#### TITLE

CP 1492158 Crystal Waters

#### BRIEF OVERVIEW

Conditional Plat for Crystal Waters

#### FINANCIAL IMPACT

No Financial Impact

#### LEGAL NOTE

The Planning and Zoning Commission has the authority to review this item in accordance with Chapter 26 (Subdivision Regulations), Article II (Procedures for County review and approval), Section 26-21 (procedure for conditional approval of a conditional plat) of the Hernando County Code of Ordinances.

#### RECOMMENDATION

Approve the Conditional Plat for Crystal Waters

#### REVIEW PROCESS

## STAFF REPORT

---

**HEARINGS:** Planning & Zoning Commission: November 14, 2022  
Board of County Commissioners: December 13, 2022

**APPLICANT:** DR Horton

**FILE NUMBER:** H-22-51

**REQUEST:** Establish a Master Plan on Property Zoned CPDP (Combined Planned Development Project) with Single Family and General Commercial Uses with deviations

**GENERAL LOCATION:** East side of Commercial Way, across from Happy Days Drive

**PARCEL KEY NUMBERS:** 418907, 1243835, 1357631

---

### APPLICANT'S REQUEST:

On November 14, 2007, the Board of County Commissioners approved a revision to a Master Plan on property zoned PDP(SF)/Planned Development Project (Single Family) with a rezoning of a portion from residential to PDP(GC)/Planned Development Project (General Commercial). The development at the time proposed 176 single family lots (1.3 DU/AC) with a mixture of 70' and 55' lots. Furthermore, deviations were requested and approved for internal front, side and rear setbacks. Since its approval no development has occurred on the site and the previous master plan has expired.

The petitioner now seeks to revise the previously approved master plan for the 128.0 acres to increase the number of lots to 250 (1.9 du/ac), reduce the lot width and side setbacks. The 3.5 acres allocated for commercial will remain along the north.

	Previously Approved	Proposed
<b>Lot Width</b>	70' and 55'	50' and 40'
<b>Side Yard Setback</b>	7.5'	5'
<b>Lots</b>	176	250

**Deviations Requested:**

The following deviations are requested with this application:

- Waiver of the required frontage road.
- Lot Width: 40' (deviation from previously approved 55')
- Residential Side Setback: 5' (deviation from previously approved 7.5')

**SITE CHARACTERISTICS:**

**Site Size:** 128.0 acres

**Surrounding Zoning & Land Uses:**

North: C-2; Undeveloped, Pool Contractor  
South: AG, PDP(GC); Undeveloped, Mobile Homes  
East: AG; Tooke Lake  
West: PDP(SF), (GHC); Undeveloped, Publix Plaza

**Current Zoning:** PDP(SF)/Planned Development Project (Single Family, PDP(GC)/Planned Development Project (General Commercial) and AG/(Agricultural)

**Future Land Use Map Designation:** Residential, Commercial, Conservation (Lake)

**ENVIRONMENTAL REVIEW:**

**Soil Type:** Candler Fine Sand, Basinger Fine Sand/Depressional

**Habitat:** Xeric Hammock, Wet Prairie and Lacustrine (lake) according to FWC CLC mapping (Florida Cooperative Land Cover Classification System that combines Florida Land Use Cover and Classification System with fish and wildlife data).

**Comments:** A comprehensive floral and faunal (wildlife) survey shall be prepared by a qualified professional at the conditional plat stage of development. The petitioner is required to comply with all applicable FWC regulations and permitting.

**Protection Features:**

There are no Well Head Protection Areas (WHPA) according to County data resources. The subject property contains a known sinkhole (Special Protection Area) approximately 858' from the southern property line and approximately 375' from Commercial Way. According to the Groundwater Protection

Ordinance (GPO), Special Protection Areas (SPA) are subject to restrictions.

**Comments:** The Special Protection Area (SPA) shall be delineated by a Florida Registered Geotechnical Engineer through a geotechnical/geophysical assessment and shall be incorporated into a revised master plan (before the submission of the conditional plat) as open space. The delineation shall include the extent of the subsurface karst feature(s).

A conservation easement shall be provided for the feature at time of final plat. Specific land uses are prohibited within 500' of a SPA, therefore, a 500' prohibited use buffer around the sinkhole shall be shown on any future plats and construction drawings.

Single-family residential parcels and associated stormwater, connected to central sewer, is permitted within the SPA buffer.

**Hydrologic  
Features:**

The subject property contains Class I and Class II wetlands, and a 100-year floodplain associated with Tooke Lake.

**Comment:** Wetlands shall be delineated on all plats and plans (Strategy 10.03B(1)). The 100-year floodplain should be defined on the construction plans for the project. All finished floor elevations should be above the 100 year flood elevation.

Any removal, encroachment or alteration of these wetlands shall require permitting and mitigation by the appropriate state and federal agencies.

A vegetated buffer averaging 25' in width (with no portion of the buffer narrower than 15' wide) shall be maintained by development adjacent to Class I and/or Class II wetlands (the hydrologically connected sinkhole is also a Class I wetland). No development is allowed in the buffer except for walkways or boardwalks used for access or recreation. (Strategy 10.03B(8)). The wetland buffers should be planted with native vegetation to control erosion.

The wetlands and associated buffer areas shall include a conservation easement in favor of the developer and including a third-party right of enforcement in favor of the County pursuant to Section 704.06(8), Florida Statutes on the master plan and construction drawings.

The lake to the east of the subject property is owned by the petitioner and should be included within the zoning approval and designated as a conservation area.

A stormwater plan shall be designed and maintained upland of the wetland buffer to prevent direct stormwater runoff, provide treatment, and avoid adverse impacts to the wetlands and the Lake. There should be a minimum 25' average upland buffer between the drainage system and the lake's wetland line. This buffer should be indicated on all plans for this development and final plat.

Natural vegetation is to be retained in the non-wetland buffers and enhanced with trees and vegetation to meet 80% opacity requirement.

**Water Quality:** The proposed development is within the Weeki Wachee River Basin Management Action Plan (BMAP), the Weeki Wachee Primary Focus Area (PFA), and the and Weeki Wachee Outstanding Florida Springs (OFS) Group.

**Comment:** The petitioner must meet the minimum requirements of Florida Friendly Landscaping™ publications and the Florida Yards and Neighborhoods Program for required plantings and buffers, as applicable.

The Builder/Developer shall provide new property owners with Florida-Friendly Landscaping™ Program information, include FFL language in the HOAs covenants and restrictions, and encourage the use of the principles, techniques, and landscaping recommendations. Information on the County's Fertilizer Ordinance and fertilizer use is to be included. Educational information is available through Hernando County Utilities Department.

**Flood Zone:** AE and X

#### **SCHOOL DISTRICT REVIEW:**

The applicant must apply for and receive a Finding of School Capacity from the School District prior to the approval of the conditional plat or the functional equivalent. The County will only issue a certificate of concurrency for schools upon the School District's written determination that adequate school capacity will be in place or under actual construction within three (3) years after the issuance of subdivision approval or site plan approval (or functional equivalent) for each level of school without mitigation, or with the execution of a legally binding proportionate

share mitigation agreement between the applicant, the School District, and the County.

**UTILITIES REVIEW:**

The Hernando County Utilities Department (HCUD) does not currently supply water or sewer service to these parcels. There is an existing 16-inch water main that runs along the west side of Commercial Way. There are existing 10-inch and 20-inch sewer force mains that run along the east side of Commercial Way. HCUD has no objections to the request, subject to a utility capacity analysis and connection to the central water and sewer systems at time of vertical construction, with the stipulation that the developer will need to provide utility placement details showing the locations of all utilities on the conditional plat for lots with side setbacks of less than 10 feet.

**ENGINEERING REVIEW:**

The subject site is located on east side of Commercial Way/US Hwy 19, across from Happy Days Drive. The petitioner is requesting two access points for the residential development and the commercial development located at the southeast corner of US Hwy 19 and Bourassa Boulevard. The main access for the residential development will align with Glen Lakes Boulevard. The second main of access will be off Bourassa through the commercial development and is proposed as a right-in/right-out. The commercial development will also provide for right-in only off US Hwy 19 and a shared access off Bourassa Boulevard. Furthermore, due to the nature of the residential development and site constraints, the petitioner is requesting a waiver of the frontage road

The County Engineer has reviewed the petitioner's request and has the following comments:

- This project generates over 50 PM Peak Hour trips. A Traffic Access Analysis is required. The analysis must include a queuing analysis.
- Any improvements identified by the Traffic Access Analysis are the responsibility of the developer.
- Properties along Commercial Way/US Hwy 19 are required to install a frontage road, per Ordinance Chapter 24, Article I, Section 24-2. A Frontage Road is required the entire property frontage of Commercial Way/US Hwy 19.
- This property contains three areas of 1% annual chance floodplain (Zone AE). Development within the floodplain requires specific permitting and mitigation.

**LAND USE REVIEW:**

**Commercial Setbacks**

Proposed Commercial Building Setbacks:

US Hwy 19: 125'  
Rear: 20'  
Side: 35'

**Comments:** The petitioner has not proposed a use for the commercial parcel nor provided design criteria for the commercial parcel. If approved the commercial will be required to meet the minimum Commercial Design Standards.

**Residential Setbacks, Lot Width and Sizes:**

The petitioner is proposing the following lot widths and sizes:

Lot Width: 40' (deviation from the previously approved 55')

Proposed Residential Building Setbacks:

Front: 20' (previously approved)  
Side: 5.5 (deviation from the previously approved 7.5')  
Rear: 15' (previously approved)

**Buffers:**

Due to the development predominate lake frontage, the petitioner has indicated a 5' landscape buffer along the north, northeast portion of the development. The petitioner will also utilize drainage retention areas as buffers along US Hwy 19.

**Comments:** If approved, all buffers shall meet the minimum County LDR's standards

**Access:**

To establish minimum access requirements to single-family and multifamily subdivisions, the Board of County Commissioners adopted a policy requiring two (2) means of access for subdivisions. The policy serves to provide more than one-way in and one-way out for residents of a subdivision, alternate routes for emergency services, interconnection between subdivisions, a shortened drive time for residents to the entrance/exits, and access points for travel direction outside of the development. A minimum of two (2) access points must be provided to serve any new subdivision or development pod with more than 50 units.

Additionally, Hernando County Land Development Regulations require that new single-family and multifamily developments with more than 50 units provide at least one treed roadway/access way for motor vehicles extending through the length or width (whichever is greater) of the development with a vegetative buffer at least 10' in width.

**Comments:** The petitioner has not indicated a treed boulevard entrance; however, has provided for two means of access for the residential development. If approved, a treed boulevard entrance must be provided for the main access along US Hwy 19.

**Neighborhood Park:**

All developments with 50 dwelling units or more shall provide and maintain a neighborhood park system for use by the residents of the subdivision in accordance with the requirements of the LDRs. The proposed phase contains more than 50 dwelling units. Neighborhood parks may count towards the minimum open space requirements. The amount of land provided and maintained as a neighborhood park shall be 1.0 acre for the first 50 dwelling units plus 1/100th of an acre for each dwelling unit over 50 up to 250 dwelling units, for a maximum of 3.0 acres.

**Comments:** The petitioner has proposed a 1.27 acre neighborhood park. If approved the petitioner must provide the minimum 3.0 acre neighborhood park as required by County LDR's.

**Natural Vegetation:**

Projects greater than twenty (20) acres shall designate an area of at least seven (7) percent of the total project area as preserved natural vegetation and no construction activity can occur in this area. Preserved natural vegetation areas must be a minimum of twenty thousand (20,000) square feet.

**Comments:** If approved, the petitioner must provide a minimum of seven (7) percent natural vegetation. Preserved natural vegetation and/or planted native vegetation may be used to meet all or part of the requirement for open space if it is a minimum of fifteen (15) feet in width.

**Fire Protection Plan:**

Hernando County LDRs require that a fire protection plan be completed for residential developments with lot sizes less than 60' in width.

**Comments:** If approved, the petitioner shall submit a fire protection plan with the Conditional Plat in accordance with Hernando County LDRs.

**COMPREHENSIVE PLAN REVIEW:**

The subject property is located within the Residential and Commercial land use classification on the adopted Future Land Use Map.

**Future Land Use Map**

**Strategy 1.04A(3):** The ***Residential Category*** accommodates residential growth clustered in and around urbanized areas and those areas that maximize the efficient use of infrastructure contained in long-range facilities plans of the County.

**Residential Category**

**Objective 1.04B:** The Residential Category allows primarily single family, duplex, resort and multi-family housing and associated ancillary uses such as recreational and institutional. Office and certain commercial uses may be allowed subject to the locational criteria and performance standards of this Plan. Residential density shall not exceed 22 dwelling units per gross acre.

**Strategy 1.04B(1):** Commercial and institutional uses within the Residential Category are generally associated with medium and high density residential development and may include neighborhood commercial, office professional, recreational, schools, and hospitals. Minor public facilities that do not unduly disturb the peaceful enjoyment of residential uses may also be allowed.

**Strategy 1.04B(2):** Future residential development will be planned to locate where the Residential Category predominates on the Future Land Use Map as determined by the availability of facilities and services, the need to accommodate future growth, the strategies to discourage the proliferation of urban sprawl, and the impacts to natural resources, including groundwater.

**Single-Family Housing**

**Strategy 1.04B(3):** The Residential Category will include zoning for single-family housing, generally averaging a density of 2.5 dwelling units per gross acre to 6.0 dwelling units per gross acre comprised of varying lot sizes and dwelling unit types such as senior housing, villa housing, single family detached housing, and zero lot line housing.

**Land Use Compatibility**

**Objective 1.10B:** The County shall establish standards by which land use compatibility is evaluated in the review of proposals for Future Land Use Map amendments, zoning changes, and other land development applications.

**Strategy 1.10B(2):** Zoning changes should be compatible with surrounding development and minimize impact to natural resources. Impacts may be mitigated through design of building placement, buffers, noise reduction, setbacks and other appropriate planning techniques or performance measures.

**Strategy 1.10B(3):** Protect existing and future residential areas from encroachment of incompatible uses that are destructive to the character and integrity of the surrounding residential area.

**Comments:** Based on the forgoing Strategies, the subject site's unique location (US Hwy 19 to the west and Tooke Lake to the east) provides for ample transition to neighboring parcels. The development and its proposed lot sizes would be an enclave and not create adverse compatibility concern.

**Wetlands**

**Strategy 10.03B(2):** Hernando County shall only allow the alteration of Class I Wetlands consistent with the requirements of state and federal regulatory agencies.

**Strategy 10.03B(4):** The alteration of Class II wetlands is discouraged. If feasible alternatives are not viable, alteration should be limited to 25% of the wetland area and be designed in a manner that maintains the cross-sectional volume and primary hydrologic flow of the wetland.

**FINDINGS OF FACT:**

The request to establish a Master Plan on Property Zoned CPDP (Combined Planned Development Project) with Single Family and General Commercial Uses with deviations is appropriate based on the following conclusions:

1. The following requested deviations are justified with appropriate performance conditions:
  - Minimum Lot Width: 40'
  - Minimum Side Setback: 5' (deviation from 7.5')

2. The subject site has extensive environmental features. Appropriate performance conditions should be in place to mitigate potential impacts to the features (SPA, Wetland, Lake).
3. The proposed use is consistent with the County's adopted Comprehensive Plan and compatible with the surrounding area.

**NOTICE OF APPLICANT RESPONSIBILITY:**

*The rezoning process is a land use determination and does not constitute a permit for either construction on, or use of, the property, or a Certificate of Concurrency. Prior to use of, or construction on, the property, the petitioner must receive approval from the appropriate County department(s) for the proposed use.*

*The granting of this land use determination does not protect the owner from civil liability for recorded deed restrictions which may exceed any county land use ordinances. Homeowner associations or architectural review committees require submission of plans for review and approval. The applicant for this land use request should contact the local association or the Public Records for all restrictions applicable to this property.*

**STAFF RECOMMENDATION:**

It is recommended that the Planning and Zoning Commission recommend the Board of county Commissioners adopt a resolution approving the petitioner's request to Establish a Master Plan on Property Zoned CPDP (Combined Planned Development Project) with Single Family and General Commercial Uses with deviations and the following performance conditions:

1. The petitioner must obtain all permits from Hernando County and other applicable agencies and meet all applicable land development regulations, for either construction or use of the property, and complete all applicable development review processes.
2. A comprehensive floral and faunal (wildlife) survey shall be prepared by a qualified professional at the conditional plat stage of development. The petitioner is required to comply with all applicable FWC regulations and permitting.
3. The petitioner must meet the minimum requirements of Florida Friendly Landscaping™ publications and the Florida Yards and Neighborhoods Program for design techniques, principles, materials, and plantings for required landscaping.

4. The Builder/Developer shall provide new property owners with Florida-Friendly Landscaping™ (FFL) Program information and include FFL language in the HOAs covenants and restrictions. Information on the County's Fertilizer Ordinance and fertilizer use is to be included. Educational information is available through Hernando County Utilities Department.
5. Geotechnical subsurface testing and reporting in accordance with Hernando County's Facility Design Guidelines shall be conducted, including all proposed drainage retention areas within the project to test for subsurface karst features.
6. The Special Protection Area (SPA) shall be delineated by a Florida Registered Geotechnical Engineer through a geotechnical/geophysical assessment and shall be incorporated into a revised master plan (before the submission of the conditional plat) as open space. The delineation shall include the extent of the subsurface karst feature(s).
7. A conservation easement shall be provided for the Special Protection Area (SPA) at time of final plat. Specific land uses are prohibited within 500' of a SPA, therefore, a 500' prohibited use buffer around the sinkhole shall be shown on any future plats and construction drawings.
8. Wetlands shall be delineated on all future plats and plans.
9. A vegetated buffer averaging 25' in width (with no portion of the buffer narrower than 15' wide) shall be maintained by development adjacent to Class I and/or Class II wetlands. No development is allowed in the buffer except for walkways or boardwalks used for access or recreation. The wetland buffers should be planted with native vegetation to control erosion.
10. The wetlands and associated buffer areas shall include a conservation easement in favor of the developer and including a third-party right of enforcement in favor of the County pursuant to Section 704.06(8), Florida Statutes on the master plan and construction drawings.
11. A stormwater plan shall be designed and maintained upland of the wetland buffer to prevent direct stormwater runoff, provide treatment, and avoid adverse impacts to the wetlands and the Lake. There should be a minimum 25' average upland buffer between the drainage system and the lake's wetland line. Said buffer shall be indicated on all plans for this development and final plat.

12. A conservation easement shall be provided for Tooke Lake, wetlands and Special Protection Area.
13. Natural vegetation is to be retained in the non-wetland buffers and enhanced with trees and vegetation to meet 80% opacity requirement.
14. The petitioner must apply for and receive a Finding of School Capacity from the School District prior to the approval of the conditional plat or the functional equivalent. The County will only issue a certificate of concurrency for schools upon the School District's written determination that adequate school capacity will be in place or under actual construction within three (3) years after the issuance of subdivision approval or site plan approval (or functional equivalent) for each level of school without mitigation, or with the execution of a legally binding proportionate share mitigation agreement between the applicant, the School District, and the County.
15. This project generates over 50 PM Peak Hour trips. A Traffic Access Analysis is required. The analysis must include a queuing analysis.
16. Any improvements identified by the Traffic Access Analysis are the responsibility of the developer.
17. The subject site shall install a frontage road for the entire property frontage of Commercial Way/ US Hwy 19, per Ordinance Chapter 24, Article I, Section 24-2. A Frontage Road is required the
18. Minimum Lot Widths: 40' (deviation from 50')
19. Minimum Residential Building Setbacks:
  - Front: 20'
  - Rear: 15'
  - Side: 5' (deviation from 7.5')
20. Minimum Commercial Building Setbacks:
  - US Hwy 19: 125'
  - Bourassa Blvd: 35'
  - Side: 20'
  - Rear: 35'
21. The petitioner shall provide the minimum neighborhood park acreage as required by the County's Land Development Regulations and ensure that this park is pedestrian-accessible for all residents within the development.

22. The petitioner shall preserve the minimum seven percent (7%) natural vegetation as required by the County's Land Development Regulations. The required natural vegetation may be included as part of the required open space.
23. The petitioner shall submit a fire protection plan with the conditional plat in accordance with Hernando County LDRs.
24. The developer shall provide a utility capacity analysis and shall connect to the central water and sewer systems at time of vertical construction. Furthermore, the developer will be required to provide utility placement details showing the locations of all utilities on the conditional plat for lots with side setbacks of less than 10 feet.
25. The petitioner shall be required to provide a treed boulevard entrance from Commercial Way/US Hwy 19.
26. The petitioner shall submit a GIS Shapefile showing the final SPA, wetlands, and buffer delineations at the conditional plat phase of project development.
27. The petitioner shall be required to conduct and/or supply a State reviewed and approved Cultural Resource Assessment Survey (CRAS) performed by a qualified professional in accordance with the guidelines published by the Florida Bureau of Archaeological Research, prior to the conditional plat phase of development.
28. The petitioner shall provide a revised plan in compliance with all the performance conditions within 60 calendar days of BCC approval. Failure to submit the revised plan will result in no further development permits being issued.

**STAFF RECOMMENDATION:**

It is recommended that the Planning and Zoning Commission recommend the Board of county Commissioners adopt a resolution approving the petitioner's request to Establish a Master Plan on Property Zoned CPDP (Combined Planned Development Project) with Single Family and General Commercial Uses with deviations and the following performance conditions:

1. The petitioner must obtain all permits from Hernando County and other applicable agencies and meet all applicable land development regulations, for either construction or use of the property, and complete all applicable development review processes.
2. A comprehensive floral and faunal (wildlife) survey shall be prepared by a qualified professional at the conditional plat stage of development. The petitioner is required to comply with all applicable FWC regulations and permitting.
3. The petitioner must meet the minimum requirements of Florida Friendly Landscaping™ publications and the Florida Yards and Neighborhoods Program for design techniques, principles, materials, and plantings for required landscaping.
4. The Builder/Developer shall provide new property owners with Florida-Friendly Landscaping™ (FFL) Program information and include FFL language in the HOAs covenants and restrictions. Information on the County's Fertilizer Ordinance and fertilizer use is to be included. Educational information is available through Hernando County Utilities Department.
5. Geotechnical subsurface testing and reporting in accordance with Hernando County's Facility Design Guidelines shall be conducted, including all proposed drainage retention areas within the project to test for subsurface karst features.
6. The Special Protection Area (SPA) shall be delineated by a Florida Registered Geotechnical Engineer through a geotechnical/geophysical assessment and shall be incorporated into a revised master plan (before the submission of the conditional plat) as open space. The delineation shall include the extent of the subsurface karst feature(s).
7. A conservation easement shall be provided for the Special Protection Area (SPA) at time of final plat. Specific land uses are prohibited within 500' of

- a SPA, therefore, a 500' prohibited use buffer around the sinkhole shall be shown on any future plats and construction drawings.
8. Wetlands shall be delineated on all future plats and plans.
  9. A vegetated buffer averaging 25' in width (with no portion of the buffer narrower than 15' wide) shall be maintained by development adjacent to Class I and/or Class II wetlands. No development is allowed in the buffer except for walkways or boardwalks used for access or recreation. The wetland buffers should be planted with native vegetation to control erosion.
  10. The wetlands and associated buffer areas shall include a conservation easement in favor of the developer and including a third-party right of enforcement in favor of the County pursuant to Section 704.06(8), Florida Statutes on the master plan and construction drawings.
  11. A stormwater plan shall be designed and maintained upland of the wetland buffer to prevent direct stormwater runoff, provide treatment, and avoid adverse impacts to the wetlands and the Lake. There should be a minimum 25' average upland buffer between the drainage system and the lake's wetland line. Said buffer shall be indicated on all plans for this development and final plat.
  12. A conservation easement shall be provided for Tooke Lake, wetlands and Special Protection Area.
  13. Natural vegetation is to be retained in the non-wetland buffers and enhanced with trees and vegetation to meet 80% opacity requirement.
  14. The petitioner must apply for and receive a Finding of School Capacity from the School District prior to the approval of the conditional plat or the functional equivalent. The County will only issue a certificate of concurrency for schools upon the School District's written determination that adequate school capacity will be in place or under actual construction within three (3) years after the issuance of subdivision approval or site plan approval (or functional equivalent) for each level of school without mitigation, or with the execution of a legally binding proportionate share mitigation agreement between the applicant, the School District, and the County.
  15. This project generates over 50 PM Peak Hour trips. A Traffic Access Analysis is required. The analysis must include a queuing analysis.
  16. Any improvements identified by the Traffic Access Analysis are the responsibility of the developer.

17. The subject site shall install a frontage road for the entire property frontage of Commercial Way/ US Hwy 19, per Ordinance Chapter 24, Article I, Section 24-2. A Frontage Road is required the
18. Minimum Lot Widths: 40' (deviation from 50')
19. Minimum Residential Building Setbacks:
  - Front: 20'
  - Rear: 15'
  - Side: 5' (deviation from 7.5')
20. Minimum Commercial Building Setbacks:
  - US Hwy 19: 125'
  - Bourassa Blvd: 35'
  - Side: 20'
  - Rear: 35'
21. The petitioner shall provide the minimum neighborhood park acreage as required by the County's Land Development Regulations and ensure that this park is pedestrian-accessible for all residents within the development.
22. The petitioner shall preserve the minimum seven percent (7%) natural vegetation as required by the County's Land Development Regulations. The required natural vegetation may be included as part of the required open space.
23. The petitioner shall submit a fire protection plan with the conditional plat in accordance with Hernando County LDRs.
24. The developer shall provide a utility capacity analysis and shall connect to the central water and sewer systems at time of vertical construction. Furthermore, the developer will be required to provide utility placement details showing the locations of all utilities on the conditional plat for lots with side setbacks of less than 10 feet.
25. The petitioner shall be required to provide a treed boulevard entrance from Commercial Way/US Hwy 19.
26. The petitioner shall submit a GIS Shapefile showing the final SPA, wetlands, and buffer delineations at the conditional plat phase of project development.
27. The petitioner shall be required to conduct and/or supply a State reviewed and approved Cultural Resource Assessment Survey (CRAS) performed by

a qualified professional in accordance with the guidelines published by the Florida Bureau of Archaeological Research, prior to the conditional plat phase of development.

