Narrative

Date: August 1, 2025

Applicant Name: Erran O'Donnell, Sasha Ripa, David E. Soch, and Maria C. Soch

Parcel Alt IDs: 719351, 65226 (properties to be merged via Property Appraiser's office), and 719404

Current Zoning: R1C – Single Family Residential

Proposed Zoning: AR – Agricultural/Residential

Total Acreage: 3.4 acres

Narrative Statement

The purpose of this rezoning request is to change the zoning classification of the subject properties from R1C (single family residential) to AR (agricultural/residential) to allow for greater use and sustainability of the land through agricultural and limited homestead style activities. The parcels are located approximately 2,168' east of Commercial Way and 2,372' north of Hexam Road in Hernando County, FL. The proposed AR zoning aligns with the property's rural character and is consistent with the long-term vision for responsible land stewardship. The location of the properties is within flood zone X.

The applicants intend to utilize the land for the following purposes:

Cultivation of Fruits and Vegetables

The rezoning will support the cultivation of fruits, vegetables, and other crops intended for personal use and small-scale local sharing. This use is in harmony with the surrounding environment and promotes self-sufficiency and local food resilience.

Raising Free-Range Chickens

With AR zoning, the applicants seek to maintain a modest number of free-range chickens for personal egg consumption. The scale of this activity will be appropriate to the size of

the parcel and managed to ensure minimal impact on neighboring properties, with all necessary setbacks and waste management practices in place.

Potential for Grass-Fed Cattle or other Livestock (Personal Consumption Only)

The applicants are also exploring the future possibility of raising a small number of grass-fed livestock (i.e. cattle, pig, goat, etc.) again solely for personal use. Limits of said livestock would be consistent with the AR permitted uses as described in the Hernando County Code of Ordinances Appendix A; Article IV; Section 13-A. This would be conducted under humane, environmentally responsible practices and will not involve any commercial operation or public nuisance.

The transition to AR zoning will not result in a significant change to the physical appearance or intensity of use of the property. The proposed uses are low-impact and will not burden existing infrastructure or public services. Furthermore, these uses support the principles of sustainability, local food production, and conservation – values increasingly embraced by the broader community.

In conclusion, the requested rezoning from R1C to AR will allow for responsible and beneficial use of the property, while remaining compatible with neighboring land uses and consistent with the county's comprehensive plan and zoning objectives. The applicants respectfully request approval of this rezoning application and are available to provide any additional information or documentation needed to support this request.

Sincerely,

Jennifer Lombardi
