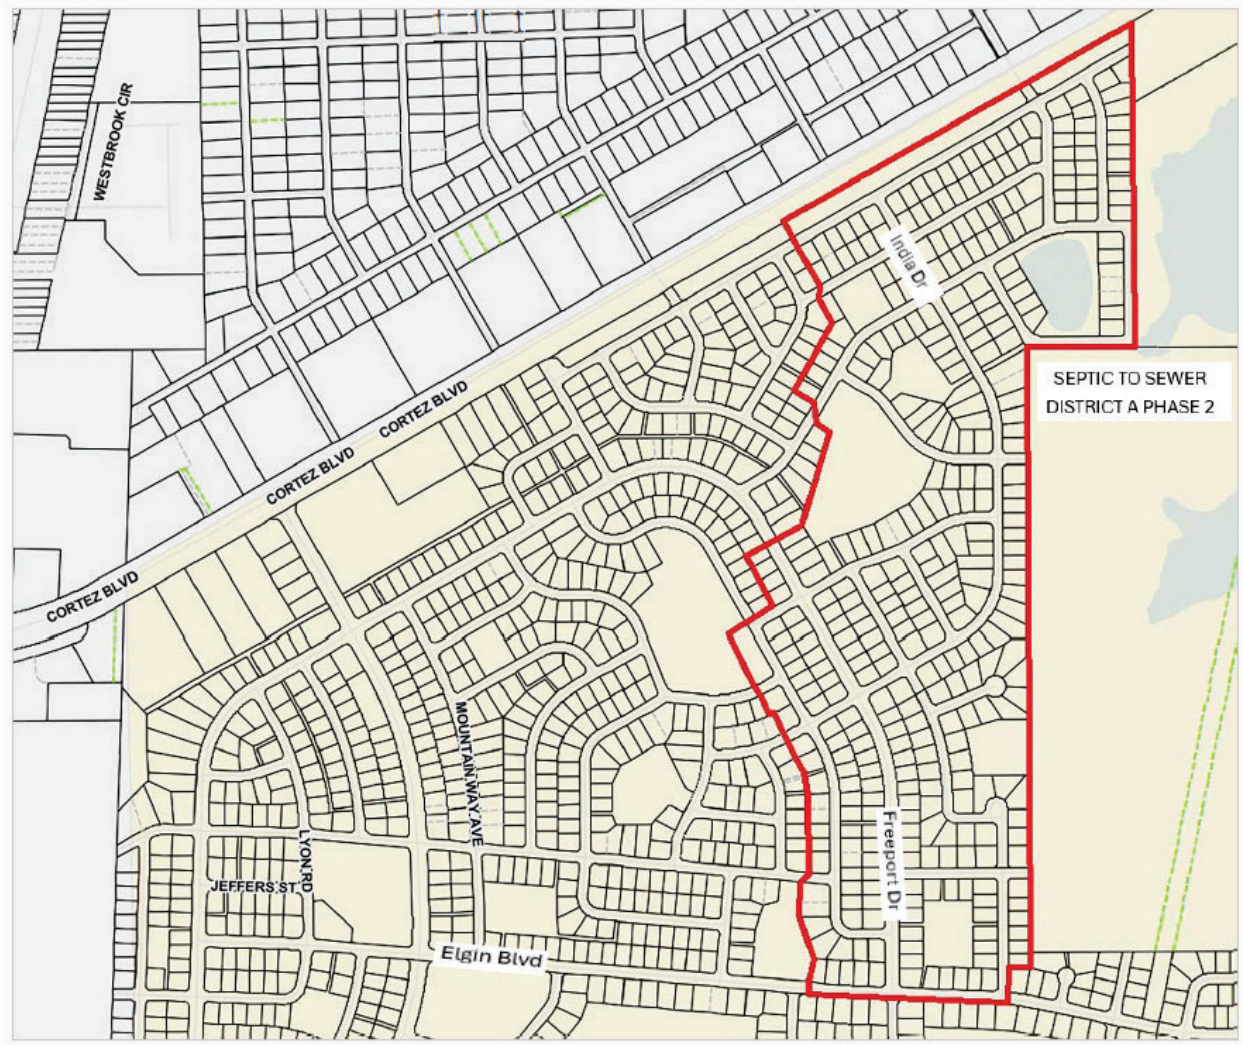
Septic to Sewer District A Phase 2 Project Area:



Legislative Issue FY 26/27
Confidentiality of Official Estimates and Bid Analysis for local County/City Governments

Purpose:
To amend Florida law to authorize local County/City Governments to apply the same confidentiality provisions currently granted to the Florida Department of Transportation (FDOT) under Section 337.168, Florida Statutes, regarding official cost estimates and bid analysis systems.

Summary:
This legislative action proposes to extend the confidentiality and public records exemptions currently applicable to FDOT under Section 337.168, Florida Statutes, to the local County and City Governments. Specifically, the measure would:

1. **Exempt from public disclosure** any document or electronic file revealing the County/City's official cost estimate for a project until the project contract is executed or the project is no longer under active consideration.
2. **Exempt from public disclosure** the County/City's bid analysis and monitoring system, including all associated system documentation, input, processes, electronic data, and output—while preserving access to actual source documents unless separately exempted by law.

Rationale:
This action aligns local County/City Government with FDOT in safeguarding sensitive procurement and project data, reducing the risk of manipulation or unfair bidding practices. It ensures competitive integrity in the bidding process and protects confidential internal methodologies and analyses used in state project planning and contracting.

Impact:
If enacted, this measure will bolster the integrity and security of by protecting pre-contract cost estimates and internal bid evaluation tools from premature disclosure under Florida's public records laws (Section 119.07(1), F.S.).

Proposed Statutory Language:
Amend existing statutes or introduce a new provision modeled after Section 337.168, F.S., specifically applying the same exemptions to local County/City Governments.

Legislative Issue
FY 26/27
Prohibiting St. Augustine Grass in the Weeki Wachee BMAP Priority Focus Area

Action
By prohibiting St. Augustine Grass in the Weeki Wachee BMAP would reduce over usage of watering. The County is requesting a change to the Florida Statutes to allow restricting this high water use sod type in the Weeki Wachee BMAP Priority Focus Area.

Background
Recently, a Pilot turfgrass swap project was performed in the Wellington Community in Spring Hill on four homes. The homes' existing high water use turfgrass (St. Augustine grass) was replaced with drought tolerant turfgrass (Bahia grass) and expanded planting beds were utilized. This resulted in a 25% reduction in water use and the turf performed better than the surrounding neighbors' yards which were St. Augustine grass. The project was successful and the Wellington Community is now resodding their yards with Bahiagrass as a result.

The Spring Hill area lies within the Weeki Wachee Springs Basin. The primary soil in the area consists of Candler fine sands (i.e. beach sand) that has an extremely high infiltration rate and exhibits poor moisture retention properties, making it less suitable for high water use turf such as St. Augustine. Homes within this area that utilize St. Augustine often violate the County's one day a week watering restrictions in an effort to maintain this turf on this sandy soil. Maintaining this turf on this type of soil questions the Florida Friendly Landscape principles of having the "right plant in the right place".

State Interest
Hernando County researched the possibility of prohibiting high water use turfgrass (St. Augustine grass) in these areas of the County and the County Attorney's Office prepared a legal opinion on the possibility of enacting an ordinance to limit the use of this turf (see attached). Below is an excerpt from the legal opinion on this matter:

"Since St. Augustine grass is listed as a Turfgrass under the Florida-friendly landscape standards, an ordinance that prohibits the use of such grass in the County would conflict with the standards and be barred by paragraphs 125.568(3)(c) and 373.185(3)(c), Florida Statutes. However, the Board of County Commissioners is authorized to promote the planting of appropriate turfgrass based on soil type by providing public education and offering incentives to local residents and businesses. § 125.568(2), Fla. Stat. Such activities may encompass educational programs for citizens, contractors and developers as well as financial incentives for landowners who install alternative turf or replace existing St. Augustine grass on their property."

The County already performs educational information through the Florida Friendly Landscape Coordinator and regularly conducts free trainings to County residents on this issue. However, St. Augustine still remains abundant in this native sandy area. The County is requesting a change to the above referenced Florida Statutes to allow restricting this high water use sod type in the Weeki Wachee BMAP Priority Focus Area.

MEMORANDUM
HERNANDO COUNTY ATTORNEY'S OFFICE

TO: Board of County Commissioners

VIA: Jon A. Jouben, County Attorney

FROM: Maureen S. Sikora, Assistant County Attorney *mss*

LR: 21-054

SUBJECT: Turfgrass Regulations

DATE: October 13, 2021

I. FACTUAL BACKGROUND

On January 15, 2008, the Hernando County Board of County Commissioners adopted Ordinance No. 2008-02, the 2008 Hernando County Landscape Ordinance, which is codified as Chapter 10, Article II, Hernando County Code of Ordinances. Subsection 10-17(2) and Section 10-18 of the Code of Ordinances require the Landscape Ordinance to be compatible with the Florida-Friendly Landscaping Design Standards.

II. ISSUE

The Board of County Commissioners has discussed revising the County's Landscape Ordinance to prohibit the installation of St. Augustine grass.

III. SUMMARY

The Hernando County Landscape Ordinance requires consistency with the Florida-Friendly Landscaping Design Standards prepared by the Florida Yards and Neighborhoods Program.

The Board has the legal authority to enact a Florida-friendly landscaping ordinance. The Board also has the power to promote Florida-friendly landscaping through public education and incentives to local residents and businesses.

Florida Statutes restrict the County's ability to adopt or enforce an ordinance which prohibits property owners from implementing Florida-friendly landscaping on their land.

Both the Florida-Friendly Landscape Model Ordinance and the Florida-Friendly Landscaping Guide to Plant Selection include St. Augustinegrass as an approved turfgrass. An ordinance prohibiting the installation of such grass within Hernando County would conflict with the

Florida-Friendly Landscaping Design Standards and consequently be precluded by Florida law.

IV. ANALYSIS

The 2008 Hernando County Landscape Ordinance is based on concepts of Xeriscape and Florida Friendly Landscaping under the Florida Yards and Neighborhoods (FYN) and Environmental Landscape Management (ELM) programs promoted by the University of Florida Cooperative Extension Service, along with the programs of the state's water management districts and Best Management Practices (BMPs). § 10-17(2), Hernando County Code of Ordinances. Section 10-18 of the Code of Ordinances states:

> Application and interpretation of this article shall be generally consistent with "Landscape Irrigation & Florida-Friendly Design Standards" as promulgated by the Committee on Landscape Irrigation and Florida-Friendly Design Standards, dated December, 2006, or as subsequently revised or amended.

"Xeriscape or Florida-friendly landscape" is defined in Section 10-19 of the Code of Ordinances to mean:

> [Q]uality landscapes that conserve water and protect the environment and are adaptable to local conditions and which are drought tolerant. The principles of Xeriscape include planning and design, appropriate choice of plants, soil analysis which may include the use of solid waste compost, efficient irrigation, practical use of turf, appropriate use of mulches, and proper maintenance.

Chapter 10, Article II, of the Code of Ordinances does not contain a definition of turf or identify the types of turfgrass approved for installation in Hernando County. Sections of the Landscape Ordinance relating to development of residential lots and rural-residential parcels recommend that plant installations in low water-use zones be selected using guidelines described in the Florida-Friendly Plant List current year publication. §§ 10-29(a)(8), 10-29(b)(7), Hernando County Code of Ordinances.

In 2009, the Florida Legislature amended various statutes pertaining to Florida-friendly landscaping for the purpose of promoting water conservation and water quality protection and restoration. Ch. 2009-243, Laws of Fla. These laws apply to counties, § 125.568, Fla. Stat., municipalities, § 166.048, Fla. Stat., and local governments, § 373.185, Fla. Stat. The relevant provisions of Section 125.568 provide:

> **125.568 Conservation of water; Florida-friendly landscaping.**–
> (1)(a) The Legislature finds that Florida-friendly landscaping contributes to the conservation, protection, and restoration of water. In an effort to meet the water needs of this state in a manner that will supply adequate and dependable supplies of water where needed, it is the intent of the Legislature that Florida-friendly landscaping be an essential part of water conservation and water quality protection and restoration planning.
> (b) As used in this section, "Florida-friendly landscaping" has the

same meaning as in s. 373.185.

(2) The board of county commissioners of each county shall consider enacting ordinances, consistent with s. 373.185, requiring the use of Florida-friendly landscaping as a water conservation or water quality protection or restoration measure. If the board determines that such landscaping would be of significant benefit as a water conservation or water quality protection or restoration measure, especially for waters designated as impaired pursuant to s. 403.067, relative to the cost to implement Florida-friendly landscaping in its area of jurisdiction, the board shall enact a Florida-friendly landscaping ordinance. Further, the board of county commissioners shall consider promoting Florida-friendly landscaping as a water conservation or water quality protection or restoration measure by: using such landscaping in any areas under its jurisdiction which are landscaped after the effective date of this act; providing public education on Florida-friendly landscaping, its uses in increasing water conservation and water quality protection or restoration, and its long-term cost-effectiveness; and offering incentives to local residents and businesses to implement Florida-friendly landscaping.

(3)(a) The Legislature finds that the use of Florida-friendly landscaping and other water use and pollution prevention measures to conserve or protect the state's water resources serves a compelling public interest and that the participation of homeowners' associations and local governments is essential to the state's efforts in water conservation and water quality protection and restoration.

* * *

(c) A local government ordinance may not prohibit or be enforced so as to prohibit any property owner from implementing Florida-friendly landscaping on his or her land. (Emphasis added.)

The underlined language cited above is repeated in paragraph 373.185(3)(c), Florida Statutes, which forbids approval or enforcement of a local government ordinance that prohibits any property owner from implementing Florida-friendly landscaping on his or her land.

Paragraph 373.185(1)(b), Florida Statutes, defines the phrase "Florida-friendly landscaping" as follows:

> "Florida-friendly landscaping" means quality landscapes that conserve water, protect the environment, are adaptable to local conditions, and are drought tolerant. The principles of such landscaping include planting the right plant in the right place, efficient watering, appropriate fertilization, mulching, attraction of wildlife, responsible management of yard pests, recycling yard waste, reduction of stormwater runoff, and waterfront protection. Additional components include practices such as landscape planning and design, soil analysis, the appropriate use of solid waste compost, minimizing the use of irrigation, and proper maintenance.

The standards for Florida-friendly landscaping are set forth in a publication entitled "Florida - Friendly Landscape Guidelines for Model Ordinance Language for Protection of Water Quality

and Quantity (Jan. 2009)", which was developed by the Department of Environmental Protection (FDEP), the University of Florida Institute of Food and Agricultural Sciences (UF/IFAS), and the FYN Program. Subsection 8.61 of the Model Ordinance defines the term "Turf and/or Turfgrass" to mean "[a] mat layer of monocotyledonous plants such as, but not limited to, Bahia, Bermuda, Centipede, Paspalum, St. Augustine, and Zoysia."

"The Florida Friendly Landscaping Guide to Plant Selection & Landscape Design", a handbook published by the FYN Program, includes a list of recommended Florida-Friendly Landscaping plants. The category entitled Turfgrass itemizes Bermudagrass, Bahiagrass, St. Augustinegrass, and Zoysiagrass adapted to the entire state and Centipedegrass adapted to North Florida and the Panhandle.

Since St. Augustinegrass is listed as a Turfgrass under the Florida-friendly landscape standards, an ordinance that prohibits the use of such grass in the County would conflict with the standards and be barred by paragraphs 125.568(3)(c) and 373.185(3)(c), Florida Statutes. However, the Board of County Commissioners is authorized to promote the planting of appropriate turfgrass based on soil type by providing public education and offering incentives to local residents and businesses. § 125.568(2), Fla. Stat. Such activities may encompass educational programs for citizens, contractors and developers as well as financial incentives for landowners who install alternative turf or replace existing St. Augustinegrass on their property.

In addition to restricting the ability of local governments to adopt, amend or enforce ordinances, Florida law affects homeowners' associations in a similar manner. Paragraphs 125.568(3)(b) and 373.185(3)(b), Florida Statutes, read as follows: "A deed restriction or covenant may not prohibit or be enforced so as to prohibit any property owner from implementing Florida-friendly landscaping on his or her land." Paragraph 720.3075(4)(b), Florida Statutes, also relates to homeowners' association documents, such as declarations of covenants, articles of incorporation, and bylaws.

If I can provide any additional information or answer any questions, do not hesitate to contact me.

FUEL TAX POLICY PROPOSAL

1. Issue Summary

Currently, only gas-powered vehicles contribute to the maintenance and development of Florida's transportation infrastructure through the fuel tax, collected at the gas pump. Electric Vehicles (EVs), which are powered by electricity rather than gasoline, do not pay this tax, yet still utilize the same roadways. This creates an imbalance in transportation funding, as more EVs on the road means less fuel tax revenue collected. The desired policy change is to implement a system or fee structure that ensures EV owners contribute their fair share to roadway maintenance and improvement—equivalent to what is paid through traditional fuel taxes.

---

2. Background

Florida's transportation infrastructure is heavily funded by state and federal fuel taxes, which have historically aligned with gasoline and diesel consumption. However, the increasing adoption of electric vehicles has begun to erode this revenue stream.
In response, Florida has taken initial steps to address this issue. Notably:

- **In 2021**, **SB 140** and **HB 819** were filed to establish an **annual fee for electric and hybrid vehicles** to compensate for lost fuel tax revenue.
- These bills **did not pass**, but they brought attention to the need for equitable road usage contributions.
- As of 2025, Florida has yet to implement a statewide electric vehicle fee structure, although several other states have successfully adopted annual electric vehicle road use fees ranging from $100–$200.

Without a revised policy, the gap in infrastructure funding will continue to grow as electric vehicle adoption increases.

---

3. Analysis

At the county level, decreased fuel tax revenue directly reduces the funds available for road repair, maintenance, and infrastructure upgrades. Roads deteriorate at the same rate regardless of the type of vehicle, yet counties are forced to stretch limited fuel tax funds across increasing maintenance needs as the cost of materials continue to rise.
Statewide, the continued growth of electric vehicles will significantly reduce fuel tax income unless alternative funding mechanisms are enacted. This will result in broader strain on the County's capacity to maintain local roads.

---

4. Fiscal Impact

The fiscal impact of not addressing this issue is substantial.

- According to a 2023 report from the Florida Department of Transportation, electric vehicles contributed less than 1% to transportation revenues despite making up 4% of registered vehicles.
- Fuel tax revenues will continue to decline annually if no changes are made.
- Implementing an annual electric vehicle fee of $150 per vehicle could generate over $150 million annually once Florida surpasses 1 million registered electric vehicles.

This proposed policy change would restore fairness and financial sustainability to Florida's transportation funding framework.

LANDSPREADING POLICY PROPOSAL

1. Issue Summary

Landspreading is the practice of applying biosolids (treated sewage sludge) or other waste materials to land for agricultural or disposal purposes. While it can be a method of waste management, landspreading can release harmful toxins and pollutants into the air and groundwater, creating public health and environmental risks. Children are particularly vulnerable to airborne toxins, making landspreading near schools a serious concern.

The desired policy change is to limit the use and geographic placement of landspreading operations in Florida, specifically by:

- Restricting landspreading within a designated radius (e.g., 3–5 miles) of schools, daycares, and residential areas.
- Increasing regulation and oversight to reduce air pollution and contamination of aquifers and waterways.
- Requiring buffer zones and stricter environmental testing before approval of landspreading activities.
- Restricting landspreading within a Springs Priority Focus Area.

Maine Legislature Passes Bill Prohibiting Land Application of Biosolids
https://www.nacwa.org/news-publications/news-detail/2022/04/20/maine-legislature-passes-bill-prohibiting-land-application-of-biosolids-governor-expected-to-sign

Environmental Health: https://ehjournal.biomedcentral.com/articles/10.1186/s12940-023-01008-4

---

2. Background

Florida has historically permitted landspreading under regulation by the Florida Department of Environmental Protection (FDEP), which allows the land application of biosolids as long as certain nutrient management and treatment standards are met. However, as environmental concerns have grown, biosolids management has come under increased scrutiny.

- In 2019, Florida passed SB 712 – the Clean Waterways Act, which required FDEP to adopt new rules for biosolids management, especially in areas where landspreading was contributing to nutrient pollution.
- Despite this, concerns remain over airborne toxins, odor, and water contamination, especially in areas where biosolids are spread near vulnerable populations or near environmentally sensitive regions.

Continued public pressure and scientific studies have revealed gaps in current regulations, especially concerning air quality and proximity to human populations.

National Library of Medicine: https://pmc.ncbi.nlm.nih.gov/articles/PMC4187293/

Draft Sewage Sludge Risk Assessment from the United States Environmental Protection Agency: https://www.epa.gov/biosolids/draft-sewage-sludge-risk-assessment-perfluorooctanoic-acid-pfoa-and-perfluorooctane

---

3. Analysis

In many Florida counties, landspreading contributes to:

- Leaching of nitrates and phosphates into the aquifer which could pollute drinking water and contribute to algal blooms in rivers, springs, and estuaries.
- Air pollution from biosolid particles, which poses health risks to nearby residents and school children.
- Damage to local ecosystems and wildlife dependent on Florida's unique spring-fed waterways and wetlands.

In counties with natural springs—such as Hernando County, home to the Weeki Wachee River and a significant portion of the Basin Management Action Plan (BMAP) coverage area—nitrate loading from landspreading can degrade water quality and reduce clarity.

Florida Department of Health: https://www.floridahealth.gov/environmental-health/private-well-testing/_documents/well-water-facts-nitrate.pdf

---

4. Fiscal Impact

- Reduced costs associated with environmental cleanup, including restoring springs and waterways impacted by nutrient pollution.
- Prevented public health expenditures from exposure to harmful air and waterborne toxins.
- Preserved tourism and recreational revenue, which depends on the health of Florida's freshwater ecosystems.

Inaction could result in greater costs for counties needing to address contaminated water supplies and ecosystem degradation. However, negative impacts to the agricultural community as a revenue and material source should be determined.

Non-Profit Construction Deferred Loan Agreement With Mid Florida Community Services, Inc., d/b/a You Thrive Florida Through State Housing Initiatives Partnership Program

BRIEF OVERVIEW
The Hernando County Local Housing Plan allows for funding up to $50,000 to local non-profit housing agencies and/or developers to partially underwrite the costs of construction or rehabilitation for affordable homes. The State Housing Initiatives Partnership (SHIP) program funds invested into the unit will be converted into a dollar-for-dollar reduction in the sales price of the home to a SHIP eligible down payment assistance buyer.

These funds enhance the affordability of the home and enable the non-profit housing sector to increase the number of affordable housing units produced for SHIP eligible homebuyers within Hernando County, thereby increasing homeownership opportunities for very low-income families.

Mid Florida Community Services, Inc., d/b/a You Thrive Florida has requested funding in the amount of $50,000 to aid in the construction of a housing unit located at 16077 Melbourne Street, Brooksville, FL 34604, Key No. 1373953 in Tangerine Estates.

FINANCIAL IMPACT
The funding request amount of $50,000 will come from:

Expense:

Fund: 1271 - St Housing Init Partnership, **Department: 35051** - Ship Grant Housing Authority, **Account: 5303498-** Constr Serv- NP Construct

LEGAL NOTE
The Board has authority to act pursuant to Chapter 420, Florida Statutes.

RECOMMENDATION
It is recommended that the Board approve and authorize the Chairman's signature on the attached SHIP Non-Profit Construction Deferred Loan Agreement to Mid Florida Community Services, Inc., d/b/a You Thrive Florida, in the amount of $50,000, as well as the accompanying Land Use Restriction Agreement

Hernando County, Florida

State Housing Initiatives Program (SHIP)

Non-Profit Construction Application

SHIP funds may be made available to area non-profit housing agencies and non-profit housing developers to partially underwrite the costs of construction or rehabilitation of single-family affordable homes and in developing special needs housing for eligible clients. Funds can be used for infrastructure and development costs and all other associated fees and permits for the construction of housing. Funds may also pay for soft costs including but not limited to preliminary and final plat review, engineering services, site plan review, building permits, and impact fees.

MID FLORIDA COMMUNITY SERVICES INC
820 KENNEDY BLVD
BROOKSVILLE FL 34601-5704

Is exempt from the payment of Florida sales and use tax on real property rented, transient rental property rented, tangible personal property purchased or rented, or services purchased.

FLORIDA

Important Information for Exempt Organizations

DR-14
R. 01/18

1. You must provide all vendors and suppliers with an exemption certificate before making tax-exempt purchases. See Rule 12A-1.038, Florida Administrative Code (F.A.C.).

2. Your *Consumer's Certificate of Exemption* is to be used solely by your organization for your organization's customary nonprofit activities.

3. Purchases made by an individual on behalf of the organization are taxable, even if the individual will be reimbursed by the organization.

4. This exemption applies only to purchases your organization makes. The sale or lease to others of tangible personal property, sleeping accommodations, or other real property is taxable. Your organization must register, and collect and remit sales and use tax on such taxable transactions. Note: Churches are exempt from this requirement except when they are the lessor of real property (Rule 12A-1.070, F.A.C.).

5. It is a criminal offense to fraudulently present this certificate to evade the payment of sales tax. Under no circumstances should this certificate be used for the personal benefit of any individual. Violators will be liable for payment of the sales tax plus a penalty of 200% of the tax, and may be subject to conviction of a third-degree felony. Any violation will require the revocation of this certificate.

6. If you have questions about your exemption certificate, please call Taxpayer Services at 850-488-6800. The mailing address is PO Box 6480, Tallahassee, FL 32314-6480.

WARNING TO OWNER: YOUR FAILURE TO RECORD A NOTICE OF COMMENCEMENT MAY RESULT IN YOUR PAYING TWICE FOR IMPROVEMENTS TO YOUR PROPERTY. A NOTICE OF COMMENCEMENT MUST BE RECORDED AND POSTED ON THE SITE OF THE IMPROVEMENT BEFORE THE FIRST INSPECTION. IF YOU INTEND TO OBTAIN FINANCING, CONSULT WITH YOUR LENDER OR AN ATTORNEY BEFORE RECORDING YOUR NOTICE OF COMMENCEMENT.

STATE HOUSING INITIATIVES PARTNERSHIP PROGRAM (SHIP)
NON-PROFIT CONSTRUCTION
DEFERRED LOAN AGREEMENT

This State Housing Initiatives Program (SHIP) Non-Profit Construction Deferred Loan Agreement (the Agreement) is made and entered into this _____ day of _____, 2025, by and between **Hernando County, Florida,** a political subdivision of the State of Florida, located at 15470 Flight Path Drive, Brooksville, Florida 34604 (the County), and **Mid Florida Community Services, Inc., DBA You Thrive Florida,** a Florida Not for Profit Corporation, located at 820 Kennedy Boulevard, Brooksville, Florida 34601 (the Borrower).

ARTICLE I – PURPOSE

Section 1.1 Purpose: The purpose of this Agreement is to distribute to Borrower, SHIP funds awarded pursuant to Hernando County's Local Housing Assistance Plan (LHAP) and Section 420.9079, Florida Statutes (F.S.) for the purpose of financing the construction of (a) single-family home(s) described in Section 2.2 below and selling the single-family home(s) to (a) SHIP-approved applicant(s).

ARTICLE II – LOAN AMOUNT AND USE

Section 2.1 Loan Amount: The Borrower is awarded a total of $50,000.00 ("the Loan"). This amount will be funded upon issuance of (an) approved building permit(s) to begin construction and a completed construction application to Housing and Supportive Services of the proposed project.

Section 2.2 Use of Loan: The Borrower shall use the Loan solely for the purpose of financing, in part, the construction of (a) single-family home(s) at the following location(s):

Address(es): **16077 Melbourne Street, Brooksville, Florida 34604**

Legal Description(s): **TANGERINE ESTATES BLK N LOT #15**

The Borrower shall sell the single-family home(s) to (a) SHIP-approved applicant(s) meeting the definition of very-low-income or low-income household set forth in Section 420.9071(30), F.S. Should the single-family home(s) constructed utilizing SHIP funds be sold within the thirty (30)-month Loan period, the Loan will be forgiven by the County. Notwithstanding Section 2.8 below, if the single-family home(s) utilizing SHIP funds is/are not sold within the thirty (30)-month Loan period to (a) SHIP-approved applicant(s), the Borrower shall repay the Loan immediately upon expiration of the thirty (30)-month Loan period, unless otherwise agreed to in writing by the County in the County's sole discretion. Upon the expiration of the thirty (30)-month Loan period, the Borrower shall return to the County any SHIP funds not utilized in constructing the single-family home(s) during the thirty (30)-month Loan period.

Section 2.3 The Borrower shall ensure that the single-family home(s) constructed with the SHIP Loan funds remain affordable to very-low-income or low-income households and meet the objectives and requirements of the SHIP statutes and Hernando County's SHIP LHAP. Affordable for this agreement is defined as identified in Hernando County's Local Housing Assistance Plan (LHAP), Hernando County Housing Ordinance, and Section 420.9079, Florida Statutes (F.S.). The sale price of any single-family home constructed by Borrower utilizing Loan funds shall be reduced dollar-for-dollar by the amount of the Loan funds utilized by Borrower in constructing the single-family home. The failure to do so will

result in the Borrower having to repay the Loan to the County, together with interest at the maximum legal rates in existence at the time the Loan is first distributed to the Borrower.

Section 2.4 The Borrower shall submit receipts detailing how funding for construction of the unit identified in Section 2.2 was utilized prior to the second closing.

Section 2.5 The Borrower shall upon closing submit documentation showing implementation of all green, energy efficient materials per Hernando County's SHIP LHAP and Hernando County Standards for: HOME, CDBG and SHIP For New Construction, Re-Construction, and Rehabilitation Projects.

Section 2.6 The Borrower shall provide Housing and Supportive Services with a certificate of occupancy prior to second closing for the property identified in Section 2.2.

Section 2.7 The Borrower shall provide the county with all needed documentation to ensure that the requirements of the agreement have been met within the 30-month period. The failure to do so will result in the Borrower having to repay the Loan to the County, together with interest at the maximum legal rates in existence at the time the Loan is first distributed to the Borrower.

Section 2.8 The Loan shall be made to the Borrower at zero percent interest (0%) for a term of thirty (30) months. The above-described property shall remain "Affordable" as defined in Section 420.9071, F.S., and for use by a household as defined in Section 420.9071(30), F.S., at the time of purchase.

Section 2.9 The Borrower shall place a sign at construction sites supported under this award displaying the Hernando County logo in a manner that informs the public that the project is funded in part or wholly by Hernando County. The sign must be placed in a visible location that can be directly linked to the work taking place and must be maintained in good condition throughout the construction period. If the County logo is displayed along with the logos of other participating entities, the County logo must not be displayed in a manner that implies the county itself is conducting the project.

Section 2.10 The Borrower agrees to notify the Housing and Supportive Services Department in writing of public or media events publicizing the accomplishment of significant events related to construction projects as a result of this agreement and provides the opportunity for attendance and participation by county staff with at least a (10) working day notice.

ARTICLE III – DISBURSEMENTS

Section 3.1 Disbursement of Loan Funds. The County will only disburse funds under this Agreement when the Borrower submits documentary evidence that (a) building permit(s) has(have) been issued for construction of the single-family home(s) on the site(s) described in Section 2.2 above.

Section 3.2 Disbursement Limitations. In no event will the County ever be required to disburse funds more than the Loan unless expressly provided otherwise in this Agreement.

Section 3.3 Disbursement Without Prejudice. Any disbursement made by the County to the Borrower shall be without prejudice to the County's rights later to challenge the propriety of the Borrower's claimed costs or expenses.

Section 3.4 Withholding Disbursements. If the Borrower fails to perform any obligation under this Agreement and the failure has not been cured within ten (10) days following oral or written notice from the County, the County may, without penalty and in its sole discretion and upon written notice to the

Borrower, withhold further disbursements until such failure to perform is cured. This right to withhold disbursements is in addition to all other rights and remedies the County may have available to it under this Agreement or under law.

ARTICLE IV – REPORTS AND RECORDKEEPING

Section 4.1 Records Retention; Review. The Borrower shall maintain records and accounts, including property, personnel and financial records, contractual agreements, subcontracts, proof of required insurance, and any other records related to or resulting from the activities performed under this SHIP agreement to ensure proper accounting and monitoring of all grant funds. The County may monitor all funding sources, including but not limited to Program overfunding. In the event, the County determines that such records are not being adequately maintained by the Project Sponsor, the County may cancel this SHIP agreement in accordance with Articles IV and V herein.

With respect to all matters covered by this SHIP agreement, records will be made available for examination, audit, inspections or copying purposes at any time during normal business hours and as often as the County may require. Borrower will permit same to be examined and excerpts or transcriptions made or duplicated from such records, and audits of all contacts, invoices, materials, records of personnel and of employment and other data relating to all matters covered by this SHIP Agreement.

The Borrower shall retain all records and supporting documentation applicable to this SHIP Agreement for inspection for 6 years after the copy is in receipt of the Certificate of Occupancy on the project. If any litigation, claim, negotiation, audit, monitoring, inspection, or other actions has been started before the expiration of the required record retention period, records must be trained until completion of the action and resolution of all issued which arise from it, or the end of the required period, whichever is later. The retention period starts from the Date in which the activities are described in Article II are reported on for the final time rather than from the date of submission of the final expenditure report for the award.

The Borrower agrees to be financially and legally responsible for any audit exceptions or other irregularities in its performance or recordkeeping, including, but not limited to, impermissible or unauthorized use of the Loan funds. This section shall survive termination of this Agreement.

ARTICLE V – NOTICES

Section 5.1 Notices. Any notice required or permitted to be made under this Agreement may be given personally, by facsimile, or by first-class, registered, or certified mail. A notice personally delivered to the other party is deemed given upon proper delivery. A notice sent by first-class, registered, or certified mail is deemed given three (3) days after mailing, if properly addressed and having proper postage. Notices delivered by facsimile shall be deemed to have been given on the date of transmission if received during the recipient's business day. Notices delivered by facsimile and received on other than the recipient's business day shall be deemed received on the recipient's next business day. E-mail addresses, if listed in this Agreement, are only for convenience and not for notice purposes.

ARTICLE VI – INSURANCE

Section 6.1 Professional Legal Liability. The Borrower will maintain professional legal liability or professional errors and omissions coverage appropriate to the Borrower's profession. The coverage will have a limit of not less than One Million Dollars ($1,000,000.00) per occurrence. The coverage will apply to liability for a professional error, act or omission arising out of the Borrower's services under the

Agreement. The coverage will not exclude bodily injury or property damage. The coverage will not exclude hazards related to the work rendered as part of the Agreement or within the scope of the Borrower's services under the Agreement, including testing, monitoring, measuring operations or laboratory analysis where such services are rendered under the Agreement.

Section 6.2 Worker' Compensation and Employer Liability. The Borrower will maintain workers' compensation insurance as required by Florida Statutes and will provide evidence of coverage to the County. If the Contract is for over $50,000, then the Borrower will also maintain employer's liability coverage with a limit of not less than One Million Dollars ($1,000,000.00) not excluding bodily injury or property damage. The coverage will not exclude hazards related to the work rendered as part of the Agreement or within the scope of the Borrower's services under the Agreement, including testing, monitoring, measuring operations or laboratory analysis where such services are rendered under the Agreement.

Section 6.3 Commercial General Liability. The Borrower will maintain commercial general liability coverage for bodily injury, personal injury, and property damage, subject to a limit of not less than One Million Dollars ($1,000,000.00) per occurrence. The general aggregate limit will apply separately to the Agreement and be not less than Two Million Dollars ($2,000,000.00). The Borrower will provide commercial general liability coverage that does not exclude any activity to be performed in fulfillment of the Agreement. Specialized forms specific to the industry of the Borrower will be deemed equivalent, provided coverage is no more restrictive than would be provided under a standard commercial general liability policy, including contractual liability coverage.

Section 6.4 Miscellaneous Insurance Provisions.

A. The insurance limits established by this article are not intended to indicate the Borrower's exposure, nor are they limitations of the Borrower's indemnification duties. This article shall survive termination of this Agreement.
B. The policy shall be endorsed, and the Certificates of Insurance shall reflect that the County, its officers, officials, employees, agents, and representatives, are an additional insured with respect to activities under the Agreement, and the policy will contain no special limitations on the scope of protection afforded to the County, its officers, officials, employees, agents, and representatives as an additional insured.
C. The Certificates will, at a minimum, list limits of liability and coverage. The Borrower will furnish the County with properly executed Certificates of Insurance or a signed policy endorsement, including the additional insured provision, which will clearly evidence all insurance required in this article, before work under this Agreement shall commence, but no later than ten (10) days after the effective date of this Agreement. Acceptable forms of evidence are the endorsement pages of the policy showing the County as an additional insured.
D. The Borrower will maintain all required policies in force from the time services commence until services are completed. The Borrower will provide a current or updated copy of all insurance policies specified in the Agreement upon the request of the County. Certificates, policies, and endorsements scheduled to expire before completion of services will be renewed before expiration. The Certificates will provide that the underlying insurance contract may not be canceled or allowed to expire, except on thirty (30) days prior written notice to the County. Any Certificate or endorsement limiting or negating the insurer's obligation to notify the County of cancellation or changes must be amended to negate the intent of this provision. Written notice of cancellation or change must be delivered to the County as set forth in Section 5.1 above.
E. If the Borrower's liability coverage is written as a claims-made policy, then the Borrower must evidence the purchase of an extended-reporting period or "tail" coverage for a three (3)-year period after completion of the services.

F. The Borrower's liability insurance provisions will be primary with respect to any insurance or self-insurance programs covering the County, its elected and appointed officers, officials, employees, agents, and representatives,
G. Any failure to comply with reporting provisions of the policies will not affect coverage provided to the County, its officers, officials, employees, agents, or representatives.
H. The Borrower's insurance will apply separately to each insured against whom claim is made or suit is brought subject to the limits of the insurer's liability. The Borrower will include all subcontractors as insurers under its policies or will furnish separate Certificates and endorsements for each subcontractor. All coverage for subcontractors will be subject to all the requirements stated in these provisions.

ARTICLE VII – INDEMNIFICATION

Section 7.1 Indemnification. To the fullest extent permitted by law, the Borrower shall indemnify, defend and hold harmless the County and the Hernando Board of County Commissioners (BOCC), and all County officials, officers, employees, agents and each of them, from and against all claims in any way resulting from or arising out of the performance of this Agreement, whether such claims arise from the actual or alleged acts, errors or omissions of the Borrower, its subcontractors, third parties, the County or the BCC or anyone directly or indirectly employed or supervised by any of them or anyone for whose acts, errors or omissions any of them may be liable. "Claim" means any loss, claim, suit, action, liability, damage or expense of any kind or nature whatsoever, including, but not limited to, attorneys' fees and costs, attributable to personal or bodily injury, sickness, disease, or death, or to injury to or destruction of property, including the loss of use resulting therefrom.

Section 7.2 Borrower's Duty to Indemnify. The Borrower's duty to indemnify, defend and hold harmless includes, but is not limited to, claims by the Borrower or any subcontractor's officers, employees, or agents. The Borrower's duty, however, does not extend to claims arising from the sole negligence or willful misconduct of the County, or of the officials, officers, employees, agents or representatives of the County or the BCC.

ARTICLE VIII – NONDISCRIMINATION AND LEGAL COMPLIANCE

Section 8.1 Nondiscrimination. The Borrower shall not discriminate against any employee or applicant for employment, or program participant or program participant applicant, on account of race, color, sex, religion, national origin, creed, marital status, age, or disability.

Section 8.2 Compliance with Laws. The Borrower and its officials, officers, employees, agents, and subcontractors shall comply with all applicable federal, state, and local laws, regulations, rules, and policies. The County shall have no obligation to ensure such compliance.

ARTICLE IX – TERMINATION

Section 9.1 Termination for Loss of Funding. The County shall have the right to terminate this Agreement upon advance written notice if the funds relied upon for the SHIP Loan Program are terminated, suspended, or otherwise lost or impaired in whole or in part.

Section 9.2 Termination for Convenience. Either party may terminate this Agreement for convenience upon giving the other party at least thirty (30) days advance written notice. In the event of termination by the County under this Section 9.2, the Borrower will be entitled to payment only for those expenses and costs reasonably and actually incurred prior to the effective date of the termination.

Section 9.3 Termination for Default. If either party defaults in its performance under this Agreement, the non-defaulting party may give the defaulting party written notice that it has thirty (30) days in which to cure the default. If the default is not cured within thirty (30) days of notice, the non-defaulting party may terminate the Agreement. In the event of such termination, the non-defaulting party shall have all rights and remedies available to it under law.

ARTICLE X – MISCELLANEOUS

Section 10.1 Effective Date. This Agreement shall become effective upon the date of execution by both parties.

Section 10.2 Permissible-Use Warranty. The Borrower warrants that its planned and actual uses of the Loan constitute permissible uses for SHIP funds as established by Florida Statutes. This section shall survive termination of this Agreement.

Section 10.3 Organizational-Status Warranty. The Borrower warrants that it is duly organized, existing and in good standing under the laws of the State of Florida.

Section 10.4 Relationship of Parties. This Agreement, and the Borrower's and the County's activities under it, shall not be construed as creating any kind of partnership or joint venture, nor shall it be construed as creating any kind of independent contractor, agency or employment relationship between the Borrower and the County.

Section 10.5 Assignment. The Borrower shall not assign any of its rights or delegate any of its duties under this Agreement without the prior express written consent of the County, which may be granted or refused in the County's sole discretion.

Section 10.6 No Third-Party Rights. This Agreement is entered into by the parties solely for their own benefit and it creates or grants no rights of any kind in any other party.

Section 10.7 Governing Law; Venue; Jurisdiction; Waiver of Jury Trial; Attorneys' Fees and Costs. This Agreement shall be governed by the laws of the State of Florida. In the event of a legal proceeding, venue shall be only in a court of competent jurisdiction in Hernando County, Florida. Each party hereby consents to the personal jurisdiction of the courts of the State of Florida, Hernando County. The parties hereby waive their right to trial by jury in any claim, action, litigation or proceeding arising out of this Agreement. In the event of any litigation or enforcement involving the terms and provisions of this Agreement through court proceedings or other action, each party shall be responsible for paying its own attorneys' fees and costs regardless of the outcome of such litigation or action. This section shall survive termination of this Agreement.

Section 10.8 Waiver. No term or condition of this Agreement shall be deemed waived unless such waiver is expressly agreed to in writing by the party granting the waiver. In addition, waiver of any breach of this Agreement shall not be deemed a waiver of any prior or subsequent breach.

Section 10.9 Amendment. This Agreement can be amended only by a writing executed by the parties.

Section 10.10 Entire Agreement. The parties acknowledge that this Agreement is the complete expression of their agreement regarding the subject matter of this Agreement. Any oral or written representations or understandings not incorporated into this Agreement are specifically excluded.

Section 10.11 Headings. The headings in this Agreement are for convenience only and shall not be deemed to affect the meaning of its provisions.

Section 10.12 Severability. If any provision of this Agreement is held by a court of competent jurisdiction to be invalid, such invalidity shall not affect the validity of the remaining provisions that can be given effect without the invalid provision, provided that the underlying intent of the parties can still be given effect.

Section 10.13 Signature Authority. Each person signing this Agreement on behalf of a party warrants that he or she has full authority to sign this Agreement on that party's behalf.

Section 10.14 Counterparts. This Agreement may be executed in counterparts, each of which shall be deemed an original and all of which together shall be deemed one agreement. Each counterpart may be executed and delivered by facsimile or e-mail to the other party.

IN WITNESS WHEREOF, the parties have executed this Agreement, by and through their duly authorized representatives, on the respective dates below.

LAND USE RESTRICTION AGREEMENT
TO ENSURE OWNER-OCCUPIED AFFORDABLE HOUSING
PURSUANT TO CH. 420, FLA. STAT.

