Part 2 - Procurements

9. Categories, Thresholds and Guidelines

Delegation of Threshold Amounts

- A. The procurement method and authorization authority vary based upon the amount of the purchase. Generally, all purchases for commodities, equipment and services, when the estimated cost thereof equals or exceeds \$50,000, shall be purchased competitively; purchases below \$50,000.00 shall be handled in the manners specified herein, which are designed to maximize competition and ensure the County is receiving a fair price while balancing the need for an efficient use of staff resources. The Board may waive the competitive solicitation requirements when deemed to be in the best interest of the County. (The threshold amount for the procurement of planning and study activity by professionals is \$35,000, pursuant to section 287.055(3)(a)1., Fla.Stat.. See also section below titled "Request for Qualifications, CCNA" below.)
- B. Table 1 establishes the thresholds and procedures to govern procurement of commodities, equipment and services. Additionally, the authority for approving purchases within the established threshold set forth below is hereby delegated to the person(s) with designated signature authority. For purchases utilizing a Purchasing Card, refer to Appendix 1.
- C. All procurements will be procured in accordance with the methods permitted according to the threshold amounts, and as set forth in this Manual.

Change Orders and Project Contingencies

~~Change orders and contract amendments must be executed by the authorized individual pursuant to Table 1 who approved and executed the original purchase order or contract, unless the change order or contract amendment increases the total dollar amount to such a level that in accordance with Table 1, it shifts to another authorized individual/entity (the approval authority). In such instances the change order or contract amendment will be required to be approved and executed by the new appropriate authority pursuant to Table 1. Change orders and contract amendments shall not be used to avoid any standard purchasing procedure for procurement by the competitive procedures. The valuation of the procurement will be calculated based upon the value of the initial term of the contract to be awarded. The valuation of contract renewals will be based upon the value of the renewal term.~~

~~For purposes of construction contracts, the County department shall not be required to have a change order executed by the individual who approved the original purchase order or contract if such change order(s) includes minor changes in the Work not involving an adjustment to the Contract Amount or an extension to the Contract Time which would cumulatively exceed ten percent (10%) of the Original Contract Time.~~

Change orders and contract amendments must be executed by the authorized individual pursuant to Table 1 who approved and executed the original purchase order or contract, unless the change order or contract amendment increases the total dollar amount to such a level that in accordance with Table 1, it shifts to another authorized individual/entity (the approval authority). In such instances the change order or contract amendment will be required to be approved and executed by the new appropriate

authority pursuant to Table 1. Change orders and contract amendments shall not be used to avoid any standard purchasing procedure for procurement by the competitive procedures. The valuation of the procurement will be calculated based upon the value of the initial term of the contract to be awarded. The valuation of contract renewals will be based upon the value of the renewal term.

For purposes of construction contracts, the County department shall not be required to have a change order executed by the individual who approved the original purchase order or contract if such change order(s) includes minor changes in the Work not involving an adjustment to the Contract Amount or an extension to the Contract Time which would cumulatively exceed ten percent (10%) of the Original Contract Time.

For purposes of construction contracts entered into on or after July 1, 2025, County ordered change orders will be processed and paid in accordance with ~~Section 2 of~~ Section 218.755, Florida Statute.

A Capital Improvement Project may have a contingency budgeted to account for unknowns. Contingencies mitigate unknowns a.k.a. “risk” and the value is to be altered depending upon project type, complexity, geographic region, known issues, unanticipated changes, while concurrently not overly restricting limited capital funds. Project funding should be reviewed at periodic intervals and unused contingency funds may be released to be made available for other contracts. A Capital Improvement Project contract with a contingency must contain an approved contingency clause such as “The contract price includes a 10% contingency amount for change orders that may be authorized at the discretion of the County.”

The following are examples of major cost elements for contingencies to be considered for Capital Improvement Projects:

- A. A Design contingency (based on different levels of design completion);
- B. A Construction contingency to cover cost growth during construction;
- C. An overall Management contingency for unanticipated changes; and
- D. Other contingencies for areas that may show a high potential for risk and change, i.e. environmental mitigation, right-of-way, utilities, etc.

Contingency is added to a contract, and both are subsequently approved by the Board of County Commissioners. County staff is authorized to use said contingencies when and if conditions encountered in the field necessitate cost modifications to the work needed to be performed. The following procedure establishes the means of checks and balances that is in place to utilize contingency funds:

Step 1: The contractor or County discovers an issue that may necessitate an increase or create a need for additional pay item amounts. Initially this matter is discussed by contractor and County and Engineer of Record, as appropriate, and verbally agreed that an issue exists in the field.

Step 2: Should it be mutually agreed by the County and Engineer of Record, as appropriate, that a change order is warranted, a request for cost with supporting documentation in written form that summarizes the pay item modification(s) to the contract, and the County and Engineer’s approval, is submitted to Procurement for review and approval.

Step 2a: If the net change is zero or does not affect the contingency account, approval is recommended by inspection staff and submitted to the project manager for review and processing using the County's established change order process. In the event a budget amendment is required, the procedures of the Office of Management and Budget shall apply to the Change Order.

Step 2b: If the net change does affect the contingency account, a Contingency Allowance Authorization (CAA) is developed. The CAA must include an approved budget amendment to move funds from the contingency line item to the project line item(s). The CAA is reviewed and approved by the project construction engineering inspector or engineer of record (for construction projects), the contractor, the project manager, the Department Director or their designee, and the Chief Procurement Officer. Said CAA form is executed via a Change Order, amended as/if needed until fully approved by all. If the cost of the CAA does not exceed the original contingency amount established for the project phase, the CAA is approved by the Chief Procurement Officer. If not, it is placed on the Board of County Commissioners' agenda for Board approval.

Step 3: After the contracted work is completed, County staff shall place the CAA on the Board of County Commissioners (BOCC) meeting agenda for approval by the BOCC as part of the Final Pay Application for the Contract.

Encumbrance of Funds

- A. It is the responsibility of each department director to ensure sufficient and proper funding is available prior to obligation and/or expenditure.
- B. No county employee, except in cases of emergency as defined in this Manual, or as provided by Florida Statutes Chapter 252, and/or as instructed by the County Administrator or Budget Director, shall issue any order for delivery on a contract or open market procurement until there is, to the credit of the using department concerned, a sufficient unencumbered appropriation balance to defray the amount of such order and the order is for a budgeted commodity or service.
- C. After determining availability of funds, the procurement as set forth in this Manual shall be performed. After procurement a purchase order or contract shall be approved as set forth within this Manual.

15. Quotes

Quotes (not to exceed \$5,000.00)

- A. Commodities, equipment, and services with an estimated cost within the threshold authorized in Table 1 for written quotes, except those purchased on p-cards and through Non-PO purchases, shall be procured by competitive quotes. Purchases at this level do not require more than one written quote, except when deemed advisable by the Procurement Department. Additionally, if there is an ongoing need for certain commodities, equipment, or services on a regular basis that would otherwise qualify for a procurement pursuant to the threshold amount in Table 1 if viewed in isolation, then competitive solicitation may be required if the threshold in accordance with Table 1 is met in a fiscal year.
- B. At least one (1) quote must be obtained for each purchase, which must then be approved by the department director. The county employee soliciting the quotes shall clearly document the commodities, equipment, or services requested on a consistent basis from each vendor to assure a like-to-like comparison and shall document the date, vendor, and quote received for the purchasing file. Quotes may also be obtained from reputable internet vendors. All vendors providing written quotes must have the required expertise and capability to perform the work or supply the commodities or equipment. In determining if a vendor has the capability to perform the work or supply the commodities or equipment, consideration shall be given to the vendor's geographic proximity to the County for future ease of delivery, mobilization, or customer support after a purchase. The lowest cost, responsible and responsive vendor who is capable of performing the services or supplying the commodities or equipment shall be awarded the contract. It is recommended to ensure competition when procuring with grant funds.

(See [Table 1 – Process Thresholds](#) for threshold requirements for the procurement method).

Requests for Proposals (RFP)

Definition: Requests for proposals are used when the scope of work, specifications, or contractual terms and conditions cannot be well defined. Evaluation of a response is based on prior established criteria which involves more than price. A request for proposals includes, but is not limited to, applicable laws and rules, functional or general specifications, statement of work, solicitation instructions, and evaluation criteria. The Procurement Department and department director shall decide, based on the specific services needed, if professional services are required. Criteria: The department director shall outline specific needs and objectives that will make up the scope of services to be address by the proposer. The Procurement Department, in conjunction with the department director, shall prepare the criteria and development of the invitation to bid which should include, but not be limited to, the following:

- Introduction
- Background
- Scope of services, commodities or equipment required

Invitation to Negotiate (ITN)

Definition: The invitation to negotiate should be utilized when the scope of the project is not clearly defined, and the County has determined that negotiations may be necessary to receive the best value. The invitation shall invite vendor input on the scope, schedule, and process for initiating the project. This method of procurement is frequently used in areas experiencing constant change in the marketplace and the County wants the opportunity to obtain current up-to- date goods or services at the time of contracting.

Criteria: The department director shall outline the general scope of services to be addressed by the proposers. The Procurement Department, in conjunction with the department director, shall prepare the criteria and development of the invitation to negotiate which should include, but not be limited to, the following:

Definition: The invitation to quote format should be utilized when the County is capable of establishing precise specifications for a commodity or defining, with specificity, a scope of services for the commodities or contractual services sought and when the estimated cost of these commodities, equipment or services does not exceed the amounts specified in Table 1. Through this process, vendors are able to compete on a cost basis for like items or services. The selection will be based upon the lowest priced, responsive, and responsible bidder.

