As homeowners our goal is to have a simpler, more meaningful life with less reliance on external systems and a greater appreciation for the natural world. We plan to use our land to provide for our family and live a healthier lifestyle which is why we are requesting zoning for our property to be changed from residential to residential agriculture. We have a total of 1.2 acres where we plan to raise chickens, livestock, grow vegetable gardens and live off the land. Consuming home-grown, organic food can provide a healthier diet, free from the additives and pesticides found in commercially produced products. Sustainable practices like gardening and composting contribute to a healthier planet and reduces waste.