ON THIS ____ DAY OF _____, 2025 ("Effective Date"), this Land Use Restriction Agreement is made by Hernando County, Florida, a political subdivision of the State of Florida, whose address is 15470 Flight Path Drive, Brooksville, Florida 34604, ("Grantor"), and You Thrive, Florida, Inc, a Florida not for profit corporation, whose address is 820 Kennedy Boulevard, Brooksville, FL 34601, ("Grantee") (each a "Party" and collectively, the "Parties"):

WITNESSETH

WHEREAS, Grantor agreed to convey to Grantee that certain parcel of real property located in Hernando County, Florida and more particularly described as, **Lot 15, Block N, Tangerine Estates, according to the map or plat thereof as recorded in Plat Book 6, page 70, Public Records of Hernando County, Florida. Parcel Number: R12 223 18 3660 00N0 0150** incorporated herein by this reference (the "Property); and

WHEREAS, the Parties' intent and objective is to ensure that the Property remain "affordable" as defined in Fla. Stat. § 420.602(3) (2024), and is owner-occupied, for no less than thirty (30) years from the Effective Date.

NOW, THEREFORE, for and in consideration of $10.00 and other valuable considerations, including the Property, the receipt and sufficiency of which is hereby conclusively acknowledged, the Parties agree as follows:

1. **Development Restriction**. Grantee shall construct on the Property one (1) single family affordable housing unit designed to serve an individual or families with a household income at or below fifty percent (50%) of the area median income (AMI) at the time of purchase for a period of thirty (30) years (the "Development"). Grantee shall fully develop the Property in accordance with this Section within **thirty (30) months** of the Effective Date. Grantee shall keep Grantor apprised of the status of the Development and shall notify Grantor once the Development has been fully constructed (the "Notice of Completion").

Upon receipt of the Notice of Completion from Grantee, Grantor shall have thirty (30) days to either: (i) notify Grantee, in writing, that the Development has been completed to its full satisfaction (the "Notice of Satisfaction"); or (ii) notify Grantee of the specific reasons why the Development has not been completed to its full satisfaction. The Notice of Satisfaction shall be given in a recordable format and shall be recorded in the Public Records of Hernando County by Grantee at Grantee's sole cost and expense.

2. **Conveyance Restriction.** Unless conveying the Property to Grantor (or unless the Property reverts to Grantor), Grantee shall convey the Property and the Development thereon only families or individuals who, at the time of conveyance, have a household income at or below fifty percent (50%) of the area median income (AMI) for Hernando County, as published by the Department of Housing and Urban Development ("qualified owner").

3. **Use Restriction**. Commencing on the date that the Notice of Satisfaction has been recorded, any owner of the Property (or any part thereof) other than the Grantor and Grantee shall be a qualified owner as defined in paragraph 2 above. These use restrictions shall run with the Property (or any portion thereof) and continue for a period of thirty (30) years after the Effective Date. Grantor may seek any remedies available under Florida law to enforce this restriction.

4. **Reverter.** If Grantee violates Sections 1, 2, 3 or 5, or any or all of them, and said violation(s) remain(s) uncured thirty (30) days after written notice by Grantor, the estate granted to the Grantee by the Statutory Deed executed by the Grantor on even date herewith shall automatically and immediately terminate, and all right, title and interest in and to the Property shall thereupon revert to the Grantor, pursuant to Fla. Stat. § 689.18(5) (2024). In such event, all the monetary investments and improvements made to the Property shall be forfeited without any compensation or right to compensation whatsoever.

5. **Required Reverter Clause, Deed to Subsequent Owner.** Grantee shall include the following reverter clause in any deed, and attach as Exhibit "A" the original Statutory Deed and original LURA (defined below) to such deed that conveys the Property to any subsequent owner:

> "The property herein is conveyed in fee simple determinable and is subject to reversion. The said property (or any part thereof) shall be restricted to the ownership or occupancy of families or individuals who, at the time of conveyance, have a household income at or below fifty percent (50%) of the area median income (AMI) for Hernando County, as published by the Department of Housing and Urban Development ("qualified owner"). Grantee may convey the property only to a qualified owner. These use restrictions shall run with the property (or any portion thereof) and be binding upon any subsequent owner and continue for a period of thirty (30) years after the Effective Date of the Statutory Deed that is attached hereto as Exhibit "A" and which is recorded in Hernando County, Florida ("original Statutory Deed"). Grantee is bound by the use restrictions and reverter provision in Sections 3 and 4 of the Land Use Restriction Agreement pertaining to the property executed on even date with the said Statutory Deed ("original LURA"), and which is recorded in Hernando County, Florida. Any subsequent conveyance, of any kind, of the property shall be subject to the same said use restrictions and reverter provision. The Grantor named in the original Statutory Deed and original LURA may seek any remedies available under Florida law to enforce this restriction."

6. **Termination**. This Agreement shall remain in full force and effect for a period of thirty (30) years from the Effective Date, unless the Parties agree, in writing, to terminate this Agreement. To be effective, any such early termination of this Agreement shall be recorded in the Public Records of Hernando County, Florida. This Agreement shall not be modified, amended, or terminated without the express written consent of the Grantor.

7. **Effective Date; Covenant Running With Land; Recording.** The rights granted under this Agreement are vested and effective as of the Effective Date and shall continue unless and until extinguished as set forth herein. This Agreement and all the covenants and provisions thereof shall inure to the benefit of and be binding upon the heirs, legal representatives, successors, and assigns of Grantor and Grantee. Each provision of this Agreement shall be and constitutes a covenant running with the land. Either Party may re-record this Agreement as they desire in order to preserve the rights granted by this Agreement.

8. **Required Development Permits**. Nothing contained in this Agreement shall be construed as a guarantee or assurance that any local development permits which must be obtained will be approved or issued by Hernando County, or any other governmental agency.

9. **Construction.** The Parties acknowledge that with respect to the transactions contemplated herein: (A) each party and its counsel has reviewed and approved this Agreement and that no term, covenant or provision of this Agreement shall be construed by any court, government, governmental authority or arbitration panel against any party hereto by reason of such party's being deemed to have drafted or structured such term, covenant or provision; (B) neither party has received from the other any accounting, tax, legal or other advice; and (C) each party has relied solely on the advice of its own accounting, tax, legal and other advisors.

10. **Attorneys' Fees and Costs; Jury Trial**. In connection with any litigation or court proceedings arising out of this Agreement, each Party shall be responsible for its own attorneys' fees and costs incurred in the prosecution or defense of such action, or in any post judgment or collection proceedings and whether incurred before suit, at the trial level or at the appellate level. This shall include any bankruptcy proceedings. In the event of any such litigation or court proceedings, both Parties hereby waive their respective rights to a jury trial.

11. **Governing Law and Venue.** This Agreement is governed by the laws of the State of Florida, regardless of conflict of law between jurisdictions. Any dispute or litigation arising out of this Agreement shall be brought in Hernando County, Florida.

12. **Counterparts.** This Agreement may be executed by all parties in multiple counterparts, each of which shall be deemed an original, but all such counterparts taken together shall constitute one and the same Agreement.

13. **Heirs and Assigns**. Wherever used herein, the terms "Grantor" and/or "Grantee" shall include the heirs, personal representatives, successors and/or assigns of the respective parties hereto; the use of the singular number shall include the plural, and the plural the singular; the use of any gender shall include all genders.

14. **Severability.** If any provision of this Agreement shall be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining portions hereof shall not in any way be affected or impaired thereby.

15. **Notice.** Any written notice referenced in this Agreement is deemed delivered three (3) business days after the date the sender sends such written notice to the recipient by U.S. certified mail, return-receipt-requested at the address shown above, or any changed address as provided for herein. It is the responsibility of each Party hereto to notify the other in writing of any change in address.

[Signatures Begin on Next Page]

IN WITNESS WHEREOF, the Parties hereto have caused this Land Use Restriction Agreement to be executed, the day and year first above written.

STATE HOUSING INITIATIVES PARTNERSHIP PROGRAM (SHIP)
NON-PROFIT CONSTRUCTION
DEFERRED LOAN AGREEMENT

This State Housing Initiatives Program (SHIP) Non-Profit Construction Deferred Loan Agreement (the Agreement) is made and entered into this 9th day of September, 2025, by and between **Hernando County, Florida,** a political subdivision of the State of Florida, located at 15470 Flight Path Drive, Brooksville, Florida 34604 (the County), and **Mid Florida Community Services, Inc., DBA You Thrive Florida,** a Florida Not for Profit Corporation, located at 820 Kennedy Boulevard, Brooksville, Florida 34601 (the Borrower).

ARTICLE I – PURPOSE

Section 1.1 Purpose: The purpose of this Agreement is to distribute to Borrower, SHIP funds awarded pursuant to Hernando County's Local Housing Assistance Plan (LHAP) and Section 420.9079, Florida Statutes (F.S.) for the purpose of financing the construction of (a) single-family home(s) described in Section 2.2 below and selling the single-family home(s) to (a) SHIP-approved applicant(s).

ARTICLE II – LOAN AMOUNT AND USE

Section 2.1 Loan Amount: The Borrower is awarded a total of $50,000.00 ("the Loan"). This amount will be funded upon issuance of (an) approved building permit(s) to begin construction and a completed construction application to Housing and Supportive Services of the proposed project.

Section 2.2 Use of Loan: The Borrower shall use the Loan solely for the purpose of financing, in part, the construction of (a) single-family home(s) at the following location(s):

Address(es): **16077 Melbourne Street, Brooksville, Florida 34604**

Legal Description(s): **TANGERINE ESTATES BLK N LOT #15**

The Borrower shall sell the single-family home(s) to (a) SHIP-approved applicant(s) meeting the definition of very-low-income or low-income household set forth in Section 420.9071(30), F.S. Should the single-family home(s) constructed utilizing SHIP funds be sold within the thirty (30)-month Loan period, the Loan will be forgiven by the County. Notwithstanding Section 2.8 below, if the single-family home(s) utilizing SHIP funds is/are not sold within the thirty (30)-month Loan period to (a) SHIP-approved applicant(s), the Borrower shall repay the Loan immediately upon expiration of the thirty (30)-month Loan period, unless otherwise agreed to in writing by the County in the County's sole discretion. Upon the expiration of the thirty (30)-month Loan period, the Borrower shall return to the County any SHIP funds not utilized in constructing the single-family home(s) during the thirty (30)-month Loan period.

Section 2.3 The Borrower shall ensure that the single-family home(s) constructed with the SHIP Loan funds remain affordable to very-low-income or low-income households and meet the objectives and requirements of the SHIP statutes and Hernando County's SHIP LHAP. Affordable for this agreement is defined as identified in Hernando County's Local Housing Assistance Plan (LHAP), Hernando County Housing Ordinance, and Section 420.9079, Florida Statutes (F.S.). The sale price of any single-family home constructed by Borrower utilizing Loan funds shall be reduced dollar-for-dollar by the amount of the Loan funds utilized by Borrower in constructing the single-family home. The failure to do so will

result in the Borrower having to repay the Loan to the County, together with interest at the maximum legal rates in existence at the time the Loan is first distributed to the Borrower.

Section 2.4 The Borrower shall submit receipts detailing how funding for construction of the unit identified in Section 2.2 was utilized prior to the second closing.

Section 2.5 The Borrower shall upon closing submit documentation showing implementation of all green, energy efficient materials per Hernando County's SHIP LHAP and Hernando County Standards for: HOME, CDBG and SHIP For New Construction, Re-Construction, and Rehabilitation Projects.

Section 2.6 The Borrower shall provide Housing and Supportive Services with a certificate of occupancy prior to second closing for the property identified in Section 2.2.

Section 2.7 The Borrower shall provide the county with all needed documentation to ensure that the requirements of the agreement have been met within the 30-month period. The failure to do so will result in the Borrower having to repay the Loan to the County, together with interest at the maximum legal rates in existence at the time the Loan is first distributed to the Borrower.

Section 2.8 The Loan shall be made to the Borrower at zero percent interest (0%) for a term of thirty (30) months. The above-described property shall remain "Affordable" as defined in Section 420.9071, F.S., and for use by a household as defined in Section 420.9071(30), F.S., at the time of purchase.

Section 2.9 The Borrower shall place a sign at construction sites supported under this award displaying the Hernando County logo in a manner that informs the public that the project is funded in part or wholly by Hernando County. The sign must be placed in a visible location that can be directly linked to the work taking place and must be maintained in good condition throughout the construction period. If the County logo is displayed along with the logos of other participating entities, the County logo must not be displayed in a manner that implies the county itself is conducting the project.

Section 2.10 The Borrower agrees to notify the Housing and Supportive Services Department in writing of public or media events publicizing the accomplishment of significant events related to construction projects as a result of this agreement and provides the opportunity for attendance and participation by county staff with at least a (10) working day notice.

ARTICLE III – DISBURSEMENTS

Section 3.1 Disbursement of Loan Funds. The County will only disburse funds under this Agreement when the Borrower submits documentary evidence that (a) building permit(s) has(have) been issued for construction of the single-family home(s) on the site(s) described in Section 2.2 above.

Section 3.2 Disbursement Limitations. In no event will the County ever be required to disburse funds more than the Loan unless expressly provided otherwise in this Agreement.

Section 3.3 Disbursement Without Prejudice. Any disbursement made by the County to the Borrower shall be without prejudice to the County's rights later to challenge the propriety of the Borrower's claimed costs or expenses.

Section 3.4 Withholding Disbursements. If the Borrower fails to perform any obligation under this Agreement and the failure has not been cured within ten (10) days following oral or written notice from the County, the County may, without penalty and in its sole discretion and upon written notice to the

Borrower, withhold further disbursements until such failure to perform is cured. This right to withhold disbursements is in addition to all other rights and remedies the County may have available to it under this Agreement or under law.

ARTICLE IV – REPORTS AND RECORDKEEPING

Section 4.1 Records Retention; Review. The Borrower shall maintain records and accounts, including property, personnel and financial records, contractual agreements, subcontracts, proof of required insurance, and any other records related to or resulting from the activities performed under this SHIP agreement to ensure proper accounting and monitoring of all grant funds. The County may monitor all funding sources, including but not limited to Program overfunding. In the event, the County determines that such records are not being adequately maintained by the Project Sponsor, the County may cancel this SHIP agreement in accordance with Articles IV and V herein.

With respect to all matters covered by this SHIP agreement, records will be made available for examination, audit, inspections or copying purposes at any time during normal business hours and as often as the County may require. Borrower will permit same to be examined and excerpts or transcriptions made or duplicated from such records, and audits of all contacts, invoices, materials, records of personnel and of employment and other data relating to all matters covered by this SHIP Agreement.

The Borrower shall retain all records and supporting documentation applicable to this SHIP Agreement for inspection for 6 years after the copy is in receipt of the Certificate of Occupancy on the project. If any litigation, claim, negotiation, audit, monitoring, inspection, or other actions has been started before the expiration of the required record retention period, records must be trained until completion of the action and resolution of all issued which arise from it, or the end of the required period, whichever is later. The retention period starts from the Date in which the activities are described in Article II are reported on for the final time rather than from the date of submission of the final expenditure report for the award.

The Borrower agrees to be financially and legally responsible for any audit exceptions or other irregularities in its performance or recordkeeping, including, but not limited to, impermissible or unauthorized use of the Loan funds. This section shall survive termination of this Agreement.

ARTICLE V – NOTICES

Section 5.1 Notices. Any notice required or permitted to be made under this Agreement may be given personally, by facsimile, or by first-class, registered, or certified mail. A notice personally delivered to the other party is deemed given upon proper delivery. A notice sent by first-class, registered, or certified mail is deemed given three (3) days after mailing, if properly addressed and having proper postage. Notices delivered by facsimile shall be deemed to have been given on the date of transmission if received during the recipient's business day. Notices delivered by facsimile and received on other than the recipient's business day shall be deemed received on the recipient's next business day. E-mail addresses, if listed in this Agreement, are only for convenience and not for notice purposes.

ARTICLE VI – INSURANCE

Section 6.1 Professional Legal Liability. The Borrower will maintain professional legal liability or professional errors and omissions coverage appropriate to the Borrower's profession. The coverage will have a limit of not less than One Million Dollars ($1,000,000.00) per occurrence. The coverage will apply to liability for a professional error, act or omission arising out of the Borrower's services under the

Agreement. The coverage will not exclude bodily injury or property damage. The coverage will not exclude hazards related to the work rendered as part of the Agreement or within the scope of the Borrower's services under the Agreement, including testing, monitoring, measuring operations or laboratory analysis where such services are rendered under the Agreement.

Section 6.2 Worker' Compensation and Employer Liability. The Borrower will maintain workers' compensation insurance as required by Florida Statutes and will provide evidence of coverage to the County. If the Contract is for over $50,000, then the Borrower will also maintain employer's liability coverage with a limit of not less than One Million Dollars ($1,000,000.00) not excluding bodily injury or property damage. The coverage will not exclude hazards related to the work rendered as part of the Agreement or within the scope of the Borrower's services under the Agreement, including testing, monitoring, measuring operations or laboratory analysis where such services are rendered under the Agreement.

Section 6.3 Commercial General Liability. The Borrower will maintain commercial general liability coverage for bodily injury, personal injury, and property damage, subject to a limit of not less than One Million Dollars ($1,000,000.00) per occurrence. The general aggregate limit will apply separately to the Agreement and be not less than Two Million Dollars ($2,000,000.00). The Borrower will provide commercial general liability coverage that does not exclude any activity to be performed in fulfillment of the Agreement. Specialized forms specific to the industry of the Borrower will be deemed equivalent, provided coverage is no more restrictive than would be provided under a standard commercial general liability policy, including contractual liability coverage.

Section 6.4 Miscellaneous Insurance Provisions.

A. The insurance limits established by this article are not intended to indicate the Borrower's exposure, nor are they limitations of the Borrower's indemnification duties. This article shall survive termination of this Agreement.
B. The policy shall be endorsed, and the Certificates of Insurance shall reflect that the County, its officers, officials, employees, agents, and representatives, are an additional insured with respect to activities under the Agreement, and the policy will contain no special limitations on the scope of protection afforded to the County, its officers, officials, employees, agents, and representatives as an additional insured.
C. The Certificates will, at a minimum, list limits of liability and coverage. The Borrower will furnish the County with properly executed Certificates of Insurance or a signed policy endorsement, including the additional insured provision, which will clearly evidence all insurance required in this article, before work under this Agreement shall commence, but no later than ten (10) days after the effective date of this Agreement. Acceptable forms of evidence are the endorsement pages of the policy showing the County as an additional insured.
D. The Borrower will maintain all required policies in force from the time services commence until services are completed. The Borrower will provide a current or updated copy of all insurance policies specified in the Agreement upon the request of the County. Certificates, policies, and endorsements scheduled to expire before completion of services will be renewed before expiration. The Certificates will provide that the underlying insurance contract may not be canceled or allowed to expire, except on thirty (30) days prior written notice to the County. Any Certificate or endorsement limiting or negating the insurer's obligation to notify the County of cancellation or changes must be amended to negate the intent of this provision. Written notice of cancellation or change must be delivered to the County as set forth in Section 5.1 above.
E. If the Borrower's liability coverage is written as a claims-made policy, then the Borrower must evidence the purchase of an extended-reporting period or "tail" coverage for a three (3)-year period after completion of the services.

F. The Borrower's liability insurance provisions will be primary with respect to any insurance or self-insurance programs covering the County, its elected and appointed officers, officials, employees, agents, and representatives,
G. Any failure to comply with reporting provisions of the policies will not affect coverage provided to the County, its officers, officials, employees, agents, or representatives.
H. The Borrower's insurance will apply separately to each insured against whom claim is made or suit is brought subject to the limits of the insurer's liability. The Borrower will include all subcontractors as insurers under its policies or will furnish separate Certificates and endorsements for each subcontractor. All coverage for subcontractors will be subject to all the requirements stated in these provisions.

ARTICLE VII – INDEMNIFICATION

Section 7.1 Indemnification. To the fullest extent permitted by law, the Borrower shall indemnify, defend and hold harmless the County and the Hernando Board of County Commissioners (BOCC), and all County officials, officers, employees, agents and each of them, from and against all claims in any way resulting from or arising out of the performance of this Agreement, whether such claims arise from the actual or alleged acts, errors or omissions of the Borrower, its subcontractors, third parties, the County or the BCC or anyone directly or indirectly employed or supervised by any of them or anyone for whose acts, errors or omissions any of them may be liable. "Claim" means any loss, claim, suit, action, liability, damage or expense of any kind or nature whatsoever, including, but not limited to, attorneys' fees and costs, attributable to personal or bodily injury, sickness, disease, or death, or to injury to or destruction of property, including the loss of use resulting therefrom.

Section 7.2 Borrower's Duty to Indemnify. The Borrower's duty to indemnify, defend and hold harmless includes, but is not limited to, claims by the Borrower or any subcontractor's officers, employees, or agents. The Borrower's duty, however, does not extend to claims arising from the sole negligence or willful misconduct of the County, or of the officials, officers, employees, agents or representatives of the County or the BCC.

ARTICLE VIII – NONDISCRIMINATION AND LEGAL COMPLIANCE

Section 8.1 Nondiscrimination. The Borrower shall not discriminate against any employee or applicant for employment, or program participant or program participant applicant, on account of race, color, sex, religion, national origin, creed, marital status, age, or disability.

Section 8.2 Compliance with Laws. The Borrower and its officials, officers, employees, agents, and subcontractors shall comply with all applicable federal, state, and local laws, regulations, rules, and policies. The County shall have no obligation to ensure such compliance.

ARTICLE IX – TERMINATION

Section 9.1 Termination for Loss of Funding. The County shall have the right to terminate this Agreement upon advance written notice if the funds relied upon for the SHIP Loan Program are terminated, suspended, or otherwise lost or impaired in whole or in part.

Section 9.2 Termination for Convenience. Either party may terminate this Agreement for convenience upon giving the other party at least thirty (30) days advance written notice. In the event of termination by the County under this Section 9.2, the Borrower will be entitled to payment only for those expenses and costs reasonably and actually incurred prior to the effective date of the termination.

Section 9.3 Termination for Default. If either party defaults in its performance under this Agreement, the non-defaulting party may give the defaulting party written notice that it has thirty (30) days in which to cure the default. If the default is not cured within thirty (30) days of notice, the non-defaulting party may terminate the Agreement. In the event of such termination, the non-defaulting party shall have all rights and remedies available to it under law.

ARTICLE X – MISCELLANEOUS

Section 10.1 Effective Date. This Agreement shall become effective upon the date of execution by both parties.

Section 10.2 Permissible-Use Warranty. The Borrower warrants that its planned and actual uses of the Loan constitute permissible uses for SHIP funds as established by Florida Statutes. This section shall survive termination of this Agreement.

Section 10.3 Organizational-Status Warranty. The Borrower warrants that it is duly organized, existing and in good standing under the laws of the State of Florida.

Section 10.4 Relationship of Parties. This Agreement, and the Borrower's and the County's activities under it, shall not be construed as creating any kind of partnership or joint venture, nor shall it be construed as creating any kind of independent contractor, agency or employment relationship between the Borrower and the County.

Section 10.5 Assignment. The Borrower shall not assign any of its rights or delegate any of its duties under this Agreement without the prior express written consent of the County, which may be granted or refused in the County's sole discretion.

Section 10.6 No Third-Party Rights. This Agreement is entered into by the parties solely for their own benefit and it creates or grants no rights of any kind in any other party.

Section 10.7 Governing Law; Venue; Jurisdiction; Waiver of Jury Trial; Attorneys' Fees and Costs. This Agreement shall be governed by the laws of the State of Florida. In the event of a legal proceeding, venue shall be only in a court of competent jurisdiction in Hernando County, Florida. Each party hereby consents to the personal jurisdiction of the courts of the State of Florida, Hernando County. The parties hereby waive their right to trial by jury in any claim, action, litigation or proceeding arising out of this Agreement. In the event of any litigation or enforcement involving the terms and provisions of this Agreement through court proceedings or other action, each party shall be responsible for paying its own attorneys' fees and costs regardless of the outcome of such litigation or action. This section shall survive termination of this Agreement.

Section 10.8 Waiver. No term or condition of this Agreement shall be deemed waived unless such waiver is expressly agreed to in writing by the party granting the waiver. In addition, waiver of any breach of this Agreement shall not be deemed a waiver of any prior or subsequent breach.

Section 10.9 Amendment. This Agreement can be amended only by a writing executed by the parties.

Section 10.10 Entire Agreement. The parties acknowledge that this Agreement is the complete expression of their agreement regarding the subject matter of this Agreement. Any oral or written representations or understandings not incorporated into this Agreement are specifically excluded.

Section 10.11 Headings. The headings in this Agreement are for convenience only and shall not be deemed to affect the meaning of its provisions.

Section 10.12 Severability. If any provision of this Agreement is held by a court of competent jurisdiction to be invalid, such invalidity shall not affect the validity of the remaining provisions that can be given effect without the invalid provision, provided that the underlying intent of the parties can still be given effect.

Section 10.13 Signature Authority. Each person signing this Agreement on behalf of a party warrants that he or she has full authority to sign this Agreement on that party's behalf.

Section 10.14 Counterparts. This Agreement may be executed in counterparts, each of which shall be deemed an original and all of which together shall be deemed one agreement. Each counterpart may be executed and delivered by facsimile or e-mail to the other party.

IN WITNESS WHEREOF, the parties have executed this Agreement, by and through their duly authorized representatives, on the respective dates below.

LAND USE RESTRICTION AGREEMENT
TO ENSURE OWNER-OCCUPIED AFFORDABLE HOUSING
PURSUANT TO CH. 420, FLA. STAT.

ON THIS 9th DAY OF September, 2025 ("Effective Date"), this Land Use Restriction Agreement is made by Hernando County, Florida, a political subdivision of the State of Florida, whose address is 15470 Flight Path Drive, Brooksville, Florida 34604, ("Grantor"), and You Thrive, Florida, Inc, a Florida not for profit corporation, whose address is 820 Kennedy Boulevard, Brooksville, FL 34601, ("Grantee") (each a "Party" and collectively, the "Parties"):

WITNESSETH

WHEREAS, Grantor agreed to convey to Grantee that certain parcel of real property located in Hernando County, Florida and more particularly described as, **Lot 15, Block N, Tangerine Estates, according to the map or plat thereof as recorded in Plat Book 6, page 70, Public Records of Hernando County, Florida. Parcel Number: R12 223 18 3660 00N0 0150** incorporated herein by this reference (the "Property); and

WHEREAS, the Parties' intent and objective is to ensure that the Property remain "affordable" as defined in Fla. Stat. § 420.602(3) (2024), and is owner-occupied, for no less than thirty (30) years from the Effective Date.

NOW, THEREFORE, for and in consideration of $10.00 and other valuable considerations, including the Property, the receipt and sufficiency of which is hereby conclusively acknowledged, the Parties agree as follows:

1. **Development Restriction**. Grantee shall construct on the Property one (1) single family affordable housing unit designed to serve an individual or families with a household income at or below fifty percent (50%) of the area median income (AMI) at the time of purchase for a period of thirty (30) years (the "Development"). Grantee shall fully develop the Property in accordance with this Section within **thirty (30) months** of the Effective Date. Grantee shall keep Grantor apprised of the status of the Development and shall notify Grantor once the Development has been fully constructed (the "Notice of Completion").

Upon receipt of the Notice of Completion from Grantee, Grantor shall have thirty (30) days to either: (i) notify Grantee, in writing, that the Development has been completed to its full satisfaction (the "Notice of Satisfaction"); or (ii) notify Grantee of the specific reasons why the Development has not been completed to its full satisfaction. The Notice of Satisfaction shall be given in a recordable format and shall be recorded in the Public Records of Hernando County by Grantee at Grantee's sole cost and expense.

2. **Conveyance Restriction.** Unless conveying the Property to Grantor (or unless the Property reverts to Grantor), Grantee shall convey the Property and the Development thereon only families or individuals who, at the time of conveyance, have a household income at or below fifty percent (50%) of the area median income (AMI) for Hernando County, as published by the Department of Housing and Urban Development ("qualified owner").

3. **Use Restriction**. Commencing on the date that the Notice of Satisfaction has been recorded, any owner of the Property (or any part thereof) other than the Grantor and Grantee shall be a qualified owner as defined in paragraph 2 above. These use restrictions shall run with the Property (or any portion thereof) and continue for a period of thirty (30) years after the Effective Date. Grantor may seek any remedies available under Florida law to enforce this restriction.

4. **Reverter.** If Grantee violates Sections 1, 2, 3 or 5, or any or all of them, and said violation(s) remain(s) uncured thirty (30) days after written notice by Grantor, the estate granted to the Grantee by the Statutory Deed executed by the Grantor on even date herewith shall automatically and immediately terminate, and all right, title and interest in and to the Property shall thereupon revert to the Grantor, pursuant to Fla. Stat. § 689.18(5) (2024). In such event, all the monetary investments and improvements made to the Property shall be forfeited without any compensation or right to compensation whatsoever.

5. **Required Reverter Clause, Deed to Subsequent Owner.** Grantee shall include the following reverter clause in any deed, and attach as Exhibit "A" the original Statutory Deed and original LURA (defined below) to such deed that conveys the Property to any subsequent owner:

> "The property herein is conveyed in fee simple determinable and is subject to reversion. The said property (or any part thereof) shall be restricted to the ownership or occupancy of families or individuals who, at the time of conveyance, have a household income at or below fifty percent (50%) of the area median income (AMI) for Hernando County, as published by the Department of Housing and Urban Development ("qualified owner"). Grantee may convey the property only to a qualified owner. These use restrictions shall run with the property (or any portion thereof) and be binding upon any subsequent owner and continue for a period of thirty (30) years after the Effective Date of the Statutory Deed that is attached hereto as Exhibit "A" and which is recorded in Hernando County, Florida ("original Statutory Deed"). Grantee is bound by the use restrictions and reverter provision in Sections 3 and 4 of the Land Use Restriction Agreement pertaining to the property executed on even date with the said Statutory Deed ("original LURA"), and which is recorded in Hernando County, Florida. Any subsequent conveyance, of any kind, of the property shall be subject to the same said use restrictions and reverter provision. The Grantor named in the original Statutory Deed and original LURA may seek any remedies available under Florida law to enforce this restriction."

6. **Termination**. This Agreement shall remain in full force and effect for a period of thirty (30) years from the Effective Date, unless the Parties agree, in writing, to terminate this Agreement. To be effective, any such early termination of this Agreement shall be recorded in the Public Records of Hernando County, Florida. This Agreement shall not be modified, amended, or terminated without the express written consent of the Grantor.

7. **Effective Date; Covenant Running With Land; Recording.** The rights granted under this Agreement are vested and effective as of the Effective Date and shall continue unless and until extinguished as set forth herein. This Agreement and all the covenants and provisions thereof shall inure to the benefit of and be binding upon the heirs, legal representatives, successors, and assigns of Grantor and Grantee. Each provision of this Agreement shall be and constitutes a covenant running with the land. Either Party may re-record this Agreement as they desire in order to preserve the rights granted by this Agreement.

8. **Required Development Permits**. Nothing contained in this Agreement shall be construed as a guarantee or assurance that any local development permits which must be obtained will be approved or issued by Hernando County, or any other governmental agency.

9. **Construction.** The Parties acknowledge that with respect to the transactions contemplated herein: (A) each party and its counsel has reviewed and approved this Agreement and that no term, covenant or provision of this Agreement shall be construed by any court, government, governmental authority or arbitration panel against any party hereto by reason of such party's being deemed to have drafted or structured such term, covenant or provision; (B) neither party has received from the other any accounting, tax, legal or other advice; and (C) each party has relied solely on the advice of its own accounting, tax, legal and other advisors.

10. **Attorneys' Fees and Costs; Jury Trial**. In connection with any litigation or court proceedings arising out of this Agreement, each Party shall be responsible for its own attorneys' fees and costs incurred in the prosecution or defense of such action, or in any post judgment or collection proceedings and whether incurred before suit, at the trial level or at the appellate level. This shall include any bankruptcy proceedings. In the event of any such litigation or court proceedings, both Parties hereby waive their respective rights to a jury trial.

11. **Governing Law and Venue.** This Agreement is governed by the laws of the State of Florida, regardless of conflict of law between jurisdictions. Any dispute or litigation arising out of this Agreement shall be brought in Hernando County, Florida.

12. **Counterparts.** This Agreement may be executed by all parties in multiple counterparts, each of which shall be deemed an original, but all such counterparts taken together shall constitute one and the same Agreement.

13. **Heirs and Assigns**. Wherever used herein, the terms "Grantor" and/or "Grantee" shall include the heirs, personal representatives, successors and/or assigns of the respective parties hereto; the use of the singular number shall include the plural, and the plural the singular; the use of any gender shall include all genders.

14. **Severability.** If any provision of this Agreement shall be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining portions hereof shall not in any way be affected or impaired thereby.

15. **Notice.** Any written notice referenced in this Agreement is deemed delivered three (3) business days after the date the sender sends such written notice to the recipient by U.S. certified mail, return-receipt-requested at the address shown above, or any changed address as provided for herein. It is the responsibility of each Party hereto to notify the other in writing of any change in address.

[Signatures Begin on Next Page]

IN WITNESS WHEREOF, the Parties hereto have caused this Land Use Restriction Agreement to be executed, the day and year first above written.

DOC ID: 16193
Legal Request Number:
Bid/Contract Number:

TITLE
Request by Willie Twiggs for Water and Sewer Connection Fee Extended Payment Plan for Property Located at 3335 Shoal Line Boulevard

BRIEF OVERVIEW
Willie Twiggs is requesting a payment plan for new commercial water/sewer connection fees associated with a 5/8" meter on Commercial Permit #1501987. The quoted amount determined by Hernando County Utilities is $9,350.00 for tap-in, connection and deposit fees. He is planning to construct a food court at 3335 Shoal Line Boulevard in Hernando Beach.

The County Code Chapter 28 Section 216(c) allows for connection fee payment plans for this type of use. Per the code, when private entities, serving apartments, mobile home parks or other commercial establishments under single ownership and/or control are required by a governmental agency to connect to the district utility system, the connection fees required by section 28-213 may be paid as a lump sum in accordance with this section, subsection (a)(1) or, if approved by the board, on an extended payment plan.

The extended payment plan shall require a down payment equal to twenty percent (20%) of the connection fee. The remainder shall be payable in equal monthly installments at an annual interest rate not to exceed what is authorized by Florida Statutes over a period of time not to exceed five (5) years. Monthly installments may be billed and paid separately or along with the monthly water and/or sewer service bills from department, or by use of pre-issued monthly coupons or billing statements.

The payment plan proposed for Willie Twiggs would require an initial payment of 20% of the total amount due upfront. The remaining balance will be divided into equal monthly payments over a twelve-month period. Mr. Twiggs has signed a letter agreeing to these terms.

FINANCIAL IMPACT
No financial impact as the connection fee will be paid within a 12-month period.

LEGAL NOTE
The Board is authorized to act on this matter pursuant to Section 28-216(c), Hernando County Code of Ordinances and Chapter 125, Florida Statutes.

RECOMMENDATION
It is recommended that the Board allow Willie Twiggs to pay the water and sewer connection fee per the extended payment plan as outlined above.

Re Project: Willie Twiggs - Food Court
3335 Shoal Line Blvd

Dear Mr. DiCaro,

Hernando County Utilities Department staff has determined the connection, tap-in and deposit fees for the project.
The calculations for the water and sewer meter size are as follows:

Fee Type	Meter Size	Meter Factor	Connection	Tap In Fee	Deposit	Total
Water	**5/8"**	**1.0**	**$ 2,397.00**	**$ 1,015.00**	**$ 375.00**	
Sewer		**1.0**	**$ 5,563.00**			
TOTALS			**$ 7,960.00**	**$ 1,015.00**	**$ 375.00**	**$ 9,350.00**

Please remit payment in the amount of **$ 9,350.00** payable to HCUD.

Please sign and complete the enclosed service application. When submitting attach the address letter from Property Appraiser's Address Department, if the project is for multiple properties an address form will need to be submitted for each address.

Sincerely,

Sandra Arnold

Sec. 28-216. - Connection fee payment, revisions, expenditures and refunds.

(a) *Connection fee payment schedule.* Payment of connection fees shall be made upon commitment by the district for capacity, upon approval of a water and/or sewer service agreement, or concurrent with the issuance of building or remodeling permits by the Hernando County Development Department. Connection fees shall be paid either as a lump sum or in project phases as described below, or on an installment basis with monthly, quarterly, semi-annual or annual payments. For all connection fees paid on an installment basis, the installment period shall not exceed five (5) years.

(1) *Lump sum payment.* The connection fee payment amount shall be for the amount of sewer or water capacity committed to the project. Connection fees for all projects involving single buildings shall be paid fully upon receipt of the formal commitment. Payment of connection fees for any project may be made as a lump sum at the option of the applicant and shall be paid upon receipt of formal commitment. If an immediate expenditure of funds is not required by the county to provide service, an irrevocable letter of credit from a Florida bank or other security acceptable to the county attorney equal to one hundred (100) percent of the total connection fee may be acceptable, until a time specified by the county.

(2) *Project phase payments.* Connection fees for project phases shall be paid upon commitment for service by the district for the additional project phases. If an immediate expenditure of funds is not required by the district to provide service, an irrevocable letter of credit from a Florida bank or other security acceptable to the county attorney equal to one hundred (100) percent of the total connection fee may be acceptable, until a time specified by the county.

(3) *Installment payments.* In cases of financial need, the department may offer an installment payment plan to persons with a single-family home that must be connected to the county's systems as a result of well failure, water and/or sewer line extensions that require connection of existing properties, and/or by order of the health department or the Florida Department of Environmental Protection. The installment payments will be assessed and collected in the manner described in subsection 28-214(d)(6).

(b) *Connection fee revisions.* Any changes in regard to connection fees listed herein shall be by resolution of the Hernando County Water and Sewer District Board at a properly advertised board meeting in accordance with subsection 28-213(c)(2). Revised connection fees shall apply to commitments then in effect as follows:

(1) Commitments involving connection fees fully paid under the lump sum payment method shall not be affected by the revised fee schedule until expiration of the commitment. If a time extension is granted upon expiration of the commitment, additional applicable fees shall apply for all phases of the project for which construction plans have not been approved. The

applicant shall have the option of either paying the difference in connection fees for each project phase made after expiration of the original commitment or of having the remaining unused connection fee balance credited toward a revised number of prepaid connections.

(2) Commitments involving connection fees paid under the incremental payment method shall be revised in the following manner:

a. Down payments shall be credited in the same manner as lump sum payments described in subsection (b)(1) above.

b. Upon full utilization of the lump sum payment, connection fees for remaining units shall be based upon the connection fees in effect at the time application is made for a building permit.

(c) *Connection fee extended payment plan.* When private entities, serving apartments, mobile home parks or other commercial establishments under single ownership and/or control are required by a governmental agency to connect to the district utility system, the connection fees required by section 28-213 may be paid as a lump sum in accordance with this section, subsection (a)(1) or, if approved by the board, on an extended payment plan.

The extended payment plan shall require a down payment equal to twenty (20) percent of the connection fee. The remainder shall be payable in equal monthly installments at an annual interest rate not to exceed what is authorized by Florida Statutes over a period of time not to exceed five (5) years. Monthly installments may be billed and paid separately or along with the monthly water and/or sewer service bills from department, or by use of pre-issued monthly coupons or billing statements.

(d) *Connection fee expenditures.*

(1) Connection fees will be deposited in a separate fund and accounted for by water or sewer revenue and expense.

(2) All interest earned by the investments of monies in this fund will be deposited into this fund prorated to water or sewer per account balance.

(3) Connection fees may be expended district-wide.

(e) *Connection fees; non-refundable.* Except as otherwise required by law, connection fees paid to the department are not refundable.

(Ord. No. 2003-06, § 8, 3-25-03; Ord. No. 2005-20, § 7, 10-18-05; Ord. No. 2006-02, § 3, 2-14-06)

Sec. 28-214. - Point of connection; extension of service.

(a) *General.* The district reserves the right to establish the point of connection for all connections to district systems. In any such case, the district's determination shall be based on a balancing of the desires of an applicant for a particular point of connection for service as against costs incurred by or other effects on the district's ratepayers as a whole. Inefficiency and/or generalized or specific cost burdens on the ratepayers from use of a particular point of connection shall outweigh all but the most compelling of justifications presented by an applicant.

(b) *Extension of water and sewer service to new developments.*

(1) *Who shall design and construct.* The department shall determine which entity (the applicant or the department) shall design and construct the line extension to connect with the district system. The department shall not recommend, and the water and sewer district board shall not approve, agreements for service that would require existing district ratepayers to subsidize the cost of any portion of such extension, except to the extent of oversizing as provided in this section.

(2) *By applicant.* Upon request by the applicant, and approval by the department, the applicant may engage his engineer to design and construct the required line extension. Design and construction shall be in accordance with the appropriate policy, standards and specifications of the department and the district.

(3) *By department.* Upon request by the applicant, the department may cause to be constructed the necessary water and/or wastewater line extensions to the project. Upon receipt of said request, the department will advise the applicant of the estimated construction cost (to include engineering, legal and administrative costs) and the estimated time of completion. Payment of the estimated cost to the department will be required prior to initiating construction. Adjustment to the department, or the applicant, will be made based upon final construction costs.

(4) *Basis of extension size.* Water main extensions are to be sized based upon the most current American Water Works Association (AWWA) velocity standards for estimated maximum daily domestic water usage plus fire flows. Under no circumstances shall water transmission main extensions be less than eight-inch diameter. Sanitary force main extensions shall be sized based upon maintaining a velocity and a maximum velocity for design flow conditions which conforms to regulatory agency specifications or requirements. Gravity sanitary sewer extensions shall be a minimum of eight-inch diameter. For purposes of this requirement, the above criteria shall only apply to through streets, or other cases where future additional development is possible.

(c) *Oversizing.* Where the district requires oversizing for the purpose of serving future additional development, the applicant shall be so advised. All construction costs associated with oversizing shall be borne by the district. The cost of over-sizing may be credited against connection fees, and costs for oversizing in excess of connection fees may be paid to the applicant by the district upon completion of the project, or upon expenditure where so provided in an approved agreement between the applicant and the district. Costs of oversizing shall be based upon the incremental installed cost of the oversizing, based on actual bid quantities or costs of the contractor.

(d) *Extensions of water and sewer service to existing developments adjacent to district facilities.*

(1) Where service is requested by individual property owners, either residential or commercial, in areas adjacent to existing district facilities having adequate capacity, involving potential future customers in addition to those requesting service, department will determine the feasibility of constructing the necessary line extensions with payment for connection fees and cost of extension to be by lump sum, contractual installment payments, or special assessment, in accordance with applicable provisions of law.

(2) The department may determine whether the work will be done by department staff, or contracted out, based on the best interest of the district.

(3) Allocation of line extension costs shall be on a proportionate basis, in accordance with the anticipated flow associated with each benefitted property based on an equivalent residential unit, or front footage.

(4) If the proportionate ERU cost for the extension exceeds the corresponding connection fee component, the corresponding connection fee component will be replaced by the amount of the proportionate ERU cost of the extension.

For example: If the proportionate cost per ERU for a waterline extension is five hundred dollars ($500.00), and the corresponding ERU component of the connection fee is two hundred and ten dollars ($210.00) (based on a five-hundred-twenty-five-dollar water connection fee), the connection fee shall be reduced to three hundred fifteen dollars ($315.00) (five hundred twenty-five dollars ($525.00) less two hundred and ten dollars ($210.00)) and the five-hundred-dollar line extension cost added to the connection fee, for a total connection fee of eight hundred fifteen dollars ($815.00). Hook-up fee and any applicable deposit shall be in addition to the connection fee.

(5) If the proportionate ERU cost for the extension is less than or equal to the corresponding connection fee component, the existing connection fee will be assessed per ERU for each property connected to the extended facilities.

(6) If the proportionate cost per ERU exceeds the corresponding connection fee component, and there are up to one hundred (100) potential connections to the extended facilities, the department may enter into water and sewer service contracts with individual customers for payment of the line extension cost over and above the connection fee, hook-up fee and applicable deposit.

a. The customer will pay the hook-up fee and any applicable deposit prior to service connection, and at least twenty-five (25) percent of the remaining connection fee less the proportionate extension cost.

b. The department may provide an installment payment plan to customers for the balance due, payable in equal monthly installments, with interest not to exceed the interest rate authorized by Florida Statutes, amortized over a period not to exceed two (2) years, or twenty-four (24) months.

c. Contract installment payment plans shall be available only at the time of the line extension, with connection to the system made at the time of construction. All entities connecting after the original construction period shall pay full fees prior to connection, including the additional line extension cost.