Criteria: The department director shall outline specific needs and objectives that will make up the scope of services to be addressed by the proposers. The Department Director, in conjunction with the Procurement Department, shall prepare the criteria and development of the invitation to quote which should include, but not be limited to, the following:

- Terms and conditions
- Scope of service or commodities required
- Schedule
- Proposed price
- Selection process

- G. To limit the public exposure of sensitive project information regarding the design, construction, maintenance, or other service provision for certain high risk and security related projects.

17. Request for Qualification CCNA

- A. A request for qualifications (“RFQ”) is used where the specifications of required services are broad and specialized in nature. Evaluation of a response is based on prior established criteria which involves more than price. The purpose of obtaining professional services is to offer to the County special expertise, practical experience, knowledge, resources, and an objective outside professional opinion. An RFQ must be utilized in CCNA procurements but may be used in other instances when deemed appropriate by the Procurement Department.
- B. The provisions and exemptions contained in the CCNA, shall apply herein for the procurement of all professional architecture, engineering, landscape architecture, or registered surveying and mapping services for projects that exceed certain statutory dollar thresholds.

Website

When advertised in newspapers, the notice shall also be listed on the electronic bulletin located at the County Administration building.

19. Cone of Silence

Cone of Silence

A cone of silence shall be established on all County competitive selection processes. The cone of silence pertains to all solicitations (ITB, RFP, ITQ, ITN, RFQ or other competitive solicitations), and prohibits any communication regarding such solicitation between the bidder (or its agents or representatives) or anyone on behalf of the bidder regarding such solicitation, and any County Commissioner or County employee, selection committee member or other persons authorized to act on behalf of the Board including the County's Architect, Engineer or their subconsultants, or anyone designated to provide a recommendation to award a particular contract, other than Procurement Department staff. The cone of silence commences from the date of advertisement until award of contract.

20. Process of Competitive Solicitations

All competitive solicitations are to be prepared by the Procurement Department in conjunction with issuing department, who will provide input on the scope of the commodities, equipment or services needed, the legal ads, dates, vendor lists, and other pertinent information as may be required by the Procurement Department.

Response Submission

- A. Responses to all competitive solicitations shall be submitted electronically via the eProcurement Portal on the procurement department website no later than the date and time designated in the instructions.
- B. Mandatory and non-mandatory conferences may be held if deemed necessary by the Procurement Department. Notification of the conferences will be outlined in the competitive solicitation package. Any written material distributed to potential respondents during a mandatory or non-mandatory conference will be made publicly available via a Addendum unless the County designates that material to be sensitive. In instances where sensitive information is distributed at a mandatory conference, Procurement must provide and attendees must sign an agreement to not disseminate sensitive information.
- C. Registration or certification under Florida Statute Chapter 489 is required before any contract is awarded for construction work on buildings or other improvements to real property, except for roads or utilities as specified in Florida Statutes section 489.113, or otherwise exempt projects under Florida Statutes section 489.103.

Public Opening of Responses

- A. All competitive solicitation responses shall be opened via virtual electronic means in public at the time stated in the public notice with at least two (2) witnesses present. At least one witness shall be a County employee, who shall record the opening. The other witness may or may not be an employee of the County but cannot be a respondent to the competitive solicitation.

The purpose of the opening is to record the responses received and to ensure that the responses follow the basic requirements of the competitive solicitation. Responses are not analyzed for quality or substance at the opening. See [Public Records and Meetings](#) for additional information.

Rejecting Responses

The Chief Procurement Officer shall have the authority to reject any and all responses. The County will not be held responsible for any costs incurred by vendors/bidders in the case of rejection.

Correction or Withdrawal of Responses; Material Mistakes; Cancellation of Awards

- A. A response submitted to the County as part of a competitive solicitation may not be withdrawn unilaterally by the respondent. Correction or withdrawal of inadvertently erroneous responses before or after the public opening, or cancellation of the awards or contracts based on such

mistakes, may be permitted where appropriate. Mistakes discovered before the public opening may be modified or withdrawn by written notice received in the office designated in the procurement prior to the time set for opening.

- B. After the public opening, corrections of mistakes shall be permitted only to the extent that the vendor can show by clear and convincing evidence that a material mistake or nonjudgmental character was made, the nature of the mistake, and the price actually intended. After the public opening, no changes in prices or other provisions prejudicial to the interests of the County or fair competition shall be permitted. The assigned unit price, when applicable, will be the prevailing decision when an extension price is in error. In place of correction, a low bidder establishing a non-judgmental material mistake of fact may be permitted to withdraw its procurement if:
1. The response was submitted in good faith;
 2. The magnitude of the error made would make enforcement a severe hardship;
 3. The miscalculation was not the result of gross negligence;
 4. The error was reported immediately to the County;
 5. It is not later than 24 hours after the public opening, except that if the following day is not a business day for the county, in such case, a withdrawal may be made until 12:00 noon the next County business day.

Evaluations of Invitations to Bid

In an invitation to bid process, the County may consider, but is not limited to, the following factors in addition to price when determining whether the bidder is responsive and responsible:

- A. Ability, capacity and skill of the bidder to perform the contract.
- B. Whether the vendor can perform the contract within the time specified, without delay, interference, or conflict with current workload.
- C. Quality of performance of previous contracts.
- D. Previous and existing compliance by the vendor with laws and regulations relating to the contract.
- E. Sufficiency of the financial resources and ability of the vendor to perform the contract or provide the product or service.
- F. Quality, availability and adaptability of the supplies or contractual services to the particular use required.
- G. Ability of the vendor to provide further maintenance and service for the use of the subject of the contract.

- H. Number and scope of conditions attached to the bid or quote.
- I. Qualifications of personnel, licensing and corporate qualifications.
- J. Evidence of disqualification or exclusion from public contracting and purchasing.
- K. Use of one or more subvendor/contractors with a record of poor performance.
- L. For the purpose of this section, the County may consider evidence from the ten-year period preceding the subject bid submittal date.
- M. Procurement shall document State vendor checks as part of vendor responsiveness. When funded by a federal grant, Procurement shall document Federal grant checks as part of vendor responsiveness.
- N. In the event the lowest, responsive, responsible bid for a construction project exceeds the architectural or engineering cost estimates, the Chief Procurement Officer or designee is authorized, when time or economic considerations preclude re-solicitation of work of a reduced scope, to negotiate an adjustment of the scope of work with the lowest, responsive, responsible bidder, in order to bring the bid within the amount of available funds. If the cost estimates exceed the Chief Procurement Officer's threshold amount, results of negotiations will be contingent upon Board approval.

Evaluation of Requests for Proposals, Requests for Qualifications, Prequalification, and Invitations to Negotiate

All responses to a request for proposals, requests for qualifications, and invitations to negotiate that are deemed to meet the basic requirements of the competitive solicitation and have not been rejected shall be distributed to the selection committee, as established in [Procurement Selection Committee](#), for review in accordance with the established time frames outlined in the competitive solicitation.

Notice of Intent to Award

- A. Once the County has determined the lowest, responsive, responsible bidder as provided for in [Types of Competitive Solicitations](#) above or once the selection committee has completed its evaluation in accordance with the same above, the Procurement Department shall prepare and post a public notice of intent to award the competitive solicitation.
- B. The notice of intent to award shall be made available via the eProcurement portal to the selected vendor.

Notice of Award and Contract Negotiations

After the challenge period in [Procurement Challenge/Protest](#) has expired, the procurement shall be awarded with reasonable promptness by the person(s) authorized to approve the purchase, as provided in [Table 1 – Process Thresholds](#) of this Manual. Any notice of award shall be sent to the successful respondent and publicly posted on the County's eProcurement System.

- A. All procurements will be formalized by entering into either a contract with, or issuing a Purchase Order to, the successful respondent as described below.
- B. Upon approval of the selection, the Chief Procurement Officer or designee, in consultation with the issuing department director and, if requested, with the assistance of the County Attorney, will negotiate a contract with the top ranked vendor.
- C. Should the Chief Procurement Officer or designee be unable to negotiate a satisfactory contract with the top ranked vendor within a reasonable time, upon approval by the Chief Procurement Officer or designee, negotiations with the vendor shall be formally terminated by letter to the vendor. The Chief Procurement Officer or designee shall then undertake negotiations with the second ranked vendor, if any.
- D. Should the Chief Procurement Officer or designee be unable to negotiate a satisfactory contract with the second ranked vendor, upon approval by the Chief Procurement Officer or designee, negotiations with the vendor shall be formally terminated by letter to the vendor. The Chief Procurement Officer or designee shall select additional Proposers in order of their ranking or price, depending on type of contract, and continue negotiations until an agreement is reached or if no agreement can be reached the Chief Procurement Officer or designee may reject all Proposals and may re-advertise for new Proposals.
- E. Once a satisfactory contract has been reached, the contract shall be presented for approval and execution by the appropriate authority as provided in [Table 1 – Process Thresholds](#). Upon execution by both parties and the County's receipt of proof of insurance and bond requirements, the notice to proceed shall be issued.

21. Procurement Selection Committee

 - 2. Grants Management if applicable
 - 3. Finance, either Clerk or BOCC
 - 4. Technical Expert if PM is not TE
 - 5. Engineer/Architect of Record
 - 6. Others as Identified
- E. The Department and the Procurement Department will determine the total number of committee members at onset of solicitation. The Selection Committee shall meet as needed to review solicitation responses and a quorum is required to take any official action.
- F. Non-CCNA_Contract/purchase orders will be awarded to the lowest responsive and responsible bidder. In determining the lowest responsive and responsible bidder, the following factors will be considered in addition to the price bid; and any bid may be rejected for cause if not responsive to any of the following:
 - 1. The conformity of the bid offer to the specifications and bidding documents.
 - 2. The sufficiency of the financial resources and the ability, capacity, and skill of the bidder to perform the contract or provide the service required.
 - 3. The ability of the bidder to perform in accordance with the terms and conditions of the contract and provide the service promptly or within the time frame specified, without delay or interference.