28. The petitioner shall provide a revised plan in compliance with all the performance conditions within 60 calendar days of BCC approval. Failure to submit the revised plan will result in no further development permits being issued.

## STAFF REPORT

---

**HEARINGS:** Planning & Zoning Commission: July 14, 2025

**APPLICANT:** DR Horton

**FILE NUMBER:** 1492158

**PURPOSE:** Conditional Plat Approval Crystal Waters

**GENERAL LOCATION:** East side of Commercial Way, across from Happy Days Drive

**PARCEL KEY NUMBER:** 418907, 1243835, 1357631

---

The conditional plat for the Crystal Waters is for 222 residential units & C-1 (General Commercial) uses on approximately 128.0 +/- acres located on the East side of Commercial Way, across from Happy Days Drive. The conditional plat has been reviewed by various County agencies and found to be consistent with County standards. A certificate of concurrency has been issued for the development.

### STAFF RECOMMENDATION:

It is recommended that the Planning and Zoning Commission approve the conditional plat of the Crystal Waters Subdivision with the following performance conditions:

1. The conditional plat shall expire in two (2) years if no further approvals in the subdivision process are obtained.
2. The developer must conform to all Hernando County Facility Design guidelines.
3. The petitioner shall provide a comprehensive listed species survey prepared by a qualified professional to identify any listed species present prior to clearing or development activities. The petitioner is required to comply with all applicable FWC regulations.
4. The petitioner must meet the minimum requirements of Florida-Friendly Landscaping publications and the Florida Yards and Neighborhoods Program for design techniques, principles, materials, and plantings for required landscaping.
5. Delineate the FEMA floodplains on the conditional plat.
6. Label the curve numbers (C1, C2, C3, etc.) at their respective locations on the Conditional Plat.
7. The Manual on Uniform Traffic Control Devices (MUTCD) permits the use of Reverse Curve (W1-3 L/R) and Winding Road (W1-5L/R) signs when the tangent of the two curves is less than 600-feet in separation. Please utilize these signs as curve warning signage on this project.
8. Submit a final utility capacity analysis to the Hernando County Utilities Department during the Construction Drawing review meeting the following conditions:
  - a. **Potable Water Analysis:** The EOR has provided an initial capacity analysis which is acceptable for the conditional plat review. Submit a final capacity analysis during Construction Drawing review meeting the following condition:

- i. The water distribution system must provide a 40-psi minimum static pressure and 20-psi minimum pressure during fire flow.
  - ii. The water distribution system shall have two feeds (connections) to HCUD's existing system per HCUD specification 3.4.2.2.
- b. **Wastewater Analysis:** The EOR has provided an initial capacity analysis which is acceptable for the conditional plat review. Submit a final capacity analysis during the Construction Drawing review meeting the following conditions:
  - i. Proposed and existing force main velocities must be greater than 2 feet per second (fps) but are less than or equal to 5 fps.
  - ii. Proposed and existing force main pressure(s) cannot exceed 50 psi.
  - iii. Proposed and existing lift station(s) pumps cannot exceed 6 starts per hour per pump.
- 9. The developer shall install and dedicate to HCUD the necessary water and sewer infrastructure (including pump stations) necessary to supply the development.
- 10. The developer shall either install all proposed utility infrastructure within dedicated county road right of ways or within a non-exclusive utility easement over the roadway tract if the roads will be privately maintained. Show the proposed wastewater pump station site(s) as dedicated tract(s) sized per HCUD detail S-10 or S-15 (June 2023 version).
- 11. If street lighting will be installed in the development, please provide at least one of the following: show the pole locations on the construction drawings, add a note to the plans specifying that the location of the proposed poles will be in an area that will not conflict with the proposed water or sewer services, or provide utility separate details showing the location of all proposed utilities.
- 12. Submit construction drawings showing the pump station's wet well and valve vault finished slab elevations at or above the 100-year flood elevation per HCUD specification 4D.19.11.

The revised conditional plat consistent with these conditions must be submitted to the Planning Division prior to the submittal of any further subdivision development applications.

#### TITLE

Conditional Use Permit Petition Submitted by Jakub Kusnierz (CU2503)

#### BRIEF OVERVIEW

**Request:**

Conditional Use Permit for Temporary Security Residence

**General Location:**

Northwest terminus of Snow Goose Avenue

#### FINANCIAL IMPACT

A matter of policy. There is no financial impact.

#### LEGAL NOTE

The Planning and Zoning Commission has approval jurisdiction over the subject application. The Applicable Criteria for conditional use approval are contained in Appendix A, (Zoning Code) Article V, Section 4. The Conditional Use Approval must be consistent with the Comprehensive Plan.

#### RECOMMENDATION

It is recommended that the Planning and Zoning Commission determine whether a hardship exists; if such a determination is made, the Planning & Zoning Commission may approve the request for a Conditional Use Permit for Second Residence for a Temporary Security Residence for a period of up to One (1) year with performance conditions.

#### REVIEW PROCESS

Brooksville, FL 34601

Regarding: JAKUB KUSNIERZ  
12137 SNOW GOOSE AVE  
WEEKI WACHEE, FL 34614  
Key Number: 751485

Hernando Code of Ordinances, Chapter 13 Flood Damage Prevention and Protection, Article XIV, Section 13-76 Temporary Placement. Property is zoned R1C which does not allow for Mobile Homes.

This property owner has obtain a permit to build his new single family home and would like to stay on the property in his RV (recreational vehicle) while he builds the new home.

## STAFF REPORT

---

<b>HEARINGS:</b>	Planning & Zoning Commission: July 14, 2025
<b>APPLICANT:</b>	Jakub Kusnierz
<b>FILE NUMBER:</b>	CU-25-03
<b>REQUEST:</b>	Conditional Use Permit for Temporary Security Residence
<b>GENERAL LOCATION:</b>	Northwest terminus of Snow Goose Avenue
<b>PARCEL KEY NUMBER:</b>	751485

---

### APPLICANT'S REQUEST

The applicant is requesting approval to place a Temporary Security Residence on their property, specifically an RV, to stay in the RV while the home is being built.

### SITE CHARACTERISTICS

<b>Site Size:</b>	34,042.00 Square Feet
<b>Surrounding Zoning &amp; Land Uses:</b>	North: RIC (Residential) South: ROW / RIC (Residential) East: RIC (Residential) West: AG (Agricultural)
<b>Current Zoning:</b>	RIC (Residential)
<b>Future Land Use Map Designation:</b>	Residential

### UTILITIES REVIEW

The Hernando County Utilities Department does not currently supply water or wastewater service to this parcel. Water and wastewater service are not available to this parcel. HCUD has no objection to allow a temporary RV (recreational vehicle) on the parcel while a home is being built. Subject to Health Department approval of an appropriate Onsite Sewage Treatment and Disposal System.

### LAND USE REVIEW

Minimum Building Setbacks Required in the RIC (Residential) District:

- Front: 25'
- Side: 10'
- Rear: 20'

A conditional use permit is intended to be used as a special permit which temporarily allows uses not otherwise permitted by the ordinance. The Commission can grant a conditional use permit for a period up to two years if they determine that a hardship exists.

#### **NOTICE OF APPLICANT RESPONSIBILITY**

*The conditional use permit process is a land use determination and does not constitute a permit for either construction, or use of, the property, or a Certificate of Concurrency. Prior to use of, or construction on, the property, the petitioner must receive approval from the appropriate County department(s) for the proposed use.*

*The granting of this land use determination does not protect the owner from civil liability for recorded deed restrictions which may exceed any county land use ordinances. Homeowner associations or architectural review committees require submission of plans for review and approval. The applicant for this land use request should contact the local association or the Public Records for all restrictions applicable to this property.*

#### **STAFF RECOMMENDATION:**

It is recommended that the Planning and Zoning Commission determine whether a hardship exists; if such a determination is made, the Planning & Zoning Commission may approve the request for a Conditional Use Permit for Second Residence for a Temporary Security Residence for a period of up to One (1) year with the following performance conditions:

1. The petitioner must obtain all permits from Hernando County and other applicable agencies and meet all applicable land development regulations, for either construction or use of the property, and complete all applicable development review processes.
2. The proposed RV shall meet the setbacks of the R1C (Residential) zoning district.  
Front: 25'  
Side: 10'  
Rear: 20'
3. The applicant shall coordinate with the Florida Department of Health for any septic system upgrades.
4. The Conditional Use Permit shall expire on May 8, 2024.

# **Project Narrative for Weekend Farmers Market at the Adventure Coast Fun Park**

## **9227 County Line Rd**

## **Spring Hill FL, 34608**

### **Introduction**

This project proposes the establishment of a vibrant and inclusive farmers market that will operate on weekends, offering a diverse range of products and fostering community engagement. The market aims to provide a platform for local farmers, artisans, and small businesses to showcase their goods while promoting sustainable practices, supporting the local economy, and creating a welcoming space for residents and visitors alike.

### **Project Goals**

The primary objectives of the farmers market are:

1. **Community Building:** Create a gathering place that fosters connections among local residents, vendors, and visitors.
2. **Economic Opportunity:** Support small-scale businesses providing them with a cost-effective venue to sell and market their products directly to consumers.
3. **Sustainability:** Encourage environmentally responsible practices by promoting locally sourced, seasonal, and eco-friendly products.
4. **Diversity of Offerings:** Cater to a wide audience by featuring a broad spectrum of goods.

### **Market Features**

1. **Location:** The market will be centrally located in an accessible outdoor venue, Adventure Coast Fun Park 9227 County Line Rd Spring Hill FL 34608 ensuring convenience for vendors and visitors.
2. **Vendor Variety:** The market will feature a mix of family friendly vendors selling such as but not limited to:
  - Fresh fruits, vegetables, and herbs
  - Artisanal bread, cheeses, and baked goods.
  - Garage sale items.
    - Swap meet items
  - Pet Items
  - Handmade crafts, jewelry, and home decor.
  - Plants, flowers, and gardening supplies.
  - Prepared foods and beverages, including coffee, smoothies, and local delicacies.

And more...

3. **Community Activities:** Beyond shopping, the market will host activities such as live music, Car Meets, and children's activities in the fun park like miniature golf, video game room, batting cages and Go-Carts to enhance the overall experience.
4. **Infrastructure:** The site will include vendor stalls, shaded seating areas and signage for easy navigation.
5. **Signage Promoting Weekend Farmer Market** which also includes signs for designated parking from entrance to the exit.

### **Operational Plan**

The market will operate on Saturdays and Sundays, from 9 AM to 3 PM, aligning with peak times for community engagement. A market manager will oversee operations, including vendor selection, space allocation, and compliance with health and safety regulations. Vendors will pay a nominal fee for stall rental, which will help cover operational costs.

### **Benefits**

1. **For the Community:** Access to fresh, high-quality products, a stronger sense of belonging, and opportunities for education about sustainability and local agriculture.
2. **For Vendors:** Increased visibility, direct sales opportunities, and networking with other small businesses.
3. **For the Local Economy:** Increased circulation of money within the community and attraction of visitors to the area.

### **Conclusion**

The weekend farmers market is more than just a place to shop; it is a dynamic community hub that celebrates local culture, nurtures small businesses, and promotes sustainable living. By establishing this market, we aim to create a long-lasting positive impact on the community and its economy while offering an enjoyable and enriching experience for all participants.

Thank you for your time,  
TJ Lombardo  
727-418-1711

## STAFF REPORT

---

<b>HEARINGS:</b>	Planning & Zoning Commission: July 14, 2025
<b>APPLICANT:</b>	Robert Grange
<b>FILE NUMBER:</b>	SE-25-02
<b>REQUEST:</b>	Special Exception Use Permit for a Farmers Market
<b>GENERAL LOCATION:</b>	North of County Line Road, west of Peach Tree Drive, approximately 360' from the intersection of Peach Tree Drive and County Line Road.
<b>PARCEL KEY NUMBER:</b>	01150765

---

### APPLICANT'S REQUEST

The petitioner is requesting a Special Exception Use Permit approval to establish a weekend only farmers' market. The proposed will feature a diverse selection of products and serve as a platform for local farmers, artisans, and small businesses to showcase their goods. The market will feature a variety of family friendly vendors offering a broad range of items including but not limited to, pet items, crafts, plants, prepared food, and swap meet goods. The site will include designated vendor stalls, shaded seating areas, and clearly marked signage to ensure easy navigation for all visitors.

The proposed market will be centrally located at an accessible outdoor venue at 9227 County Line Road. In addition to the farmers market, the site will host a variety of complementary activities, including live music, car meets, and family-friendly attractions within the on-site fun park. Planned amenities include miniature golf, a video game room, batting cages, and go-kart facilities.

During market hours, Saturday and Sunday from 9:00 a.m. to 3:00 p.m., a market manager will be on site to oversee operations, including vendor selection, space allocation, and compliance with health and safety regulations.

Based on the potential traffic concerns and lack of historical data for this type of use, staff is recommending converting the application to a Conditional Use Permit with an expiration date of one year after approval.

**Future Land Use  
Map Designation:** Residential

## UTILITIES REVIEW

The Hernando County Utilities Department (HCUD) does not currently supply water or sewer service to this parcel. Water and sewer service are not available to this parcel. There is a sewer force main that runs along County Line Road. HCUD has no objection to the requested Special Exception use permit to allow a farmers' market on the property, subject to Health Department approval of any upgrades to the onsite sewage treatment and disposal system that may be necessary.

**Comments:** The parcel shall be subject to Health Department approval of any upgrades that may be required for the existing onsite sewage treatment and disposal system.

## ENGINEERING REVIEW

The site is located north of County Line Road, west of Peach Tree Drive, approximately 360' from the intersection of Peach Tree Drive and County Line Road. The Engineering Department has conducted a preliminary review of the request and indicated the following:

- This project lies within the Spring Hill Lakes watershed, lying within basin G0790. The base flood elevation is 33.5'.
- The stacking of vehicles on County Line Road is not permitted. An alternative queueing analysis and plan will need to be completed to prevent backup onto County Line Road.
- The 120' x 300' area to the North of the vendor area proposed for the parking of 250 Cars may be a designated drainage detention/retention area.
- The petitioner shall meet the Hernando County Facility Design Guideline requirements for drainage retention.
- The petitioner may be required to obtain a Southwest Florida Water Management District Environmental Resource Permit.

**Comments:** The petitioner addressed the queueing and stacking concerns with the Department of Public Works and submitted a revised site plan. The County Engineer is conceptually in agreement with the proposed traffic movement and recommends a one-year approval. The one-year approval will provide the project with an opportunity to demonstrate that it does not have any adverse impact on the surrounding traffic network, particularly in terms of stacking on County Line Road. The project will be reevaluated at the end of a one-year period. If all requirements are met and the project presents no concerns, approval of a Special Exception may be granted.

**LAND USE REVIEW****Perimeter Setbacks**

- Front: 75'
- Side: 25'
- Rear: 25'

**Comments:** All additional structures erected on the site shall comply with existing setback requirements.

**Landscaping:**

The petitioner must meet the minimum requirements of Florida Friendly Landscaping™ publications for design techniques, principles, materials, and plantings for required landscaping.

**Buffers**

The petitioner has indicated that they will be adding a 10' vegetive buffer around the perimeter of the parcel. Existing vegetation will be utilized as much as possible.

**Lighting**

County Land Development Regulations (LDRs) require lighting that enhances the visual impact of the project on the community and to specifically address lighting intensity levels and glare accordingly. Commercial buildings and projects shall be designed to provide safe, convenient and efficient lighting for pedestrians and vehicles.

**Comments:** The petitioner has not indicated any provisions for lighting of the subject property. If approved, the petitioner should be required to provide full cutoff fixtures and retain all light on-site and prevent any light spillage onto neighboring residential uses.

**COMPREHENSIVE PLAN REVIEW:**

**Objective 1.04B:** The Residential Category allows primarily single family, duplex, resort and multi-family housing and associated ancillary uses such as recreational and institutional. Office and certain commercial uses may be allowed subject to the locational criteria and performance standards of this Plan. Residential density shall not exceed 22 dwelling units per gross acre.

**Strategy 1.04B(1):** Commercial and institutional uses within the Residential Category are generally associated with medium and high density residential development and may include neighborhood commercial, office professional, recreational, schools, and hospitals. Minor public facilities that do not unduly disturb the peaceful enjoyment of residential uses may also be allowed.

**FINDINGS OF FACT:**

The proposed use is allowable and consistent with the Comprehensive Plan. A Special Exception request is inappropriate due to insufficient historical data for the specified use and

potential traffic concerns. Staff recommends that the request be converted to a Conditional Use Permit, with an expiration date set one year from the date of approval.

## NOTICE OF APPLICANT RESPONSIBILITY

*The special exception process is a land use determination and does not constitute a permit for either construction on, or use of, the property, or a Certificate of Concurrence. Prior to use of, or construction on, the property, the petitioner must receive approval from the appropriate County department(s) for the proposed use.*

*The granting of this land use determination does not protect the owner from civil liability for recorded deed restrictions which may exceed any county land use ordinances. Homeowner associations or architectural review committees require submission of plans for review and approval. The applicant for this land use request should contact the local association or the Public Records for all restrictions applicable to this property.*

## STAFF RECOMMENDATION:

It is recommended that the Planning and Zoning Commission convert the Special Exception request to a Conditional Use Permit request based upon the need for future evaluation by the County Engineer to determine traffic impacts with the following conditions:

1. The petitioner must obtain all permits from Hernando County and other applicable agencies and meet all applicable land development regulations, for either construction or use of the property, and complete all applicable development review processes.
2. The 120' x 300' area to the north of the vendor area proposed for the parking of 250 Cars may be a designated drainage detention/retention area. Parking requirements and design shall meet current County Land Development Regulations (LDRs)
3. The petitioner shall meet the Hernando County Facility Design Guideline requirements for drainage retention.
4. The petitioner may be required to obtain a Southwest Florida Water Management District Environmental Resource Permit.
5. The petitioner shall be required to submit a commercial development permit prior to any activity on the site.
6. The parcel shall be subject to Health Department approval of any upgrades that may be required for the existing onsite sewage treatment and disposal system.
7. Minimum Building Setbacks:
  - Front: 75'
  - Side: 25'
  - Rear: 25'
8. The Conditional Use Permit shall be valid until July 14, 2026. At such time, the petitioner shall coordinate with the Department of Public Works to determine the impact of the uses on site. Based on Department of Public Works analysts the petitioner may be permitted to apply for a Special Exception.

Hi TJ,

Reviewed the attached revised site plan with the Director of Public Works, County Engineer- Scott Herring today and are conceptually OK with this traffic movement, would like to approve for a 1-year basis -so that project can demonstrate there are no adverse impacts to the surrounding traffic network (especially stacking on County Line Rd. ) then reevaluate and if no issues have come about approve the Special Exception.

A Special Exception runs with the Land. A Conditional Use Permit is for a specific use with conditions. Please reach out to Michelle Miller, Planning Dept.(copied on this email) to convert to a Conditional Use Permit, she can also assist with any questions on the process you may have.

If you have any traffic operational questions please reach out to Dept. of Public Works Engineering. Thank you.

## AGENDA ITEM

---

---

### TITLE

Special Exception Use Permit Petition Submitted by Aliviya Rose Manor LLC (SE2505)

### BRIEF OVERVIEW

#### Request:

Special Exception Use Permit for an Assisted Living Facility

#### General Location:

Bounded by Fayson Lane, Arrendonda Avenue and Chippendale Street approximately 670 feet South of Spring Hill Drive

### FINANCIAL IMPACT

A matter of policy. There is no financial impact.

### LEGAL NOTE

The Planning and Zoning Commission has jurisdiction over the subject application; the Commission has the ability to approve special exceptions with appropriate conditions and safeguards or deny special exceptions not in harmony with the Land Development Regulations. The Applicable Criteria for a special exception are contained in Appendix A, (Zoning Code) Article V, Section 8. The Special Exception must be consistent with the Comprehensive Plan.

### RECOMMENDATION

It is recommended that the Planning and Zoning Commission approve the petitioner's request for a Special Exception Use Permit for an Assisted Living Facility, with performance conditions.

### REVIEW PROCESS

**PRINT FORM**

**CLEAR FORM**

Notary Seal/Stamp

This proposal seeks zoning approval for the development of a 14 bed assisted living home on a currently vacant parcel of land. The intended use aligns with community needs for residential care facilities and is designed to be consistent with applicable zoning ordinances governing residential health care and group living arrangements.

RECEIVED

JUN 04 2025

Hernando County Development Services  
Zoning Division

**Intended Use:**

The proposed project involves the construction of a single-story assisted living home, licensed to accommodate up to 14 residents. This home will provide non-institutional, long-term residential care for seniors who require assistance with daily activities but do not need full-time skilled nursing care.

**Zoning Considerations:**

We respectfully request that the proposed use be reviewed and approved under the applicable zoning category for residential care facilities or similar group housing. The development is intended to operate within the scope of a Residential Care Home/Facility classification and will comply with all density, setback, height, and parking requirements as outlined in local ordinances.

**Site and Design Overview:**

- The home will house a maximum of 14 residents in private or semi-private rooms.
- The design mimics traditional residential architecture to blend into the surrounding community and avoid institutional appearance.
- The building will include common living and dining areas, ADA-compliant restrooms, caregiver space, and a full-service kitchen.
- Outdoor green space, walking paths, and sitting areas will be incorporated to promote resident wellness.
- Driveways and parking areas will be designed to accommodate staff, visitors, and emergency access.
- Buffer zones and landscaping will be installed to minimize impact on neighboring properties.

**Public Interest and Compatibility:**

This development addresses a critical community need by expanding local capacity for elder care in a setting that promotes dignity, safety, and social connection. The project is

intentionally low-impact, with 24/7 supervision, minimal traffic generation, and no commercial signage, maintaining the quiet character of the area.

**Licensing and Operational Oversight:**

The home will be licensed in accordance with state and local regulations for assisted living facilities, including building codes, zoning requirements, fire safety standards, and healthcare licensing.

Operations will be overseen by experienced administrators, with a staffing model that supports individualized care and emergency preparedness.

RECEIVED

JUN 04 2025

Hernando County Development Services  
Zoning Division

**Request:**

We are requesting a zoning determination or approval to permit the use of the vacant land for a 14 -bed assisted living home. We are prepared to provide site plans, traffic analysis, drainage studies, and any other documentation necessary for review.

**Conclusion:**

We believe this proposed development is an appropriate and beneficial use of the property that is consistent with the city's planning goals and zoning framework. We respectfully seek the department's support and guidance to move forward with this important project.

## STAFF REPORT

---

**HEARINGS:** Planning & Zoning Commission: July 14, 2025

**APPLICANT:** Aliviya Rose Manor LLC

**FILE NUMBER:** SE-25-05

**PURPOSE:** Special Exception Use Permit for an Assisted Living Facility

**GENERAL LOCATION:** Bounded by Fayson Lane, Arrendonda Avenue and Chippendale Street approximately 670 feet South of Spring Hill Drive.

**PARCEL KEY NUMBER:** 00417301

---

### APPLICANT'S REQUEST:

The petitioner is requesting a Special Exception Use Permit to establish an Assisted Living Facility. The proposal includes the construction of a one-story, 6,000-square-foot single-family residence designed to accommodate up to fourteen (14) residents in private or semi-private rooms. The facility will feature a common living room, dining area, ADA-compliant restrooms, caregiver accommodations, and a full-service kitchen. Outdoor amenities such as green space, walking paths, and sitting areas will be incorporated to support resident wellness. Parking requirements are based on a ratio of 0.3 spaces per bed, resulting in a total of four (4) required parking spaces, in addition to one (1) ADA-accessible parking space. The subject parcel was rezoned in 2021 under application H-21-62, changing its designation from PDP(REC) – Planned Development Project (Recreation) to PDP(SF) – Planned Development Project (Single Family). The rezoning allowed for the development of 12 single-family homes on the 7.5-acre site. The parcel was originally designated as a park site in the Spring Hill Master Plan and includes an existing drainage retention area (DRA).

### SITE CHARACTERISTICS:

**Site Size:** 7.5 acres

**Surrounding Zoning;  
Land Uses:**

**North:** PDP(SF)/Planned Development Project (Single Family): Developed

**South:** PDP(SF)/ Planned Development Project (Single Family): Developed

**East:** PDP(SF)/ Planned Development Project (Single Family): Developed

**West:** PDP(SF)/ Planned Development Project (Single Family): Developed

**Current Zoning:** PDP(SF)/ Planned Development Project (Single Family)

**Future Land Use****Map Designation:** Residential**Flood Zone:** X (Existing DRA)**UTILITIES REVIEW:**

Hernando County Utilities Department (HCUD) does not currently supply water or wastewater service to this parcel. Water service is available to this parcel. Wastewater service is not currently available. HCUD has no objection to the requested special exemption to allow a 14-bed assisted living home on the parcel, subject to connection to the central water system and Health Department approval of any proposed Onsite Sewage Treatment and Disposal System at time of site development, Parcel Key# 417301.

**ENGINEERING REVIEW:**

The subject site is bounded by Fayson LN, Arrendonda Ave and Chippendale St approximately 670 feet South of Spring Hill Dr. This project lies within the Pithlachascotee watershed. This property contains an area of flood Zone "A". The Base flood elevation (BFE) is 59.446 feet in the North American Vertical Datum of 1988 (NAVD 88) per Flood Insurance Rate Map (FIRM) Panel 12101C0075F effective 9/26/2014.