(7) If the proportionate cost per ERU exceeds the corresponding connection fee component, and the potential connections to the extension facilities exceed one hundred (100) connections, the line extension costs shall be paid by special assessment wherein all benefited property owners are charged one hundred (100) percent of the cost of such extensions. All special assessments shall be approved by the board at a properly advertised public hearing.

The board, as the governing board of the district, will utilize its discretion as to whether or not the work will be done by department staff, or contracted out, whichever method is best for the property owners.

a. The time period for repayment shall be based upon the amount of the assessment in accordance with county policy.

b. Connection fees, hook-up fees, and applicable deposits will be separate and in addition to the assessment. The appropriate components of the connection fee shall be replaced with the extension costs collected by assessment and the remaining components of the connection fee will be due prior to service connection, along with the hook-up fee and applicable deposit. The board may approve inclusion of the connection and hook-up fees with the assessment. Applicable deposits will be due upon connection.

c. Any assessments may be paid at the office of the county tax collector within thirty (30) days after the confirmation thereof, without interest. Thereafter all assessments shall be payable in equal annual installments, with interest not to exceed the interest rate authorized by Florida Statutes, from the expiration of said thirty (30) days in each of the succeeding number of years for which the assessment will be payable as determined by resolution at the time or times in each year at which the general property taxes are payable; provided, however, that the district may by resolution fix a shorter period of payment for any assessment and/or adjust the interest rate not to exceed what is authorized by Florida Statutes; provided further that any assessment may be paid at any time before due, together with interest accrued thereon to the date of payment.

(8) Connection fees associated with facility extensions will be required as stipulated in this division. Connection fee payment shall be made prior to connecting to the facilities, or, if requested by the applicant and approved by the district may be included in the contractual installment plan or the special assessment as outlined in subsections (d)(6) and (d)(7) above.

(9) When the applicant can document that a special assessment levied on behalf of the water and sewer district was assessed against their property, the amount of the special assessment shall be deducted from the current connection fee. The balance of the connection fee shall be payable prior to connection to the system.

There were fourteen (14) special assessments on behalf of the water and sewer district, as follows: Weeki Wachee and Hernando Beach on February 27, 1978 and again on March 29, 1978; Pine Island and North Bayport on August 29, 1978; Cedar Lane Sites on February 1, 1979; Weeki Wachee, Hernando Beach, Pine Island and North Bayport (remaining lots) on October 4, 1979; Ridge Manor on May 21, 1980; Ridge Manor West on January 30, 1980; River Country on June 7, 1979; Berkeley Manor on October 18, 1979 (later rescinded); Fort Dade Mobile Home Park on June 9, 1981; Hernando Beach, Unit 13, on February 24, 1981; and Aripeka on May 27, 1982.

(10) If the assessment paid was in accordance with subsection (d)(7) and was limited to the cost of facilities extension, then the assessment paid, up to, but not exceeding, the corresponding connection fee component, shall be deducted from the connection fee. The remaining portion of the corresponding component, if any, and the other components of the connection fee shall be payable prior to connection to the system.

(Ord. No. 2003-06, § 6, 3-25-03; Ord. No. 2005-20, § 5, 10-18-05)

Re: Permit #1501987
Willie Twiggs – Food Truck Court

Dear Mr. Twiggs,

Your request for a Connection Fee Extended Payment Plan has been reviewed by Hernando County Utilities Management. Please see below the proposal for your request.

Full amount of quoted connection fees equal $9,350.00 for a 5/8" water meter / sewer connections.

12-month Connection Fee Extended Payment Plan

1) (20) percent down payment of total connection fee charges
2) Remainder shall be paid in equal 12 monthly installments at an annual interest rate not to exceed what is authorized by Florida Statues.

If you agree with this proposal, please sign below and email to commercialaccountspecialist@co.hernando.fl.us.

Willie Twiggs 8/22/25

Signature Date

Please be advised, this is only a proposal and subject to approval by BOCC.

TITLE

Declaration of County Owned Property Located at 201 West Dr. Martin Luther King Jr. Boulevard as Surplus Property and Consideration of Ground Lease Agreement With Community Food Bank of Citrus County, Inc., for Rise Center Food Bank (Key #357884)

BRIEF OVERVIEW

On March 11, 2021, the American Rescue Plan Act (ARPA) was signed into law and established the Coronavirus State Fiscal Recovery Fund and Coronavirus Local Fiscal Recovery Fund which together make up the Coronavirus State and Local Fiscal Recovery Funds ("SLFRF") program. This program is intended to provide support to state, territorial, local, and tribal governments in responding to the economic and public health impacts of COVID 19.

Item No. 14559, brought before the Board on October 22, 2024, contained a request for $250,000.00 of the ARPA funding to be approved to assist Community Food Bank with constructing the Rise Center.

Item No. 15092, brought before the Board on December 17, 2024, contained a subrecipient agreement with Community Food Bank of Citrus County, Inc., request that $250,000.00 in ARPA funding be obligated to Community Food bank to assist with Phase 2 construction services.

Hernando County owns Parcel Key No. 357884, a 204,460 square feet parcel (approximately 4.7 acres of land) formerly used by the Department of Public Works, located at 201 West Dr. Martin Luther King Jr. Boulevard.

Attached is the Ground Lease Agreement with Community Food Bank of Citrus County, Inc., to lease the premises located at 201 West Dr. Martin Luther King Jr. Boulevard for a thirty (30) year term with two (2) additional terms of ten (10) years each. Per the Agreement, the lessee will be permitted use of the premises for the following purposes: the design, construction, and operation of the Rise Center to include a food bank warehouse in partnership with Hernando County Housing and Supportive Services and other community partners.

The Rise Center will be dedicated to operating a community food bank warehouse to serve the entire community and will incorporate other venues of assistance or office space to provide programs for entrepreneurship, education and training, direct social services, and an outdoor public event space. Community Food Bank of Citrus County, Inc., has also agreed to host community events, such as public markets, educational workshops, training programs, entrepreneurial opportunities, and other activities benefiting the community at this location.

FINANCIAL IMPACT

The rental proceeds will be posted to:

Fund: 1011 - Transportation Trust Fund, **Account: 3620050** - Lease-Land

LEGAL NOTE

The Board has the authority to enter into this agreement pursuant to Chapter 125, Florida Statute.

RECOMMENDATION

It is recommended that the Board declare Parcel Key No. 357884 as surplus, approve the attached Ground Lease Agreement with Community Food Bank of Citrus County, Inc., and authorize the Chairman's signature upon it.

GROUND LEASE AGREEMENT

THIS GROUND LEASE AGREEMENT ("Agreement") is entered into on this ___day of _____, 2025, by and between **HERNANDO COUNTY,** a political subdivision of the State of Florida, whose address is 15470 Flight Path Drive, Brooksville, FL 34604 ("**LESSOR**") and **COMMUNITY FOOD BANK OF CITRUS COUNTY, INC.**, a Florida not-for-profit corporation, whose address is 5259 West Cardinal Street, Homosassa, FL 34446 ("**LESSEE**").

SECTION 1. LEASED PREMISES

LESSOR hereby leases to LESSEE approximately 4.7 acres of land located at 201 West Dr. Martin Luther King Jr. Blvd., Brooksville, FL 34601 (the "Premises") described as:

> COMMENCE AT THE QUARTER SECTION LINE ON THE NORTH BOUNDARY OF SECTION 22, TOWNSHIP 22 SOUTH, RANGE 19 EAST. THENCE RUN SOUTH 00°13'00" EAST ALONG SAID SECTION LINE 680.00 FEET, THENCE SOUTH 87°01'00" EAST ALONG SOUTH BOUNDARY OF COOK AVENUE 806.79 FEET, THENCE SOUTH 00°14'00" WEST ALONG THE EAST BOUNDARY OF SAXON'S HEIGHTS 715.01 FEET TO CENTER OF THE PAVED ROAD FOR A POINT OF BEGINNING, THENCE RUN SOUTH 88°47'00" WEST 647.51 FEET ALONG THE CENTER OF THE ROAD, THENCE SOUTH 01°07'49" EAST 318.00 FEET, THENCE NORTH 89°28'18" EAST 629.02 FEET, THENCE NORTH 00°00'50" WEST 107.91 FEET, THENCE NORTH 89°24'46" EAST 11.33 FEET, THENCE NORTH 00°12'32" EAST 217.86 FEET TO POINT OF BEGINNING: EXCEPTING ROAD RIGHT-OF WAY.
>
> Parcel ID No.: R27 422 19 0000 0010 0000 Key No.: 357884

SECTION 2. TERM

A. The term of this Lease shall commence upon the execution of this Agreement and continue for a period of thirty (30) years, unless terminated earlier as provided herein.

B. So long as LESSEE is not in default under this Agreement, LESSEE has the right to request renewal of the term of this Agreement for two (2) additional terms of ten (10) years each. LESSEE must request each renewal option by written notice of such renewal request to LESSOR at least 90 days prior to the expiration of the initial term of this Agreement (as to the first

renewal) or any then-current renewal term (as to any subsequent renewal). All terms and conditions that govern the initial terms shall govern any renewal term, except as expressly set forth herein.

SECTION 3. RENT AND TAXES

A. Annually on or before the 10th day of January of any calendar year for which this Agreement remains in effect, LESSEE shall pay rent in the amount of Ten Dollars ($10.00). Rent shall be paid to HERNANDO COUNTY BOARD OF COUNTY COMMISSIONERS and directed to FINANCE DEPARTMENT – BOCC, 20 North Main Street, Room 264, Brooksville, FL 34601. In the event that this Agreement is executed after the 10th day of January 2025, the initial annual payment shall be made by LESSEE at the time this Lease is executed.

B. LESSEE shall pay all taxes, assessments, or other public charges levied or assessed on this lease, the rents herein reserved, and the Premises or any building erected thereon.

SECTION 4. PERMITTED USE

The Premises shall be used by LESSEE for the following purposes:

A. The design, construction and operation of the Rise Center as proposed by LESSEE will be dedicated to operating a community food bank to serve local residents but will incorporate other venues of assistance or office space to provide programs for entrepreneurship, education and training, direct social services, and an outdoor event space.

B. LESSEE shall continually operate the Rise Center to include a food bank warehouse in partnership with Hernando County Housing and Supportive Services and other community partners.

C. LESSEE agrees to host community events, such as public markets, educational workshops, training programs, entrepreneurial opportunities, and other activities benefiting the public.

D. LESSEE agrees to provide a detailed annual schedule of events, activities, or gatherings planned on the premises for every year the lease is in effect. This schedule must be submitted by October 1 each year for events occurring from January through June of the following year. For events scheduled from July through December, the LESSEE must submit the schedule by May 1 each year.

E. LESSEE agrees not to use the Premises for any other purpose without prior written consent from LESSOR.

F. If LESSEE ceases to operate on this site, all constructed assets will belong to LESSOR. LESSOR will support LESSEE in their grant applications for other sources of funding for the development and operation of the community food bank.

SECTION 5. PERMITS

LESSEE acknowledges that following the execution of this Agreement, LESSEE will be contacting the appropriate local governmental agencies for the purpose of obtaining all building permits and approvals, zoning changes and/or approvals, variances, use permits, and other governmental permits and approvals (collectively, "Permits") necessary for the construction of the Rise Center. All Permits will be secured and paid for solely by LESSEE.

SECTION 6. MAINTENANCE AND IMPROVEMENTS

A. LESSEE shall maintain the Premises in a clean, safe, and orderly condition at all times.

B. LESSEE shall be responsible for covering all costs associated with the maintenance and repairs of the leased premises.

C. LESSEE may make improvements to the Premises with prior written approval of LESSOR. Any permanent improvements shall become the property of LESSOR upon termination of this Agreement unless otherwise agreed in writing.

D. LESSEE shall design and construct the Rise Center building and food distribution warehouse within five (5) years of the execution of this Agreement. All development on the Premises shall be in agreement with the approved Declaration of Restrictive Covenant.

SECTION 7. UTILITY OR SERVICE CHARGES

A. LESSEE agrees to pay all deposits and charges for gas, electricity or other illumination, heating, air conditioning, water, sewer, telephone service and other utilities serving the Premises.

B. LESSEE shall obtain, at its sole cost and expense, all utilities (e.g., without limitation, electricity, telephone, water, sewer, and trash collection services) service for the Premises.

SECTION 8. COMPLIANCE WITH LAWS

LESSEE shall comply with all applicable federal, state, and local laws, ordinances, and regulations related to the use of the Premises.

SECTION 9. INSURANCE

LESSEE shall maintain in effect throughout the term of this Agreement, without expense to the LESSOR, general liability coverage with limits of liability of not less than $1,000,000 per occurrence with a general aggregate liability limit in the amount of $2,000,000 each. "Hernando County Board of County Commissioners" shall be named as additional insured with a waiver of subrogation in favor of Hernando County Board of County Commissioners. Such insurance shall specifically insure LESSEE against all liability imposed by law and shall insure both LESSOR and LESSEE. Proof of insurance shall be provided to LESSOR prior to commencement of the lease term and on the anniversary date each year of this Agreement.

SECTION 10. INDEMNIFICATION

LESSEE agrees to indemnify, defend, and hold harmless LESSOR from any and

all claims, damages, or liabilities arising out of LESSEE's use of the Premises.

SECTION 11. TERMINATION

A. LESSOR may terminate this Agreement immediately in the event of a material breach by LESSEE.

SECTION 12. LESSOR USE OF BUILDING

A. If LESSEE fails to provide empowerment services for the community, LESSOR shall provide LESSEE ninety (90) days written notice to make use of the Rise Center building. LESSOR shall work with LESSEE and other community partners to allow for these services to be provided. LESSOR and LESSEE shall agree on services that are needed.

B. LESSOR shall coordinate with the LESSEE as to not unduly interfere with the operations of the food distribution warehouse.

SECTION 13. NOTICE

Written notices shall be forwarded to:

LESSEE	LESSOR
Community Food Bank Attn: Barbara Sprague 5259 West Cardinal Street Homosassa, FL 34446	Hernando County Attn: County Administrator 15470 Flight Path Drive Brooksville, FL 34604

SECTION 14. ASSIGNMENT AND SUBLETTING

LESSEE shall not assign or sublet the Premises without prior written consent from LESSOR.

SECTION 15. DEFAULT

A. The occurrence of any one or more of the following events shall constitute a default on the part of LESSEE: (1) LESSEE fails to pay when due any rent or any other sum of

money payable hereunder within ten (10) days after such rental or payment is due and such failure continues for a period of thirty (30) days after written notice from LESSOR to LESSEE; (2) LESSEE breaches or fails to comply with any other term, provision, covenant or condition of this Agreement and such breach or failure shall continue for a period of fifteen days or more after written notice thereof from LESSOR; (3) LESSEE transfers, assigns, sublets, mortgages, pledges or encumbers this Agreement, the Premises, or any interest in the whole or in any portion thereof in violation of the provisions hereunder; (4) LESSEE abandons, deserts or vacates the Premises; or (5) a receiver is appointed to take possession of all or substantially all of the assets of LESSEE, or an assignment is made by LESSEE for the benefit of its creditors, or any action is taken or suffered by LESSEE under any insolvency, bankruptcy or reorganization act.

B. Upon the occurrence of any of the above events of default, LESSOR shall have the option to perform any one or more of the following, in addition to, and not in limitation of, any other remedy or right permitted by law or in equity: (1) LESSOR may at once or any time thereafter, without notice to LESSEE or any other person, re-enter and repossess the Premises and remove all persons and effects therefrom, using such forces as may be needed without being deemed guilty in any manner of trespass or forcible entry or detainer; (2) LESSOR may at once or any time thereafter, without notice to LESSEE or any other person, re-enter the Premises and cure, correct or repair any condition which shall constitute a failure on LESSEE's behalf to keep, observe, perform, satisfy or abide by any term, condition, covenant, agreement or obligation of this Agreement or any alteration, amendment, change or addition thereto, and LESSEE shall fully reimburse and compensate LESSOR upon demand for any costs and expenses incurred in connection with such cure, correction or repair, which sums shall be deemed to be Additional Rent hereunder; (3) LESSOR may at once or any time thereafter either declare this Agreement to be terminated without prejudice to any and all rights which LESSOR may have against LESSEE for

rents, damages or breach of this Agreement, or attempt to relet the Premises on such terms as LESSOR shall determine. LESSOR shall make commercially reasonable efforts to re-let the Premises before holding LESSEE liable for any remaining lease obligation. Such reletting shall not be considered as a surrender or acceptance back of the Premises or a termination of this Agreement, and LESSEE shall pay LESSOR any deficiency between the amount received, if any, from such reletting after such amount is applied first to LESSOR's expenses in connection with re-entry, taking possession and reletting, including brokerage fees and commissions, alterations and redecorating as LESSOR may deem appropriate to prepare the Premises for reletting, and the amount of rent payable by LESSEE hereunder. The foregoing remedies shall be available to LESSOR on giving LESSEE fifteen (15) days' notice thereof in writing of its intention. However, if LESSEE cures the default within fifteen (15) days of receipt of the notice mentioned above, then LESSOR's foregoing remedies shall be abated, provided, however, if said default cannot be cured within fifteen (15) days upon LESSEE's exercise of reasonable diligence, LESSEE shall have such longer time as is reasonably necessary to cure said default provided that LESSEE commences said cure within said fifteen (15) day period and thereafter diligently prosecutes said cure to completion.

C. LESSEE hereby expressly waives any and all rights of redemption granted by or under any present or future laws in the event of LESSEE being evicted or dispossessed for any cause, or in the event of LESSOR obtaining possession of the Premises by reason of the violation by LESSEE of any of the covenants and conditions of this Agreement or otherwise.

D. Any obligation imposed by law upon LESSOR to re-let the Premises shall be subject to the permitted uses provided in this Agreement, and LESSOR may re-let the Premises on such terms and conditions as LESSOR may deem advisable. The failure of the LESSOR to relet or, if the Premises are relet, to collect the rent under such reletting shall not release or affect LESSEE's liability for damages under this Agreement.

E. Unless otherwise specified in this Agreement, no remedy of LESSOR or LESSEE shall be considered exclusive of any other remedy, but each shall be distinct, separate and cumulative with all other available remedies. Each remedy available under this Agreement or at law or in equity may be exercised by LESSOR or LESSEE from time to time as often as the need may arise. No course of dealing between LESSOR and LESSEE or any delay or omission of LESSOR or LESSEE in exercising any right arising from the other party's default shall impair such right or be construed to be a waiver of a default.

SECTION 16. GOVERNING LAW/JURISDICTION/JURY WAIVER

This Agreement shall be governed by the laws of the State of Florida. Any dispute, claim or action relating to or arising under this Agreement shall be brought solely in the Circuit Court in Hernando County, Florida. Venue shall be limited to Hernando County, Florida. Each party agrees to bear their own attorney fees and costs in the event of any dispute. The parties hereby waive and release their right to trial by jury in any claim, action or proceeding arising out of or in any way connected with this Agreement.

SECTION 17. PROTECTION AGAINST LIENS

LESSEE shall keep the Premises free from any and all liens arising out of any work performed, materials furnished, or obligations incurred by LESSEE. In the event LESSEE fails to discharge any such lien within thirty (30) days following written notice and demand by LESSOR for removal of such lien, LESSOR, in addition to all remedies provided herein and by law or in equity, has the right but not the obligation to discharge the lien by means of bond or posting security. If LESSOR acts to discharge or secure any lien caused by LESSEE, then LESSEE shall reimburse LESSOR on demand, as additional rent, for all reasonable sums paid and all costs and expenses reasonably incurred by LESSOR involving such lien together with interest on the total expenses and costs at the maximum rate allowed by law.

SECTION 18. ANTI-HUMAN TRAFFICKING AFFIDAVIT

LESSEE warrants and represents that it does not use coercion for labor or services as defined in § 787.06, Florida Statutes. LESSEE has executed Exhibit "A," Anti-Human Trafficking Affidavit, which is attached hereto and incorporated herein by reference.

SECTION 19. PRE-EXISTING CONDITION OF THE PREMISES

This Agreement is subject to that Declaration of Restrictive Covenant ("Declaration") between Hernando County, Florida and the Florida Department of Environmental Protection with ERIC identification number ERIC_9620 (formerly COM_65033), dated December 12, 2023, and found in the Official Records of Hernando County, Florida at Book 4414, Page 1967. To ensure that LESSEE has received notice of said Declaration, a copy of the Declaration is attached hereto as Exhibit "B." LESSEE agrees to be bound by any restrictions therein and shall comply with any or all of the provisions it contains.

SECTION 20. RECORDING OF LEASE AGREEMENT

This Agreement shall be recorded at LESSEE's expense.

SECTION 21. ENTIRE AGREEMENT

This Agreement constitutes the entire agreement between the parties and supersedes all prior understandings. Any amendments must be made in writing and signed by both parties.

[Reminder of this page intentionally left blank.]

IN WITNESS WHEREOF, the parties have executed this Agreement as of the date first written above.

RISE CENTER

EMPOWERMENT CENTER AND WAREHOUSE

Empowering the impoverished and marginalized residents of Hernando County and specifically those in South Brooksville with food, healthcare, benefits, and resource connections is crucial for addressing systemic issues of poverty and improving their quality of life. The Rise Center will provide a collaborative venue for the food relief work of the Community Food Bank in conjunction with our partner service providers and organizations.

This community resource center or hub allows individuals to access a variety of support services, including employment assistance, housing resources, childcare, legal aid, and educational programs, it will centralize resources and make them more accessible to those in need.

Our Commitment

$2 MILLION INVESTMENT

CFB is working to acquire a property immediately and then expand our capacity into a new Rise Center and food bank warehouse based in the proposed South Brooksville CRA project.
In collaboration with Hernando County, Feeding Tampa Bay, our pantry partners, and our local service/support providers CFB will create a center for food relief, skill building, healthcare, community support, mental health services, and disaster relief.
The Rise Empowerment Center will play a vital role in uplifting this impoverished and marginalized community by providing access to essential services, fostering empowerment through education and skill building, building community and support networks, advocating for systemic change, and promoting holistic well-being.

Elevate

MICRO-RETAIL INCUBATOR

The micro-retail incubator would provide aspiring entrepreneurs with the resources and support needed to start and grow small businesses. Many individuals in our county have innovative ideas and entrepreneurial spirit but lack the necessary resources and guidance. This incubator could offer low-cost retail space, mentorship, business development services, and access to capital, fostering local entrepreneurship and stimulating economic growth from within our community.

Anti-Human Trafficking Affidavit

In compliance with Fla. Stat. § 787.06, this affidavit must be completed by an officer or representative of a nongovernmental entity that is executing, renewing, or extending a contract with Hernando County or any of its subordinate units (the "Governmental Entity").

1. My name is Barbara Sprague and I am over eighteen years of age. The following information is given from my own personal knowledge.

2. I am an officer or representative with Community FoodBank, Inc., a non-governmental entity (the "Nongovernmental Entity"). I am authorized to provide this affidavit on behalf of Nongovernmental Entity.

3. Neither Nongovernmental Entity, nor any of its subsidiaries or affiliates, uses *coercion* for *labor* or *services*, as such italicized terms are defined in Fla. Stat. § 787.06, as it may be amended from time to time.

4. If, at any time in the future, Nongovernmental Entity does use coercion for labor or services, Nongovernmental Entity will immediately notify Governmental Entity and no contracts may be executed, renewed, or extended between the parties.

5. This declaration is made pursuant to Fla, Stat. § 92.525. I understand that making a false statement in this declaration may subject me to criminal penalties.

Under penalties of perjury, I Barbara Sprague, declare that I have read the foregoing Anti-Human Trafficking Affidavit and that the facts stated in it are true.

DECLARATION OF RESTRICTIVE COVENANT

THIS DECLARATION OF RESTRICTIVE COVENANT (hereinafter "Declaration") is made by Hernando County, Florida (hereinafter "GRANTOR") and the Florida Department of Environmental Protection (hereinafter "DEP"). This Declaration, made pursuant to either Chapter 376 or 403, Florida Statutes (F.S.), is neither extinguished nor affected by the Marketable Record Title Act in accordance with section 712.03, F.S.

RECITALS

A. GRANTOR Hernando County, Florida is the fee simple owner of that certain real property situated in the County of Hernando, State of Florida, more particularly described in **Exhibit "A"** attached hereto and made a part hereof (hereinafter the "Property").

B. The DEP Facility or ERIC Identification Number for the Property is ERIC_9620 (Formerly COM_65033). The facility name at the time of this Declaration is Former Fleet Maintenance Facility. This Declaration addresses the discharge that was reported to the DEP on August 8, 1985.

GWALTNEY, BILL

C. The discharge of VOCs and metals on the Property is documented in the following reports that are incorporated by reference:

1. *Site Assessment Report Addendum No. 4*, dated February 2009, prepared by Creative Environmental Solutions, Inc.;
2. *Soil Management Completion Report*, dated June 6, 2021, prepared by Cardno now Stantec;
3. *Site Rehabilitation Completion Report*, dated February 18, 2022, prepared by Cardno now Stantec.

D. The reports noted in Recital C set forth the nature and extent of the contamination that is located on the Property. These reports confirm that contaminated soil and groundwater as defined by Chapter 62-780, Florida Administrative Code (F.A.C.), exist on the Property. Also, these reports document that the groundwater contamination does not extend beyond the Property boundary, that the extent of the groundwater contamination does not exceed 1/4 acre, and that the groundwater contamination is not migrating.

E. It is GRANTOR's and DEP's intent that the restrictions in this Declaration reduce or eliminate the risk of exposure of users or occupants of the Property and the environment to the contaminants and to reduce or eliminate the threat of migration of the contaminants.

F. DEP has agreed to issue a Conditional Site Rehabilitation Completion Order (hereinafter "Order") upon recordation of this Declaration. DEP can unilaterally revoke the Order if the conditions of this Declaration or the Order are not met. Additionally, if concentrations of VOCs or metals increase above the levels in the Order, or if a subsequent discharge occurs at the Property, DEP may require site rehabilitation to reduce concentrations of contamination to the levels allowed by the applicable DEP rules. The Order can be obtained by contacting the appropriate DEP district office or Tallahassee program area.

G. GRANTOR deems it desirable and in the best interest of all present and future owners of the Property that an Order be obtained and that the Property be held subject to certain restrictions and engineering controls, all of which are more particularly hereinafter set forth.

NOW, THEREFORE, to induce DEP to issue the Order and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by each of the undersigned parties, GRANTOR agrees as follows:

1. The foregoing recitals are true and correct and are incorporated herein by reference.

2. GRANTOR hereby imposes the following restrictions and requirements:

a. Groundwater Use. There are restrictions on use of the groundwater under the Property. Any monitoring wells installed on the Property shall be pre-approved in writing by DEP's Division of Waste Management (DWM) in addition to any authorizations required by the Division of Water Resource Management (DWRM) and the Water Management District (WMD).

For any other groundwater wells to be installed on the Property, a plan signed and sealed by a Florida-registered professional engineer or Florida-registered professional geologist to address and ensure there will be no exposure to contaminated groundwater must be submitted to the DEP's DWM. The plan must include the well location, drilling method, casing depth, total depth, proposed maximum daily flow rate and volume, and a technical evaluation (including calculations, fate and transport modeling, as applicable) to demonstrate that the proposed groundwater extraction will not cause the spread or migration of contaminated groundwater and that receptors will not be exposed as a result of contaminant migration. The plan shall also outline the procedures for proper characterization, handling and disposal of any contaminated media encountered during installation. DEP's DWM will keep the plan in the site file as documentation of site conditions and will rely on this professional certification for demonstrating compliance with this restriction. A revised exhibit must be amended to the Declaration and recorded when any groundwater well is altered, modified, expanded, or constructed. The GRANTOR is advised that other federal, state, or local laws and regulations may apply to this activity. A copy of all permits obtained for the installation of groundwater wells at the Property must be provided along with the plan submitted to DEP's DWM. DEP will rely on this Declaration and certified plan to construct new or modify existing groundwater wells to ensure that there is no exposure to contaminated groundwater entering into new or expanded groundwater wells resulting in risk to human health, public safety or the environment due to the contaminated site. Construction of groundwater wells on the Property could destabilize the groundwater plume or increase potential for exposure to contaminants resulting in risk to human health, public safety, or the environment. For this reason, if GRANTOR seeks to construct groundwater wells on the Property, GRANTOR shall submit the certified plan to DEP DWM in addition to obtaining any authorizations that may be required by DEP DWRM, the WMD, or other federal, state, or local laws and regulations that may apply to this activity. Unless it is demonstrated that the cleanup criteria under subsection 62-780.680(1), F.A.C., have been achieved, DEP, in addition to other remedies available under law, may institute proceedings to revoke this Declaration and the Order and require the proper abandonment of the wells and the resumption of site rehabilitation activities if any such groundwater wells are constructed or commenced without submittal of a certified plan.

b. Dewatering. For any dewatering activities on the Property, a plan signed and sealed by a Florida-registered professional engineer or Florida-registered professional geologist to address and ensure the appropriate handling, treatment and disposal of any extracted groundwater that may be contaminated must be submitted to DEP's DWM. The plan must include the location(s) of the dewatering activity and the effluent disposal area(s) relative to known areas of groundwater contamination, proposed flow rates, duration, volume, estimated drawdown, (based upon design calculations), a technical evaluation demonstrating that the dewatering will not cause the migration of contamination and procedures for proper characterization, treatment and handling of any contaminated groundwater that may be encountered during dewatering. DEP's DWM will keep the plan in the site file as documentation of site conditions and will rely on this professional certification for demonstrating compliance with this restriction. The GRANTOR is advised that other federal, state, or local laws and regulations may apply to this activity. A copy of all permits obtained for the implementation of dewatering must be provided along with the plan submitted to DEP's DWM. DEP will rely on this Declaration, Rule 62-621.300, F.A.C., and the guidance incorporated therein, and the signed and sealed dewatering plan as the institutional controls to ensure that no exposure to contaminated groundwater resulting in risk to human health, public safety or the environment will occur due to dewatering activities on the contaminated site. Rule 62-621.300, F.A.C., requires a permit when conducting dewatering in the area of a contaminated site. For this reason, if GRANTOR seeks to conduct dewatering on the Property, GRANTOR shall submit the signed and sealed plan to DEP DWM in addition to obtaining any authorizations that may be required by DEP DWRM, the WMD, or other federal, state, or local laws and regulations that may apply to this activity. The dewatering plan must ensure the appropriate handling, treatment, and disposal of any extracted groundwater that may be contaminated to avoid adversely impacting or increasing the potential for exposure to contaminants resulting in risk to human health, public safety or the environment. Unless it is demonstrated that the cleanup criteria under subsection 62-780.680(1), F.A.C., have been achieved, DEP, in addition to other remedies available under law, may institute proceedings to revoke this Declaration and the Order and require the resumption of site rehabilitation activities if any dewatering activities are commenced without submittal of a signed and sealed plan.

c. Stormwater Features.

Currently, there are existing stormwater features, the existence of which has been determined to not adversely affect the remaining contamination Attached as **Exhibit "C"** and incorporated by reference herein, is a Survey identifying the size and location of existing stormwater swales, stormwater detention or retention facilities, and ditches on the Property.

Such existing stormwater features shall not be altered, modified or expanded, and there shall be no construction of new stormwater swales, stormwater detention or retention facilities or ditches on the Property.

If stormwater features must be constructed, modified, altered or expanded, a plan signed and sealed by a Florida-registered professional engineer, or a Florida-registered professional geologist must be submitted to DEP's DWM in addition to any authorizations required by the DWRM and the WMD. The plan must include the feature location, construction and design specifications relative to known areas of soil and groundwater contamination, and a technical evaluation (including calculations, fate and transport modeling, as applicable) to demonstrate that the new stormwater facilities will not cause the migration of contamination. The plan shall also outline the procedures for proper characterization, handling and disposal of any contaminated media that may be encountered during construction. DEP's DWM will keep the plan in the site file as documentation of site conditions and will rely on this professional certification for demonstrating compliance with this restriction. The GRANTOR is advised that other federal, state, or local laws and regulations may apply to this activity. A copy of all permits obtained for the implementation of dewatering must be provided along with the plan submitted to DEP's DWM. A revised exhibit must be amended to the Declaration and recorded when any stormwater feature is altered, modified, expanded, or constructed. DEP will rely on this Declaration and certified plan to construct new or modify existing stormwater features to ensure that there is no exposure to contaminated groundwater entering into new or expanded stormwater features resulting in risk to human health, public safety or the environment due to the contaminated site. Construction of stormwater swales, stormwater detention or retention features, or ditches on the Property could destabilize the groundwater plume or increase potential for exposure to contaminants resulting in risk to human health, public safety, or the environment. For this reason, if GRANTOR seeks to construct stormwater features on the Property, GRANTOR shall submit the certified plan to DEP DWM in addition to obtaining any authorizations that may be required by DEP DWRM, the WMD, or other federal, state, or local laws and regulations that may apply to this activity. Unless it is demonstrated that the cleanup criteria under subsection 62-780.680(1), F.A.C., have been achieved, DEP, in addition to other remedies available under law, may institute proceedings to revoke this Declaration and the Conditional Site Rehabilitation Completion Order and require the resumption of site rehabilitation activities if any such stormwater features are constructed or commenced without submittal of a certified plan.

d. Soil Engineering Controls. The "Area of Soil Contamination" as located on the Property and shown on **Exhibit "B"** shall be permanently covered and maintained with an impermeable material that prevents human exposure

and prevents water infiltration (hereinafter referred to as "the Engineering Control"). An Engineering Control Maintenance Plan (ECMP) has been approved by DEP. The ECMP specifies the frequency of inspections and monitoring for the Engineering Control and the criteria for determining when the Engineering Control has failed. The Engineering Control shall be maintained in accordance with the ECMP. The ECMP may be amended upon the prior written consent of DEP. The ECMP, as amended, relating to DEP Facility No. ERIC_9620, can be obtained by contacting the appropriate DEP district office or Tallahassee program area.

e. Excavation and Construction. Excavation and construction below the Engineering Control is not prohibited on the Property provided any contaminated soils that are excavated are either: 1) placed back into the excavation and the Engineering Controls are reconstructed or 2) are removed and properly disposed of pursuant to Chapter 62-780, F.A.C., and any other applicable local, state, and federal requirements. Nothing herein shall limit any other legal requirements regarding construction methods and precautions that must be taken to minimize risk of exposure while conducting work in contaminated areas.

f. Subdivision of Property. The criteria for direct exposure of contamination in the soil was based upon an average soil contaminant concentration calculated using a 95% Upper Confidence Limit (UCL) approach with an exposure unit (EU) of the entire Property pursuant to Rule 62-780.680, F.A.C. Therefore, the Property may not be subdivided without prior written approval from DEP's DWM. In such case, a subsequent amendment to this Declaration shall be recorded on the Property in accordance with Paragraph 7.

3. All references to "GRANTOR" and "DEP" shall also mean and refer to their respective legal representatives, successors and assigns.

4. For the purpose of monitoring the restrictions contained herein, DEP is hereby granted a right of entry upon, over and through and access to the Property at reasonable times and with reasonable notice to GRANTOR. Access to the Property is available via an immediately adjacent public right-of-way.

5. It is the intention of GRANTOR that this Declaration shall touch and concern the Property, run with the land and with the title to the Property, and shall apply to and be binding upon and inure to the benefit of GRANTOR and DEP, and to any and all parties hereafter having any right, title or interest in the Property or any part thereof. DEP may enforce the terms and conditions of this Declaration by injunctive relief and other appropriate available legal remedies. Any forbearance on behalf of DEP to exercise its right in the event of the failure of GRANTOR to comply with the provisions of this Declaration shall not be deemed or construed to be a waiver of DEP's rights hereunder.

This Declaration shall continue in perpetuity, unless otherwise modified in writing by GRANTOR and DEP as provided in paragraph 7 below. These restrictions may also be enforced in a court of competent jurisdiction by any other person, firm, corporation, or governmental agency that is substantially benefited by this Declaration. If GRANTOR does not or will not be able to comply with any or all of the provisions of this Declaration, GRANTOR shall notify DEP in writing within three (3) calendar days.

6. In order to ensure the perpetual nature of this Declaration, GRANTOR shall record this Declaration, and reference these restrictions in any subsequent lease or deed of conveyance, including either the recording book and page or instrument number of record of this Declaration. Furthermore, prior to the entry into a landlord-tenant relationship with respect to the Property, GRANTOR agrees to notify in writing all proposed tenants of the Property of the existence and contents of this Declaration.

7. This Declaration is binding until a release is executed by the DEP Secretary (or designee) and is recorded in the public records of the county in which the land is located. Except as specifically set forth elsewhere in this Declaration, to receive prior approval from DEP to remove or amend any requirement herein, cleanup target levels established pursuant to Florida Statutes and DEP rules must be achieved. This Declaration may be modified in writing only. Any subsequent amendment, including new or revised exhibits, must be executed by both GRANTOR and DEP and be recorded by GRANTOR as an amendment hereto.

8. If any provision of this Declaration is held to be invalid by any court of competent jurisdiction, the invalidity of that provision shall not affect the validity of any other provisions of the Declaration. All such other provisions shall continue unimpaired in full force and effect.

9. GRANTOR covenants and represents that on the date of execution of this Declaration that GRANTOR is seized of the Property in fee simple and has good right to create, establish, and impose this Declaration on the use of the Property. GRANTOR also covenants and warrants that the Property is free and clear of any and all liens, mortgages, or encumbrances that could impair GRANTOR'S rights to impose the restrictions described in this Declaration.

TITLE

Update Regarding Coronavirus State and Local Fiscal Recovery Funds Spending Plan Through American Rescue Plan Act (ARPA) and Discussion Regarding Use of Unobligated Funds

BRIEF OVERVIEW

On March 11, 2021, the American Rescue Plan Act (ARPA) was signed into law and established the Coronavirus State Fiscal Recovery Fund and Coronavirus Local Fiscal Recovery Fund which together make up the Coronavirus State and Local Fiscal Recovery Funds ("SLFRF") program. This program is intended to provide support to state, territorial, local, and tribal governments in responding to the economic and public health impacts of COVID 19.

Hernando County received a total of $37,666,688.00 over two installments, one in 2021 and the next in 2022. To date, there are $2,963,196.00 in unencumbered funds remaining. Funds are required to be obligated by December 31, 2024, and expended by December 31, 2026.

Staff has received requests from the Vincent Academy and the Community Food Bank's Rise Empowerment Center for assistance with construction of their facilities. In addition, staff is recommending allocating funds to the South Brooksville drainage project and to the Housing and Supportive Services Department for affordable housing. The funding requests and recommendations are as follows:

Vincent House $250,000.00
Rise Enrichment Center $250,000.00
Emergency Relief from Natural Disasters $2,463,196.00
Total $2,963.196.00

On March 11, 2021, the American Rescue Plan Act (ARPA) was signed into law and established the Coronavirus State Fiscal Recovery Fund and Coronavirus Local Fiscal Recovery Fund which together make up the Coronavirus State and Local Fiscal Recovery Funds ("SLFRF") program. This program is intended to provide support to state, territorial, local, and tribal governments in responding to the economic and public health impacts of COVID 19.

Hernando County received a total of $37,666,688.00 over two installments, one in 2021 and the next in 2022. To date, there are $2,963,196.00 in unencumbered funds remaining. Funds are required to be obligated by December 31, 2024, and expended by December 31, 2026.

Staff has received requests from the Vincent Academy and the Community Food Bank's Rise Empowerment Center for assistance with construction of their facilities. In addition, staff is recommending allocating funds to the South Brooksville drainage project and to the Housing and Supportive Services Department for affordable housing. The funding requests and

recommendations are as follows:

All ARPA funded projects must be in one of the following categories:

- To respond to the COVID 19 public health emergency or its negative economic impacts.
- To respond to workers performing essential work during the COVID 19 public health emergency by providing premium pay to such eligible workers of the recipient or by providing grants to eligible employers that have eligible workers who performed essential work.
- To make necessary investments in water, sewer, or broadband infrastructure.
- Emergency relief from natural disasters.
- Surface transportation projects.
- Title I projects, investing in activities that are eligible under the CDBG and ICDBG programs, as listed in section 105(a) of the Housing and Community Development Act of 1974.

Staff and the County's ARPA consultant firm, The Balmoral Group, have reviewed the projects and have determined that the listed projects meet the criteria as listed above and are eligible for ARPA funding. Projects associated with the Vincent House and Rise Enrichment Center are currently undergoing mandatory risk assessment by The Balmoral Group.

FINANCIAL IMPACT

Funds totaling $2,963,196.00 are available within Fund 1555 American Rescue for the projects approved by the Board.

LEGAL NOTE

The Board has the authority to act on this matter pursuant to Chapter 125, Florida Statutes.

RECOMMENDATION

It is recommended that the Board provide direction on the amount of unobligated funds to allocate to projects or project types. Upon Board direction, staff will develop associated obligation agreements and bring those agreements back to the BOCC for approval.

Exhibit A: Scope of Work

Introduction

The work identified in this agreement will be performed on property owned or leased by the Community Food Bank. Unless approved by the County, no other entity shall be granted utilization of these funds.

Funding Requested: all or partial funding of $1,595,000 to lease an undetermined location or build on the 201 West Martin Luther King Blvd, Brooksville, FL location or similar property.

Budget

Our budget and on-boarding of the additional pantries as well as empowerment space and micro-retail incubator is dependent on the acquired facility or ground-up construction. If we are to occupy an existing building the build-out and needs will change accordingly as the cooler and freezer spaces require specific infrastructure and are best suited for a new construction opportunity. New pantry clients will be on–onboarded in phases and empowerment service partners will be managed by a volunteer steering committee. The micro-retail incubator will also be managed by a volunteer board with scaled lease agreements. Our current business model depicts the Maintenance Fees charged per pound to pantry partners for rescued products which are often waived and covered instead by grants or other funding. The purchased retail grade product has a small handling fee of up to 6% to cover our labor costs. In addition to these revenue vehicles that have allowed the Community Food Bank to be self-sustaining, we would explore progressive lease options for the mico-retail space and empowerment center should collaborative funding be found.

*See attached Hernando Facility Launch Budgets.

Project Timeline

Phase 1: Pre-Construction (Month 1-3)
Project Planning and Design (Month 1)
Define project scope and objectives
Hire an architect/engineer
Preliminary design and layout drafts
Develop a budget estimate
Site Acquisition and Permitting (Month 1-2)
Secure the property where the warehouse will be built
Apply for necessary zoning permits and licenses
Environmental assessments (if necessary)
Final Design Approval (Month 3)
Finalize architectural plans
Confirm design and construction specifications
Obtain building permits from local authorities

Phase 2: Groundwork and Foundation (Month 4-5)
Site Preparation (Month 4)
Clear the land of any debris, vegetation, or existing structures

Conduct grading and leveling of the site
Foundation Work (Month 4-5)
Excavate for the foundation
Pour concrete for the foundation and footing
Allow for curing time

Phase 3: Construction (Month 6-9)
Structural Framing (Month 6)
Erect steel or wooden framing for the warehouse and center
Install support beams, walls, and roof structures
Roofing and Exterior Work (Month 6-7)
Install roofing materials
Apply exterior wall finishes
Ensure all weatherproofing measures are in place
Utilities Installation (Month 7-8)
Rough in plumbing, electrical, and HVAC systems
Install service lines for water, electricity, and sewage
Interior Construction (Month 8-9)
Build interior walls, rooms, and office spaces
Install insulation and drywall
Begin finishing work: flooring, painting, and fixtures

Phase 4: Final Touches and Inspection (Month 10-12)
Final Installations and Landscaping (Month 10)
Complete installations of kitchens, restrooms, and other facilities
Landscaping around the property (plant trees, shrubs, etc.)
Finalize any outdoor lighting or signage
Inspections and Corrections (Month 11)
Arrange for inspections by local building authorities
Address any identified issues or corrections needed
Final Walkthrough and Cleanup (Month 12)
Conduct a final walkthrough with stakeholders
Address any last-minute touch-ups
Clean the site and prepare for opening

Phase 5: Opening and Community Engagement (End of Month 12)
Opening Ceremony (End of Month 12)
Organize a grand opening event to introduce the center to the community
Invite local leaders, stakeholders, and media
Begin outreach programs and distribution services

Agency Mission

The mission of the Community Food Bank is to be the driving force to promote awareness, inspire involvement, and end hunger. Since we opened our doors in 2013, the Community Food Bank has grown to provide 2 million pounds of food relief each year to over 30,000 Hernando County residents from our

main location in Citrus County through just 10 of the county's 32 pantries. Added to our other distribution area, this is a total of over 5.1 meals to over 70,000 every month. Whether facing food insecurity, nutritional deficits, or natural disasters, the Community Food Bank ensures that NO ONE in our community goes hungry.

