

STAFF REPORT

HEARINGS: Planning & Zoning Commission: November 10, 2025

Board of County Commissioners: January 6, 2026

APPLICANT: Richard Roach and Kimberly Roach

FILE NUMBER: H-25-35

REQUEST: Rezoning from R-1C(Residential) to AR(Agricultural/Residential)

GENERAL

LOCATION: North side of Faculty Street, approximately 325' west of the intersection of

Split Stone Drive and Faculty Street.

PARCEL KEY

NUMBER(S): 22521

APPLICANT'S REQUEST

The petitioner is requesting to rezone parcel key 22521 which consists of approximately 1.16 acres, from its current designation of R1-C (Residential) to AR (Agricultural/Residential).

A single-family residence was recently constructed on the property, and the petitioner plans to incorporate small-scale agricultural activities on-site. The proposed activities include raising chickens and livestock, cultivating a vegetable garden, and practicing sustainable homesteading with the goal of establishing a self-sufficient lifestyle.

The applicant states that the rezoning would allow for the production of organically grown food, which they believe contributes to a healthier diet free of commercial additives and pesticides. Furthermore, the petitioner emphasizes that sustainable practices such as gardening and composting promote environmental stewardship, reduce waste, and contribute to the long-term health of the community.

- (b) Agricultural/residential:
 - Single-family dwellings.

COMPREHENSIVE PLAN REVIEW

The subject property is located within the Residential Future Land Use classification on the adopted Future Land Use map. The Hernando County 2040 Comprehensive Growth Strategy Plan provides the principles for guiding land development activities in the County and describes the related programs and strategies that provide the overall guidance for implementing the Plan.

Future Land Use Element, Rural Category

Objective 1.04C

The Rural Category allows agriculture, agricultural commercial, agriindustrial, recreation, agritourism and residential land uses of a rural character. Certain neighborhood commercial uses may be allowed subject to locational criteria and performance standards. Residential density is 0.1 dwelling units per gross acre (1 unit per ten gross acres) except where otherwise indicated by the strategies listed herein and incorporated into the land development regulations.

Strategy 1.04C(2) The Rural Category contains areas of predominately platted or divided lands which have a more dense development pattern and character of a rural residential or residential nature that are recognized by existing zoning designations which allow for infill in a manner consistent with the character of the area, but does not allow for expansion into areas designated with lower land use densities.

Strategy 1.04C(3) Notwithstanding the density limitations stated in Objective 1.04C the areas described as recognized infill areas herein may be allowed to infill at densities consistent with the availability of utility services and the existing zoning designations. An appropriate transition shall be maintained between rural/agricultural uses and recognized infill areas to protect the use and enjoyment of land and maintain appropriate development patterns. Specific areas and circumstances where the infill pattern is expected and where infill would allow for more efficient use of existing infrastructure are recognized by this strategy

Comments: The subject site is within the Rural land use designation; the permitted uses within the AR (Agricultural/Residential) district are consistent with the goals, objectives, and strategies of this land use designation.

FINDINGS OF FACT

The request for AR (Agricultural/Residential) zoning is consistent with the Comprehensive Plan and compatible with the surrounding land uses.

NOTICE OF APPLICANT RESPONSIBILITY

The rezoning process is a land use determination and does not constitute a permit for either construction on, or use of, the property, or a Certificate of Concurrency. Prior to use of, or construction on, the property, the petitioner must receive approval from the appropriate County department(s) for the proposed use.

The granting of this land use determination does not protect the owner from civil liability for recorded deed restrictions which may exceed any county land use ordinances. Homeowner associations or architectural review committees require submission of plans for review and approval. The applicant for this land use request should contact the local association or the Public Records for all restrictions applicable to this property.

STAFF RECOMMENDATION

It is recommended that the Planning and Zoning Commission recommend the Board of County Commissioners adopt a resolution approving the petitioner's request for a rezoning from R-1C (Residential) to AR (Agricultural/Residential) in accordance with the staff report.

Note: Subsequent to the advertising being completed for the Planning and Zoning Commission, the petitioner requested a postponement due to a family emergency. As advertising was completed, this decision must be made by the Planning and Zoning Commission at the hearing. Staff has revised its recommendation to request a postponement on behalf of the applicant.

REVISED STAFF RECOMMENDATION:

It is recommended that the Planning and Zoning Commission postpone action on the petitioner's request for a rezoning from R-1C (Residential) to AR (Agricultural/Residential) to the December 8, 2025, regularly scheduled meeting with all readvertising fees paid by the applicant.