At the time of development, the parking and driveway designs will need to meet County standards. Additionally, handicap parking shall be required.

**LAND USE REVIEW:**

The subject parcel was rezoned under application H-21-62 in 2021, changing its designation from PDP(REC) – Planned Development Project (Recreation) to PDP(SF) – Planned Development Project (Single Family) to allow for the construction of 12 single-family homes. The parcel was originally identified as a park site in the Spring Hill Master Plan. A shared drainage retention area (DRA) currently exists on the property and will remain functional.

In accordance with County LDRs- Land Development Regulations, if a developer fails to obtain a building permit for the vertical construction of the principal or primary building within a period of not more than two (2) years from the approval date or the special exception use is not established during this period, then the special exception use permit shall be null and void.

**MINIMUM BUILDING SETBACKS:**

- Front (Chippendale St): 25'
- Side(west): 10'
- Side (Arrendibda Ave): 15'
- Rear (Fayson Ln): 20'

**PARKING**

The minimum land development regulations (LDRs) would require 0.3 parking spaces per bed based on maximum occupancy. The LDRs indicate that an Assisted Living Facility may have up to fifty percent of the required parking spaces (including aisles) surfaced with grass, lawn or other materials as designated in the County parking lot standards; however, if parking demand is such that said grass, lawn or other material is caused to be damaged or destroyed to the extent that said grass or lawn ceases to grow, or the other material otherwise causes a nuisance to the neighborhood, then paving may be required by the Zoning Administrator

**Comments:** Parking requirements are calculated for an Assisted Living Facility at a rate of 0.3 spaces per bed with a maximum of 14 beds. This will require 4 parking spaces.

**LIGHTING**

The petitioner has not indicated any provisions for lighting of the subject property. If approved, the petitioner must provide full cutoff fixtures to retain all light on-site and prevent any light spillage onto neighboring residential uses.

**BUFFERS:**

Per BOCC action in rezoning file H-21-62, A 5' natural vegetated buffer enhanced to 80% opacity shall be constructed along the north boundary of the property adjacent to existing residential lots.

**COMPREHENSIVE PLAN REVIEW:**

The subject property is located within the Residential Future Land Use classification on the adopted Future Land Use map. The Hernando County 2040 Comprehensive Growth Strategy Plan provides the principles for guiding land development activities in the County and describes the related programs and strategies that provide the overall guidance for implementing the Plan.

Residential Category of the adopted Comprehensive Plan states:

**Objective 1.04B** The Residential Category allows primarily single family, duplex, resort, multi-family housing and associated ancillary uses such as recreational and institutional. Office and certain commercial uses may be allowed subject to the locational criteria and performance standards of this Plan. Residential density shall not exceed 22 dwelling units per gross acre.

**Strategy 1.04B(1)** Commercial and institutional uses within the Residential Category are generally associated with medium and high-density residential development and may include neighborhood commercial, office professional, recreational, schools, and hospitals. Minor public facilities that do not unduly disturb the peaceful enjoyment of residential use may also be allowed.

**Comments:** An Assisted Living Facility is permitted in all zoning districts as a special exception use.

**FINDINGS OF FACT:**

1. A Special Exception Use Permit for an Assisted Living Facility is appropriate based on consistency with the Comprehensive Plan and compatibility with the surrounding areas and subject to appropriate performance conditions.
2. The proposed project shall require a commercial review.

**NOTICE OF APPLICANT RESPONSIBILITY:**

*The special exception process is a land use determination and does not constitute a permit for either construction on, or use of, the property, or a Certificate of Concurrence. Prior to use of, or construction on, the property, the petitioner must receive approval from the appropriate County department(s) for the proposed use.*

*The granting of this land use determination does not protect the owner from civil liability for recorded deed restrictions which may exceed any county land use ordinances. Homeowners' associations or architectural review committees require submission of plans for review and approval. The applicant for this land use request should contact the local association or the Public Records for all restrictions applicable to this property.*

**STAFF RECOMMENDATIONS:**

It is recommended that the Planning and Zoning Commission approve the petitioner's request for a Special Exception Use Permit for an Assisted Living Facility, with the following performance conditions:

1. The petitioner shall obtain all permits from Hernando County and other applicable regulatory agencies and meet all applicable land development regulations, for either construction or use of the property, and complete all applicable development review processes.
2. The proposed project shall require a commercial review.
3. Minimum Building Setbacks:
  - Front (Chippendale St): 25'
  - Side(west): 10'
  - Side (Arrendibda Ave): 15'
  - Rear (Fayson Ln): 20'
4. The parking and driveway designs will need to meet County standards.
5. Handicap parking is required.
6. Parking requirements are calculated for an Assisted Living Facility at a rate of 0.3 spaces per bed with a maximum of 14 beds. This will require 4 parking spaces.

7. The petitioner shall be required to connect to the central water system and coordinate with the Health Department with approval of any proposed Onsite Sewage Treatment and Disposal System at time of site development.
8. The petitioner shall provide full cutoff fixtures, in order to retain all light on-site and prevent any light spillage onto neighboring residential uses.
9. Per BOCC action in rezoning file H-21-62, A 5' natural vegetated buffer enhanced to 80% opacity shall be constructed along the north boundary of the property adjacent to existing residential lots.
10. The site shall be developed in accordance with the site plan as provided by the applicant and attached to this application.
11. Any additional development on the site above and beyond the Assisted Living Facility shall require an amendment to the Special Exception.
12. If the petitioner fails to obtain a building permit for the vertical construction of the principal or primary building within a period of not more than two (2) years from the approval date or the special exception use is not established during this period, then the special exception use permit shall be null and void.

**CAUTION:** This email originated from outside the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

**Dear Hernando County Planning Department,**

**I am writing to formally oppose the Special Exception Use Permit (File Number: SE25-05) requested by Aliviya Rose Manor LLC for the construction of an Assisted Living Facility near Fayson Lane, Arrendonda Avenue, and Chippendale Street.**

**As a resident of this community, I believe this proposal is incompatible with our quiet, single-family neighborhood. The increased traffic from staff, medical providers, emergency services, deliveries, and visitors would create serious safety risks for children, seniors, and pedestrians. The additional noise, lighting, and infrastructure demands would significantly disrupt the peaceful environment we rely on.**

**I respectfully urge the Planning and Zoning Commission to deny the application due to these valid concerns regarding safety, compatibility, and quality of life for existing residents.**

**Please include this letter in the official public record.**

**Sincerely,  
Desiree Jones  
2296 Fayson Ln, Spring Hill, FL, 34609

**Subject:** Opposition to Proposed Assisted Living Facility on Fayson Lane & Arrendonda

**CAUTION:** This email originated from outside the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good afternoon,

I am writing as a concerned resident of 14004 Chippendale Street, Spring Hill, FL 34609, regarding the proposed construction of an assisted living facility at Fayson La., Arrendonda Ave. and Chippendale St.. I respectfully urge the zoning board to reconsider approval of this development.

While I fully support the need for quality elder care in our community, this location raises significant concerns for me and many of my neighbors. Our objections include:

**Traffic Safety:** increased traffic from staff, visitors, service vehicles would create congestion on already busy streets and pose safety risks for pedestrians, especially children and seniors.

**Neighborhood Character:** The scale and nature of the facility are not compatible with the surrounding single-family residential homes and would drastically alter the character of our community.

**Environmental Impact:** Construction and long-term operation may affect local green spaces, increase noise, and strain utilities and infrastructure not designed for such a facility. In addition, there are turtles which have their homes on that property.

Property Values: An assisted living facility often leads to decline in nearby residential property values, a concern for many homeowners in the area. Residents in the area have worked very hard to keep their home values up and for some it's their only asset.

I ask that the zoning board consider alternative locations suitable for this type of development and consider the strong concerns of local residents.

Thank you for your attention and service to our community.

Sincerely  
Denise Rivera-Sanchez

## Planning & Zoning Commission

### Regular Meeting

### Minutes

---

June 9, 2025

---

### CALL TO ORDER

The public meeting was called to order at 9:00 a.m. on Monday, June 9, 2025, in the John Law Ayers Room, Government Center, Brooksville, Florida. This meeting was advertised in the Hernando Sun newspaper and the agenda packet was available on-line at [www.hernandocounty.us](http://www.hernandocounty.us).

<b><u>Attendee Name</u></b>	<b><u>Title</u></b>
Kathryn Birren	Chairwoman
Axl David	Vice Chairman
Nicholas Holmes	Regular Member
Justin Noe	Regular Member
Mike Fulford	Alternate Member
Victoria Anderson	Assistant County Attorney
Omar DePablo	Development Services Director
Kay Griffith	Planning Manager
Michelle Miller	Planner III
Scott Herring	Public Works Director/County Engineer
Scott Rimby	Utilities Development Services Supervisor
Danielle Nigro	Planning and Zoning Operations Manager

### Invocation

### Pledge of Allegiance

### Poll Commission for Ex Parte Communications

Chairwoman Birren and Member Fulford announced that they had had no ex parte communications concerning the quasi-judicial petitions being considered at this meeting.

Members David, Holmes and Noe announced that they had had ex parte communications concerning the quasi-judicial petitions being considered at this meeting.

### County Attorney Statement

Assistant County Attorney Victoria advised the Commissioners that any ex parte communications, however received, could play no part in their deliberations.

### Administering of the Oath

## STAFF ANNOUNCEMENTS

Planner Michelle Miller announced that there was a scrivener's error in the Agenda, and that the Master Plan for Item No. F-1 [Rezoning Petition Submitted by Southern Valley Homes, LLC (H2471)] was incorrect and provided copies to the Board. It was also announced that the Agenda was republished to add Item No. E-2 [CP 1481235 Nichols Property & CP 1491895 Oakview Woods (Nichols) Phase II].

## APPROVAL/MODIFICATION OF AGENDA

Item Nos. E-3 [CP 1490027 Emerald Creek Phase 2] and E-6 [Approval of Meeting Minutes of May 12 2025] were moved to the Standard Agenda.

### Motion

To approve the Agenda with changes.

<b>RESULT:</b>	<b>ADOPTED</b>
<b>SECONDER:</b>	Justin Noe
<b>AYES:</b>	Birren, David, Holmes, Fulford and Noe
<b>ABSENT:</b>	McDonald

## ADOPTION OF THE INFORMATION PACKETS INTO EVIDENCE

### Motion

To adopt the packet into evidence.

<b>RESULT:</b>	<b>ADOPTED</b>
<b>SECONDER:</b>	Nicholas Holmes
<b>AYES:</b>	Birren, David, Holmes, Fulford and Noe
<b>ABSENT:</b>	McDonald

## PUBLIC HEARINGS

### UNIFIED AGENDA

**CP 1484172 Lake Hideaway Phase 1 Pods E, F, G, & H**

**CP 1481235 Nichols Property & CP 1491895 Oakview Woods (Nichols) Ph II Property**

**CP 1490027 Emerald Creek Phase 2**

This item was pulled moved to the Standard Agenda during approval of the Agenda.

**CP 1487494 Somerset Bay Phase 2 Subdivision**

**CP 1469207 Spring Hill Multi-Commercial Development**

**Approval of Minutes for Regular Meeting of May 12, 2025**

This item was pulled moved to the Standard Agenda during approval of the Agenda.

**Motion**

To approve the Unified Agenda.

<b>RESULT:</b>	<b>ADOPTED</b>
<b>MOVER:</b>	Nicholas Holmes
<b>SECONDER:</b>	Justin Noe
<b>AYES:</b>	Birren, David, Holmes, Fulford and Noe
<b>ABSENT:</b>	McDonald

**STANDARD AGENDA****CP 1490027 Emerald Creek Phase 2****Motion**

To approve staff recommendation.

<b>RESULT:</b>	<b>ADOPTED</b>
<b>MOVER:</b>	Nicholas Holmes
<b>SECONDER:</b>	Justin Noe
<b>AYES:</b>	Birren, David, Holmes, Fulford and Noe
<b>ABSENT:</b>	McDonald

**Approval of Minutes for Regular Meeting of May 12 2025****Motion**

To approve with modifications.

<b>RESULT:</b>	<b>ADOPTED</b>
<b>MOVER:</b>	Justin Noe
<b>SECONDER:</b>	Nicholas Holmes
<b>AYES:</b>	Birren, David, Holmes, Fulford and Noe
<b>ABSENT:</b>	McDonald

**Rezoning Petition Submitted by Southern Valley Homes, LLC (H2471)**

The Board accepted public input on this matter.

**Motion**

To approve with modified conditions as approved by the Planning Department.

**RESULT: ADOPTED**  
**MOVER:** Mike Fulford  
**SECONDER:** Justin Noe  
**AYES:** Birren, David, Holmes, Fulford and Noe  
**ABSENT:** McDonald

#### **Rezoning Petition Submitted by Arsany 66th Street, LLC (H2501)**

The Board accepted public input on this matter.

#### **Motion**

To approve staff recommendation.

**RESULT: ADOPTED**  
**MOVER:** Justin Noe  
**SECONDER:** Nicholas Holmes  
**AYES:** David, Holmes and Noe  
**NAYES:** Birren and Fulford  
**ABSENT:** McDonald

### **RECESS/RECONVENE**

The Board recessed at 1:30 p.m. and reconvened at 1:45 p.m.

#### **Rezoning Petition Submitted by Sunny Pines of Hernando LLC (H2507)**

The Board accepted public input on this matter.

#### **Motion**

To approve with modifications as presented.

**RESULT: DEFEATED**  
**MOVER:** Mike Fulford  
**SECONDER:** Nicholas Holmes  
**AYES:** Holmes and Fulford  
**NAYES:** Birren, David and Noe  
**ABSENT:** McDonald

#### **Motion**

To approve with modified conditions as approved by the Planning Department.

**RESULT: ADOPTED**  
**SECONDER:** Justin Noe  
**AYES:** Birren, David, Holmes, Fulford and Noe  
**ABSENT:** McDonald

**RECESS/RECONVENE**

The Board recessed at 10:30 a.m. and reconvened at 10:45 a.m.

**Rezoning Petition Submitted by Lance Lowery (H2481)**

There was no public input.

**Motion**

To approve staff recommendation.

<b>RESULT:</b>	<b>ADOPTED</b>
<b>MOVER:</b>	Axl David
<b>SECONDER:</b>	Justin Noe
<b>AYES:</b>	Birren, David, Holmes, Fulford and Noe
<b>ABSENT:</b>	McDonald

**Rezoning Petition Submitted by Meridien Development LLC Mark Keschl (H2482)**

The Board accepted public input on this matter.

Chairwoman Birren passed the gavel to Vice Chairman David and temporarily left the meeting, and upon returning shortly thereafter, she resumed the chairwomanship.

Member Fulford temporarily left the meeting and returned shortly thereafter.

**Motion**

To approve with modified conditions as approved by the Planning Department.

<b>RESULT:</b>	<b>ADOPTED</b>
<b>MOVER:</b>	Nicholas Holmes
<b>SECONDER:</b>	Justin Noe
<b>AYES:</b>	Birren, Holmes and Noe
<b>NAYES:</b>	David and Fulford
<b>ABSENT:</b>	McDonald

**RECESS/RECONVENE**

The Board recessed at 3:35 p.m. and reconvened at 3:40 p.m.

**Rezoning Petition Submitted by Alton B. Wingate (H2505)**

There was no public input.

**Motion**

To approve with modified conditions as approved by the Planning Department.

<b>RESULT:</b>	<b>ADOPTED</b>
<b>MOVER:</b>	Axl David
<b>AYES:</b>	Birren, David, Holmes, Fulford and Noe
<b>ABSENT:</b>	McDonald

**Rezoning Petition Submitted by Britton and Kayla Cox (H2511)**

The Board accepted public input on this matter.

**Motion**

To approve staff recommendation.

<b>RESULT:</b>	<b>ADOPTED</b>
<b>MOVER:</b>	Justin Noe
<b>SECONDER:</b>	Axl David
<b>AYES:</b>	Birren, David, Holmes, Fulford and Noe
<b>ABSENT:</b>	McDonald

**Rezoning Petition Submitted by Jorge Sabater (H2512)**

There was no public input.

**Motion**

To approve staff recommendation.

<b>RESULT:</b>	<b>ADOPTED</b>
<b>MOVER:</b>	Justin Noe
<b>AYES:</b>	Birren, David, Holmes, Fulford and Noe
<b>ABSENT:</b>	McDonald

**COMMISSIONERS AND STAFF ISSUES**

There were no staff issues.

**ADJOURNMENT**

The meeting was adjourned at 4:15 p.m.

**UPCOMING MEETINGS**

The next regular meeting of the Planning and Zoning Commission is scheduled for Monday, July 14, 2025, beginning at 9:00 AM, in the Commission Chambers.

## AGENDA ITEM

---

---

### TITLE

PSFOD Petition Submitted by Greater Tampa Bay Area Council Inc. Boy Scouts of America (H2514)

### BRIEF OVERVIEW

#### Request:

Establish a Public Service Facility Overlay District (PSFOD) for an electric utility operations center for Withlacoochee River Electric Cooperative

#### General Location:

South Side of Cortez Boulevard, approximately 1377' west of Hunt Lane (a portion of the Sand Hill Scout Reservation)

### FINANCIAL IMPACT

A matter of policy. There is no financial impact.

### LEGAL NOTE

The Planning and Zoning Commission has jurisdiction to make a recommendation on the subject application. The Applicable Criteria for a Zoning District Amendment are contained in Appendix A, (Zoning Code) Article VI. The applicable Public Service Facility (PSF) Overlay District Standards are contained in Article IV, Section 11. The Zoning District Amendment must be consistent with the Comprehensive Plan.

### RECOMMENDATION

It is recommended that the Planning and Zoning Commission recommend the Board of County Commissioners adopt a resolution approving the petitioner's request to Establish a Public Service Facility Overlay District (PSFOD) for an electric utility operations center with performance conditions

### REVIEW PROCESS

**Zoning Application Narrative**  
**Gulf Ridge Council, Inc. Property**  
**Parcel Key 346708**

**General**

The subject site consists of approximately 52 acres and is located on the south side of Cortez Boulevard (SR 50) opposite Cortez Oaks Subdivision. The property is a portion of Parcel Key 346708 as identified by the Hernando County Property Appraiser. See Figure 1 for the site aerial and property location.

**Figure 1-General Location Aerial**

## Current Zoning and Land Use

The current zoning on the site is AG (Agriculture). Please refer to Figure 2 for the current site zoning.

Figure 2-Curent Zoning

The current land use designation on the site is Recreation. Please refer to Figure 3 for the current land use designation on the site.

Figure 3-Current Land Use

The surrounding zoning, land use and property use is depicted by the following table.

Direction	Zoning	Future Land Use	Property Use
North	CPDP (Combined Planned Development), Commercial and Office (C-1, CDP/OP, C-3)	Commercial; Residential	Waterford Residential, Congregate Care, medical, Oak Hill Hospital
South	AG (Agriculture)	Recreation	Boy Scout Reservation
East	AG (Agriculture)	Recreation	Boy Scout Reservation
West	PDP/MF (Planned Development/Multi-Family), Public Facility	Public Facility; Residential	Power line right of way, vacant

## Request

The request is to change the present zoning from Agriculture (AG) to Public Service Facility Overlay (PSF) to allow a full array of facilities associated with a western county operations center for the Withlacoochee River Electric Cooperative (WREC). The PSF District is designed to allow for, and includes, public service uses and structures consistent with the PSF Approval and may be placed over any underlying zoning district. Uses anticipated on the proposed WREC site will include office, customer service, customer & employee parking, equipment parking, warehouse, a transportation & equipment shop, fuel island and indoor and outdoor storage for equipment and material. A portion of the site will be used as a staging area for emergencies such as hurricanes. Also noted on the proposed master plan is a future substation at the western end of the property, adjacent to the power line easement. While zoning approval for the substation is not required, the proposed site is shown on the master plan for informational purposes.

The property is appropriate for the proposed development in that is located along a major arterial roadway (SR 50), adjacent to a major powerline corridor, has soils conducive for construction and DRAs, has adjacent County sewer and water facilities and will have its primary access at a signalized intersection (SR 50 and Cortez Oaks Blvd.). Direct access to SR 50 from the property is not envisioned and a landscape buffer is proposed along the road frontage. Environmental features along the southern boundary of the site will be

buffered appropriately. There are no adjacent residential developments. The Boy Scout Camp will continue to operate as usual and will share access to the signalized intersection.

### **Consistency with the Comprehensive Plan**

The request is consistent with the following Goals, Objectives and Policies of the Hernando County 2040 Plan.

#### *Future land Use Element*

*Objective 1.04K:* The Public Facilities Category includes major facilities that serve a large portion of the County, the entire County, or that include service areas beyond the County. Examples include landfills, power plants, major or new power easements, and regional potable water and wastewater treatment facilities.

*Strategy 1.04K(1):* Minor public facilities that do not need to be designated with the Public Facilities Category may be allowed in any Future Land Use Map Category. These include local facilities such as wellfields, sewage collection facilities, water distribution facilities, communication towers, public buildings, schools and other governmental or public service structures and uses.

*Strategy 1.04K(2):* The Public Service Facility Zoning Overlay District will be used to evaluate and review all proposed public facilities. Conditions and performance standards may be required through the public facility review process which are binding for purposes of issuance of development orders and permits.

#### *Analysis:*

The proposed use of the property is for a minor public facility use which is allowed in any Future Land Use Category. Minor public facilities include public service buildings and uses which are not regional in nature and are intended to serve the local community. A private utility (WREC) office, customer service and related logistics facility is consistent with the standard classification of a minor public service facility.

### **Dimensional Standards and Buffers**

Article IV, Section 11.B.1 (PSF Public Service Facility Overlay) of Appendix A requires that no building or use with a PSF Overlay be located within 50 feet of the property line of an adjoining parcel containing a residence or residentially zoned parcel. The proposed site meets this requirement as there are no abutting residential uses or zoning.

Article IV, Section 11.D (PSF Public Service Facility Overlay) of Appendix A requires that the development meet the dimension and area regulations of the underlying zoning district in

addition to the criteria stated above. The site is zoned AG (Agriculture and will meet the required dimensional regulations of that district.

Setbacks

Front: 125 feet (SR 50)

Sides: 35 feet

Rear: 50 feet

Building Height: 45 feet

Buffers and Screening

Areas used for outdoor storage will be permanently screened from adjoining properties by a wall, fence and/or approved enclosure. The approved screening shall have a minimum height of five (5) feet and a maximum height of eight (8) feet, or an evergreen hedge with a minimum height of five (5) feet at planting.

The buffers shall consist of the following:

- A five (5) foot vegetative buffer along SR 50 that meets the requirements of the Community Appearance ordinance for commercial projects which states “A vegetative buffer at least five (5) feet in width shall abut the street right-of-way/pavements for at least half of the street right-of-way frontage. If only installed planting areas are used, the vegetative buffer shall include a hedge of shrubs with a minimum height of eighteen (18) inches at time of planting. Shrubs shall be appropriately spaced according to growth needed of the species for the hedge to attain eighty (80) percent opacity within twelve (12) months of planting.”
- A five (5) foot vegetative buffer around the parking lot/pavement that meets the requirements of the Community Appearance ordinance for commercial projects which states in part “the vegetative buffer shall include plants with a minimum height of eighteen (18) inches at time of planting... and a five-foot-wide landscape strip consisting of one (1) tree that is three-inch minimum caliper every twenty-five (25) linear feet.”
- Perimeter buffers will consist of 10 foot wide buffer consisting of natural vegetation supplemented with landscaping where needed.

## Deviations

Article IV, Section 11.D (PSF Public Service Facility Overlay) of Appendix A states in part that "Any reduction of the minimum dimension and area regulations or other development standards ... must be specifically enumerated in the application and would require the approval of a deviation by the board of county commissioners." No deviations are requested in conjunction with this application.

## Site Characteristics

### *Topography*

Topography ranges from a high of 30 feet NAVD in the southeastern boundary of the property to 41 feet NAVD. The topography on the site is indicated by Figure 4.

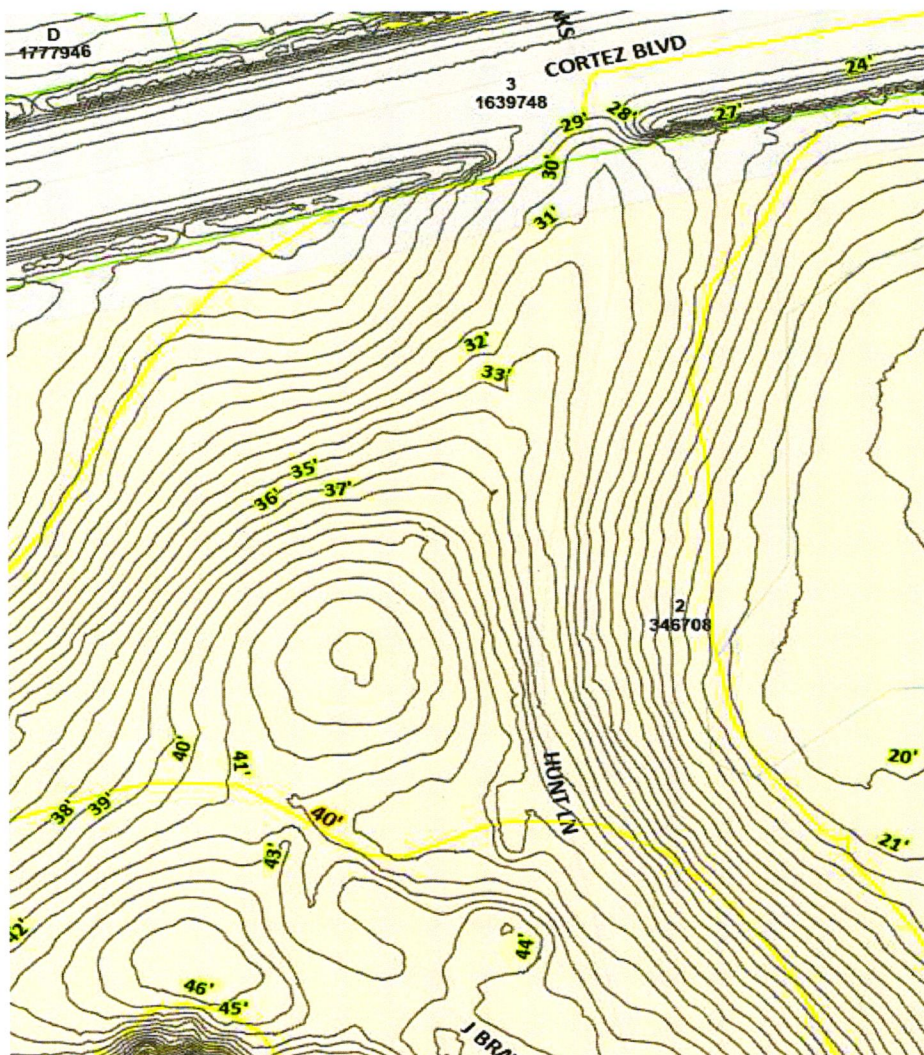

Figure 4-Topography

## Floodplain

Portions of the larger parcel key are located in a FEMA Zone AE as indicated by FEMA Panel 12053C0166D. See Figure 5 for the flood zone information.

