

MAY 18 2022

Don introduced the project.

Planning Department  
Hernando County, Florida

- Townhome Project
- 50' Buffer Adjacent to Woodland Waters
- Will be utilizing an easement to connect to Bourassa Blvd through the Lake Hideaway Property
- Two Story Products
- Mentioned to the Individuals that own the property along Lazy Days Ct can reach out to the county to request to vacate the right of way at this location

#### Questions

- Can you provide black chain link fence?
  - Developer- why?
  - Keeps people off the property. Lake Hideaway is providing a fence, we would like a black chain link fence on your side of the buffer.
  - Developer- we can consider a black chain link fence; however, we would be placing it on our property line. We are not going to police your residents from disturbing our buffer.
  - Don- the best way to get your fence is to agree to getting it on the property line.
  - Resident who owns property adjacent to the property line- it would be preferred on the property line, I was considering putting up a fence later this year, but it will help me save money from putting up a fence.
- I want a bigger buffer
  - Don- Do you know what a normal buffer is? It is more like 15 feet, we are doing over 3x the required normal buffer.
- I want people to stop trespassing and the buffer to be a no man's land, it needs to have a fence on your side.
  - Developer- I will agree to it on the property line; however, if it is on our side of the buffer, it provides access for your neighborhood, not our neighborhood.
- We are worried about people setting up grills, playgrounds, or storage in their backyard.
  - Developer- This is a townhome project; they will not have backyards and the ability to put these items on the property. There will be no storage options on site.
- Both residents that own all the property adjacent to the property line said that they are okay with a fence on the property line.
- Will there be sewer?
  - Don- Yes. Water and Sewer will be provided
- Is there reclaimed water for landscaping?
  - Don- No, we will be required to have a well.
- Will the irrigation impact the local lakes? We do not want the water level to decrease from Tooke Lake, or the fertilizers from individuals lawn to pollute the lake.

- Don- The well will require permitting from SWFWMD. Their regulations will not allow for the well to impact the lake. We will dig below the water table that is feeding the lake. Also, this will be a shared lawn maintenance. Individuals will not be putting fertilizer on the lawn, it will be done by a professional service according to local regulations.
- Have you completed a project like this?
  - Yes, in 2004 we did a development in Hillsborough county called Ashburn Square.
- How will the project be illuminated? We want you to commit to providing us with the dark skies that we currently enjoy at night.
  - Don- Illumination studies are required to make sure that the lighting is contained to the development sight.
  - Developer- we utilized solar street lights at our Avalon Development. If you guys want to drive by there at night, you can get an idea for how the lighting works.

From here the presentation ended. I spoke with the head of the HOA and she mentioned that she enjoyed the way we did the presentation. It was very informative and she would just like me to keep her in the loop for developments on this project.

Please join the Developer and their Planner to discuss a project located on property that is identified as being within 1000' of property you own. This meeting involves the development of a planned multi-family residential community with 240 dwelling units. The referenced 29.70-acre parcel is identified by the Hernando County Property Appraiser (HCPA) as Key No. 00539091, and is located south of Bourassa Blvd. We have included a Proposed Master Plan with this mailing for your review. We look forward to seeing you and answering any questions you may have.
