To: Hernando County Purchasing

From: Brenda Peshel
Hernando County Fleet Manager

Subject: Southern Sewer Equipment Justification #21360

This is one of the Public Works Departments highly utilized vac truck. The work to be done is to repair the compressor assembly and the driveshaft and pulley on the front hydro pump. In order to expedite this repair, it was taken to Southern Sewer Equipment Sales as they are the best priced and highest quality repair facility for this truck. Southern Sewer Equipment Sales is an authorized distributor of proprietary OEM parts and will provide timely service. Given type of work needed, Southern Sewer Equipment Sales is the only shop to facilitate this repair, we appropriated the work to Southern Sewer Equipment.

Sincerely,

A handwritten signature in cursive script that reads "Brenda Peshel".