 4. Once the Procurement department along with the Department Director has completed satisfactory negotiations the firm will be presented for award to the Board.
 5. If satisfactory negotiations cannot be reached the Procurement Department will begin negotiating with the second ranked firm. This process will continue until an award can be recommended.

22. Procurement Protests

Competitive Solicitation Procurement Protests, Generally

Any competitive Contract solicitations or award recommendations may be protested on the grounds of disputed issues of material fact, or material irregularities in the procurement procedure or evaluation of the responses.

Time Requirements and Form for Notice of Protest and Formal Written Protest

- A. To initiate a protest, any person who is adversely affected must file a written notice of protest with the Procurement Department's Chief Procurement Officer within seventy-two (72) hours of the posting of the notice of intent to award or notice of award, or within seventy-two (72) hours of the posting of the solicitation, whichever is being protested, pursuant to section 120.57(3)(b), Fla. Stat. (2023). Saturdays, Sundays, and state holidays are excluded in the computation of the 72-hour time period. The 72-hour period is not extended by service of the notice of protest by mail. The protester must include in its notice of protest: (i) the protester's name, email, mailing address, fax number, and phone number; (ii) the name and contact information of the protester's representative to whom notices may be sent; (iii) the solicitation title and number; and (iv) a brief factual summary of the basis of the protest, pursuant to Chapter 28-110.003, Fla. Admin. Code.
- C. The protester must include a protest bond with its notice of protest. For an action protesting a solicitation that includes a request for qualification of bidders, the bond must be \$5,000. For an action protesting a rejection or contract award that includes a request for qualification of bidders, the bond must equal 1 percent of the lowest bid submitted or \$5,000, whichever is greater. For an action protesting a bid solicitation, bid rejection, or contract award that does not include a request for qualification of bidders, the bond must be \$2,500. If, after completion of the administrative hearing process and any appellate-proceedings, the County prevails, the County will be entitled to recover all costs and charges stated in the final order or judgment, excluding attorney's fees. Upon payment of such costs and charges by the protester, the bond shall be returned to him or her. If the protester prevails, he or she will be entitled to recover from the County all costs and charges stated in the final order or judgment, excluding attorney's fees. The entire amount of the bond will be forfeited if the administrative law judge determines that a protest was filed for a frivolous or improper purpose, such as to harass, or to cause unnecessary delay or cost for, the department or parties.
- D. The protester must file its formal written challenge with the Procurement Department's Chief Procurement Officer within ten (10) days after the date the protester files its notice of protest. Saturdays, Sundays, and state holidays are **not** excluded from the computation of the 10-day time period. The 10-day period is not extended by service of the formal written protest

by mail. Failure to timely file the formal written protest constitutes a waiver of proceedings under Hernando County ordinances and Chapter 120, Fla. Stat. (2023).

- E. The formal written protest should be substantially similar in form to that found in Chapter 28-110.004 (eff. 1/15/2007). Alternatively, the protester must include in its formal written protest : (i) the protester's name, email, mailing address, fax number and phone number; (ii) the name and contact information of the protester's representative to whom notices may be sent; (iii) the solicitation title and number; (iv) a clear and complete statement of the grounds on which the protest is based, including any disputed facts or procedures, and the statutes, laws, ordinances, or other legal authorities upon which the protester relies; and (v) the relief sought. If the protester does not dispute any material facts, the protester should so state in its formal written protest.
- F. If protesting a notice of intent to award or notice of award, the protester shall also mail a copy of the notice of protest and the formal written protest to the apparent best bidder.
- G. Only persons or entities adversely affected by the solicitation, or notice of award, or notice of intended award have standing to file a protest. Those who would not be awarded the subject contract even if the protest were successful lack standing.

Suspension of Solicitation or Contract Award Process

- G. Upon receipt of a timely formal written protest, the County shall suspend the solicitation or contract award process until a final decision has been made, unless the Board makes a determination that the contract must proceed without delay to protect the substantial interest of the County.

Investigative Summary and Decision on Protest

- H. The Chief Procurement Officer shall, within ten (10) calendar days of receipt of the formal written protest, cause the protest to be investigated, render a written Investigative Summary and Decision ("the Decision") on the protest. An emergency procurement is a procurement necessitated by a sudden unexpected turn of events (e.g., including but not limited to acts of God, riots, fires, floods, hurricanes, accidents, terrorism, pandemics or any circumstances or cause beyond the control of the agency in the normal conduct of its business) where the delay incident to competitive solicitation would be detrimental to the interest of the County or to the health, safety and welfare of the county and/or its citizens. It may also be a condition that stops or seriously impairs the necessary function of County government.
- B. Following all purchases under this emergency procurement section, the Notice of Emergency Purchase shall be prepared by the department who initiated the procurement. The form must include complete documentation clearly stating justification for exception from normal purchasing procedures, an itemization of all individual transactions relating to the emergency procurement, and itemization of any additional work hours above and beyond the affected employees' usual work schedule, and documentation of communication with other governmental entities (FEMA, SERT, etc.) that have taken place.
- C. In the case of emergencies that require the immediate purchase of commodities, equipment or services, the Chief Procurement Officer or designee, shall be empowered to secure such commodities, equipment or services without competitive bidding. In this event, all measures as are reasonably possible under the circumstances shall be taken to assure the maximum cost benefit to the County of the commodities, equipment or services procured.
- D. In addition, during non-business hours, a department director or designee, is authorized to make purchases without competitive bids, when an emergency arises, and such immediate purchases are necessary to protect the health, safety, welfare, or property of the County or any of its citizens or to continue operations of the department.
- E. Documentation for emergency purchases pertaining to the above must be submitted to the Chief Procurement Officer with a detailed explanation, and support materials attached if applicable, within three working days after the event occurred. Emergency purchases that meet the \$100,000.00 or greater amount must be submitted to the Board for ratification upon final invoice. The policies and procedures for processing of payment against CPO approved Emergency Purchase Orders ≤\$100,000.00 will be the same as non-EPO purchase orders. Change orders against CPO approved Emergency Purchase Orders will follow the change order guidelines stipulated in Table I of this manual.
- F. While Government Services Administration (GSA) schedules 70 and 84 can be used by the County for routine business, all GSA schedules become open to County use during recovery from a natural disaster or in response to a public health emergency.

- G. Upon declaration of a state of emergency by the State of Florida or by Hernando County commodities, equipment, and services including food and beverages can be purchased in preparation for the natural disaster.
- H. Upon declaration of a state of emergency by the State of Florida or by Hernando County purchasing card limits will be adjusted to previously established emergency limits by the Procurement Department. The Procurement Department will reset to standard limits upon the state of emergency expiration.
- I. The departments should follow the Grant Accounting for Disasters procedure.

26. Sole Source Procurements

- A. A sole source is when the commodity or service can be legally purchased from only one source. This is usually due to the source owning patents and/or copyrights. A requirement for a particular proprietary item does not justify a sole source purchase, if, there is more than one potential vendor/contractor for that item. Use of brand names and model numbers does not constitute a sole source.
- B. A contract may be awarded, except as otherwise provided under state law, for a supply, service, material, equipment, or construction item(s) without competition when the Chief Procurement Officer or designee, certifies in writing, after conducting a good faith review of available sources, that there is only one available source for the required material, supply, service, equipment, or construction item(s).

Such awards will be made within the authorized procurement limits identified in [Table 1 – Process Thresholds](#) of this Manual. When a purchase exceeds the threshold amount for staff approval, the item will be placed on the agenda for Board approval.

- A. The Procurement Department shall be authorized, after initial sole source certification, to make additional purchases from a sole source vendor for a reasonable specified period of time as set forth in a written contract between the County and vendor/contractor or until such time as contrary evidence is presented regarding sole source eligibility, whichever period is less.

27. Single Source Procurements

- A. A single source means that a commodity or service can be purchased from multiple sources, but in order to meet certain functional or performance requirements (e.g., parts matching existing equipment or materials) there is only one economically feasible source for the purchase.

Purchases of goods and/or services from a single source may be exempted from the competitive solicitation requirements upon confirmation that: (1) the use is justified based on costs or interchangeability factors; (2) the use is recommended by the project architect, engineer, or affected department director; and (3) the rationale for single source is approved by the Chief Procurement Officer. Such awards will be made within the authorized limits identified in [Table 1 – Process Thresholds](#) of this Manual.

- A. When a purchase exceeds the threshold amount for staff approval, the item will be placed on the agenda for Board approval.

The Procurement Department shall be authorized, after initial single source certification, to make additional purchases for a single source vendor for a reasonable specified period of time as set forth in a written contract between the County and vendor/contractor or until such time as contrary evidence is presented regarding single source eligibility, whichever period is less.

28. Piggyback (Co-Op) Procurement

General Cooperative (Piggybacking) Procurement Requirements

- A. The Procurement Department shall have the authority to purchase from and join with other units of governments in cooperative purchasing ventures when the best interest of the County would be served thereby. It is standard policy of the County to cooperate with other government agencies in the purchase of commodities, equipment and services required by the County.
- B. The most common forms of cooperative procurement include, but are not limited to, purchasing from contracts issued by the State of Florida, Federal General Services Administration, U.S. Communities, National Joint Powers Alliance, and other government pricing for specific commodities, equipment and services.
- C. When any other government agency had competitively procured and awarded any contract for any commodities or service, the County may purchase that commodity or service from the awarded vendor at the awarded price if the original bid specifications and award allow it. Where the public purchasing unit administering a cooperative purchase complies with the requirements of this Manual, the County when participating in such a purchase, shall be deemed to have complied with the provisions of this article. Such purchases shall be made without additional county competitive solicitation provided that the funding has been appropriated and the purchase has been authorized by a person with signatory authority as provided in [Table 1 – Process Thresholds](#).
- D. The County may bid and award the purchase of any commodities, equipment, or services with the stipulation that any other government agency may also purchase the awarded product or service at the same awarded price.

