Line Item	Question	Response *	
41	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	In line with our motto, "If you succeed, we succeed," Box Gang Manufacturing offers comprehensive training on the use of compactors and balers to all our customers and their sales teams. This training covers the essential dos and don'ts of compactor operation and provides guidance on maximizing the lifespan of the equipment. Additionally, we address the importance of "right-sizing" equipment for various applications. We extend the same training approach to our hoists, ensuring that users are well-versed in their operation. Furthermore, we provide instruction on selecting the correct container for specific applications and maximizing the effective use of the equipment.	*
42	Describe any technological advances that your proposed Solutions offer.	Telematics for Compacting and Baling Equipment Our compactors and balers are equipped with telematics capabilities, allowing customers and haulers to monitor equipment status and fullness in real time. This feature enables users to extract data, monitor performance, and troubleshoot issues remotely, significantly reducing the need to dispatch crews for problems that can be resolved without a site visit.	*
43	Describe any "green" initiatives that relate to your company or to your Solutions, and include a list of the certifying agency for each.	Require vendors to deliver products on reusable or "CHEP" pallets to minimize the disposal of wooden pallets. Transitioned all halogen lights to LED, resulting in a 22% reduction in energy consumption. Enhanced our processes to decrease scrap generation from 4% to less than 1%.	*
44	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the Solutions included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	Container lids are made from up to 40% post-consumer recycled plastic. We provide clients with credits toward their next purchase and help them save money by reducing overall tipping fees at the landfill..	*
45	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	Our primary attribute is exceptional customer service. We actively listen to our customers to understand their specific requirements. While many applications may be common, each city, municipality, and state has unique needs that must be addressed. By collaborating closely with our customers, we implement tailored solutions rather than adopting a one-size-fits-all approach. Our success is rooted in our commitment to understanding and responding to our customers' needs. For example, when our local fire department faced the challenge of disposing of electric vehicles after fires, we designed and built a container that safely holds an electric vehicle that has caught fire, allowing it to be stored securely until the batteries have cooled. This ensures that the vehicle can be safely disposed of only after the fire department clears it. This joint collaboration exemplifies our dedication to customer service and our commitment to delivering the right product. This container is now included in our proposal to Sourcewell.	*

Provide detailed pricing information in the questions that follow below.

Line Item	Question	Response *	
55	Describe your payment terms and accepted payment methods.	Net 30. We accept cash, Credit cards, ACH or checks	*
56	Describe any leasing or financing options available for use by educational or governmental entities.	Box Gang Manufacturing offers third-party financing options for municipalities through our partnership with NCL, a Sourcewell-approved provider. Our protocol ensures that we present the NCL financing option to municipalities, providing them with the flexibility needed for their purchasing decisions. In addition to financing options, we are also offering competitive rental rates for compactors and balers. Based on feedback from municipalities, we've found that many prefer to rent equipment rather than own it. Our rental rates include preventative maintenance and guaranteed uptime, allowing municipalities to eliminate the need and expense of maintaining the equipment on their own.	*

57	Describe any standard transaction documents that you propose to use in connection with an awarded agreement (order forms, terms and conditions, service level agreements, etc.). We generate estimates that include all pertinent information, such as customer details, shipping and billing addresses, item descriptions, quantities, and prices. Items are flagged as either Sourcewell items or open market items. Once the estimate is approved by the customer, it is changed to "accepted status" in our system and forwarded to production. Upon completion and delivery, the estimate is converted into an invoice, which is then sent to the customer for payment. Please see the attached samples for reference.	*
58	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Yes. No additional cost	*

Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	Our pricing is divided by categories: Steel containers, compactors, hoists, odor control and dewatering boxes. Sourcewell receives a discount off List price. Due to the fluctuation and volatility of the steel market we have added a column with a ceiling price for the different line items. This will be the maximum dollar amount charged in the contract in the event the price of steel continues to increase	*
60	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	The pricing discount is based on the category type and ranges from 5 to 20% off list price	*
61	Describe any quantity or volume discounts or rebate programs that you offer.	N/A	*

These items will be clearly outlined in the orders and will be offered at competitive prices	*
63	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	Items not included in the pricing are freight and installation. We provide site visits and training at no cost to Sourcewell members.	*
64	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	We maintain relationship with major carriers in the US and Canada. The member will have the choice of obtaining shipping on their own or having us arrange the shipping of the ordered product. If we arrange shipping a minimum of 3 quotes will be obtained.	*
65	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	We maintain relationship with major carriers in the US and Canada. The member will have the choice of obtaining shipping on their own or having us arrange the shipping of the ordered product. If we arrange shipping a minimum of 3 quotes will be obtained.	*

67	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed agreement with Sourcewell.