Figure 5-Floodplain

## Soils

The site contains Myakka Fine Sand, Candler Fine Sand and Blichton Loamy Fine Sand soil types. See Figure 6 for the soil types located on the site.

Figure 6-Soil Types

## Environmental

A preliminary environmental site visit was conducted on March 3, 2025. The following is a brief summary:

- The subject property is moderately forested with an assemblage of turkey oak, sand live oak, slash pine and long-leaf pine trees.
- The groundcover contains leaf litter, pine straw and various vine species.

- Gopher tortoise burrows were detected; however, their density is low.
- No other state or federally listed species were detected.
- A jurisdictional wetland (karst sink) is located on the southern portion of the site.

All federal, state and local permitting requirements will be complied with.

### **Adequate Access**

The site has access to SR 50, a multilane arterial roadway with an adequate level of service. Access will utilize the existing access to the Boy Scout Reservation (Hunt Lane) which aligns with a traffic signal at Cortez Oaks Boulevard. A transportation and/or access analysis will be provided as required by the County Engineer at the time of site development.

### **Public Facilities**

**Water and Sewer:** The site will be served by the Hernando County Utilities, which has potable water and sewer facilities in close proximity. The developer will conduct a utility capacity analysis as required at the time of site development.

**Solid Waste:** The site will be served by Hernando County.

**Police and Fire:** The site is served by the Hernando County Sheriff's Office for police protection and Hernando for fire/rescue service by Station 12.

**Drainage:** The site will comply with the requirements of the Southwest Florida Water Management District for stormwater and flood prevention.

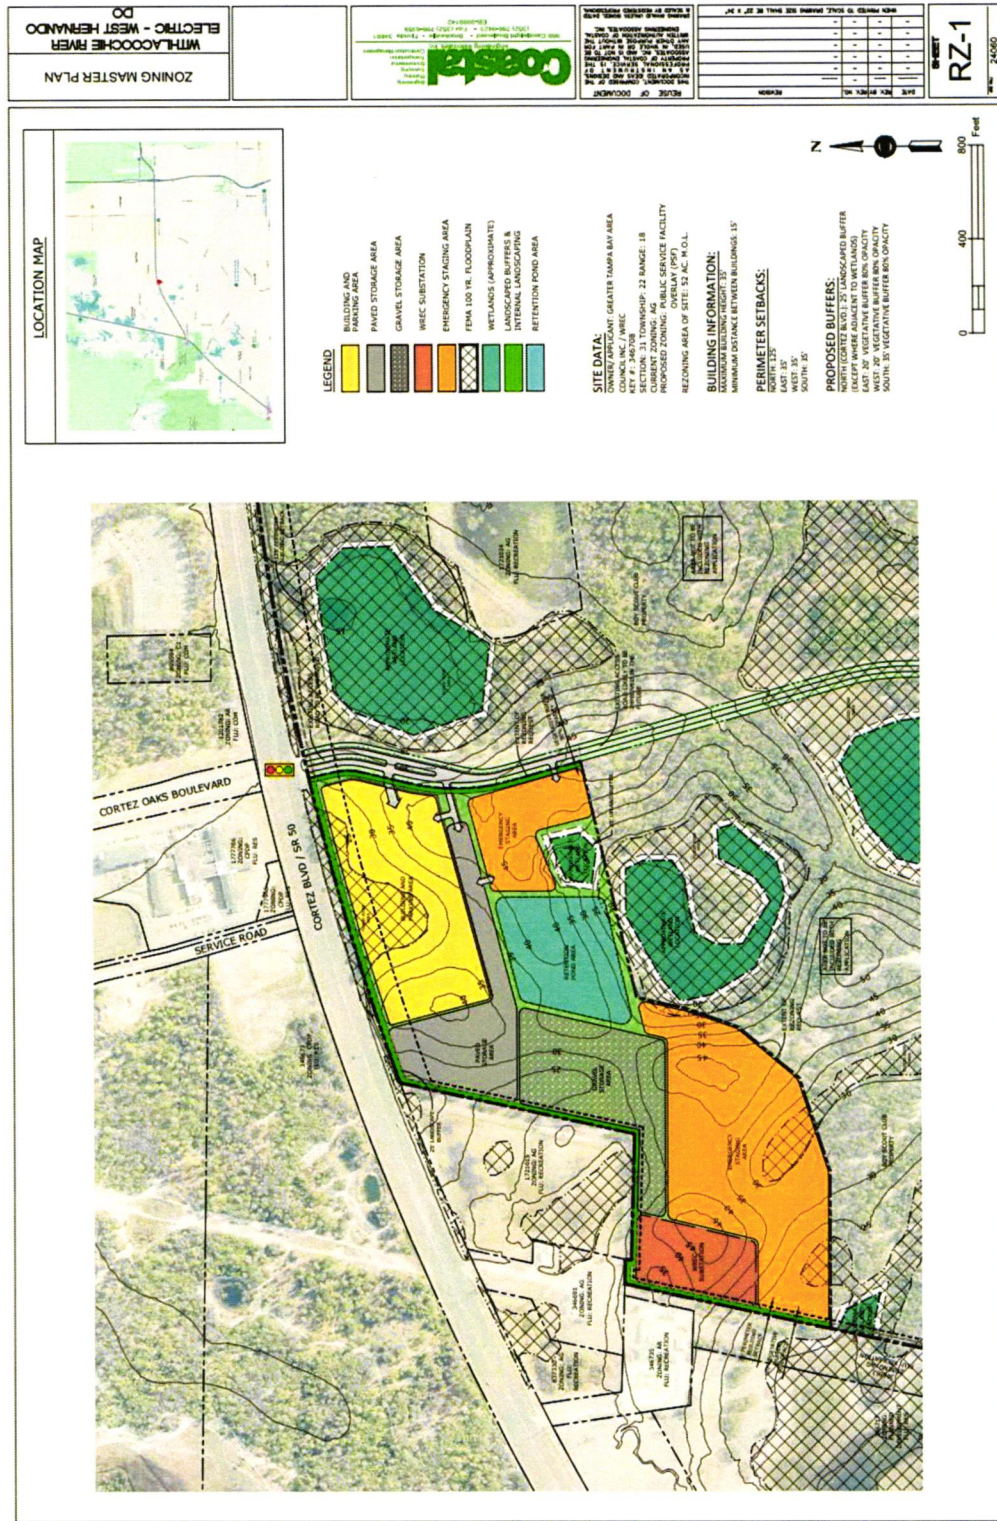

### **Concurrency**

A Certificate of Concurrency will be required at the time development review. The following facilities will be reviewed for adequate capacity:

- Potable Water
- Sanitary Sewer
- Drainage
- Solid Waste Disposal
- Transportation (roadways)

At this time, it is anticipated that adequate capacity will be available to support the project.

Figure 7-Zoning Master Plan

## STAFF REPORT

---

**HEARINGS:** Planning & Zoning Commission: July 14, 2025  
Board of County Commissioners: September 2, 2025

**APPLICANT:** Greater Tampa Bay Area Council Inc. Boy Scouts of America

**FILE NUMBER:** H2514

**REQUEST:** Establish a Public Service Facility Overlay District (PSFOD) for an electric utility operations center for Withlacoochee River Electric Cooperative

**GENERAL LOCATION:** South Side of Cortez Boulevard, approximately 1377' west of Hunt Lane (a portion of the Sand Hill Scout Reservation)

**PARCEL KEY NUMBER(S):** A 52-acre +/- portion of 346708

**PIW DATE:** May 12, 2025

---

### APPLICANT'S REQUEST

The petitioner has submitted a request to establish a Public Service Facility Overlay District for an electric utility operations center, including administrative offices, customer service, customer and employee parking, equipment parking, warehouse, transportation and equipment shop, fuel island, and indoor/outdoor storage for equipment and materials. A portion of the site will be used as a staging area for emergencies, such as hurricanes. The Master Plan also includes a location denoted for a future substation at the western edge of the property, adjacent to the power line easement.

The remainder of the parcel shall remain in the ownership of the Greater Tampa Bay Area Council Inc. Boy Scouts of America and is not included in this application.

### SITE CHARACTERISTICS

**Site Size:** A 52-acre +/- portion of 346708

**Surrounding Zoning; Land Uses:**

North: Combined Planned Development Project with Commercial and Office Uses; Hospital and Residential Uses

South: AG (Agricultural); Existing Boy Scout Reservation

East: AG (Agricultural); Existing Boy Scout Reservation

West: PDP(MF) Planned Development Project (Multifamily) and Public Facility Uses; powerline and vacant

**Current Zoning:** AG

**Future Land Use Map Designation:** Recreation

**ENVIRONMENTAL REVIEW**

A preliminary environmental site assessment was completed by the petitioner on March 3, 2025. Their findings included the following:

- The subject property is moderately forested with an assemblage of turkey oak, sand, live oak, slash pine and long-leaf pine trees.
- The groundcover contains leaf litter, pine straw and various vine species.
- Gopher tortoise burrows were detected; however, their density is low
- No other state or federally listed species were detected.
- A jurisdictional wetland (karst sink) is located on the southern portion of the site

**Comments:** At the time of site development, the jurisdictional wetland line shall be set. A 25-foot vegetated buffer shall be placed along the perimeter of the wetland in accordance with all South West Florida Water Management District regulations and shall be shown on all civil site plans for the subject site. The petitioner shall be required to comply with all federal, state, and local environmental regulations.

**UTILITIES REVIEW**

The Hernando County Utilities Department (HCUD) currently supplies water to this parcel via an existing 8-inch water main crossing under Cortez Boulevard to a fire hydrant onsite. The closest wastewater infrastructure is located within the Cortez Oaks commercial development on the north side of Cortez Boulevard.

HCUD has no objection to the establishment of a Public Service Facility Overlay District, subject to a utility capacity analysis and connection to the central water and wastewater systems as required per ordinance at time of site development.

**ENGINEERING REVIEW**

The subject site is located on the South Side of Cortez Boulevard, approximately 1377' west of Hunt Lane (a portion of the Sand Hill Scout Reservation). The County Engineer has reviewed the petitioner's request and has the following comments:

- When developed, a Frontage (or reverse) Road will be required along the entire frontage along Cortez Boulevard.
- A Traffic Access Analysis will be required. Any improvements identified will be the responsibility of the developer to install.
- This project lies within the Willow Sink watershed and multiple sub-basins.
- Florida Department of Transportation access management permit required, Florida Department of Transportation drainage permit may be required.

**LAND USE REVIEW**

Public Service Facility Overlay District is a mechanism to allow governmental uses and structures, as well as public service facility uses and structures in all zoning districts. The Public Service Facility Overlay District is approved by the Board of County Commissioners for a site-specific location and use.

Governmental uses and structures and public service structures are permitted within the Public Service Facility Overlay District which may be approved in all zoning districts after review and approval by the Commission and Governing Body. The procedures for review and approval of the Public Service Facility Overlay District shall be consistent with those for rezoning of any properties within the zoning district.

**Permitted Uses**

The following uses are permitted within a Public Service Facility Overlay District:

- Any use permitted in the underlying zoning district.
- Governmental uses and structures consistent with the PSF approval.
- Public service uses and structures consistent with the PSF approval.
- Lime Stabilization and Residual Management Treatment Facilities in the C-4 Heavy Highway Commercial District, the I-1 Light Industrial District and the I-2 Heavy Industrial District only.

**Comments:** The proposed use for the subject site is a not-for-profit utility service, to include administrative offices, customer service, customer and employee parking, equipment parking, warehouse, transportation and equipment shop, fuel island, and indoor/outdoor storage for equipment and materials. These uses are permissible in the Public Service Facility Overlay District (PSFOD).

**Special regulations:**

The following special regulations apply to all Public Service Facility Overlay Districts

- No building, structure or use within a Public Service Facility Overlay District shall be located closer than fifty (50) feet to the property line of an adjoining parcel containing a residence or the property line of a residentially zoned parcel.
- No odor- or dust-producing substance or use, except in connection with the cultivation of permitted uses, shall be permitted within one hundred (100) feet of a property line if the adjoining property is being used for residential purposes.

**Comments:** The petitioner is not proposing any building or structure within 50' of a property line of an adjoining parcel containing a residence, or any residentially zoned parcel. Additionally, no odor or dust-producing substance or use is proposed through the creation of this Public Service Facility Overlay District.

**Site Development Requirements:**

All development must meet, at a minimum, the dimension and area regulations of the underlying zoning district and the standards and criteria in this section. The Board of County Commissioners may increase the minimum dimension and area regulations for the proposed use if it is deemed necessary to protect the health, safety and welfare of the citizens of Hernando County. Any reduction of the minimum dimension and area regulations or other development standards and criteria contained in this section must be specifically enumerated in the application and requires the approval of a deviation by the Board of County Commissioners.

The petitioner has not indicated any deviations from the setbacks or locational requirements for the Public Service Facility Overlay District or underlying Agricultural District.

If approved, the petitioner shall be required to meet the following setbacks and building heights for the Agricultural district:

- Front: 125'
- Side: 35'
- Rear: 50'
- Building Height: 45'

### **Buffers**

The petitioner has proposed the following buffers for the subject site:

- A 5-foot vegetative buffer along S.R. 50 (Cortez Blvd) that meets the requirements of the Community Appearance ordinance for commercial projects.
- A 5-foot vegetative buffer around the parking lot/pavement that meets the requirements of the Community Appearance ordinance for commercial projects.
- All other perimeter buffers will consist of 10-foot-wide buffer consisting of natural vegetation supplemented with landscaping where needed.

### **Outdoor Storage**

The petitioner has proposed the following outdoor storage for equipment and materials. In addition, a portion of the site will be used as a staging area for emergencies, such as hurricanes. Hernando County LDR's require that screening of outdoor storage from adjoining and contiguous properties by a wall, fence or other approved enclosures. Screening shall meet an eighty (80) percent opacity standard. Such screening shall be located behind the building line with a minimum height of 5-feet and maximum of 8-feet.

### **Lighting**

County LDRs require lighting that enhances the visual impact of the project on the community and specifically addresses lighting intensity levels and glare. Commercial buildings and projects shall be designed to provide safe, convenient and efficient lighting for pedestrians and vehicles.

**Comments:** If this project is approved, the petitioner should be required to provide full cutoff fixtures and retain all light on-site preventing any light spillage onto neighboring properties.

### **Impact Statement**

The petitioner has conducted an impact statement for the subject site, It has identified that the property is moderately forested with an assemblage of turkey oak, sand live oak, slash pine and long-leaf pine trees. The groundcover contains leaf litter, pine straw and various vine species. Gopher tortoise burrows were detected; however, their density is low. No other state or federally listed species were detected. A jurisdictional wetland (karst sink) is located on the southern portion of the site

**Comments:** Based on the analysis of the site, the proposed Public Service Facility Overlay District will not create a significant impact for the site or the surrounding parcels. Staff has no objection to the request.

---

## COMPREHENSIVE PLAN REVIEW

### Public Facilities Category

**Strategy 1.04K(1):** Minor public facilities that do not need to be designated with the Public Facilities Category may be allowed in any Future Land Use Map Category. These include local facilities such as wellfields, sewage collection facilities, water distribution facilities, communication towers, public buildings, schools and other governmental or public service structures and uses.

**Comments:** The electric substation is considered a minor public facility in accordance with the Comprehensive Plan and may be placed in any future land use classification. The use is consistent with the surrounding land uses and is conditioned to avoid any negative impact to the surrounding community.

**Strategy 1.04K(2):** The Public Service Facility Zoning Overlay District will be used to evaluate and review all proposed public facilities. Conditions and performance standards may be required through the public facility review process which are binding for purposes of issuance of development orders and permits.

### Infrastructure Services

**GOAL 1.12:** In accordance with the County's growth strategy to provide for directed high-quality infrastructure services and discourage urban sprawl, the provision of adequate facilities shall be ensured for new development through a variety of mechanisms.

### Urban Sprawl

**GOAL 1.11:** In accordance with the County's growth strategy to provide for directed high-quality infrastructure services and discourage urban sprawl, Hernando County will provide mechanisms that prioritize public infrastructure and direct growth towards urbanized and urbanizing areas of the County.

### Directed Infrastructure

**Objective 1.11A:** All County infrastructure planning shall ensure that the existing and future infrastructure needs, especially for roads, wastewater service, and potable water service, are prioritized for urbanized, urbanizing and infill areas of the County, especially in the Residential, Commercial, Industrial and Planned Development District Future Land Use Categories.

**Strategy 1.11A(2):** The County shall manage infrastructure availability to influence the timing and location of development. **Strategy 1.11A(3):** Direct infrastructure toward the urbanized area and areas designated under the Plan for new development to prevent urban sprawl.

**Comments:** The electric substation as proposed by Withlacoochee River Electric Cooperative will ensure that Hernando County has adequate electric infrastructure for its expanding population. The subject site is located

immediately across S.R. 50 (Cortez Boulevard) from its existing operation, within the County's existing Urban Service Area. Locating the expanded facility within the urban service boundary will not create urban sprawl and will ensure the continuation of electric service and Withlacoochee River Electric Cooperative's capability to respond to urgent and emergent situations in the community.

## **FINDINGS OF FACT**

The request to establish a Public Service Facility Overlay District for an electric utility operations center is appropriate based on the following:

1. The proposed use is a minor public facility and is allowable within any Comprehensive Plan land use classification.
2. The Public Service Facility Overlay District is the appropriate land use tool for placement of minor public facilities.
3. The petitioner has not requested any deviations to the underlying AG (Agricultural) zoning setback and building height criteria.
4. The proposed use will not adversely impact any adjacent parcels or uses.

## **NOTICE OF APPLICANT RESPONSIBILITY**

The rezoning process is a land use determination and does not constitute a permit for either construction on, or use of, the property, or a Certificate of Concurrency. Prior to use of, or construction on, the property, the petitioner must receive approval from the appropriate County department(s) for the proposed use.

The granting of this land use determination does not protect the owner from civil liability for recorded deed restrictions which may exceed any county land use ordinances. Homeowner associations or architectural review committees require submission of plans for review and approval. The applicant for this land use request should contact the local association or the Public Records for all restrictions applicable to this property.

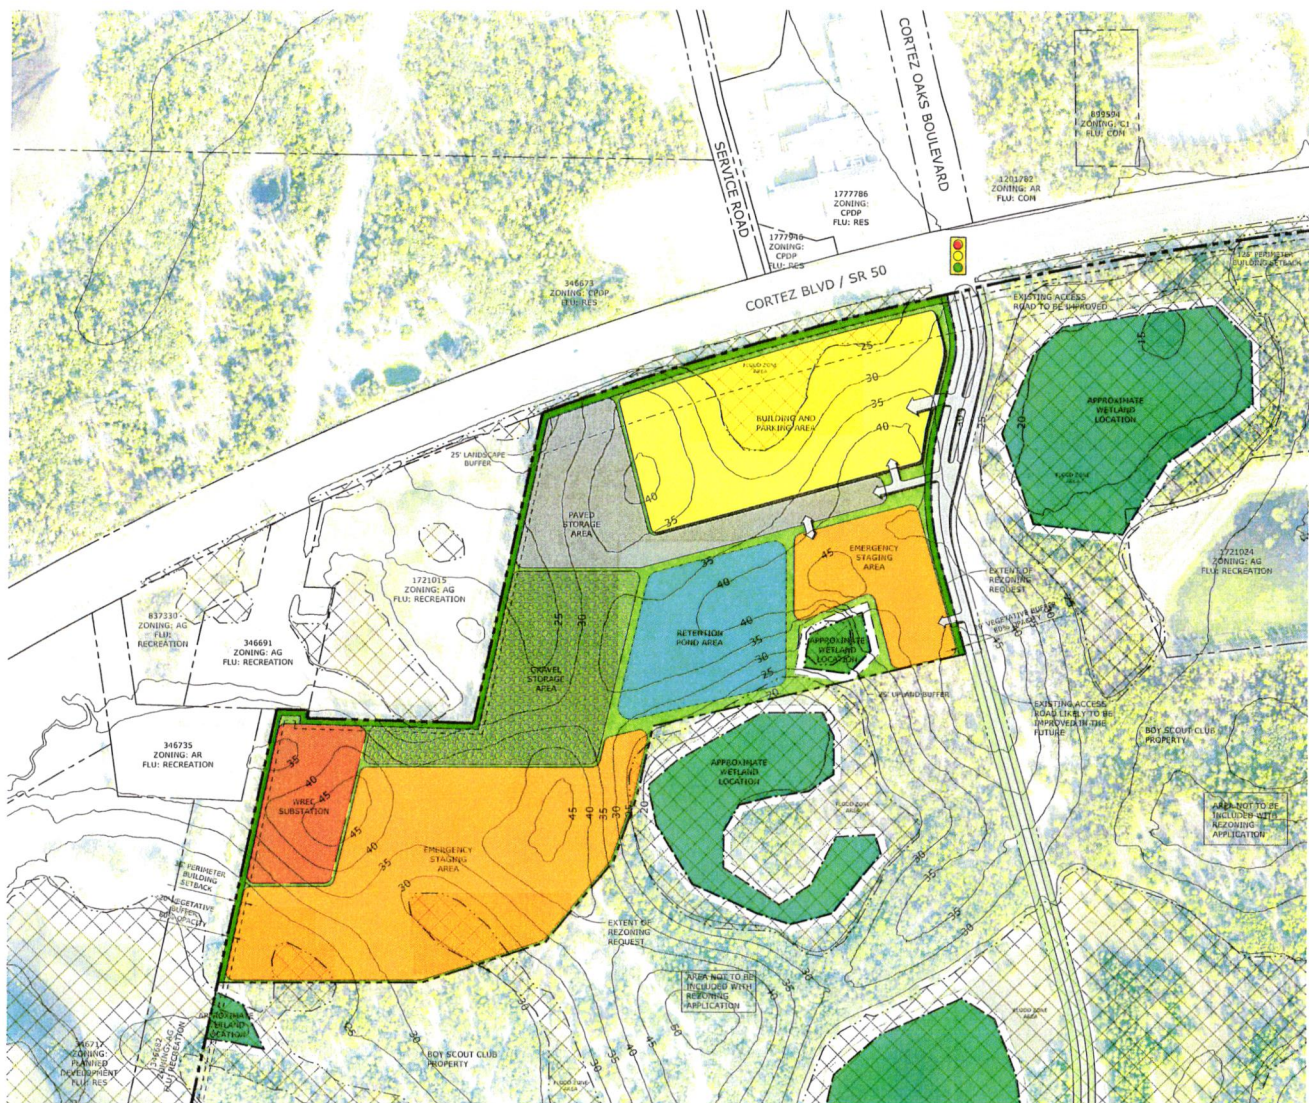

## **STAFF RECOMMENDATION**

It is recommended that the Planning and Zoning Commission recommend the Board of County Commissioners adopt a resolution approving the petitioner's request to Establish a Public Service Facility Overlay District (PSFOD) for an electric utility operations center with the following performance conditions:

1. The petitioner must obtain all permits from Hernando County as well as other applicable agencies, meeting all applicable land development regulations, for either construction or use of the property, and complete all applicable development review processes.
2. At the time of site development, the jurisdictional wetland line shall be set. A 25-foot vegetated buffer shall be placed along the perimeter of the wetland in accordance with all South West Florida Water Management District regulations and shall be shown on all civil site plans for the subject site.

3. The petitioner shall be required to comply with all federal, state, and local environmental regulations.
4. The petitioner shall be required to submit a utility capacity analysis and connect to the central water and wastewater systems at the time of development.
5. When developed, a Frontage (or reverse) Road will be required along the entire frontage along Cortez Boulevard.
6. A Traffic Access Analysis will be required. Any improvements identified will be the responsibility of the developer to install.
7. The petitioner shall coordinate with the Florida Department of Transportation to determine the applicable access management and drainage permits required for the project.
8. At the time of development, the petitioner shall be required to meet all commercial site development requirements.
9. Minimum Setbacks and Building Height:
  - Front: 125'
  - Side: 35'
  - Rear: 50'
  - Building Height: 45'
10. The following buffers shall be placed within the development:
  - A 5-foot vegetative buffer along S.R. 50 (Cortez Blvd) that meets the requirements of the Community Appearance ordinance for commercial projects.
  - A 5-foot vegetative buffer around the parking lot/pavement that meets the requirements of the Community Appearance ordinance for commercial projects.
  - All other perimeter buffers will consist of 10-foot-wide buffer consisting of natural vegetation supplemented with landscaping where needed.
11. Screening of outdoor storage from adjoining and contiguous properties by a wall, fence or other approved enclosures. Screening shall meet an 80 percent opacity standard. Such screening shall be located behind the building line and shall have a minimum height of 5-feet and maximum of 8-feet.
12. The petitioner shall be required to provide full cutoff fixtures and retain all light on-site preventing any light spillage onto neighboring properties.
13. The petitioner shall provide a master plan in compliance with all the performance conditions within 30 calendar days of Board of County Commissioner's approval. Failure to submit the revised plan will result in no further development permits being issued.

