Planning & Zoning Commission  
RE: File No.: H-23-47

As a resident at 7311 Mina Ave, I'm greatly concerned about the proposed development of the property: parcel 419372, 1246618 & 346478.

Noise levels are very concerning to me. Will there be some form of noise barrier to protect my property from this commercial development?

This is my retirement home and the location was selected for the peace and quiet it afforded.

Please consider some type of noise barrier to protect my property and other homes from the commercialization of the proposed project.

Respectfully,

Sandra Churchill