Cooperative Procurements - Documentation Requirements

The following documentation is the minimum required to use another government entity's awarded contract.

- A. Florida Contracts. The Procurement Department is authorized to purchase commodities, equipment or services for any dollar amount from authorized vendors listed on the respective state contracts (state term continuing supply contracts, SNAPS agreements (state negotiated agreement price schedules), agreements resulting from invitations to negotiate (ITN), the Florida Sheriff's Association statewide purchasing contract, or other such contracts authorized by statute for use by local governments) of the Florida Department of Management Services, other state agencies and groups. For all cooperative procurements from state contracts, the current state contract number is required. A copy of the contract including any amendments is required.

- B. Federal GSA contracts. The Procurement Department is authorized to purchase commodities, equipment, and services for any dollar amount from authorized vendors listed on the eligible federal supply schedules (such as GSA schedule 84 for Emergency Preparedness and First Responder Equipment, Training and Services, GSA schedule 70 for Information Technology) issued by the Federal General Services Administration.
1. For all cooperative procurements of federal GSA contracts, a copy of the GSA contract showing the contract name, number and contract term is required along with any amendments. The ordering information pages and the pages with the pricing are also required.
- C. Contracts with other government entities. The Procurement Department shall have the authority to join with other units of government in cooperative purchasing ventures when the best interest of the county would be served thereby, and the same is in accordance with county and state law. The Procurement Department shall appropriately document such cooperative procurement arrangements. All cooperative procurements conducted under this section shall be through contracts awarded through full and open competition, including use of source selection methods equivalent to those required by this Manual. Each selection method shall clearly state the intention to include participation by other units of government as a requirement for use in cooperative procurement. For all cooperative procurements from other government entities, the required documentation includes:
1. A complete copy of the original procurement.
 2. A copy of award letter/memo/agenda item with minutes by the government entity to the vendor to document award.
 3. A complete copy of the vendor's proposal; and
 4. A complete copy of the current contract with the vendor and any amendments thereto. If federal funds are used, the County may exercise the option to utilize other government contracts provided that:
 - a. The original contract was procured in compliance with 2 C.F.R 200.318-327.
 - b. An assignability clause is included in the originating government's contract, the terms and conditions are substantially similar to the terms and conditions of the option as stated in the original contract at the time it was awarded.
 - c. The option price is better than prices available in the market, or that when it intends to exercise the option, the option is more advantageous.
 - d. The original contract contained an assignability clause and that the terms and conditions of that contract meet all requirements as required in grant award(s) (if grant funded);

- e. The original contract contains appropriate assignability provisions that permit the assignment of all or a portion of the specified deliverables under the terms originally advertised, competed, evaluated, and awarded, or contains other appropriate assignment provisions.
- f. The contract price is fair and reasonable.
- g. The contract provisions are adequate for compliance with all Federal requirements.
- h. The scope of work to be performed falls within the scope of work under the original contract and there are no cardinal changes to the contract, the scope of the assigned contract originally procured by the assigning party does not exceed the amount of property and services required to meet the assigning party's original, reasonably expected needs. The regulation at 44 C.F.R. § 13.36 requires the grantee or subgrantee to have procurement procedures that preclude it from acquiring property or services it does not need. Therefore, a contract would have an improper original scope if the original party added excess capacity in the original procurement primarily to permit assignment of those contract rights to another entity. Moreover, an assignable contract with an overbroad scope of work may lead to unreasonable pricing and thus should not be used. For example, a statewide debris removal contract that does not have pricing that accounts for variables in the actual scope of work required by a local government subgrantee or the specific conditions of that local market may lead to unreasonable pricing.
- i. The quantities the assigning party acquired, coupled with the quantities the acquiring grantee or subgrantee seeks, do not exceed the amounts available under the assigning entity's contract.

- C. The County will accept certification of W/MBE status from the State of Florida, Office of Supplier and Diversity as well as the Florida Department of Transportation (FDOT), DBE program in lieu of creating its own certification program. Part 3 Contracts and Purchase Orders

36. Use of: Contracts & Purchase Orders

All procurements will require a contract and/or purchase order with the vendor/contractor. The following provides guidance as to when each method shall be utilized:

- A. **Purchase order.** A purchase order is issued for any requisitioned items, either separately or in conjunction with a contract. A purchase order is used to authorize a vendor to proceed with the purchase of goods, services and/or construction as specified, and obligated the county for payment. The purchase order is used in support of other contracts or by itself to establish legal financial obligations. A purchase order may result from any type of procurement. A purchase order shall be issued upon receipt of an acceptable, authorized requisition, after having justification, proper procurement as per the thresholds set forth in Table 1 and after confirming the availability of funding. A purchase order is issued only after a requisition has been completed and approved. The purchase order must be written so that all pertinent information is clear, concise and complete therefore preventing any unnecessary misunderstandings with the vendor.
- B. **Contract**(written contract). A written contract, as described below, is used when engaging in construction, purchasing of goods and/or services where a purchase order is not adequate to describe all the terms and conditions, and is required to be executed by both parties. A purchase order, as described above, may be used as backup to a contract and processed as encumbrance of funds. The Chief Procurement Officer, Risk Management, County Attorney, County Administrator, and/or Board must approve the written contract where applicable per this Purchasing Manual. A contract refers to a written document, between the vendor/contractor and Hernando County. This document establishes the legal working relationship between the two parties. It specifies everything that is to be provided: what, when, where, how much, how many, what size, what color, how delivered, where delivered, etc. It specifies how and when payments of goods and services are to be made, maintenance terms, guaranties, etc. The contract establishes in advance the ground rules of the terms and conditions.
- C. **Change order** or contract amendment. A change order or contract amendment is processed whenever a change to the original contract is necessary. Change orders or contract amendments are completed for modifications to scope, descriptions, unit cost, quantities, completion times etc. Change orders and contract amendments must be executed by the vendor/contractor and the authorized individual pursuant to the [Table 1 – Process Thresholds](#) who approved and executed the original purchase order or contract, unless the change order or contract amendment increases the total dollar amount to such a level that in accordance with [Table 1 – Process Thresholds](#), it shifts to another authorized individual/entity (the approval authority). In such instances the change order or contract amendment may be approved and executed by the new authorized individual/entity pursuant to [Table 1 – Process Thresholds](#). Change orders will not be processed if there is not sufficient budget to cover the change. Change orders and contract amendments shall not be used to avoid any standard purchasing procedure for

procurement by the competitive procedures. The change order and contract amendment must be clearly and concisely defined with justification provided as to why the change is being requested. All grant funded change orders require grant compliance review. All grant compliance review documents are to be uploaded to the Financial Records Management System along with change order documentation as that is the official record maintained by the Clerk.

- D. For purposes of **construction contracts**, previously awarded by the board at a public meeting, the Chief Procurement Officer has the authority to approve all change orders pursuant to [Table 1 – Process Thresholds](#) or as authorized by the board. Final pay applications are taken to the board to ratify any changes made through the life of the contract.
- E. Professional Services Contracts (Non-CCNA). Consulting Contract Procurements below the Advertised Bidding Requirement threshold (ABR) do not require a minimum of three (3) Quotes. The requesting department shall submit a purchase requisition for the project with the scope of work to be performed. If the requesting department has designated a Consultant to perform the project, Purchasing will process the request by preparing a Professional Services Agreement for less than ABR.
- F. When the Scope of Services encompasses work of a routine nature, Procurement may approve, with a Scope of Work, a Purchase Order to encumber the funds for the work and issue same to the professional with the requirements for completion of the project.
- G. **Task orders.** A task order is processed whenever new work to be assigned under a previously approved, existing contract; many times, these involve consultant and engineering contracts. All task orders require a written request which has been reviewed and signed signifying approval by the issuing department's director and the vendor/contractor. Approval shall be pursuant to the threshold level for authorization and requires contract coordination where any terms and conditions differ from those set forth in the original contract. All task orders must contain a clearly defined and detailed scope of work, and must not exceed the terms and conditions of the approved contract, unless otherwise approved by the Board. Task order approvals must follow the threshold guidelines.
 - 1. Failure to complete Task Orders in accordance with the approved schedule may be documented and may impact future task assignments causing the firm to not be considered for their next Task Order in the rotation and may impact future task assignments.
 - 2. The Firm shall submit the initial response to a request for a Scope & Schedule within fifteen (15) business days. Failure to submit the documentation shall cause the request for Scope & Schedule to be withdrawn from that Firm and the Task Order will be assigned to the next Firm in the rotation.

All contracts shall be in a form approved by the County Attorney's office.

37. Purchase Orders

- A. A purchase order is prepared for any requisitioned items, regardless of whether a contract is also involved, with the exception of the Purchasing Card purchases and those purchases defined as direct pay (Non-PO).
- B. A completed purchase order shall be sent electronically to the vendor/contractor.
- C. The Procurement Department has the responsibility to review the purchase order and shall verify that the issuing Department has certified that funds are available for the purchase. The funds are encumbered and obligated at this point in the purchasing process.
- D. The Procurement Department shall ensure that the purchase order is uploaded to the Financial Records Management System as that is the official record maintained by the Clerk of Courts.
- E. Purchase orders may be amended to reflect any changes that may have been necessary during delivery of a commodity, supply or service. The increase/decrease shall be approved based on [Use of: Contracts & Purchase Orders.](#)

38. Contracts

- A. When reasonably feasible, contracts will be drafted in a format established by the Procurement Department in conjunction with the County Attorney's Office. A sample of the Contract(s) will be initially drafted prior to advertisement of the procurement and attached as part of the procurement packet.
- B. It is the responsibility of the issuing Departments to submit the following information to the Procurement Department:
 - 1. The scope (including, but not limited to, technical details, and projected compensation amounts);
 - 2. The proposed term of the contract; and
 - 3. If any, the proposed renewal term of the contract.
- C. Once in receipt of the required information, the Procurement Department shall draft a proposed contract, in an approved form, to be submitted as part of the procurement.
- D. Once procurement has been awarded, any necessary changes to the proposed contract shall be made by the Procurement Department in coordination with the issuing Department during the contract negotiation process. Once the contract is in final draft form, the Procurement Department shall coordinate with the County Attorney's Office and Risk Management Department for review and approval of the contract. No contract shall be signed by the vendor prior to contract coordination approval.
- E. The Procurement Department shall establish a central repository of all county contracts, leases, and non-grant agreements.
- F. It shall be the responsibility of the individual departments to assign a department monitor for each of the department's contracts and serve as point-of-contact throughout the term of the contract. Administration of the contract rests with the issuing Department.