**NOTICE OF PUBLIC INFORMATION WORKSHOP**

A Public Information Workshop will be held as indicated below to discuss a rezoning application made to Hernando County.

**DATE/TIME:** May 21, 2025 - 5:30pm

**LOCATION:** Sand Hill Scout Reservation,  
Greater Tampa Bay Area Council  
Boy Scouts of America  
11210 Cortez Boulevard  
Brooksville, FL 34613

**APPLICANT:** Greater Tampa Bay Area Council, Inc. - Boy Scouts of America  
**REQUEST:** Change the present zoning from Agriculture (AG) to Public Service Facility Overlay (PSF) to allow a full array of facilities associated with a western county operations center for the Withlacoochee River Electric Cooperative (WREC).

**GENERAL LOCATION:** South side of Cortez Boulevard (SR 50) opposite Cortez Oaks Subdivision

**PROPERTY SIZE:** 52 acres**PARCEL IDENTIFICATION NUMBER:** R31 422 18 0000 0020 0000

Interested parties will be given the opportunity to hear about the rezoning application, be given the opportunity to ask questions and provide meaningful input.

The application may be reviewed by interested parties at the Hernando County Planning Department, located at 1653 Blaise Drive, Brooksville, Florida during normal business hours.

Interested parties may also contact Ronald Pianta at Coastal Engineering for information or to provide written comments by calling (754) 289-1452 or emailing rpianta@coastal-engineering.com.

H-25-14 GREATER TAMPA BAY AREA COUNCIL, INC - BOY SCOUTS OF AMERICA  
Neighborhood Meeting - May 21, 2025, 5:30pm

Name: Phillip Welch Phone#: 727-510-2956 Email: phillipwelch@yahoo.com

Comments: I feel that although this project would have minimal impact to the surrounding property, I still disagree with the Boy Scouts selling property that had restrictions by the benefactor who donated it. The intent was clearly stated that it should never be used for commercial purposes and be donated back to the county if the Boy Scouts no longer desired to use the property. The inevitable reality is it will slowly be sold off, starting with this 52 acres and then move to continue to sell other pieces of property. This directly goes against the clear expectation of the will.

Name: Christina J. Albano Phone#: 5967435 Email: cjalbano@tampabay.rr.com

Comments: After All the studies are ~~done~~ done and if Planning  
and Zoning passes this it will be very helpful to  
Hernando County to have a Large enough place  
for Out of State Trucks etc. that come to help  
us during the Hurricanes.

H-25-14 GREATER TAMPA BAY AREA COUNCIL, INC - BOY SCOUTS OF AMERICA  
Neighborhood Meeting - May 21, 2025, 5:30pm

Name: Eric Cupps Phone#: 813 546-4252 Email: EricCupps@gmail.com

Comments: I represent a Facebook group that has been  
advocating against the sale of any Scout Property.  
Our rally in September of 24 had well over  
half a million impressions. online, in Print and Broadcast  
media.

Although the Scouts found a way to open  
the deed to the property, I assure you there are  
at least enough citizens, former scouts, current scouts  
and neighbors who oppose any development.

I speak for these people.

I'm available for any conversations that would  
be warranted.

Regards,

Eric Cupps

## AGENDA ITEM

---

### TITLE

Master Plan Revision Petition Submitted by Granger Development LLC (H2509)

### BRIEF OVERVIEW

#### Request:

Master Plan Revision and Rezoning for a property zoned PDP(GC) Planned Development Project (General Commercial) to include additional C-2 uses with deviations

#### General Location:

North side of County Line Road, approximately 340' east of Seven Hills Drive

### FINANCIAL IMPACT

A matter of policy. There is no financial impact.

### LEGAL NOTE

The Planning and Zoning Commission has jurisdiction to make a recommendation on the subject application. The Applicable Criteria for Planned Development Projects are contained in Appendix A, (Zoning Code) Article VIII. The Planned Development Project master plan must be consistent with the Comprehensive Plan.

### RECOMMENDATION

It is recommended that the Planning and Zoning Commission recommend the Board of County Commissioners adopt a resolution approving the petitioner's request for a Master Plan Revision and Rezoning for a property zoned PDP(GC) Planned Development Project (General Commercial) to include additional C-2 uses with deviations and performance conditions.

### REVIEW PROCESS

Michelle Miller	Approved	07/03/2025	3:30 PM
Omar DePablo	Approved	07/07/2025	1:28 PM
Toni Brady	Approved	07/07/2025	2:14 PM

## APPLICATION NARRATIVE

### RAIN DANCER, LLC & EVERGREEN PARTNERS, LLC

#### PARCEL KEY 01317685

##### General

The subject site, consisting of approximately 9.3 acres, lies within section/township/range 32/23/18 and is located on the north side of County Line Road, the south side of Quality Drive, approximately one mile east of Seven Hills Drive. The property is identified by the Hernando County Property Appraiser as Parcel Key 01317685. See Figure 1 for the aerial view and location of the site.

Figure 1. Aerial and location map

## Zoning and Land Use

The property has a Commercial land use designation on Hernando County's Future Land Use Map (See Figure 2).

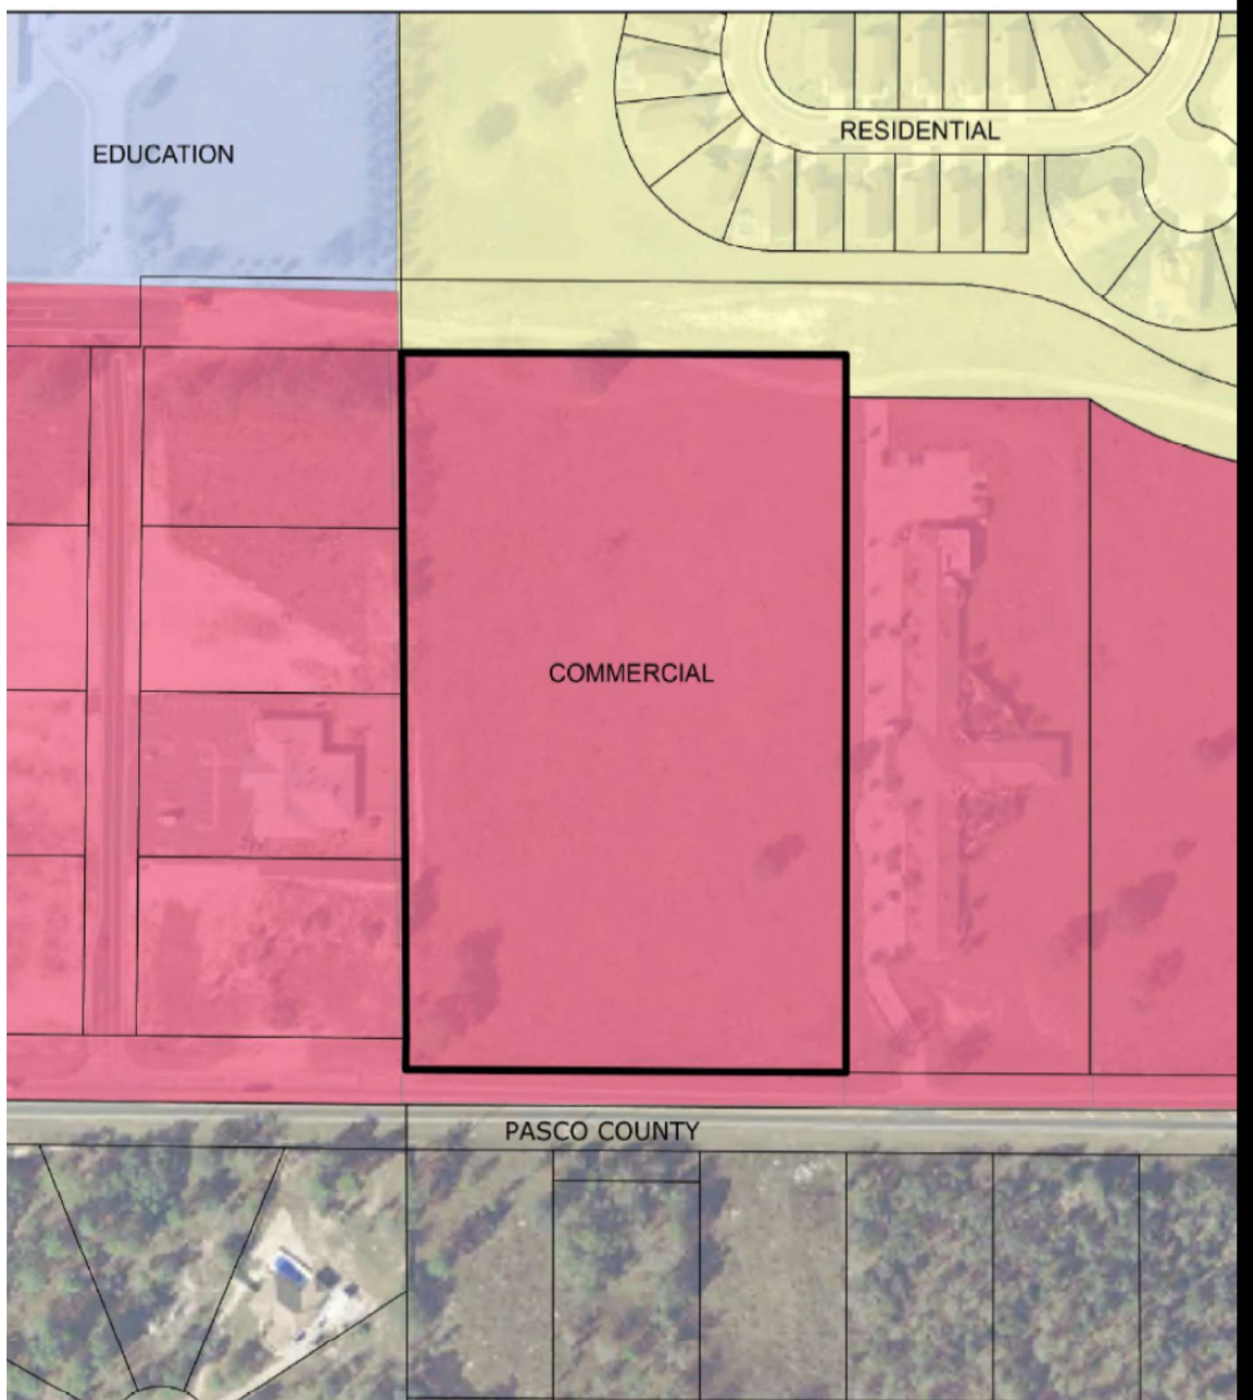

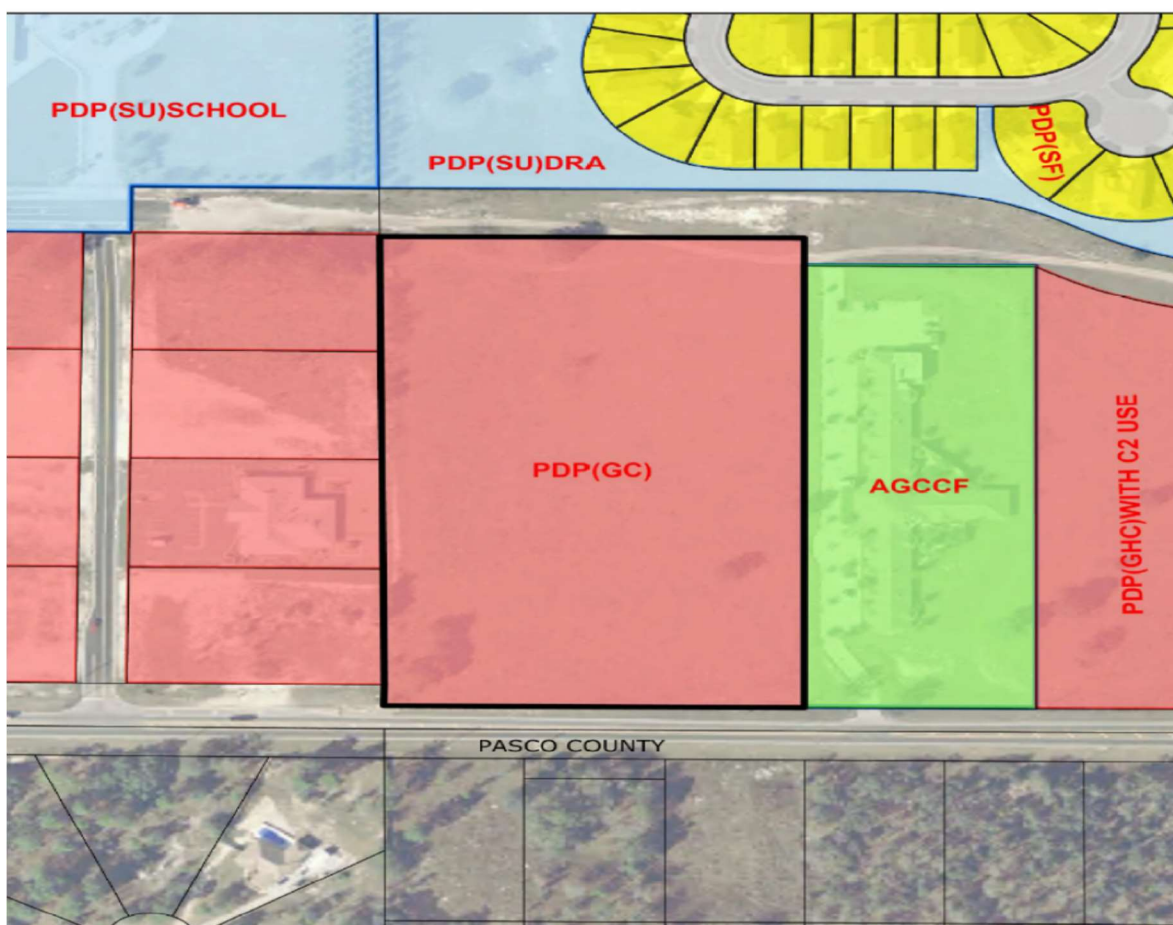

Figure 2 - Current Land Use Designation Parcel Key 01317685

The property is presently zoned Planned Development Project/General Commercial (PDP/GC) and approved for C-2 uses with Mini warehouses and outdoor storage. See Figure 3 for the current zoning on the site.

**Figure 3-Current Zoning Map Parcel Key 01317685**

The following table identifies adjacent zoning classification and their designation in the comprehensive plan's future land use map.

	<b>Zoning</b>	<b>Land Use/FLUM</b>	<b>Property Use</b>
<b>North</b>	PDP/SF and PDP/SU	Residential and Public Facilities	Residential (Wellington at 7 Hills), school (Suncoast Elementary)
<b>South</b>	NA	NA	Pasco County
<b>East</b>	Congregate Care Facility	Commercial	Congregate Care Facility
<b>West</b>	PDP/GHC	Commercial	Commercial Development

## **Request**

The request is for a master plan modification to retain the already approved PDP/GC (General Commercial) zoning with specific C-2 Uses and add additional C-2 and special exception uses and change the zoning category to Combined Planned Development (CPDP).

## **Project Description**

The property is retaining its previously approved PDP/GC (General Commercial) C-1 uses and specific C-2 uses across the site. The size of the property and location along County Line Road make it attractive for a variety of different uses, ranging from highway commercial to medical facilities. Additionally, a reverse frontage road (Quality Drive) already exists along the property's northern boundary. The size and location of the property will allow up to three commercial sites along County Line Road (Area 1) and a 5-acre parcel to the north (Area 2) that would be attractive for a number of uses, including already approved self-storage or outdoor storage uses, medical offices, congregate care or a commercial flex building complex. An internal access drive or cross access agreements would provide all uses on site to have access to/from Quality Drive. Additional right of way will be provided along County Line Road as determined by the County Engineer and all access points will be designed to meet County Standards. The total project nonresidential square footage will not exceed 155,000 square feet.

The project site is cleared and vacant. The sand soils are conducive for development and stormwater retention. There are no wetlands on the property and only a small corner of the site is within the 100 year floodplain. Hernando County utilities are available. The property has direct access to both County Line Road and Quality Drive, which serves as a reverse frontage road leading to a signal at Mariner Boulevard.

## **Additional Uses Requested**

The following additional C-2 Uses in Area 1 along County Line Road are requested:

- Mini warehouses (previously approved and requested in Area 1 & Area 2)
- Outdoor RV/boat storage (previously approved and requested in Area 1 & Area 2)
- Drive-in restaurants
- Tire and automotive accessory establishments
- Automotive specialty establishments
- Automobile service establishments exceeding 4 bays (excludes body shops)
- Veterinary clinics and hospital establishments
- Alcoholic beverage dispensation

In Area 2 along Quality Drive the following Special Exception Uses are requested:

- Congregate Care facilities
- Hospitals (requested in Area 1 & Area 2 due to the number of acres required)

### **Project History**

The project was previously approved by the Board of County Commissioner (Resolution 2021-157) on September 14, 2021, as Planned Development Project/General Commercial (PDP/GC) with specific C-2 uses for Mini warehouses and outdoor storage with deviations (H 21-36) . The associated master plan included the following uses and intensity:

- 3 phases
- Phase 1 approved for 110,00 square feet of Mini warehouse
- Phase 2 approved for 15,000 square feet of Mini warehouse and outdoor storage of 48 RV/boat spaces
- Phase 3 approved for 3 commercial outparcels at 30,000 square feet with all allowable uses under the C-1 District
- A 75 foot setback along County Line Road (deviation from 125 feet)
- A rear setback of 25 feet (deviation from 35 feet)

The approved Resolution 2021-157 for H21-36, the minutes, associated performance conditions and approved master plan are provided in Attachment 1 to this narrative.

The applicant requested the Board of County Commissioners approve a master plan modification on August 27, 2024 (H24-17). The modifications were not approved; however, the Board of County Commissioners re-approved the original request and master plan. Therefore, the original master plan remains effective.

### **Proposed Setbacks and Buffers**

#### *Perimeter Building Setbacks*

- South (County Line Road) - 75 feet (deviation from 125 feet previously approved)
- North (Quality Drive) - 20 feet (deviation from 35 feet previously approved)
- East-20 feet
- West-20 feet

*Internal Commercial Lot Setbacks (previously approved)*

- Side-10 feet (deviation from 20 feet)
- Rear-10 feet (deviation from 35 feet)
- Mini warehouses-Front 15 feet

*Maximum Height*

- 45 feet

*Buffers-all buffers will meet commercial standards per the LDR's*

- North-10 feet landscape buffer, 0 feet along DRA
- South-20 feet landscape buffer
- East-20 feet vegetative buffer
- West-10 feet vegetative buffer

## **Consistency with the Comprehensive Plan**

The site is consistent with the following Goals, Objectives and Strategies of the Hernando County 2040 Comprehensive Plan.

### **Future Land Use Element**

*Commercial Category Mapping Criteria:* The Commercial Category includes commercial corridors along U.S. 19 and S.R. 50 and designated commercial nodes at intersections of arterial and/or collector roads intended primarily for commercial development with a wide variety of uses.

*Map Interpretation Guidance:* Areas considered to have a Commercial Category designation but not shown on the Future Land Use Map include neighborhood commercial and specialty commercial uses as described in this Plan, commercial approved as part of mixed use developments, commercial designated by planned development districts, the infill development of existing commercial areas, commercial areas extending from designated commercial nodes, and pre-existing commercially developed and designated areas.

*Strategy 1.04A(6):* The Commercial Category provides for commercial uses including products and services along major corridors and at roadway intersections to serve residents and visitors on both a localized and regionalized basis. The Commercial Category recognizes existing commercial use corridors along U.S. Highway 19 and State Route 50 and existing and planned commercial nodes at intersections of arterial and/or collector roads. The Commercial Category includes small unmapped existing commercial properties. The

Commercial Category also recognizes the ability to designate infill parcels for commercial use lying in proximity to and between, but not necessarily contiguous to, other existing commercially designated properties. Publicly owned lands along the commercial use corridors that are made available for surplus may be considered to have a Commercial designation, if the agency proceeds through the Comprehensive Plan Amendment process to amend the future land use map, in accordance with Section 163.3184, F.S.

#### *Commercial Category*

*Objective 1.04G:* The Commercial Category allows primarily retail, office, and commercial service uses with an overall average gross floor area ratio of 0.35 but also includes limited industrial, recreational and institutional uses. Residential and mixed uses may be allowed subject to locational criteria and performance standards.

#### *Commercial Nodes*

*Strategy 1.04G(2):* Commercial development as mapped by the Future Land Use Map is intended to create and identify functional nodes that conveniently serve the supporting population without compromising the integrity of residential areas. Commercial nodes: a. are located at the intersections of roads having collector status or greater; b. recognize concentrations of existing commercial development; c. are generally less than 100 acres in size within the Adjusted Urbanized Area of the County; d. are generally less than 60 acres in size outside of or on the fringe of the Adjusted Urbanized Area of the County; e. may be located in Centers or Corridors pursuant to the related strategies

*Analysis:* The site is designated Commercial by the Hernando County 2040 Future Land Use Map and is located in a commercial node.

## Site Conditions

### Topography

The property slopes from County Line Road to Quality Drive with a high point of 65 feet above MSL to a low of 42 feet above MSL. See Figure 4.

Figure 4-Topographic Information

## Floodplain

The property is not located in a designated FEMA flood zone. See Figure 5.

Figure 5-Flood Zone Information

## Soils

The soil is classified as Candler Fine Sand which is well drained. See Figure 6.

**Figure 6-Soils Information (Source : Hernando County GIS)**

## Site Environmental

The following site characteristics are noted:

- The subject site is primarily vacant grassland.
- Gopher tortoise were observed on or within the vicinity of the subject property.
- There are no other federal or state listed species present on the property.
- No wetlands are located on this property.
- No significant trees or tree cover is present on the property.
- The soil is classified as Candler Fine Sand which is well drained

All required site surveys, reports and associated permits will be provided at the time of site development.

## Infrastructure

### Adequate Access/Transportation

The site has access to County Line Road, a major collector roadway, and Quality Drive, a local street. The applicant proposes a single connection to each roadway.

In addition, the applicant proposes the following relative to access and transportation:

- All access points shall meet county commercial driveway requirements
- The applicant will provide additional right of way along County Line Road as determined by the County Engineer
- The applicant will construct a sidewalk along Quality Drive in conjunction with that phase of development
- A traffic analysis will be provided at the time of development, and the developer will construct all improvements recommended by the approved study
- All outparcels will be interconnected by cross access easements; identified, provided and recorded at the time of subdivision plat approval
- Cross access to adjoining parcels on the east and west will not be provided as those sites are currently developed. The parcel also has access to Quality Drive, which is the designated frontage road for this area.

### Utilities

The subject site is within the service boundaries of the Hernando County Utilities Department. HCUD has both sewer and potable water in the vicinity of the project and the project will connect to County Water and Sewer. If required, the applicant will enter into a

utilities service agreement with HCUD to ensure the timing of connection to those facilities and/or conduct any required engineering study to identify any infrastructure capacity needs.

#### Drainage

The stormwater management system will be permitted with the South Florida Water Management District.

A certificate of adequate public facilities (concurrency) will be obtained at the time of site development.

### Deviations

The following deviations are approved with the current valid and unexpired master plan:

#### *Perimeter Setbacks*

- County Line Road-75 feet (deviation from 125 feet previously approved)
- Quality Drive-20 feet (deviation from 35 feet previously approved)

Additional deviation requests:

#### *Internal Commercial Lot Setbacks*

- Side-10 feet (deviation from 20 feet)
- Rear-15 feet (deviation from 35 feet)

## **Attachment 1**

**RESOLUTION NUMBER 2021- 157**

**WHEREAS**, Hernando County has adopted zoning regulations pursuant to Section 125.01(1) and Chapter 163, *Fla. Stat.*, which authorize the County to regulate the use of land in the unincorporated areas of Hernando County, Florida, and take action on the request herein; and,

**WHEREAS**, the Hernando County Board of County Commissioners (BOCC) conducted a duly advertised public hearing on September 14, 2021, to consider the requested changes in zoning on the specified parcels in Hernando County, Florida, as more fully described below.

**NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF HERNANDO COUNTY, FLORIDA, AS FOLLOWS:**

**APPLICANT:** Generations Christian Church of Trinity, Inc.

**FILE NUMBER:** H-21-36

**REQUEST:** Rezoning from AG/(Agricultural) to PDP(GC)/Planned Development Project (General Commercial) with Specific C-2/(Highway Commercial) Uses for Mini-warehouses and Outdoor Storage, with Deviations

**GENERAL LOCATION:** North side of County Line Road, approximately 340' east of Seven Hills Drive

**PARCEL KEY NUMBERS:** 1317685

**REQUEST:** Rezoning from AG/(Agricultural) to PDP(GC)/Planned Development Project (General Commercial) with Specific C-2/(Highway Commercial) Uses for Mini-warehouses and Outdoor Storage, with Deviations, as enumerated in the BOCC Action which is incorporated herein by reference and made a part hereof. The representations contained in the rezoning application are incorporated herein by reference and made a part hereof and are relied upon by the County to be true and correct. For purposes herein, it is presumed that all notice and advertising requirements have been satisfied.