Prospective clients our target population includes a significant percentage of low-income individuals and families who experience food insecurity choices between basic needs, generational poverty, and lack of access to providers and resources. Engaging with local service organizations, schools, churches, and community groups will help attract our target audience from the entire county.

Service Area

The service area includes all of Hernando County and is focused on the elevation of the South Brooksville population.

Need

The clients that the Community Food Bank and our network of pantry partners serve are disproportionately impacted by the far-reaching public health and negative economic impacts of the pandemic, generational poverty, low wages, disaster recovery, and age. These impacts include poor diets, lack of medical care access, lack of access to career and educational advancement training and opportunities, and lack of support for business entrepreneurs. 18% live in poverty. 10% of residents do not have a vehicle. 20% of children live in poverty. 22% are disabled. (Florida Chamber of Commerce)

The current number of clients that the Community Food Bank serves in Hernando County is approximately 30,000 per month. This represents 7% of the Hernando County population.

Our headquarters in Homosassa is at its service capacity for pantries and does not currently allow for any wrap-around services to be offered. Since convening our Hernando Task Force in 2021, the Community Food Bank has worked to research the areas we could most impact now and in the future, create dialog regarding true needs, develop alliances and support, and raise awareness with stakeholders, donors, and other partners. We have tentative commitments with Feedning Tampa Bay, FarmShare, and Emergency Management to expand our service availability to all pantries and locations of need in the county. We have also worked to increase our donor base and recruit investors for our capital campaign. Our current headquarters will allow us to phase in new agency partners, support logistics and operational needs, and direct funding activities. The campus will serve as a vital hub for local engagement and empowerment. By providing a safe, welcoming space for residents, we encourage positive interactions and foster a sense of belonging with community based support among residents.

Agency Request

The Community Food Bank is requesting funding to lease property and build a warehouse with empowerment center hosting capability, a micro-retail incubator marketplace, and a community-friendly campus accessible for disaster recovery, events, and other needs while being able to pivot to accommodate changes in need. These capital improvements will serve to address food insecurity in our community while providing resources for economic empowerment, health care, and education to those who are marginalized, disadvantaged, or impoverished. With a construction budget of $1,595,000 and operating costs of $178,830-226,931 per year, our mission is to create a sustainable local food distribution network and serve as a community hub for all resources to county residents.

Results

As a result of these ARPA funds, the Community Food Bank and Empowerment Center has the potential to transform lives in our community by improving access to food and promoting education and empowerment. With careful planning and community involvement, we can create a sustainable model that addresses food insecurity and empowers individuals to lead healthier and more productive lives. This capacity expansion will allow the Community Food Bank to distribute 2-5 million more meals, groceries, and supplies to residents. The empowerment center will reach hundreds of residents each week, filling the gap in their medical and mental health, skill training and career advancement opportunities, financial management, and entrepreneurial advancement. We are always better together!

Thank you for your time, interest, and attention,

TITLE

Federal Subrecipient Agreement With Community Food Bank of Citrus County, Inc., for Coronavirus State and Local Fiscal Recovery Funds and Associated Budget Resolution

BRIEF OVERVIEW

On March 11, 2021, the American Rescue Plan Act (ARPA) was signed into law and established the Coronavirus State Fiscal Recovery Fund and Coronavirus Local Fiscal Recovery Fund which together make up the Coronavirus State and Local Fiscal Recovery Funds ("SLFRF") program. This program is intended to provide support to State, territorial, local, and Tribal governments in responding to the economic and public health impacts of COVID-19 and in their efforts to contain impacts on their communities, residents, and businesses. Hernando County received a total of $37,666,688.00 over two installments, one in 2021 and the next in 2022.

Per Board direction on October 22, 2024, under Agenda Item No. 14559, staff is requesting that $250,000.00 in ARPA funding be obligated to Community Food Bank of Citrus County, Inc., to assist with Phase 2 construction services.

FINANCIAL IMPACT

Upon approval of the attached budget resolution, funds will be available within Fund 1555 American Rescue Plan Act (ARPA):

Revenues:

Fund: 1555 - AMERICAN RESCUE PLAN ACT, **Department: 31090** - SLFRF-GENERAL GOVT ARPA, **Account: 3311000** - FED GRT - CFDA 21.027 SLFR

Expenses:

Fund: 1555 - AMERICAN RESCUE PLAN ACT, **Department: 31090** - SLFRF-GENERAL GOVT ARPA, **Account: 5808201** - AID TO PRVT ORGANIZATION

LEGAL NOTE

The Board is authorized to act on this matter pursuant to Chapter 125, Florida Statutes.

RECOMMENDATION

It is recommended that the Board approve and authorize the Chairman's signature on the attached Federal Subrecipient Agreement with Community Food Bank of Citrus County, Inc., County Contract 25-A0206/EK, for the award of $250,000.00 in ARPA funding and approve the associated budget resolution.

Article 1: Standard ARPA Form Agreement

A. This Subrecipient Agreement (**"Agreement"**) is a **"Standard ARPA Form Agreement."** Any changes to this standard form shall be noted separately using the *Standard ARPA Form Amendments* form attached as **"Form 1,"** which must be separately executed by the parties to this Agreement in order to be binding upon the parties.

B. This is the 08/10/2021 version of the Standard ARPA Form Agreement.

Article 2: The Parties

A. This Agreement is entered into by and between the two parties indicated in the following table:

TABLE 1 – THE PARTIES	
Party #1	**Name:** Hernando County, Florida (the **"County"**) **Entity Type:** Political Subdivision of the State of Florida **Principal Address:** 15470 Flight Path Drive Brooksville, FL 34604 **Agreement Liaison Name:** Veda Ramirez **Email Address:** Vramirez@co.hernando.fl.us
Party #2:	**Name:** Community Food Bank of Citrus County, Inc. **(the "Subrecipient")** **Entity Type:** Non-Profit **Principal Address:** 5259 W Cardinal Street Homosassa, FL 34446 **Agreement Liaison Name:** Barbara Sprague **Email Address:** Executivedirector@FEED352.org

B. The County and the Subrecipient may unilaterally re-designate their respective agreement liaisons by providing written notice of such change to the other party in accordance with **Article 5** (**"Notice"**) of this Agreement.

C. Both the County and the Subrecipient may be individually referred to as **"party"** or collectively referred to as **"parties"** in this Agreement.

Article 3: Notice of Federal Subaward

A. This is a Federal Subrecipient Agreement for a Federal Subaward. *Documentation of the County's Receipt of the Federal Award* is attached as **"Attachment 1."**

B. **Federal Award Information.** The table below provides basic information regarding the underlying Federal Award pursuant to which this Agreement is being entered.

TABLE 2 – FEDERAL AWARD INFORMATION	
Award Project Description:	For use compliant with Section 603 of the Social Security Act, as amended by Section 9901 of the ARP Act of 2021.
Awarding Agency:	U.S. Department of the Treasury (the **"Federal Awarding Agency"**)
Award ID No.:	HR 1319, Title IX, Subtitle M, Section 9901 (the **"Federal Award"**)
Award Date:	05/19/2021

C. **Federal Award Amount.** The amount of the underlying Federal Award received by the County is: **$37,666,687.00**

D. **Subrecipient Compliance with Federal Award.** At all times during which the Subrecipient is performing under this Agreement, the Subrecipient shall comply with the terms of the underlying Federal Award, as well as with any guidance provided by the Federal Awarding Agency.

E. **Compliance with the Federal Uniform Guidance.** The Subrecipient shall comply with all applicable provisions of the *Federal Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* as found in 2 CFR Part 200 (the **"Uniform Guidance"**) when meeting its obligations under this Agreement.

F. **References for Emphasis Only.** The parties hereby agree that the specific provisions of the Uniform Guidance – or any other applicable federal, state, or local law – that are referenced in this Agreement are referenced for emphasis only. The exclusion of a specific applicable provision of law from this Agreement does not alleviate the Subrecipient from its obligation to comply with any such applicable provisions.

G. By executing this Agreement, the Subrecipient hereby certifies that it has reviewed 2 CFR Part 200 and any relevant Federal Awarding Agency guidance and that it understands its obligations pursuant to such federal regulations and guidance.

H. **Federal Subaward Amount.** The amount of the Federal Subaward issued pursuant to this Agreement is an amount not to exceed **$250,000.00** (the **"Subaward"**). This Agreement's use of "an amount not to exceed" shall in no way entitle the Subrecipient to reimbursement or payment of the maximum amount provided unless such reimbursement or payments have been earned by the Subrecipient in accordance with the terms and provisions of this Agreement.

I. **Required Information.** Any additional information required pursuant to 2 CFR § 200.332 (**"Requirements for Pass-Through Entities"**) may be found in the *Required Information for Federal Subawards Schedule* attached to this Agreement as **"Exhibit A."**

Article 4: Term of Agreement, Subaward Period of Performance, and Extensions

A. **Term of Agreement.** The term of this Agreement begins on the date that it is fully executed by both parties (the **"Effective Date"**) and shall conclude on: **September 30, 2026.**

B. Subaward Period of Performance.

1. The **"Subaward Period of Performance"** is the time during which the Subrecipient may incur obligations to carry out the work or services authorized under this Agreement. The Subrecipient may not invoice for any work completed, or services rendered, outside of the Subaward Period of Performance. This provision is required pursuant to 2 CFR § 200.332(a)(1)(v).

2. The Subaward Period of Performance of this Agreement is: **December 17, 2024** to **September 30, 2026.** If the date range provided in this provision exceeds the Period of Performance provided in the Federal Award, the Federal Award's Period of Performance shall prevail.

Article 5: Notice

Service of all notices under this Agreement shall be in writing and sent by certified or registered mail or courier service, postage prepaid, and addressed to the addresses set forth below until such addresses are changed by written notice. Notices sent by certified/registered mail or courier with signature receipt requested shall be deemed effective as of date of receipt.

TABLE 3 – NOTICE	
To the County:	Health and Human Services **Attn:** Veda Ramirez 621 W. Jefferson St. Brooksville, FL 34601 **AND** Hernando County Administration **Attn:** Jeffrey Rogers Administration Building 15470 Flight Path Drive Brooksville, Florida 34604
To the Subrecipient:	Community Food Bank of Citrus County, Inc. **Attn:** Barbara Sprague 5259 W Cardinal Street Homosassa, FL 34446

Article 6: Subrecipient's Obligations and Responsibilities

A. Scope of Services.

1. The Subrecipient shall be responsible for meeting the objectives of this Subaward, as detailed in the *Scope of Services* attached to this Agreement as **"Exhibit B"**, in a manner that is deemed satisfactory by the County and consistent with the standards set forth in this Agreement, the Federal Award, and any directives or guidance issued by the Federal Awarding Agency.

2 The Subrecipient shall not obligate, encumber, spend, or otherwise utilize funds provided pursuant to this Agreement for any activity or purpose not included in, or in conformance with, the *Scope of Services.*

B. **Subrecipient's Agreement Liaison.** The Subrecipient's agreement liaison identified in **TABLE 1 – THE PARTIES**, or as re-designated pursuant to **Article 2, Paragraph B** above, shall be available to communicate and meet with the County's agreement liaison and relevant County staff in order to review the Subrecipient's performance pursuant to this Agreement. The County reserves the right to, at no additional cost to the County, require that the Subrecipient change its agreement liaison should the County's agreement liaison believe so-doing best serves the performance or objectives of the Subaward.

C. **Authority to Practice.** The Subrecipient hereby represents and warrants that it has and will continue to maintain all licenses and approvals required to meet its obligations under the *Scope of Services*, and that it will at all times conduct its activities in a reputable manner. Proof of such licenses and approvals shall be submitted to the County upon request. Failure by the County to request such proof of licensure and approvals shall in no manner be construed as alleviating the Subrecipient's obligations pursuant to **Paragraph C** of this Article, nor shall it be construed as shifting or imposing any liability onto the County.

D. Employees of the Subrecipient.

1. **Skillful Provision of Services.** All services or work provided pursuant to this Agreement shall be performed by the employees, volunteers, associates, or agents of the Subrecipient (or of any subcontractor of the Subrecipient) in a professional and skillful manner.

2. **Employee Licensure.** Any employee, volunteer, associate, or agent of the Subrecipient (or of any subcontractor of the Subrecipient) whose performance under this Agreement requires licensure shall have such valid and active licensure for the full duration of their performance under this Agreement.

3. **Removal of Employees.** The County may require, in writing, that the Subrecipient removes any employee, volunteer, associate, or agent of the Subrecipient (or of any subcontractor of the Subrecipient) that the County's agreement liaison – using their sole discretion – deems to be incompetent, careless, or otherwise objectionable from performing work or services related to this Agreement. The County shall not be responsible for any costs related to such removal.

4. **E-Verify Use and Registration Certification.** Pursuant to Section 448.095, Florida Statutes, the Subrecipient must certify that it is registered with, and uses, the E-Verify system to verify the work authorization status of all newly hired employees. The Subrecipient must further certify that it does not employ, contract with, or subcontract with an unauthorized alien, and shall provide an affidavit affirming this prior to the effective date of the contract. These certifications shall be provided by use of the *E-Verify Use and Registration Certification* found attached to this Agreement as **"Form 2"**. Violation of s. 448.095, Florida Statutes, may result in the Immediate Termination (as later defined in **Article 22** (**"Termination"**)) of this Agreement.

E. Non-Discrimination.

1. The Subrecipient shall, at no time during the provision of services funded through this Agreement, discriminate based on race, color, religion, national origin, sex, or sexual orientation.

2. The Subrecipient shall comply with any and all federal, state, and local anti-discrimination laws, rules, and regulations. For further information about the federal anti-discrimination requirements for this Agreement, see **Article 23, Paragraph D** (**"Federal Contract Terms"**).

F. **Inherently Religious Activities.** When expending the Subaward, the Subrecipient must adhere to the following conditions:

1. The Subrecipient must not engage in inherently religious activities, such as worship, religious instruction, or proselytization, as part of its provision of the services funded in whole or in part by the Subaward;

2. Such inherently religious activities must be offered separately, in time or location, from the Subaward-funded services; and

3. Participation in any inherently religious activities must be purely voluntary for the beneficiaries of the Subaward-funded services; therefore, the Subrecipient shall not implicitly or explicitly condition receipt of any services funded in whole or part by the Subaward on participation in any inherently religious activities.

G. Public Entity Crimes and Scrutinized Companies.

1. By use of the *Public Entity Crimes and Scrutinized Companies Certification* attached to this Agreement as **"Form 3,"** the Subrecipient must certify that:

   a. The Subrecipient does not meet the definition of "Scrutinized Company" pursuant to Section 215.473, Florida Statutes; and

   b. The Subrecipient – or any of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in management of the Subrecipient or an affiliate of the Subrecipient – has not been convicted of a public entity crime pursuant to Section 287.133(3), Florida Statutes.

2. The County reserves the right to Immediate Termination (as later defined in **Article 22** (**"Termination"**)) of this Agreement should the Subrecipient:

   a. Be found to have falsified its certification in **"Form 3"**; or

   b. Become ineligible to bid on, submit a proposal for, or enter into or renew a contract with the County for goods or services pursuant to either Section 287.133, Florida Statutes (**"Public Entity Crime; Denial or Revocation of the Right to Transact Business with Public Entities"**) or Section 287.135, Florida Statutes (**"Prohibition Against Contracting with Scrutinized Companies"**) subsequent to entering into this Agreement with the County.

Article 7: Procurement and Subcontracting Standards

A. Procurement. The Subrecipient must comply with 2 CFR §§ 200.318-200.327 **("Procurement Standards")** and must use such procedures when expending the Subaward. **Does the Subrecipient maintain written purchasing procedures in compliance with the aforementioned federal Procurement Standards? "Yes"__X___ or "No"_____**

If **"Yes,"** then: By executing this Agreement, the Subrecipient hereby certifies that it maintains written purchasing procedures in compliance with 2 CFR §§ 200.318-200.327 (**"Procurement Standards"**) and will use such procedures when expending the Subaward.

If **"No,"** then: By executing this Agreement, the Subrecipient hereby certifies that it does not maintain written purchasing procedures that are in compliance with 2 CFR §§ 200.318-200.327 (**"Procurement Standards"**). As such, the Subrecipient hereby agrees to use the County's purchasing procedures, as found in the County's *Procurement Procedures Manual*, when expending the Subaward. The *Procurement Procedures Manual* can be found at this link: https://www.ocfl.net/VendorServices.aspx.

B. **Simplified Acquisition Threshold.** The **"Simplified Acquisition Threshold"** means the dollar amount below which a non-Federal entity may purchase property or services using small purchase methods. For the purposes of this Subaward, the Simplified Acquisition Threshold is: **$150,000.00**. The Simplified Acquisition Threshold provided for in this Agreement is the one that the Subrecipient – and any of its sub-subrecipients – must use when making its expenditures of the Subaward.

C. Subcontracting.

1. **Approval by the County.** The Subrecipient shall not use any portion of the Subaward to provide payment to subcontractors without such payment being pursuant to a federally-compliant contract that has been approved by the County. All proposed procurement and solicitation documents for the subcontracting of any work to be performed in connection with the Project shall be submitted to the County for review. The Subrecipient shall submit a copy of the executed subcontract and documentation of the competitive procurement process pursuant to which the subcontractor was selected {e.g. invitation to bid, request for proposal. etc.) to the County prior to submitting any invoices for subcontracted work. Regardless of any subcontract, the Subrecipient is ultimately responsible for all work performed under this Agreement. The Subrecipient agrees to be responsible for the fulfillment of all work elements included in any subcontract and agrees to be responsible for the payment of all monies due under any subcontract.

2. **Conflicts of Interest.** The Subrecipient must verify to the County in writing that "No employee, officer, or agent will participate in the selection, award, or administration of a contract supported by a federal award if he or she has a real or apparent conflict of interest." If the Subrecipient has any direct or indirect ownership or investment interest in the outcome of the property, that would be considered a conflict of interest.

3. **Prohibition on Pre-Existing Subcontracts.** The Subrecipient may not use the Subaward to provide payment on pre-existing or continuing contracts it may have with subcontractors.

4. **Federally Required Contract Provisions.** The Subrecipient shall insert the relevant contract provisions found in Appendix II of 2 CFR Part 200 (**"Contract Provisions for Non-Federal Entity Contracts Under Federal Awards"**) into all contracts into which it enters while expending the Subaward. The County has provided a copy of such *Federally Required Contract Provisions*, which are attached as **"Attachment 2."**

5. **Small and Minority Business Enterprises ("MBE"), Women Business Enterprises ("WBE"), and Labor Surplus Area Firms.** If the Subrecipient wishes to engage in sub-contracting or make any procurements pursuant to this Agreement, the Subrecipient understands that it must first execute the *Small and Minority Business Enterprise ("MBE"),*

Women Business Enterprise ("WBE"), and Labor Surplus Area Firm Certification attached as **"Form 4"** stating that the Subrecipient shall take the "Five Affirmative Steps" regarding Small and Minority Business Enterprise, Women Business Enterprises, and Labor Surplus Area Firms as required by the Federal Government in 2 CFR § 200.321 in the solicitation and selection of such subcontractor(s) or procurements.

6. **Engaging in subcontracting, pursuant to this Agreement without complying with the requirements of this article is strictly prohibited.**

D. Sub-Subawards.

1. **Approval by the County.** The Subrecipient shall not issue sub-subawards to any non-Federal entity without first receiving approval from the County.

2. **Prohibition on Pre-Existing Subrecipient Agreements.** The Subrecipient may not use any pre-existing subrecipient agreements that might exist between the Subrecipient and their intended sub-subrecipients as a basis for providing any subawards to such sub-subrecipient entities.

3. **Pass-Through Requirements.**

   a. The Subrecipient must pass through all obligations of the Federal Award and any placed upon the Subrecipient under this Agreement to any of its sub-subrecipients through a federally-compliant subrecipient agreement.

   b. The Subrecipient must comply with all provisions of 2 CFR § 200.332 (**"Requirements for Pass-Through Entities"**) and any other applicable provisions of the Uniform Guidance when issuing a subaward to a sub-subrecipient.

E. **Subrecipient/Contractor Determinations.** Prior to entering into an agreement with a third-party entity that is in part or in whole funded by the Subaward, the Subrecipient shall analyze the nature of such agreement pursuant to the provisions of 2 CFR § 200.331 (**"Subrecipient Subcontractor Determinations"**) to determine which type of relationship and requirements apply.

Article 8: Property Standards

A. By executing this Agreement, the Subrecipient hereby certifies that it shall comply with 2 CFR §§ 200.310-200.316 (**"Property Standards"**) and will use such procedures when handling and managing any supplies, equipment, real estate, or other property procured with any portion of the Subaward.

B. The Subrecipient shall maintain inventory records of all supplies, equipment, real estate, and other property procured with the Subaward and may not to sell, transfer, encumber, or otherwise dispose of any such property without the written permission of the County.

Article 9: Budget

A. **Approved Budget.** The County-approved *Budget* for the Subaward is attached to this Agreement as **"Exhibit C"** and shall be the basis for which the County provides payment to the Subrecipient.

B. Budget Amendments.

1. **In General.** Requests to amend the *Budget* contemplated in this Agreement:

   a. Must be received by the County no later than forty-five (45) days prior to the expiration of this Agreement's term;

b. Shall be made prior to the Subrecipient incurring any expenses that are not expressly provided for in the *Budget;* and

c. Shall be considered and approved at the sole discretion of the County.

2. **Informal Budget Amendments.** The County's agreement liaison noted in **TABLE 1 – THE PARTIES**, or as later re-designated pursuant to **Article 2, Paragraph B**, may, in writing, informally approve the following types of *Budget* amendments:

a. **Discretionary Federal Awards.** If the Federal Award is discretionary in nature, then the County's agreement liaison may, in writing, informally approve requested amendments to the *Budget* that:

(1) Do not increase the maximum Subaward amount; and

(2) Are deemed by the County's agreement liaison as being consistent with the *Scope of Services* attached as **"Exhibit B"**.

b. **Non-Discretionary Federal Awards.** If the Federal Awarding Agency approved the *Budget* contemplated in this Agreement, then the County's agreement liaison may, in writing, informally approve amendments to the *Budget* only upon receipt of written approval of such amendments by the Federal Awarding Agency.

3. **Formal Budget Amendments.** Budget amendments that do not meet either requirement of **Paragraph B** of this Article may not be informally amended by the County's agreement liaison and, instead, must be made by formal written amendment mutually executed by both parties to this Agreement.

C. Program Income.

1. 2 CFR § 200.1 (**"Definitions"**), defines **"Program Income"** as gross income earned by the Subrecipient that is directly generated by a supported activity or earned as a result of the Subaward during the Subaward Period of Performance. Program Income includes but is not limited to income from fees for services performed, the use or rental or real or personal property acquired under the Subaward, the sale of commodities or items fabricated under the Subaward, license fees and royalties on patents and copyrights, and principal and interest on loans made with Subaward Funds. Interest earned on advances of the Subaward is not program income. Except as otherwise provided, Program Income does not include rebates, credits, discounts, and interest earned on any of those items.

2. The Subrecipient is not permitted to generate Program Income in its performance under this Agreement.

3. In the event that the Subrecipient does generate unanticipated Program Income, unless otherwise directed by the County, in compliance with 2 CFR § 200.307(e)(1) (**"Program Income"**), the Subrecipient shall:

a. Calculate, document, and record such Program Income;

b. Immediately report such Program Income to the County;

c. Use the Program Income to reduce the Subaward reimbursements owed to the

Subrecipient rather than to increase the funds committed to the project; and

d. Return to the County, within thirty (30) calendar days from the expiration of the Subaward Period of Performance, any Program Income that the Subrecipient has earned and not expended pursuant to the provisions of this paragraph.

Article 10: Reimbursement Requests

A. **Payment by Reimbursement.** This Subaward shall be paid through reimbursement for actual funding-eligible costs as permitted by this Agreement. In order to obtain payment, the Subrecipient shall make funding-eligible expenditures and thereafter submit a **"Reimbursement Request(s)"** to the County for such expenditures pursuant to the terms found in this Article.

B. **Form of Reimbursement Requests.** Reimbursement Requests shall be delivered to the County in a manner consistent with that attached as **"Exhibit D."** The Subrecipient shall additionally attach any supporting documentation as requested by the County's agreement liaison noted in **TABLE 1 – THE PARTIES**, or as later re-designated pursuant to **Article 2, Paragraph B**.

C. **Minimum Standards for Reimbursement Requests.** At minimum, all Reimbursement Requests submitted by the Subrecipient must:

1. Include enough detail so that the County is able to confirm that the Subrecipient has only requested reimbursement of funding-eligible expenses that were incurred by the Subrecipient in compliance with the terms of this Agreement.

2. If the *Budget* attached as **"Exhibit C"** has line-items or funding categories, indicate which line-item or funding category under which each funding-eligible cost is being requested for reimbursement.

3. Pursuant to 2 CFR § 200.415(a) (**"Required Certifications"**), include the following federally required attestation executed by an individual that is able to legally authorized to do so by the Subrecipient:

> **"By signing this report, I certify to the best of my knowledge and belief that the report is true, complete, and accurate, and the expenditures, disbursements and cash receipts are for the purposes and objectives set forth in the terms and conditions of the Federal Award. I am aware that any false, fictitious, or fraudulent information, or the omission of any material fact, may subject me to criminal, civil or administrative penalties for fraud, false statements, false claims or otherwise. (U.S. Code Title 18, Section 1001 and Title 31, Sections 3729-3730 and 3801-3812)."**

4. By executing this Agreement, the Subrecipient hereby affirms that it understands that the above are minimum standards for invoices only and are not meant to represent an exhaustive list of what the County's agreement liaison may request or require in order to consider a Reimbursement Request complete or to approve such request for reimbursement.

D. **Reimbursement Request Frequency and Due Dates.** Unless otherwise stated in the *Scope of Services* attached to this Agreement as **"Exhibit B"**, which hereby supersedes the frequency and due date for Reimbursement Requests noted in this provision if there is a conflict between the two, invoices are due as followed:

1. **General Reimbursement Requests.** The period for submission of General Reimbursement Requests shall be **monthly** with such invoices due to the County by the **10th of the month**

subsequent to the provision of services for which the County is being invoiced. Should the Subrecipient fail to timely submit its General Reimbursement Request for any particular month, it accepts the risk that the County may choose not to provide reimbursement for any expenses the Subrecipient incurred during such month.

2. **Initial Reimbursement Request.**

   a. If the Subaward Period of Performance began on a date prior to the execution of this Agreement, the Subrecipient shall submit an Initial Reimbursement Request that covers all funding-eligible expenses for the period of time beginning on the first day of the Subaward Period of Performance (for this Agreement: **December 3, 2024**) and ending on the date of execution of this Agreement. This Initial Reimbursement Request shall be submitted no later than the date that the first General Reimbursement Request is due to the County.

   b. This Initial Reimbursement Request shall not be required if the Subaward Period of Performance and date of execution of this Agreement occur in the same month. If such occurs, the first General Reimbursement Request may include all expenses made for that month.

3. **Final Invoices.** Final Invoices shall be due to the County **no later than thirty (30) calendar days** after the expiration or termination of this Agreement.

E. **Withholding or Denial of Payment on Reimbursement Requests.** The County reserves the right to withhold or deny payment on any Reimbursement Request if such request:

1. Is incomplete or fails to provide the requisite supporting documentation;

2. Fails to be provided in a timely fashion as determined by the terms of this Agreement; or

3. Indicates expenditures that are not compliant with this Agreement, the Federal Award, or any directives issued by the Federal Awarding Agency.

Article 11: Payment Terms

A. **Local Government Prompt Payment Act.** The County shall make payments to the Subrecipient for work performed, or services provided, pursuant to this Agreement, in accordance with the Local Government Prompt Payment Act, Section 218.70 et. seq, Florida Statutes.

B. **Federal Funding Availability.** The County is only responsible for payments to the Subrecipient for which the County is provided funding by the Federal Awarding Agency. If the Federal Awarding Agency determines that a specific cost or expense requested by the Subrecipient is not permitted to be reimbursed under the terms and conditions of the Federal Award, the County shall not be responsible for making payment to the Subrecipient for that specific requested cost or expense. Should the Federal Awarding Agency withhold or deny funding to the County for any reason, the County may subsequently withhold or deny funding to the Subrecipient.

C. **Payment Limitations.** The County shall not make payments for, or in any way be responsible for, payment to the Subrecipient for any of the following:

1. Any goods or services provided that do not fall within the *Scope of Services* attached as **"Exhibit B"**;

2. Any goods or services that fall within the *Scope of Services*, but that such payment by the County would supplant currently available, or already budgeted, funding for those goods or services; or

3. Any goods or services that fall within the attached *Scope of Services*, but that such payment can be made through a third-party program or insurance provider, including but not limited to Medicaid or Medicare.

D. **Prohibition on Duplicative Funding.** The Subrecipient may not accept duplicate funding for any cost, position, service, or deliverable funded by the Federal Award. Duplicative funding is defined as more than one-hundred percent (100%) payment from all funding sources for any cost, position, service, or deliverable. If duplicate funding is discovered, this Agreement may be suspended while the extent of the overpayment is determined, or may be terminated. Such suspension or termination may be initiated at the sole discretion of the County.

E. **Costs in Excess of Award.** Any costs or expenses incurred by the Subrecipient that exceed the overall Subaward amount set forth in this Agreement, or which are were incurred by the Subrecipient outside of the Subaward Period of Performance, shall be the sole responsibility of the Subrecipient.

F. At no point shall the County be expected to, or responsible for, using its general revenue fund dollars or any non-Federal Award monies to make payment to the Subrecipient for any costs or expenses incurred by the Subrecipient pursuant or related to this Agreement or the Federal Award.

G. **Funds Paid in Advance.** If the Subrecipient is provided Subaward funds in advance pursuant to this Agreement, the Subrecipient and the County must agree to and execute the *Subaward Advance Terms and Certification* attached to this Agreement as **"Form 5."** Additionally, the Subrecipient hereby certifies to the County that, if it receives an advance of the Subaward, it will comply with the following:

1. **Federal Advance Requirements.** The Subrecipient shall comply with 2 CFR § 200.305(b) (**"Federal Payment"**) and therefore shall:

   a. Maintain written procedures that minimize the time elapsing between: (i) the transfer of funds by the County to the Subrecipient, and (ii) the Subrecipient's disbursement of those funds for direct project costs and the proportionate share of any allowable indirect costs;

   b. Review 2 CFR § 200.305(b) and maintain financial management systems that comply with the standards therein for fund control and accountability; and

   c. Make timely payment to its contractors and vendors.

2. **Fidelity & Employee Dishonesty Insurance.** The Subrecipient shall present proof of Fidelity & Employee Dishonesty Insurance with a limit of not less than the Subaward amount awarded under this Agreement. This insurance may be waived or adjusted at the discretion of the County's Risk Management Division.

Article 12: Return of Funds

A. **Unauthorized Expenditures.** The Subrecipient shall reimburse the County for all unauthorized or funding-ineligible expenditures.

B. **Payment(s) in Error.** The Subrecipient shall return to the County any payments made to the Subrecipient that were made in error or were in any manner fraudulent or inconsistent with the *Scope of Services* attached as **"Exhibit B"** or the Federal Award (**"Payment(s) in Error"**).

1. In the event that the Subrecipient, or any outside accountant or auditor, determines that a Payment in Error was made, the Subrecipient shall return to the County any associated funds no later than ten (10) business days from when the Subrecipient became aware of such Payment in Error.

2. In the event that the County discovers a Payment in Error, the County shall notify the Subrecipient and the Subrecipient shall return any associated funds to the County no later than ten (10) business days from the Subrecipient's receipt of such notice.

C. **Federal Disallowance(s).** If the Federal Government demands reimbursement from the County due to a disallowance or finding that an expense or cost for which the County provided Subaward funding to the Subrecipient was in any way improper or not in compliance with the Federal Award, the Subrecipient shall return any associated funds to the County within a reasonable time period as mutually agreed upon by the County and the Subrecipient, or within six (6) months, whichever is the later of the dates.

D. **Delay or Failure to Return Funds.** Should the Subrecipient fail to reimburse the County for any Payment in Error or Federal Disallowance within the time designated, the County may respond with any number of the following actions:

1. Charge an interest rate as determined by the State of Florida, Chief Financial Officer, pursuant to Chapter 55, Florida Statutes, on the amount of the overpayment or outstanding balance thereof. Interest shall accrue from the date of the Subrecipient's initial receipt of overpayment funds up to the date of reimbursement of said overpayment funds to the County;

2. Withhold any or all future payments until the amount of such overpayment has been recovered by the County;

3. Terminate this Agreement; and

4. Bar the Subrecipient from being considered when issuing future Federal Subawards or other County agreements.

Article 13: Progress Reporting and Subaward Closeout

A. Progress Reporting

1. **Form of Progress Reports. "Progress Report(s)"** shall be delivered to the County in a manner consistent with that attached as **"Exhibit E."**

2. **Minimum Standards for Progress Reports.** At minimum, such Progress Reports must detail the outputs, outcomes, and progress the Subrecipient has made in accomplishing the objectives of the *Scope of Services* attached as **"Exhibit B."** The County reserves the right to

reasonably and unilaterally revise such approved form and request any additional supporting documentation from the Subrecipient as it deems necessary to meet its federal reporting requirements and monitoring obligations.

3. **Progress Report Frequency and Due Dates.** Unless otherwise stated in the *Scope of Services*, which hereby overwrites the frequency and due date of Progress Reports noted in this provision if there is a conflict between the two, Progress Reports shall be submitted on a **monthly** basis and **are due by the 10th of the month subsequent to the provision of services of which the Subrecipient is reporting.**

4. **Withholding or Denial of Payment on Reimbursement Requests.** Failure to provide the required Progress Reports in accordance with this Article may necessitate the County's withholding of payment on any subsequent Reimbursement Requests and shall be considered cause for termination by the County pursuant to the terms of termination in this Agreement.

5. **Advances.** If a portion of the Subaward was advanced, failure to provide the required Progress Reports in accordance with this Article will obligate the Subrecipient to, at the County's written request, return to the County the balance of any unexpended advanced Subaward funds.

B. Subaward Closeout.

1. The closeout of the Federal Award, or this Subaward, does not affect any of the following:

   a. The right of the Federal Awarding Agency or the County to disallow costs and recover funds on the basis of a later audit or other review. The Federal Awarding Agency or County must make any cost disallowance determination and notify the Subrecipient within the record retention period.

   b. The requirement for the Subrecipient to return any funds due as a result of later refunds, corrections, or other transactions including final indirect cost rate adjustments.

   c. The ability of the Federal Awarding Agency to make financial adjustments to a previously closed award such as resolving indirect cost payments and making final payments.

   d. Audit requirements in 2 CFR Part 200, Subpart F.

   e. Property management and disposition requirements in §§ 200.310 through 200.316 of 2 CFR Part 200.

   f. Records retention as required in §§ 200.334 through 200.337 of 2 CFR Part 200.

2. After closeout of the Federal Award, or this Subaward, a relationship created under the Federal Award, or this Subaward, may be modified or ended in whole or in part with the consent of the Federal Awarding Agency or the County and the Subrecipient, provided the responsibilities of the Subrecipient, including those for property management as applicable, are considered and provisions made for continuing responsibilities of the Subrecipient, as appropriate.

Article 14: Maintenance, Retention, and Access to Records

A. The Subrecipient, and its subcontractors (if any) that are providing services or otherwise performing

pursuant to this Agreement shall abide by the requirements of this Article.

1. The Subrecipient shall establish and utilize generally accepted accounting principles in the maintenance of all records relating to this Agreement. Such practices shall comply with the general acceptable accounting principles and shall fully and accurately reflect, track, and document the Subrecipient's financial activities.

2. The Subrecipient shall establish and maintain separate accounting records for the Subrecipient's activities in meeting its obligations pursuant to this Agreement with sufficient documentation to identify the associated expenditures (e.g. detailed invoices, cancelled checks, payroll journals, bank statement reconciliations, etc.) and establish that such expenditures are allowable, necessary, and reasonable under this Agreement, the Federal Award, and any directives issued by the Federal Awarding Agency.

3. The Subrecipient shall furnish the County with any and all data needed for the purpose of monitoring, evaluation, auditing, and quality assurance. This data shall include information on the services provided or work performed, and any other data that may be required by the County, in its sole discretion, to adequately evaluate the Subrecipient's performance under this Agreement.

4. All records that were created, utilized, or maintained for the purpose of fulfilment of the Subrecipient's obligations pursuant to this Agreement, whether paper or electronic ("**Relevant Records**"), shall be retained by the respective record holder for a period of five (5) years after termination of this Agreement, including any extensions or renewals of this Agreement.

5. In the event of litigation, claims, or audit findings, all Relevant Records shall be retained for a period of five (5) years after the resolution of any such event.

6. The Subrecipient shall permit the County, the Comptroller of Hernando County (the **"Comptroller"**), the Federal Awarding Agency, the Comptroller General of the United States, or any of their authorized representatives to access, review, or reproduce any and all Relevant Records.

7. If the *Scope of Services* in **"Exhibit B"** is site-specific, or construction-related, access to the stated construction or work site shall be provided to the County, the Comptroller, the Federal Awarding Agency, the Comptroller General of the United States, or any of their authorized representatives.

8. **The Subrecipient shall ensure that the provisions of this Article are incorporated into any agreements into which it enters that are related to this Agreement and the Federal Award.**

B. Public Records.

1. Pursuant to Section 119.0701, Florida Statutes, the Subrecipient shall:

   a. Keep and maintain public records required by the County to perform the service.

   b. Upon request from the County, provide the County with a copy of the requested records or allow the records to be inspected or copied within a reasonable time at a cost that does not exceed the amount set by the County.

   c. Ensure that public records that are exempt or confidential and exempt from public

records disclosure requirements are not disclosed except as authorized by law for the duration of this Agreement's term and following completion of this Agreement if the Subrecipient does not transfer the records to the County.

d. Upon completion, or termination, of this Agreement, transfer, at no cost, to the County all public records in possession of the Subrecipient or keep and maintain public records required by the Subrecipient to perform the service in accordance with Florida law.

e. If the Subrecipient transfers all public records to the County upon completion of the Agreement, the Subrecipient shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the Subrecipient keeps and maintains public records upon completion of this Agreement, the Subrecipient shall meet all applicable requirements for retaining public records in accordance with applicable federal and Florida law.

f. All records stored electronically shall be provided to the County, upon request from the County, in a format that is compatible with the information technology systems of the County.

IF THE SUBRECIPIENT HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, AS TO THE SUBRECIPIENT'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS AGREEMENT, THE SUBRECIPIENT SHALL CONTACT THE PURCHASING AND CONTRACTS OFFICE AT 15470 FLIGHT PATH DRIVE, BOOKSVILLE, FLORIDA 34604, Purchasing@HernandoCounty.us, (352) 754-4020.

2. **Florida Agencies.** If the Subrecipient is an "Agency" as defined by Section 119.011, Florida Statutes, then the Subrecipient shall comply with its own obligations under Chapter 119, Florida Statutes. The Subrecipient additionally agrees to cooperate in good faith with the County in the handling of public records created under this Agreement. Notwithstanding anything set forth in any provision of this Agreement to the contrary, the Subrecipient will not be required to destroy any records in its custody in violation of Chapter 119, Florida Statutes.

Article 15: Monitoring Requirements

A. **Monitoring.** The Subrecipient shall permit the County, the Comptroller, or the designees of either such government agency, to periodically monitor the Subrecipient's performance and programmatic and financial activities, pursuant to the requirements found in 2 CFR § 200.332 (**"Requirements for Pass-Through Entities"**) and any other relevant federal laws, regulations, or guidance.

B. Letter of Findings.

1. If the County, the Comptroller, or the designee of either such government agency, discovers any defect in the Subrecipient's performance under this Agreement (whether programmatic, financial, etc.), then a "Letter of Findings" may be provided to the Subrecipient.

2. The Subrecipient shall respond to any such Letter of Findings with a Corrective Action Plan and Implementation Schedule, as instructed by the County, the Comptroller, or the designee of either such government agency, within thirty (30) calendar days of the date of the Letter of Findings. Failure to submit a Corrective Action Plan and Implementation Schedule shall constitute a material breach and may result in termination of this Agreement.

3. Nothing in this provision shall obligate the County, the Comptroller, or the designee of either such government agency, to first issue such a "Letter of Findings" to the Subrecipient prior to the County being permitted to exercise any of its rights in equity, at law, or as otherwise granted through this Agreement, including but not limited to the right to terminate this Agreement.

Article 16: Audit Requirements

A. **Auditing.** The Subrecipient shall comply with the federal auditing requirements found in 2 CFR Subpart F (**"Audit Requirements"**).

B. **Authorization to Audit.** The County, the Comptroller, the Federal Awarding Agency, the Comptroller General of the United States, or any of their authorized designees shall have the right to audit Subrecipient's:

1. Disbursement of the Subaward;

2. Service or program delivery; and

3. Compliance with the terms, conditions, and obligations set forth in this Agreement and the Federal Award.

C. **Mandatory Audit, Certification, and Audited Financial Statement.** In determining the federal award amounts expended during its fiscal year, the Subrecipient shall consider all sources of federal awards including federal resources received from the State or other agencies.

1. If the Subrecipient expends seven hundred fifty thousand dollars ($750,000) or more in federal awards during its fiscal year, the Subrecipient must have a single audit completed and conducted in accordance with 2 CFR § 200.514 (**"Scope of Audit"**), unless the Subrecipient elects to have a program-specific audit in accordance with 2 CFR § 200.501(c) (**"Audit Requirements"**).

2. If the Subrecipient expends less than seven hundred fifty thousand dollars ($750,000) in federal awards during the fiscal year, the Subrecipient shall:

   a. Provide an annual certification to the County that a single audit was not required; and

   b. Annually submit an Audited Financial Statement to the County.

3. If the Subrecipient is mandated to have an audit performed due to its expenditure of seven hundred fifty thousand dollars ($750,000) or more in federal awards within one fiscal year, that audit must be completed no later than one-hundred and eighty (180) calendar days after the close of the Subrecipient's fiscal year.

D. Submission of Audits and Audited Financial Statements.

1. The Subrecipient shall submit to the Comptroller and the County any and all auditor's report received by the Subrecipient related to its obligations under this Agreement within ten (10) business days of receipt.

2. A copy of the Single Audit Reporting Package, including the associated management letter, which was conducted in accordance with 2 CFR § 200.512 (**"Report Submission"**), or the applicable Audited Financial Statements, shall be forwarded to the County pursuant to the

notice provision in this Agreement, with a copy provided to the Hernando County Comptroller's Office, at the following:

Hernando County Clerk of Circuit
Court & Comptroller
Financial Services
Attn: Grant & Revenue Manager
20 N Main St,
Brooksville FL 34601

E. **The Federal Audit Clearinghouse.** Audits must be submitted to the Federal Audit Clearinghouse either thirty (30) calendar days after receipt of the auditor's report, or nine (9) months after the end of the entity's fiscal year end date. Such audits shall be submitted electronically via the following website: https://harvester.census.gov/facweb/.

F. Failure to comply with any requirements in this Article shall be deemed as a breach of this Agreement and may result in the withholding or denial of any requests for payment or reimbursement to the Subrecipient.

Article 17: Insurance

A. The Subrecipient agrees to, on a primary basis and at its sole expense, at all times throughout the duration of this Agreement maintain the following types of insurance coverage with limits and on forms (including endorsements) as described in this Article. These requirements, as well as the County's review or acceptance of insurance maintained by the Subrecipient is not intended to, and shall not in any manner, limit or qualify the liabilities or obligations assumed by the Subrecipient under this Agreement.

B. The Subrecipient shall require and ensure that each of its sub-contractors/consultants providing services hereunder (if any) procures and maintains until the completion of their respective services, insurance of the types and to the limits specified in this Article.

