SECTION 1. The Whereas clauses contained in this Resolution are true and correct and are incorporated herein by reference.

SECTION 2. The Board of County Commissioners recognizes that residential and commercial customers are distinctly different in the manner of payment and accounting for solid waste disposal services as follows:

Residential Customers – Hernando County residents owning or residing on property assessed under the Hernando County Solid Waste Disposal Assessments. These assessments allow for the disposal of residential solid waste generated within the household and lawn maintenance debris. Only solid waste and yard waste accepted and collected through the curbside garbage collection service is included.

The allowable amounts of solid waste for residential customers exclude additional materials that require disposal. The assessments do NOT cover the following: personal watercraft, travel trailers, mobile homes, demolition of homes, furniture, tires, land clearing debris (entire trees and stumps), , construction and demolition debris or solid waste or yard trash that is disposed of directly at the three (3) solid waste management facilities rather than through the curbside collection program. Tipping fees and charges are paid for disposal of these materials at the solid waste management facilities.

Non-Residential Customers – All other customers not covered in the residential customer category as defined above, including, but not limited to, all commercial enterprises, profit and non-profit groups, and owners of property (vacant lots or commercial properties) not assessed under the Hernando County Solid Waste Disposal Assessments.

Non-residential customers must dispose of solid waste at the Northwest Waste Management

Facility and pay the required tipping fees and charges. Solid waste will not be accepted from non-residential customers at the East Hernando Convenience Center and West Hernando Convenience Center.

SECTION 3. Pursuant to Sections 125.01 and 403.706 and Chapter 197, Florida Statutes, and Division 3 of Article II of Chapter 14, Hernando County Code of Ordinances, the Board of County Commissioners of Hernando County hereby adopts the following increased solid waste disposal assessments for disposal of solid waste generated from residential real property within Hernando County:

<u>Residential Property Use Categories</u>	<u>Amount Per Unit</u>
Single-Family Residential	\$101.23
Multi-Family Residential (up to and including 4 units)	\$91.49

SECTION 4. The solid waste disposal assessments shall constitute a lien upon all real property where each unit is located as of the date ad valorem taxes become liens. Unless fully paid and discharged or barred by law, the disposal assessments shall remain liens equal in rank and dignity with the liens of County ad valorem taxes and superior in rank and dignity to all other liens, encumbrances, titles and claims in, to or against the real property involved. If the solid waste disposal assessment levied on a parcel of real property is not paid, a tax certificate relating to the real property may be issued and sold by the Tax Collector as provided in Chapter 197, Florida Statutes.

SECTION 5. The solid waste disposal assessments adopted in Section 3 of this Resolution will be applied to the assessment roll in preparation for submittal to the Tax Collector prior to September 15, 2025.

SECTION 7. In the event that any provision, portion, or section of this Resolution is determined to be invalid, illegal or unconstitutional by a court of competent jurisdiction, such decision shall in no manner affect the remaining provisions, portions or sections of this Resolution which shall remain in full force and effect.