CONTINUING CONTRACTS

All continuing contracts shall clearly set forth a defined term and such term may not exceed five (5) years plus a ninety (90) day extension period if allowed by contract to allow for completion of services or re-bid process. Contract terms exceeding the aforementioned term require Board approval. Contracts utilizing Federal funding shall not exceed five (5) years. All continuing contracts shall clearly set forth a total maximum contract value. Such maximum value may be exceeded to allow for completion of a project or re-bid process if approved through an amendment process.

A Performance Evaluation may be performed by the County upon completion of a project.

Past evaluations will become part of current solicitations so that the departments can determine if past performance should be considered, eliminating the vendors whose performance is consistently nonresponsive.

 - a. The County receives an unsolicited proposal.
 - b. Within 60 days of receipt of an unsolicited proposal, the County Administrator or designee may authorize the initial review period or may notify the Proposer that the unsolicited proposal does not comply with the requirements of this policy or that an additional fee is necessary for the initial review period pursuant to Section 44.G.1.
 - d. c. Within 90 days after commencement of the initial review period, the County Administrator will submit a recommendation to the County Commission to: a) reject the unsolicited proposal (for reasons that may be identified by the County Administrator at his/her sole discretion); or b) accept the unsolicited proposal for further consideration and initiate the public bidding phase; or c) accept the unsolicited proposal for further consideration without initiating a public bidding phase. Should the recommendation be made to the Commission to consider the proposal under this option, the proposal will be presented at a duly noticed public meeting for public comment. If the County Commission approves the County Administrator's recommendation to further consider the unsolicited proposal and initiate the public bidding phase, the Administration will release a competitive solicitation inviting other private parties to submit proposals for like projects. The released solicitation will be subject to the statutory cone of silence.
 - e. As part of the public bidding phase, the County may require Proposers, including the Proposer initially submitting the unsolicited proposal, to pay a fee to the County for review and evaluation of the proposals received. Any fees already paid by the Proposer initially submitting the unsolicited proposal may be deducted from the fee required public bidding phase.
 - f. During the public bidding phase, the Proposer initially submitting the unsolicited proposal may, but is not required to, submit a supplemental proposal, however, prior to further consideration of its proposal, the Proposer initially submitting the unsolicited proposal must pay the evaluation fees imposed by the County, less any previously paid fees the County agrees to deduct.

- g. Proposals received in response to the public bidding phase and the unsolicited proposal (or its supplemental version submitted during the public bidding phase) will be evaluated in accordance with the criteria established in the competitive solicitation released by the County. The County Administrator may also recommend to the County Commission a shortlist of Proposers to further interview and consider.
- h. Following the evaluation of proposals received, the County Administrator may make a recommendation to the County Commission to authorize the County Administrator to negotiate with the selected Proposer for an interim Agreement to be followed (at a later date) by a Comprehensive Agreement.
- i. At any time (prior to, during, or after the public bidding phase), the County may reject the unsolicited proposal and any other competing proposal received for the Proposed Project.
- j. At a duly noticed meeting, the County Administrator may recommend the County Commission consider the unsolicited proposal without engaging in a public bidding process, and the County Commission will hear comments from affected public entities and members of the public in making a public interest determination. B. GENERAL PROVISIONS:

1. The County shall not be liable for any costs incurred by the private entities in preparing, submitting, or presenting an unsolicited proposal or competing proposals.

2. Proposer may assert that any trade secrets, financial records, and proprietary or other information in its unsolicited proposal are confidential and exempt from disclosure under applicable Florida public records laws. Such information may be included in the unsolicited proposal, but submitted in a separate, sealed binder, designated on the cover as CONFIDENTIAL MATERIALS. A proposer submitting materials claimed to be confidential shall include a cover letter listing all material designated as confidential and clearly mark each page of any material believed to be a trade secret or other confidential information/document in all capital letters and bold font as CONFIDENTIAL MATERIALS. If any portion of the unsolicited proposal contains non-confidential and confidential information, the Proposer shall provide a redacted copy of the document within three (3) days of request by the County. Failure to properly list a confidential document or the failure to redact a confidential document that is only partially confidential shall result in the waiver of any claim that the document is confidential or that the unredacted document contains confidential information.
3. If any person or entity requests that the County produce or disclose any of said purported confidential documents, the County will advise the Proposer and afford the Proposer an opportunity to protect its assertion that said confidential information is exempt from production. If Proposer fails to timely authorize the production of the information or document and/or fails to timely seek a protective order, and/or is unsuccessful in obtaining a protective order, the County will produce the requested information or document. The County shall not actively contest any request to disclose such alleged confidential information or document and the County cannot guarantee that the alleged confidential document or information may not be disclosed should it ultimately be determined not to be confidential under applicable Florida public records laws. The Proposer shall indemnify the County for any damages and costs the County may incur due to the Proposer's claim that its document or information is confidential or for Proposer's failure to timely seek or obtain a protective order. The County can only agree to advise the Proposer of such request and give the Proposer an opportunity, at Proposer's sole and exclusive cost, to defend the request for disclosure of the confidential information or document in a Court of competent jurisdiction or other applicable forum.
4. Only unsolicited proposals complying with these Guidelines, containing information sufficient for meaningful evaluation, and submitting an application fee will be considered.

C. INTERIM AND COMPREHENSIVE AGREEMENTS:

1. Before approving a Comprehensive Agreement, the County must determine that the Proposed Project:
 - a. Is in the public's best interest if solicited, or in the public's interest in accordance with section A.1.j. herein;

- b. If solicited, is for a facility owned by the County or for a facility for which ownership will be conveyed to the County; if unsolicited and ownership will not be conveyed to the County within 10 years after initial public operation begins, the public benefits apart from ownership are identified and stated by the County in the public interest determination set out in section A.1.j. herein;
 - c. Has adequate safeguards in place to ensure that additional costs or service disruptions are not imposed on the public in the event of material default or cancellation of the Comprehensive Agreement by the County;
 - d. Has adequate safeguards in place to ensure that the County or private entity has the opportunity to add capacity to the Proposed Project or other facilities serving similar predominantly public purposes;
 - e. If the proposal was solicited, will be owned by the County upon completion, expiration, or termination of the Comprehensive Agreement and upon payment of the amounts financed.
2. The terms of any Interim or Comprehensive Agreement to be negotiated shall include, but not be limited to, the scope, design, amenities, total cost, and duration of the Proposed Project. Terms will also include the County's review, approval and control of project design and performance standards for construction, operations, and maintenance, for which compensation to the Proposer may be adjusted should the performance standards not be met. Terms will also include the County's right to inspect construction, operations and maintenance as well as the records relating to the cost of such operations; labor wage and local workforce requirements; periodic financial reporting by the Contracting Person of project financial performance; events of default and the parties' rights and responsibilities in the event of same; fees, lease payments or service payments to be paid under the agreement; and any other terms the County deems appropriate for the Proposed Project. Timelines for the negotiation with the Proposer or bidder will be developed consistent with the scope and timing of the Proposed Project.
3. Any Interim or Comprehensive Agreement shall define the rights and obligations of the County and the Contracting Person with regard to the Proposed Project. Prior to entering into a Comprehensive Agreement, an Interim Agreement may be entered into that permits a Bidder/Proposer or other Private Entity to perform activities, which may be compensable, related to the Proposed Project, usually in the nature of continued due diligence activities to inform the ultimate decision maker about the project's feasibility. The County shall not be bound to enter into a Comprehensive Agreement merely because it entered into an Interim Agreement, however, prior to developing or operating the Proposed Project, the Bidder/Proposer shall enter into a Comprehensive Agreement with the County.

4. Any changes in the terms of an Interim or Comprehensive Agreement, as may be agreed upon in writing by the parties from time to time, and in order to be enforceable, only by written amendment. Verbal changes shall not be enforceable against the County. No act or omission or verbal representation or statement shall be treated as an expressed or implied waiver of this requirement and all waivers shall be in writing signed by the party who is alleged to have waived any of the terms and/or conditions of the agreement. The requirements of this paragraph in particular, shall not be modified, amended or waived except in writing signed by both parties. A Comprehensive Agreement may provide for the development or operation of separate phases or segments of a Proposed Project. Parties submitting bids or proposals understand that representations, information, and data supplied in support of, or in connection with, bids or proposals play a critical role in the competitive evaluation process and the ultimate selection of a bid or proposal by the County. Accordingly, as part of the Comprehensive Agreement, the Bidder or Proposer and its team members shall certify that all material representations, information, and data provided in support of or in connection with a proposal are true and correct. Such certifications shall be made by the Bidder's or Proposer's authorized representative who shall be an individual who has knowledge of the information provided in the proposal. If material changes to any representations, information, and data provided for the proposal occur, the Bidder/Proposer shall immediately notify the County of same in writing. Notwithstanding any language contained within the Interim or Comprehensive Agreement, any violation of this Section shall give the County the right to terminate the agreement, withhold payment, if any is due, and seek any other remedy available under the law.
5. Before awarding a Comprehensive Agreement, the County shall hold a public hearing on the proposal to be awarded. The County may also make available to the public any proposed Comprehensive Agreement before accepting same by posting the agreement on the County's website or by any other manner considered appropriate by the County to provide notice to the public.
6. The County reserves the right at all times to reject any or all bids or proposals at any time before signing a Comprehensive Agreement for any reason and may decline to pursue the Proposed Project. In the latter event, the County may accept new proposals for the Proposed Project should the County choose to restart the process at a later date. Discussions between the County and Private Entities about needed infrastructure, improvements, or services shall not limit the ability of the County to later decide to use standard procurement procedures to meet its infrastructure needs, whether or not the project will be a public/private partnership.

