Residential Category

Objective 1.04B: The Residential Category allows primarily single family, duplex, resort and multi-family housing and associated ancillary uses such as recreational and institutional. Office and certain commercial uses may be allowed subject to the locational criteria and performance standards of this Plan. Residential density shall not exceed 22 dwelling units per gross acre.

Comments: The parcel is within the Residential Land Use classification and is surrounded by residential parcels that are 1.8 acres or larger. The AR (Agricultural Residential) district is intended to provide transition from agricultural parcels into the single-family category. The area is characterized by AR (Agricultural Residential) to the south and AG (Agricultural) to the west. Considering the surrounding parcel minimum acreage, the proposed rezoning is consistent with the strategies for residential density and the pattern of land development within the surrounding.