C. The Subrecipient shall have in full force the following insurance coverage, and will provide Certificates of Insurance to the Subrecipient prior to commencing operations under this Agreement to verify such coverage:

1. **All Subrecipients:**

Commercial General Liability – The Subrecipient shall maintain coverage issued on the most recent version of the ISO form as filed for use in Florida or its equivalent, with a limit of liability of not less than one million dollars ($1,000,000) per occurrence. Subrecipient further agrees coverage shall not contain any endorsement(s) excluding or limiting Product/Completed Operations, Contractual Liability, or Separation of Insured. The General Aggregate limit either shall apply separately to this contract or shall be at least twice the required occurrence limit.

The Subrecipient agrees to endorse the County as an Additional Insured with a CG 20 26 Additional Insured–Designated Person or Organization endorsement, or its equivalent to all commercial general liability policies. The certificate holder and additional insured shall be listed in the name of the Hernando County, Florida.

2. **Subrecipients Providing Services at County Facilities:**

Workers' Compensation – The Subrecipient shall maintain coverage for its employees with

statutory workers' compensation limits and no less than one hundred thousand dollars ($100,000) for each incident of bodily injury or disease for Employer's Liability. Said coverage shall include a waiver of subrogation in favor of the County if services are being provided at County facilities. Elective exemptions as defined in Chapter 440, Florida Statutes, will be considered on a case-by-case basis. Any Agency using an employee leasing arrangement shall complete the *Leased Employee Affidavit* attached as **"Form 6."**

Business Automobile Liability – The Subrecipient shall maintain coverage for all owned; non-owned and hired vehicles issued on the most recent version of ISO form as filed for use in Florida or its equivalent, with limits of not less than five hundred thousand dollars ($500,000) per accident. In the event the Subrecipient does not own automobiles, the Subrecipient shall maintain coverage for hired and non-owned auto liability, which may be satisfied by way of endorsement to the Commercial General Liability policy or separate Business Auto Liability policy.

3. **Subrecipients Providing Services to Vulnerable Populations:**

Sexual Abuse and Molestation Coverage with limits of not less than one hundred thousand dollars ($100,000) per occurrence shall also be included for those programs that provide services directly to Vulnerable Person(s). "Vulnerable Person(s)" are minors as defined in Section 1.01(13), Florida Statutes, or vulnerable adults as defined in Section 415.102, Florida Statutes.

4. **Subrecipients Providing Services that are of a Professional Nature:**

Professional Liability with a limit of not less than one million dollars ($1,000,000) per wrongful act or claim. For policies written on a claims-made basis, the Subrecipient agrees to maintain a retroactive date prior to or equal to the effective date of this Agreement. In the event the policy is cancelled, non-renewed, switched to occurrence form or any other event that triggers the right to purchase a Supplemental Extended Reporting Period (**"SERP"**) during the life of this Agreement the Subrecipient agrees to purchase the SERP with a minimum reporting period of not less than two years. Purchase of the SERP shall not relieve the Subrecipient of the obligation to provide replacement coverage.

D. Insurance carriers providing coverage required in this "Insurance" subsection must be authorized or eligible to conduct business in the State of Florida and must possess a current A.M. Best Financial Strength Rating of A-Class VIII.

E. Any request for an exception to these insurance requirements must be submitted in writing to the County for approval.

F. The Subrecipient shall provide to the County current certificates of insurance evidencing all required coverage prior to execution and commencement of any operations/services provided under this Agreement. In addition to the certificate(s) of insurance the Subrecipient shall also provide copies of any applicable endorsements as required above.

G. For continuing service contracts, renewal certificates shall be submitted upon request by either the County or its certificate management representative. The certificates shall clearly indicate that the Subrecipient has obtained insurance of the type, amount and classification as required for strict compliance with this insurance section. No material change or cancellation of the insurance shall be effective without thirty (30) calendar days prior written notice to the County. Certificates shall specifically reference the respective Agreement number. The certificate holder shall read:

Hernando County, Florida
Attention: Risk Management Department
15470 Flight Path Dr
Brooksville, FL 34604

H. **State Agencies or Subdivisions.** If the Subrecipient is a "state agency or subdivision" (as defined by Section 768.28(2), Florida Statutes):

1. **Paragraphs A – G** of this Article are not applicable. However, such paragraphs do apply to any of the Subrecipient's subcontractors that are not agencies or political subdivisions of the State of Florida and must be included by the Subrecipient in any such subcontracts.

2. Without waiving its right to sovereign immunity as provided in Section 768.28, Florida Statutes, the Subrecipient may self-insure its liability with coverage limits of $200,000 per person and $300,000 per occurrence or such other limited sovereign immunity as set forth by the Florida legislature. A statement of self-insurance shall be provided to the County's Risk Management Division at the address in **Paragraph G** of this Article.

Article 18: Indemnification, Sovereign Immunity, and Liability

A. **Indemnification.** Each party agrees to defend, indemnify, and hold harmless the other party, its officials and employees from all claims, actions, losses, suits, judgments, fines, liabilities, costs and expenses (including attorneys' fees) arising from the indemnifying party's own negligent acts or omissions, or those negligent acts or omissions of the indemnifying party's officials and employees acting within the scope of their employment, or arising out of or resulting from the indemnifying party's negligent performance under this Agreement. The foregoing shall not constitute an agreement by either party to assume any liability of any kind for the acts, omissions, or negligence of the other party, its officers, officials, employees, agents, or contractors.

B. **Sovereign Immunity.**

1. The County's above indemnification is expressly limited to the amount set forth in Section 768.28(5), Florida Statutes, as amended by the Florida State Legislature. Nothing contained in this Article, or in any part of this Agreement, shall constitute a waiver of the County's sovereign immunity provisions or protections pursuant to Section 768.28, Florida Statutes.

2. **State Agencies or Subdivisions.** If the Subrecipient is a "state agency or subdivision" (as defined by Section 768.28(2), Florida Statutes), then **Paragraph B.1.** of this Article applies to the Subrecipient in the same manner in which it applies to the County.

C. **Liability.**

1. Unless otherwise explicitly stated in this Agreement, in no event shall either party be responsible to the other for any indirect damages, incidental damages, consequential damages, exemplary damages of any kind, lost goods, lost profits, lost business, or any indirect economic damages whatsoever regardless of whether such damages arise from claims based upon contract, negligence, tort (including strict liability or other legal theory), a breach of any warranty, or a breach of term of this Agreement.

2. Without waiving any of the provisions or protections under this Agreement or pursuant to Florida law, under no circumstances shall the County be liable to the Subrecipient under any

contract, negligence, strict liability, or other legal or equitable theory for any amounts in excess of those limits per claim and per occurrence set forth for tort liability in Section 768.28 of the Florida Statutes, which limits are hereby made applicable to all manner of claims against the County related to this Agreement and are not confined to tort liability.

D. **State Agencies or Subdivisions.** If the Subrecipient is a "state agency or subdivision" (as defined by Section 768.28(2), Florida Statutes), then **Paragraph C.2.** of this Article applies to the Subrecipient in the same manner in which it applies to the County.

Article 19: Independent Contractor, Non-Agent Subrecipient, and Third Parties

A. **Independent Contractor.** It is understood and agreed that nothing contained in this Agreement is intended to, or should be construed as, creating or establishing the relationship of copartners between the parties, or as constituting the Subrecipient as the agent, representative, or employee of the County for any purpose or in any manner whatsoever. The Subrecipient is to be, and shall remain, an independent contractor with respect to all services performed under this Agreement, and that any individuals hired, or performing services or work, pursuant to this Agreement shall be considered to be the employee of the Subrecipient for all purposes, including but not limited to for any worker's compensation matters.

B. **Non-Agent Subrecipient.** The Hernando County Board of County Commissioners has not delegated to any County officer or employee the authority to appoint any agent on the County's behalf regarding the subject matter of this Agreement. Accordingly, nothing in this Agreement is intended to, or shall be construed as to, appoint the Subrecipient as an agent of the County. Additionally, no review or approval of the Subrecipient's services, requests for reimbursement, reports, or records by the County may be construed as the County appointing the Subrecipient as an agent of the County.

C. **No Third-Party Claims.** Nothing in this Agreement, express or implied, shall confer to a third-party – or be construed as conferring to a third-party in any way – any legal or equitable right, benefit, claim, or remedy of any nature arising under or by reason of this Agreement. Moreover, the Federal Government, the County, and the employees and/or contractors of each of the foregoing governments, shall be held harmless from liability to any third parties for claims asserted under this agreement.

Article 20: Confidentiality

A. **Confidentiality.** The parties hereby agree to maintain any confidential information transmitted by the other party over the course of this Agreement confidential to the extent that such confidentiality is lawfully permitted pursuant to Florida or Federal law.

B. Health Insurance Portability and Accountability Act ("HIPAA")

1. **Generally.** If the Subrecipient meets the definition of **"Covered Entity,"** as defined in 45 CFR § 160.103, or a **"Hybrid Entity,"** as defined in 45 CRF § 164.103, then:

   a. Before providing any services funded, in whole or in part, through this Agreement that may cause the Subrecipient to generate Protected Health Information (**"PHI"**) as defined in 45 CFR § 160.103, the Subrecipient must first obtain legally sufficient medical release authorizations from each individual receiving such services.

   b. Such required medical release authorizations may be limited in scope; however, they must at least permit the disclosure of any PHI that is in any way related to the Subaward-funded services that individual(s) receive to both the County and the

Comptroller for reporting, monitoring, and auditing purposes.

c. The County hereby reserves the right to deny payment for any costs the Subrecipient incurs in its provision of otherwise funding-eligible services to any individual(s) for whom it does not have a valid and current medical release authorization as required by this provision.

d. Additionally, the Subrecipient must require any of its subcontractors for which this provision is applicable to secure such requisite medical release authorizations as well.

2. **Business Associate Agreements.** Should the Subrecipient's provision of services under this Agreement require access to PHI generated by the County, then the Subrecipient must execute a Business Associate Agreement that complies with the standards found in 45 CFR § 164.504(e).

C. Florida Information Protection Act ("FIPA")

1. Pursuant to Section 501.171(g)1., Florida Statutes, **"Personal Information"** means either of the following:

   a. An individual's first name or first initial and last name in combination with any one or more of the following data elements for that individual:

      (1) A social security number;

      (2) A driver license or identification card number, passport number, military identification number, or other similar number issued on a government document used to verify identity;

      (3) A financial account number or credit or debit card number, in combination with any required security code, access code, or password that is necessary to permit access to an individual's financial account;

      (4) Any information regarding an individual's medical history, mental or physical condition, or medical treatment or diagnosis by a health care professional; or

      (5) An individual's health insurance policy number or subscriber identification number and any unique identifier used by a health insurer to identify the individual.

   b. A user name or e-mail address, in combination with a password or security question and answer that would permit access to an online account.

2. If, pursuant to this Agreement, the Subrecipient is maintaining, storing, or processing personal information on behalf of the County, the Subrecipient is the County's "Third-Party Agent" under FIPA and hereby agrees to comply with all obligations for such "Third-Party Agents" as detailed in Section 501.171, Florida Statutes. These obligations include, but are not limited to:

   a. Taking reasonable measures to protect and secure data in electronic form containing personal information; and

   b. Providing notice to the County in the event of a breach of security of the Subrecipient's system as expeditiously as practicable, but no later than ten (10) calendar days

following the determination of the breach of security or reason to believe the breach occurred.

3. The Subrecipient shall be responsible and liable for all costs associated with any required notices, fines, or fees assessed against the County for any breach of Personal Information that is the fault of the Subrecipient.

Article 21: Remedies for Noncompliance

A. **Remedies for Noncompliance.** Pursuant to 2 CFR § 200.339 (**"Remedies for Noncompliance"**), if the Subrecipient fails to comply with the U.S. Constitution, federal statutes, regulations, or the terms and conditions of a Federal Award or any additional conditions that the Federal Awarding Agency or County may impose, and the Federal Awarding Agency or County determine that such noncompliance cannot be remedied by imposing additional conditions, the Federal Awarding Agency or County may take one or more of the following actions, as appropriate in the circumstances:

1. Temporarily withhold cash payments pending correction of the deficiency by the Subrecipient or more severe enforcement action by the Federal Awarding Agency or County;

2. Disallow (that is, deny both use of funds and any applicable matching credit for) all or part of the cost of the activity or action not in compliance;

3. Wholly or partly suspend or terminate this Agreement;

4. Initiate suspension or debarment proceedings as authorized under 2 CFR part 180 and Federal Awarding Agency regulations, which may be initiated at the recommendation of the County;

5. Withhold further Federal Awards for the project or program; or

6. Take other remedies that may be legally available.

Article 22: Termination

A. **Termination for Convenience by the County.** Pursuant to 2 CFR Part 200, Appendix II, Paragraph B, contracts made pursuant to a Federal Award must address termination for convenience by the County including the manner by which it will be effected and the basis for settlement. As such, the County may terminate this Agreement for convenience by providing a written thirty (30) calendar day notice to the Subrecipient.

B. **Termination by the Subrecipient.** Pursuant to 2 CFR § 200.340(a)(4), the Subrecipient may terminate this Agreement upon sending the County written notification setting forth the reasons for such termination, the effective date, and, in the case of partial termination, the portion to be terminated. However, in the case of partial termination, if the County determines that the reduced or modified portion of the Subaward will not accomplish the purposes for which the Subaward was made, the County may terminate the Subaward in its entirety. Additionally, a Subrecipient's failure to complete performance on a Subaward in the manner initially agreed upon may compromise the Subrecipient's ability to receive subawards, other grants, or any other contract opportunities from the County in the future.

C. Termination for Cause.

1. Immediate Termination.

a. The County reserves the right to **"Immediate Termination"** of this Agreement, with such termination to be effectuated as of the Subrecipient's receipt of written notice which may be hand-delivered or transmitted by electronic mail to the Subrecipient's agreement liaison noted in **TABLE 1 – THE PARTIES**, or as later re-designated pursuant to **Article 2, Paragraph B**. Notwithstanding the foregoing, the County, as a courtesy, may additionally provide the Subrecipient with such notice in the manner provided in **Article 5** (**"Notice"**) of this Agreement.

b. Immediate Termination pursuant to this provision shall be permitted for any number of the following reasons:

(1) The Federal Awarding Agency terminates the Federal Award;

(2) Any circumstance under which the County is no longer receiving Federal Award funds to reimburse the Subrecipient occurs;

(3) The amount invoiced by the Subrecipient meets or exceeds the amount of the Subaward provided for in this Agreement;

(4) The Subrecipient files bankruptcy or otherwise becomes insolvent;

(5) The Subrecipient is determined to be ineligible to do business in the State of Florida;

(6) If the Subrecipient is a non-profit agency, loss of the Subrecipient's non-profit status; or

(7) As otherwise expressly provided for in this Agreement.

2. **Standard Termination for Cause.** The County may terminate this Agreement for cause upon providing a written fourteen (14) calendar day breach of contract and termination notice. Such termination for cause may be for any material breach of this Agreement, or if the County, using its sole discretion, determines that the Subrecipient is unable to perform under this Agreement.

3. **Opportunity to Cure.** Without creating an obligation to provide an opportunity to cure or accept the Subrecipient's proposed cure if such an opportunity is provided, the County reserves the right to provide the Subrecipient the opportunity to cure any stated breach. Such opportunity to cure can be used in tandem with, or in lieu of, a Letter of Findings issued in accordance with **Article 15** (**"Monitoring Requirements"**) of this Agreement. If the County provides such opportunity to cure, shall:

a. Provide the opportunity to cure as a part of the County's breach of contract and termination notice; and

b. Allot an appropriate deadline by which the Subrecipient must provide its proposed cure to the County.

4. **In the Event of Wrongful Termination for Cause.** If a court of competent jurisdiction determines that this Agreement was wrongfully terminated for cause, then the Subrecipient's damages for such termination, if any, shall be the same as if the County terminated this Agreement for convenience.

D. **Reporting to Federal Awarding Agency.** If the County determines that termination of this Agreement

was due to the Subrecipient's material failure to comply with the Subaward's terms and conditions, the County reserves the right to report the Subrecipient to the Federal Awarding Agency so that it may report the termination to the OMB-designated integrity and performance system accessible through the federal System of Award Management (**"SAM"**).

E. **In the Event of Termination.** After receipt of a notice of termination, except as otherwise directed, the Subrecipient shall take all of the following actions:

1. Pursuant to 2 CFR § 200.339(c), continue to remain responsible for compliance with the requirements in 2 CFR §§ 200.344 (**"Closeout"**) and 200.345 (**"Post-Closeout Adjustments and Continuing Responsibilities"**);

2. Within fourteen (14) calendar days, remit to the County any advanced funds paid that have not yet been recouped by the County (if any);

3. Stop working under this Agreement on the date of receipt of the notice of termination unless otherwise stated in such notice;

4. Place no further orders and enter into no further agreements to the extent that either relate to the performance of the work which was terminated and direct any subcontractors to do the same;

5. Terminate all orders and subcontracts to the extent that they relate to the performance of the work, which was terminated;

6. Finalize all necessary reports, invoices, and other documentation required under the terms of this Agreement up to the date of termination, up to and including the final invoice due at the end of the project without reimbursement beyond that due as of the date of termination for services rendered to the termination date;

7. Take any other actions as reasonably directed in writing by the County; and

8. If the *Scope of Services* attached as **"Exhibit B"** includes the provision of care to individuals, take any reasonable steps to, in good faith, assist the County in transferring care of such individuals to another organization, if necessary.

F. **Payment in Event of Termination.** If this Agreement is terminated before performance is completed, whether for convenience or cause, the Subrecipient shall be paid for the work or services satisfactorily performed. In the event the Agreement is terminated for cause, the County shall be entitled to collect all or part of any funds owed to the County by the Subrecipient by deduction from the reimbursement amount due the Subrecipient. No other damages, fees, or costs may be assessed against the County for its termination of the Agreement.

G. Force Majeure.

1. The Subrecipient shall not be held responsible for any delay or failure in performance of any part of this Agreement to the extent such delay or failure is caused by explosion, war, embargo, government requirement, civil or military authority, pandemic, act of God, or other similar causes beyond the Subrecipient's control so long as the Subrecipient's delay is not caused by the Subrecipient's own fault or negligence. Notwithstanding the foregoing, the Subrecipient cannot claim *Force Majeure* under this provision for any emergency, exigency, or "Act of God" that is specifically contemplated within the *Scope of Services* of this Agreement, or which in any way existed at the time this Agreement was executed.

2. The above notwithstanding, in order to claim delay pursuant to this provision, the Subrecipient shall notify the County in writing within seven (7) business days after the beginning of any such cause that would affect its performance under this Agreement. Failure to notify the County in a timely manner of any claim of Force Majeure made pursuant to this provision is cause for termination of this Agreement.

3. If the Subrecipient's performance is delayed pursuant to this provision for a period exceeding seven (7) business days from the date the County receives the required Force Majeure notice, the County shall have the right to terminate this contract thereafter and shall only be liable to the Subrecipient for any work performed pursuant to this Agreement prior to the date of the County's termination.

4. No other damages, fees, or costs may be assessed against the County for its termination of this Agreement pursuant to this provision. Nothing in this provision shall prevent the County from terminating this Agreement for any purpose otherwise expressly stated in this Agreement.

Article 23: Federal Contract Terms

Section 1: Federal Terms (For: All Contracts)

A. **Non-Obligation by Federal Government.** The Federal Government is not a party to this Agreement and is not subject to any obligations or liabilities to the County, the Subrecipient, or any other party pertaining to any matter resulting from this Agreement.

B. **Federal Awarding Agency Seal, Logo, and Flags.** The Subrecipient shall not use the seal(s), crest(s), or reproduction of flags or likenesses of the Federal Awarding Agency without specific pre-approval therefrom.

C. **Suspension and Debarment.** The Subrecipient acknowledges and understands that the regulations at 2 CFR Part 180 (**"OMB Guidelines to Agencies on Governmentwide Debarment and Suspension"**) specifically prohibit the County from entering into a **"Covered Transaction,"** as defined in 2 CFR § 180.200, with a party listed on the System for Award Management (**"SAM"**) Exclusions list. The Subrecipient shall therefore complete the *Federal Suspension and Debarment Certification* attached to this Agreement as **"Form 7."**

D. **Federal Non-Discrimination.**

1. The Subrecipient shall not discriminate against any employee or applicant for employment because of race, color, creed, national origin, sex, age, English proficiency, ordisability.

2. The Subrecipient shall not, on the grounds of race, color, creed, national origin, sex, age, English proficiency, or disability, exclude a person from participation in, deny him/her benefits, or subject him/her to discrimination.

3. The Subrecipient shall adhere to any and all federal implementing regulations and other requirements that the Funding Agency has with respect to nondiscrimination.

4. The Subrecipient shall ensure that any and all of its subcontractors are bound to the terms of this Non-Discrimination provision.

E. **Rights to Inventions Made Under this Agreement.** If the Federal Award or this Agreement meet the definition of **"Funding Agreement"** under 37 CFR § 401.2(a), and the Subrecipient is a small business firm or nonprofit organization, then the Subrecipient hereby acknowledges and understands that the

County is obligated to comply with the requirements of 37 CFR § 401 (**"Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts, and Cooperative Agreements"**), and any implementing regulations issued by the Federal Awarding Agency.

F. **Program Fraud and False or Fraudulent Statements or Related Acts.** The Subrecipient acknowledges that 31 USC Chapter 38 (**"Administrative Remedies for False Claims and Statements"**) applies to the Subrecipient's actions pertaining to this Agreement.

G. Domestic Preferences for Procurements.

1. As appropriate, and to the extent consistent with law, the Subrecipient should, to the greatest extent practicable under this Subaward, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (including, but not limited to: iron, aluminum, steel, cement, and other manufactured products). Pursuant to federal law, this provision must be included in all subawards (including all contracts and purchase orders) for work or products under the Federal Award. The Subrecipient shall include this provision in any contracts or agreements in which the Subaward is being utilized.

2. For the purposes of this provision:

   a. "Produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.

   b. "Manufactured products" means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

H. Prohibition on Certain Telecommunications and Video Surveillance Services or Equipment. The Subrecipients is prohibited from obligating or expending any portion of the Subaward funds to:

1. Procure or obtain;

2. Extend or renew a contract to procure or obtain; or

3. Enter into a contract (or extend or renew a contract) to procure or obtain equipment, services, or systems that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. As described in Public Law 115-232, section 889, covered telecommunications equipment is telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities).

   a. For the purpose of public safety, security of government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities).

   b. Telecommunications or video surveillance services provided by such entities or using such equipment.

c. Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of the National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.

I. **Procurement of Recovered Materials.** If the Subrecipient is a state agency, a political subdivision of a state, or a contractor of a state agency or political subdivision of a state, then it must comply with the requirements of 2 CFR § 200.323 (**"Procurement of Recovered Materials"**). For the purposes of this provision, the Subrecipient does not meet the applicable definition of "contractor" of a state or political subdivision of a state. However, if the Subrecipient is a state agency or a political subdivision of the state, then it must meet the requirements of this paragraph.

Section 2: Federal Terms (For: Contracts that Exceed $100,000)

A. **Byrd Anti-Lobbying Amendment, 31 USC § 1352 (as amended).** If this Agreement exceeds one-hundred thousand dollars ($100,000) in value, the Subrecipient shall:

1. File a *Certification Regarding Lobbying* attached to this Agreement as **"Form 8"** (if applicable);

2. Certify to the County that it shall not use, and has not used, federally appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any federal contract, grant, or any other award covered by 31 USC § 1352; and

3. Disclose to the County any lobbying with non-federal funds that takes place in connection with obtaining any federal award. Such disclosures will be forwarded to the Federal Awarding Agency.

Section 3: Federal Terms (For: Contracts that Exceed $150,000)

A. **Clean Air Act.** If this Agreement exceeds one hundred fifty thousand dollars ($150,000) in value, the Subrecipient shall:

1. Comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act, as amended, 42 USC § 7401 et seq.;

2. Report each violation of the Clean Air Act to the County. Additionally, the Subrecipient hereby acknowledges that the County shall, in turn, report each violation as required to assure notification to the Federal Awarding Agency and the appropriate Environmental Protection Agency Regional Office; and

3. Include these requirements in each subcontract that exceeds one hundred fifty thousand dollars ($150,000) financed in whole, or in part, with federal assistance provided by the Federal Awarding Agency.

B. **Federal Water Pollution Control Act.** If this Agreement's value exceeds one hundred fifty thousand dollars ($150,000), the Subrecipient shall:

1. Comply with all applicable standards, orders, or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 USC § 1251 et seq.;

2. Report each violation of the Federal Water Pollution Control Act to the County. Additionally, the Subrecipient hereby acknowledges that the County shall, in turn, report each violation as required to assure notification to the Federal Awarding Agency and the appropriate Environmental Protection Agency Regional Office; and

3. Include these requirements in each subcontract that exceeds one hundred fifty thousand dollars ($150,000) financed in whole, or in party, with federal assistance provided by the Federal Awarding Agency.

Section 4: Federal Terms (For: Contracts that Exceed the Simplified Acquisition Threshold)

A. **Contractor Employee Whistleblower Rights and Requirement to Inform Employees of Whistleblower Rights (Apr 2014).** If this Agreement exceeds the Simplified Acquisition Threshold, the following applies:

1. This Agreement and employees working on this Agreement shall be subject to the whistleblower rights and remedies in the pilot program on contractor employee whistleblower protections established at 41 USC § 4712 by section 828 of the National Defense Authorization Act for Fiscal Year 2013 (Pub. L. 112-239) and FAR 3.908.

2. The Subrecipient shall inform its employees in writing, in the predominant language of the workforce, of employee whistleblower rights and protections under 41 USC § 4712, as described in section 3.908 of the Federal Acquisition Regulation.

3. The Subrecipient shall insert the substance of this clause, including this paragraph, in all subcontracts that exceed the Simplified Acquisition Threshold, which for the purposes of this Agreement is as provided in **Paragraph B** of **Article 7** (**"Procurement and Subcontracting Standards"**) above.

Article 24: General Provisions (Alphabetical)

A. **Assignments and Successors.** The parties deem the services to be rendered pursuant to this Agreement to be personal in nature. Each party binds itself and its partners, successors, executors, administrators, and assigns to the other party of this Agreement and to the partners, successors, executors, administrators, and assigns of such other party, in respect to all covenants of this Agreement. Neither party shall assign, sublet, convey, or transfer its interest in this Agreement without the written consent of the other, which consent shall be in the sole determination of the party with the right to consent.

B. **Attorneys' Fees and Costs.** Unless otherwise expressly stated in this Agreement, the parties shall each bear their own costs, expert fees, attorneys' fees, and other fees incurred in connection with this Agreement and any action or proceeding arising out of or relating to this Agreement (an **"Action"**).

C. **Conflicts.** The Subrecipient shall comply with all applicable local, state, and federal laws, regulations, executive orders, and the policies, procedures, and directives of the Federal Awarding Agency. Should there be conflict between the various applicable laws and this Agreement, the most restrictive shall govern.

D. **Construction and Representations.** Each party acknowledges that it has had the opportunity to be represented by counsel of such party's choice with respect to this Agreement. In view of the foregoing, and notwithstanding any otherwise applicable principles of construction or interpretation, this Agreement shall be deemed to have been drafted jointly by the parties and in the event of any ambiguity, shall not be construed or interpreted against the drafting party. Neither party has relied upon any representations or statements made by the other party to this Agreement which are not

specifically set forth in this Agreement.

E. **Counterparts and Electronic Transmission of Signatures.** This Agreement may be executed in counterparts, both of which shall be deemed an original and which taken together shall constitute one agreement. Any counterpart may be delivered by any party by electronic transmission of the full Agreement as executed by that party to the other party as mutually agreed upon by the parties, and delivery shall be effective and complete upon completion of such transmission.

F. **Governing Law.** This Agreement shall be considered as having been entered into in the State of Florida and shall be construed and interpreted in accordance with the laws of that state.

G. **Headings.** The headings or captions of articles, sections, or subsections used in this Agreement, including the Table of Contents or Table of Terms and Provisions, are for convenience of reference only and are not intended to define or limit their contents, nor are they to affect the construction of or to be taken into consideration in interpreting this Agreement.

H. **Jury Waiver.** Each party hereby irrevocably waives, to the fullest extent permitted by applicable law, any right that party does or might have to a trial by jury related to any Action.

I. **Remedies.** No remedy conferred upon any party in this Agreement is intended to be exclusive of any other remedy, and each and every such remedy shall be cumulative and shall be in addition to every other remedy given hereunder or now or hereafter existing at law or in equity or by statute or otherwise. No single or partial exercise by any party of any rights, power, or remedy hereunder shall preclude any other or further exercise thereof.

J. **Severability.** The provisions of this Agreement are declared by the parties to be severable. However, the material provisions of this Agreement are dependent upon one another, and such interdependence is a material inducement for the parties to enter into this Agreement. Therefore, should any material term, provision, covenant, or condition of this Agreement be held invalid or unenforceable by a court of competent jurisdiction, the party protected or benefited by such term, provision, covenant, or condition may demand that the parties negotiate such reasonable alternate contract language or provisions as may be necessary either to restore the protected or benefited party to its previous position or otherwise mitigate the loss of protection or benefit resulting from holding.

K. **Signatory.** Each signatory below represents and warrants that he or she has full power and is duly authorized by their respective party to enter into and perform under this Agreement. Such signatory also represents that he or she has fully reviewed and understands the above conditions and intends to fully abide by the conditions and terms of this Agreement as stated.

L. **Survivorship.** Those provisions which by their nature are intended to survive the expiration, cancellation, or termination of this Agreement, including, by way of example only, the indemnification and public records provisions, shall survive the expiration, cancellation, or termination of this Agreement.

M. **Use of County and Subrecipient Logos.** Both parties are prohibited from use of any and all of the other party's emblems, logos, or identifiers without written permission from that party. For more information about the use of the County's logos, refer to Section 2-3, Hernando County Code.

N. **Venue.** Each of the parties hereby irrevocably submits to the jurisdiction of any federal or state court of competent jurisdiction sitting in Hernando County, Florida, regarding any Action, and further agrees that any such Action shall be heard and determined in such Florida federal or state court. Each party hereby irrevocably waives, to the fullest extent it may effectively do so, the defense of an inconvenient forum to the maintenance of any Action in Hernando County, Florida.

O. **Waiver.** No delay or failure on the part of any party to this Agreement to exercise any right or remedy accruing to such party upon the occurrence of an event of violation shall affect any such right or remedy, be held to be an abandonment thereof, or preclude such party from the exercise thereof at any time during the continuance of any event of violation. No waiver of a single event of violation shall be deemed to be a waiver of any subsequent event of violation.

P. Written Modification.

1. No modification of this Agreement shall be binding upon any party to this Agreement unless it is reduced to writing and is signed by a duly authorized representative of each party to this Agreement.

2. Notwithstanding the above subparagraph, the parties hereby recognize that the Federal Awarding Agency may issue unilateral changes to the Federal Award that the County is permitted to unilaterally "pass-down" to the Subrecipient without formal amendment to this Agreement.

3. The County shall provide notice such unilateral amendments to the Subrecipient in a timely fashion to both by electronic mail to the Subrecipient agreement liaison noted in **TABLE 1 – THE PARTIES**, or as later re-designated pursuant to **Article 2, Paragraph B**.

4. The Subrecipient hereby agrees to work with the County in good faith to make any additional amendments to this Agreement as may be necessary pursuant to directive provided by the Federal Awarding Agency.

Article 25: Attachments

The documents provided for in the table below are hereby incorporated by both reference and attachment and therefore form a material part of this Agreement.

Attachment Name	Attachment Title

Form 2
E-Verify Registration and Use Certification

COMPLETION OF THIS FORM IS REQUIRED FOR ALL SUBRECIPIENTS

Please note that the County will verify that the Subrecipient has an active registration on https://e-verify.gov. If the Subrecipient does not have an active registration noted on the E-Verify website because the Federal Government has not yet updated its website, it must then provide a copy of the *E-Verify Memorandum of Understanding for Employers* that the Subrecipient received upon registration to the County.

E-VERIFY REGISTRATION USE CERTIFICATION

The undersigned hereby certifies on behalf of the Subrecipient, that:

A. They have personal knowledge of the factual assertions set forth in this *E-Very Use and Registration Certification and Affidavit.*

B. The Subrecipient is registered with the United States Department of Homeland Security's E-Verify system to verify the work authorization status of all employees hired during the term of this Agreement and shall provide evidence of such registration to the County upon request.

C. The Subrecipient does not and shall not employ, contract, or subcontract with an unauthorized alien, pursuant to Section 448.095, Florida Statutes.

D. The Subrecipient shall require all subcontractors performing work under this Agreement to provide an affidavit stating that such subcontractors do not employ, contract with, or subcontract with an unauthorized alien, pursuant to Section 448.095, Florida Statutes.

Pursuant to the binding authority granted to the undersigned, the Subrecipient hereby certifies that it understands and will comply with its obligations as stated in this affidavit.

Form 3
Public Entity Crimes and Scrutinized Companies Certification

COMPLETION OF THIS FORM IS REQUIRED FOR ALL SUBRECIPIENTS

Part 1:
Certification of Compliance with Section 287.133, Florida Statutes (Public Entity Crime)

The undersigned hereby certifies, on behalf of the Subrecipient, that:

A. Neither the Subrecipient, nor one or more of its officers, directors, executives, partners, shareholders, employees, members, or agents who are active in the management of the Subrecipient, nor any affiliate of the entity, has been charged with and convicted of public entity crime subsequent to July 1, 1989.

B. The Subrecipient has not been placed on any convicted vendor list by the State of Florida and that it will not utilize any funding provided pursuant to this Agreement to subcontract with any vendor that has been placed on any such convicted vendor list.

C. The Subrecipient acknowledges that for the purposes of this certification, the terms "public entity crime," "convicted," and "affiliate," are as defined in Section 287.133, Florida Statutes, which the Subrecipient has reviewed prior to the execution of this certification.

D. The Subrecipient acknowledges that the County reserves the right to terminate this Agreement immediately (pursuant to **Article 22, Paragraph C ("Termination")** of the Agreement) and take full advantage of any legal remedies available in equity or law should the Subrecipient be found to:

1. Have falsified its certification of eligibility to bid on, submit a proposal for, or enter into or renew a contract with the County for goods or services pursuant to Section 287.133, Florida Statutes; or

2. Have become ineligible to bid on, submit a proposal for, or enter into or renew a contract with the County for goods or services pursuant to Section 287.133, Florida Statute subsequent to entering into this Agreement with the County.

E. The Subrecipient shall immediately notify the County if at any point during the term of the Agreement, the Subrecipient's status under Section 287.133, Florida Statutes, changes in any manner.

Part 2:
Certification of Compliance with Section 287.135, Florida Statutes (Scrutinized Companies)

The undersigned hereby certifies, on behalf of the Subrecipient, that:

A. The Subrecipient certifies that it is eligible to bid on, submit a proposal for, or enter into or renew a contract with the County for goods or services pursuant to Section 287.135, Florida Statutes.

B. The Subrecipient is not:

1. On the Scrutinized Companies that Boycott Israel List, created pursuant to Section 215.4725, Florida Statutes, and the Subrecipient is not engaged in a boycott of Israel;

2. On the "Scrutinized Companies with Activities in Sudan List" or the "Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List," created pursuant to Section 215.473, Florida Statutes; or

3. Engaged in business operations in Cuba or Syria.

C. The Subrecipient acknowledges that the County reserves the right to terminate this Agreement immediately (pursuant to **Article 22, Paragraph C ("Termination")** of the Agreement) and take full advantage of any legal remedies available in equity or law should the Subrecipient be found to:

1. Have falsified its certification of eligibility to bid on, submit a proposal for, or enter into or renew a contract with the County for goods or services pursuant to Section 287.135, Florida Statutes; or

2. Have become ineligible to bid on, submit a proposal for, or enter into or renew a contract with the County for goods or services pursuant to Section 287.135, Florida Statute subsequent to entering into this Agreement with the County.

D. The Subrecipient shall immediately notify the County if at any point during the term of the Agreement, the Subrecipient's status under Section 287.135, Florida Statutes, changes in any manner.

Pursuant to the binding authority granted to the undersigned, the Subrecipient hereby certifies that it understands and will comply with its obligations as stated in both Part 1 and Part 2 this certification.

Form 4
Small and Minority Business Enterprise ("MBE"), Women Business Enterprise ("WBE"), and Labor Surplus Area Firm Certification

COMPLETION OF THIS FORM IS REQUIRED FOR ALL SUBRECIPIENTS

CERTIFICATION OF COMPLIANCE WITH 2 CFR § 200.321

The undersigned hereby certifies on behalf of the Subrecipient, that the Subrecipient will comply with all of the following should the Subrecipient subcontract using any portion of the Subaward:

A. When selecting subcontractors and making procurements with the Subaward, the Subrecipient shall take all necessary affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus firms are used whenever possible while expending the Subaward.

B. Pursuant to 2 CFR § 200.321, such affirmative steps must include:

1. Placing qualified small and minority businesses and women's business enterprises on solicitation lists;

2. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources;

3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;

4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises; and

5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.

C. The Subrecipient understands that it must pass this obligation down to its subcontractors (if any).

Pursuant to the binding authority granted to the undersigned, the Subrecipient hereby certifies that it understands and will comply with its obligations as stated in this affidavit.

Form 5
Subaward Advance Terms and Certification

COMPLETION OF THIS FORM IS CONDITIONAL

This form is required for all Subrecipients that will be receiving an advance of the Subaward. Will the Subrecipient be receiving an advance pursuant to this Agreement? **No**

If **"NO"** then the Subrecipient may disregard this form. IF **"YES"** then the Subrecipient hereby agrees to the following terms and executes the following certification.

Part 1: Subaward Advance Terms

A. 2 CFR § 200.305(b) (**"Payment"**) permits the County to issue advance payments of the Subaward to the Subrecipient as long as such advanced payments are: (1) limited to the minimum amounts needed; and (2) timed to be in accordance with the actual, immediate cash requirements of the Subrecipient in carrying out the *Scope of Services*.

B. As such, the following **"Subaward Advance Budget"** was prepared:

C. Based upon the foregoing, the County shall issue an advance of $_____at the beginning of the Agreement's term, or when such advance is agreed upon by the parties in writing. **All advanced Subaward funds must be spent no later than thirty (30) calendar days from the Subrecipient's receipt of the advance.**

D. Subaward Advance Reconciliation.

1. The Subrecipient shall provide the County with a *Subaward Advance Reconciliation Report* with all documentation necessary (paid invoices, receipts, etc.) showing that the advance was appropriately spent no later than forty-five (45) calendar days after the Subrecipient receives the advance of the Subaward.

2. Such *Subaward Advance Reconciliation Report* must be: (a) executed by the Subrecipient's authorized representative; and (b) include the federal attestation language outlined in **Article 10, Paragraph C.3. ("Reimbursement Requests")**.

3. If the Subrecipient failed to expend all of the advanced Subaward funds within the thirty (30) days provided, the balance of unspent funds shall be deducted from subsequent invoices received by the County until it is fully exhausted. Any such advanced funds remaining at the end of the Agreement's term must be returned to the County.

4. The County reserves its right to suspend any further payments to the Subrecipient until it receives a sufficient *Subaward Advance Reconciliation Report* from the Subrecipient. Nothing in this **Form 5** should be construed as limiting the County from pursuing any additional remedies contemplated in the Agreement or at law

E. The Subrecipient shall comply with all terms found in the Agreement regarding advances, including but not limited to, those found in **Article 11, Paragraph G ("Payment Terms")** and shall provide evidence to the County that it has obtained the Fidelity & Employee Dishonesty Insurance as contemplated therein.

Part 2: Subaward Advance Certification

The undersigned hereby certifies on behalf of the Subrecipient, that:

1. The Subrecipient understands and will comply with the *Subaward Advance Terms* provided in **Part 1** above.

2. The Subaward Advance Budget provided for in Part 1 above is a true and accurate representation of the Subrecipient's actual, immediate cash requirements for carrying out the *Scope of Services*.

3. The Subrecipient shall comply with 2 CFR § 200.305(b) and therefore shall maintain written procedures that minimize the time elapsing between: (1) the transfer of funds by the County to the Subrecipient, and (2) the Subrecipient's disbursement of such funds for direct project costs and the proportionate share of any allowable indirect costs.

4. The Subrecipient has reviewed 2 CFR § 200.305(b) and maintains financial management systems that comply with the standards therein for fund control and accountability.

5. The Subrecipient shall make timely payment to its contractors, vendors, and any agencies providing services to the Subrecipient pursuant to the Agreement.

6. Should the Subrecipient be found to have mismanaged the Subaward advanced by the County, the County may consider such mismanagement cause for termination of the Agreement.

Pursuant to the binding authority granted to the undersigned, the Subrecipient hereby certifies that it understands and will comply with its obligations as stated in this affidavit.

NOTE TO COUNTY STAFF: All advances must be approved by the Board of County Commissioners. Prior to an advance being approved, the Risk Management Division and Orange County Attorney's Office must review such advance request and the Division/Department overseeing this Agreement must receive advance training from Grants Accounting.

Form 6
Leased Employee Affidavit

COMPLETION OF THIS FORM IS CONDITIONAL

This form is required for all Subrecipients that will be performing part or all of the services in the *Scope of Services* attached as "Exhibit B" on County property. Will any portion of the services be performed on County Property? **No**

If **"NO"** then the Subrecipient may disregard this form. IF **"YES"** then select an option below:

☐ The Subrecipient **will not be using an employee leasing arrangement** and therefore is not obligated to complete the below Leased Employee Affidavit pursuant to **Article 17, Paragraph C.2.** of this Agreement. Continue to **"Form 7."**

☐ The Subrecipient **will be using an employee leasing arrangement** and attests to the following:

LEASED EMPLOYEE AFFIDAVIT

The undersigned hereby certifies on behalf of the Subrecipient, that:

A. The Subrecipient hereby certifies that it has workers' compensation coverage for all of my workers through the employee leasing arrangement specified below:

Name of Employee Leasing Company: _____
Workers' Compensation Carrier: _____
A.M. Best Rating of Carrier: _____
Inception Date of Leasing Arrangement: _____

B. The Subrecipient understands that its contract with the employee leasing company limits its workers' compensation coverage to enrolled worksite employees only and that the Subrecipient's leasing arrangement does not cover un-enrolled worksite employees, independent contractors, uninsured sub-contractors or casual labor exposure. Accordingly, the Subrecipient affirms that 100% of its workers are covered as worksite employees with the employee leasing company.

C. The Subrecipient further certifies that it does not hire any casual or uninsured labor outside the employee leasing arrangement and hereby agrees to notify the County in the event that it has any workers not covered by the employee leasing workers' compensation policy. In the event that the Subrecipient has any workers not subject to the employee leasing arrangement, the Subrecipient hereby agrees to obtain a separate workers' compensation policy to cover such workers. The Subrecipient further agrees to provide the County with a certificate of insurance providing proof of workers' compensation coverage prior to such workers entering the County's worksite or performing any obligation pursuant to this Agreement.

D. The Subrecipient hereby agrees to notify the County if its employee leasing arrangement terminates with the employee leasing company and it understands that it is required to furnish proof of replacement workers' compensation coverage prior to the termination of the employee leasing arrangement and further agrees to notify the County in the event that it switches employee-leasing companies.

E. The Subrecipient hereby acknowledges that it has an obligation to supply an updated workers' compensation certificate to the County that documents the change of carrier.

Pursuant to the binding authority granted to the undersigned, the Subrecipient hereby certifies that it understands and will comply with its obligations as stated in this affidavit.

Form 7
Federal Suspension and Debarment Certification

COMPLETION OF THIS FORM IS REQUIRED FOR ALL SUBRECIPIENTS

Please note that the County will verify that the Subrecipient has an active registration with SAM.gov on https://www.SAM.gov. If the Subrecipient does not have an active registration noted in the SAM.gov system, then this Agreement will not be executed by the County.

FEDERAL SUSPENSION AND DEBARMENT CERTIFICATION

The undersigned hereby certifies on behalf of the Subrecipient, that:

A. They have personal knowledge of the factual assertions set forth in this *Federal Suspension and Debarment Certification.*

B. The Subrecipient complies with 2 CFR Part 180, Subpart C (**"Responsibilities of Participants Regarding Transactions Doing Business with Other Persons"**).

C. The Subrecipient is registered and maintains an active registration with SAM.gov and will maintain an active registration with SAM.gov for the entire term of this Agreement.