46. Grant Funding

Expenditures other than general or enterprise fund tax dollars may require special processing because of specific legal terms and conditions placed by the funding agency. Grants often have certain purchasing requirements that are different or additional to the County's purchasing manual and require special purchasing procedures.

Unless otherwise specified in the grant, all grant purchases shall follow the County's purchasing manual.

Purchases utilizing federal funds must comply with all requirements of Title 2 of the Code of Federal Regulations (CFR), as amended from time to time, and shall include all federal contract clauses, and Executive Orders, as applicable.

Part 5 - Federal & State Funded Procurements

47. Federal & State Funded Procurements

GENERAL

When property or services are procured using funds derived from a Federal grant(s) or agreement(s) (whether direct to the County or “pass-through” from another entity such as the State), the County is required to and will follow the Federal procurement standards in the “Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards”, 2 C.F.R. Sections 200.213 (current edition) and 200.318 (current edition) through 200.327 (current edition) along with Florida Statutes (current editions).

The County shall use the same procurement policies as otherwise contained in this Procurement Manual to the extent that they do not conflict with Federal and State procurement requirements for grant funded procurements. In the event of a conflict in procurement requirements, Hernando County will follow the most stringent procurement requirements based upon Federal, State and Local guidance.

It is the responsibility of the requesting Department to notify the Procurement Department “and” the Grants Compliance Staff as applicable when Federal or State funds will be used on any particular project, a project change order, and of any special conditions that are imposed upon the County through such funding sources.

For Federally Funded Procurements, the following additional policies shall apply:

- B. Micro-Purchase: \$10,000.00 or less (Non-Competitive).
- C. Small Purchase: \$10,000.01-\$50,000.00 (Competitive Written Quotes Required).
- D. Formal Procurement (Sealed Bids & Proposals): Greater than \$50,000.00 (known as the Advertised Bid Requirement (ABR)).
- E. Noncompetitive Procurement: There are specific circumstances in which noncompetitive procurement can be used. Noncompetitive procurement can only be awarded if one or more of the following circumstances apply:
 - (1) The acquisition of property or services, the aggregate dollar amount of which does not exceed the micro-purchase threshold;
 - (2) The item is available only from a single source;
 - (3) The public exigency or emergency for the requirement will not permit a delay resulting from publicizing a competitive solicitation;
 - (4) The Federal awarding agency or pass-through entity expressly authorizes a noncompetitive procurement in response to a written request from the non-Federal entity; or
 - (5) After solicitation of a number of sources, competition is determined inadequate.
- A. **Equipment:** Management and disposition of equipment purchased with funds deriving from Federal grants shall be in accordance with 2 C.F.R. Section 200.313 (current edition) and

Hernando County Fleet Management Standard Operating Guidelines Surplus. All property acquired must be used for federally authorized purposes until project funding ceases or until the property is no longer needed for the project and shall not be encumbered without approval of the Federal awarding agency. Property will be managed and disposed of as follows:

1. Property records will be maintained that include a description of all Federally funded equipment, a serial number, the source of funding including the Federal Award Identification Number (FAIN), record of title, the date of acquisition, the cost, the percentage of Federal participation in the purchase, the property location, use and condition, and the ultimate disposition of the property.
2. A physical inventory of the property will be performed, and the results reconciled once every - two (2) years.
3. The County's existing and customary property control system will be utilized to ensure against loss, damage or theft.
4. Provide the equivalent insurance coverage for real property and equipment acquired or improved with Federal funds as provided to property owned by non-Federal entities. 2 CFR 200.310 (current edition).

6. Surplus property no longer needed for its original purpose may be used for other Federally supported activities.
7. The County may sell or otherwise dispose of Federally funded equipment with a current fair market value under \$5,000.00 in accordance with its customary surplus property processes (Hernando County Fleet Management Standard Operating Guidelines Surplus). The County will request permission from the Federal granting entity prior to disposal of equipment with a current fair market value over \$5,000.00.

B. **Conflicts of Interest:** All County employees and officers are subject to the provisions of the Code of Ethics for Public Officers and Employees (Sections 112.311 et seq. of the Florida Statutes (current edition)); Procurement Manual – Conflicts of Interest (current edition); Procurement Manual Code of Ethics section in this manual and the provisions governing Federal conflicts of interest outlined herein. The Procurement Department, the Chief Procurement Officer requires its procurement staff to certify annually that they have no conflicts of interest and that they conform to all ethics in the performance of their procurement duties.

1. For Federal and State procurements, no employee, officer, or agent of the County may participate in the selection, award, or administration of a contract supported by a federal award if he or she has a real or apparent conflict of interest. Such a conflict of interest would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the

parties indicated above has a financial or other interest in, or a tangible personal benefit from a firm considered for a Contract. Except as limited by Employee Handbook Policies and Procedures Manual Sections 9.03, 9.04 and 9.14 (current edition), officers, employees, and agents of the County may neither solicit nor accept gratuities, favors, or anything of monetary value from Contractors or parties to subcontracts. Any potential conflicts of interest must be disclosed, in a timely manner and in writing, to the Federal awarding or State pass-through agency. The assigned Grant Project Manager for the grant funded project is responsible for making this disclosure. Please see the Employee Handbook – 9.014 Fraud Prevention and Grant Policy 15-01 Guidelines for Grant Activities (current edition).

2. In addition to the penalties provided in the Florida Statutes, a violation of any provision of the Code of Ethics for Public Officers and Employees, Employee Handbook, or this section, may subject an employee to disciplinary action up to and including discharge from employment.

C. **Suspension and Debarment:** The County is subject to the debarment and suspension regulations implementing Executive Orders 12549 (current edition) and 12689 (current edition), 2 C.F.R. Part 180 per 2 CFR 200.213 (current edition).

1. The County may not enter into an agreement for property or services with an entity or person who has been disqualified (suspended or debarred) from participation in Federal or State programs or activities, unless the Federal or State granting agency grants an exception.
2. The County shall take reasonable steps to determine whether any Vendor, Contractor or Consultant is or has been excluded or disqualified from participating in such transaction. Prior to awarding any bid, the Procurement Department shall check with Florida List of Convicted/Suspended/Discriminatory Vendors, the System Award Management (SAM) to ensure that the Bidder or Sub-contractors, if applicable, are not disbarred or suspended from working with Federal or State funded Contracts.
3. The County shall include a provision in all agreements requiring Contractors, Vendors or Consultants to comply with 2 C.F.R. Part 180 (current edition) when entering into covered transactions (greater than \$25,000.00) with Sub-contractors, Sub-vendors and Sub-consultants, etc.
4. The County shall comply with all reporting requirements as mandated by the Federal and State granting agency.
5. Because the opportunity to participate in competitive solicitations or to supply goods or services to the county is a privilege, not a right, this privilege should be denied to persons or entities that engage or are involved in activities or actions as described herein that adversely impact the quality of goods and services provided to the county for the benefit of the public. In those instances, it is in the best interests of the public to disqualify vendors by suspension or debarment from inclusion on future vendor lists or from consideration for award of new

contracts, work, or any work assignments on existing contracts, based upon documentation that the grounds for suspension or debarment as provided herein exist.

- a. Suspension. A vendor shall be suspended for a period of two years or until the conditions described herein have been rectified or resolved, whichever occurs first, as determined by the Chief Procurement Officer based upon the following:
 - i. The county has formally declared the vendor in breach of a contract that has resulted in the termination of the contract by the county for failure to comply with the conditions, specifications or terms of a contract with the county; or
 - ii. The county has formally disqualified or declared a vendor's bid, quote, or proposal nonresponsive, based on the vendor's fraud or misrepresentation; or
 - iii. The vendor is charged by a court of competent jurisdiction with the commission of a criminal offense as an incident to obtaining or attempting to obtain a public or private contract or subcontract or in the performance of such contract or subcontract; or is charged by a court of competent jurisdiction with the following: embezzlement, theft, forgery, bribery, fraud, falsification or destruction of records, receiving stolen property, or any other offense indicating a lack of business integrity or business honesty which currently, seriously and directly affects responsibility as a county government contractor; or
 - iv. The vendor becomes insolvent, has proceedings in bankruptcy instituted against it, or has a receiver or trustee appointed over its property; or
 - v. The vendor has three or more violations of the code as defined in the Purchasing Code in any two-year period arising from or related to vendor's business activities, as determined in a court or administrative proceeding, including by plea; or
 - vi. The vendor and the county are engaged in adversarial proceedings (i.e., court proceedings, arbitration, or administrative proceeding) arising from or related to the vendor's performance of a contract with the county; or
 - vii. The vendor is suspended by another government entity.
- b. Debarment. A vendor shall be permanently debarred by the Chief Procurement Officer based on the following:
 - i. The county obtains a judgment in an adversarial proceeding between the county and the vendor (i.e., court proceeding, arbitration, or administrative proceeding) arising from the vendor's performance of a contract with the county which remains unsatisfied for a period of 30 days from the expiration of any appeal period or final resolution of any appeal; or

