During the end of February and the beginning of March HCAS received word that approximately 100 cats would be seized from a single residence. The case (202400100005) was a hoarding situation where the caregiver became ill. A 100-cat intake far exceeds our facilities ability for proper housing and care. Thomas Armstrong was asked to make arrangements with partnering rescues to ease the burden on the shelter. Thomas was able to place the vast majority of these cats directly into rescue care alleviating the burden on HCAS.

Thomas has shown a great ability to build relationships with rescue partners. I commend him for a job well done on this case as well as many others. Tj, is a professional who cares about our animals and always tries to provide the best outcome for them.