D. The Subrecipient does not appear on the SAM Exclusions list and shall notify the County within five (5) business days if it is added to the SAM Exclusions list, or should its status under the SAM system change in any way during the term of this Agreement.

E. The Subrecipient shall include a requirement to comply with 2 CFR Part 180, Subpart C in any lower tier covered transactions into which it enters.

F. The Subrecipient understands and agrees that the County reserves the right to institute additional restrictions and conditions to this Agreement, terminate this Agreement, and pursue any other remedy available under local, state, and federal law, should the Subrecipient: (1) be found to have misrepresented its SAM.gov status in any manner; or (2) fail to notify the County of any change in its status under the SAM.gov system.

This certification is a material representation of fact relied upon by the County. If it is later determined that the Subrecipient fails to comply with 2 CFR Part 180, Subpart C, in addition to remedies available to the County, the Federal Government may pursue available remedies, including but not limited to, suspension or debarment.

Pursuant to the binding authority granted to the undersigned, the Subrecipient hereby certifies that it understands and will comply with its obligations as stated in this affidavit.

Form 8
Certification Regarding Lobbying

COMPLETION OF THIS FORM IS CONDITIONAL

This form is required for all Subrecipients receiving a Subaward in an amount that exceeds $100,000. Does the Subaward exceed $100,000? **Yes**

If **"NO"** then the Subrecipient may disregard this form. IF **"YES"** then the Subrecipient hereby executes the following *Certification Regarding Lobbying* as required by 31 USC § 1352:

CERTIFICATION REGARDING LOBBYING
31 USC § 1352

Part 1:
Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies on behalf of the Subrecipient that:

A. No Federal appropriated funds have been paid or shall be paid, by or on behalf of the Subrecipient, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

B. If any funds other than Federal appropriated funds have been paid or shall be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the Subrecipient shall complete and submit **Standard Form-LLL, "Disclosure of Lobbying Activities"**, in accordance with its instructions.

C. The Subrecipient shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

D. This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

Part 2:
Statement for Loan Guarantees and Loan Insurance

The undersigned certifies on behalf of the Subrecipient that:

A. If any funds have been paid or shall be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this commitment providing for the United States to insure or guarantee a loan, the Subrecipient shall complete and submit **Standard Form-LLL, "Disclosure of Lobbying Activities"**, in accordance with its instructions.

Form 8
Certification Regarding Lobbying (Continued)

B. Submission of this statement is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required statement shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

Pursuant to the binding authority granted to the undersigned, the Subrecipient hereby certifies that it understands and will comply with its obligations as stated in both Part 1 and Part 2 this certification.

Are there appropriate terms and conditions concerning closeout of the Subaward?	Yes, see: **Article 13 ("Progress Reporting and Subaward Closeout")**	

Exhibit B
Scope of Services

Introduction
The work identified in this agreement will be performed on property owned or leased by the Community Food Bank. Unless approved by the County, no other entity shall be granted utilization of these funds.

Budget
Our budget and on-boarding of the additional pantries as well as empowerment space and micro-retail incubator is dependent on the acquired facility or ground-up construction. If we are to occupy an existing building the build-out and needs will change accordingly as the cooler and freezer spaces require specific infrastructure and are best suited for a new construction opportunity. New pantry clients will be on–onboarded in phases and empowerment service partners will be managed by a volunteer steering committee. The micro-retail incubator will also be managed by a volunteer board with scaled lease agreements. Our current business model depicts the Maintenance Fees charged per pound to pantry partners for rescued products which are often waived and covered instead by grants or other funding. The purchased retail grade product has a small handling fee of up to 6% to cover our labor costs. In addition to these revenue vehicles that have allowed the Community Food Bank to be self-sustaining, we would explore progressive lease options for the mico-retail space and empowerment center should collaborative funding be found.

Project Timeline

Phase 1: Pre-Construction (Month 1-3)

- Project Planning and Design (Month 1)
- Define project scope and objectives
- Hire an architect/engineer
- Preliminary design and layout drafts
- Develop a budget estimate
- Site Acquisition and Permitting (Month 1-2)
- Secure the property where the warehouse will be built
- Apply for necessary zoning permits and licenses
- Environmental assessments (if necessary)
- Final Design Approval (Month 3)
- Finalize architectural plans
- Confirm design and construction specifications
- Obtain building permits from local authorities

Phase 2: Groundwork and Foundation (Month 4-5)

- Site Preparation (Month 4)
- Clear the land of any debris, vegetation, or existing structures
- Conduct grading and leveling of the site
- Foundation Work (Month 4-5)
- Excavate for the foundation
- Pour concrete for the foundation and footing
- Allow for curing time

Phase 3: Construction (Month 6-9)

- Structural Framing (Month 6)
- Erect steel or wooden framing for the warehouse and center
- Install support beams, walls, and roof structures

- Roofing and Exterior Work (Month 6-7)
- Install roofing materials
- Apply exterior wall finishes
- Ensure all weatherproofing measures are in place
- Utilities Installation (Month 7-8)
- Rough in plumbing, electrical, and HVAC systems
- Install service lines for water, electricity, and sewage
- Interior Construction (Month 8-9)
- Build interior walls, rooms, and office spaces
- Install insulation and drywall
- Begin finishing work: flooring, painting, and fixtures

Phase 4: Final Touches and Inspection (Month 10-12)

- Final Installations and Landscaping (Month 10)
- Complete installations of kitchens, restrooms, and other facilities
- Landscaping around the property (plant trees, shrubs, etc.)
- Finalize any outdoor lighting or signage
- Inspections and Corrections (Month 11)
- Arrange for inspections by local building authorities
- Address any identified issues or corrections needed
- Final Walkthrough and Cleanup (Month 12)
- Conduct a final walkthrough with stakeholders
- Address any last-minute touch-ups
- Clean the site and prepare for opening

Phase 5: Opening and Community Engagement (End of Month 12)

- Opening Ceremony (End of Month 12)
- Organize a grand opening event to introduce the center to the community
- Invite local leaders, stakeholders, and media
- Begin outreach programs and distribution services

Agency Mission

The mission of the Community Food Bank is to be the driving force to promote awareness, inspire involvement, and end hunger. Since we opened our doors in 2013, the Community Food Bank has grown to provide 2 million pounds of food relief each year to over 30,000 Hernando County residents from our main location in Citrus County through just 10 of the county's 32 pantries. Added to our other distribution area, this is a total of over 5.1 meals to over 70,000 every month. Whether facing food insecurity, nutritional deficits, or natural disasters, the Community Food Bank ensures that NO ONE in our community goes hungry.

Prospective clients our target population includes a significant percentage of low-income individuals and families who experience food insecurity choices between basic needs, generational poverty, and lack of access to providers and resources. Engaging with local service organizations, schools, churches, and community groups will help attract our target audience from the entire county.

Service Area

The service area includes all of Hernando County and is focused on the elevation of the South Brooksville population.

Need

The clients that the Community Food Bank and our network of pantry partners serve are disproportionately impacted by the far-reaching public health and negative economic impacts of the pandemic, generational poverty, low wages, disaster recovery, and age. These impacts include poor diets, lack of medical care access, lack of access to career and educational advancement training and opportunities, and lack of support for business entrepreneurs. 18% live in poverty. 10% of residents do not have a vehicle. 20% of children live in poverty. 22% are disabled. (Florida Chamber of Commerce) The current number of clients that the Community Food Bank serves in Hernando County is approximately 30,000 per month. This represents 7% of the Hernando County population. Our headquarters in Homosassa is at its service capacity for pantries and does not currently allow for any wrap-around services to be offered. Since convening our Hernando Task Force in 2021, the Community Food Bank has worked to research the areas we could most impact now and in the future, create dialog regarding true needs, develop alliances and support, and raise awareness with stakeholders, donors, and other partners. We have tentative commitments with Feeding Tampa Bay, FarmShare, and Emergency Management to expand our service availability to all pantries and locations of need in the county. We have also worked to increase our donor base and recruit investors for our capital campaign. Our current headquarters will allow us to phase in new agency partners, support logistics and operational needs, and direct funding activities. The campus will serve as a vital hub for local engagement and empowerment. By providing a safe, welcoming space for residents, we encourage positive interactions and foster a sense of belonging with community based support among residents.

Agency Request

The Community Food Bank is requesting funding to lease property and build a warehouse with empowerment center hosting capability, a micro-retail incubator marketplace, and a community-friendly campus accessible for disaster recovery, events, and other needs while being able to pivot to accommodate changes in need. These capital improvements will serve to address food insecurity in our community while providing resources for economic empowerment, health care, and education to those who are marginalized, disadvantaged, or impoverished. With a construction budget of $1,595,000 and operating costs of $178,830-226,931 per year, our mission is to create a sustainable local food distribution network and serve as a community hub for all resources to county residents.

Results

As a result of these ARPA funds, the Community Food Bank and Empowerment Center has the potential to transform lives in our community by improving access to food and promoting education and empowerment. With careful planning and community involvement, we can create a sustainable model that addresses food insecurity and empowers individuals to lead healthier and more productive lives. This capacity expansion will allow the Community Food Bank to distribute 2-5 million more meals, groceries, and supplies to residents. The empowerment center will reach hundreds of residents each week, filling the gap in their medical and mental health, skill training and career advancement opportunities, financial management, and entrepreneurial advancement.

Attachment 2
Federally Required Contract Provisions

Appendix II to Part 200 –
Contract Provisions for Non-Federal Entity Contracts Under Federal Awards

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non-Federal entity under the Federal award must contain provisions covering the following, as applicable.

(A) Contracts for more than the simplified acquisition threshold, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

(B) All contracts in excess of $10,000 must address termination for cause and for convenience by the non-Federal entity including the manner by which it will be effected and the basis for settlement.

(C) Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

(D) Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of $2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal Awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal Awarding agency.

(E) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of $100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the

worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

(F) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of "funding agreement" under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that "funding agreement," the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

(G) Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended - Contracts and subgrants of amounts in excess of $150,000 must contain a provision that requires the non-Federal Award to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251-1387). Violations must be reported to the Federal Awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

(H) Debarment and Suspension (Executive Orders 12549 and 12689) - A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), "Debarment and Suspension." SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

(I) Byrd Anti-Lobbying Amendment (31 U.S.C. 1352) - Contractors that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal Award. Such disclosures are forwarded from tier to tier up to the non-Federal Award.

(J) See § 200.323.

(K) See § 200.216.

(L) See § 200.322.

Appendix Coversheet

Please select one of the choices below.

☒ There is no Appendix to this Agreement.

☐ There is an Appendix to this Agreement which can be found attached to this **"Appendix Coversheet."** It is as followed:

Appendix No.	Document Title

Anti-Human Trafficking Affidavit

In compliance with Fla. Stat. § 787.06(13), this affidavit must be completed by an officer or representative of a nongovernmental entity that is executing, renewing, or extending a contract with Hernando County or any of its subordinate units (the "Governmental Entity").

1. My name is Barbara Sprague and I am over eighteen years of age. The following information is given from my own personal knowledge.

2. I am an officer or representative with Community Food Bank, a non-governmental entity (the "Nongovernmental Entity"). I am authorized to provide this affidavit *on behalf of Nongovernmental Entity*.

3. Neither Nongovernmental Entity, nor any of its subsidiaries or affiliates, uses *coercion* for *labor* or *services*, as such italicized terms are defined in Fla. Stat. § 787.06, as it may be amended from time to time.

4. If, at any time in the future, Nongovernmental Entity does use coercion for labor or services, Nongovernmental Entity will immediately notify Governmental Entity and no contracts may be executed, renewed, or extended between the parties.

5. This declaration is made pursuant to Fla, Stat. § 92.525. I understand that making a false statement in this declaration may subject me to criminal penalties.

Under penalties of perjury, I Barbara Sprague, declare that I have read the foregoing Anti-Human Trafficking Affidavit and that the facts stated in it are true.

FURTHER AFFIANT SAYETH NAUGHT.

RESOLUTION NO.: 2024-273

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS OF HERNANDO COUNTY AMENDING THE BUDGET TO REFLECT INCREASED FUNDS OR REVENUES NOT ANTICIPATED IN THE 2025 BUDGET, PURSUANT TO §129.06 OFTHE FLORIDA STATUTES, APPROPRIATING AND EXPENDING INCREASED FUNDS AS PROVIDED BY THE AMENDED BUDGET; AND ADDING INCREASED AND UNANTICIPATED REVENUES TO THE PROPER FUND OF THE BUDGET.

WHEREAS, Hernando County is in receipt of funds not anticipated when the budget for the 2025 Fiscal Year was adopted; and,

WHEREAS, pursuant to §129.06 of the Florida Statutes, the budget for Fiscal Year 2025 must be amended to account for these unanticipated increased revenues; and,

WHEREAS, the total 2025 Fiscal Year Adopted Budget will be adjusted in the amount set forth below and the total estimated receipts, including balances brought forward, shall equal the total of the appropriations and reserves.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF HERNANDO COUNTY, FLORIDA, AS FOLLOWS:

AGENDA ITEM

Meeting: 09/09/2025
Department: Department of Public Works
Prepared By: Jane Gonzalez
Initiator: Scott Herring
DOC ID: 16316
Legal Request Number: 25-445
Bid/Contract Number:

TITLE

Declaration of County Owned Property Located on Cedar Lane as Surplus Property and Consideration of Purchase Offer Submitted by Krishna Achugatla and Sudha Doma (Key #369327)

BRIEF OVERVIEW

Hernando County owns Parcel Key No. 369327, which is 10.0 acres, more or less, and is located on Cedar Lane.

An offer has been received to purchase the subject property of this agenda item from Krishna Achugatla and Sudha Doma for the sum of $150,001.00. There are no contingent offers.

The Hernando County Property Appraiser has assessed the market value of this property at $187,000.00. The offer from Krishna Achugatla and Sudha Doma represents 80.21% of the Property Appraiser's market value.

Staff recommends the acceptance of the offer from Krishna Achugatla and Sudha Doma in the amount of $150,001.00.

The legal description for this parcel is as follows:

> Commence at the East 1/4 Corner of Section 31, Township 22 South, Range 20 E, Hernando County, Florida; Thence Along the North Boundary Line of The Southeast 1/4 of said Section 31, S 87°44 '04" W, A Distance of 1308.28 Feet To the West Boundary Line of the E 1/2 of the Southeast l/4 of said Section 31; Thence Along said West Boundary Line, S 00°50'53" E A Distance of 321.29 Feet to the East Right of Way of Cedar Lane; Thence Along said East Right Of Way, S 13°16'51" E A Distance of 53.24 Feet; Thence S 17°31 '24" E A Distance Of 128.82 Feet; Thence S 01°36'52" E Distance of 16.12 Feet; Thence Leaving Said East Right of Way, N 89°08'56" E A Distance of 359.06 Feet; Thence N 02°15'56" W a Distance of 267.16 Feet; Thence N 87°44'04" E A Distance of 907.17 Feet to the East Boundary Line of Said Section 31; Thence Along Said East Boundary Line, N 00°52'12" W a Distance of 255.64 Feet to the Point of Beginning, Containing 10.0 Acres, More or Less
>
> Key # 1182892 Parcel # R31 422 20 0000 0170 0000

FINANCIAL IMPACT

If this contract is accepted, the proceeds will be deposited in the following account after closing, in accordance with FS 197.592:

Revenue:

Fund: 0011 - General Fund, **Account: 3641061** - Sales of Surplus Land

LEGAL NOTE

The Board is authorized to act upon this matter pursuant to Section 125.35, Florida Statutes and Art. VII, Section 2-170, Hernando County Code of Ordinances concerning disposition of Real Property.

RECOMMENDATION

If the Board determines that the offer and terms serve the best interests of the County, it is recommended that the Board declare Parcel Key No. 369327 as surplus and authorize the Chairman to sign the Purchase/Sale Agreement. Additionally, the County Attorney should be authorized to prepare, or have prepared, the necessary documents to finalize the transaction and execute them on behalf of the Board, including a statutory deed.

It is recommended that the offer being made on behalf of Krishna Achugatla and Sudha Doma for $150,001.00 be accepted.

Property Appraiser's Parcel ID No.: R31 422 20 0000 0170 0000

hereinafter referred to as "the Property," upon the following terms and conditions:

1. The purchase price shall be __one hundred and fifty thousand and one_____and 00/100 Dollars ($__150,001____), **plus** documentary stamp taxes and recording fees payable in cash, certified check, cashier's check or money order by the Buyer to the Seller.

2. THIS AGREEMENT SHALL BE SUBJECT TO APPROVAL BY THE HERNANDO COUNTY BOARD OF COUNTY COMMISSIONERS (BOCC). If the BOCC does not approve this Agreement and all the terms and conditions hereof, the Seller shall notify the Buyer thereof promptly in writing and this Agreement shall be null and void and all rights and liabilities arising hereunder shall terminate.

3. Upon payment of the purchase price as provided herein, the Seller shall convey the Property by a Statutory Deed pursuant to Section 125.411, Florida Statutes. This property is being SOLD in its "**AS IS**" condition with no warranty of title. The Buyer, by signature of this Agreement, hereby requests that all mineral interests owned by Hernando County in the Property be transferred to the Buyer as provided in Section 270.11, F.S.

4. The proration of ad valorem taxes on the Property is exempt from taxation while owned by the Seller pursuant to Section 196.192, Florida Statutes.

5. A recorded Statutory Deed shall be provided to the Buyer within ninety (90) days after approval of this Agreement by the BOCC and payment of the total purchase price referenced in paragraph 1 herein, whichever occurs last, unless an extension hereof is mutually agreed to by both parties.

Electronically Signed using eSignOnline™ [Session ID : 22ab096d-2ac5-45fd-b2a0-5168aad26b68]

6. The covenants herein contained shall bind, and the benefits and advantages hereof shall inure to, the respective heirs, personal representatives, successors and assigns of the parties hereto; provided, however, that neither party shall assign this Agreement without the prior approval of the other party, unless required by law. Whenever used herein, the singular shall include the plural, the plural shall include the singular, and the use of any gender shall include the other. No agreement or understanding, verbal or in writing, unless incorporated herein, shall be binding upon the parties.

7. The Seller shall not be liable to the Buyer or to the Buyer's agents or representatives for any commissions, costs, or fees arising from or for the sale of the Property to the Buyer, and the Buyer shall defend, indemnify and hold harmless the Seller and its agents, employees and officers from any and all actions, awards, causes, claims, damages, judgments, losses, payments, recoveries and suits therefore arising from or out of this Agreement.

8. The Buyer may arrange for a closing by a title company of its choice at the Buyer's expense if it desires. Buyer must notify Seller of said arrangement by completing the following:

Name of Title Company: Gulf Coast Title Co., Inc.
Address: 111 N. Main St.
Phone Number: 352-796-9416

If this portion is left blank, the exchange of Deed and payment of the total purchase price shall finalize the conveyance between Seller and Buyer.

9. The terms and conditions of this Agreement shall survive the conveyance of the Property from the Seller to the Buyer.

10. A copy of this Agreement may be accepted as an original.

IN WITNESS THEREOF, the parties and the lawful representatives of the parties hereto have caused these presents to be executed in their respective names the day and year first above written.

Disclosure: The subject property has areas within the flood plain and/or flood zone. Buyer is solely responsible to research and determine any and all requirements for flood plain mitigation and minimum base floor elevation for any improvements. Further, the subject property is subject to a Temporary Utility Easement recorded in ORB 3321, Page 1056, Public Records of Hernando County, Florida. Buyer is solely responsible to review and understand the terms and conditions of the Easement.

R.1950

GENERAL WARRANTY DEED

DEED made on July 8, 1986, by

HERNANDO COUNTY PUBLIC FACILITIES FINANCE AUTHORITY, INC., a Florida not-for-profit corporation organized and existing under the laws of the State of Florida,

GRANTOR;

to

HERNANDO COUNTY, FLORIDA whose mailing adress is:

Hernando County, Florida
c/o Board of County Commissioners
P.O. Box 1660
Brooksville, Florida 33512,

GRANTEE.

GRANTOR, in consideration of TEN DOLLARS ($10.00) paid by Grantee, grants and conveys to Grantee that real property located in the County of Hernando, State of Florida, and more particularly described as follows:

The East ½ of the Southeast ¼ of Section 31, Township 22 South, Range 20 East, Hernando County, Florida,

As set forth in Section 7.03 of the Indenture other real property may be substituted for the real property herein described upon compliance with the provisions of such section.

together with all the estate and rights of Grantor in such property.

GRANTOR covenants as follows:

1. That Grantor is lawfully seized of the premises, and that it has the right to convey the land to the Grantee;

2. That Grantee shall have quiet possession of the premises;

3. That the premises are free from encumbrances;

4. That Grantor will execute or procure any further necessary assurance of the title to the premises; and

5. That Grantor will warrant generally the property hereby conveyed.

IN WITNESS WHEREOF, the Grantor has caused its corporate seal to be affixed hereto, and this instrument to be signed by its duly authorized officer on the date first above written.

R. Bruce Snow

PURCHASE/SALE AGREEMENT

THIS AGREEMENT made and entered into on this 9th day of September, 2025, by and between, Hernando County, a political subdivision of the State of Florida, whose address is 15470 Flight Path Dr, Brooksville, FL 34604, hereinafter referred to as the "Seller", and Krishna Achugatla & Sudha Doma, whose marital status is Married and whose address is 3626 Ivy Springs Lane, Land O Lakes, FL 34638 hereinafter referred to as the "Buyer."

WITNESSETH

NOW, THEREFORE, THE PURCHASE PRICE paid by the Buyer to the Seller, the Seller agrees to sell to the Buyer, and the Buyer agrees to buy from the Seller, that certain real property situated in Hernando County, Florida, more specifically described as follows:

Commence at the East 1/4 Corner of Section 31, Township 22 South, Range 20 E, Hernando County, Florida; Thence Along the North Boundary Line of The Southeast 1/4 of said Section 31, S 87°44'04" W, A Distance of 1308.28 Feet To the West Boundary Line of the E 1/2 of the Southeast 1/4 of said Section 31; Thence Along said West Boundary Line, S 00°50'53" E A Distance of 321.29 Feet to the East Right of Way of Cedar Lane; Thence Along said East Right Of Way, S 13°16'51" E A Distance of 53.24 Feet; Thence S 17°31'24" E A Distance Of 128.82 Feet; Thence S 01°36'52" E Distance of 16.12 Feet; Thence Leaving Said East Right of Way, N 89°08'56" E A Distance of 359.06 Feet; Thence N 02°15'56" W a Distance of 267.16 Feet; Thence N 87°44'04" E A Distance of 907.17 Feet to the East Boundary Line of Said Section 31; Thence Along Said East Boundary Line, N 00°52'12" W a Distance of 255.64 Feet to the Point of Beginning, Containing 10.0 Acres, More or Less

Property Appraiser's Key No.: 369327
Property Appraiser's Parcel ID No.: R31 422 20 0000 0170 0000

hereinafter referred to as "the Property," upon the following terms and conditions:

1. The purchase price shall be one hundred and fifty thousand and one and 00/100 Dollars ($150,001), **plus** documentary stamp taxes and recording fees payable in cash, certified check, cashier's check or money order by the Buyer to the Seller.

2. THIS AGREEMENT SHALL BE SUBJECT TO APPROVAL BY THE HERNANDO COUNTY BOARD OF COUNTY COMMISSIONERS (BOCC). If the BOCC does not approve this Agreement and all the terms and conditions hereof, the Seller shall notify the Buyer thereof promptly in writing and this Agreement shall be null and void and all rights and liabilities arising hereunder shall terminate.

3. Upon payment of the purchase price as provided herein, the Seller shall convey the Property by a Statutory Deed pursuant to Section 125.411, Florida Statutes. This property is being SOLD in its "**AS IS**" condition with no warranty of title. The Buyer, by signature of this Agreement, hereby requests that all mineral interests owned by Hernando County in the Property be transferred to the Buyer as provided in Section 270.11, F.S.

4. The proration of ad valorem taxes on the Property is exempt from taxation while owned by the Seller pursuant to Section 196.192, Florida Statutes.

5. A recorded Statutory Deed shall be provided to the Buyer within ninety (90) days after approval of this Agreement by the BOCC and payment of the total purchase price referenced in paragraph 1 herein, whichever occurs last, unless an extension hereof is mutually agreed to by both parties.

6. The covenants herein contained shall bind, and the benefits and advantages hereof shall inure to, the respective heirs, personal representatives, successors and assigns of the parties hereto; provided, however, that neither party shall assign this Agreement without the prior approval of the other party, unless required by law. Whenever used herein, the singular shall include the plural, the plural shall include the singular, and the use of any gender shall include the other. No agreement or understanding, verbal or in writing, unless incorporated herein, shall be binding upon the parties.

7. The Seller shall not be liable to the Buyer or to the Buyer's agents or representatives for any commissions, costs, or fees arising from or for the sale of the Property to the Buyer, and the Buyer shall defend, indemnify and hold harmless the Seller and its agents, employees and officers from any and all actions, awards, causes, claims, damages, judgments, losses, payments, recoveries and suits therefore arising from or out of this Agreement.

8. The Buyer may arrange for a closing by a title company of its choice at the Buyer's expense if it desires. Buyer must notify Seller of said arrangement by completing the following:

Name of Title Company: Gulf Coast Title Co., Inc.
Address: 111 N. Main St.
Phone Number: 352-796-9416

If this portion is left blank, the exchange of Deed and payment of the total purchase price shall finalize the conveyance between Seller and Buyer.

9. The terms and conditions of this Agreement shall survive the conveyance of the Property from the Seller to the Buyer.

10. A copy of this Agreement may be accepted as an original.

IN WITNESS THEREOF, the parties and the lawful representatives of the parties hereto have caused these presents to be executed in their respective names the day and year first above written.

Disclosure: The subject property has areas within the flood plain and/or flood zone. Buyer is solely responsible to research and determine any and all requirements for flood plain mitigation and minimum base floor elevation for any improvements. Further, the subject property is subject to a Temporary Utility Easement recorded in ORB 3321, Page 1056, Public Records of Hernando County, Florida. Buyer is solely responsible to review and understand the terms and conditions of the Easement.

TITLE
Presentation by Putnam Land Conservancy Regarding Ridge Manor Gap Project

BRIEF OVERVIEW
Located in the Ridge Manor area of Hernando County, Florida, the Ridge Manor Gap project area sits between two disjunct tracts of the Withlacoochee State Forest - the Richloam Tract to the east and the Croom Tract to the west. Ridge Manor Gap is bordered to the north by the Little Withlacoochee River and to the west by the Withlacoochee River, and the area was platted into thousands of very small parcels in the 1960s and 70s.

The Florida Wildlife Corridor Foundation has identified Ridge Manor gap as one of multiple critical unprotected gaps in the Corridor. The Foundation identifies these gaps as essential areas to protect due to their high conservation value and because their protection is essential to ensure that the Corridor is not permanently severed. These critical gaps present unique land protection challenges because, like the Ridge Manor Gap, they typically comprise large numbers of very small parcels and are therefore under high development pressure.

The Ridge Manor Gap project is a partnership between Putnam Land Conservancy (PLC) and the Florida Wildlife Corridor Foundation with the goal of developing and implementing a land protection strategy that can be applied to conserve Ridge Manor and other critical, highly parcelized gaps in the Florida Wildlife Corridor.

FINANCIAL IMPACT
No financial impact at time of discussion.

LEGAL NOTE
The Board is authorized to act upon this matter pursuant to Chapter 125, Florida Statutes.

RECOMMENDATION
For information purposes only; no action is required from the Board.

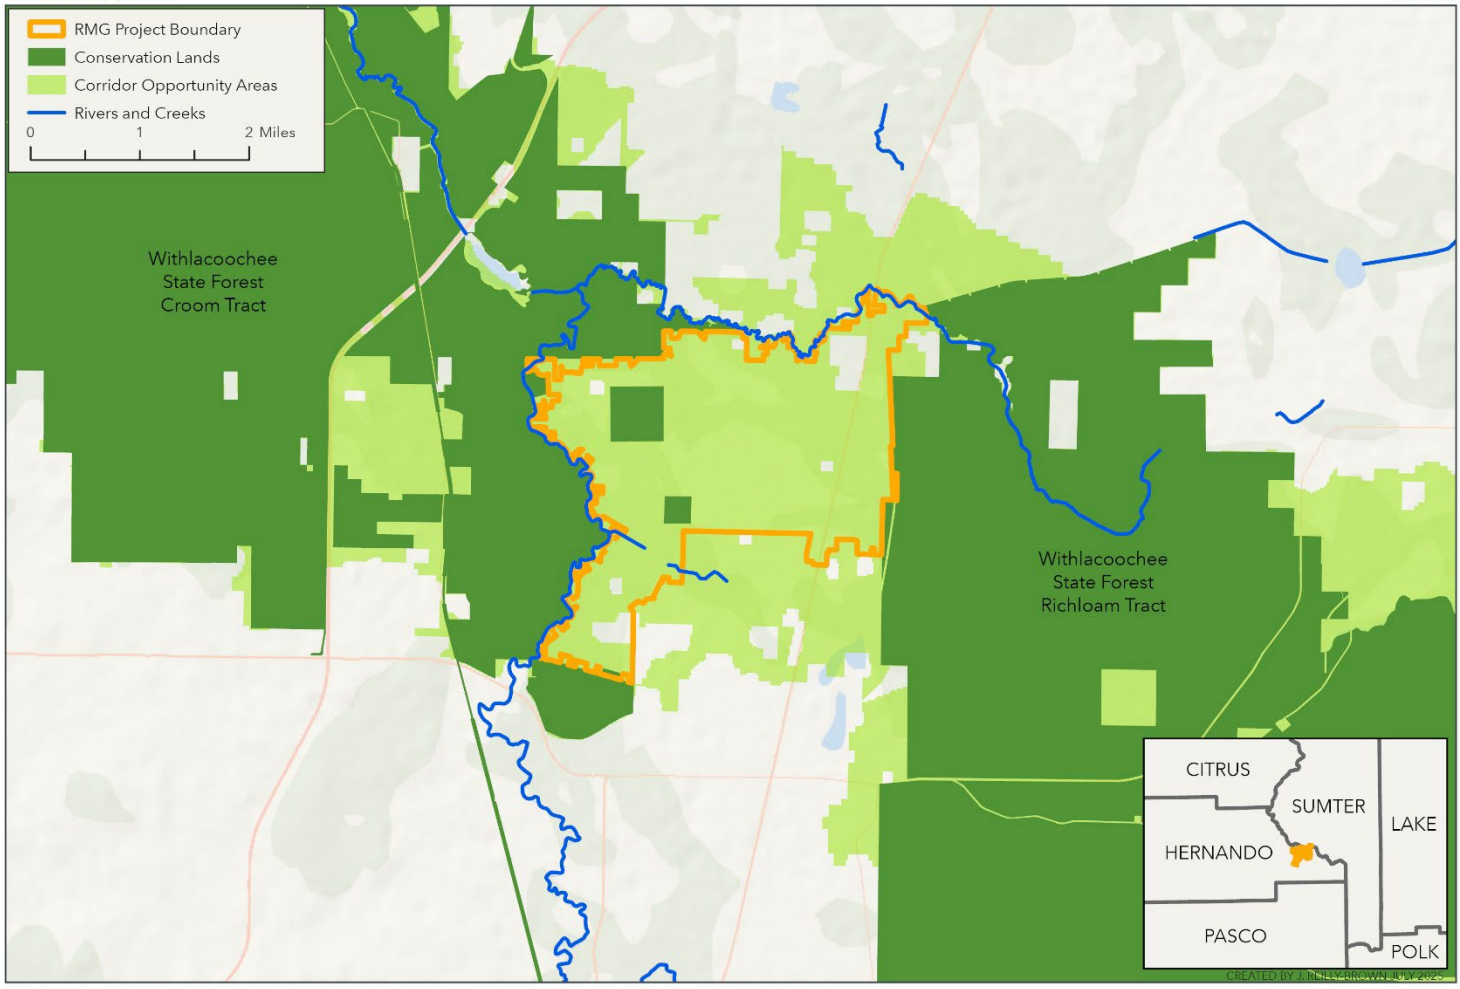
PUTNAM LAND CONSERVANCY
HERNANDO COUNTY
RIDGE MANOR GAP PROJECT AREA



RIDGE MANOR GAP

PROJECT LOCATION	Hernando County, FL
PROJECT TYPE	Small lot fee simple purchase, aggregation, and sale
CONSERVATION VALUES	Florida Wildlife Corridor, water resources, flood protection imperiled species protection, Florida Trail connection

PROJECT SUMMARY

Located in the Ridge Manor area of Hernando County, Florida, the Ridge Manor Gap project area sits between two disjunct tracts of the Withlacoochee State Forest - the Richloam Tract to the east and the Croom Tract to the west. Ridge Manor Gap is bordered to the north by the Little Withlacoochee River and to the west by the Withlacoochee River, and the area was platted into thousands of very small parcels in the 1960s and 70s.

The Florida Wildlife Corridor Foundation has identified Ridge Manor gap as one of multiple critical unprotected gaps in the Corridor. The Foundation identifies these gaps as essential areas to protect due to their high conservation value and because their protection is essential to ensure that the

Corridor is not permanently severed. These critical gaps present unique land protection challenges because, like the Ridge Manor Gap, they typically comprise large numbers of very small parcels and are therefore under high development pressure.

The Ridge Manor Gap area is currently feeling the impacts of this increased development pressure. According to local residents and conservation advocates, the area was platted in the 1960s and 1970s but recently the real estate market exploded such that every day neighbors report seeing new lots being actively cleared and listed for sale. In addition, much of the Ridge Manor Gap area experienced sustained flooding during and for several months after Hurricane Milton in 2024. The increased development pressure and land clearing currently occurring in Ridge Manor coupled with the potential for more frequent and sustained flooding associated with stronger storm seasons means the time is ripe for progress to be made on conserving this area and closing this critical gap in the statewide Florida Wildlife Corridor.

PROJECT GOAL

The Ridge Manor Gap project is a partnership between Putnam Land Conservancy (PLC) and the Florida Wildlife Corridor Foundation with the goal of developing and implementing a land protection strategy that can be applied to conserve Ridge Manor and other critical, highly parcelized gaps in the Florida Wildlife Corridor.

ACQUISITION STRATEGY

The acquisition strategy to conserve Ridge Manor Gap is twofold: first, because Ridge Manor Gap comprises thousands of small (majority less than 2 acres), individually-owned parcels, PLC will acquire parcels in target areas within the gap, aggregating them into larger tracts as lots are purchased. PLC has a demonstrated history of successful small lot acquisition and the organization is therefore uniquely positioned to complete this type of acquisition transaction. The second aspect of the acquisition strategy involves PLC selling the aggregated tracts to a government or conservation buyer entity that will ensure the land is protected and managed in perpetuity. To this end, PLC has submitted for approval a new Florida Forever project specific to Ridge Manor Gap, which, when approved, will make lands within Ridge Manor Gap eligible for state acquisition after parcel aggregation.

CONSERVATION VALUES

- Critical gap in the statewide Florida Wildlife Corridor
- Water resource protection – Withlacoochee and Little Withlacoochee rivers, wetlands, high recharge area
- Flood management
- Florida National Scenic Trail also has a gap at Ridge Manor and this project has the potential to eliminate over two miles of “road walk” if Ridge Manor Gap is protected
- Imperiled species habitat protection including rare endemic Floyd’s Sandhill Millipede, gopher tortoise, state threatened angle pod vine, and state endangered Florida spiny pod vine.

SUPPORT OPPORTUNITIES

PLC is seeking acquisition funding to fund purchase of parcels within the Ridge Manor Gap area for aggregation and sale to the State of Florida through the Florida Forever program or to another conservation buyer. Project funding is intended to function as a “revolving fund” such that in the event that PLC closes on the sale of any tracts of land purchased with project funding, the proceeds of the sale shall then be applied toward further land acquisitions within the Ridge Manor Gap project area until the gap is protected.

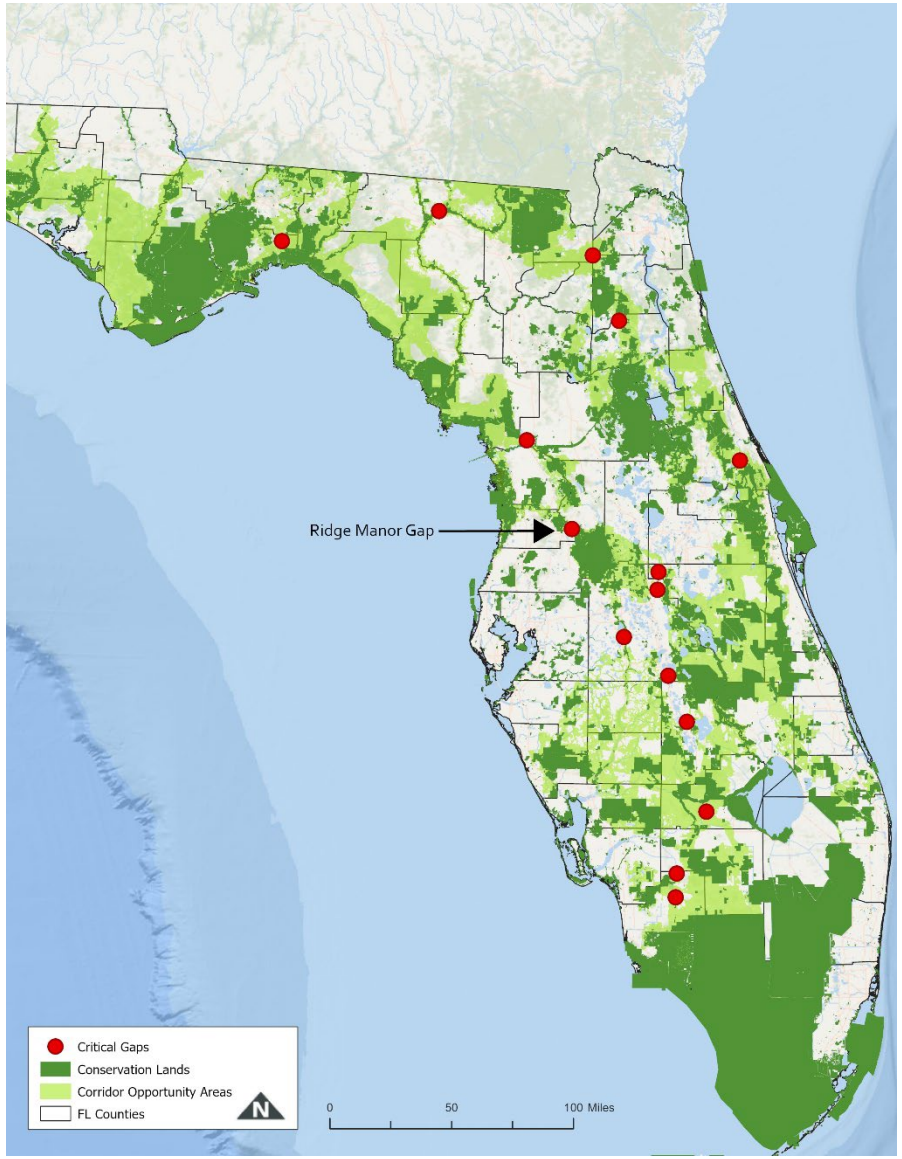
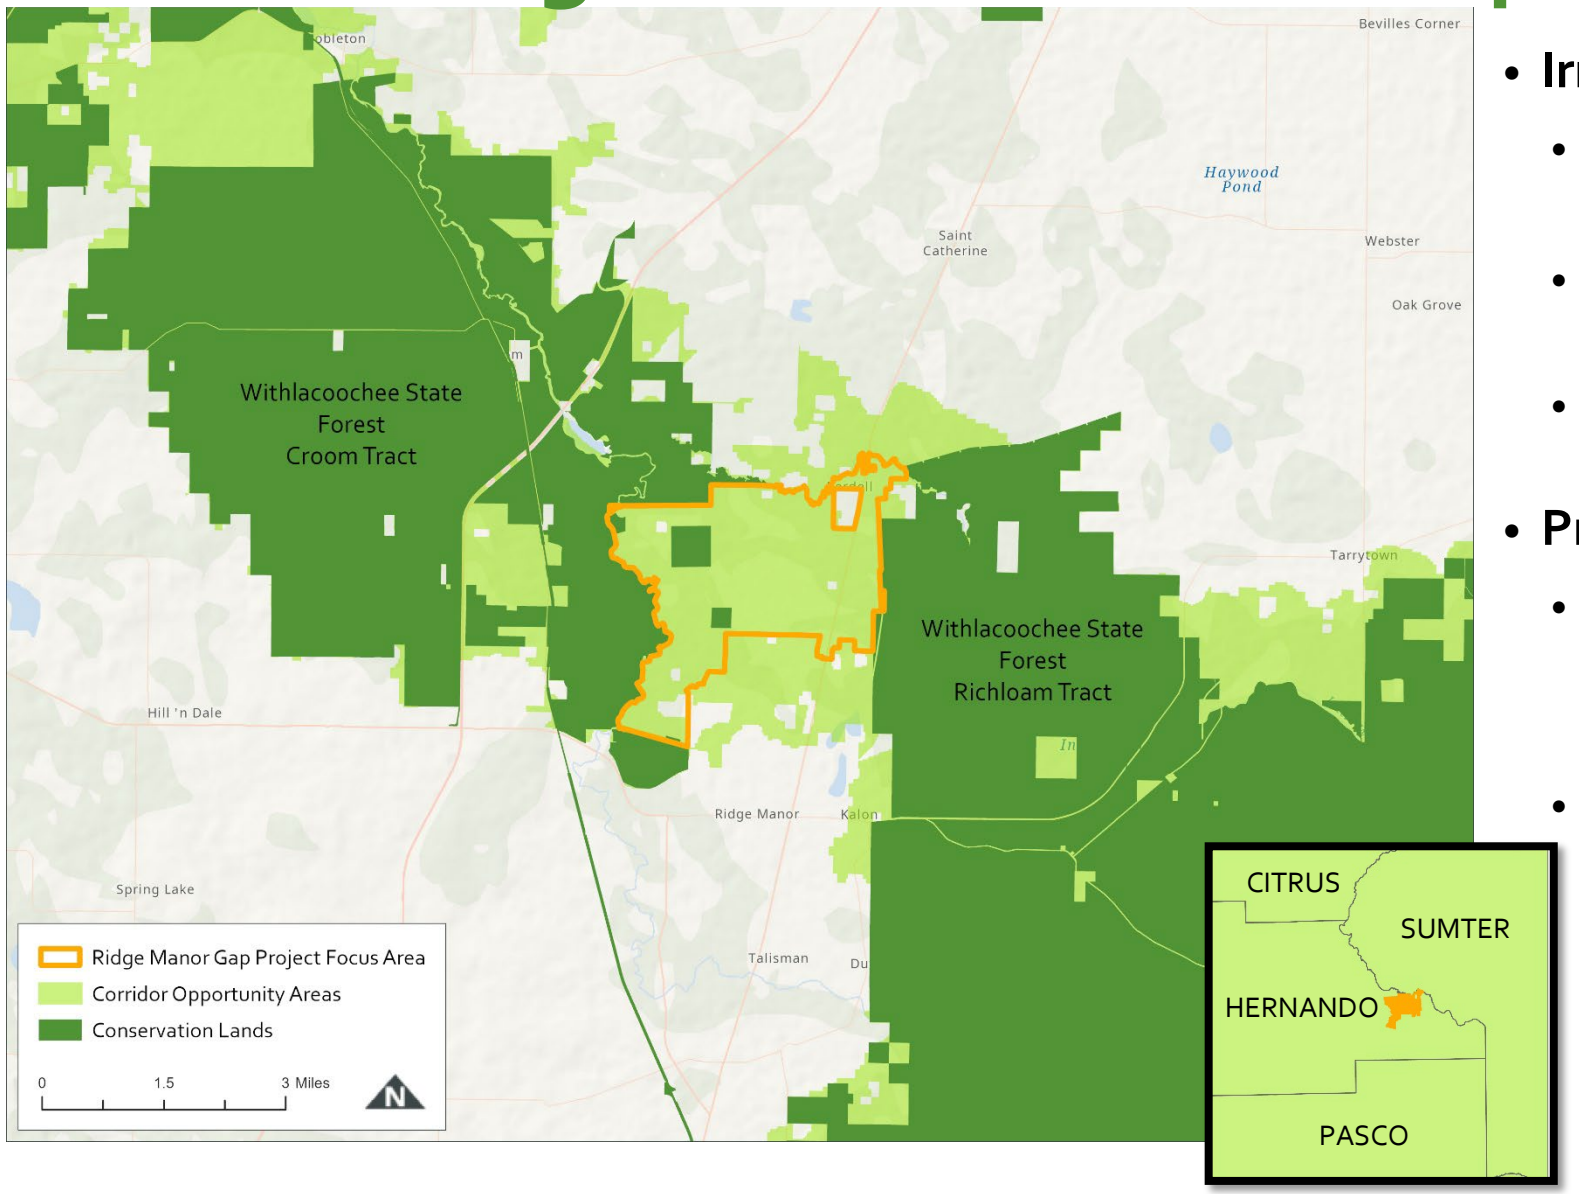
FL Wildlife Corridor – Statewide Perspective



- **Statewide Florida Wildlife Corridor**
  - Established June 2021 by Florida Wildlife Corridor Act with unanimous bipartisan support
  - 18 million acres of contiguous wilderness and working lands home to the survival of many of Florida's 131 imperiled animal species
  - Protection of Corridor offers recreation opportunities, strengthens resilience, and protects water quality
- **Irreplaceable Gaps**
  - Multiple gaps between protected areas throughout the state, as identified by Florida Wildlife Corridor Foundation
  - Critical, irreplaceable connections
  - High conservation value and opportunity
- **Ridge Manor Gap**
  - Between tracts of Withlachoochee State Forest
  - Large number of small undeveloped parcels
  - Growing development pressure

PLC
PUTNAM LAND CONSERVANCY, INC.

