Have you contacted the building/property owner concerning complaint? No

Date(s) of Contact: _____ / _____ / _____
Month Day Year Month Day Year

Please be aware that there are specific procedures and criteria that govern unsafe building determinations so please understand that this is a time-consuming process.

UNSAFE BUILDING SERVICE REQUEST

Please explain in detail why you believe the building to be unsafe. It is important that you provide a detailed statement concerning your request and that you include supporting photo's clearly identifying the alleged unsafe condition(s). A blank page is included to provide any additional information if needed:

The far west foundations are sitting on an unstable seawall. The seawall is cracked and failing and and has continued to worsen over the past few years. It is clearly visible that the corner piling of the house has dropped at least six to eight inches because of the failing seawall. If this continues the back side of the house will fall into the canal. The house is currently uninhabited with infrequent visits.

According to the neighbor, that I spoke with today, the grandson of the property owner is trying to get the house in shape but it clearly hasn't been worked on for quite some time. If that is the case, I'm all for repair because it has potential to be a beautiful house. I just don't want to sit back and wait for it to fall in the water.

Florida Statutes 837.06, False Official Statements: Whomever knowingly makes a false statement in writing with the intent to mislead a public servant in the performance of his/ her official duty, shall be guilty of a misdemeanor of the second degree.