**FINDINGS OF FACT:** ALL of the facts and conditions set forth in the County's staff memoranda and presented to the BOCC in connection with the public hearing in this matter are incorporated herein by reference and made a material part of this Resolution as integral to the BOCC's Action. The BOCC finds that the testimony and record supporting APPROVAL of the request to be credible and to constitute competent substantial evidence. In further support thereof, the BOCC makes the following specific findings of fact:

1. The proposed request is consistent with the County's adopted Comprehensive Plan and is compatible with the surrounding land uses.

Attachment: Approved Resolution No. 2021-157 (RES-2021-157 : Rezoning H2136 - Generations Christian Church of Trinity, Inc.)

S:\Share\P&Z\Resolutions\2021 Resolutions\Sept\_2021\H2136 Approval Resolution.docx

**CONCLUSIONS  
OF LAW:**

The BOCC is authorized to act on this matter pursuant to Chapters 125 and 163, *Fla. Stat.* Accordingly, after public hearing and testimony, being fully advised in the record, and based upon competent substantial evidence, the BOCC makes the following specific conclusions of law:

1. The proposed request is consistent with the County's adopted Comprehensive Plan and is compatible with the surrounding land uses.

**ACTION:**

After notice and public hearing, based upon the record in this matter and ALL of the findings of fact and conclusions of law above, the BOCC hereby APPROVES the request for a Rezoning from AG/(Agricultural) to PDP(GC)/Planned Development Project (General Commercial) with Specific C-2/(Highway Commercial) Uses for Mini-warehouses and Outdoor Storage, with Deviations, as set forth in the BOCC Action, which is incorporated herein by reference and made a part hereof. Any requests, uses, variances or exceptions that were requested in connection with this rezoning application but not specifically approved herein are hereby deemed DENIED.

**ADOPTED IN REGULAR SESSION THE 14th DAY OF SEPTEMBER 2021.**

**BOARD OF COUNTY COMMISSIONERS  
HERNANDO COUNTY, FLORIDA**

Attest: Heidi Kuyper, D.C.  
for **Douglas A. Chorvat, Jr.**

**Master Plan Revision Petition Submitted by 5000 Calienta Street, LLC**

The Board accepted public input on this matter.

**Motion**

To approve the staff recommendation (Resolution No. 2021-158).

(Note: The Motion pertained to Modified Performance Condition No. 5 as approved by the Planning Department.)

<b>RESULT:</b>	<b>ADOPTED [4 TO 1]</b>
<b>MOVER:</b>	Jeff Holcomb, Second Vice Chairman
<b>SECONDER:</b>	Steve Champion, Vice Chairman
<b>AYES:</b>	Allocco, Champion, Holcomb, Narverud
<b>NAYS:</b>	Dukes

Comm. Champion temporarily left the meeting.

**BCC ACTION:**

On September 14, 2021, the Board of County Commissioners voted 5-0 to adopt Resolution 2021-157 approving the petitioner's request for a rezoning from AG/(Agricultural) to PDP(GC)/Planned Development Project (General Commercial) with specific C-2 uses for mini-warehouses and outdoor storage, with deviations, and the following performance conditions:

1. The petitioner must obtain all permits from Hernando County and other applicable agencies and meet all applicable land development regulations, for either construction or use of the property, and complete all applicable development review processes.
2. The petitioner shall provide a wildlife survey to include a gopher tortoise survey, prepared by a qualified professional prior to any development occurring on the property. Furthermore, copies of any required permits shall be provided prior to the issuance of development permits by Hernando County.
3. The petitioner must meet the minimum requirements of Florida Friendly Landscaping™ publications for design techniques, principles, materials, and plantings for required landscaping.
4. A Traffic analysis is required at the time of development. Any improvements identified by the Traffic Access Analysis shall be the responsibility of the developer.
5. Geotechnical subsurface testing and reporting in accordance with Hernando County's Facility Design Guidelines shall be conducted for all drainage retention ponds within the project.
6. All driveways to the subject development shall meet County Commercial Driveway Standards.
7. County Line Road is an Arterial Roadway; the petitioner shall be limited to one access point along County Line Road, and all outparcels shall be interconnected by cross-access easements, recorded at the time of subdivision plat approval. Additionally, the petitioner shall be allowed one access point along Quality Drive.
8. A sidewalk shall be constructed along the entire width of property along County Line Road.
9. Quality Drive is a Frontage Road; the petitioner shall construct a sidewalk along the entire width of the property.
10. The developer shall connect to the central water and sewer systems at time of vertical construction.

Attachment: Summary of BOCC Action (RES-2021-157 : Rezoning H2136 - Generations Christian Church of Trinity, Inc.)

11. The petitioner shall coordinate with the County Engineer during site design to determine the rights-of-way needs and reservation requirements for County Line Road.
12. The only C-2 uses permitted shall be mini-warehouses and outdoor storage for boats/recreational vehicles.
13. Minimum Setbacks and Maximum Height:  
Front: 75' (Deviation from 125')  
Side: 20'  
Rear: 20' (Deviation from 35')  
Maximum Height: 35 feet
14. Perimeter Setbacks:  
Side: 20'  
Rear: 35'
15. The petitioner shall be required to screen the mini-warehouse and outdoor storage in accordance with the minimum requirements of the Land Development Regulations.
16. The petitioner shall provide full cutoff fixtures and retain all light on site to prevent any light spillage onto neighboring residential parcels.
17. The petitioner shall be required to meet the requirements for large retail development, in accordance with Appendix A, Article III, Section III and Article VIII, Section 6 of the Land Development Regulations.
18. The petitioner shall be required provide a 10-foot wide landscape buffer along the entire perimeter of the property. Existing vegetation shall be retained and/or enhanced to achieve a minimum of 80% opacity.
19. The petitioner shall coordinate with Pasco County at the time of site plan approval to identify appropriate driveway access along County Line Road.
20. The petitioner shall provide a revised plan in compliance with all the performance conditions within 30 calendar days of BCC approval. Failure to submit the revised plan will result in no further development permits being issued.

Attachment: Summary of BOCC Action (RES-2021-157 : Rezoning H2136 - Generations Christian Church of Trinity, Inc.)

## APPLICATION NARRATIVE

### RAIN DANCER, LLC & EVERGREEN PARTNERS, LLC

#### PARCEL KEY 01317685

##### General

The subject site, consisting of approximately 9.3 acres, lies within section/township/range 32/23/18 and is located on the north side of County Line Road, the south side of Quality Drive, approximately one mile east of Seven Hills Drive. The property is identified by the Hernando County Property Appraiser as Parcel Key 01317685. See Figure 1 for the aerial view and location of the site.

Figure 1. Aerial and location map

## Zoning and Land Use

The property has a Commercial land use designation on Hernando County's Future Land Use Map (See Figure 2).

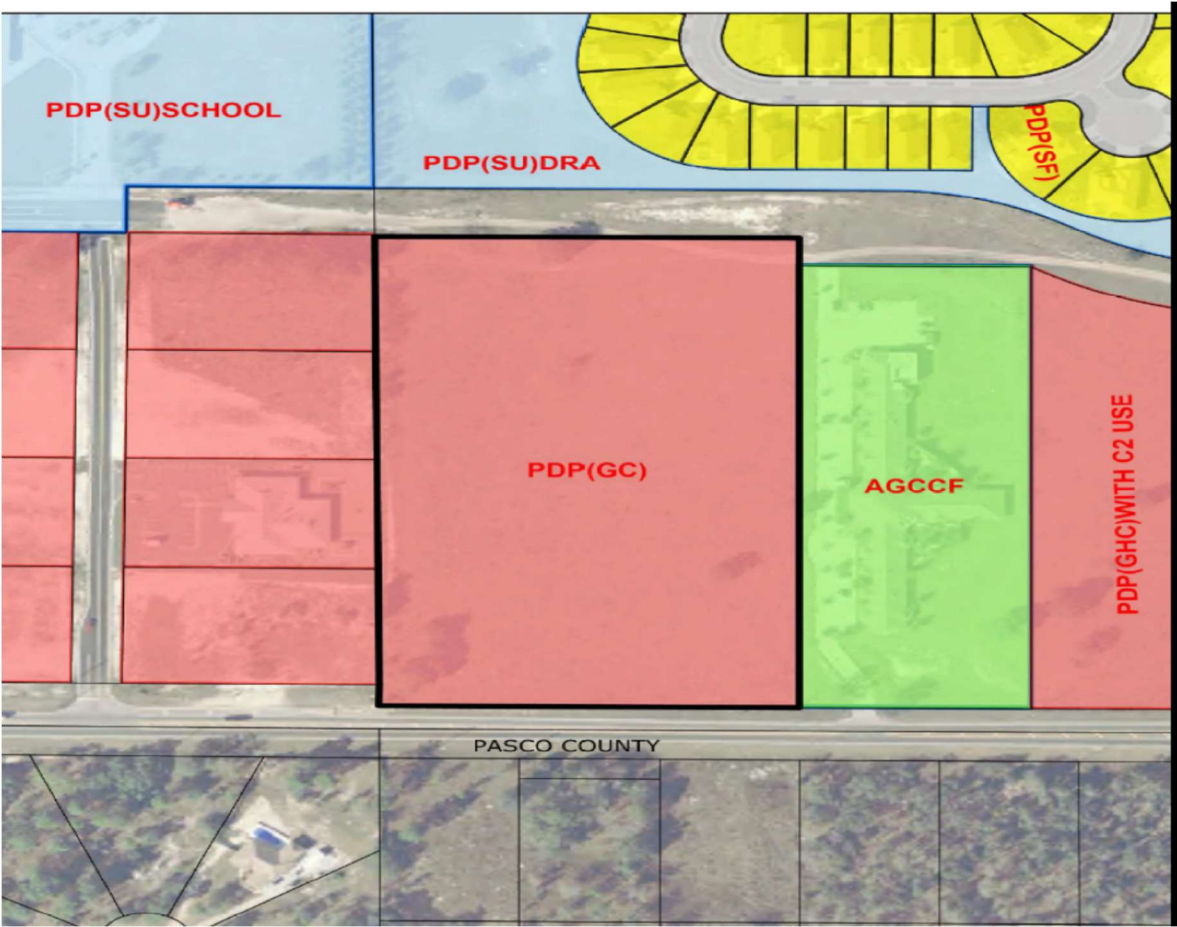

Figure 2 - Current Land Use Designation Parcel Key 01317685

The property is presently zoned Planned Development Project/General Commercial (PDP/GC) and approved for C-2 uses with Mini warehouses and outdoor storage. See Figure 3 for the current zoning on the site.

**Figure 3-Current Zoning Map Parcel Key 01317685**

The following table identifies adjacent zoning classification and their designation in the comprehensive plan’s future land use map.

	Zoning	Land Use/FLUM	Property Use
North	PDP/SF and PDP/SU	Residential and Public Facilities	Residential (Wellington at 7 Hills), school (Suncoast Elementary)
South	NA	NA	Pasco County
East	Congregate Care Facility	Commercial	Congregate Care Facility
West	PDP/GHC	Commercial	Commercial Development

## **Request**

The request is for a master plan modification to retain the already approved PDP/GC (General Commercial) zoning with specific C-2 Uses and add additional C-2 and special exception uses and change the zoning category to Combined Planned Development (CPDP).

## **Project Description**

The property is retaining its previously approved PDP/GC (General Commercial) C-1 uses and specific C-2 uses across the site. The size of the property and location along County Line Road make it attractive for a variety of different uses, ranging from highway commercial to medical facilities. Additionally, a reverse frontage road (Quality Drive) already exists along the property's northern boundary. The size and location of the property will allow up to three commercial sites along County Line Road (Area 1) and a 5-acre parcel to the north (Area 2) that would be attractive for a number of uses, including already approved self-storage or outdoor storage uses, medical offices, congregate care or a commercial flex building complex. An internal access drive or cross access agreements would provide all uses on site to have access to/from Quality Drive. Additional right of way will be provided along County Line Road as determined by the County Engineer and all access points will be designed to meet County Standards. The total project nonresidential square footage will not exceed 155,000 square feet.

The project site is cleared and vacant. The sand soils are conducive for development and stormwater retention. There are no wetlands on the property and only a small corner of the site is within the 100 year floodplain. Hernando County utilities are available. The property has direct access to both County Line Road and Quality Drive, which serves as a reverse frontage road leading to a signal at Mariner Boulevard.

## **Additional Uses Requested**

The following additional C-2 Uses in Area 1 along County Line Road are requested:

- Mini warehouses (previously approved and requested in Area 1 & Area 2)
- Outdoor RV/boat storage (previously approved and requested in Area 1 & Area 2)
- Drive-in restaurants
- Tire and automotive accessory establishments
- Automotive specialty establishments
- Automobile service establishments exceeding 4 bays (excludes body shops)
- Veterinary clinics and hospital establishments
- Alcoholic beverage dispensation

In Area 2 along Quality Drive the following Special Exception Uses are requested:

- Congregate Care facilities
- Hospitals (requested in Area 1 & Area 2 due to the number of acres required)

### **Project History**

The project was previously approved by the Board of County Commissioner (Resolution 2021-157) on September 14, 2021, as Planned Development Project/General Commercial (PDP/GC) with specific C-2 uses for Mini warehouses and outdoor storage with deviations (H 21-36) . The associated master plan included the following uses and intensity:

- 3 phases
- Phase 1 approved for 110,00 square feet of Mini warehouse
- Phase 2 approved for 15,000 square feet of Mini warehouse and outdoor storage of 48 RV/boat spaces
- Phase 3 approved for 3 commercial outparcels at 30,000 square feet with all allowable uses under the C-1 District
- A 75 foot setback along County Line Road (deviation from 125 feet)
- A rear setback of 25 feet (deviation from 35 feet)

The approved Resolution 2021-157 for H21-36, the minutes, associated performance conditions and approved master plan are provided in Attachment 1 to this narrative.

The applicant requested the Board of County Commissioners approve a master plan modification on August 27, 2024 (H24-17). The modifications were not approved; however, the Board of County Commissioners re-approved the original request and master plan. Therefore, the original master plan remains effective.

### **Proposed Setbacks and Buffers**

#### *Perimeter Building Setbacks*

- South (County Line Road) - 75 feet (deviation from 125 feet previously approved)
- North (Quality Drive) - 20 feet (deviation from 35 feet previously approved)
- East-20 feet
- West-20 feet

*Internal Commercial Lot Setbacks (previously approved)*

- Side-10 feet (deviation from 20 feet)
- Rear-10 feet (deviation from 35 feet)
- Mini warehouses-Front 15 feet

*Maximum Height*

- 45 feet

*Buffers-all buffers will meet commercial standards per the LDR's*

- North-10 feet landscape buffer, 0 feet along DRA
- South-20 feet landscape buffer
- East-20 feet vegetative buffer
- West-10 feet vegetative buffer

## **Consistency with the Comprehensive Plan**

The site is consistent with the following Goals, Objectives and Strategies of the Hernando County 2040 Comprehensive Plan.

### **Future Land Use Element**

*Commercial Category Mapping Criteria:* The Commercial Category includes commercial corridors along U.S. 19 and S.R. 50 and designated commercial nodes at intersections of arterial and/or collector roads intended primarily for commercial development with a wide variety of uses.

*Map Interpretation Guidance:* Areas considered to have a Commercial Category designation but not shown on the Future Land Use Map include neighborhood commercial and specialty commercial uses as described in this Plan, commercial approved as part of mixed use developments, commercial designated by planned development districts, the infill development of existing commercial areas, commercial areas extending from designated commercial nodes, and pre-existing commercially developed and designated areas.

*Strategy 1.04A(6):* The Commercial Category provides for commercial uses including products and services along major corridors and at roadway intersections to serve residents and visitors on both a localized and regionalized basis. The Commercial Category recognizes existing commercial use corridors along U.S. Highway 19 and State Route 50 and existing and planned commercial nodes at intersections of arterial and/or collector roads. The Commercial Category includes small unmapped existing commercial properties. The

Commercial Category also recognizes the ability to designate infill parcels for commercial use lying in proximity to and between, but not necessarily contiguous to, other existing commercially designated properties. Publicly owned lands along the commercial use corridors that are made available for surplus may be considered to have a Commercial designation, if the agency proceeds through the Comprehensive Plan Amendment process to amend the future land use map, in accordance with Section 163.3184, F.S.

#### *Commercial Category*

*Objective 1.04G:* The Commercial Category allows primarily retail, office, and commercial service uses with an overall average gross floor area ratio of 0.35 but also includes limited industrial, recreational and institutional uses. Residential and mixed uses may be allowed subject to locational criteria and performance standards.

#### *Commercial Nodes*

*Strategy 1.04G(2):* Commercial development as mapped by the Future Land Use Map is intended to create and identify functional nodes that conveniently serve the supporting population without compromising the integrity of residential areas. Commercial nodes: a. are located at the intersections of roads having collector status or greater; b. recognize concentrations of existing commercial development; c. are generally less than 100 acres in size within the Adjusted Urbanized Area of the County; d. are generally less than 60 acres in size outside of or on the fringe of the Adjusted Urbanized Area of the County; e. may be located in Centers or Corridors pursuant to the related strategies

*Analysis:* The site is designated Commercial by the Hernando County 2040 Future Land Use Map and is located in a commercial node.

## Site Conditions

### Topography

The property slopes from County Line Road to Quality Drive with a high point of 65 feet above MSL to a low of 42 feet above MSL. See Figure 4.

Figure 4-Topographic Information

## Floodplain

The property is not located in a designated FEMA flood zone. See Figure 5.

Figure 5-Flood Zone Information

## Soils

The soil is classified as Candler Fine Sand which is well drained. See Figure 6.

Figure 6-Soils Information (Source : Hernando County GIS)

## Site Environmental

The following site characteristics are noted:

- The subject site is primarily vacant grassland.
- Gopher tortoise were observed on or within the vicinity of the subject property.
- There are no other federal or state listed species present on the property.
- No wetlands are located on this property.
- No significant trees or tree cover is present on the property.
- The soil is classified as Candler Fine Sand which is well drained

All required site surveys, reports and associated permits will be provided at the time of site development.

## Infrastructure

### Adequate Access/Transportation

The site has access to County Line Road, a major collector roadway, and Quality Drive, a local street. The applicant proposes a single connection to each roadway.

In addition, the applicant proposes the following relative to access and transportation:

- All access points shall meet county commercial driveway requirements
- The applicant will provide additional right of way along County Line Road as determined by the County Engineer
- The applicant will construct a sidewalk along Quality Drive in conjunction with that phase of development
- A traffic analysis will be provided at the time of development, and the developer will construct all improvements recommended by the approved study
- All outparcels will be interconnected by cross access easements; identified, provided and recorded at the time of subdivision plat approval
- Cross access to adjoining parcels on the east and west will not be provided as those sites are currently developed. The parcel also has access to Quality Drive, which is the designated frontage road for this area.

### Utilities

The subject site is within the service boundaries of the Hernando County Utilities Department. HCUD has both sewer and potable water in the vicinity of the project and the project will connect to County Water and Sewer. If required, the applicant will enter into a

utilities service agreement with HCUD to ensure the timing of connection to those facilities and/or conduct any required engineering study to identify any infrastructure capacity needs.

#### Drainage

The stormwater management system will be permitted with the South Florida Water Management District.

A certificate of adequate public facilities (concurrency) will be obtained at the time of site development.

### Deviations

The following deviations are approved with the current valid and unexpired master plan:

#### *Perimeter Setbacks*

- County Line Road-75 feet (deviation from 125 feet previously approved)
- Quality Drive-20 feet (deviation from 35 feet previously approved)

Additional deviation requests:

#### *Internal Commercial Lot Setbacks*

- Side-10 feet (deviation from 20 feet)
- Rear-15 feet (deviation from 35 feet)

## **Attachment 1**

**RESOLUTION NUMBER 2021- 157**

**WHEREAS**, Hernando County has adopted zoning regulations pursuant to Section 125.01(1) and Chapter 163, *Fla. Stat.*, which authorize the County to regulate the use of land in the unincorporated areas of Hernando County, Florida, and take action on the request herein; and,

**WHEREAS**, the Hernando County Board of County Commissioners (BOCC) conducted a duly advertised public hearing on September 14, 2021, to consider the requested changes in zoning on the specified parcels in Hernando County, Florida, as more fully described below.

**NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS OF HERNANDO COUNTY, FLORIDA, AS FOLLOWS:**

**APPLICANT:** Generations Christian Church of Trinity, Inc.

**FILE NUMBER:** H-21-36

**REQUEST:** Rezoning from AG/(Agricultural) to PDP(GC)/Planned Development Project (General Commercial) with Specific C-2/(Highway Commercial) Uses for Mini-warehouses and Outdoor Storage, with Deviations

**GENERAL LOCATION:** North side of County Line Road, approximately 340' east of Seven Hills Drive

**PARCEL KEY NUMBERS:** 1317685

**REQUEST:** Rezoning from AG/(Agricultural) to PDP(GC)/Planned Development Project (General Commercial) with Specific C-2/(Highway Commercial) Uses for Mini-warehouses and Outdoor Storage, with Deviations, as enumerated in the BOCC Action which is incorporated herein by reference and made a part hereof. The representations contained in the rezoning application are incorporated herein by reference and made a part hereof and are relied upon by the County to be true and correct. For purposes herein, it is presumed that all notice and advertising requirements have been satisfied.

**FINDINGS OF FACT:** ALL of the facts and conditions set forth in the County's staff memoranda and presented to the BOCC in connection with the public hearing in this matter are incorporated herein by reference and made a material part of this Resolution as integral to the BOCC's Action. The BOCC finds that the testimony and record supporting APPROVAL of the request to be credible and to constitute competent substantial evidence. In further support thereof, the BOCC makes the following specific findings of fact:

1. The proposed request is consistent with the County's adopted Comprehensive Plan and is compatible with the surrounding land uses.

Attachment: Approved Resolution No. 2021-157 (RES-2021-157 : Rezoning H2136 - Generations Christian Church of Trinity, Inc.)

S:\Share\P&Z\Resolutions\2021 Resolutions\Sept\_2021\H2136 Approval Resolution.docx

**CONCLUSIONS  
OF LAW:**

The BOCC is authorized to act on this matter pursuant to Chapters 125 and 163, *Fla. Stat.* Accordingly, after public hearing and testimony, being fully advised in the record, and based upon competent substantial evidence, the BOCC makes the following specific conclusions of law:

1. The proposed request is consistent with the County's adopted Comprehensive Plan and is compatible with the surrounding land uses.

**ACTION:**

After notice and public hearing, based upon the record in this matter and ALL of the findings of fact and conclusions of law above, the BOCC hereby APPROVES the request for a Rezoning from AG/(Agricultural) to PDP(GC)/Planned Development Project (General Commercial) with Specific C-2/(Highway Commercial) Uses for Mini-warehouses and Outdoor Storage, with Deviations, as set forth in the BOCC Action, which is incorporated herein by reference and made a part hereof. Any requests, uses, variances or exceptions that were requested in connection with this rezoning application but not specifically approved herein are hereby deemed DENIED.

ADOPTED IN REGULAR SESSION THE 14th DAY OF SEPTEMBER 2021.

**BOARD OF COUNTY COMMISSIONERS  
HERNANDO COUNTY, FLORIDA**

<b>AYES:</b>	Allocco, Champion, Holcomb, Dukes, Narverud

**RECESS/RECONVENE**

The Board recessed at 12:20 p.m. and reconvened at 12:30 p.m.

**Rezoning Petition Submitted by Generations Christian Church of Trinity, Inc.**

There was no public input.

**Motion**

To approve the staff recommendation (Resolution No. 2021-157).

<b>RESULT:</b>	<b>ADOPTED [UNANIMOUS]</b>
<b>MOVER:</b>	Wayne Dukes, Commissioner
<b>SECONDER:</b>	Elizabeth Narverud, Commissioner
<b>AYES:</b>	Allocco, Champion, Holcomb, Dukes, Narverud

**Master Plan Revision Petition Submitted by 5000 Calienta Street, LLC**

The Board accepted public input on this matter.

**Motion**

To approve the staff recommendation (Resolution No. 2021-158).

(Note: The Motion pertained to Modified Performance Condition No. 5 as approved by the Planning Department.)

<b>RESULT:</b>	<b>ADOPTED [4 TO 1]</b>
<b>MOVER:</b>	Jeff Holcomb, Second Vice Chairman
<b>SECONDER:</b>	Steve Champion, Vice Chairman
<b>AYES:</b>	Allocco, Champion, Holcomb, Narverud
<b>NAYS:</b>	Dukes

Comm. Champion temporarily left the meeting.

**BCC ACTION:**

On September 14, 2021, the Board of County Commissioners voted 5-0 to adopt Resolution 2021-157 approving the petitioner's request for a rezoning from AG/(Agricultural) to PDP(GC)/Planned Development Project (General Commercial) with specific C-2 uses for mini-warehouses and outdoor storage, with deviations, and the following performance conditions:

1. The petitioner must obtain all permits from Hernando County and other applicable agencies and meet all applicable land development regulations, for either construction or use of the property, and complete all applicable development review processes.
2. The petitioner shall provide a wildlife survey to include a gopher tortoise survey, prepared by a qualified professional prior to any development occurring on the property. Furthermore, copies of any required permits shall be provided prior to the issuance of development permits by Hernando County.
3. The petitioner must meet the minimum requirements of Florida Friendly Landscaping™ publications for design techniques, principles, materials, and plantings for required landscaping.
4. A Traffic analysis is required at the time of development. Any improvements identified by the Traffic Access Analysis shall be the responsibility of the developer.
5. Geotechnical subsurface testing and reporting in accordance with Hernando County's Facility Design Guidelines shall be conducted for all drainage retention ponds within the project.
6. All driveways to the subject development shall meet County Commercial Driveway Standards.
7. County Line Road is an Arterial Roadway; the petitioner shall be limited to one access point along County Line Road, and all outparcels shall be interconnected by cross-access easements, recorded at the time of subdivision plat approval. Additionally, the petitioner shall be allowed one access point along Quality Drive.
8. A sidewalk shall be constructed along the entire width of property along County Line Road.
9. Quality Drive is a Frontage Road; the petitioner shall construct a sidewalk along the entire width of the property.
10. The developer shall connect to the central water and sewer systems at time of vertical construction.