- ii. Vendor conviction by or judgment obtained in a court of competent jurisdiction for commission of those offenses in connection with the vendor's business activities stated in subsection (b)(1)c above; [or]
 - iii. Vendor is debarred by another government entity.
- c. Public entity crime. Notwithstanding any other provision herein, any vendor who has been convicted of a public entity crime as defined by F.S. § 287.133 shall not be able to transact business with the county to the extent as specified in the statute.
- d. Decision. The Chief Procurement Officer shall issue a written notification to suspend or debar based on documentation of the existence of one or more of the conditions described herein. The suspension or debarment shall take effect as of the date of the notification. The notification shall state the basis for the action taken and the period of the suspension, or that the vendor has been debarred. Prior to issuance of written notification, the purchasing director may schedule an informational meeting with the vendor to review the documentation supporting the suspension or debarment. The only issue that shall be considered at the informational meeting is whether the condition giving rise to the suspension or debarment has occurred or taken place.
- e. Effects of suspension and debarment.
 - i. Suspended or debarred vendors are excluded from receiving any new contracts, awards or otherwise providing new goods or additional services during the period of suspension or during debarment; from having any bids, proposals, quotes or qualifications considered by the county or responding to other solicitations of the county; and from conducting business with the county as a subcontractor, representative, or joint venture of other vendors. For the purposes of this subsection (b)(5)a, "new goods or additional services" does not include goods or services provided by the vendor pursuant to a contract, purchase order or work assignment in effect as of the date of suspension.
 - ii. Any business entity controlled by or affiliated with any vendor ineligible for new business pursuant to subsection (b)(5)a may also be prohibited from contracting with the county if the relationship or affiliation is such that the person or business entity by reason of the relationship with the ineligible person or entity could directly benefit from the contract. Such factors as ownership interest, one or more members of the board of officials in common, control of one entity by the other, interlocking or shared management or principals, and limited management and ownership among family members shall be considered in determining ineligibility under this section of this article.
- f. Reinstatement. After suspension or debarment, a vendor is not eligible to contract or be awarded work with Hernando County until reinstated by the Chief Procurement Officer.

The vendor must supply information and reasonable documentation indicating that the conditions causing the suspension or debarment have been rectified or resolved. If the charges referenced in subsection (b)(1)c are dismissed or the vendor is found not guilty, the suspension shall be lifted automatically upon written notification and proof of final court disposition provided by the vendor to the county. If the conviction or judgment referenced in subsection (b)(2)b is reversed through the appellate process, the debarment shall be removed immediately upon written notification and proof of final court disposition from the vendor to the county. As a condition of reinstatement, and with approval of the county administrator, the purchasing director may limit the nature and scope of contractual undertakings that must be satisfactorily completed before seeking additional contracts from the county. Nothing herein prevents the county from granting reinstatement prior to the end of the suspension period or debarment where, in the purchasing director's judgment, the county's interests have been addressed and the vendor to be reinstated is not likely to engage in similar conduct again.

48. Federal & State Funded Procurements (cont'd)

- A. **Settlement of Procurement and Contract Disputes:** Any person or entity wishing to dispute the award of a bid, acceptance of a proposal, other procurement of property or services, or the application or interpretation of a Contract or Agreement relating to property or services procured using Federal or State grant funds shall submit all relevant information to the Chief Procurement Officer (CPO) in accordance with the Procurement Challenge/Protest section of this manual. The CPO shall review all information presented and shall conduct such further investigation as he or she deems appropriate under the circumstances. After review of all relevant information, the CPO shall render a decision concerning the dispute, which decision shall be the final decision of the County.
- B. **Local Preference:** Local Preference will not be used in the evaluation of Bids or Proposals relating to procurements deriving from Federal or State grant funding, unless otherwise provided for in any specific grant Agreement. When contracting for Architectural and Engineering Services, geographic location may be a selection criterion provided its application leaves a number of qualified firms, given the nature and size of the project, to compete for the Contract.
- C. **Minority- and Women-Owned Business Enterprises:** Hernando County does not discriminate on any basis within its Procurement and Contracting process and encourages the participation of minority and women-owned business enterprises (collectively, "MBEs"). Within the limits of the Federal Constitution, the County will consider the firm's status as an MBE or a certified MBE, and the status of any Sub-contractors or Sub- Consultants proposed to be utilized by and encouraged to respond. The County will take and document constitutionally permissible affirmative steps to assure that minority and women-owned businesses (MBE or a certified MBE) are used whenever possible. These steps include, but are not limited to:
1. Placing qualified small, minority- and women-owned businesses on solicitation lists;
 2. Assuring that small, minority and women-owned businesses are solicited whenever they are potential sources;
 3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small, women- and minority-owned businesses;
 4. Establishing delivery schedules, where requirements permit, which encourage participation by small, women and minority-owned businesses;
 5. Using the services and assistance, as appropriate, of organizations such as the Small Business Administration, the Minority Business Development Agency of the Department of Commerce and the Florida Office of Supplier Diversity; and

6. Requiring the prime contractor, if Sub-contracts are to be let, to take these same affirmative steps in the administration of its related Contracts.

D. Procurement of Recovered Materials:

1. The County shall comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act (current edition), when procuring goods funded through Federal grant funding.
2. Whenever feasible, the County will procure items designated in the guidelines of the Environmental Protection Agency (EPA) at 40 C.F.R. Part 247 (current edition) that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000.00 or the value of the quantity acquired during the preceding fiscal year exceeded \$10,000.00.
3. The County will procure solid waste management services in a manner that maximizes energy and resource recovery.
4. The County will maintain an affirmative preference program for procurement of recovered materials identified in the EPA guidelines (current edition). The County may consider the Minimum Content Standard, the Case-by-Case Standard, or a substantially equivalent standard, as set forth in RCRA Section 6002(i)(3) (current edition), as appropriate to any situation.
5. The County may utilize the assistance of Environmental Protection Agency (EPA) Product Resource Guides located at EPA.gov Resource Conservation and Recovery Act (RCRA) Tools and Resources for all product categories for all covered procurements.

- E. Contract Cost and Price:** For every procurement in excess of \$250,000.00 including Contract modifications or change orders greater than \$250,000.00, the County shall perform a cost or price analysis in connection with every procurement subject to Federal procurement guidelines, which shall include an independent estimate of cost prior to receiving bids or proposals. For proposals where price is not considered in the award, profit shall be negotiated as a separate element of the price. In determining whether profit is fair and reasonable, the County shall consider the complexity of work, the risk to be borne by the Contractor, the Contractor's investment, the amount of subcontracting necessary, the quality of the Contractor's record and past performance, and industry profit rates for the surrounding geographical area. "Cost Plus Percentage" methods for determining profit may not be used.

- F. Bonding Requirements:** See section Bonds & Insurance of this manual for applicable provisions.

- G. Award Terms for Never Contract With the Enemy:** 2 CFR 183 Appendix A Applicability §183.10 (optional unless specified in grant award)

1. This part applies only to grants and cooperative agreements that are expected to exceed \$50,000 and that are performed outside the United States, including U.S. territories, and

that are in support of a contingency operation in which members of the Armed Forces are actively engaged in hostilities. It does not apply to the authorized intelligence or law enforcement activities of the Federal Government.

2. All elements of this part are applicable until the date of expiration as provided in law.

H. Federal awarding agencies may include the following award terms in all awards for covered grants and cooperative agreements in accordance with Never Contract with the Enemy:

1. Prohibition on Providing Funds to the Enemy

a. The recipient must –

- i. Exercise due diligence to ensure that none of the funds, including supplies and services, received under this grant or cooperative agreement are provided directly or indirectly (including through subawards or contracts) to a person or entity who is actively opposing the United States or coalition forces involved in a contingency operation in which members of the Armed Forces are actively engaged in hostilities, which must be completed through 2 CFR 180.300 prior to issuing a subaward or contract and;
- ii. Terminate or void in whole or in part any subaward or contract with a person or entity listed in SAM as a prohibited or restricted source pursuant to subtitle E of Title VIII of the NDAA for FY 2015, unless the Federal awarding agency provides written approval to continue the subaward or contract.

b. The recipient may include the substance of this clause, including paragraph (a) of this clause, in subawards under this grant or cooperative agreement that have an estimated value over \$50,000 and will be performed outside the United States, including its outlying areas.

c. The Federal awarding agency has the authority to terminate or void this grant or cooperative agreement, in whole or in part, if the Federal awarding agency becomes aware that the recipient failed to exercise due diligence as required by paragraph (a) of this clause or if the Federal awarding agency becomes aware that any funds received under this grant or cooperative agreement have been provided directly or indirectly to a person or entity who is actively opposing coalition forces involved in a contingency operation in which members of the Armed Forces are actively engaged in hostilities.

2. Additional Access to Recipient Records

- a. In addition to any other existing examination-of-records authority, the Federal Government is authorized to examine any records of the recipient and its subawards or contracts to the extent necessary to ensure that funds, including supplies and services, available under this grant or cooperative agreement are not provided, directly or indirectly, to a person or entity that is actively opposing United States or coalition forces

involved in a contingency operation in which members of the Armed Forces are actively engaged in hostilities, except for awards awarded by the Department of Defense on or before Dec 19, 2017 that will be performed in the United States Central Command (USCENTCOM) theater of operations.

- b. The substance of this clause, including this paragraph (b), is required to be included in subawards or contracts under this grant or cooperative agreement that have an estimated value over \$50,000 and will be performed outside the United States, including its outlying areas.

