Aja Moore

The message i finally sent to her.

I really still can't fucking get over the fact that you continuously try to find ways to fuck with people in this community when are you going to stop at what point is enough enough do you wanna be booted from Hernando county too because so many people fucking hate you why what is your motive what are you gaining ya need to fucking stop. Last I checked God don't like ugly and you are the ugliest of them all. I should've never talked to you. You aren't about helping. You are about control and making others miserable. It's fucking disgusting the level you will go to

Subject: H-23-58 Parcel Key 89727, 89736 Rezoning

CAUTION: This email originated from outside the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

This communication is being submitted to oppose the rezoning of the above parcel, key. A business' is trying to establish a boat rental in an area which is not zoned for it. Despite not being zoned for a boat rental it none the less started setting up the business' without the proper permitting in place.

In addition to not properly or legally setting up this business,' they also decided to improperly dredge to area in the canal where they were intending to establish the business' and in the process silted the ancillary canals including the canal for my property.

How is that a business can come into an established neighborhood and illegally set up operations with no permitting in place not to mention the sudden zoning issues they raised?

This business' will affect a well established neighborhoods tranquility and quality of life. It also seems to operate with no regards for zoning or permitting. As a new resident in this neighborhood and in the process of building a home I had to comply with all laws and environmental regulations in order to get my home permitted. It required months of planning and figuring out how to comply with all the regulations. Then Silverstone, Inc comes in and ignores all the rules and regulations and figures asking for forgiveness will get them established before anyone can do anything about it. This attitude is frustrating and should not be rewarded. They need to comply with rules and regulations the same as anyone else and forgiveness should not be considered

I request this rezoning be denied in order to preserve the environment of the neighborhood. No one who lives there wants to see the neighborhood overrun with tourists destroying the very qualities of area which is loved by its residence.

Thank you for your consideration in this matter.