Attachment: Summary of BOCC Action (RES-2021-157 : Rezoning H2136 - Generations Christian Church of Trinity, Inc.)

11. The petitioner shall coordinate with the County Engineer during site design to determine the rights-of-way needs and reservation requirements for County Line Road.
12. The only C-2 uses permitted shall be mini-warehouses and outdoor storage for boats/recreational vehicles.
13. Minimum Setbacks and Maximum Height:  
Front: 75' (Deviation from 125')  
Side: 20'  
Rear: 20' (Deviation from 35')  
Maximum Height: 35 feet
14. Perimeter Setbacks:  
Side: 20'  
Rear: 35'
15. The petitioner shall be required to screen the mini-warehouse and outdoor storage in accordance with the minimum requirements of the Land Development Regulations.
16. The petitioner shall provide full cutoff fixtures and retain all light on site to prevent any light spillage onto neighboring residential parcels.
17. The petitioner shall be required to meet the requirements for large retail development, in accordance with Appendix A, Article III, Section III and Article VIII, Section 6 of the Land Development Regulations.
18. The petitioner shall be required provide a 10-foot wide landscape buffer along the entire perimeter of the property. Existing vegetation shall be retained and/or enhanced to achieve a minimum of 80% opacity.
19. The petitioner shall coordinate with Pasco County at the time of site plan approval to identify appropriate driveway access along County Line Road.
20. The petitioner shall provide a revised plan in compliance with all the performance conditions within 30 calendar days of BCC approval. Failure to submit the revised plan will result in no further development permits being issued.

## STAFF REPORT

---

**HEARINGS:** Planning & Zoning Commission: July 14, 2025  
Board of County Commissioners: September 2, 2025

**APPLICANT:** Granger Development LLC

**FILE NUMBER:** H-25-09

**REQUEST:** Master Plan Revision and Rezoning for a property zoned PDP(GC) Planned Development Project (General Commercial) to include additional C-2 uses with deviations

**GENERAL LOCATION:** North side of County Line Road, approximately 340' east of Seven Hills Drive.

**PARCEL KEY NUMBER(S):** 01317685

---

### BACKGROUND

The project was previously approved by the Board of County Commissioner (Resolution 2021-157) on September 14, 2021, as PDP (GC) Planned Development Project (General Commercial) with specific C-2 uses for mini-warehouse and outdoor storage with deviations (H-21-36). The associated master plan included the following uses and intensity:

Development Phase	Uses/ Intensity
Phase 1	110,000 square feet of mini warehouses
Phase 2	5,000 square feet of mini warehouses and outdoor storage of 48 RV/boat spaces
Phase 3	3 commercial outparcels at 30,000 square feet with all allowable uses under the C-1 District

#### Deviations Approved (H-21-36):

- A 75' setback along County Line Road (deviation from 125')
- A rear setback of 25' (deviation from 35')

The Board of County Commissioners approved a Master Plan Revision for the site on August 27, 2024 (H-24-17) re-establishing the uses and modifying perimeter setbacks.

### APPLICANT'S REQUEST

The petitioner is requesting a revision to the approved master plan to maintain the existing PDP(GC) Planned Development (General Commercial) zoning designation, which includes the previously approved C-2 uses of mini warehouse and outdoor storage, while seeking to incorporate additional C-2 uses.

The proposed development consists of three 3 commercial sites along County Line Road (designated as Area 1) and a 5-acre parcel to the north (designated as Area 2), both of which are anticipated to accommodate a variety of commercial uses.

An internal access drive or cross access agreement will allow all components of the development to access Quality Drive. In addition, a right of way dedication along County Line Road will be provided as required by the County Engineer.

The total non-residential square footage for the project will not exceed 155,000 square feet. The subject property is currently cleared and vacant, with direct access to both County Line Road and Quality Drive. Quality Drive functions as a reverse frontage road and connects to a signalized intersection at Mariner Boulevard.

**Additional Uses Requested**

The following additional C-2 Uses in **Area 1** along County Line Road are requested:

- Drive-in Restaurants
- Tire and automotive accessory establishments
- Automotive specialty establishments
- Automobile service establishments exceeding 4 bays (excluding body shops)
- Veterinary clinics
- Hospital (permitted in all zones, requested Area 1 & 2 due to the required acreage)
- Alcoholic beverage dispensation
- Mini warehouses (previously approved in Area 1 & 2)
- Outdoor storage for boats/recreational vehicles (previously approved in Area 1 & 2)

The following Special Uses are requested in **Area 2** along Quality Drive:

- Congregate Care facilities
- Hospital (permitted in all zones, requested Area 1 & 2 due to the required acreage)

Additionally, the petitioner is requesting the capability to construct only uses requested in either Area 1 or 2 and spread across the entirety of the site without any increase to approved development intensity, if an appropriate use reflects the need for the additional acreage.

**Deviations Requested**

- Internal Commercial Lot setback, side 10' (deviation from 20')
- Internal Commercial Lot setback, rear 10' (deviation from 35')
- Maximum Building Height 45' (deviation from 35')

The petitioner is also seeking to retain the deviations previously approved via H-24-17.

**SITE CHARACTERISTICS**

**Site Size:** 9.3 acres

**Surrounding Zoning;**

**Land Uses:** North: PDP(SU); PDP(SF); PDP(MF); Suncoast Elementary;  
Wellington subdivision

South: Pasco County

East: AG; Congregate Care Facility

West: PDP(GC); Medical/Office Facilities

**Current Zoning:** PDP(GC) Planned Development Project (General Commercial) with Specific C-2 uses for Mini-warehouse and Outdoor Storage, with deviations.

**Future Land Use**

**Map Designation:** Commercial

**ENVIRONMENTAL REVIEW**

The applicant shall be required to comply with all Florida Fish and Wildlife Commission permitting requirements at the time of conditional plat.

**Flood Zone:** X

**UTILITIES REVIEW**

The Hernando County Utilities Department (HCUD) does not currently supply water or sewer service to the parcel. Water and sewer services are available to the subject parcel. HCUD has no objection to the master plan revisions and additional uses on the property. The site is subject to a utility capacity analysis and connection to the central water and wastewater systems at time of site development.

**ENGINEERING REVIEW**

The subject parcel is located north of County Line Road, approximately 340' east of Seven Hills Drive. The County Engineer has reviewed the petitioner's request and provided the following comments:

- This project lies within the Weeki Wachee watershed, in basins C5410, -440, and -503. The base flood elevation is 53.2 in basin -410, 42.5 in basin -440, and 42.2 in basin -503 in NAVD 88. The parcel elevation ranges from 66 to 42.
- The driveway connection to County Line Road may be limited to right-in/right-out only, upon the expansion of County Line Road to 4 (four) lanes.
- A Traffic Access Analysis is required. Any improvements identified by the Traffic Access Analysis will be the responsibility of the developer to install.
- Dedication of 40' of right of way along County Line Road is required.

**Comments:** The final access configuration to and from County Line Road will be determined through coordination between the petitioner and the County Engineer and memorialized on the Conditional Plat. Revisions to the access management

strategy for this access point may occur without requiring a revision to the master plan.

## LAND USE REVIEW

The project is proposed to consist of 2 phases of commercial development, with a maximum of 155,000 square feet of all C-1 and specific C-2 uses. The project has been proposed to allocate specific uses to each phase, with the flexibility to extend a use across both phases if the need arises through a specific user utilizing the site.

### General Project Requirements

#### **Proposed Perimeter Setbacks:**

The petitioner has proposed the following perimeter setbacks for the subject site:

Perimeter Setback	Setback Width
South (County Line Road)	75' (Previously Approved Deviation from 125')
North (Quality Drive)	20' (Previously Approved)
West & East Sides	20'

**Comments:** The County Engineer has approved the setback deviation request submitted by the petitioner. The petitioner shall dedicate 40' of right of way as required by the Department of Public Works. The perimeter setbacks shall be measured from the property line, excluding any future right-of-way dedication.

#### **Proposed Commercial Building Setbacks (Internal):**

The petitioner has proposed the following setbacks for the commercial buildings:

Internal Lot Setback	Setback Width
Side	10' (deviation from 20')
Rear	10' (deviation from 35')
Front Mini Storage	15'

#### **Buffers:**

The petitioner has proposed the following perimeter buffers for the subject site:

Buffer Location	Buffer Width
South	20' Landscaped Buffer
North	10' Landscaped Buffer, 0' Along DRA
East	20' Vegetative Buffer
West	10' Vegetative Buffer

**Comments:** All buffers shall meet the minimum County Land Development Regulations requirements. The petitioner shall be required to meet the buffer requirements for Large Retail Development Standards along the northern perimeter of the property due to its adjacency to residential neighborhoods. The northern buffer shall be buffered with a 35' landscape buffer supplemented to 80% opacity and enhanced

with a 6' landscape fence or wall as determined by the applicant. No buffer has been proposed along the drainage retention area. A buffer and landscape plan shall be provided at the time of site development. The northern property buffer is defined under the Large Retail Standards below.

**Large Retail Development Standards:**

The petitioner has indicated that the proposed project will consist of 155,000 square feet of office and/or commercial square footage. Due to the complexity and size of the project, it will be required to meet large retail development standards as specified below in addition to the general commercial standards:

- Commercial development with any single building, or single site development with multiple buildings with the same use and owned and managed by the same entity, greater than 65,000 square feet of gross floor area is only allowable through approval as a Planned Development Project and which otherwise satisfies these requirements and this article. This type of development may be compatible in a given commercial zoning district but because of its size, intensity, increased traffic-generation, extended hours of operation, or proximity to residential areas/districts or public schools require additional conditions as a prerequisite for approval at a requested location.

The applicant shall have the burden of adequately demonstrating compliance with all of the minimum standards set forth below and otherwise contained within this article. The governing body, in their sole discretion and following public hearing and notice, shall be the final arbiter of determining whether compliance with these minimum standards has been adequately demonstrated and whether to approve, approve in part or deny a particular request hereunder.

- **Mechanical/operational equipment including HVAC located at ground level** shall be set back at least one hundred (100) feet from any property line external to the development site and shall be visually shielded through enhanced screening or shall be located on the roof and **shall be visually shielded with a parapet wall**. All mechanical/operational equipment shall be sound attenuated as necessary to comply with the county's noise ordinance.
- Where the proposed commercial development consists of multiple buildings (excluding out parcels), then loading areas and loading docks should be situated between said buildings in a manner which allows the buildings to act as screens. All loading areas/docks shall be set back at least one hundred (100) feet from any property line external to the development site and shall be screened at 100% opacity through the use of landscape plantings, berms, fences or walls. The County may require the use of absorptive noise barrier walls for commercial noise reduction.
- All on-site advertising signs, including out parcels, shall be designed as part of a complete signage system and shall be limited to ground mounted monument type signs. Ground mounted monument type signs are signs where the bottom edge of the sign is no greater than ten (10) feet above grade and which otherwise meets all sign requirements in this code.

- **Buffering.** A thirty-five (35) ft. wide buffer screened at 80% opacity at a height of six (6) feet above finished grade shall run along each rear and/or side property line which abuts any residential or agricultural zoned property. This buffer shall be screened through the use of landscape planting and landscape berms and may be augmented through the use of fences or walls, existing natural vegetation, and/or a combination thereof. The County may require the use of absorptive noise barrier walls for commercial noise reduction.

**Comments:** The petitioner shall be required to meet the buffer requirements for Large Retail Development Standards along the northern perimeter of the property due to its adjacency to residential neighborhoods. This perimeter shall be buffered with a 35' landscape buffer supplemented to 80% opacity and enhanced with a 6' landscape fence or wall as determined by the applicant.

**Screening:**

Hernando County Land Development Regulations require screening of outdoor storage from adjoining and contiguous properties by a wall, fence or other approved enclosures. Screening shall meet an eighty (80) percent opacity standard. Such screening shall be located behind the building line and shall have a minimum height of five (5) feet and maximum of eight (8) feet.

**Comments:** If mini storage is constructed on the site, it shall be screened in accordance with the minimum requirements of the Land Development Regulations.

**Parking:**

County Land Development Regulations require minimum off-street parking ratios based on the type of use. If the master plan is approved, the petitioner shall be required to meet the minimum parking requirements of the Land Development Regulations.

**Lighting:**

County Land Development Regulations require lighting that enhances the visual impact of the project on the community and to specifically address lighting intensity levels and glare accordingly. Commercial buildings and projects shall be designed to provide safe, convenient and efficient lighting for pedestrians and vehicles.

**Comments:** If this project is approved, the petitioner should be required to provide full cutoff fixtures and retain all light on-site and prevent any light spillage onto neighboring properties.

**Landscape**

The petitioner shall meet the minimum requirements of Florida Friendly Landscaping™ publications and the Florida Yards and Neighborhoods Program for design techniques, principles, materials and plantings for required landscaping.

**Residential Protection Standards**

In addition to the Large Retail Development Standards, the subject site shall be subject to the following Residential Protection Standards, in accordance with Appendix A, Article VIII, Section 6. If there is a conflict between the Residential Protection Standards and the Large Retail Development Standards, the Large Retail Development Standards shall govern.

- There shall be no speakers or other sound equipment located within 100 feet of any single-family residential district property line.
- There shall be no buildings containing alcoholic beverage dispensation establishments, convenience stores, or automotive and truck repair establishments located within 100 feet of any single-family residential district property line.
- No commercial activities which include customer entrances, drive-up windows, ordering boxes, or loading/unloading areas shall be allowed to operate between the hours of 12 midnight and 7:00 a.m. within 100 feet of any single-family residential district property line.
- No building within 100 feet of any single-family residential district property line shall be more than 20 feet in height.
- All loading bays and loading docks must be a minimum of 100' from any single-family residential district property line. Additionally, all loading bays and loading docks must be screened from view from the public right-of-way or single-family residential district property line. Screening may include landscape plantings, berms, fences or walls.
- Air conditioning and/or other operational equipment must be oriented away from single family residentially zoned property or screened to minimize noise impacts and reduce visual incompatibility to the single family residentially zoned property. Screening may include landscape plantings, berms, fences or walls.

## COMPREHENSIVE PLAN REVIEW

### Future Land Use Map, Commercial Category

The area is characterized by commercial and residential uses. The subject property is located within the Commercial land use classification on the adopted Future Land Use Map. The subject site is located on the north side of County Line Road, approximately 340' east of Seven Hills Drive.

### Commercial Category

**Objective 1.04G:** The Commercial Category allows primarily retail, office, and commercial service uses with an overall average gross floor area ratio of 0.35 but also includes limited industrial, recreational and institutional uses. Residential and mixed uses may be allowed subject to locational criteria and performance standards.

**Strategy 1.04G(1):** Commercial development as envisioned on the Future Land Use Map is intended primarily for locations at major intersections and along major corridors where service to local and regional markets are enhanced by transportation patterns. New commercial zoning is directed to these mapped areas. Commercial areas that are not mapped but are allowed under this Future Land Use Category include neighborhood commercial and specialty commercial uses as described in this Plan, commercial approved as part of mixed-use developments, commercial designated by planned development districts, the infill development of existing commercial areas, commercial areas extending from designated commercial nodes, and pre-existing commercially developed and designated areas. Frontage roads and cross-access between commercial uses is required where needed in accordance with the provisions of this Plan and adopted land development regulations.

**Strategy 1.04G(4):** Development in commercial nodes shall provide for extension of the County's frontage road network on arterial roadways in accordance with adopted land development regulations. Proposed commercial development may only extend outward from a commercial node where there is a frontage road or cross-access connected to the proposed development in order to encourage compact commercial development and maintain the function of adjacent roadways, especially arterials and collectors. Commercial development shall provide for multi-modal interconnection between commercial activities and adjacent residential areas.

**Strategy 1.04G(5):** Commercial development in nodes may be required to utilize unified plans in accordance with adopted land development regulations for services and amenities including, but not limited to, drainage, landscaping, access management, multi-modal site circulation, and signage.

**Strategy 1.04G(2):** Commercial development as mapped by the Future Land Use Map is intended to create and identify functional nodes that conveniently serve the supporting population without compromising the integrity of residential areas. Commercial nodes:

- a. are located at the intersections of roads having collector status or greater;
- b. recognize concentrations of existing commercial development;
- c. are generally less than 100 acres in size within the Adjusted Urbanized Area of the County;
- d. are generally less than 60 acres in size outside of or on the fringe of the Adjusted Urbanized Area of the County;
- e. may be located in Centers or Corridors pursuant to the related strategies.

**Strategy 1.04G(4):** Development in commercial nodes shall provide for extension of the County's frontage road network on arterial roadways in accordance with adopted land development regulations. Proposed commercial development may only extend outward from a commercial node where there is a frontage road or cross-access connected to the proposed development in order to encourage compact commercial development and maintain the function of adjacent roadways, especially arterials and collectors. Commercial development shall provide for multi-modal interconnection between commercial activities and adjacent residential areas.

**Comments:** The subject site is located within the Commercial land use classification. The uses requested through this application are consistent with the Comprehensive Plan, Future Land Use Element strategies for the commercial classification.

**Planned Development Projects and Standards**

**Objective 1.10C:** Planned Development Project (PDP) zoning introduces flexibility to the land development process. The PDP is developed as a zoning district that may include multiple land uses and provides for the mitigation of impacts through performance standards. The PDP process may be used in any Future Land Use Category.

**Strategy 1.10C(1):** A Planned Development Project (PDP) is designed as an integral unit with one or more land uses utilizing a Master Plan to illustrate and describe the site layout and characteristics including, but not limited to, uses and use restrictions, density and intensity, site and building layout and design, site coverage and designated open space, construction and phasing plans, and other detailed information about the project.

**Objective 1.10D:** Design criteria for Planned Development Projects (PDP) shall address as applicable building placement and height, parking, multi-modal circulation, drainage, landscaping, architectural standards, public space amenities, and energy efficiency. The PDP process allows flexibility in standards for projects that provide environmental protection, landscaping, increased open space, public facilities, innovative design, public benefits, or features that promote quality community design and land use compatibility.

**Strategy 1.10D(3):** Site circulation and multi-modal access standards are encouraged where appropriate for all new Planned Development Projects to provide for integration of multiple travel modes appropriate to the scale and context of the surrounding development. Concepts such as the following may be utilized:

- a. relationships to community focal points such as schools, shopping centers, government offices, parks, and public gathering areas;
- b. standards for traffic-calming techniques, Complete Streets, connected streets and blocks, and multi-modal layout focusing on attractive, safe, and convenient access to business fronts and transitions between residential and business areas.

**Strategy 1.10D(5):** Architectural standards and/or building construction standards are encouraged for Planned Development Projects where necessary to provide guidance for design elements appropriate to the scale of the development. Items to be considered for these types of projects may include the following:

- a. architectural styles, building materials, design elements, roof shapes and architectural details;
- b. building mass step-down scale;
- c. street-visible and hidden facades;
- d. accessory buildings;
- e. doors, windows and storefronts;
- f. awnings, canopies, and arcades
- g. camouflage or covering of unsightly structures such as antennas, air conditioners and similar equipment.

**Comments:** At the time of development, the petitioner shall be required to provide a comprehensive site development plan that will incorporate consistent architectural styles, building materials, and design elements to ensure continuity of the development style within the proposed project.

Additionally, the petitioner shall provide a multi-modal transportation plan that incorporates not only vehicular transportation, but incorporates bicycle and pedestrian access to the development, including those residents living in Wellington.

## Transportation Element

### Road Network – Frontage Roads

**Objective 5.01B:** Maintain and expand a system of frontage roads and cross-access easements parallel to County arterial and collector roads. The frontage road network is designed to enable the creation of shared drives, shared easements, and alternative routes. Frontage road configuration is intended to optimize corridor and roadway network function, maintain capacity on the functionally classified network, and provide aesthetic, safe and convenient access to multiple properties and business sites.

**Strategy 5.01B(3):** The County should require cross-access easements, shared drives, shared access and other techniques that optimize the function of the roadway network where frontage roads are not required.

**Strategy 5.01B(4):** The County should encourage land use patterns that optimize the function of frontage roads and similar access management strategies through:

- a. clustering of development to enhance the establishment of viable frontage road links;
- b. application of site-specific standards and techniques at Centers and Corridors outlined in the Future Land Use Element of this Plan.

**Comments:** As the subject site is located off County Line Road, a frontage road is not required; however, the development shall be constructed to utilize Quality Drive as a reverse frontage road, providing for adequate cross-access and shared parking throughout the development. Regardless of the final users, the project shall be developed as one unified project with continuity in access, architectural design and layout.

## FINDINGS OF FACT

Master Plan Revision and Rezoning for a property zoned PDP(GC) Planned Development Project (General Commercial) to include additional C-2 uses with deviations is appropriate based on consistency with the Comprehensive Plan and compatibility with the surrounding areas, subject to appropriate performance conditions.

**NOTICE OF APPLICANT RESPONSIBILITY**

*The rezoning process is a land use determination and does not constitute a permit for either construction on, or use of, the property, or a Certificate of Concurrency. Prior to use of, or construction on, the property, the petitioner must receive approval from the appropriate County department(s) for the proposed use.*

*The granting of this land use determination does not protect the owner from civil liability for recorded deed restrictions which may exceed any county land use ordinances. Homeowner associations or architectural review committees require submission of plans for review and approval. The applicant for this land use request should contact the local association or the Public Records for all restrictions applicable to this property.*

**STAFF RECOMMENDATION**

It is recommended that the Planning and Zoning Commission recommend the Board of County Commissioners adopt a resolution approving the petitioner's request for a Master Plan Revision and Rezoning for a property zoned PDP(GC) Planned Development Project (General Commercial) to include additional C-2 uses with deviations and the following performance conditions:

1. The petitioner must obtain all permits from Hernando County and other applicable agencies and meet all applicable Land Development Regulations, for either construction or use of the property, and complete all applicable development review processes.
2. The petitioner shall provide a wildlife survey to include a gopher tortoise survey, prepared by a qualified professional prior to any development occurring on the property. Furthermore, copies of any required permits shall be provided prior to the issuance of development permits by Hernando County.
3. The petitioner must meet the minimum requirements of Florida Friendly Landscaping™ publications for design techniques, principles, materials, and plantings for required landscaping.
4. A Traffic Analysis is required at the time of development. Any improvements identified by the Traffic Access Analysis shall be the responsibility of the developer.
5. Geotechnical subsurface testing and reporting in accordance with Hernando County's Facility Design Guidelines shall be conducted for all drainage retention ponds within the project.
6. All driveways to the subject development shall meet County Commercial Driveway Standards.
7. The petitioner shall dedicate 40' of right of way along County Line Road for its future expansion.

8. Additional permitted C-2 uses shall be restricted to the following:

- Drive-in Restaurants
- Tire and automotive accessory establishments
- Automotive specialty establishments
- Automobile service establishments exceeding 4 bays (excluding body shops)
- Veterinary clinics
- Hospital (permitted in all zones, requested Area 1 & 2 due to the required acreage)
- Alcoholic beverage dispensation
- Mini warehouses (previously approved in Area 1 & 2)
- Outdoor storage for boats/recreational vehicles (previously approved in Area 1 & 2)
- Hospital (Special Exception Use)
- Congregate Care Facility (Special Exception Use)

9. Minimum Perimeter Setbacks and Maximum Height:

- South/County Line Road: 75' (deviation from 125')
- North/Quality Drive: 20' (previously approved)
- East: 20'
- West: 20'
- Maximum Height: 45' (deviation from 35')

Perimeter setbacks shall be measured from the property line, excluding any future right of way.

10. Internal Lot Setbacks:

- Side: 10'
- Rear: 10'
- Front (mini storage): 15'

11. Buffers

- South: 20'
- North: 35'
- East: 35'
- West: 10'

All buffers must meet 80% opacity within 18 months of planting.

12. The petitioner shall be required to meet the requirements of the Large Retail Development Standards, Residential Protection Standards and General Commercial Standards, in accordance with the Land Development Regulations. If there is a conflict between these provisions, the Large Retail Development Standards shall govern.

13. The petitioner shall coordinate with Pasco County at the time of site plan approval to identify appropriate driveway access along County Line Road.

14. The petitioner shall provide full cutoff fixtures and retain all light on site to prevent any light spillage onto neighboring residential parcels.
15. The petitioner shall be required to meet the minimum parking requirements in accordance with the Land Development Regulations.
16. The petitioner shall be required to comply with all Florida Fish and Wildlife Commission permitting requirements at the time of conditional plat.
17. The developer shall provide a utility capacity analysis and connection to the central water and wastewater systems at the time of site development.
18. The final access configuration to and from County Line Road will be determined through coordination between the petitioner and the County Engineer and memorialized on the conditional plat. Any revisions to the access management strategy for this access point may occur without requiring a revision to the master plan.
19. The petitioner shall be required to meet the screening requirements for outdoor storage of Hernando County Land Development Regulations. Screening shall meet an 80% opacity standard. Such screening shall be located behind the building line and shall have a minimum of five (5) feet and maximum of eight (8) feet.
20. The petitioner shall be required to provide a comprehensive site development plan that will incorporate consistent architectural styles, building materials, and design elements to ensure continuity of the development style within the proposed project.
21. The petitioner shall provide a multi-modal transportation plan that incorporates not only vehicular transportation, but incorporates bicycle and pedestrian access to the development, including those residents living in Wellington.
22. The development shall be constructed to utilize Quality Drive as a reverse frontage road, providing for adequate cross-access and shared parking throughout the development.
23. The petitioner shall provide a revised plan in compliance with all the performance conditions within 30 calendar days of Board of County Commission approval. Failure to submit the revised plan will result in no further development permits being issued.