I. Prohibition on certain telecommunications and video surveillance services or equipment: 2
CFR 200.216

1. Recipients and subrecipients are prohibited from obligating or expending loan or grant funds to:
 - a. Procure or obtain;
 - b. Extend or renew a contract to procure or obtain; or
 - c. Enter into a contract (or extend or renew a contract) to procure or obtain equipment, services, or systems that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. As described in Public Law 115-232, section 889, covered telecommunications equipment is telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities).
 - i. For the purpose of public safety, security of government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities).
 - ii. Telecommunications or video surveillance services provided by such entities or using such equipment.
 - iii. Telecommunications or video surveillance equipment or services produced or provided by an entity that the Secretary of Defense, in consultation with the Director of the National Intelligence or the Director of the Federal Bureau of Investigation, reasonably believes to be an entity owned or controlled by, or otherwise connected to, the government of a covered foreign country.
 - d. In implementing the prohibition under Public Law 115-232, section 889, subsection (f), paragraph (1), heads of executive agencies administering loan, grant, or subsidy programs shall prioritize available funding and technical support to assist affected businesses, institutions and organizations as is reasonably necessary for those affected

entities to transition from covered communications equipment and services, to procure replacement equipment and services, and to ensure that communications service to users and customers is sustained.

- e. See Public Law 115-232, section 889 for additional information.
- J. **Contract Provisions:** All Federal Grant Contracts must contain the applicable provisions described in Appendix II to Part 200 of the Code of Federal Regulations (current edition). All State Grant Contracts or Purchase Orders must contain the applicable provisions required by Florida Single Audit Act Section 215.97 (current edition), Florida Statutes.

49. FTA Recipient Procurement Process

The purpose of this section of the policy is intended to explain the requirements of the Federal Transit Administration "FTA" recipient procurement process.

What to do before the process begins:

A. Determine the Scope of the Procurement

1. To begin the procurement, recipients should first review the original grant/award document and determine the scope and budget of the procurement. The scope of your procurement should coincide with the approved grant/award agreement. Once the goals of the procurement are clear, detailed specifications and a procurement packet can be developed. The recipient should consider the desired goals and outcomes. Clearly stated goals allow recipients to make effective decisions regarding the scope of the procurement and what and how much to purchase.

B. Identify Who Needs to be Involved

1. Internal Resources

- a. Early in the procurement process identify the individuals involved as this will facilitate the overall process and save time in the long term. Depending on the procurement type, seek input from different functional areas in the organization. This could include staff from any or all of the following areas: purchasing, engineering, legal, financial/accounting, managers, drivers, maintenance staff or others. The following work area responsibilities should be considered:
 - i. Department initiating the procurement for items to be purchased;
 - ii. Drivers and maintenance personnel for technical input related to vehicles;
 - iii. Finance for invoicing and payment scheduling;
 - iv. Legal for contracts, bonding, insurance, certification, procurement timetable
 - v. Areas of specialized expertise that can provide technical information on items such as performance standards, evaluation criteria, incentives, required forms or procedures, and desired timetable.

2. External Resources

- a. Consider soliciting outside assistance if your agency is small and has limited procurement experience. This could include legal or other technical assistance in writing specifications, and/or assuring bidder compliance with state, federal or local regulations.

3. Potential resources include:

- a. Technical personnel within the community or neighboring communities
- b. Transit agencies
- c. Local, State and federal agencies
- d. One way to reduce the need for outside assistance is to include language in the procurement package which requires contractors to assume responsibility for compliance with certain process elements included in the bid or proposal.
- e. The recipient of federal funds as the administrator of the procurement and the contract has the ultimate responsibility for compliance with all requirements of the procurement process.

4. Plan the Procurement Process

- a. Once identified individuals have been determined and selected, address the following items with the group:
 - i. Review agency resources in terms of managing the procurement process, and determine if others need to be involved
 - ii. Assign specific responsibilities to each participant
 - iii. Create advertising policies for solicitation or publication of notices
 - iv. Review local, state and federal government requirements
 - v. Clearly identify bidder/proposer responsibilities
 - vi. Establish a communication and reporting process
 - vii. Identify key dates, timeline and frequency of meetings
 - I. Meet as many times as needed to complete the procurement process on time
 - II. Ensure the procurement occurs at the correct time of year. For example, if working on a construction procurement, the specifications should be developed in fall/winter for a spring solicitation, summer construction.
 - viii. Set the meeting schedule to coincide with board or council meetings, if board/council approval is required. If possible, build in extra time if an emergency meeting is warranted.
 - ix. Use the Procurement History File Checklist to ensure proper procurement documents are recorded and organized.

C. Decide the Method of Procurement (2 CFR 200.320);

1. Invitation to Bid (ITB)

- a. The Invitation for Bid (ITB) is a sealed bid and the most common method used in the public sector to obtain specific goods, such as vehicles and equipment. This method is typically used when complete specifications or purchase descriptions are available or can be easily developed. The ITB process must involve two or more bidders and the award is made to the bidder who complies with the requirements and instructions of the ITB, and who offers the lowest total bid price while meeting all specifications and requirements.
- 2. Request for Proposal (RFP)
 - a. The Request for Proposal (RFP) is a competitive solicitation method when a general, rather than specific, description of goods and/or services is used. This method allows for the procurement of goods and/or services in which every detail of the work to be done cannot be specified and/or when creativity on the part of the proposer is desired.
- 3. Request for Qualifications (RFQ)
 - a. The Request for Qualifications (RFQ) process provides information on the background and experience of the proposer. This process is followed by an RFP process, if more than one qualified bidder is available. Frequently, the RFQ and RFP processes are combined into a single "RFP" document. This is used most frequently for A & E solicitations.
- 4. Request for Information (RFI)
 - a. The Request for Information (RFI) process provides technical information on a commodity and allows the recipient to determine if an item is available in the marketplace. In instances in which information on commodities are not readily available, recipients may contact vendors to provide information that can be incorporated into the specifications.
- 5. Sole Source Procurement
 - a. When other than full and open competition is contemplated, procurement methods such as sole source, single bidder proposal, national emergency, etc. can be utilized. Recipients are instructed to follow the procurement requirements for these methods as outlined in FTA Circular 4220 (current edition).
- D. Disadvantaged Business Enterprise (DBE) Requirements 2 CFR 200.321)
 - 1. Disadvantaged Business Enterprise or (DBE) means a for-profit small business that is:
 - a. At least 51 percent owned by one or more individuals who are socially or economically disadvantaged or, in the case of a corporation, in which 51 percent of the stock is owned by one or more such individuals and
 - b. Whose management and daily operations are controlled by one or more of the socially and economically disadvantaged individuals who own it.

2. DBE provisions apply to USDOT assisted contracts for airports, highways and transit. This includes the use of Federal Transit Administration (FTA) planning, capital, and/or operating funds spent on contracts. The FTA requires organizations receiving FTA funds to make efforts to purchase from, or use, DBE firms.

E. DBE Goal Setting

1. Three-Year Goal

- a. An overall goal for DBE participation in FTA assisted contracts is developed by Hernando County Transit and submitted to FTA for review every three years. The goal incorporates the anticipated FTA funded contracting opportunities and subrecipients for a three-year period defined by FTA. Also refer to the Hernando County Transit DBE Program document on the Transit website.

2. Contract Specific Goals

- a. Recipients should determine if a contract goal should be established based on the size and nature of a particular procurement as well as the type and location of work, availability of DBEs to perform the particular type of work, etc.

F. DBE Contract Clauses

1. All FTA-assisted contract solicitations must contain the appropriate FTA clauses. These clauses contain provisions related to DBE requirements.
2. The required contract clauses address non-discrimination, third-party contracting, prompt payment, Transit Vehicle Manufacturer (TVM) certification, termination, and remedies for prime contractors that do not comply.

G. Prompt Payment

1. Prompt payment by prime contractors to their subcontracts is also required, including the return of retainage. While contract-specific goals are not required on all contracts, if a contract-specific goal is established, additional information must be collected from bidders prior to contract award.

H. TVM Certification

1. Recipients must ensure that transit vehicle procurements using FTA funds only occur with TVMs that adhere to FTA requirements. This is done through the inclusion of FTA required contract clauses and a certification, to be completed by the TVM, in the solicitation and pre-award documents. The required process for handling TVM solicitations is included on the procurement checklist for rolling stock.

I. Transit Vehicle Award Report

1. Recipients are required to submit, within 30 days of making an award, the name of the successful transit vehicle manufacturer and the total dollar value of the contract (49 CFR 26.49) using the FTA Transit Vehicle Award Report system. Note: Remember to screenshot the data as it does not automatically generate a confirmation report. The FTA report system and instructions can be found at: <https://www.transit.dot.gov/regulations-and-guidance/civil-rights-ada/eligible-transit-vehicle-manufacturers>
- J. List of Parties Excluded from Federal Procurement or Non-procurement Programs (Debarred List)
1. Recipients are required to ensure that vendors do not appear on the List of Parties Excluded from Federal Procurement or Non-procurement Programs (Debarred List). A printout of the review check for this must be included in the contract file and listed on the file checklist.

50. FTA Required Federal Contract Clauses

The following is the matrix of FTA required contract clauses and federal certifications.

(This matrix does not apply to micro-purchases,¹ except that Davis Bacon requirements apply to all federal construction contracts over \$2,000).

This Matrix is not meant to be all inclusive. Please review the specific funding source, as well as all clauses for applicability to the type of contract and flow down requirements. This matrix was last revised September 22, 2022 and as of the publication of this manual is the most current available version, any subsequent revisions to this matrix will apply (most current version applies).

The Procurement Department will complete the "Cardholder Dispute Form." and notify the bank of the dispute. The bank will research the disputed charge and make the necessary adjustments. Procurement will notify the Cardholder and Department Director of the action taken on disputed items.

When the dispute is resolved, the charge will either be removed from the monthly statement (if the charge was improper) or charged to the Cardholder's department (if research shows the charge was valid).
- C. If items purchased with the Purchasing Card are found defective or the repair or services faulty, the Cardholder has the responsibility to return item(s) to the merchant for replacement or to receive a credit on the purchase. - D. A disputed item must be noted on the Cardholder's Statement.

Dispute policies and procedures of the Purchasing Card Issuer will be provided at the time Purchasing Cards are issued to Cardholder.
