thought i would pass on, Mr. Coree who did my driveway apron rough inspection today 4-6-26
i am the property owner and was forced to do my own driveway apron
by mobile home company that installed my mobile home. i spoke with dan in engineering and did as
he instructed. i was very concerned when inspector would come out a month later. Wow Mr. Coree
listened to my concerns and talked me through the process and really took his time to explain every
thing as he was doing his inspection. i can't tell you how much i appreciated his professionalism and
knowledge. he understood why dan was saying what to do because every thing on this property is all
angles road property lines ect. grading was confusing as well of which Mr. Coree recognized right off
and agreed to how it was all done. Thanks Mr. Coree for going above and beyond for me.

Ted Force.