## AGENDA ITEM

---

### TITLE

Rezoning Petition Submitted by Karen B. Leveritt TTEE (H2517)

### BRIEF OVERVIEW

**Request:**

Rezoning from PDP(OP) Planned Development Project (Office Professional) to R-1A (Residential)

**General Location:**

Frontage on Lake Lindsey Road at its intersection with Forbes Street

### FINANCIAL IMPACT

A matter of policy. There is no financial impact.

### LEGAL NOTE

The Planning and Zoning Commission has jurisdiction to make a recommendation on the subject application. The Applicable Criteria for a Zoning District Amendment are contained in Appendix A, (Zoning Code) Article VI. The Zoning District Amendment must be consistent with the Comprehensive Plan.

### RECOMMENDATION

It is recommended that the Planning and Zoning Commission recommend the Board of County Commissioners adopt a resolution approving the petitioner's request for a rezoning from PDP(OP) Planned Development Project (Office Professional) to R-1A (Residential).

## STAFF REPORT

---

**HEARINGS:** Planning & Zoning Commission: July 14, 2025  
Board of County Commissioners: September 2, 2025

**APPLICANT:** Karen B Levitt TTEE

**FILE NUMBER:** H-25-17

**REQUEST:** Rezoning from PDP(OP) Planned Development Project (Office Professional) to R-1A (Residential)

**GENERAL LOCATION:** Frontage on Lake Lindsey Road at its intersection with Forbes Street

**PARCEL KEY NUMBER:** 337950

---

### APPLICANT'S REQUEST

The petitioner is requesting to rezone their 1.9-acre parcel PDP(OP) Planned Development Project (Office Professional) to R-1A (Residential). The petitioner was unaware of the zoning when she purchased the home and property as it is surrounded by R-1A. She would like to rezone the property back to the original zoning to install a pool.

### SITE CHARACTERISTICS

**Site Size:** 1.9 acres

**Surrounding Zoning & Land Uses:** North: PDP(REC) MPR  
South: R-1A; Single-family  
East: AG; Single-family  
West: R-1A; Single-family

**Current Zoning:** PDP(OP) Planned Development Project (Office Professional)

**Future Land Use Map Designation:** Agricultural

### UTILITIES REVIEW

Hernando County Utilities Department does not currently supply water or wastewater service to this parcel. Water and wastewater services are not available to this parcel. HCUD has no objection to the zoning change from Commercial to Residential to allow the installation of a pool, subject to

Health Department approval of any upgrades that may be required for the existing onsite sewage treatment and disposal system.

## ENGINEERING REVIEW

The County Engineering Department has reviewed the request and indicated no traffic concerns.

## LAND USE REVIEW

Minimum R-1A (Residential) Building Setbacks:

- Front: 25'
- Side: 10'
- Rear: 20'

The R-1A district is designed to allow the continued development of low-density, single-family housing. The Hernando County Code of Ordinances, Appendix A, Article IV, Section 2 identifies the permitted uses within the R 1A zoning district as follows:

The following regulations apply in the residential districts as indicated:

A. R-1A Residential District:

(1) Permitted uses:

(a) Single-family dwellings.

(b) Mobile Homes:

Homes of six or fewer residents which meet the definition of a community residential home as defined by State law and which otherwise satisfies the requirements of this zoning code.

Special Exceptions:

- i. Home occupation
- ii. Lodging
- iii. Bed and Breakfast establishments

## COMPREHENSIVE PLAN REVIEW

The subject is located within the Residential Land Use designation on the County's adopted Comprehensive Plan. The petitioner's parcel is located on Lake Lindsay Road, rezoning from PDP OP (Office Professional) to R -1A (residential) is acceptable due to the surrounding zoning in the area and the previous zoning of the property.

### Future Land Use, Residential Category

Strategy 1.04A (3) The Residential Category accommodates residential growth clustered in and around urbanized areas and those areas that

maximize the efficient use of infrastructure contained in long range facilities plans of the County.

**Comments:**

The parcel is within the Residential land use classification and is surrounded by residential parcels. The proposed rezoning is consistent with the strategies for residential density and the pattern of land development on the surrounding parcels.

**FINDINGS OF FACT**

A rezoning from PDP(OP) Planned Development Project (Office Professional) to R-1A (Residential) is appropriate based on consistency with the County's adopted Comprehensive Plan and consistency with the surrounding residential uses.

**NOTICE OF APPLICANT RESPONSIBILITY**

*The rezoning process is a land use determination and does not constitute a permit for either construction on, or use of, the property, or a Certificate of Concurrency. Prior to use of, or construction on, the property, the petitioner must receive approval from the appropriate County department(s) for the proposed use.*

*The granting of this land use determination does not protect the owner from civil liability for recorded deed restrictions which may exceed any county land use ordinances. Homeowner associations or architectural review committees require submission of plans for review and approval. The applicant for this land use request should contact the local association or the Public Records for all restrictions applicable to this property.*

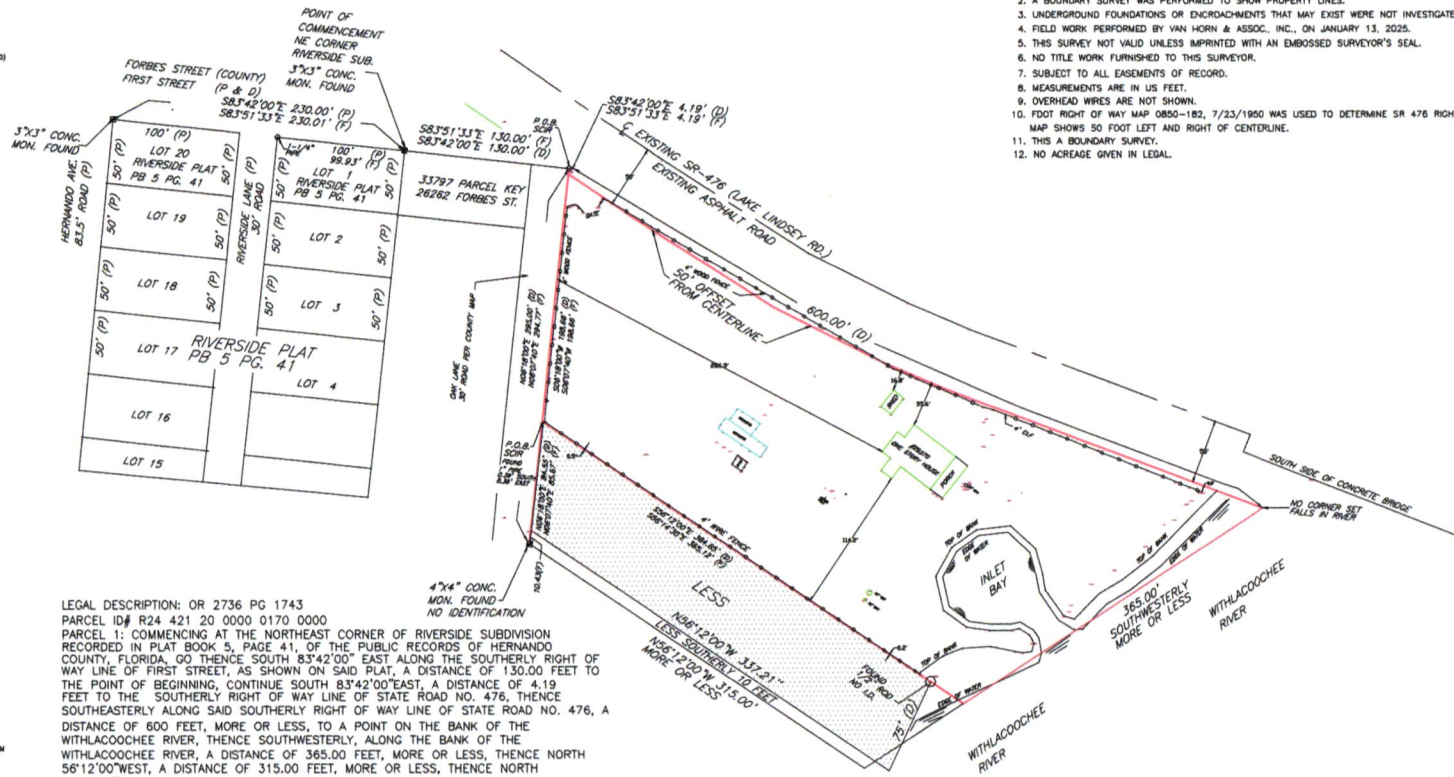

**STAFF RECOMMENDATION**

It is recommended that the Planning and Zoning Commission recommend the Board of County Commissioners adopt a resolution approving the petitioner's request for a rezoning from PDP(OP) Planned Development Project (Office Professional) to R-1A (Residential).

#### TITLE

Rezoning Petition Submitted by John P Shank and JoAnn Shank (H-25-18)

#### BRIEF OVERVIEW

##### Request:

Rezoning from PDP(MF) to AR-2 (Agricultural Residential 2)

##### General Location:

North side of Jacqueline Road, approximately 325' west of Madison Street

#### FINANCIAL IMPACT

A matter of policy. There is no financial impact.

#### LEGAL NOTE

The Planning and Zoning Commission has jurisdiction to make a recommendation on the subject application. The Applicable Criteria for a Zoning District Amendment are contained in Appendix A, (Zoning Code) Article VI. The Zoning District Amendment must be consistent with the Comprehensive Plan.

#### RECOMMENDATION

It is recommended that the Planning and Zoning Commission recommend the Board of County Commissioners adopt a resolution approving the petitioner's request for a rezoning from PDP(MF)/ Planned Development Project (Multifamily) to AR-2 (Agricultural-Residential 2).

## STAFF REPORT

---

**HEARINGS:** Planning & Zoning Commission: July 14, 2025  
Board of County Commissioners: September 2, 2025

**APPLICANT:** John P and JoAnn Shank

**FILE NUMBER:** H-25-18

**REQUEST:** Rezoning from PDP(MF)/Planned Development Project (Multifamily) to AR-2 (Agricultural Residential)

**GENERAL LOCATION:** North side of Jacqueline Road, approximately 325' west of Madison Street

**PARCEL KEY NUMBER(S):** 1190758

---

### APPLICANT'S REQUEST

In May 2024, the petitioners purchased the subject site. At the time, the property was listed as AR-2 (Agricultural Residential) according to the County public records. The petitioner received a mobile home permit for the subject site and had it installed. Unfortunately, the zoning was listed incorrectly, and the parcel had been rezoned to PDP(MF)/Planned Development Project (Multifamily). This was discovered when the petitioner submitted for a detached garage permit for the parcel in March of 2025.

The petitioner's request is to rezone the subject property back to AR-2 (Agricultural Residential – 2) to bring the mobile home on the site into conformance and to allow the placement of a detached garage. The petitioner had purchased the property and placed the mobile home in good faith and wishes to continue to live on the property. No non-conforming uses will be created through this rezoning application; the mobile home meets setback requirements and the detached garage will be placed in accordance with AR-2 setbacks upon building permit approval.

### SITE CHARACTERISTICS

**Site Size:** 1.25 acres

**Surrounding Zoning;**

**Land Uses:** North: PDP(MF); single family residential uses  
South: AR2, C1 residential and commercial uses  
East: AR2; vacant agricultural-residential  
West: AR2, PDP(MF); single-family residential uses

**Current Zoning:** PDP(MF) Planned Development Project (Multifamily)

**Future Land Use Map Designation:** Residential

**UTILITIES REVIEW**

The Hernando County Utilities Department (HCUD) does not currently supply water or wastewater service to this parcel. Water service is not available. There is an 8" sewer force main that runs along Jacqueline Road. HCUD has no objection to the requested rezoning subject to Health Department approval of an appropriate Onsite Sewage Treatment and Disposal System for the project.

**Comments:** The petitioner has an existing onsite sewage treatment and disposal system on the site, installed at the time of mobile home permitting.

**ENGINEERING REVIEW**

The subject site is located on the North side of Jacqueline Road, approximately 325' west of Madison Street. The County Engineer reviewed the petitioner's request and had the following comments:

- No additional driveways will be permitted.
- May need to upgrade existing driveway to current Hernando County Standards. Refer to Hernando County Facility Design Guideline IV-26.

**Comments:** The petitioner shall be required to coordinate with the Department of Public Works to determine what upgrades are necessary to the existing driveway. Any upgrades shall be the responsibility of the applicant.

**LAND USE REVIEW**

Minimum AR-2 (Agricultural/Residential) Building Setbacks:

- Front: 50'
- Side: 10'
- Rear: 35'

The AR-2 district is designed to allow the continued development of low-density, single-family housing. The Hernando County Code of Ordinances, Appendix A, Article IV, Section 13 identifies the permitted uses within the AR zoning district as follows:

A. The following regulations apply to agricultural/residential districts as indicated:

(1) Permitted uses:

(a) All agricultural/residential districts:

- i. Aquaculture
- ii. Grazing livestock at the rate of one mature animal and offspring less than one year of age, per acre.
- iii. Poultry and swine for home consumption maintained at least seventy-five (75) feet from adjacent property.
- iv. Horticultural specialty farms, including the cultivation of crops.
- v. Accessory structures related to the principal use of the land.
- vi. Pigeon aviaries with a maximum of 1,500 square feet of area devoted to housing pigeons per acre.

- vii. Sales on the premises of permitted agricultural products produced on the premises: provided that where such products are sold from roadside stands, such stand shall be set back a safe distance from any public street right-of-way and shall provide for automobile access and off-street parking space in such a manner so as to not create an undue traffic hazard on the street on which such roadside stand is located.

(b) Agricultural/residential:

- i. Single-family dwellings
- ii. Mobile homes

## COMPREHENSIVE PLAN REVIEW

### Property Rights Element

**Objective 12.02A:** Private property rights will be protected through alternative development techniques, the continuance of non-conformities, procedures for vested rights and other appropriate mechanisms.

**Strategy 12.02A(2):** Existing legal zonings and related entitlements/property rights that do not conform with the Future Land Use Map Category shall be allowed to continue under this Plan and their entitlements shall not be diminished.

**Comments:** The petitioner purchased the property in good faith based on county records that were incorrect at the time of property purchase. Once this issue was identified, the petitioner coordinated with the Development Services Department staff to submit a rezoning application to revert the zoning back to the previous AR-2 zoning district. The Comprehensive Plan recognizes vested property rights through the Property Rights Element; as the petitioner is coordinating with the County to rezone the parcel, staff has no objection to the rezoning request.

## FINDINGS OF FACT

The rezoning from PDP(MF) Planned Development Project (Multifamily) to AR (Agricultural Residential) is appropriate based on the following findings of fact:

1. The subject site has existing property rights as evidenced by the approved mobile home permit on the site;
2. The petitioner purchased the property in good faith based on County records indicating an incorrect zoning;
3. The request is consistent with the Comprehensive Plan and is compatible with the development patterns along Jacqueline Road.

## NOTICE OF APPLICANT RESPONSIBILITY

*The rezoning process is a land use determination and does not constitute a permit for either construction on, or use of, the property, or a Certificate of Concurrency. Prior to use of, or*

*construction on, the property, the petitioner must receive approval from the appropriate County department(s) for the proposed use.*

*The granting of this land use determination does not protect the owner from civil liability for recorded deed restrictions which may exceed any county land use ordinances. Homeowner associations or architectural review committees require submission of plans for review and approval. The applicant for this land use request should contact the local association or the Public Records for all restrictions applicable to this property.*

**STAFF RECOMMENDATION**

It is recommended that the Planning and Zoning Commission recommend the Board of County Commissioners adopt a resolution approving the petitioner's request for a rezoning from PDP(MF)/ Planned Development Project (Multifamily) to AR-2 (Agricultural-Residential 2).

Hernando County, Florida

Narrative Letter: requestion property to be re-zoned from Residential to Commercial

I, William Bourguignon own the property to the north and west of the property needing to be re-zoned. The property to be re-zoned abuts the commercial property owned by pelican marina on the south. See surveys submitted with application. The properties were combined to make one L shaped property in which we wish to construct an office and a storage building to conduct business.

Our business name is Bill Bourguignon Construction Company LLC CBC1262628

The property address would be 5040 Maplewood Dr. Hernando beach, Fl, for the new construction office

We build coastal homes and some commercial buildings along with additions and renovations in Hernando County and surrounding counties.

We believe it will have a minimum impact on the surrounding community and the property is fenced in.

Thank You for your consideration,

Respectfully, William Bourguignon

### APPLICANT'S REQUEST:

The petitioner is requesting a rezoning of the subject property from R1-A (Residential) to C-1 (Commercial). The proposed use is for the storage of building materials, trailers, and construction equipment associated with the petitioner's existing business, Bill Bourguignon Construction Company LLC.

The property encompasses approximately 0.40 acres and is fully enclosed with fencing along all property boundaries. A storage building with an office is proposed on-site, with a maximum building height of 20 feet from ground level.

The petitioner is also requesting that the property not be connected to water or sewer services, as the building will be used solely for storage purposes. If restroom facilities are required for public use, the petitioner is proposing to make them available at the petitioner's adjacent residence.

**Future Land Use  
Map Designation:** Residential

**ENVIRONMENTAL REVIEW:**

The petitioner shall be required with all appropriate Florida Fish and Wildlife Conservation Commission permitting requirements.

**UTILITIES REVIEW:**

The Hernando County Utilities Department (HCUD) does not currently provide water or sewer service to this parcel, but it does provide water and sewer service to the parcel to the north (both parcels owned by applicant) via a 10-inch water main that runs along the west side of Maplewood Drive and an 8-inch sewer gravity main that runs in Maplewood Drive. HCUD has no objection to the submitted zoning change from Residential to Commercial to allow construction of office and storage buildings, subject to a commercial connection to the central water and sewer systems at time of vertical construction. Parcel Key #: 152569.

**ENGINEERING REVIEW:**

The subject site is located on the East side of Maplewood Drive, approximately 275' of Calienta Street. The County Engineer has reviewed the petitioner's request and has the following comments:

- This project is located in FEMA Coastal Flood Zone "AE (El. 12)", landward of the LiMWA line. The proposed storage site is adjacent to a salt marsh.
- Depending on the structure size, a Traffic Access Analysis could be required.
- Driveway apron will be required to meet Hernando County commercial driveway standards. Refer to Hernando County Facility Design Guidelines IV-25.
- A Right of Way Use permit is required for any driveway work in the County right of way.
- Any on-site parking will need to meet Hernando County commercial parking standards. Refer to Hernando County Facility Design Guidelines IV-28.
- If site is open to public; handicap parking is required. Refer to Hernando County Facility Design Guideline V-09.

**Comment:** The petitioner shall be required to coordinate with the Department of Public Works prior to site plan submission and determine if a traffic Access Analysis is required.

**LAND USE REVIEW:**

**Building Setbacks**

Minimum Building Setbacks:

Front: 75'

Side: 20'

Rear: 35'

**Buffers**

Hernando County Land Development Regulations require that screening of outdoor storage from adjoining and contiguous properties by a wall, fence or other approved enclosures. Screening shall meet an eighty (80) percent opacity standard. Such screening shall be located behind the building line and shall have a minimum height of five (5) feet and maximum of eight (8) feet. In this instance, the primary use is storage, and the entire site must be fenced.

**Comments:** The screening shall be required to meet the minimum landscaping and opacity standards of the Hernando County Land Development Regulations.

**Landscaping:**

The petitioner must meet the minimum requirements of Florida Friendly Landscaping™ publications and design techniques, principles, materials, and plantings for required landscaping

**Comments:** The petitioner is required a Ten (10) foot landscape buffer along the North property line adjacent to residential property. All other property lines will require a Five (5) foot landscape buffer

**Parking:**

County Land Development Regulations require four (4) spaces per 1,000 square feet for office and one (1) space per peak time employee for outdoor storage. If approved, the petitioner must provide the minimum parking requirements of the County's Land Development Regulations.

**Lighting:**

County Land Development Regulations require lighting that enhances the visual impact of the project on the community and to specifically address lighting intensity

levels and glare accordingly. Commercial buildings and projects shall be designed to provide safe, convenient, and efficient lighting for pedestrians and vehicles.

**Comments:** The petitioner has not indicated any provisions for lighting of the subject property. If approved, the petitioner must provide full or semi-cutoff fixtures as required by the County Land Development Regulations, to retain all light on site and prevent any light spillage onto neighboring residential uses.

## **COMPREHENSIVE PLAN REVIEW:**

The subject property is located within the Residential Land Use classification on the adopted Future Land Use Map. The area is characterized by single family homes to the North and to the West, The East and South are zoned CPDP/ Combined Planned Development Project. PDP(GC) with specific C2 uses for outdoor storage are considered permitted uses in the Residential Land Use designation with appropriate performance conditions.

**Objective 1.04B:** The Residential Category allows primarily single family, duplex, resort and multi-family housing and associated ancillary uses such as recreational and institutional. Office and certain commercial uses may be allowed subject to the locational criteria and performance standards of this Plan. Residential density shall not exceed 22 dwelling units per gross acre.

**Strategy 1.04B(1):** Commercial and institutional uses within the Residential Category are generally associated with medium and high-density residential development and may include neighborhood commercial, office professional, recreational, schools, and hospitals. Minor public facilities that do not unduly disturb the peaceful enjoyment of residential uses may also be allowed.

**Comments:** While not all commercial uses are consistent with the Residential Future Land Use classification, outdoor storage may be an acceptable ancillary use to residential development. Therefore, to accommodate the petitioner's request for the outdoor storage, staff recommends rezoning to PDP(GC) Planned Development Project (General Commercial) with a specific C-2 use for outdoor storage. This will allow the site to develop with appropriate buffers, setbacks and conditions to protect existing residential neighborhoods and ensure continuity with the surrounding community.

## **FINDINGS OF FACT:**

The Petitioner's request for a rezoning of the subject property from R1-A (Residential) to C-1 Commercial with outdoor storage is inappropriate based on the following:

1. Staff is recommending converting the zoning from the requested R1-A (Residential) to PDP(GC)Planned Development Project (General Commercial) with a specific C-2 use for outdoor storage to allow for performance conditions on lighting, landscape buffers, setbacks, and Protection Standards for the neighboring parcels.
2. The petitioner's request to utilize the existing bathroom in his residence is not feasible; at the time of development, they shall be required to provide a public restroom within the storage building office and must comply with ADA requirements as well as the Hernando County Building Code.
3. The staff recommendation is consistent with the County's adopted Comprehensive Plan and is compatible with the surrounding land uses subject to compliance with all performance conditions.

**NOTICE OF APPLICANT RESPONSIBILITY:**

*The rezoning process is a land use determination and does not constitute a permit for either construction on, or use of, the property, or a Certificate of Concurrence. Prior to use of, or construction on, the property, the petitioner must receive approval from the appropriate County department(s) for the proposed use.*

*The granting of this land use determination does not protect the owner from civil liability for recorded deed restrictions which may exceed any county land use ordinances. Homeowner associations or architectural review committees require submission of plans for review and approval. The applicant for this land use request should contact the local association or the Public Records for all restrictions applicable to this property.*

**STAFF RECOMMENDATION:**

It is recommended that the Planning and Zoning Commission recommend the Board of County Commissioners adopt a Resolution denying a rezoning from R1-A (Residential) to C-1 General Commercial and convert the petitioner's request to a rezoning from R1-A (Residential) to PDP(GC)Planned Development Project (General Commercial) with specific C-2 uses for outdoor storage, with the following performance conditions:

1. The petitioner must obtain all permits from Hernando County and other applicable agencies and meet all applicable land development regulations,

for either construction or use of the property, and complete all applicable development review processes.

2. A faunal (wildlife) survey shall be prepared by a qualified professional. The petitioner is required to comply with all applicable Florida Fish and Wildlife Conservation (FWC) regulations and permitting.
3. The petitioner shall meet the minimum requirements of Florida Friendly Landscaping™ publications and the Florida Yards and Neighborhoods Program for design techniques, principles, materials and plantings for required landscaping, as applicable.
4. A commercial connection to the central water and sewer systems shall be required at time of vertical construction.
5. A Traffic Access Analysis could be required depending on the size of the structure. The petitioner shall be required to coordinate with the Department of Public Works prior to site plan submission and determine if a traffic Access Analysis is required.
6. Driveway apron will be required to meet Hernando County commercial driveway standards under the Hernando County Facility Design Guidelines IV-25.
7. A Right of Way Use permit is required for any driveway work in the County right of way.
8. On-site parking will need to meet Hernando County commercial parking standards under the Hernando County Facility Design Guidelines IV-28.
9. The petitioner is required to have handicap parking if the site is open to the public following the Hernando County Facility Design Guideline V-09.
10. Minimum Building Setbacks:  
Front: 75'  
Side: 20'  
Rear: 35'
11. Hernando County Land Development Regulations require that screening of outdoor storage from adjoining and contiguous properties by a wall, fence, or other approved enclosures. Screening shall meet an eighty (80) percent opacity standard. Such screening shall be located behind the building line and shall have a minimum height of five (5) feet and maximum of eight (8) feet. In this instance, the primary use is storage, and the entire site must be fenced.

12. The petitioner is required a ten (10) feet landscape buffer along the North property line adjacent to residential property. All other property lines will require a five (5) feet landscape buffer
13. County LDRs require four (4) spaces per 1,000 square feet for office and one (1) space per peak time employee for outdoor storage. If approved, the petitioner must provide the minimum parking requirements of the County's Land Development Regulations.
14. The petitioner must provide full or semi-cutoff fixtures as required by the County Land Development Regulations, to retain all light on site and prevent any light spillage onto neighboring residential uses.
15. A public restroom shall be provided within the storage building office and must comply with ADA requirements as well as the Hernando County Building Code.
16. The petitioner shall provide a revised plan in compliance with all the performance conditions within 30 calendar days of Board of County Commissioner approval. Failure to submit the revised plan will result in no further development permits being issued.