Ridge Manor: Critical Gap in Corridor

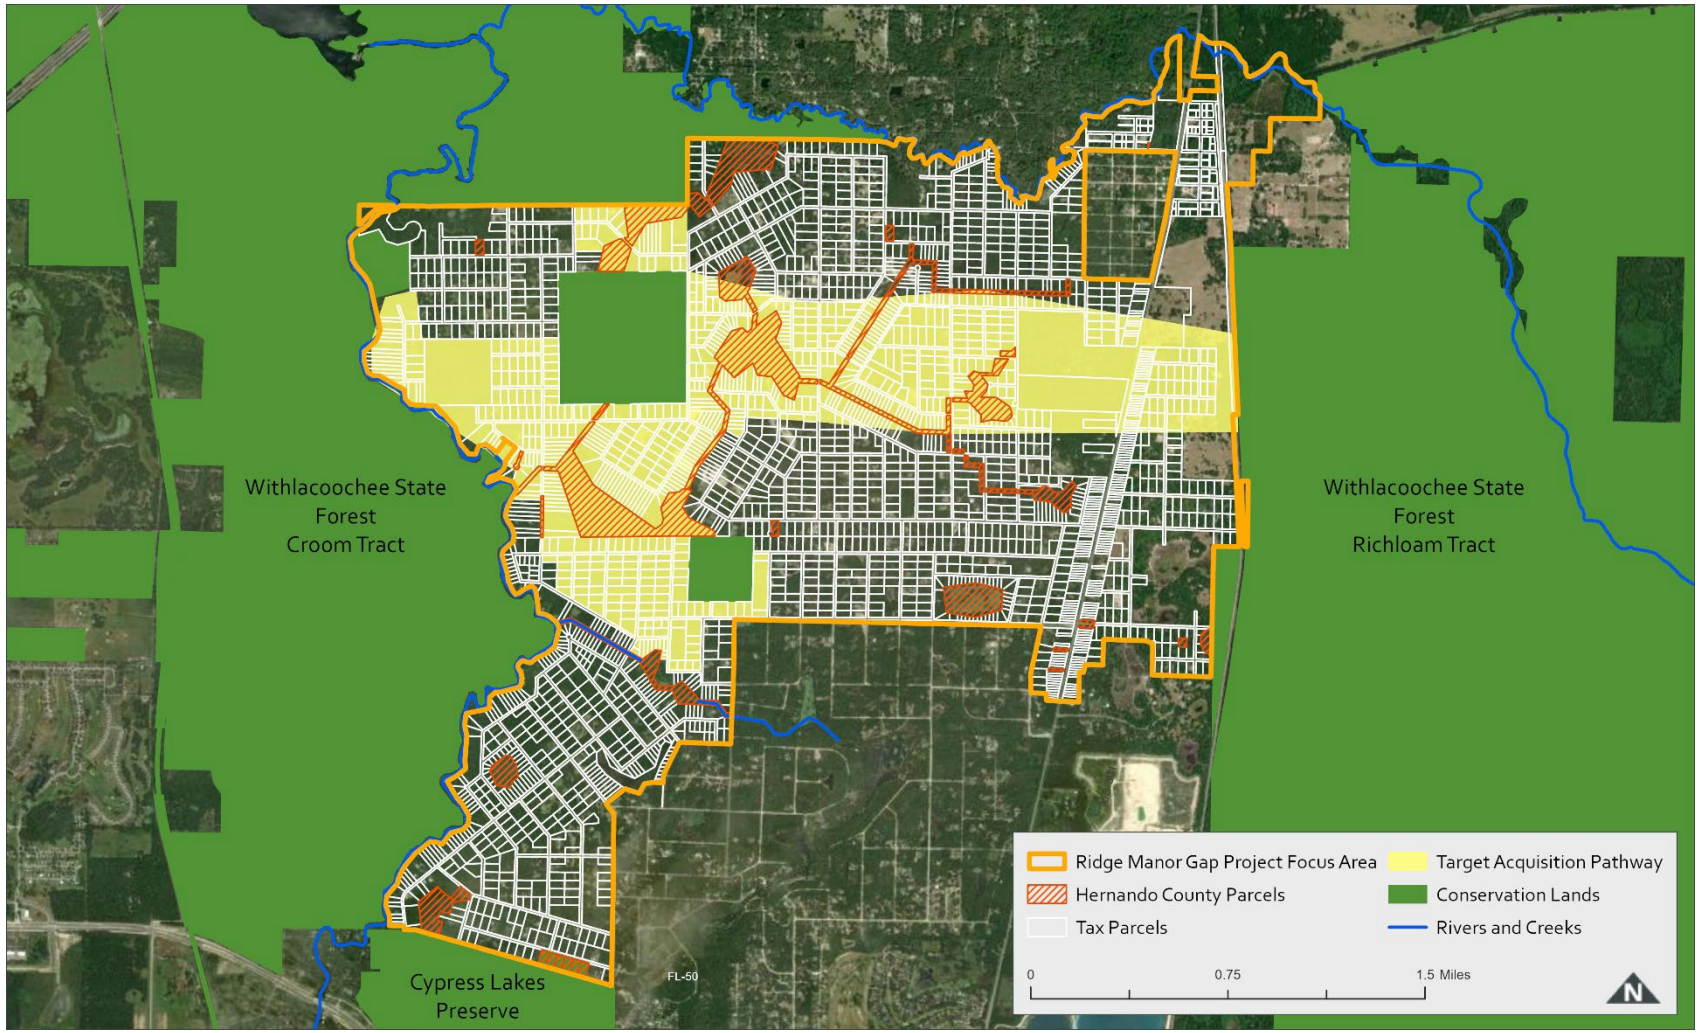


- **Irreplaceable Unprotected Gap**
  - Between Croom and Richloam tracts of Withlacoochee State Forest
  - Bottleneck essential for wildlife movement
  - Mix of County and privately-owned land
- **Project Goal**
  - Create a linear protected green corridor connecting the two portions of the Withlachoochee State Forest
  - Develop a program for working with willing sellers to purchase and protect lands within Ridge Manor to connect the Corridor

PLC
PUTNAM LAND CONSERVANCY, INC.

1987

Ridge Manor Gap Project



- Create a linear protected green corridor connecting the two portions of the Withlachoochee State Forest
- Partnership between PLC and Florida Wildlife Corridor Foundation
- Rare species protection
- Flood management and water resource protection
- Focus on vacant, flood prone lots
- Purchase vacant parcels from willing sellers

Floyd's sandhill millipede

PLC
PUTNAM LAND CONSERVANCY, INC.

1988

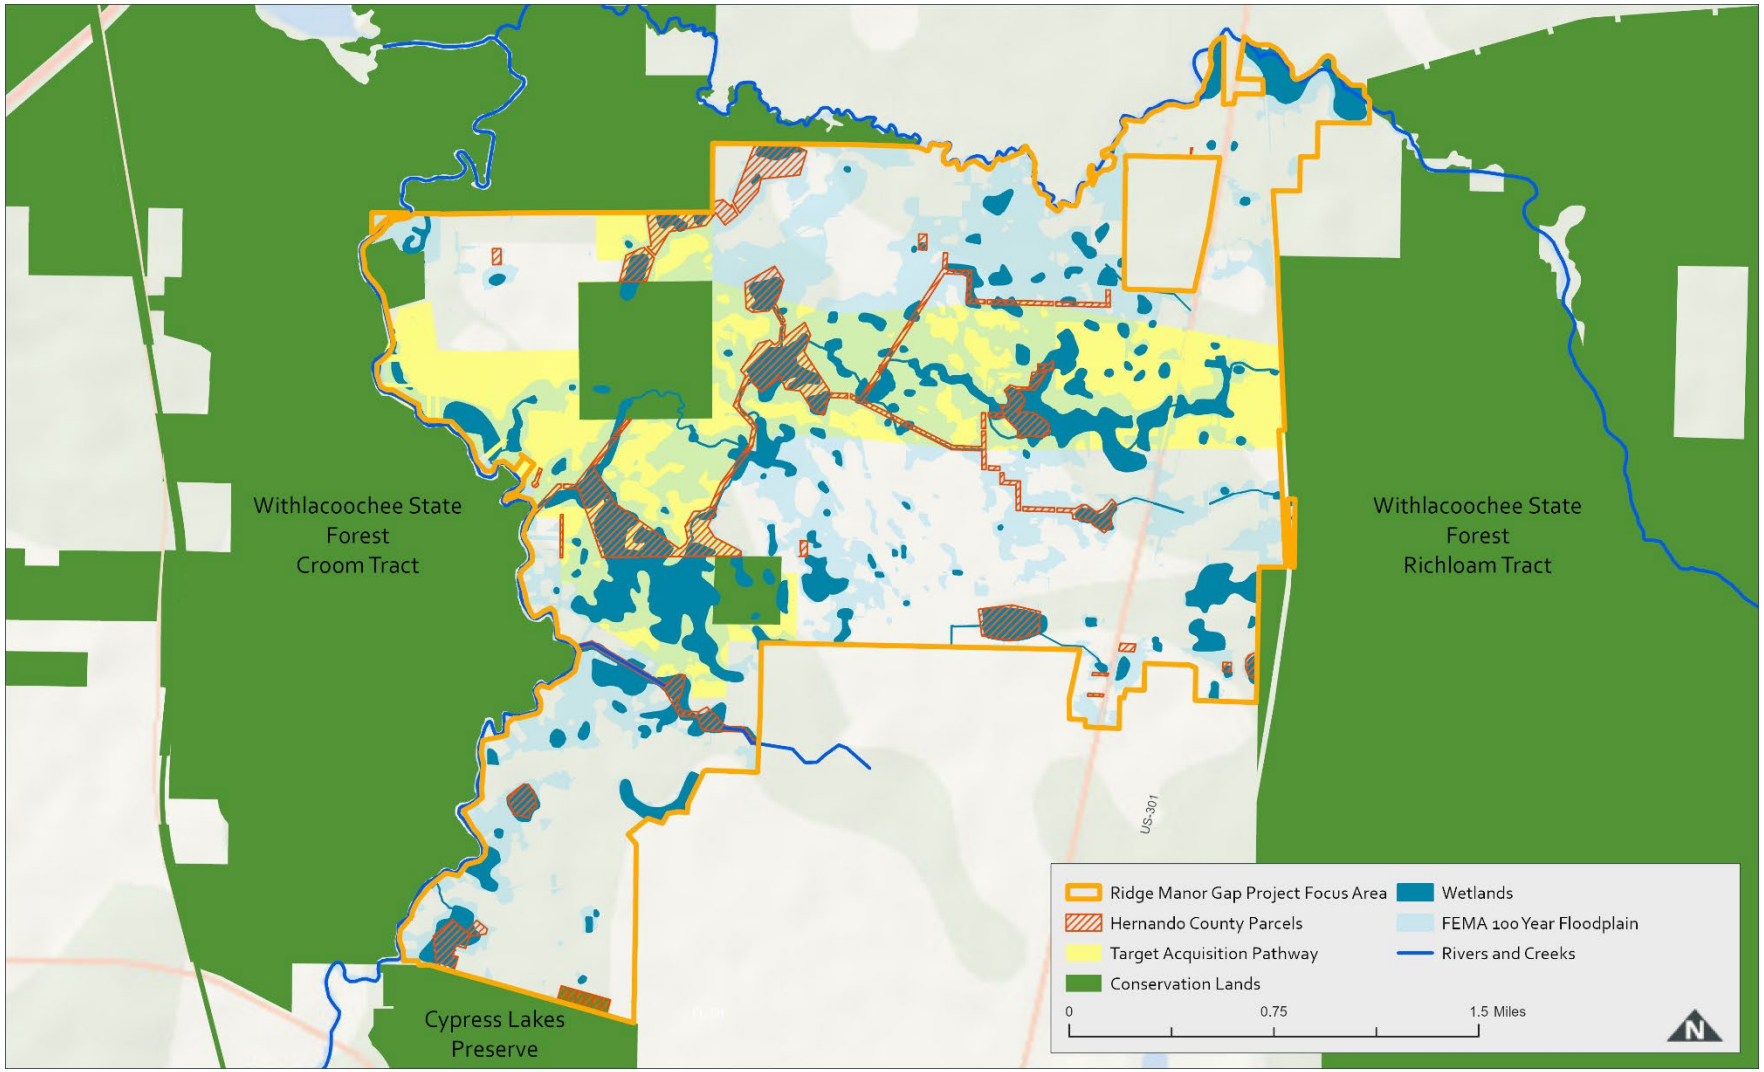
Project Strategy

- **Two Stage Strategy**
  - First, PLC identify willing sellers and purchase parcels in target areas
    - Aggregation into larger tracts
  - Second, PLC transfer aggregated tracts to state for permanent protection
    - Florida Forever project application

- **Florida Forever State Land Acquisition Program**
  - Willing seller program
  - Ridge Manor Gap project application submitted, currently under evaluation
  - Once approved, lands within Ridge Manor project area will be eligible for state acquisition

1989

Opportunities for Hernando County



- Acquisitions could augment flood management efforts
- Prevents incompatible uses in flood prone areas
- Neighborhood amenities
  - Green space
  - Passive recreation
- Furthers goals and objectives of Hernando Comp Plan

PLC
PUTNAM LAND CONSERVANCY, INC.

1990

Chapter 10, Hernando County Comprehensive Plan

GOAL 10.01 – Protect Wildlife and Habitat

Hernando County's Growth Strategy protects the functional integrity of remaining wildlands and wildlife habitat in support of the County's rich ecological, recreational and agrarian heritage. Protection is accomplished through conservation of wildlife and natural resources of importance in Hernando County. [F.S. 163.3177(6)(d)]

Objective 10.01A: **Hernando County shall consider during the review of development permits the importance of wildlife corridor connections from the Green Swamp to the Chassahowitzka National Wildlife Refuge in accordance with recommendations from professionally accepted sources used for State planning purposes in order to protect the functional integrity of large habitat areas in public ownership and the movement of native and protected wildlife. Mechanisms to be utilized will be considered on a site specific basis including the provision of open space, the mitigation of habitat loss, and the provision of conservation easements.**

Strategy 10.01A(3): Encourage appropriate agencies and private organizations to assist the County in conserving and preserving natural area linkages which may function as wildlife corridors and/or recreation areas. Mechanisms to be coordinated may include conservation of agricultural lands, preservation of rural development patterns, land acquisitions, conservation easements, the transfer or purchase of development rights, development incentives, and landowner agreements.

TITLE
Presentation and Discussion Regarding Structural Analysis Report for Linda Pedersen Park Observation Tower

BRIEF OVERVIEW
Discuss the Structural Engineer's findings and determine the next course of action for the Linda Pedersen Observation Tower.

FINANCIAL IMPACT
The report from the Structural Engineer includes two options:

1. Remove the tower and rebuild it. The cost summary is on page 9 of the PDF and totals $543,642.00.

2. Remove the damaged pieces and replace them. The cost summary is on page 14 of the PDF and totals $502,318.32.

There is currently a Capital Improvement Project (CIP) for tower removal attached. CIP No. 111906 has $50,000 budgeted for the tower removal. The Office of Management and Budget has carried that amount forward to the FY26 Budget at the request of the department; however, additional funding would be needed if either option from the report is selected, based on the numbers provided.

LEGAL NOTE
The Board has authority to act on this matter pursuant to Florida Statutes 125.

RECOMMENDATION
It is recommended that the Board review the structural analysis and make a determination for the next course of action for the observation tower.

Subject: Limited Condition Assessment
Observation Tower
Linda Pedersen Park
6340 Shoal Line Boulevard
Spring Hill, FL 34607

Dear Mr. Linsbeck:

Alejandro Cubas, E.I. and Matthew Reinhart, E.I., of Biller Reinhart Engineering Group, Inc. (BillerReinhart) performed a limited condition assessment at the above-mentioned address to observe the current condition of the structural components of the Linda Pedersen Park observation tower structure. The visual survey by BillerReinhart was of the structure's current state and did not involve any destructive activity to view inaccessible areas.

Documentation Provided

The following documentation was provided by Coastal Engineering Associates, Inc., to BillerReinhart for review:

1.) *Proposed – Observation Tower for Jenkins Creek,* prepared by Office of the County Engineer, dated January 12, 1994

2.) *Proposed – Jenkins Creek Tower Repair,* prepared by Universal Engineering Sciences, dated October 5, 2005

3.) *Linda Pedersen Observation Tower: Timeline,* prepared by Hernando County Department of Recreation

Document review is not an assessment of the adequacy of the original design or the repairs, rather, it is an information gathering venture intended to assist with the scope of work.

Structural Description

Based on our review of the provided documentation, BillerReinhart understands that the subject observation tower structure was originally constructed in 1994 and subsequently repaired and reinforced in 2005/2006. The tower structure consists of five (5) levels of observation decks and two (2) intermediate landings, one between the 1st and 2nd levels and the other between the 4th and 5th levels (Refer to *Exhibit 1* below).

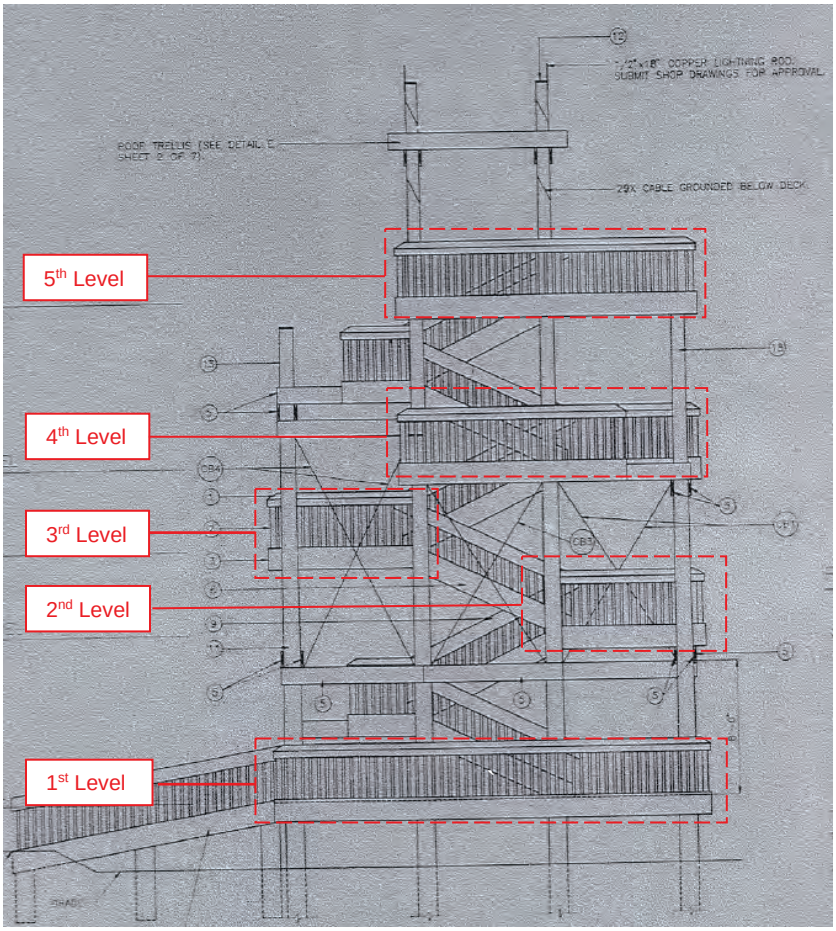

Exhibit 1 – East Elevation of Observation Tower, 1994 Office of the County Engineer

According to the tower's original drawings, the observation decks and landings primarily consist of 2 in. x 6 in. pressure treated (PT) lumber decking supported on 2 in. x 12 in. PT lumber joists. The landings and observation decks are connected by stairways consisting mainly of 2 in. x 16 in. PT lumber stringers and 3 in. x 14 in. PT lumber treads. The stairways, decks, and landings are connected to the sixteen (16) 14-inch diameter PT lumber poles by galvanized steel bolts. The poles extend to various heights along the structure and are indicated to be embedded approximately 25 feet below grade. The sections of the poles below grade are designated to be encased in 8 inches of concrete capped with a 4 ft. x 4 ft. concrete collar extending from the existing grade to 3

feet below the ground surface. The poles are laterally braced at various locations with 2 in. x 12 in. PT lumber and diagonally crossed steel rods with turnbuckles.

Survey of Observation Tower

Readily discernible structural elements of the observation tower were visually observed. Photographs were taken during the survey and are included in *Appendix A* of this report. Note that some of the conditions listed below were observed throughout the structure and the selected photographs are representative of the respective conditions.

Deterioration at sporadic locations along the deck boards	*Figure A-72*
Loose and missing fasteners at sporadic locations along deck boards	*Figure A-73*
Separation/deterioration along the surface of the lumber poles	*Figures A-74 and A-75*
Staining/organic growth along the under sides of the observation decks and landings	*Figure A-76*
Deteriorated/weathered paint at sporadic locations along the poles	*Figure A-77*
Minor surface corrosion along lateral bracing components and fasteners	*Figures A-78 and A-79*
Minor displacement/separation at lateral bracing to pole connections	*Figures A-80 and A-81*
Stairways and landings above the 1st level were enclosed by vertical balusters. Gaps between balusters were observed to be greater than 4 inches in sporadic locations	*Figure A-82*
Organic growth at sporadic locations along the stair treads	*Figure A-83*
Sporadic areas of deterioration along the lumber guard rail caps	*Figure A-84*

Graffiti/vandalism at sporadic locations along the observation tower components	*Figure A-85*
Moisture/moisture staining was observed along the pole surfaces at sporadic locations (no rain had occurred over the duration of our site visit).	*Figure A-86*
Deterioration/voids were observed at the top of the lumber poles	*Figures A-87 and A-88*
Overdriven/misaligned fasteners were observed at sporadic locations along the deck boards	*Figure A-89*
Isolated Conditions	
Plant growth was observed at an isolated corner of the 1st level deck	*Figure A-90*
A missing board was observed at the southeast corner of the 1st level observation deck, tops of the joists exhibited deterioration	*Figure A-91*
A metal post was observed to be installed along the underside of the 2nd level. The post was observed deflecting laterally (see marked with dashed red line).	*Figures A-92 and A-93*
Heavy staining and deterioration were observed along the joists below the landing between the 1st and 2nd floors	*Figure A-94*
Loose/misaligned fasteners for balusters were observed at the top stairs at the 3rd level	*Figure A-95*
Metal joist hangers were observed along the underside of landing between the 4th and 5th levels. Missing fasteners were observed at sporadic locations along the hangers	*Figures A-96 and A-97*
Separations and indentations/hollows were observed along the stair treads of the 2nd to 3rd and 4th to 5th stairways	*Figures A-98 and A-99*
A metal collar was observed to be installed at an isolated area along the poles	*Figure A-100*
Heavy organic growth and section loss was observed along the stringer of the landing to 5th floor stairway	*Figure A-101*
Missing fasteners along stringer-to-tread angles along 2nd to 3rd level stairs	*Figure A-102*
Separation between end-nailed joist connection was observed at an isolated location along underside of 4th level deck	*Figure A-103*
Other Observations	
Embedded poles were observed outside the foundation footprint at the southeast corner of the tower. The poles appear to be for the entrance ramp location depicted in the original drawings.	*Figure A-104*

Conclusions and Recommendations

Based on the conditions observed during our limited visual survey of the existing structure and review of the available documents/information relating to the subject structure, BillerReinhart believes that, in its current condition, the observation tower is unsafe for use by the public. The tower has sustained vandalism/fire damage in 2006, hurricane flooding events in 2016 and 2017, overloading of its top deck in 2018, and additional hurricane flooding events in 2023 and 2024. Even though the tower has undergone repairs in 2006, 2018, and 2020, continued weathering and exposure to flooding events caused further damages and deterioration adversely affecting its structural integrity.

BillerReinhart recommends that the Linda Pedersen Park staff keep the tower closed and install signage in prominent locations warning the public not to access and use the observation tower. A perimeter barrier is recommended to be installed around the tower to delineate a safe distance away from the tower in the event the structure or portion of the structure collapses or elements of the structure detach. Until such time that the structure is repaired or replaced, it should be visually inspected regularly by amenity management (weekly) with supplemental structural inspections by a structural engineer every six (6) months.

BillerReinhart understands that the Hernando County Department of Parks and Recreation has already closed and prohibited public access to the tower citing that previous on-site inspections confirmed that the tower poses serious safety risks with continued use. Currently, two options are being considered by Hernando County authorities to address the unsafe conditions of the observation tower. Option 1 would be to demolish and re-build the existing observation tower. Option 2 would be to implement a renovation project that would restore the tower so the existing structure can safely continue its service life to the public. BillerReinhart has explored both options and has provided a summary of our findings below.

Option 1 – Demolish and Re-Build the Observation Tower

Based on the provided documents, BillerReinhart understands that the observation tower was constructed in 1994 by Schlotter Construction Inc. at a reported cost of $69,945. The tower has served as an amenity at Linda Pedersen Park for over 30 years. The tower has experienced multiple flooding events and has been damaged and subsequently repaired/remediated on multiple occasions. In 2024, park management budgeted for the removal of the observation tower in a capital improvement plan. In 2025, the tower was closed to the public due to serious safety concerns identified by previous structural inspections. Currently, Hernando County Facilities is soliciting a demolition contract for the structure.

From our review of the available information regarding the tower's history and condition, BillerReinhart anticipates that scope of work for Option 1, will likely include the following:

1. Observation Tower Structure Demolition
    a. Permitting
    b. Mobilization
    c. Labor
    d. Site Restoration

2. Design of New Observation Tower Structure
    a. Engineering Analysis
    b. Preparation of Structural Drawings
    c. Bidding and Permitting Assistance
    d. Construction Phase Services

3. Geotechnical Investigation

4. Construction of New Observation Tower Structure (estimated by the reported original construction cost adjusted for inflation) (1)
    a. Permitting
    b. Mobilization
    c. Labor
    d. Site Restoration

(1) https://www.bls.gov/data/inflation_calculator.htm

According to the estimated scope of work, BillerReinhart has prepared an engineer's opinion of probable cost (EOC) below for Option 1.

	Engineer's Opinion of Cost - Option 1	Cost
1.0	Demolition of Existing Tower	
		$ 52,035.00
2.0	Engineering Design of New Observation Tower	
		$ 85,000.00
3.0	Geotechnical Investigation	
		$ 10,000.00
4.0	Construction of New Observation Tower	
		$ 306,000.00
5.0	SUB-TOTAL	
		$ 453,035.00
6.0	Contingency (±20%)	
		$ 90,607.00
	TOTAL	$ 543,642.00

There may be an opportunity to re-use/incorporate the existing foundations into the new design for some cost savings. Please note, the estimated costs above

represent an engineer's opinion of cost, and do not necessarily include *all costs associated with construction projects*. BillerReinhart recommends consultation with a licensed contractor local to the area that specializes in lumber structure construction to obtain a more accurate estimate that incorporates current labor and material costs.

Option 2 – Restore Existing Observation Tower

During our assessment of the tower's current condition, BillerReinhart observed that the tower's structural components were exhibiting deterioration and damage in multiple locations. This includes section loss along lumber components (*Refer to Exhibit 2*), aged/deteriorated lumber components within the structure's deck, railings, stairways, and cladding (*Refer to Exhibits 3 and 4),* and heavy organic growth along decking and floor joists (*Refer to Exhibit 5)*.

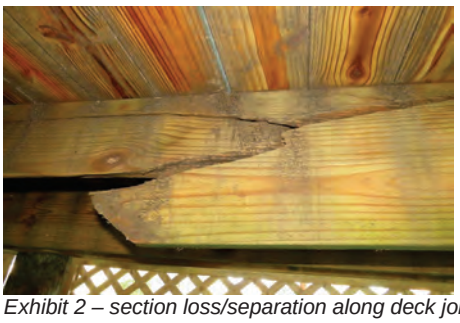

Exhibit 2 – section loss/separation along deck joist

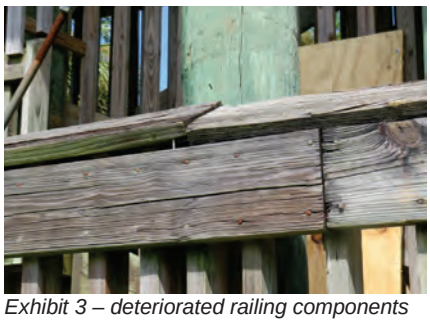

Exhibit 3 – deteriorated railing components

Exhibit 4 – Deterioration of decking

Exhibit 5 – Heavy organic growth

In addition, the lumber poles, which are critical load bearing members of the tower (gravity and lateral stability), also exhibited deterioration and signs of moisture intrusion. Conditions observed include pole top deterioration, (*Refer to Exhibit 6*), splitting/deterioration along the pole surfaces (*Refer to Exhibit 7*), and surficial moisture along the pole surfaces (*Refer to Exhibit 8*).

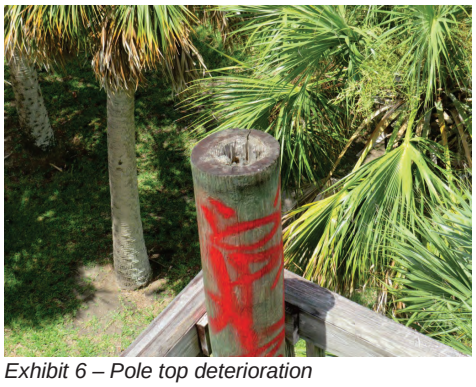

Exhibit 6 – Pole top deterioration

For the structure to be restored to safe operation, all the components exhibiting deterioration will need to be removed and replaced for public safety. This will expectedly include removal and replacement of the poles which support the stairway, deck systems, and lateral bracing of the tower.

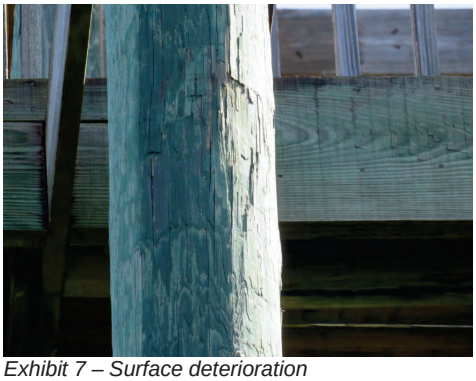

Exhibit 7 – Surface deterioration

The structure is exposed to conditions that are favorable to decay-causing biotic agents, such as moisture, oxygen, moderate temperatures, etc. Should the lumber poles be considered for re-use, testing methods would need to be employed to assess their structural integrity, such as acousto-ultrasonic (AU) testing, a non-destructive method used to evaluate the internal condition of timber poles. This testing detects and evaluates defects, damage, and variations in mechanical properties and is particularly useful for identifying early decay in wood poles. However, advanced deterioration, such as pole top deterioration, was observed.

Exhibit 8 – Surficial moisture

Service life expectancy for lumber utility poles ranges from 25 to 37 years [(2)] and 30 to 50 years [(3)]. Fifteen (15) of the poles are approximate 31 years of age and. one pole is 19 years of age. Most of the lumber poles have reached the range of service life expectancy. Therefore, testing should determine which poles are candidates for re-use and which need replacement. Also, testing will need to continue to monitor the structural integrity of the re-used poles and a plan, timeframe, and budget developed for a pole replacement program.

(2) https://www.hansenpolebuildings.com/2012/11/utility-poles/

(3) https://agostinoutilities.com/the-complete-guide-to-utility-pole-replacement-modern-methods-and-safety-considerations/

Depending on the results of the testing, the scope of work required to complete the tower restoration can vary considerably. In a scenario where it is determined that certain poles are unsuitable for continued use, a complex, temporary shoring system will need to be designed by a licensed structural engineer and installed by a contractor to facilitate the removal and replacement of the poles. A project manual will need to be developed by licensed structural engineer to provide specifications and detail drawings for the removal and replacement of the deteriorated deck, stairway, and railing components and any repairs to the poles.

Another factor to be considered when planning the structure's renovation is that the tower's components will likely need to be improved to meet updated/modern

building codes and safety standards. One example has been presented in the provided document *Linda Pedersen Observation Tower: Timeline,* prepared by Hernando County Department of Recreation. The document mentions an assessment of the tower conducted by a building official which reported that "end-nailed joists supporting the decking were observed to be dropping due to deteriorating fasteners (today's codes require joist hangers)." During our condition assessment, BillerReinhart observed that most of the deck joists appeared to be end-nailed with some of the connections separating at isolated

Exhibit 9 – Separation of end-nailed joist connection

Exhibit 10 – Metal joist hanger

locations (*Refer to Exhibit 9, circled in red*). The scope of work for the tower renovation will require installing new joist hangers at the deck joist connections. Furthermore, BillerReinhart observed metal joist hangers along the undersides of the 5th floor and 4th to 5th floor intermediate landing, likely installed to update the replaced joists to comply with current building codes (*Refer to Exhibit 10*).

In addition, BillerReinhart observed sections of the tower guardrails with gaps spanning greater than 4 inches between the balusters (*Refer to Exhibit 11)*. If the deteriorated baluster sections are to be replaced, they will need to be respaced to comply with the maximum 4-inch spacing requirements required by building codes.

Exhibit 11 – Gap between balusters measured to be greater than 4 inches

From our analysis of the tower's history and the information collected during our limited condition assessment, BillerReinhart anticipates that scope of work for Option 2 will include, but may not be limited to the following:

1. Testing of Pole Supports for Structural Integrity
    a. On-site testing
    b. Reporting

2. Geotechnical Investigation

3. Design of Project Manual for Remediation Project
    a. Engineering Analysis
    b. Preparation of Structural Drawings
    c. Bidding and Permitting Assistance
    d. Construction Phase Services

4. Renovation of New Observation Tower Structure
    a. Permitting
    b. Mobilization
    c. Select Demolition
        i. Note that a portion of the tower selected for partial demolition may reveal conditions that warrant further demolition than initially proposed due to adverse concealed conditions.
        ii. Additional engineering analysis may be required for altered conditions revealed during partial demolition.
    d. Shoring Engineering/Shoring
    e. Labor
    f. Site Restoration

5. Continued Monitoring of Pole Structural Integrity
    a. On-site testing
    b. Develop a plan, timeframe, and budget for a pole replacement program

According to the estimated scope of work, BillerReinhart has prepared an engineer's opinion of probable cost (EOC) below for Option 2.

	Engineer's Opinion of Cost - Option 2	Cost
1.0	Testing of Pole Supports for Structural Integrity	
		$ 10,000.00
2.0	Geotechnical Investigation	
		$ 10,000.00
3.0	Design of Project Manual for Remediation Project	
		$ 90,000.00
4.0	Renovation of New Observation Tower Structure	
		$301,098.60
5.0	Continued Monitoring of Pole Structural Integrity	
		$ 7,500.00
5.0	SUB-TOTAL	
		$418,598.60
6.0	Contingency (±20%)	
		$ 83,719.72
		$502,318.32

Please note, the estimated costs above represent an engineer's opinion of cost, and do not necessarily include *all costs associated with construction projects*. BillerReinhart recommends consultation with a licensed contractor local to the area that specializes in lumber structure construction to obtain a more accurate repair estimate that incorporates current labor and material costs.

The renovated tower will have components from the original construction. Therefore, a more thorough maintenance and monitoring protocol will be required than what would be initially for a new tower.

Neither the survey nor this report is intended to cover hidden defects, mechanical, electrical, or architectural features, nor environmental concerns. Unauthorized use of this report, without the permission of BillerReinhart, shall not result in any liability or legal exposure to Biller Reinhart Engineering Group, Inc.

Biller Reinhart Engineering Group, Inc. reserves the right to update the information contained in this summary if deemed necessary due to modified site conditions or the availability of new/additional information.

Thank you for offering us the opportunity to provide our services for this project. Please contact our office if you have any questions regarding this report.

Sincerely,

Biller Reinhart Engineering Group, Inc.

Capital Improvement Project

Project Description

The Linda Pedersen Tower has been inspected and determined that the structure should be removed. Demolition in FY25.

Project Background

Linda Pedersen Tower inspection was conducted in Fiscal Year 2023 and determined that due to the age and frequent replacement of timber, the structure should be removed. FY2025 - New Structural inspection for possible replacement.

Project Justification

Ensure Public Safety.

Ramifications of Incomplete Project

Viewing Tower Structural Condition Report
Location: Linda Pedersen Park
Structure Name: Hernando Beach Viewing Tower
Date: June 9, 2025

1. Overview

This report outlines the condition of the aging viewing tower based on two on-site structural inspections conducted on **July 14, 2023**, and **June 6, 2025**. The observations highlight progressive structural deterioration due to aging materials, exposure to the elements, and inadequate fastening methods. The tower was constructed of heavy timber in 1994.The structure currently poses safety hazards to users and requires immediate attention.

2. Inspection Summary

Inspection Date: July 14, 2023
Key findings included:

- **Entry Ramp Issues:**
  The entry ramp exhibited signs of sagging and structural instability. There was evidence of wood decay near ground contact areas and uneven decking that presents a tripping hazard.
- **Guard Rail Deficiencies:**
  Multiple sections of the guard rails were loose, with some posts failing to resist lateral pressure. Fastener corrosion and poor attachment to the support structure were observed.
- **Joist Fastening Failure:**
  Numerous joists were found to be **end-nailed**, a practice not suitable for sustained load-bearing use. Several joists were **dropping** as the fasteners had loosened or failed entirely.
- **Rim Board Separation:**
  The **rim boards were detaching** from the joists, creating gaps that weaken the platform's lateral stability and load transfer.

Inspection Date: June 6, 2025
New and ongoing issues noted:

- **Missing Deck Plank:**
  A decking plank was completely missing from the main viewing platform, creating a **fall hazard** for visitors and exposing structural components to further weather damage.
- **Main Column Deterioration:**
  The tops of the **main vertical support columns** are **exposed to weather** and show signs of **internal deterioration**. Not sure how deep the moisture ingress has compromised the wood's integrity.
- **Stair Tread Instability:**
  The stair treads are supported by **galvanized angles attached to risers**, but the **fasteners have backed out**, causing the treads to **rock and shift** during use, increasing the risk of slips and falls.
- **Decking Attachment:** Decking in some areas has been re-attached several times. The surface area of the underlying joists should be evaluated for replacement.

---

3. Safety Concerns

- Risk of **falling** due to unstable treads and missing decking.
- Risk of **structural failure** in high-load areas, especially where joists and rim boards have separated or are inadequately fastened.
- Risk of **guard rail failure at entry ramp** due to weakened posts and insufficient fastening.

---

4. Recommendations

Immediate Actions (within 30 days):

- **Restrict access** to the structure until emergency repairs or stabilization can be completed.
- Secure or replace all **rocking stair treads** and reinstall missing **decking planks**.
- Install **temporary shoring or bracing** in areas with joist or column compromise.

Short-Term Repairs (within 3–6 months):

- Remove and **reinstall joists with proper hanger systems** or through-bolted framing anchors, eliminating all end-nailed connections.
- Reattach or replace **rim boards** to ensure complete perimeter support.
- Replace or reinforce all **guard rail posts and connections** to meet current safety standards.
- Cap or seal **main columns** to prevent further moisture ingress; consider invasive inspection or partial dismantling to assess internal decay.

Long-Term Options:

- Develop a **comprehensive rehabilitation plan** or explore full replacement if deterioration is too advanced.
- Use **weather-resistant materials** and modern fastening systems for any rebuild or refurbishment.
- Incorporate **code-compliant design features**, including ADA accessibility, anti-slip stair finishes, and updated guard rail dimensions.

---

5. Conclusion

The viewing tower has undergone significant deterioration over the years, with several safety-critical elements now in a state of failure or near-failure. The structure is currently **unsafe for public use** and requires either immediate stabilization and phased repairs or full decommissioning pending reconstruction. Failure to act promptly may lead to a complete structural failure, increasing liability and risk to public safety. For further analysis of structural capacities and main frame inspection, a Licensed Structural Engineer should be consulted for remedial work.

Board of County Commissioners

AGENDA ITEM

Meeting: 09/09/2025
Department: Administration
Prepared By: Jessica Wright
Initiator: Jeffrey Rogers
DOC ID: 16189
Legal Request Number:
Bid/Contract Number:

TITLE
2026 County Holiday Calendar and Board of County Commissioners Meeting Schedule

BRIEF OVERVIEW
Attached for the Board's consideration is the 2026 Hernando County holiday schedule prepared in accordance with the Holiday Policy. In addition, attached is the Board of County Commissioners' meeting schedule for 2026.

The meeting schedule allows for land use public hearings on the first Tuesday of every month. Regular Board meetings occur on the second and fourth Tuesday of each month, with exceptions in November and December due to the holidays.

Also, with Hernando County Day at the Capital being the fourth Tuesday in January, that month's regular board meeting has been moved to Thursday, January 29, 2026.

FINANCIAL IMPACT
N/A

LEGAL NOTE
The Board has the authority to take action on this matter pursuant to Chapter 125, Florida Statutes.

RECOMMENDATION
It is recommended the Board discuss and approve the attached 2026 Board of County Commissioners' meeting schedule as presented and have discussion and approve the attached 2026 Hernando County holiday schedule.

Board of County Commissioners

AGENDA ITEM

Meeting: 09/09/2025
Department: Administration
Prepared By: Demetris Williams-Fagin
Initiator: Jeffery Rogers
DOC ID: 16305
Legal Request Number:
Bid/Contract Number:

TITLE
Appointment of Deanna Passarelli to Fine Arts Council Until December 31, 2029

BRIEF OVERVIEW
Three (3) vacancies exist on the Fine Arts Council due to the resignation of Maxine Winer, effective April 30, 2025. In addition, the Fine Arts Council requested the Board remove Mr. Isaiah Haddon as a member due to non-attendance in accordance with BOCC Policy No. 06-01.

A news release was issued accepting applications from individuals interested in serving on the Fine Arts Council. As a result of the news release, one application was received from Deanna Passarelli. The applicant has been verified as being a resident and registered voter in Hernando County.

The Fine Arts Council members have been advised of the application received.

FINANCIAL IMPACT
N/A

LEGAL NOTE
The Board is authorized to act on this matter pursuant to Chapter 125, Florida Statutes.

RECOMMENDATION
It is recommended that the Board appoint Deanna Passarelli to serve as a member on the Hernando County Fine Arts Council, effective until December 31, 2029. Approve of the Letter and Certificate of Appreciation for Maxine Winer. In addition, it is recommended that the Board remove Mr. Isaiah Haddon as a member from the Council due to non-attendance in accordance with BOCC Policy No. 06-01.

Ms. Deanna Passarelli
26641 Mondon Hill Road
Brooksville, FL 34601

Dear Ms. Passarelli,

I am pleased to advise you that at the Hernando County Board of County Commissioners' meeting held today, the Board appointed you to serve as a regular member on the Hernando County Fine Arts Council, effective until December 31, 2029. Enclosed is your Certificate of Appointment.

