Security Storage Request

8484 chimney Rock Rd  
Webster FL 33597

I as an owner builder would like to request Security Residences and storage for my building materials which are locked in Brand New shipping containers.

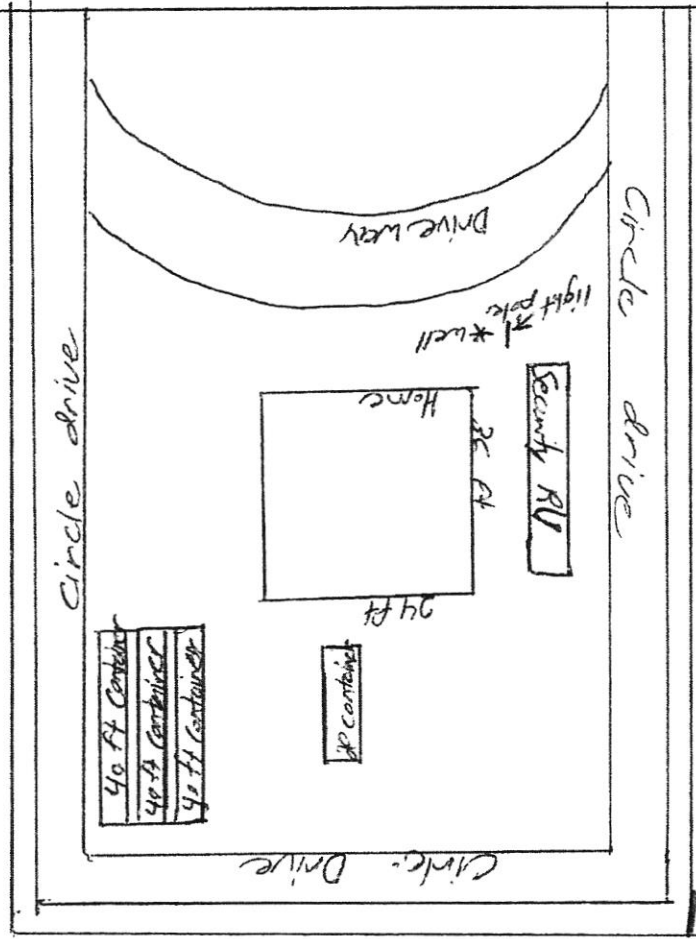

We have had lots of unwanted ATVs as well as people stealing Generators and tools while we were putting up fencing. I've paid to put up security lights and No Trespassing signs and still are battling with same issues. I have 3 40 High cube new shipping containers full of tools and Building Materials as well as one 20 ft new shipping container with personal possessions.

My son Mark is assisting with all permitting and procedures because I'm disabled and not able to do alot with my very low vision.

Thanks for Your Time