Members are subject to Florida's Government in the Sunshine Law, s. 286.011, F.S., commonly referred to as the Sunshine Law. The Sunshine Law provides a right of access to governmental proceedings of public boards or commissions at both the state and local levels. The law is equally applicable to elected and appointed boards and applies to any gathering of two or more members of the same board to discuss some matter which will foreseeably come before that board for action. Members-elect to such boards or commissions are also subject to the Sunshine Law, even though they have not yet taken office.

There are three basic requirements of s. 286.011, F.S.:

(1) meetings of public boards or commissions must be open to the public;
(2) reasonable notice of such meetings must be given; and
(3) minutes of the meetings must be taken and promptly recorded.

For a free digital copy of the Sunshine Manual, please visit www.myfloridalegal.com/sun.nsf/sunmanual. If you ever have any specific questions or concerns, please feel free to contact the Hernando County Attorney's Office at (352) 754-4122.

Should you have any questions regarding your membership on the Fine Arts Council, please contact this office at (352) 754-4002.

On behalf of the Board of County Commissioners, I would like to thank you for your desire to be of service to Hernando County. We appreciate your time and effort.

Sincerely,

Brian Hawkins, Chairman
Board of County Commissioners
Hernando County, Florida

Brooksville, FL 34601

Dear Ms. Winer:

The Hernando County Board of County Commissioners appreciate your service on the Hernando County Fine Arts Council and wish to take this opportunity to thank you for your dedicated service to the citizens of Hernando County since October 2022.

Your dedication and contributions made during your tenure are truly appreciated. Please accept the enclosed Certificate of Appreciation as a token of the Board's gratitude. Again, thank you for your service.

Yours truly,

Brian Hawkins, Chairman
Board of County Commissioners
Hernando County, Florida

Mr. Isaiah Haddon
10298 Hemlock Street
Spring Hill, FL 34608

Dear Mr. Haddon:

The Hernando County Board of County Commissioners, at their meeting on September 9, 2025, unanimously approved your removal from the Fine Arts Council citing lack of attendance as justification for removal.

Please accept the enclosed Certificate of Appreciation as a token of the Board's gratitude. Although we regret having to declare the seat vacant, we understand that there may be situations beyond your control preventing you from actively participating as a member of the Fine Arts Council.

Yours truly,

Brian Hawkins, Chairman
Board of County Commissioners
Hernando County, Florida

Certificate of Appreciation

Clerk of Circuit Court

From: HCFAC Admin
To: Jessica L Wright; Demetris Williams-Fagin
Subject: Removal of Board Member
Date: Tuesday, August 26, 2025 2:04:27 PM
Attachments: HCFAC Attendance Roster.pdf

CAUTION: This email originated from outside the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

To whom it may concern,

In compliance with the BOCC policy No. 06-01- 10 (attendance) and in accordance with the HCFAC's By-Laws, we would like to request the removal of Isaiah Haddon from the HCFAC Board effective immediately.

Mr. Haddon has had many successive absences form HCFAC monthly meetings for the past year, as our records show. We have made every attempt to contact him and make it work with his schedule, but unfortunately are now recommending his removal after seven consecutive absences in 2025 alone.

Please see our 2025 attendance records attached for your reference.

Respectfully,

Jessica Knutila
Office Manager
352-587-8062 | www.hernandoarts.org

SAVE THE DATE: The Hernando Beach Front Porch Art Walk returns on Saturday, September 6!

Thank you for reaching out to the Hernando County Fine Arts Council! Please note that our office operates on Tuesdays, and our part-time office manager will respond to your inquiry during office hours. We appreciate your understanding, as we are a volunteer organization dedicated to serving our community. Your patience is valued, and we look forward to connecting with you soon.

2025 FLORIDA STATUES
456.011 Boards; organization; meetings; compensation and travel expenses.—

"Three consecutive unexcused absences or absences constituting 50 percent or more of the board's meetings within any 12-month period shall cause the board membership of the member in question to become void, and the position shall be considered vacant.

APPOINTMENT OF COUNTY BOARD/COMMITTEE MEMBERS

POLICY NO. 06-01

PURPOSE:

It is the intent of the Board of County Commissioners by adoption of this policy to solicit public interest and to establish a fair and equitable procedure for appointments, reappointments, or replacement of members to County boards/committees.

POLICY:

1. A news release will be placed in local newspapers of general circulation advising of any opening on County boards/committees and the qualifications for said positions. The news release will indicate that letters of interest and applications are being accepted by the Board of County Commissioners for these positions. A deadline will be established for receiving these applications and will be noted in the news release.

2. Individuals who already are serving on a County board/committee whose terms are expiring will be notified of the expiration of their term approximately six weeks prior to the date of term expiration. They will be required to submit a letter of interest and a revised application as to whether they wish to continue serving on said board/committee. If a letter is not received from the individual whose term is expiring, it will be assumed that the individual no longer wishes to serve on said board/committee.

3. Vacancies created by individuals who resign prior to the expiration of their term will be viewed as new appointments and the procedure outlined in item 1 above will be followed. All resignations must be submitted in writing to the Board of County Commissioners. Remaining terms, caused by vacancies will not apply toward the individual's total allowable service term but instead, their terms will begin on January 1st.

4. All applications received prior to the established deadline will be forwarded to the Board of County Commissioners for consideration. Applications received after the established deadline will not be considered. All appointees must be residents and registered voters prior to the time the appointment is made except in case of compliance with Florida Statute or other applicable laws, or where exception is adopted by the Board of County Commissioners within Resolution or Ordinance creating the board/committee membership.

5. Appointment of County board/committee members shall be by a majority of a quorum of the Board of County Commissioners present at the meeting on which such action is taken. The Board of County Commissioners shall consider all persons for whom qualified applications are received prior to the established deadline. This procedure of appointment will be followed for all County boards/committees except where laws or Florida Statutes deem otherwise.

6. After the appointment is made, all individuals who submitted applications will receive notification advising whether or not they were selected for the particular position for which they indicated an interest.

7. Alternate County board/committee members, where alternate membership slots are provided, shall be appointed in the same manner as set forth in item 5 above.

8. All individuals who were serving that were not reappointed or chose to resign, will receive a Certificate of Appreciation for their service to the County.

9. Appointed individuals, both full members and alternates, may serve not more than two consecutive terms. The terms will begin with the last appointment date for each individual. Alternate members transferred to full members will have their terms begin as new terms on January 1st.

10. All members appointed by the Board to serve on various boards/committees are expected to attend each and every meeting of the board/committee. If a member is absent from three or more meetings of the board/committee and these absences are unexcused, the remaining members of the board/committee shall recommend the Board of County Commissioners consider removal of such member. The Board of County Commissioners Chairman will send a letter to the individual notifying them of the removal, after approval of such action through the Consent Agenda.

11. In making appointments to the Planning and Zoning Commission, the Board of County Commissioners will consider:

    a. This Commission shall consist of seven members. Five (5) members shall be appointed at the discretion of each County Commissioner and two (2) alternate members shall be appointed by the Board of County Commissioners as a whole.

    b. Diversity in type of education, training, expertise areas, past and/or current professions, and professional memberships in related areas.

    Qualifications will be outlined pursuant to the items above in a report prepared by the Planning staff for review by the Board of County Commissioners prior to appointment.

Attendance records are required to be maintained by the Department responsible for the board/committee, or in the event no department is responsible for the board/committee, by the Chairman of the board/committee for both full and alternate members. These attendance reports are to be available upon request.

The members referred to are full member positions. Alternate members are not required to attend every meeting. However, alternates that are called to attend meetings and do not attend three meetings for which they are called, can be considered for removal under the same terms as full members.

Ms. Deanna Passarelli
26641 Mondon Hill Road
Brooksville, FL 34601

Dear Ms. Passarelli,

I am pleased to advise you that at the Hernando County Board of County Commissioners' meeting held today, the Board appointed you to serve as a regular member on the Hernando County Fine Arts Council, effective until December 31, 2029. Enclosed is your Certificate of Appointment.

Members are subject to Florida's Government in the Sunshine Law, s. 286.011, F.S., commonly referred to as the Sunshine Law. The Sunshine Law provides a right of access to governmental proceedings of public boards or commissions at both the state and local levels. The law is equally applicable to elected and appointed boards and applies to any gathering of two or more members of the same board to discuss some matter which will foreseeably come before that board for action. Members-elect to such boards or commissions are also subject to the Sunshine Law, even though they have not yet taken office.

There are three basic requirements of s. 286.011, F.S.:

(1) meetings of public boards or commissions must be open to the public;
(2) reasonable notice of such meetings must be given; and
(3) minutes of the meetings must be taken and promptly recorded.

For a free digital copy of the Sunshine Manual, please visit www.myfloridalegal.com/sun.nsf/sunmanual. If you ever have any specific questions or concerns, please feel free to contact the Hernando County Attorney's Office at (352) 754-4122.

Should you have any questions regarding your membership on the Fine Arts Council, please contact this office at (352) 754-4002.

On behalf of the Board of County Commissioners, I would like to thank you for your desire to be of service to Hernando County. We appreciate your time and effort.

Sincerely,

Brian Hawkins, Chairman
Board of County Commissioners
Hernando County, Florida

Mr. Isaiah Haddon
10298 Hemlock Street
Spring Hill, FL 34608

Dear Mr. Haddon:

The Hernando County Board of County Commissioners, at their meeting on September 9, 2025, unanimously approved your removal from the Fine Arts Council citing lack of attendance as justification for removal.

Please accept the enclosed Certificate of Appreciation as a token of the Board's gratitude. Although we regret having to declare the seat vacant, we understand that there may be situations beyond your control preventing you from actively participating as a member of the Fine Arts Council.

Yours truly,

Brian Hawkins, Chairman

PURCHASE ORDER AGREEMENT

This Agreement is entered into between Lutheran Services Florida, Inc., d/b/a LSF Health Systems (a Florida non-profit corporation), hereinafter referred to as the "LSF" and/or the "Managing Entity" and **Hernando County Board of County Commissioners** herein after referred to as the "Contractor." The Contractor and LSF may be referred to herein individually as a "party" or collectively as "the parties." LSF and the Contractor agrees as follows:

Effective and Ending Dates. The terms of this Agreement shall be effective July 1, 2025, and shall continue through June 30, 2026.

This document provides direction and guidance for administration, implementation, and management of the **Florida Opioid Allocation and Statewide Response Agreement (Opioid Settlement) – Non-Qualified County (NQC) Funds** in the following County(ies): **Hernando**.

Services to be Provided. This scope of work is for the Contractor to provide **a community resource hub and a Mobile Integrated Healthcare Community Paramedicine (MIH-CP) Program.**

The Contractor is seeking to continue the two positions of Mental Health Substance Abuse Data Analyst and Resource Coordinator. These position with continue to serve all of Hernando County and cover all new and old services of the county. The scope of work is to serve as the quality control and hub for dissemination of information regarding opioid funding and resources.

Hernando County Fire Rescue will continue its MIH-CP program. The contractor hired an Emergency Medical Services (EMS) Supervisor/MIH-CP Coordinator to implement and oversee the MIH-CP Program. The coordinator will manage the Coordinated Opioid Recovery (CORE) Network which resulted in the hiring of two dedicated Community Paramedics. This funding will pay for the three mentioned employee's salaries, as well as the operational costs associated with running the program.

Section 1. Financial Consideration

1.1. Award Amount

Hernando County Board of County Commissioners has been awarded an amount not to exceed **LSF approved Exhibit C and D - Projected Operating and Capital Budget**, *per county, if multiple counties are listed*, for costs associated with administration of the services at its agency. Funding will be provided through OCA MSONQ - ME Opioid TF Non-Qualified Counties. This award is subject to availability of funds from the Department of Children and Families (DCF).

1.2. Budget

1.2.1 The Contractor shall submit a detailed, line-item budget to LSF identifying for each line the allowable items for the program, the projected or budgeted amount for each line item and narrative supporting the reasonableness and necessity of any unusual items.

1.2.1.1 Submissions must be separated by the counties listed in this Agreement, if multiple counties are listed.

Docusign Envelope ID: A391409C-C3A9-43C6-B4E7-345AA74AD478

1.2.2 All budgets and revisions thereto are subject to approval by LSF.

1.2.3 The Contractor may revise a budget by submitting same to the assigned Network Manager via electronic mail for approval.

1.2.4 Approved budgets shall be maintained in the official agreement file.

1.2.5 Modifications to the approved budget may not be effective retroactively.

1.3. Payment

This award shall be paid using a fixed rate methodology, subject to the availability of funds. The Contractor shall comply with the terms of such methodology, including quarterly fiscal reconciliation reports data reporting, as outlined below.

1.3.1 The total monthly payment amount shall be an equal proportion of the approved budget amount according to the agreement period and shall be included as a line item in the Contractor's Invoice with the following documentation provided as support.

1.3.1.1 The Contractor shall submit the **Exhibit O - Expenditure Reconciliation Report** using the form designated by LSF Health Systems, available on the website: https://www.lsfhealthsystems.org/resources/#contractdocument, which will outline expenses incurred by the Contractor. This report shall be submitted on or before the 8th of the month following the end of each quarter. The Managing Entity reserves the right to request monthly **Exhibit O - Expenditure Reconciliation reports,** depending on the Contractor's rate of spending, to perform an invoice reconciliation at any point within the fiscal year.

a. Submissions must be separated by the counties listed in this Agreement, if multiple counties are listed.

1.3.1.2 All funds paid under the fixed rate methodology must be accounted for through this reconciliation process and any funding not accounted for is subject to repayment to LSF Health Systems.

1.3.1.3 LSF Health Systems reserves the right to request substantiating documentation to support the line items submitted by the Contractor in the **Exhibit O - Expenditure Reconciliation Report**.

1.3.1.4 All reports as required in Section 2.3 Required Reporting.

1.3.2 Reimbursement shall be made for actual, allowable expenditures within the limits of the latest version of the approved budget at the time that the invoice is processed.

1.3.3 The Contractor agrees that it will account for all payments from LSF according to generally accepted standard accounting principles.

Section 2. Program Administration

2.1. The Opioid Settlement program will be administered according to approved DCF Children and Families Operating Procedure (CFOP) for the Opioid Settlement and any other approved DCF document

reflecting the program requirements, or latest version thereof, which can be found at following link using the applicable fiscal year: https://www.myflfamilies.com/services/substance-abuse-and-mental-health/samh-providers/managing-entities.

2.2. Program requirements are as follows:

2.2.1 As reflected on the approved Schedule B of the Florida Opioid Allocation and Statewide Response Agreement, or latest version thereof.

2.2.2 As reflected on the approved DCF CFOP for the Opioid Settlement and any other approved DCF document reflecting the program requirements, or latest version thereof, which can be found at following link using the applicable fiscal year: https://www.myflfamilies.com/services/substance-abuse-and-mental-health/samh-providers/managing-entities.

2.2.3 Service Tasks

2.2.3.1 The Contractor shall perform all tasks reflected on the **LSF approved Exhibit G – Submission of Information**.

a. Submissions must be separated by the counties listed in this Agreement, if multiple counties are listed.

2.3. Required Reporting

2.3.1 **Expenditure Reconciliation Report:** This report shall be submitted on or before the 8th of the month following the end of each quarter. However, the Managing Entity reserves the right to request monthly Expenditure Reconciliation Reports, depending on the Contractor's rate of spending, to perform an invoice reconciliation at any point within the fiscal year.

2.3.1.1 Submissions must be separated by the counties listed in this Agreement, if multiple counties are listed.

2.3.2 The Contractor shall submit service data to LSF as required by LSF and DCF and shall submit the data electronically by the 8th of each month for the previous month's services, as specified by LSF and DCF and in accordance with the DCF Data System Guidelines.

2.3.2.1 Submissions must be separated by the counties listed in this Agreement, if multiple counties are listed.

2.3.3 Ad Hoc and additional reporting, at any frequency, may be required as determined necessary by LSF Health Systems or the Department of Children and Families.

2.3.3.1 Submissions must be separated by the counties listed in this Agreement, if multiple counties are listed.

2.3.4 Receipt of Opioid Settlement funds is an express acknowledgement of the obligation to report data on services funded by the Settlement. Recipients shall provide data to the Department of Children and Families (Department) through the Opioid Data Management System (ODMS) as

prescribed by the Department. Opioid Settlement funding is contingent upon satisfactory data reporting.

2.3.4.1 Submissions must be separated by the counties listed in this Agreement, if multiple counties are listed.

Section 3. Documentation

3.1. Cost

3.1.1 Professional Services Rendered: Invoices for professional services must include a general statement of the services provided, the time period covered by the invoice, the hourly rate, the number of hours worked, and the total payment required. Evidence of payment of the invoice must also be included.

3.1.2 Postage and Reproduction Expenses: Outside Contractor's purchases must include invoices with evidence of payments made or receipts with itemization. In-house postage and reproduction must be supported by usage logs or similar reports.

Travel: Travel reimbursements shall be made in accordance with the Department's CFOP 40-1, § 287.058(1)(b), Fla. Stat. and §112.061, Fla. Stat. Receipts for direct expenses (e.g., airfare, car rental, parking, tolls) shall be provided in support of such expenses. For mileage reimbursements, submissions shall include date(s) of travel, amount of mileage (support of mileage may include either map routes or odometer readings), purpose of travel, origin, and destination.

3.1.3 General Expenses not otherwise specified: Receipts or invoices with evidence of payment should be provided.

3.2. Services Rendered

3.2.1. The submission of service data in relation to the final invoice for payment shall be submitted to the Managing Entity no more than forty-five (45) days after the agreement ends or is terminated. If the Contractor fails to do so, all rights to payment are forfeited and the Managing Entity shall not honor any requests submitted after the aforesaid time period. Any payment due under the terms of this agreement may be withheld until performance of services and all reports due from the Contractor, and necessary adjustments thereto, have been approved by the Managing Entity.

3.2.2. Appropriate documentation shall be maintained in accordance with the applicable parameters established by statute, regulation, and code. Audit documentation shall be in accordance with 65E-14.021, F.A.C. The Contractor shall make such information available to LSF upon request and during monitoring of the program administration.

3.2.2.1. Staff timecards and a log of the date, time, number of participants, and the staff member conducting the class shall be the substantiating documentation for services and invoice back-up data.

3.2.3. The Contractor shall notify the Managing Entity's Network Manager, in writing, at least ten (10) calendar days prior to any changes in services and/or locations where services are being provided. Changes must continue to meet the service needs of consumers without excessive time and travel requirements.

Docusign Envelope ID: A391409C-C3A9-43C6-B4E7-345AA74AD478

Section 4. Miscellaneous

4.1. Employment Screening

4.1.1. For non-Emergency Medical Services (EMS): The Contractor shall ensure that all staff utilized by the Contractor and its subcontractors, and funded through this agreement as reflected in Sections 1.1 and 1.2, are of good moral character and meet the Level 2 Employment screening standards specified in § 394.4572, 397.4073, 408.809, 435.04, 110.1127 and §39.001(2), Fla. Stat., as a condition of initial and continued employment that shall include, but not be limited to:

i. Employment history check,

ii. Fingerprinting for all criminal record checks,

iii. Statewide criminal and juvenile delinquency records checks through the Florida Department of Law Enforcement (FDLE),

iv. Federal criminal records check from the Federal Bureau of Investigations via the FDLE, and

v. Security background investigation, which may include local criminal records checks through local law enforcement agencies.

vi. Attestation by each employee, subject to penalty, to meeting the requirements for qualifying for employment pursuant to chapter 435 and agreeing to inform the employer immediately if arrested for any of the disqualifying offenses while employed by the employer.

The Contractor shall sign the Florida Department of Children and Families Employment Screening Affidavit each State fiscal year (no two such affidavits shall be signed more than 13 months apart) for the term of the Agreement stating that all required staff have been screened or the Contractor is awaiting the results of the screening.

Additional guidance regarding background screening is incorporated herein by reference and may be located at: www.dcf.state.fl.us/programs/backgroundscreening/.

4.1.2. For Emergency Medical Services (EMS): The Contractor shall ensure that all staff utilized by the Contractor and its subcontractors are of good moral character and meet the DCF approved Employment screening standards, as a condition of initial and continued employment that shall include, but not be limited to:

i. Attestation by each employee, subject to penalty, to meeting the requirements for qualifying for employment pursuant to chapter 435 and agreeing to inform the employer immediately if arrested for any of the disqualifying offenses while employed by the employer.

4.1.i.1. The Contractor shall present documentation showing successful background screening, upon request.

Docusign Envelope ID: A391409C-C3A9-43C6-B4E7-345AA74AD478

4.2. Representations

4.2.1. The Contractor shall furnish all services, labor, equipment, and materials necessary and as may be required in the performance of this Agreement and all work performed pursuant to this Agreement shall be done in a professional manner.

4.2.2. The Contractor hereby represents to LSF, with full knowledge that LSF is relying upon these representations when entering into this Agreement that the Contractor has the professional expertise, experience, and manpower, as well as holds the necessary certifications and licenses required to perform the services to be provided by the Contractor pursuant to the terms of this Agreement.

4.2.3. Prior to commencing to provide any services pursuant to this Agreement, Contractor shall provide copies of any and all business or professional licenses and certifications held by Contractor to LSF related to the performance of the services required by this Agreement, and they shall be incorporated and made a specific part of this Agreement, whether or not attached hereto. Upon renewal of such licenses or certifications during the term of this Agreement, Contractor shall provide evidence of such renewal or re-issuance to LSF.

4.3. Terms and Conditions

4.3.1. Any changes to dates and fees must be submitted and approved by LSF. If circumstances arise that will require additional services and time, the Contractor will notify LSF and obtain written agreement prior to undertaking such activities. The Contractor shall perform all services, tasks and provide deliverables, including the quarterly reconciliation, and reports, as specified in this agreement.

4.4. Health Insurance Portability and Accountability Act

4.4.1. The Contractor shall, where applicable, comply with the Health Insurance Portability and Accountability Act (42 U.S.C. 1320d.) as well as all regulations promulgated thereunder (45 CFR Parts 160, 162, and 164). In compliance with 45 CFR § 164.504(e), the Contractor shall comply with the provisions of Attachment IV to this agreement, governing the safeguarding, use and disclosure of Protected Health Information created, received, maintained, or transmitted by the Contractor or its subcontractors incidental to the Contractor's performance of this agreement.

4.4.2. Business Associates

4.4.2.1. Portability and Accountability Act of 1996, and Standards for the Privacy and Security of Individually Identifiable Health Information, found at 45 C.F.R. Parts 160, 162 and 164, 42 C.F.R. and as amended by the Health Information Technology for Economic and Clinical Health Act, (collectively, "HIPAA"), LSF is required to protect certain individually identifiable health or other information ("Protected Health Information" or "PHI" including, but not limited to, PHI in an electronic form). Should LSF request that the Contractor share or disclose Client PHI with any of the other LSF designated business associates, LSF shall provide the Contractor with written direction indicating the name of the entity, confirmation that such entity is a business associate with a written business associate agreement with LSF and the specific information and/or data LSF desires the Contractor to disclose to or share with such other business associate and the Parties agree to execute any such additional agreements as necessary to complete such activities. For

purposes of this Agreement, "Client" shall mean: any individual that is eligible to receive behavioral health services in accordance with DCF eligibility policies in the Service Area.

4.5. Insurance

4.5.1. As applicable, the Contractor shall maintain continuous adequate liability insurance coverage during the existence of this Agreement and any renewal(s) and extension(s) thereof. With the exception of a State agency or subdivision as defined by subsection 768.28(2), F.S., by execution of this Agreement, the Contractor accepts full responsibility for identifying and determining the type(s) and extent of liability insurance necessary to provide reasonable financial protections for the Contractor and the persons served to be served under this Agreement. The Managing Entity and its Network Service Contractors at all tiers are not covered by the State of Florida Risk Management Trust Fund for liability created by s. 284.30, F.S.

4.5.2. The Contractor acknowledges that, as an independent contractor, the Contractor, and its subcontractors, at all tiers are not covered by the State of Florida Risk Management Trust Fund for liability created by s. 284.30, F.S.

4.5.3. Upon the execution of this Agreement, the Contractor shall furnish the Managing Entity written verification supporting both the determination and existence of such insurance coverage and shall furnish verification of renewal or replacement thereof prior to the expiration or cancellation. The Managing Entity reserves the right to require additional insurance as specified in this Agreement.

4.5.4. The Contractor shall notify the Managing Entity within 30 calendar days if there is a modification to the terms of insurance including but not limited to, cancellation or modification to policy limits.

4.5.5. The Contractor shall obtain and provide proof to the Managing Entity and the Department of Comprehensive General Liability Insurance (broad form coverage), specifically including premises, fire, and legal liability to cover the Contractor and all its employees. The limits of the Contractor’s coverage shall be no less than $300,000 per occurrence with a minimal annual aggregate of no less than $1,000,000.

4.5.6. If in the course of the performance of its duties under this Agreement any officer, employee, or agent of the Contractor operates a motor vehicle, the Managing Entity shall cause the Contractor, at all tiers, to obtain and provide proof to the ME and the Department of comprehensive automobile liability insurance coverage with limits no less than $300,000 per occurrence with a minimal annual aggregate of no less than $1,000,000.

4.5.7. If in the course of the performance of the duties of any Contractor, at all tiers, any officer, employee, or agent of the Contractor, provides any professional services or provides or administers any prescription drug or medication or controlled substance, the ME shall cause the Contractor, at all tiers, to obtain and provide proof to the ME and the Department of professional liability insurance coverage, including medical malpractice liability and errors and omissions coverage, to cover all employees and shall not exclude claims resulting from physical and sexual abuse. The limits of the coverage shall be no less than $300,000 per occurrence with a minimal annual aggregate of no less than $1,000,000.

4.5.8. The Managing Entity and the Department of Children and Families shall be exempt from, and in no way liable for, any sums of money that may represent a deductible or self-insured retention under any such insurance. The payment of any deductible on any policy shall be the sole responsibility of the Contractor purchasing the insurance.

Docusign Envelope ID: A391409C-C3A9-43C6-B4E7-345AA74AD478

4.5.9. All insurance policies, at all tiers, shall be provided by insurers licensed or eligible to do and that are doing business in the State of Florida. Each insurer must have a minimum rating of "A" by A. M. Best or an equivalent rating by a similar insurance rating firm and shall name the Managing Entity and the Department as an additional insured under the policy or policies. The Contractor shall use its best good faith efforts to cause the insurers issuing all such general, automobile, and professional liability insurance to use a policy form with additional insured provisions naming both DCF and the ME as additional insured or a form of additional insured endorsement acceptable to ME in the reasonable exercise of its judgment. The ME reserves the right to require additional insurance. The limits of coverage under each policy maintained by the Contractor do not limit the Contractor's liability and obligations under this agreement. Upon the ME's request, the Contractor shall furnish the ME with written verification supporting the existence of such insurance coverage.

4.5.10. All such insurance proposed by the Contractor shall be submitted to and confirmed by the assigned Primary Point of Contact no later than execution initially and thereafter, updates shall be provided annually which reflect no lapse in insurance coverage.

4.6. Indemnification

4.6.1. The Contractor shall be fully liable for the actions of its agents, employees, partners, or subcontractors and shall fully indemnify, defend and hold harmless LSF, State of Florida and its officers, agents, and employees, from suits, actions, damages, and costs of every name and description, including attorney's fees, arising from or relating to any alleged act or omission by the Contractor, its agents, employees, partners, or subcontractors, provided, however, that the Contractor shall not indemnify for that portion of any loss or damages caused by the negligence act or omission of LSF.

4.6.2. The Contractor shall fully indemnify, defend and hold harmless LSF, the State, from any suits, actions, damages, and costs of every name and description, including attorney's fees, arising from or relating to violation of infringement of a trademark, copyright, patent, trade secret or intellectual property rights, provided, however, that the foregoing obligation shall not apply to LSF's misuse or modification of Contractor's products or LSF's operation or use of Contractor's products in a manner not contemplated by the agreement or the purchase order. If any product is the subject of an infringement suit or in the Contractor's opinion is likely to become the subject of such a suit, the Contractor may at its sole expense procure for LSF the right to continue using the product or modify it to become non-infringing. If the Contractor is not reasonably able to modify or otherwise secure LSF the use, LSF shall not be liable for any royalties. The Contractor's indemnification for violation or infringement of a trademark, copyright, patent, trade secret or intellectual property rights shall encompass all such items used or accessed by the Contractor, its officers, agents or subcontractors in the performance of this agreement or delivered to LSF for the use of LSF, its employees, agents, or contractors.

4.6.3. The Contractor shall protect, defend, and indemnify, including attorney's fees and costs, LSF for any and all claims and litigation (including litigation initiated by LSF) arising from or relating to Contractor's claim that a document contains proprietary or trade secret information that is exempt from disclosure or the scope of the Contractor's redaction.

4.6.4. LSF shall not be liable for any costs, expense, or compromise incurred or made by the Contractor in any legal action. The Contractor's inability to evaluate liability or its evaluation of liability shall not excuse its duty to defend and indemnify after receipt of notice. Only an adjudication or judgment after the highest appeal is exhausted finding LSF negligent shall excuse the Contractor

Docusign Envelope ID: A391409C-C3A9-43C6-B4E7-345AA74AD478

of performance under this provision, in which case LSF shall have no obligation to reimburse the Contractor for costs of its defense. If the Contractor is an agency or subdivision of the State, its obligation of indemnify, defend, and hold harmless LSF shall be to the extent permitted by section 768.28, F.S. or other applicable law, and without waiving the limits of sovereign immunity.

4.7. Governing Law and Compliance

4.7.1. Governing Law

4.7.1.1. The validity, enforceability, and interpretation of this Agreement shall be determined and governed by the laws of the State of Florida, as well as applicable federal laws. The Parties agree that jurisdiction for any dispute, action, claim or alternative dispute resolution proceeding regarding this Agreement shall reside in Duval County, Florida.

4.7.2. Florida Regulatory Governance

4.7.2.1. This Agreement, the attachments, and the performance thereof, are subject to the requirements and regulations promulgated by and specific verbiage required by DCF.

4.7.3. Corporate Compliance

4.7.3.1. During the term of this Agreement, each Party shall: (i) ensure that it is duly organized, validly existing and in good standing under the laws of Florida; (ii) maintain all requisite federal, state and local authority, permits and licenses necessary or appropriate to operate and to carry out its obligations under this Agreement; (iii) monitor its performance of administrative functions on an ongoing basis to ensure compliance with applicable DCF performance standards and guidelines; and (iv) notwithstanding any term or provision in this Agreement to the contrary, remain ultimately responsible for assuring that it is operating in accordance with all applicable federal, state and local laws, rules, regulations and ordinances.

4.7.4. General Provisions

4.7.4.1. Notwithstanding anything in this Agreement to the contrary, the Parties acknowledge and agree that each Party is subject to the Florida Public Records Act under the Florida Contract and under Chapter 119, Florida Statutes. Nonetheless, in the event that a Party becomes legally compelled to disclose any of the Confidential Proprietary Information (the "Compelled Party"), the Compelled Party will provide the other Party with prompt notice thereof so that the other Party may seek a protective order or other appropriate remedy. In the event that such protective order or other remedy is not obtained by the other Party, the Compelled Party will furnish or cause to be furnished only that minimum portion of the Confidential Proprietary Information which the Compelled Party is legally required to furnish.

4.7.4.2. Severability

The illegality, unenforceability, or ineffectiveness of any provision of this Agreement shall not affect the legality, enforceability, or effectiveness of any other provision of this Agreement. If any provision of this Agreement, or the application thereof shall, for any reason and to any extent, be deemed invalid or unenforceable, neither the remainder of this Agreement, nor the application of the provision to other persons,

Docusign Envelope ID: A391409C-C3A9-43C6-B4E7-345AA74AD478

entities, or circumstances, nor any other instrument referred to in this Agreement shall be affected thereby, but instead shall be enforced to the maximum extent permitted by law.

4.9.5 Authority to Bind

By signature below, each signatory represents and warrants that such person is duly authorized to enter into this Agreement on the respective Party's behalf and is duly authorized to bind such Party to the terms applicable to each.

4.9.6 Typewritten or Handwritten Provisions

Typewritten or handwritten provisions that are inserted in this Agreement or attached to this Agreement as addenda or riders shall not be valid unless such provisions are initialed by both signatories to this Agreement.

4.9.7 Counterparts: Facsimile Execution and Captions

This Agreement may be executed and delivered: (a) in any number of counterparts, each of which will be deemed an original, but all of which together will constitute one and the same instrument; and/or (b) by facsimile, in which case the instruments so executed and delivered shall be binding and effective for all purposes; and/or (c) by email communication to the parties identified in this agreement. The captions in this Agreement are for reference purposes only and shall not affect the meaning of terms and provisions herein.

4.9.8 Entire Agreement

This Agreement, including any documents incorporated by reference hereto, contains all the terms and conditions agreed upon by the parties regarding the subject matter of this Agreement. Any prior agreements, promises, negotiations or representations of or between the Parties, either oral or written, relating to the subject matter of this Agreement, which are not expressly set forth in this Agreement are null and void and of no further force or effect.

4.9.9 Cancelation of Agreement

This Agreement may be terminated by either party at any time, regardless of reason, with thirty (30) days written notice. No termination shall prejudice the Contractor's rights to payments for services properly completed prior to the effective date of termination. LSF reserves the right to unilaterally cancel this Agreement immediately upon discovery of fraud or misuse of public funds.

The parties' authorized representatives have executed this **sixteen**-page Agreement to be effective this 1st day of July 2025.

ATTACHMENT IV

This Attachment contains the terms and conditions governing the Network Service Provider's access to and use of Protected Health Information and provides the permissible uses and disclosures of protected health information by the Provider, also called "Business Associate."

Section 1. Definitions

1.1 Catch-all definitions:

The following terms used in this Attachment shall have the same meaning as those terms in the HIPAA Rules: Breach, Data Aggregation, Designated Record Set, Disclosure, Health Care Operations, Individual, Minimum Necessary, Notice of Privacy Practices, Protected Health Information, Required by Law, Security Incident, Subcontractor, Unsecured Protected Health Information, and Use.

1.2 Specific definitions:

1.2.1 "Business Associate" shall generally have the same meaning as the term "business associate" at 45 CFR 160.103, and for purposes of this Attachment shall specifically refer to the Network Service Provider.

1.2.2 "Covered Entity" shall generally have the same meaning as the term "covered entity" at 45 CFR 160.103, and for purposes of this Attachment shall refer to the Managing Entity and/or the Department.

1.2.3. "HIPAA Rules" shall mean the Privacy, Security, Breach Notification, and Enforcement Rules at 45 CFR Part 160 and Part 164.

1.2.4. "Subcontractor" shall generally have the same meaning as the term "subcontractor" at 45 CFR 160.103 and is defined as an individual to whom a business associate delegates a function, activity or service, other than in the capacity of a member of the workforce of such business associate.

Section 2. Obligations and Activities of Business Associate

2.1 Business Associate agrees to:

2.1.1 Not use or disclose protected health information other than as permitted or required by this Attachment or as required by law;

2.1.2 Use appropriate administrative safeguards as set forth at 45 CRF164.308, physical safeguards as set forth at 45 CRF164.310, and technical safeguards as set forth at 45 CFR 164.312; including, policies and procedures regarding the protection of PHI and/or ePHI set forth at 45 CRF 164.316 and the provisions of training on such policies and procedures to applicable employees, independent contractors and volunteers, that reasonably and appropriately protect the confidentiality, integrity, and availability of the PHI and/or ePHI that the Network Service Provider creates, receives, maintains or transmits on behalf of the Managing Entity and/or the Department;

2.1.3 Acknowledge that (a) the foregoing safeguards, policies and procedures requirements shall apply to the Business Associate in the same manner that such requirements apply to the Managing Entity and/or the Department, and (b) the Business Associates and their Subcontractors are directly liable under the

Docusign Envelope ID: A391409C-C3A9-43C6-B4E7-345AA74AD478

civil and criminal enforcement provisions set forth at Section 13404 of the HITECH Act and 45 CRF 164.500 and 164.502(E) of the Privacy Rule (42 U.S.C. 1320d-5 and 1320d-6), as amended, for failure to comply with the safeguards, policies and procedures requirements and any guidance issued by the Secretary of Health and Human Services with respect to such requirements;

2.1.4 Report to covered entity any use or disclosure of protected health information not provided for by this Attachment of which it becomes aware, including breaches of unsecured protected health information as required at 45 CFR 164.410, and any security incident of which it becomes aware;

2.1.5 Notify the Managing Entity's Network Manager as soon as possible, but no later than five (5) business days following the determination of any breach or potential breach of personal and confidential departmental data;

2.1.6 Notify the Managing Entity's Network Manager within (24) hours of notification by the US Department of Health and Human Services of any investigations, compliance reviews or inquiries by the US Department of Health and Human Services concerning violations of HIPAA (Privacy, Security Breach).

2.1.7 Provide any additional information requested by the Managing Entity and/or the Department for purposes of investigating and responding to a breach;

2.1.8 Provide at Business Associate's own cost notice to affected parties no later than 45 days following the determination of any potential breach of personal or confidential departmental data as provided in §817.5681, Fla. Stat.;

2.1.9 Implement at Business Associate's own cost measures deemed appropriate by the Managing Entity and/or the Department to avoid or mitigate potential injury to any person due to a breach or potential breach of personal and confidential departmental data;

2.1.10 Take immediate steps to limit or avoid the recurrence of any security breach and take any other action pertaining to such unauthorized access or disclosure required by applicable federal and state laws and regulations regardless of any actions taken by the Managing Entity or the Department ;

2.1.11 In accordance with 45 CFR 164.502(e)(1)(ii) and 164.308(b)(2), if applicable, ensure that any subcontractors that create, receive, maintain or transmit protected health information on behalf of the Business Associate agree to the same restrictions, conditions, and requirements that apply to the Business Associate with respect to such information. Business Associates must attain satisfactory assurance in the form of a written contract or other written agreement with their business associates or subcontractors that meets the applicable requirements of 45 CFR 164.504(e)(2) that the Business Associate or Subcontractor will appropriately safeguard the information. For prior contracts or other arrangements, the provider shall provide written certification that its implementation complies with the terms of 45 CFR 164.532(d);

2.1.12 Make available protected health information in a designated record set to covered entity as necessary to satisfy covered entity's obligations under 45 CFR 164.524;

2.1.13 Make any amendment(s) to protected health information in a designated record set as directed or agreed to by the covered entity pursuant to 45 CFR 164.526, or take other measures as necessary to satisfy covered entity's obligations under 45 CFR 164.526;

2.1.14 Maintain and make available the information required to provide an accounting of disclosures to the covered entity as necessary to satisfy covered entity's obligations under 45 CFR 164.528;

Docusign Envelope ID: A391409C-C3A9-43C6-B4E7-345AA74AD478

2.1.15 To the extent the Business Associate is to carry out one or more of covered entity's obligation(s) under Subpart E of 45 CFR Part 164, comply with the requirements of Subpart E that apply to the covered entity in the performance of such obligation(s); and

2.1.16 Make its internal practices, books, and records available to the Secretary of the U.S. Department of Health and Human Services for purposes of determining compliance with the HIPAA Rules.

Section 3. Permitted Uses and Disclosures by Business Associate

3.1 The Business Associate may only use or disclose protected health information covered under this Attachment as listed below:

3.1.1 The Business Associate may use and disclose the Managing Entity's or Department's PHI and/or ePHI received or created by Business Associate (or its agents and subcontractors) in performing its obligations pursuant to this Attachment.

3.1.2 The Business Associate may use the Managing Entity's or Department's PHI and/or ePHI received or created by Business Associate (or its agents and subcontractors) for archival purposes.

3.1.3 The Business Associate may use PHI and/or ePHI created or received in its capacity as a Business Associate of the Managing Entity for the proper management and administration of the Business Associate, if such use is necessary (a) for the proper management and administration of Business Associate or (b) to carry out the legal responsibilities of Business Associate.

3.1.4 The Business Associate may disclose PHI and/or ePHI created or received in its capacity as a Business Associate of the Managing Entity for the proper management and administration of the Business Associate if (a) the disclosure is required by law or (b) the Business Associate (1) obtains reasonable assurances from the person to whom the PHI and/or ePHI is disclosed that it will be held confidentially and used or further disclosed only as required by law or for the purpose for which it was disclosed to the person and (2) the person agrees to notify the Business Associate of any instances of which it becomes aware in which the confidentiality and security of the PHI and/or ePHI has been breached.

3.1.5 The Business Associate may aggregate the PHI and/or ePHI created or received pursuant this Attachment with the PHI and/or ePHI of other covered entities that Business Associate has in its possession through its capacity as a Business Associate of such covered entities for the purpose of providing the Managing Entity and/or the Department of Children and Families with data analyses relating to the health care operations of the Managing Entity or the Department (as defined in 45 C.F.R. §164.501).

3.1.6 The Business Associate may de-identify any and all PHI and/or ePHI received or created pursuant to this Attachment, provided that the de-identification process conforms to the requirements of 45 CRF 164.514(b).

3.1.7 Follow guidance in the HIPAA Rule regarding marketing, fundraising and research located at Sections 45 CRF 164.501, 45 CRF 164.508 and 45 CRF 164.514.

Section 4. Provisions for Covered Entity to Inform Business Associate of Privacy Practices and Restrictions

4.1 Covered entity shall notify Business Associate of any limitation in the notice of privacy practices of covered entity under 45 CFR 164.520, to the extent that such limitation may affect Business Associate's use or disclosure of protected health information.

4.2 Covered entity shall notify Business Associate of any changes in, or revocation of, the permission by an individual to use or disclose his or her protected health information, to the extent that such changes may affect Business Associate's use or disclosure of protected health information.

4.3 Covered entity shall notify Business Associate of any restriction on the use or disclosure of protected health information that covered entity has agreed to or is required to abide by under 45 CFR 164.522, to the extent that such restriction may affect Business Associate's use or disclosure of protected health information.

Section 5. Termination

5.1 Termination for Cause

5.1.1 Upon the Managing Entity's knowledge of a material breach by the Business Associate, the Managing Entity shall either:

5.1.1.1 Provide an opportunity for the Business Associate to cure the breach or end the violation and terminate the Agreement or discontinue access to PHI if the Business Associate does not cure the breach or end the violation within the time specified by the Managing Entity;

5.1.1.2 Immediately terminate this Agreement or discontinue access to PHI if the Business Associate has breached a material term of this Attachment and does not end the violation; or

5.1.1.3 If neither termination nor cure is feasible, the Managing Entity shall report the violation to the Department of Children and Families and the Secretary of the Department of Health and Human Services.

5.2 Obligations of Business Associate Upon Termination

5.2.1 Upon termination of this Attachment for any reason, Business Associate, with respect to protected health information received from covered entity, or created, maintained, or received by Business Associate on behalf of covered entity, shall:

5.2.1.1 Retain only that protected health information which is necessary for Business Associate to continue its proper management and administration or to carry out its legal responsibilities;

5.2.1.2 Return to covered entity, or other entity as specified by the Managing Entity or, if permission is granted by the Managing Entity, destroy the remaining protected health information that the Business Associate still maintains in any form;

5.2.1.3 Continue to use appropriate safeguards and comply with Subpart C of 45 CFR Part 164 with respect to electronic protected health information to prevent use or disclosure of the protected health information, other

than as provided for in this Section, for as long as Business Associate retains the protected health information;

5.2.1.4 Not use or disclose the protected health information retained by Business Associate other than for the purposes for which such protected health information was retained and subject to the same conditions set out at paragraphs 3.1.3 and 3.1.4 above under "Permitted Uses and Disclosures By Business Associate" which applied prior to termination; and

5.2.1.5 Return to covered entity, or other entity as specified by the Managing Entity or, if permission is granted by the Managing Entity, destroy the protected health information retained by Business Associate when it is no longer needed by Business Associate for its proper management and administration or to carry out its legal responsibilities.

5.2.1.6 The obligations of Business Associate under this Section shall survive the termination of this Attachment.

Section 6. Miscellaneous

6.1 A regulatory reference in this Attachment to a section in the HIPAA Rules means the section as in effect or as amended.

6.2 The Parties agree to take such action as is necessary to amend this Attachment from time to time as is necessary for compliance with the requirements of the HIPAA Rules and any other applicable law.

6.3 Any ambiguity in this Attachment shall be interpreted to permit compliance with the HIPAA Rules.
